## The Global Plastics Treaty Negotiations Analysing the Momentum

Sujeet Yadav

Plastic was once hailed as a revolutionary material, celebrated for its lightweight, flexible, durable, and long-lasting properties. However, over the past five decades, its usage has skyrocketed by twenty times, with projections indicating a doubling in the next twenty years, driven by rising living standards and consumerism. Despite its benefits, the unchecked proliferation of plastic has now emerged as a significant environmental menace as plastics pose a dual threat: greenhouse gas emissions during production and disposal challenges.

The plastic industry heavily relies on fossil fuels for production. From raw material extraction to final product manufacturing, the entire process emits greenhouse gases. Extracting fossil fuels for plastic creation releases CO<sub>2</sub> and CH<sub>4</sub>. Refining oil and gas into plastic precursors emits CO<sub>2</sub>, SO<sub>x</sub>, and NO<sub>x</sub>. Polymerisation, forming polymers from molecules, also demands fossil fuel energy. Overall, plastic production and disposal contribute 3% of global emissions, with 90% stemming from production.

In response to this pressing challenge, the Intergovernmental Negotiating Committee (INC) of the United Nations Environment Programme (UNEP) convened its fourth session (INC-4) in Ottawa, Canada, from April 23 to 29, 2024. The primary objective of INC-4 was to develop an international instrument specifically targeting plastic pollution.

Significant strides were achieved by delegates in advancing the treaty, slated for finalisation by year-end.

Streamlining efforts saw a reduction in the length of the draft text, alongside the establishment of a formal agenda for forthcoming "intersessional" endeavours. These crucial sessions precede the ultimate gathering in Busan, South Korea, set for November 25, when member countries expect to adopt a well-designed treaty that will be the most significant environmental decision since the Paris Agreement and the Kunming Montreal Global Biodiversity Framework.

Ms. Inger Andersen, Executive Director, UN Environment Programme (UNEP) said, post completion of INC-4 negotiation, "We came to Ottawa to advance the text and with the hope that Members (175 countries) would agree on the intersessional work required to make even greater progress ahead of INC-5. We leave Ottawa having achieved both goals and a clear path to landing an ambitious deal in Busan ahead of us. The work, however, is far from over. The plastic pollution crisis continues to engulf the world. I urge members to show continued commitment and flexibility to achieve maximum ambition."

### INC-4: Key Areas of Discussion

- ◆ **Emissions and Releases:** Delegates grappled with the sources of plastic pollution, including emissions and releases into the environment. Addressing industrial discharges, improper waste disposal, and accidental spillage were critical components of these discussions.
- ◆ **Production and Product Design:** Sustainable production practices and innovative product design took center stage. The goal was to minimise plastic waste generation at the source by encouraging eco-friendly manufacturing processes.
- ◆ **Waste Management:** Effective waste management strategies were explored to prevent plastic from infiltrating our oceans and terrestrial ecosystems. Recycling, circular economy models, and responsible

## The Quest for Sustainability Champions in Toy Designing

Ranjana Singh

Play is the cornerstone of a child's learning journey, facilitating their exploration, skill-building, and comprehension of new concepts. As children engage with toys, they immerse themselves in experiences that shape their cognitive, emotional, and social development. Whether it's banging on a drum to discover cause and effect or playing peek-a-boo to grasp the concept of object permanence, every interaction with toys is a learning opportunity.

Moreover, toys not only stimulate cognitive development but also encourage social interaction and emotional expression. When children engage in pretend-play or collaborative activities, they learn valuable skills such as communication, cooperation, and empathy.

### Significance of Toys in Home and School Settings

In today's busy world, with limited leisure time and communication opportunities, parents

express their love by providing toys that entertain and educate. Play becomes a crucial avenue for children to express themselves, learn social skills, and explore problem-solving strategies. Through play, children merge past experiences with new ones, learning about life itself. Toys play a significant role in facilitating these experiences

and shaping children's developmental journey.

In modern education, toys are indispensable for fostering learning through play. Designed by experts in child development, toys stimulate growth across all aspects of a child's development. In classrooms, skilled teachers use toys to unlock each child's unique potential, tailoring

guidance to nurture individual growth with joy and enthusiasm. The synergy between toy designers and educators champions the power of play in education, providing children with engaging opportunities to learn and grow.

### Global Toy Industry: A Brief Overview

The global toy market is anticipated to experience an annual Compound Annual Growth Rate (CAGR) of approximately 3.14% from 2023 to 2030, with the market size forecasted to escalate to around USD 391.62 billion by 2030. This growth trajectory is attributed

# Indian Labs Forge Path to Greener Future

## Finding Sustainable Alternatives to Plastic

World population is projected to increase by over 2 billion in the next 30 years, reaching over 9.5 billion by 2050 and potentially 10.4 billion by the mid-2080s. This growth drives the need for more food and essentials. As middle-class incomes rise, lifestyles evolve towards luxury, with increased spending on ready-to-consume items like ready-to-eat food, necessitating efficient packaging for safety and convenience.

Plastic has been the most commonly used material for packaging. Today, due to its excessive use without evaluating the consequences, plastic pollution has reached at alarming levels, with staggering amounts of plastic waste polluting our oceans, rivers, and landfills. Single-use plastics, in particular, contribute significantly to this crisis, taking hundreds of years to decompose and releasing in ecosystem harmful toxins during the process. From packaging to household items, plastic has infiltrated nearly every aspect of modern life, exacerbating environmental degradation and endangering countless species.

Hence, Indian laboratories are conducting extensive research to reduce, recycle and reuse plastic products. A number of alternatives to plastic products have also been developed by the scientists. Explained below is a brief outline of R&D innovations made by laboratories of the Council of Scientific and Industrial Research (CSIR).

### CSIR-NIIST's Initiatives

CSIR-National Institute for Interdisciplinary Science and Technology (NIIST) based in Thiruvananthapuram, Kerala, has developed remarkable eco-friendly products from biodegradable coir-based pellets made out of coconut husk. These products in the form of garden pots, decomposable core plugs for textile industry, and biodegradable drain cells, serve as an ultimate solution to conventional plastics. The institute has also made biodegradable cutlery out of agricultural waste as an alternative for single-use plastics.

### Innovations of CSIR-CFTRI

**Paper Alternatives for Processed Food Packaging:** CSIR-Central Food Technological Research Institute (CFTRI), based in Mysore,

Karnataka, and the Indian Pulp and Paper Technical Association (IPPTA) have forged collaboration for developing paper alternatives to single-use plastics. CSIR-CFTRI's Food Packaging Technology Department has been working on various food processing techniques that include active, intelligent, and biodegradable packaging. The department conducts R&D projects in food packaging, and works on the food packaging materials' safety evaluation, and foods' shelf-life analysis. As part of the collaboration, CFTRI holds the responsibility of looking after the statutory requirements, product specifications, paper specifications, and forthcoming challenges. The IPPTA, on the other hand, will be implementing the initiatives undertaken by the CFTRI and challenges that might be encountered in achieving the objectives. The initiative aligns with the government's strategy to phase out single-use plastic.

**Freshness Keeper Paper for Cut Flowers:** The global floriculture market is a flourishing market, but fresh-cut flowers face challenges due to their perishable nature and limited shelf life, leading to post-harvest losses. Inefficient post-harvest facilities exacerbate these losses, including poor storage, lack of cold storage and pack house facilities, and inadequate transport options. While various technologies exist to extend shelf life, some are impractical for everyday use.

Transportation and export pose significant challenges for maintaining the quality and freshness of cut flowers. Therefore, CFTRI has developed the 'Freshness Keeper Paper' - a patented technology that is cost-effective, chemical-free, natural bioactive extract-based, specifically tailored for cut rose flowers. This innovation aims to preserve the freshness of cut roses during transportation, cold storage, logistics, and export without disrupting the standard protocols.

**Leaf Cup Machine:** Traditionally, forest and agricultural materials like leaves, leafy sheaths, and pseudostems were utilised for storing or serving food. Through physico-chemical studies, it was discovered that these materials, including banana, beutia, bauhinia, and areca nut sheaths, possess superior functional properties compared to paper. This paved the way for their conversion into small utility items like cups and trays, serving as eco-friendly alternatives to modern paper and plastic materials.

Initial market samples of dry banana and beutia leaves revealed microbial loads, prompting the development of a solution: a brief treatment in a hypo-chlorite solution significantly reduced microbial contamination.

## INTERVIEW

Dr. Sridevi Annapurna Singh,  
Director, CSIR-Central Food  
Technological Research Institute

**Q: Kindly elaborate on the Freshness Keeper Paper developed by CSIR-CFTRI and its significance in preserving cut rose flowers during transportation and storage?**

**A:** The Freshness Keeper Paper is a breakthrough innovation aimed at maintaining the freshness of cut rose flowers during their journey from farm to market. This chemical-free paper, when wrapped around the flowers, creates a protective barrier that enhances their quality and extends their shelf life by up to twofold. By mitigating the effects of transportation and storage on the flowers, this technology indirectly improves the efficiency of the supply chain, particularly benefiting exporters.

**Q: How does the Leaf Cup Machine developed by CSIR-CFTRI contribute to sustainable packaging solutions, and what are its key features?**

**A:** The Leaf Cup Machine represents a significant stride towards sustainable packaging alternatives. It is a simple, pedal-operated device that minimises power consumption, requiring only 300 watts of electric power for its heating units. This machine can be easily operated on domestic power lines, making it accessible in rural areas where electricity is available. By utilising abundant leaf resources such as banana, beutia, bauhinia, and areca nut palm sheaths, it manufactures leaf cups and plates that boast superior hygiene standards. This not only reduces reliance on single-use plastics but also promotes the utilisation of biodegradable materials in packaging.

**Q: How has CSIR-CFTRI's initiatives impacted employment generation, and what are the socioeconomic benefits associated with it?**

**A:** CSIR-CFTRI's initiatives have had a remarkable impact on employment generation, providing livelihood opportunities for over 10 lakh families. Through sustainable packaging solutions like the Leaf Cup Machine, individuals can earn Rs. 500 per day for 200 days annually, amounting to an annual income of Rs. 1 lakh per family. To date, this cumulative income per family stands at an impressive Rs. 40 lakhs. Additionally, the socio-economic impact of these initiatives is substantial, with an estimated cumulative value of approximately Rs. 4 lakh crores. This underscores the transformative potential of sustainable technologies in fostering economic empowerment and environmental stewardship simultaneously.

**Q: What efforts are being made to ensure the long-term success of these initiatives?**

**A:** CSIR-CFTRI is continuously working on the development of various aspects to sustain the initiatives. This includes the ongoing refinement and advancement of biodegradable polymers-based food packaging materials and the exploration of paper as an alternative material. We are also engaged in the development of bioplastic food packaging materials, active and intelligent packaging solutions, and the synthesis of food-safe additives for bioplastics. Furthermore, we are innovating in the realm of sustainable utensils, such as edible-based spoons and cutlery made from millet and millet-processing wastes. Additionally, we are committed to developing new analytical techniques to ensure the safety evaluation of biodegradable plastic materials, thus ensuring the long-term success and effectiveness of these solutions.

### CSIR-NEERI Initiatives

The CSIR-National Environmental Engineering Research Institute (NEERI) and other collaborating organisations have unveiled a comprehensive plan aimed at tackling India's plastic waste crisis. The National Circular Economy Roadmap outlines strategies to enhance the repair, re-use, and recycle of plastic waste, addressing a critical issue in one of the world's largest polymer-producing nations.

