FROM THE DESK OF PRINCIPAL

The college is progressing both in its infrastructure and academic environment. The college management is encouraging each department to publish research journal to initiate the culture of research in students. Several steps are being initiated to keep the campus and the surroundings clean. The government of Assam provincialised the Commerce stream of the college from 01.01.2013 and so, the college will see a drastic change in that stream. One of the faculties of commerce stream had published one research paper in a journal having impact factor of 5.099 (South Asian Academic Research Journal, Vol- IV, Issue- 10). Hope that more such papers will be published by the faculties of both the streams (Arts and Commerce) and Professional Courses to demonstrate the quality of work.

Date : 31-07-2015

Dr. Amar Saikia
Principal

ACHIEVEMENT

Miss Mridusmita Kalita secured 1st class 3rd position with History as Major subject in the B.A. 6th semester examination 2015 of the Gauhati University.

Editorial

Our motherland of Assam is now marred by varied problems leading to nothing less than chaos. Genocide, terrorism, extortion, corruption, inflation, natural and man-made disasters - Assam has it all.

On the other hand, our children are growing fast amidst these distortions. Such problems affect not only the students but also their parents and guardians whose expectations rest heavily on their ward's shoulders.

The concept of competition further has gained far more importance in today's society rather actual knowledge in the education system. Moreover due to some unscrupulous people in the system, students are not able to reap the benefits of the education system despite of their hard work and labour. Under these circumstances, the responsibility of each and every educational institution is manifold. There was a time when even a third division holder could easily get admission in Dispur college. But now students scoring above eighty percent have sought admission in this college. Moreover, this year the admission procedure got over in the second division itself. The teachers' honest endeavors and the principal's dynamic leadership have payed off, because of which the institution has been able to carve a niche for itself. A positive trend is conspicuous when it comes to taking a look at the college's history. This would not have been possible without the students' hard work and cooperation. I am concluding this editorial with a hope that Dispur college, like a rose, will continue to spread its aroma and freshness defying its stinging thorns.