This roadmap envisions a future where, by 2035, around two-thirds of plastic waste will be recycled, leading to a gradual phasing out of single-use plastics. Instead of being discarded, plastic waste will be transformed into valuable resources, thereby reducing greenhouse gas

emissions and improving air quality.

The roadmap identifies seven key elements of a circular economy approach, including the development of supportive infrastructure, effective recycling processes, consistent regulatory compliance, promotion of sustainable consumption habits, fostering collaboration in production and design for circularity, raising awareness, and ensuring readiness for implementation. Together, these elements form a holistic strategy to address India's plastic waste challenges and transition towards a more sustainable future.

**Contributed by: Science Media Communication Cell (SMCC), CSIR-NIScPR, New Delhi.**

Employment Generation by Leaf Cup Manufacturing

Continued from page 1

## The Global Plastics Treaty Negotiations Analysing the Momentum

disposal methods were key focal points.

- ◆ **Problematic and Avoidable Plastics:** INC-4 identified specific types of plastics that pose the greatest threat to the environment. Single-use plastics, microplastics, and persistent pollutants were under scrutiny.
- ◆ **Financing and Just Transition:** Financing mechanisms for implementing the treaty were discussed. Ensuring a just transition for communities affected by plastic-related industries was a moral imperative.

### Plastic Value Chain and Challenges

The plastic value chain traces its roots from raw material extraction to end-of-life scenarios, with each stage influencing environmental impacts and sustainability challenges. Since the 1950s, global plastic production has skyrocketed, reflecting its integral role in modern economies and lifestyles.

### Plastic Value Chain

**1. Raw Material Extraction:** Fossil fuels like crude oil and natural gas serve as primary raw materials for plastic production. Extraction processes, including drilling and refining, emit greenhouse gases, underscoring the urgency of transitioning to renewable energy sources.

**2. Plastic Production:** Polymerisation transforms petrochemicals into plastic resin, the foundation for various plastic products. Understanding polymerisation methods and manufacturing processes is essential for optimising efficiency and minimising waste.

**3. Distribution and Supply Chain:** Plastic products traverse extensive distribution networks, requiring efficient logistics to minimise environmental impact. Sustainable warehousing practices and inventory management strategies contribute to environmental responsibility.

**4. Plastic Usage and Consumption:** Plastic finds applications across diverse sectors, including packaging, consumer goods, and construction. Balancing functionality with sustainability is paramount, necessitating responsible material selection and recycling initiatives.

**5. End-of-Life Scenarios:** Recycling and waste management are pivotal in mitigating plastic pollution. Robust collection systems and advanced recycling technologies play a crucial role in diverting plastic waste from landfills and incineration.

Addressing the challenges of the plastic value chain requires a collaborative effort across industries, governments, and consumers. Embracing circular economy approaches, investing in recycling infrastructure, and promoting sustainable alternatives are crucial steps towards a more responsible and environmentally conscious future in the realm of plastics.

### The Indian Perspective: Consensus over Voting

In its national statement, India has clearly stated that the INC should focus on creating a treaty to end plastic pollution without enforcing binding targets or caps on plastic polymer production.

"The legally binding instrument should aim to end plastic pollution by addressing the availability, accessibility, and affordability of alternatives, including cost implications. It should also specify arrangements for capacity building, technical assistance, technology transfer, and financial assistance. Additionally, the cost and environmental benefits of

alternative polymers should be taken into consideration," the statement reads.

- ◆ **Consensus-Backed Moves:** India advocates for consensus-backed decisions rather than relying solely on a voting-based approach. India recognises that achieving unanimity among Member States is essential for effective implementation of the treaty. By seeking consensus, India aims to ensure that the instrument reflects the collective will of all stakeholders.
- ◆ **Common but Differentiated Responsibilities:** India invoked the principle of Common But Differentiated Responsibilities (CBDR) during the closing plenary of INC-4. This principle acknowledges that countries have varying capacities and historical contributions to plastic pollution. India emphasised the need to tailor solutions to national circumstances and capabilities, respecting the diverse developmental contexts.
- ◆ **Balancing Environmental Concerns and Development:** While addressing plastic pollution is crucial, India recognises that plastics have played a significant role in societal development. Plastics are integral to various economic sectors, including agriculture, healthcare, and infrastructure. India advocates for a balanced approach that considers the impact on Sustainable Development Goals (SDGs), such as food security, economic well-being, and water security.
- ◆ **Voluntary vs. Legally Binding:** Unlike some other countries, India does not advocate for a legally binding instrument. The nation seeks practical solutions that align with its developmental imperatives.
- ◆ **Scientific Guidance and Upstream Production:** India recognises the importance of scientific guidance in shaping effective policies. India's fossil fuel and petrochemical industries, including lobbyists, had a presence during the negotiations. India aligned itself with the perspective against measures directly limiting upstream production of plastic feedstock. India believes that as the negotiations continue, the global community must find a delicate balance between environmental protection and sustainable development.

### The Magnitude of Plastic Problem and India's Position

Projections indicate that the worldwide production of thermoplastics is set to reach 445.25 million metric tonnes by 2025. This trajectory suggests that annual production volumes will continue their upward trend in the subsequent years, reaching an estimated 590 million metric tonnes by 2050. This surge represents an increase of over 30 percent compared to the anticipated production levels in 2025. Notably, between 2010 and 2020, global plastic production witnessed a substantial rise, soaring from 270 million metric tonnes to nearly 370 million metric tonnes.

- ◆ Global plastic usage has increased twenty-fold over the past 50 years and is projected to double in the next 20 years due to its durability and flexibility.
- ◆ Developed nations export more plastics than developing countries, contributing significantly to global plastic pollution.
- ◆ Of the total plastics produced globally from 1950 to 2015, 55 percent ended up in landfills, while only 6 percent were recycled.

## Employment News

### Question of the Week

**The Council for the Indian School Certificate Examinations has recently integrated its database with DigiLocker whereupon students can now effortlessly access their exam results and certificates with just a tap on their phone screens. Other education boards and exam conducting agencies are gearing up to follow suit. In what ways do you think this tech upgrade will make things easier and more convenient for students?**

Entries may be sent to [writetous.en@gmail.com](mailto:writetous.en@gmail.com) latest by **29/05/2024** in English/ Hindi/ Urdu and should be of **200 to 250 words**. Entrants must clearly mention their **Name, Age, Full Address, Email ID and Contact No.** The entry adjudged best will be published in **Employment News/Rozgar Samachar issue (dated 8 - 14 June 2024)** and will be eligible for a **three-month free subscription of Yojana/ Kurukshetra/ Aikya** as per the winner's choice.

- ◆ The global trade in plastic waste, particularly from developed to developing countries, exacerbates environmental pollution and health risks.
- ◆ India struggles with managing a significant portion of its plastic waste, prompting the need for a circular economy roadmap with a focus on recycling solutions.
- ◆ India ranks among the top five global polluters, generating approximately 4 million tonnes of plastic waste annually.
- ◆ Plastic consumption in India surged from 14 million tonnes in 2016-17 to 20 million tonnes in 2019-20, with key contributors being Maharashtra, Gujarat, and Tamil Nadu.
- ◆ Plastic waste generation in India nearly tripled to 4.1 million tonnes in 2020-21, primarily from packaging, automotive, agriculture, and textiles sectors.
- ◆ India's urban waste management systems face challenges, achieving only around 85-86 percent collection efficiency in Municipal Solid Waste (MSW).
- ◆ Mismanaged plastic waste poses significant risks to water systems in India, especially during monsoons, leading to blockages and ocean pollution.
- ◆ India's Plastic Waste Management Amendment Rules 2021 aim to reduce pollution from single-use plastics by banning items like plastic cutlery and earbuds with plastic sticks.
- ◆ Corporate responsibility initiatives could enhance consumer awareness and serve as models for sustainability.
- ◆ Proposed actions include reducing non-recyclable plastics production, improving recycling infrastructure, and formalising waste collection systems.
- ◆ Policy challenges, such as enforcing bans on single-use plastic and incentivising waste segregation, require targeted capacity-building for Small and Medium Enterprises (SMEs) and investments in recycling infrastructure and innovations for plastic end-of-life solutions.

Currently, the linear approach to plastic production not only contributes to the depletion of oil and gas resources but also generates vast amounts of single-use plastics, leading to extensive waste issues. In many countries, including India, despite ongoing recycling efforts, a substantial portion of plastic waste remains inadequately managed.

To address these challenges, India has adopted a circularity roadmap, aiming to reduce reliance on fossil fuels, promote recycling, minimise plastic pollution, and encourage the adoption of recyclable and economically viable alternatives. However, the roadmap also underscores obstacles such as limited biomass

availability, the need for market development for recycled plastics, and technological constraints in eco-design.

Effective implementation of the circularity roadmap necessitates collaborative efforts involving governments, industries, academia, and the informal sector. Moreover, regular monitoring and flexibility in approach are crucial to ensure optimal outcomes and facilitate necessary adjustments along the way.

### Looking Ahead: INC-5 and Beyond

As the Ottawa meet concludes, our gaze shifts to Busan, South Korea, where the fifth session (INC-5) awaits in November 2024.

The fourth round of discussions concluded with progress towards a final agreement to "end plastic pollution." While delegates made headway in streamlining the draft text and setting an agenda for upcoming intersessional work, contentious issues regarding limiting plastic production remained unresolved.

Environmental advocates expressed disappointment at the lack of concrete action on reducing plastic production. Despite widespread support for addressing the "full life cycle" of plastics, concerns about deep-rooted industry influence and opposition from oil-producing states like Saudi Arabia, Kuwait, and Qatar persisted.

Industry lobbying groups, such as the International Council of Chemical Associations, emphasised the societal benefits of plastics, advocating for a treaty that balances environmental goals with preserving the advantages of plastic materials. Meanwhile, the event also saw some lobbyists publicising pro-plastic advertisements that highlighted the role of plastics in saving lives, delivering water, and reducing food waste, underscoring the industry's perspective.

Despite these challenges, observers noted a positive shift in the negotiating tone compared to previous meetings. While ambitious provisions regarding limiting plastic production remain on the table, delegates also focused on health-related aspects, particularly regulating potentially hazardous chemicals in plastics.

The upcoming months will be crucial as delegates work towards finalising the treaty by the end of the year. While disagreements persist on various issues, including funding mechanisms and regulatory frameworks, there is cautious optimism that incremental progress can lead to meaningful outcomes in addressing plastic pollution.

**(The author is a Delhi-based correspondent of an international multi-media platform. Feedback on this article can be sent to [feedback.employmentnews@gmail.com](mailto:feedback.employmentnews@gmail.com)).**

**Views expressed are personal.**

# Ecosystem Engineers at Risk

## The Importance of World Turtle Day

**Dr. Manish Mohan Gore**

In nature, living beings and inanimate elements intertwine, each with its designated role in the delicate ecosystem. However, human interventions disrupt this harmony, threatening the very fabric of existence for countless species, driving some to the brink of extinction. One such creature that has been perilously pushed to the brink of extinction is the turtle.

A creature that has inhabited this planet for 200 million years, dating back to the time of the dinosaurs, is the turtle, one of the oldest reptile groups. The existence of turtles predates those of snakes, crocodiles, and alligators, and they boast incredibly long lifespans. However, numerous turtle species face endangerment. Of the 300 turtle species on Earth today, 129 are classified as vulnerable, endangered, or critically endangered by the International Union for Conservation of Nature (IUCN). Threats to turtles include habitat loss, pollution, poaching, and the illegal pet trade.

World Turtle Day, celebrated annually on May 23rd, is dedicated to the preservation and conservation of turtle species. This day promotes efforts to safeguard turtles and their habitats, highlighting their crucial role in preserving ecological equilibrium. By fostering education, advocacy, and community involvement, World Turtle Day inspires individuals to contribute to the conservation of these remarkable creatures, acknowledging their cultural, ecological, and scientific importance for generations to come.

### Zoological Characteristics of Turtle

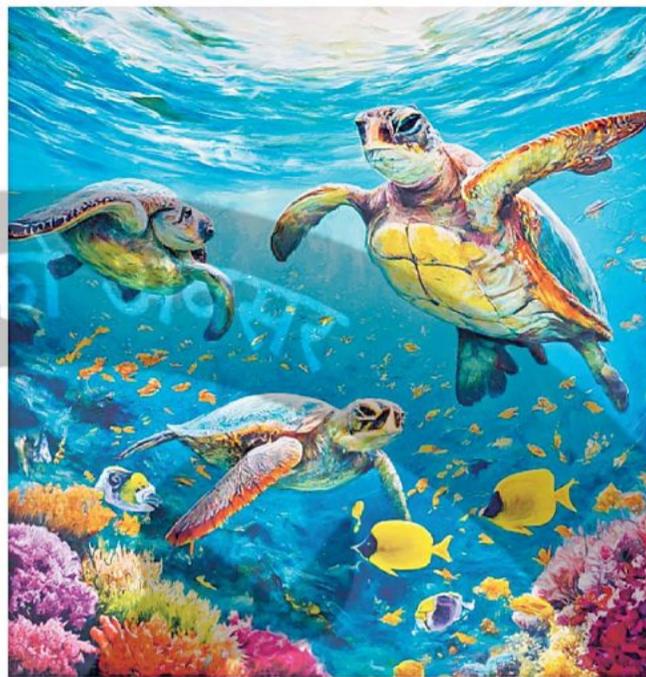

Turtles are amazing and fascinating reptiles with unique zoological characteristics that set them apart from other animals. Firstly, they are known for their protective shell, which consists of two main parts, the carapace (upper shell) and the plastron (lower shell). This shell serves as both armour and a home to the turtle, providing crucial protection from predators and environmental hazards.

Turtles are ectothermic. It means, they rely on external sources of heat to regulate their body temperature. They are also oviparous, laying eggs on land in nests dug by the female. Some species of turtle exhibit temperature dependent sex determination, where the temperature during egg incubation influences the sex of the offspring.

Their aquatic lifestyle is supported by streamlined bodies and flipper like limbs adapted for swimming. However, some species, like tortoises, have evolved to live primarily on land and possess more dome-shaped shells and sturdy legs for terrestrial locomotion.

Turtles exhibit a diverse range of dietary habits, including herbivory, omnivory, and carnivory, depending on the species. Their beaklike mouths are adapted to their specific diets, whether it's foraging on plants, scavenging for carrion, or capturing prey.

Remarkably, turtles have long lifespans, with some species living for decades or even centuries. Their slow growth rate and low metabolic rate contribute to their longevity,

23rd May: World Turtle Day

making them symbols of wisdom and resilience in many cultures.

### Role of Turtles in Ecosystem

**Regulation of Prey Populations and Vegetation Growth:** Turtles, whether omnivores, herbivores, or carnivores, contribute to ecosystem balance by regulating populations of prey species and controlling vegetation growth. For instance, their consumption of aquatic plants prevents overgrowth, thus preventing habitat degradation and maintaining biodiversity in freshwater ecosystems.

**Predation and Food Web Dynamics:** Turtles serve as prey for various predators, including birds, mammals, and larger reptiles, providing sustenance for higher trophic levels and enhancing ecosystem stability.

In some cases, turtles scavenge on carrion, aiding in nutrient cycling and decomposition processes.

**Ecosystem Engineering in Aquatic Environments:** Turtles act as ecosystem engineers, particularly in aquatic environments, by aerating soil and creating microhabitats through nest digging for egg laying. These nests also serve as nutrient-rich substrates for plant growth, promoting vegetation establishment and enhancing habitat complexity.

**Seed Dispersal:** Turtles play a crucial role in seed dispersal, both aquatic and terrestrial, as seeds can adhere to their bodies or be ingested and later excreted intact. This dispersal mechanism facilitates plant colonisation and gene flow across landscapes, contributing to ecosystem resilience and the regeneration of disturbed areas.

**Maintenance of Coastal and Marine Ecosystems:** Sea turtles play critical roles in coastal and marine ecosystems by grazing on algae, preventing algal overgrowth that can smother coral and inhibit reef growth. Their foraging behaviour also helps maintain sea grass meadows, which serve as nursery areas for many marine species and provide essential habitat and food resources.

### Threats to Turtle Survival

**Habitat Loss and Degradation:** Urbanisation, agriculture, and infrastructure development destroy and fragment turtle habitats, reducing nesting sites and foraging grounds. Wetland drainage disrupts breeding cycles and diminishes access to essential resources for freshwater turtle species.

**Pollution:** Chemical pollutants from agriculture, industry, and urban waste contaminate water bodies, compromising water quality and turtle health. Plastic pollution poses a significant threat as turtles ingest plastic debris, leading to internal injuries or blockages.

**Climate Change:** Climate change presents additional challenges for turtle survival, impacting nesting sites, and altering habitat conditions.

**Overexploitation:** Hunting, poaching, and illegal wildlife trade drive turtle decline, fuelled by demand for meat, eggs, shells, and body parts. Unsustainable harvesting practices and slow reproductive rates hinder population recovery efforts.

**Light Pollution:** Artificial lights from coastal development disorient hatchlings during nesting season, leading them away from the ocean towards danger. Disrupted circadian rhythms affect navigation, feeding, and reproduction, posing long-term threats to turtle populations. Mitigating light pollution through shielding or reducing coastal lighting and implementing turtle-friendly lighting ordinances is crucial for turtle conservation. Raising awareness about the impacts of light pollution on marine turtles is essential for their long-term survival.

### Why Do We Observe World Turtle Day?

World Turtle Day provides a significant platform for raising awareness about conservation of turtles and its broader implications for biodiversity preservation. Through educational initiatives, advocacy campaigns, and community involvement, the day underscores the crucial role of turtles in ecosystems and the pressing need to address the threats they encounter. It aims to inspire both individual and collective action by informing the public about the challenges facing turtle populations and encouraging proactive measures to protect turtles and their habitats. This involves efforts such as reducing plastic pollution, supporting habitat restoration, and advocating for stronger conservation policies. Additionally, World Turtle Day facilitates collaboration among governments, conservation organisations, researchers, and local communities to develop and implement effective conservation strategies. Ultimately, conservation initiatives targeting turtle populations not only benefit these iconic reptiles but also contribute to the overall health and resilience of ecosystems, underscoring our shared responsibility to safeguard turtles and preserve the diverse array of life on Earth.

(The author is a Scientist with CSIR-National Institute of Science Communication and Policy Research, and Editor, 'VigyanPragati')

Views expressed are personal.

## How to Conserve Turtle Population?

Conserving turtle populations requires a multifaceted approach that addresses various threats and incorporates both local and global strategies:

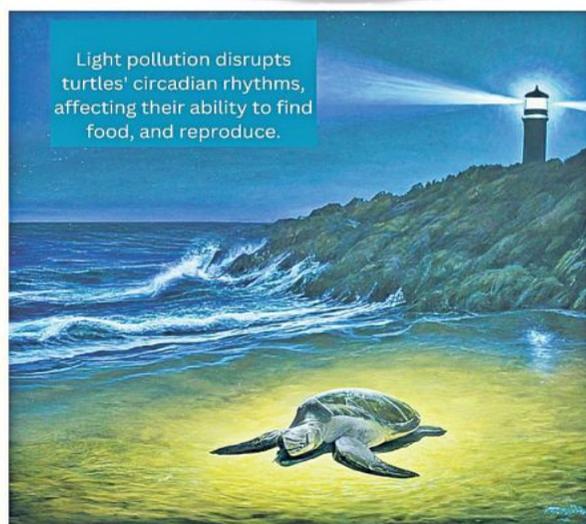

**Habitat Protection/Restoration:** Preserving critical turtle habitats necessitates the establishment of protected areas such as marine reserves, wildlife refuges, and conservation corridors, encompassing nesting beaches, foraging grounds, and migration routes to ensure population sustainability. Additionally, restoring degraded habitats like wetlands, mangroves, and coral reefs can enhance nesting success and provide essential resources for turtles. This restoration involves actions such as replanting native vegetation, controlling invasive species, and mitigating coastal erosion, contributing to the long-term conservation of turtle populations.

**Reducing Pollution:** Implementing measures to reduce pollution, such as regulating industrial discharge, improving waste management practices, and promoting plastic reduction initiatives, can improve water quality and mitigate the impacts of pollution on turtle populations.

**Combating Illegal Trade:** Strengthening law enforcement efforts to combat illegal wildlife trade, including increased surveillance, stricter penalties for poaching and trafficking, and collaboration with law enforcement agencies, is crucial for reducing the exploitation of turtles for their meat, shells, and other body parts.

**Bycatch Mitigation:** Implementing bycatch reduction measures in fisheries, such as the use of turtle excluder devices (TEDs) in trawl nets, circle hooks in longline fisheries, and time and area closures during peak turtle migrations, can minimise incidental capture and mortality of turtles.

**Community Engagement:** Engaging local communities in turtle conservation efforts through education, outreach programmes, and capacity building initiatives can foster stewardship and support for conservation initiatives.

Light pollution disrupts turtles' circadian rhythms, affecting their ability to find food, and reproduce.

# INDIAN INSTITUTE OF TECHNOLOGY BOMBAY

Powai, Mumbai-400 076

## Advertisement No. RECT/ADMIN0003/2024

Indian Institute of Technology Bombay, an Institute of national importance adjudged as Institute of Eminence, invites online application for following position(s)/ vacancy (ies) of the post(s):

Sr. No.	Name of the Post	Pay Details	No. of Position(s)/ Vacancy (ies) & Reservation
1.	Sr. Technical Officer (Scale-A) (Job Ref. No. 50571275)	Pay Level 12 (78800 - 209200)	1 Position (UR)
2.	Sr. Technical Officer (Scale-A) (Job Ref. No. 50573591)	Pay Level 12 (78800 - 209200)	1 Position (UR)
3.	Administrative Superintendent (Job Ref. No. 50573748)	Pay Level 6 (35400 - 112400)	17 Positions (1 ST, 4 OBC-NCL, 10 UR, 2 EWS) {Out of 17 positions, 2 positions are reserved for PwD (1 VH and 1 HH)}
4.	Administrative Superintendent (Job Ref. No. 50575103)	Pay Level 6 (35400 - 112400)	2 Positions (1 SC, 1 ST) {Backlog Vacancy}
5.	Administrative Superintendent (Office of the Dean IR) (Job Ref. No. 50551043)	Pay Level 6 (35400 - 112400)	1 Position (UR)
6.	Technical Superintendent (Medical) (Job Ref. No. 50506478)	Pay Level 6 (35400 - 112400)	1 Position (UR)

# भारतीय वायु सेना / Indian Air Force

INVITES UNMARRIED INDIAN MALE AND FEMALE CANDIDATES TO APPEAR IN RECRUITMENT RALLY FROM 03 JULY 2024 TO 12 JULY 2024 AT 3 ASC C/O AIR FORCE STATION KANPUR (UTTAR PRADESH) AND 7 ASC, NO. 1 CUBBON ROAD, BENGALURU (KARNATAKA) TO JOIN THE IAF AS AGNIVEERVAYU (MUSICIAN)

**FOR AGNIVEERVAYU INTAKE 01/2025**

## CAUTION

SELECTION IN THE INDIAN AIR FORCE IS 'FAIR & TRANSPARENT' AND ON MERIT ONLY. AT NO STAGE ANY BRIBE IS REQUIRED TO BE PAID TO ANYONE FOR SELECTION OR RECRUITMENT IN THE INDIAN AIR FORCE. CANDIDATES SHOULD NOT FALL PREY TO UNSCRUPULOUS PERSONS POSING AS RECRUITING/SELECTING AGENTS.

1. Indian Air Force offers opportunities for **UNMARRIED INDIAN MALE & FEMALE CANDIDATES** from all the districts of all States and all Union Territories of India to join the IAF as Agniveervayu (Musician). The Recruitment Test will be held at **3 ASC C/O AF Stn Kanpur and 7 ASC, No. 1 Cubbon Road, Bengaluru** as per the following selection programme:-

DATE	SUB-STREAM	ACTIVITIES	DISTRICTS TO BE COVERED
03 July 2024 to 12 July 2024	Agniveervayu (Musician)	Proficiency test in playing musical instruments, English written test, Physical Fitness Test I & II, Adaptability Test-II and Medical Appointments	All the districts of all States and all Union Territories of India

**Note:** Registration for the rally will start at 1100 hrs on 22 May 2024 and will close at 2300 hrs on 05 June 2024 on web portal <https://agnipathvayu.cdac.in>. Only registered candidates issued with Provisional Admit Card are allowed to appear in the Recruitment Rally.

2. The recruitment test shall be conducted as per the details given above. Only candidates fulfilling eligibility conditions are to report as per the date, time and venue mentioned in Provisional Admit Card. Candidate must indicate two choices of venue for Recruitment Rally in order of preference during online registration. However, CASB reserves the right to allot venue for the Recruitment Rally which may or may not be as per choice of the candidate.

**Note:** Candidates are to report at the designated rally venue on scheduled date/time as mentioned in the Provisional Admit Card without fail. They have to cater for any contingencies including late running of trains while planning their move.

**THE SELECTION TEST IS NOT FOR SELECTION AS COMMISSIONED OFFICERS/ PILOTS/NAVIGATORS/AIRMEN.**

## ELIGIBILITY CONDITIONS

### 3. Date of Birth Block.

(a) Candidates born between **02 January 2004 and 02 July 2007 (both days inclusive)** are eligible to appear in the Recruitment Rally.

4. Marital Status and Pregnancy. Only unmarried candidates (male & female) will be eligible for enrolment as Agniveervayu and they shall undertake not to marry during the defined engagement period of four years. Keeping in view limited period of engagement of Agniveervayu inclusive of training, skill development activities, practical as well as formative assessment and organisational requirement of continued service of Agniveervayu during the engagement period, longer absence of Agniveervayu during the engagement period will adversely affect the operational efficiency of the Indian Air Force. Agniveervayu who marry during the said period shall be discharged from the service. Further, only unmarried Agniveervayu will be eligible for selection in regular cadre as Airman. Female candidates additionally shall be required to undertake not to get pregnant during the engagement period of four years. Such women Agniveervayu on becoming Low Medical Category (LMC) due to pregnancy shall be liable to be discharged from service. Pregnancy will debar the women Agniveervayu for selection into Regular Cadre. At the time of enrolment, candidates shall require to sign a voluntary undertaking accepting above conditions".

### 5. Educational Qualification and Musical Proficiency.

(a) Educational Qualification. Passed Matriculation / 10th or equivalent with minimum pass marks from any Govt. recognized School/ Board.

#### (b) Music Ability.

(i) Candidates must have proficiency in music with accuracy in tempo, pitch and singing one complete song. They should be able to perform one preparatory tune and any of the notations i.e. Staff notation/ Tablature/ Tonic Solfa/ Hindustani/Carnatic etc. Candidates must be able to tune individual instruments (in case of instruments require tuning) and match unknown notes on vocal or instruments.

(ii) Candidates must have proficiency in playing any one instrument from list A or B.

#### List - A

1. Concert Flute / Piccolo.
2. Oboe.
3. Clarinet in Eb / Bb.
4. Saxophone in Eb / Bb.
5. French Horn in F / Bb.
6. Trumpet in Eb / C / Bb.

#### List - B

1. Keyboard / Organ / Piano.
2. Guitar (Acoustic / Lead / Bass).
3. Violin, Viola, String Bass.
4. Percussion / Drums (Acoustic/ Electronic).
5. All Indian Classical Instruments.

7. Trombone in Bb / G.

8. Baritone.

9. Euphonium.

10. Bass / Tuba in Eb / Bb.

(iii) It is desirable that the candidates have proficiency in playing two instruments (one each from list A & B above).

(c) Musical Experience Certificate. Candidates should have any one of the following experience certificates:-

(i) Grade 5th or equivalent or above in one instrument from a recognized music institute such as TCL or RSM, KM Music Conservatory, Bangalore School of Music, TSM, GMI, Berklee School of Music etc.

OR

(ii) Diploma or equivalent in the field of music for candidates performing Hindustani or Carnatic Classical Music from any recognized University.

OR

(iii) Certificate of participation/ awards presented at various events. For such candidates' performance/ playing of blowing instruments with staff notation as mentioned in Educational QRs.

#### (a) Height:

(i) For Male candidates: Minimum acceptable height is 162 cms.

(ii) For Female candidates: Minimum acceptable height is 152 cms. For candidates belonging to North East or hilly regions of Uttarakhand, a lower minimum height of 147 cms will be accepted. In case of candidates from Lakshadweep, the minimum height will be 150 cms.

**Note:** Candidates availing height relaxation for being domicile of North East/Hilly Regions of Uttarakhand/Lakshadweep are to submit domicile certificate with endorsement of domicile status at the time of Recruitment Rally. Further, candidates from hilly regions of Uttarakhand must have specific endorsement of hilly region in their domicile certificate.

(b) Weight: Weight should be proportionate to height and age as applicable for IAF.

#### (c) Chest:

(i) For Male Candidates: The chest wall should be well proportioned and well developed. Minimum chest circumference should be 77 cms and the chest expansion should be at least 05 cms.

(ii) For Female candidates: The chest wall should be well proportioned and well developed with the minimum range of expansion of 05 cms.

(d) Hearing: Candidate should have normal hearing i.e. able to hear forced whisper from a distance of 6 meters by each ear separately.

(e) Dental: Should have healthy gums, good set of teeth and minimum 14 dental points.

#### (f) Visual Standards:

Visual Acuity	Maximum limits of Refractive error	Colour Vision
6/12 each eye, correctable to 6/6 each eye	Hypermetropia: +2.0D Myopia: 1D Including $\pm$ 0.50 D Astigmatism	CP-II

**Note:** Candidates should bring latest prescription (not older than one month) and spectacles for corrected vision, if used. The prescription must bear the diopter measurement, name, signature, stamp and registration number of Ophthalmologist. Date of prescription should be within a month prior to appearing for medical examination.

(g) Corneal Surgery (LASIK/RK/PRK) is not acceptable.

(h) General Health. Candidate should be fit for the Air Force, must conform to the medical standards and should be of normal anatomy without loss of any appendages. He/She should be free from any active or latent, acute or chronic, medical or surgical disability or communicable disease, infection and skin ailments. Candidates shall be physically and mentally FIT to perform duty in any part of the world, in any climate and terrain.

(j) Gynaecological Examination (For female candidates): The examination covers external genitalia, hernia orifices and the perineum, any evidence of stress urinary incontinence or genital prolapse outside introitus.

Continued from page 14

(k) **Gender:** Any candidate if found to have predominant characteristics of the opposite gender as evident on external physical examination, will be rejected as Unfit. Any candidate having undergone gender reassignment surgery will be declared Unfit.

(l) **Pregnancy (For female candidates):** Any candidate, if found pregnant shall be disqualified and her candidature will be rejected.

(m) Details of medical standards are available on CASB web portal <https://agnipathvayu.cdac.in>.

**7. Consumption of Narcotic Drugs and Psychotropic Substance (NDPS).** Consumption of Narcotic Drugs and Psychotropic substances banned under the NDPS Act 1985 shall be a reject criteria for selection into the IAF. Agniveervayu found either in possession or storing or distributing or consuming such drugs and substances after enrolment shall be liable for disciplinary action including dismissal from the IAF. **ZERO TOLERANCE POLICY TO ALCOHOLISM AND SUBSTANCE ABUSE IS FOLLOWED IN IAF.**

**8. Body Tattoo.** Permanent body tattoos are not permitted. However, tattoos only on inner face of the fore arms (inside of elbow to the wrist), back (dorsal) part of the hand/ reverse side of the palm and Tribals with tattoo which are as per the customs and traditions of their tribes may be considered. Offensive, obscene, indecent, sexist or racist tattoos are prohibited regardless of location on the body. However, right to consider a tattoo acceptable or unacceptable will rest with the selection centre. **Candidates with permanent body tattoos are to submit two Postcard size photographs (close up and distant view) with details of size and type of the Tattoo during the testing.**

Date:

**TERMS AND CONDITIONS**

**12. Agniveervayu** will be enrolled in the Indian Air Force under Air Force Act 1950, for a period of **FOUR years**. Agniveervayu would form a distinct rank in the Indian Air Force, different from any other existing ranks. The Indian Air Force is not obliged to retain Agniveervayu beyond the engagement period of four years.

**13.** On completion of four years of service, based on organisation's requirements and policies promulgated by the Indian Air Force, Agniveervayu will be offered an opportunity to apply for enrolment in the regular cadre of the Indian Air Force as Airman. These applications will be considered in a centralised manner based on objective criteria, including performance during their four-year engagement period and up to 25% of each specific batch of Agniveervayu will be enrolled in regular cadre of IAF. **Agniveervayu will not have any right to be selected for further enrolment into the Indian Air Force. Selection of the Agniveervayu for further enrolment, if any, shall be at the discretion of the Government of India.**

**14. Job Specification & Employability.** As a musician you will become a part of the Air Force Band. If you join the Air Force as a musician you will be trained to play different musical instruments. Agniveervayu enrolled under this entry are also liable to be assigned any duty in organizational interest at the discretion of the Indian Air Force.

**15. Training.** On being enrolled, apart from training of playing various musical instruments, Agniveervayu will be imparted military training based on Indian Air Force requirements.

**16. Leave.** Grant of leave will be subject to exigencies of the Indian Air Force. The following leave is applicable for Agniveervayu during their engagement period: -

(a) **Annual Leave.** 30 days per year.

(b) **Sick Leave.** Based on medical advice.

**17. Medical and CSD Facilities.** For the duration of their engagement period in the Indian Air Force, Agniveervayu will be entitled for medical facility at Service Hospitals as well as CSD provisions.

**18. Pay, Allowances and Allied Benefits.** Agniveervayu enrolled under this Scheme will be paid an Agniveer package of Rs. 30,000/- per month with a fixed yearly increment. In addition, Risk and Hardship allowances (as applicable in IAF), Dress and Travel allowances will be paid. Perks such as ration, clothing, accommodation and Leave Travel Concession (LTC) shall also be provided as per the existing rules.

**19. Terminal Benefits - Seva Nidhi Package.** Agniveervayu will be given one time 'Seva Nidhi' package comprising of their monthly contribution along with matching contribution by the Government on completion of their engagement period, as indicated below: -

Year	Customised Package (Monthly)	In Hand (70%)	Contribution to Agniveers Corpus Fund (30%)	Contribution to Corpus fund by Gol
<b>All Figures in Rs. (Monthly Contribution) (Approximately)</b>				
1st Year	30,000/-	21,000/-	9,000/-	9,000/-
2nd Year	33,000/-	23,100/-	9,900/-	9,900/-
3rd Year	36,500/-	25,550/-	10,950/-	10,950/-
4th Year	40,000/-	28,000/-	12,000/-	12,000/-
<b>All Figures in Rs. (Monthly Contribution) (Approximately)</b>				
Total Contribution in Agniveers Corpus Fund after four years			Rs. 5.02 lakh	Rs. 5.02 lakh
Exit after 4 years	<b>Approximately Rs. 10.04 Lakhs as Seva Nidhi Package</b> (Absolute amount excluding interest)			

**Note 1:** Agniveervayu will not be required to contribute to any Provident Fund of the Government.

**Note 2:** There shall be no entitlement to any gratuity and any kind of pensionary benefits.

**20. Insurance, Death and Disability Compensation.** Agniveervayu will be provided non-contributory Life Insurance cover of Rs. 48 Lakhs for the duration of their engagement period as Agniveervayu in the Indian Air Force. Agniveervayu will not be governed by provisions contained in the Pension Regulations/ Rules for Indian Air Force. For details of Death/ Disability compensation log on to <https://agnipathvayu.cdac.in>.

**21. Agniveer Skill Certificate.** At the end of engagement period, a detailed Skill-Set Certificate will be provided to the Agniveervayu, highlighting the skills and level of competency acquired by the personnel during their engagement period.

**22. Not Entitled to the ESM Status.** Personnel enrolled under this Scheme will not be eligible for Ex-Servicemen status after their discharge from the Service on completion of four years engagement.

**23.** Agniveervayu will not be permitted to appear in any examination for commissioning in Army/Navy/IAF during the engagement period of four years unless he/she has applied for said exam before getting enrolled.

**24.** Release at own request prior to completion of engagement period will not be permissible for Agniveervayu. However, in exceptional cases, personnel enrolled as Agniveervayu may be released, with approval of the Competent Authority.

**SELECTION PROCEDURE**

**25. Verification of Eligibility.** Original Educational Certificates (10th passing Certificate, mark sheet) and other required applicable original documents like NCC 'A', 'B' or 'C' certificate, Children of serving Air Force Personnel (COAFP) certificate (or), Discharge Book, Service Book, Service Particular Certificate/ Casualty Service Certificate (or) Discharge Certificate (if discharged from Army/ Navy/ Government

Continued from page 15

Organisation), Consent form, passport size colour photographs and musical experience certificate (as per Para 5 (c) above) shall be required and scrutinized/verified at the examination venue prior to commencement of Proficiency Test to ascertain the prima-facie eligibility. Detailed verification will be carried out later in respect of candidates who pass Written Test. Those candidates who do not meet the laid down educational criteria shall be rejected during **Initial verification of original certificates & marks sheet** prior to conduct of Proficiency Test and also during **Detailed Verification** on clearing the Written Test or if found ineligible at any subsequent stage.

**Note:** The original Passing Certificate/ Marks Sheet will not be retained by the Selection Centre. The same will be returned to the candidates on completion of Detailed Verification.

#### SEQUENCE OF EXAMINATION

10 Sit-ups	01 minute and 30 seconds	Test will be conducted after 10 minutes break on completion of run
15 Squats	01 minute	Test will be conducted after 02 minutes break on completion of 10 Sit-ups

**Note:** Candidates are advised to bring their **sports shoes** and **shorts/track pants**. Detailed procedure on expected technique for Push-ups, Sit-ups and Squats is published on CASB Web Portal <https://agnipathvayu.cdac.in>.

**29. Adaptability Test-II.** All candidates who pass PFT test will have to undertake Adaptability Test-II as per policy in vogue. Adaptability Test-II is to select candidates who can adapt to the environment of Indian Air Force and are able to adjust to the Military way of life.

**30. Medical Examination.** Candidates who qualify Adaptability Test-II shall be medically examined in the month of **July 24 at AFS Kanpur and AFS Yelahanka**. Medical Examination shall be conducted by Air Force Medical Team as per IAF medical standards and policy in vogue on subject issue. Medical examination would also include Baseline Investigation of:-

- Blood Haemogram - Hb, TLC, DLC, Platelet
- Urine RE/ME
- Biochemistry
  - Blood Sugar Fasting & PP
  - Serum Cholesterol
  - Urea, Uric acid, Creatinine
  - LFT- Serum Bilirubin, SGOT, SGPT

(d) X- Ray chest (PA view)

(e) Ultrasonography of lower abdomen & Pelvis (**For female candidates only**)

(f) ECG (R)

(g) Any other test necessary in the opinion of the Medical Officer.

Candidates declared medically unfit can avail the option for 'Appeal Medical Board' (AMB) against their unfitness by depositing Rs. 40/- in a Government Treasury/ RBI/ SBI through Electronic Military Receivable Order/ Military Receivable Order (e-MRO/ MRO). The application for AMB along with original copy of e-MRO/ MRO, photocopy of Unfitness Certificate are to be submitted to the representative of **3 ASC & 7 ASC**, AF within three working days of medical examination. AMB Centre will be **AF Gorakhpur and AFS Jalahalli**.

**31.** The Recruitment Medical Officer and the specialist doctors of Armed Forces are the final authorities on declaring a candidate fit or unfit during initial medical examination, appeal medical board and medical examination prior to enrolment. The candidates shall be governed by Armed Forces standards which may be at variance from civil standards. There is no provision for representation or review after the appeal medical board.

**Note-1:** Candidates are advised to get tartar and stains removed from their teeth before appearing for the Medical Examination. Ears should be free of wax. Candidates should be prepared to stay for the medical examination for four to five days under their own arrangement. No TA/ DA shall be admissible.

**Note-2:** Passing in the medical examination is not a guarantee for employment in the Indian Air Force.

**Note-3:** Request for change of Medical Examination Centre or Date of Medical Examination shall not be entertained.

**32. Registration Fee:** Registration fee of Rs.100/- plus GST is to be paid online by the candidate while registering for the Recruitment Rally. The payment can be made by Debit Cards/Credit Cards/Internet Banking/UPI through payment gateway. Candidates are advised to follow the instructions/steps given on the payment gateway, and also print/keep transaction details for their records.

**33. Refund of Multiple Payments:** If multiple payments are received from a candidate against single application, then that will be refunded back to the originating account after closing of registration and re-conciliation of all payment records. However, if candidate is found to have filled multiple applications, only one application will be accepted and the amount with respect to other applications not considered for recruitment process will not be refunded. Fee once paid shall not be refunded under any circumstances and shall not be kept in reserve for any other examination or selection.

#### General.

**34.** General Instructions for candidates are as follows:-

- The candidates should carry their Aadhaar Card as proof of identity whenever they report for the Selection Test and Medical Test. Candidates from J&K, Ladakh, Assam and Meghalaya who are fulfilling the eligibility conditions to appear in the recruitment rally, are to carry any other valid photo ID Proof, if not in possession of Aadhaar Card.
- Candidates should be prepared to stay for the entire duration of the tests under their own arrangement. **No TA/ DA shall be admissible.**
- Candidates are required to provide an active e-mail ID and mobile number at the time of online registration. This e-mail ID and mobile number will be used by CASB for all communications till culmination of the entire selection process and enrolment for the particular intake. It is also advised to preserve the e-mail ID and password for all future communications.
- Duplicate/Incomplete/Erroneously filled applications shall be rejected.
- Candidature of candidates who applied more than once in response to this advertisement and obtained different registration numbers shall be rejected.

**35. Publishing of PSL.** The Provisional Select List (PSL) will be displayed at **3 ASC C/O Air Force Station Kanpur and 7 ASC, No. 1 Cubbon Road, Bengaluru on 11 November 2024**. Display list will also be available at CASB web portal <https://agnipathvayu.cdac.in>. The inclusion of names of the candidates in the PSL depends upon the performance of the candidates in the rally. **INCLUSION OF NAME IN THE PSL DOES NOT GUARANTEE AUTOMATIC ENROLMENT.** Enrolment is strictly in order of merit from the PSL subject to medical fitness, availability of vacancies, not exceeding the age of 21 years as on date of enrolment and meeting other laid down eligibility criteria as and when called for enrolment. The validity of PSL shall be six months from the date of display and shall be applicable only for **Agniveervayu Intake No. 01/2025**.

**36.** If any such candidate absents himself/herself or expresses unwillingness to join IAF or his/her candidature gets cancelled due to any reason in Musician stream in which he/she was called for enrolment, then the candidate shall be marked as absent/ unwilling/ candidature cancelled in all other PSLs for Agniveervayu published on the same date wherever his/her name figures.

**37. Enrolment List.** List of candidates finally called for enrolment for **Agniveervayu Intake 01/2025** will be published on **28 November 2024**. Call letters shall be sent to candidates called for enrolment on their e-mail IDs provided at the time of registration.

**38.** If there is any variation between English & Hindi/ any other regional language versions of the advertisement, English version shall be taken as authentic.

**39.** Any CORRIGENDUM/ CHANGES/ UPDATES shall be available ONLY on our web portal <https://agnipathvayu.cdac.in> and NO INTIMATION SHALL BE GIVEN IN ANY NEWS PAPER/ ANY OTHER MEDIA. All candidates are required to see the website of this office from time to time.

## Institute of Music

**Maharaja Surajmal Brij University**  
Chak Sakeetra, Kumher, Bharatpur, Rajasthan - 321201

### ADMISSION ANNOUNCEMENT: 2024-2025

Welcome to the Institute of Music, where passion harmonizes with talent to create melodies that resonate across hearts and cultures. Our institute is dedicated to nurturing the next generation of musicians, composers, and music scholars, providing a dynamic environment where creativity flourishes and artistic expression thrives. With a diverse range of programs covering areas such as performance, composition, musicology, ethnomusicology, and music education, we offer students a transformative educational experience that combines rigorous training with opportunities for personal and artistic growth. Through individualized instruction, ensemble performances, masterclasses, and interdisciplinary collaborations, our students develop the technical proficiency, artistic sensitivity, and intellectual depth needed to excel in the ever-evolving world of music. Whether you aspire to be a virtuoso performer, innovative composer, insightful musicologist, or inspiring music educator, the Institute of Music provides the platform for you to realize your dreams. Join us and embark on a journey of discovery, creativity, and artistic excellence at our institute. Unlock your potential and become a part of the rich tapestry of musical innovation and tradition at the Institute of Music.

## Institute of Library and Information Sciences

**Maharaja Surajmal Brij University**

Chak Sakeetra, Kumher, Bharatpur, Rajasthan - 321201

### ADMISSION ANNOUNCEMENT : 2024-25

The Institute of Library and Information Sciences is the pioneer institute of the University to teach students about Library and Information Science. The goal is to train students for jobs like librarians, information officers, archivists, and knowledge managers. The university library serves as a learning lab where students get hands-on training with the help of experience faculty members and library staff. This way, they learn both theory and practical skills. The Institute is committed to provide quality education and produce skilled professionals in Library and Information Science to meet professional demands. Join us to learn latest tools and technologies in library and information management to keep pace with information trends.

No. A-12024/02/2023-NA

भारत सरकार / Government of India

मंत्रिमंडल सचिवालय / Cabinet Secretariat

## राष्ट्रीय प्राधिकरण रासायनिक हथियार समझौता

## National Authority Chemical Weapons Convention

प्रथम तल, चाणक्य भवन/ 1st Floor, Chanakya Bhavan, चाणक्यपुरी, नई दिल्ली-21/ Chanakyapuri, New Delhi-21

**Subject: Filling up the post of Deputy Director in the NACWC, Cabinet Secretariat on deputation (ISTC) basis - regarding**

The National Authority Chemical Weapons Convention (NACWC), Cabinet Secretariat, is the nodal agency for implementation of the provisions of the Chemical Weapons Convention (CWC) and CWC Act, 2000 in the country and accordingly acts as the focal point for liaison with the Organization for Prohibition of Chemical Weapons (OPCW), The Hague, Netherlands with respect to all matters relating to the CWC.

2. The NACWC proposes to fill up the anticipated vacancy in the NACWC by the officers qualified in the field of Chemistry/ Industrial Chemistry/ Degree in Chemical Technology or Chemical Engineering in accordance with the relevant Recruitment Rules. Details of the aforesaid vacancies are as under:

Name of the post and category	Scale/level of pay	No. of vacancy	Mode of recruitment (as per RR)
Deputy Director (General Central Service Non- Ministerial, Gazetted, Group 'A')	Level-11 of Pay Matrix (Rs. 67700 - 208700)	01 (one)	Deputation (including short term contract)

3. The details of the post i.e., scale/ level of pay and admissible allowances, duties and responsibilities, the field of selection, place of posting, qualifications, and experience required for the post are given at **ANNEXURE-I**. The period, tenure, and other terms of deputation (ISTC) will be governed by the Recruitment Rules of the above post and other standard terms and conditions of deputation (ISTC), as prescribed by the Government of India from time to time.

4. Applications of the interested and eligible officers, who are working on a regular basis and have completed their period of probation, may be forwarded in the prescribed proforma given as **ANNEXURE-II**, to the **Under Secretary & Head of Office, National Authority Chemical Weapons Convention (NACWC), Cabinet Secretariat, 1st Floor, Chanakya Bhawan, Chanakyapuri, New Delhi - 21, WITHIN SIXTY (60) DAYS from the date of publication of the advertisement in Employment News**. All applications must be forwarded to the NACWC through the proper channel. Advance copies of the applications will not be entertained.

5. While forwarding the application by the Cadre Controlling Authority, it may be ensured that the applicant meets the prescribed eligibility criteria and in case of any equivalent qualification, grade, scale, experience, etc., a **certificate of eligibility** with the approval of the Competent Authority should be furnished as per proforma given as **ANNEXURE-III**. In addition, the following documents may also be forwarded to this office along with the application:

i) A certificate to the effect that the concerned forwarding/ parent Department/ Ministry has **"No Objection"** to the appointment on deputation (ISTC) of the applicant to the post.

ii) Attested copies of the ACRs/ APARs of the applicant for the past 5 years, duly attested on each page by an officer, not below the rank of Under Secretary to the Government of India. If for some reason, ACRs/ APARs of the officer have not been written for a particular year or a part of a year, a 'No Report Certificate' (NRC) for the period may be sent along with the ACRs/ APARs of the corresponding previous year(s).

iii) A certificate about the integrity of the officer recommended for appointment on deputation (ISTC).

iv) Vigilance Clearance in respect of the applicant including the status of vigilance cases, pending or contemplated should be intimated under the signature of an officer of the appropriate status.

v) A statement indicating major/ minor penalty(s) imposed during the last 10 years.

vi.) The certificate annexed with the bio-data format (**Annexure-II**) should be signed by a forwarding officer in the cadre controlling authority, not below the rank of Under Secretary to the Govt. of India.

6. The nature of duties may require extensive travel both domestic and abroad. Applications from the officers fulfilling all conditions will be considered for empanelment by an appropriate Assessment Committee based on relevant available records, aptitude, knowledge of the subject, etc. The candidates, who apply for the post mentioned in para-2 above, will not be allowed to withdraw their candidature subsequently.

7. Applications not fulfilling the requisite criteria and/ or not accompanied by the relevant documents are liable to be summarily rejected and no communication will be entertained in this regard. The complete details regarding eligibility, the field of selection, and other terms and conditions are also available on the NACWC website i.e. [www.nacwc.nic.in](http://www.nacwc.nic.in). The NACWC reserves the right to cancel, modify or withdraw this notice, without assigning any reasons.

**Institute of International & Public Affairs**

**Maharaja Surajmal Brij University**

Chak Sakeetra, Kumher, Bharatpur  
Rajasthan - 321201

**ADMISSION ANNOUNCEMENT:  
2024-2025**

Welcome to the Institute of International & Public Affairs, where global perspectives meet public service excellence in the pursuit of positive change. Our institute is committed to preparing the next generation of leaders and policymakers with the knowledge, skills, and experiences needed to address complex challenges on the global stage. We offer students a transformative educational experience that combines rigorous academic inquiry with hands-on practical training. Through immersive internships, fieldwork opportunities, and collaborations with government agencies, non-profit organizations, and international institutions, our students gain real-world experience and make meaningful contributions to pressing global issues. Whether you aspire to shape foreign policy, promote social justice, or drive sustainable development, the Institute of International & Public Affairs provides the platform for you to make a difference. Join us and become part of a vibrant community dedicated to making the world a better place through informed leadership and impactful public service. Unlock your potential and embark on a journey of discovery, advocacy, and global engagement at the Institute of International & Public Affairs.

No.	Courses Offered	Eligibility
<b>Undergraduate Degree Programmes</b>		
1	<b>Bachelor of Arts (B.A.) (Hons.) Policy making</b>	10+2 with a minimum of 50% marks (At least 45% for SC/ST candidates) in aggregate
<b>Integrated Degree Programmes</b>		
2	<b>B.A.-M.A. Policy making</b>	10+2 with a minimum of 50% marks (At least 45% for SC/ST candidates) in aggregate
<b>Postgraduate Degree Programmes</b>		
3	<b>Master of Arts (M.A.) Policy making</b>	B.A./B.Sc. with a minimum of 50% marks (At least 45% for SC/ST candidates) in aggregate from any recognized University

**# BACKLOG VACANCIES**

3. The rows marked 'x' in the select list are for the applicants who were provisionally allowed to appear for the written examination as per the interim orders of Hon'ble High Court/ Tribunals. The results are kept in abeyance view judicial process is yet to be finalised. The results are subject to outcome of final judgment in various courts.

4. The selection is purely provisional subject to the verification of original certificates in support of essential qualification (Age, Education, caste certificate, PwBD certificate, EWS certificate, ESM etc.) as on the crucial date. It shall be noted that merely calling candidates for verification of the documents does not in any way entitle them for employment/ appointment in the Indian Navy.

5. The candidates are allocated to the Commands based on their choice of preference given at the time of registration and merit. No request for change of Command will be entertained. The provisionally selected candidates will be called for pre-recruitment formalities by respective Commands/ Units through e-mails or posts as per e-mail/ address mentioned in their online application form. The candidates are to report at the venue on the date and time indicated in the call letter for pre-appointment formalities. Candidates may have to stay one or two days for completion of verification of candidature. Candidates are to make their own arrangements accordingly.

6. **IMPORTANT NOTE.** The lists published above are purely provisional. The Indian Navy reserves the right to rectify and amend the above lists for any errors and omissions, if any. No correspondence will be entertained from the candidates not qualified.

# Metal & Steel Factory, Ishapore

Under Skill India Mission of Government of India, this Establishment is in process of engagement of Graduate Apprentices and Diploma/Technician Apprentices for one year Apprenticeship Training under the Apprentices Act, 1961 and amendments thereof in Metal & Steel Factory, Ishapore (West Bengal), a Unit under Yantra India Ltd., (a Govt. of India Enterprise, Ministry of Defence, Department of Defence Production) in following disciplines through Govt. of India NATS Portal.

Discipline	Graduate Apprentices	Diploma/Technician Apprentices
Mechanical	02	03
Electrical	02	03
Metallurgical	02	03
<b>Total</b>	<b>06</b>	<b>09</b>

**Important Note :** Candidates who have already undergone Graduate or Technician/ Diploma Apprenticeship Training in respective field are not eligible to apply.

## 1. Online Registration in NATS portal :

The candidates i.e. prospective Graduate / Diploma Apprentices shall register themselves on the NATS portal. Further, the candidates shall also be required to upload on the portal the documents mentioned below in this advertisement. Then the candidates shall apply in the portal for Graduate / Diploma Apprentices.

## 2. Age Limit :

**For Diploma Holders (Technical) :** Between 18 to 22 years as on closing date of application.

**For Graduates (Technical) :** Between 21 to 25 years as on closing date of application.

**Important Note :** If the joining date of the candidate for Apprenticeship Training in this Factory is more than 5 (five) years from the date of passing Diploma / Graduation, then the candidate will not be eligible under the National Apprenticeship Training Scheme (NATS) for the Office.

## Relaxation in upper age limit is permitted for :

SC/ST Candidates	05 (Five) years.
OBC (Non-Creamy Layer) Candidates	03 (Three) years.
Persons with Physical Disabilities	10 (Ten) years.

## 3. Essential Qualification :

- A degree in engineering or technology granted by Institutions empowered to grant such degrees by an Act of Parliament.
- Graduate examination of Provisional bodies recognized by the Central Government as equivalent to a degree.
- Sandwich course student who is under-going training in order that he may hold a degree in engineering or technology as mentioned at (i) and (ii) above.
- Diploma issued by institutes approved by AICTE.

## 4. Documents / Information Required :

- University Regn. No./ Roll No. /Enrol. No.
  - List of elective subjects studied during Degree in Engineering / Technology / Humanities etc.
  - Details of additional short term / Certificate courses.
  - Provisional Degree Certificate / Consolidated Mark Sheet.
- 5. Other documents to be kept ready for uploading on the portal :**
- Any one of the Government IDs (Driving License, Voter Card, Passport, PAN Card) mandatory.
  - Aadhaar Card/Proof against registration for issue of Aadhaar Card ... Mandatory.
  - Valid personal email ID .... Mandatory.
  - Mobile number will be required to enter OTP .... Mandatory.
  - Passport size photograph Format : JPEG, Size : Less than 200 kb ... Mandatory.
  - Bank A/C details ..... Not mandatory (at the time of online application)\*

\* Bank A/C details is optional during enrolment; however, it is mandatory at the time of Contract creation after engagement as Apprentice.

## 6. Enrolment for NATS :

- By accessing the students tab, candidates can register for apprenticeship training through the NATS web portal.
- The guidelines mentioned on the NATS portal <https://nats.education.gov.in/> shall be followed.

## 7. Reservation Policy :

Reservation policy in engagement of Apprentices shall be applicable as per Apprentices Act, 1961 and Apprenticeship Rules, 1992 & 2015 or as per extant Government of India Rules regarding engagement of Apprentices.

## 8. Duration of Training :

Duration of Apprenticeship Training period is specified in the Apprentices Act, 1961, Apprenticeship Rules, 1992 and amendments thereof. However, the period of Apprenticeship Training in the case of Engineering Graduates and Diploma Holders shall be one year.

## 9. Stipend :

The minimum stipend per month shall be paid to the Apprentices as per the provision of Sub-Rule (1) of the Rule - 11 of the Apprenticeship Rules, 1992. The stipend to be paid to the Apprentices per month shall be -

Technician Apprentices or Diploma Holder in any stream or sandwich course (students from degree institutions)	Rs. 8000/- per month
Graduate apprentices or degree apprentices or degree in any stream	Rs. 9000/- per month

No other allowances will be paid during the entire period of apprenticeship training.

## 10. Standard of Physical Fitness :

A candidate shall be eligible for being trained under the Apprentices Act, 1961 and the Apprenticeship Rules, 1992, as amended time to time, if he/she satisfies the minimum standards of physical fitness as prescribed therein for imparting training in the relevant discipline which will be certified by the Ordnance Factory Hospital, Ishapore.

After successful document verification of the provisionally selected candidates and on receipt of satisfactory Police Verification Report, medical examination will be conducted. Date, Time and Venue of medical examination will be conveyed separately. Candidates passed in medical examination will be considered for further process of engagement as Apprentices in this Factory.

## 11. Terms & Conditions :

- The selected candidates will have to execute a Contract of Apprenticeship (if minor, by his/her guardian).
- Based on availability, the Apprentices may be provided with quarters/hostel accommodation on payment basis as per Govt. Rules.
- During the training, the Apprentices are entitled for medical treatment from Ordnance Factory Hospital, Ishapore as per rules.
- If a candidate is selected as Apprentice, in Graduate/Diploma stream, his / her training shall be subject to registration in NATS web portal maintained by the Board of Practical Training (Eastern Region), Kolkata. If due to any reason the NATS portal is not able to register the candidate, the Apprenticeship Training of the candidate shall be terminated immediately.
- The candidate who have completed the period of training will be given Training Completion Certificate by Metal & Steel Factory, Ishapore.
- In the event of premature termination of Contract of Apprenticeship Training for failure on the part of Apprentices to carry out the terms and conditions of the Contract (as notified under the Apprenticeship Rules, 1992 and amendments thereof), the candidate/surety has to pay/return such amount as is determined by Metal & Steel Factory, Ishapore as the cost of training.

## 12. Offer and Acceptance of Employment :

It shall not be obligatory on the part of the Employer to offer any employment to any Apprentice after completion of the training, nor shall it be obligatory for the Apprentices to accept any employment, if offered by the Employer. The candidate are advised to get themselves familiarized with the rules and regulations under the Apprentices Act, 1961, the Apprenticeship Rules, 1992 and amendments thereof and Rights of Persons with Disabilities Act, 2016.

## 13. Payment of Fees :

No fee shall be charged from the candidates applying for Graduate / Diploma Apprenticeship training.

## 14. Mode of Selection :

- Selection will be based on the Merit List and vacancy positions as published in the advertisement.
- Final Merit Lists will be prepared considering reservation breakup, if any, in the descending order of percentage of marks obtained by the candidates in respect field in Graduate or Diploma Courses respectively.
- Shortlisted candidates (as per vacancies position), thus enlisted, will be called for documents verification equal to number of notified vacancies.
- In case of two candidates having the same marks, the candidates with older age shall be preferred. If the dates of birth are also same, then the candidate who passed respective Graduate or Diploma Examination earlier (Year) shall be considered first. Even if the years of passing of the respective Graduate or Diploma Examination are same, the candidate's name in alphabetical order appearing first will be considered first.
- Candidates finally enlisted in provisional select list would be subjected to satisfactory Police Verification Report including verification of educational qualification as well as requisite medical examination.

## 15. Rejection of the Candidature :

Candidates are requested to read all instructions carefully and thoroughly before applying in the NATS portal. Candidature may be rejected on one or more of the following reasons.

- Incomplete Application**-unclear or illegible or irrelevant documents submitted/ uploaded.
- Does not possess the prescribed qualification as indicated in this Advertisement to undergo the Apprenticeship Training.
- If at any stage, the candidate is found over-age or under-age or Date of Birth not filled or wrongly filled.
- Only a single application will be entertained. In respect of multiple applications, the latest application shall be considered.
- The candidature will be cancelled on applying for both Grade Apprentice and Diploma/Technician Apprentice.
- Application without photo, unclear photo, photo with cap, wearing goggles, disfigured, unrecognizable or unclear or unidentifiable photo.
- Application with unclear signature uploaded or documents submitted.
- Mismatch in candidate's name, father's name, Date of Birth, marks submitted and year of passing in online application form with the 10th Standard pass Certificate / Birth Certificate.
- Mismatch of marks/percentage /CGPA grading, entered by the candidate in online application with original copy of the Mark-Sheet.
- Any material suppression of facts/information or submitting forged certificates/ documents shall lead to rejection of candidature at any stage of selection process.
- Any other irregularities which may render the candidature of the application invalid by this Factory.

## 16. How to Apply :

- Candidates must register themselves in NATS portal and then apply for Grade / Diploma Apprentices through the said Portal.

EN 7/70

Continued from page 30

- ii) Candidates must fill their personal details carefully. Candidates should ensure that their name, father's name, date of birth, marks obtained and other details shall exactly match with what is recorded in Matriculation or equivalent certificate, etc. Any deviation found during document verification and in subsequent stage of engagement may result in cancellation of candidature and debarment.
- iii) Candidates are advised to indicate their active mobile number and valid e-mail ID in the ONLINE application and keep them active during the entire engagement process as all important messages will be sent by email/SMS, which will be treated as deemed to have been read by the candidates.
- iv) Original Caste Certificate (SC/ST/OBC), for OBC (Non-Creamy Layer Certificate) and Physical Disability Certificate, in case of PH/PWD shall be produced by the candidate the time of document verification.
- v) Provisionally selected candidates having Aadhaar Card shall have to produce original Aadhaar card or the documents, uploaded during the time of registration in NATS portal, at the time of document verification.
17. General / Important information to the candidates : Candidates are advised to note the following instructions carefully :
- a) It is to be noted that mere submission of application through NATS portal does not guarantee induction as Apprentice in this Factory. The candidature of all applicants shall be purely provisional at all stages of selection process. The candidature and selection of candidates shall also be subject to scrutiny of original credentials/ documents, satisfactory / clear Police Verification Report, Medical Examination and other eligibility criteria as mentioned in the advertisement and the provisions of the Apprentices Act, 1961 and the Apprenticeship Rules, 1992 and all amendments thereof. However, pending / delay in Police Verification Report shall not be ground to reject engagement of candidate.
- b) Candidates are required to check website of Metal & Steel Factory, Ishapore regularly for any updates and changes.
- c) Canvassing of any kind will disqualify the candidate. Selection Process is done strictly on merit. Candidates are advised not to fall prey to any unscrupulous elements.
- e) Any material suppression of facts or submitting forged certificates shall lead to rejection of his/her candidatures at any stage of selection of this process.
- f) Decision of the General Manager, Metal & Steel Factory, Ishapore in all matters relating to the eligibility, acceptance/ rejection of any application etc. shall be final and binding on the candidate and no query / correspondence shall be entertained in this regard.
- g) Any subsequent changes in the terms and conditions of the engagement of the Graduate or Technician/ Diploma Apprentices as per the extant Rules will stand good. Metal & Steel Factory, Ishapore reserves all the rights to incorporate any subsequent changes/modification/additions in the terms and conditions under this advertisement notice as necessitated and applicable. Any corrigendum in this advertisement will be published on website of Metal & Steel Factory, Ishapore.
- h) Any dispute with regard to the engagement of Graduate or Technician/ Diploma Apprentices will be subject to Courts / Tribunals having jurisdiction over the City/Town in which this Factory is situated.
- i) No Transport Allowance shall be admissible to any candidates called for document verification, medical examination and Finally joining in this Factory as Graduate or Technician/ Diploma Apprentices.
- j) All the provisions of Apprentices Act, 1961 and the Apprenticeship Rules, 1992 and all amendments thereof as on date are applicable to the candidates.

**Special Note -**

To avoid last minute rush, candidates are advised in their own interest to register themselves in NATS portal and apply through NATS portal well before the closing date, to avoid possible inability / failure on account of heavy load on the internet or website jam or non-availability of internet.

Metal & Steel Factory, Ishapore will not accept any responsibility for the candidates not being able to submit their application through NATS portal within the last day on account of aforesaid reasons or any other reasons thereof.

**ADMISSION ANNOUNCEMENT:  
2024-2025**

Welcome to the Institute of Education, where passion meets purpose in the noble pursuit of shaping future generations. Our institute is dedicated to nurturing educators who are committed to fostering a love for learning, inspiring creativity, and empowering students to reach their full potential. With a comprehensive range of programs covering areas such as teacher education, educational leadership, curriculum development, and special education, we offer students a transformative educational experience that combines theoretical knowledge with practical skills. Through hands-on teaching experiences, research opportunities, and community engagement initiatives, our students gain the expertise and confidence needed to excel in diverse educational settings. Whether you aspire to be a classroom teacher, school administrator, curriculum specialist, or educational researcher, the Institute of Education provides the foundation for you to make a meaningful impact in the lives of future generations and communities. Join us and embark on a journey of discovery, innovation, and lifelong learning at our institute.

# Conserving Heritage, Cultivating Innovation

## The Enduring Importance of Museums

### EN EXPLAINS

#### From Humble Beginnings to Global Recognition

The story behind International Museum Day's inception is as captivating as the museums themselves. Back in 1951, the day first emerged with a focus on the vital connection between museums and education - a relationship that continues to hold immense relevance in our modern world.

Fast forward to 1977, when the International Council of Museums (ICOM) officially bestowed recognition upon this special day. This milestone illuminated museums' pivotal role in fostering cultural exchange, understanding, and peace on a global scale. It was a nod to the transformative power of these institutions beyond mere repositories of artifacts.

Celebrated annually on May 18th, International Museum Day serves as a global platform to promote the role of museums in cultural exchange and development. Museums worldwide come together to organise events, exhibitions, and educational programmes centred around the years' theme, emphasising the invaluable contribution of museums to society.

Moreover, International Museum Day aligns with the Sustainable Development Goals of the United Nations, supporting Goals 4 and 9 in particular. Goal 4 focuses on ensuring inclusive and equitable quality education and promoting lifelong learning opportunities for all, while Goal 9 aims to build resilient infrastructure, promote inclusive and sustainable industrialisation, and foster innovation.

#### Themes Reflecting Contemporary Concerns

Since 1992, International Museum Day has delved into diverse themes, mirroring the ever-evolving landscape of global priorities. This evolution underscores museums' adaptability in addressing contemporary issues while staying true to their educational and cultural missions.

This year's theme, "Museums for Education and Research," aims to underscore the significance of museums as dynamic educational institutions fostering learning, discovery, and cultural understanding.

The Sweden-based design firm Gabor Palotai Design has created a visually striking and conceptually profound poster that encapsulates the essence of the theme. Set against a sophisticated black background, the poster features the iconic museum 'M' in various vibrant colors, symbolising the diverse spectrum of knowledge that museums impart to the world. The abstract composition serves as a visual metaphor for the vast repository of information housed within museums, waiting to be explored and shared.

@ICOMOFFICIEL

#### Expanding Horizons: Collaboration and Accessibility

In recent years, International Museum Day (IMD) has evolved into a truly global phenomenon, transcending geographical boundaries through significant collaborations and innovative initiatives. One of the most impactful collaborations has been with events like the European Night of Museums, which fosters mutual recognition and learning among cultural institutions worldwide. By joining forces with events of similar ethos and objectives, IMD not only enhances its global visibility but also strengthens the network of cultural exchange and cooperation on an international scale.

Moreover, the advent of dedicated websites and communications kits has revolutionised the accessibility of IMD. These resources serve as centralised hubs of information, providing museums and cultural institutions with the tools and platforms to promote their events and activities effectively. The launch of these dedicated resources has democratised participation in IMD, enabling museums from all corners of the globe to showcase their unique offerings and engage with audiences worldwide.

Through these collaborative efforts and enhanced accessibility, IMD has become more than just a day of celebration; it has become a catalyst for meaningful dialogue, cultural exchange, and mutual understanding across borders. As museums continue to collaborate and embrace technology-driven solutions, the horizons of International Museum Day will only continue to expand, enriching the cultural landscape and fostering greater global connectivity.

#### Engagement and Community Building

At its core, International Museum Day (IMD) serves as a powerful catalyst for engagement and community building within the global museum landscape. Through a multifaceted approach that leverages interactive tools and digital platforms, IMD not only facilitates participation but also fosters meaningful connections among individuals and institutions worldwide.

Interactive maps, multilingual surveys, and vibrant online platforms form the backbone of IMD's engagement strategy, offering diverse avenues for participation and storytelling. These tools empower museums and cultural institutions to reach audiences across geographical boundaries, inviting them to explore and interact with diverse narratives and collections. By providing accessible and inclusive platforms for expression, IMD encourages active participation from individuals of varying backgrounds and perspectives, enriching the global museum community with diverse voices and stories.

Moreover, IMD transcends its role as a mere celebration, evolving into a catalyst for long-term partnerships, exchanges, and cultural dialogue. The connections forged during IMD often extend beyond the event itself, fostering ongoing collaborations and initiatives that promote mutual understanding and cooperation among museums and cultural institutions. These partnerships contribute to the cultivation of a vibrant tapestry of heritage and creativity, fuelling a collective sense of belonging and shared purpose within the global museum community.

#### Magnificent Museums of India

The rich legacy of India's museum movement traces back to the establishment of 'The Indian Museum' in 1814, marking the inception of the nation's encyclopedic museum tradition. Since then, numerous significant museums have emerged across the country, each playing a pivotal role in safeguarding our priceless heritage. Museums in India serve as portals to the past, offering visitors a journey through history and a glimpse into the country's rich cultural and archaeological heritage.

**Indian Museum:** As the oldest museum in India, the Indian Museum in Kolkata holds a special place in the country's cultural landscape. Established in 1814, it has evolved into a multifunctional institution with divisions dedicated to art, archaeology, zoology, and more. The museum's galleries feature a diverse array of exhibits, including miniature paintings and archaeological

18th May: International Museum Day

artifacts, offering visitors a glimpse into India's rich heritage.

**Victoria Memorial:** A majestic symbol of Kolkata's heritage, the Victoria Memorial is a masterpiece of Indo-Saracenic architecture. Built in 1921, it pays homage to Queen Victoria and houses a remarkable collection of western and Indian paintings. Surrounded by lush green gardens, the memorial offers visitors a serene retreat into the pages of history.

**The National Museum:** Founded in 1949, the National Museum in Delhi stands as a testament to India's cultural heritage. Boasting over 2,00,000 artifacts spanning 5,000 years of history, it serves as a treasure trove of Indian culture. From exquisite paintings and sculptures to manuscripts and archaeological finds, the museum offers a comprehensive glimpse into the country's illustrious past.

**Salar Jung Museum:** Nestled on the banks of the Musi River, the Salar Jung Museum is a treasure trove of art and artifacts. Founded in 1951, it boasts a diverse collection spanning centuries, offering insights into prehistoric times and Deccan history. The museum's crown jewel, the 'Veiled Rebecca,' is a mesmerising sculpture that captivates visitors with its ethereal beauty.

**Chhatrapati Shivaji Maharaj Vastu Sangrahalaya:** Formerly known as the Prince of Wales Museum, this iconic institution is a testament to India's art and history. With its Indo-Saracenic architecture and sprawling gardens, it offers a picturesque setting for exploring the country's cultural heritage. From ancient artifacts to contemporary art, the museum's galleries showcase the rich tapestry of Indian history and culture.

**Reimagining Museums for India@100:** As India marches towards its 100th year of Independence, efforts to revitalise and re-imagine its museums are underway. From global summits to grassroots initiatives, the country is laying the groundwork for the future growth of its cultural institutions. With over 700 museums showcasing different aspects of India's heritage, these centers of cultural significance continue to inspire and educate generations to come.

On the occasion of International Museum Day 2023, India hosted its first-ever International Museum Expo at Pragati Maidan in New Delhi. One of the highlights of the Expo was the unveiling of the virtual walkthrough of the revamped National Museum at the North and South Blocks, offering a tantalising glimpse into the treasures that await within its walls. The Mascot of the International Museum Expo, inspired by the Chennapatnam art style, added an unconventional touch to the proceedings, serving as a symbol of cultural vibrancy and creativity.

The Expo also showcased the Graphic Novel - "A Day at the Museum," a captivating narrative that took readers on a journey through the halls of the National Museum, inspiring a new generation to explore the wonders of our cultural heritage. Additionally, the Directory of Indian Museums provided a comprehensive survey of cultural institutions across the country, while the Pocket Map of Kartavya Path traced the history of iconic pathways, offering a unique perspective on India's cultural landscape.

## The Quest for Sustainability Champions in Toy Designing

largely to the proliferation of online toy vendors.

Initially centered in Europe, particularly Germany and Scandinavia, toy production later moved to the United States before migrating to Asia in the 1970s, with countries like Japan, South Korea, Taiwan, Hong Kong, and China becoming key manufacturing hubs. Currently, American corporations conceptualise designs that are manufactured in China, dominating the global market.

Today's toy market offers a wide array of options, featuring toys with advanced functionalities like speech, movement, storytelling, and personalised interactions. Simple electric trains have evolved into high-tech marvels such as drones and transformers, captivating young imaginations. For younger children, toy pets and robots serve as gateways to digital literacy, introducing them to technology from an early age through interactive interfaces and child-friendly computers.

### The Anti-Plastic Shift and the Role of Toy Designers

In the colorful world of childhood play, plastic toys reign supreme. From teething rings to building blocks, the toy industry has long embraced plastics for their affordability, durability, and versatility. However, beneath the surface of this seemingly ideal material lies a pressing environmental issue, with concerns about environmental degradation, exposure to harmful chemicals, and plastic waste looming large. As the urgency to address these challenges intensifies, the toy industry is undergoing a transformative shift, with innovation emerging as a driving force and sparking a demand for professionals, particularly toy designers, to explore and implement alternative materials and manufacturing processes.

This quest for sustainability has sparked a wave of creativity within the toy industry, inspiring designers to push the boundaries of conventional materials and embrace novel solutions. From biodegradable plastics to innovative biocomposites, the palette of materials available to toy designers has expanded dramatically, offering a wealth of opportunities for experimentation and invention. No longer solely focussed on aesthetics and functionality, toy designers are now tasked with creating toys that not only captivate children but also embody principles of sustainability and environmental responsibility. This paradigm shift has elevated the role of toy designers as agents of change, driving them to collaborate closely with material scientists, engineers, and sustainability experts to develop innovative solutions that balance both creative and environmental objectives.

Moreover, the growing demand for eco-friendly products from conscientious consumers has further fueled innovation within the toy industry. As parents increasingly prioritise the environmental impact of the products they purchase, there is a heightened expectation for toys to be produced ethically and sustainably. This consumer-driven demand has incentivised toymakers to invest in research and development, accelerating the pace of innovation and the adoption of alternative materials.

However, amidst this wave of innovation, concerns persist regarding the content and impact of modern toys. While they play a crucial role in promoting imaginative play and skill development, modern toys also have the potential to perpetuate gender stereotypes and glorify violence, raising questions about their suitability for young minds. Additionally, the influence of television and social media on children's preferences blurs the line between entertainment and education, further fuelled by consumer culture and aggressive advertising campaigns.

In navigating these emerging challenges, the role of toy designers has become increasingly crucial. By embracing innovation and sustainability, toy designers have the opportunity to shape the future of play while addressing societal concerns.

### How to Become a Toy Designer?

Becoming a toy designer requires a blend of creativity, technical skill, and an understanding of market dynamics. Typically, individuals can embark on this career path after completing their 10+2 education in any stream and pursuing a Toy Design course, which covers various aspects such as product design, material selection, safety regulations, and child psychology. These courses offer a comprehensive curriculum that includes learning fundamentals of play, game theories, character designing, and user research methods. Students engage in hands-on projects ranging from heritage toys to digital games, equipping them with practical skills.

### Toy Designing Courses and Colleges

Toy designing courses are offered by only a handful of institutions in India, including prestigious government institutes like the National Institute of Design, Gandhinagar Campus, and the Industrial Design Centre at IIT Bombay, as well as select private institutions such as the School of Design at CMR University, MIT Art, Design & Technology University in Maharashtra, and Srishti Manipal Institute of Art, Design and Technology in Bengaluru.

#### Indicative Curriculum - Long Term Courses in Toy Designing

Semester 1	Semester 2	Semester 3	Semester 4
Introduction to Toy Design	Child Development	Trends in Toy Design	Toy Manufacturing Processes
Design Fundamentals	User Centered Design	3D Modelling and Digital Design	Marketing and Branding
Materials and Prototyping	Ethics in Toy Design	Sustainable Toy Design	Entrepreneurship in Toy Design
Toy History and Culture	Educational Toy Design	Advanced Toy Prototype	Final Project and Portfolio Development

The National Institute of Design provides a postgraduate degree programme specialising in Toy Design. Additionally, various vocational training institutes offer short term courses focussed on toy making, and subjects related to toy design are also incorporated into programmes such as soft material design and arts and crafts. A comprehensive curriculum for toy design education should encompass a broad spectrum of subjects, covering areas such as creativity, design principles, child development, and industry specific competencies.

#### Indicative Curriculum

##### Short term Courses in Toy Designing

Fabric Identification

Mould Making

Pattern Making

Online Stitching

Fire Cutting, Hand Cutting, Press Cutting

Punching Technique

Inversion

Finishing and Spray Painting

Stuffing Technique, Hand Stuffing Technique, Machine Stuffing Technique

Metal Detection

Packaging

#### Admission and Eligibility

Eligibility criteria for Toy Design Courses may vary depending on the institution offering the programme. However, many design courses, including Toy Design, typically have certain standard requirements. It's important to note that these are general guidelines, and specific requirements may differ among institutions.

**UG Design Courses:** Students who have completed their 10+2 education from recognised schools affiliated with national/state education boards are eligible to pursue undergraduate Toy Design courses. There are no restrictions based on the academic stream, so students from Science, Commerce, or Arts backgrounds can enroll.

**PG Design Courses:** Admission to PG level design courses typically requires a bachelor's degree from a recognised college or institute. While there are no strict limitations, most colleges prefer graduates with a bachelor's degree in a design related field.

**Ph.D in Design:** Applicants for a Ph.D in Design programme must hold a Master's degree in design from an accredited institution or university, or an equivalent degree. Candidates should have obtained at least 50% in their postgraduate exams to be eligible for admission.

#### Admission to NID Toy and Game Design (M.Des.)

Admission to all programmes at NID relies on candidates' performance in two stages of the Design Aptitude Test (DAT). These exams aim to evaluate candidates' knowledge, skills, and behavioural qualities comprehensively.

#### Career Scope in Toy Design

- The demand for professionals in toy design remains high due to the ever-growing need for toys.
- Individuals from diverse backgrounds like teaching, special education, psychology, engineering, architecture, and computer science can venture into toy designing, blending their creativity and expertise.
- Computer science graduates can utilise embedded software to add functionality to toys.
- Some designers specialise in educational toys tailored for academic environments or to foster intellectual growth.
- Options include basic toy modelling, crafting board games, or recreating vintage toys.
- The pet toy industry is also burgeoning.
- Self-employment is an option.
- Toy designers may find employment in manufacturing firms, selling their concepts.
- Opportunities extend to writing about toy design or teaching in educational institutions.
- Freelancing offers the flexibility to undertake projects for national as well as international clients.

#### Salaries and Remunerations

- Compensation varies widely in this industry.
- Your earnings hinge on your creativity and innovative prowess.
- Remuneration is determined by the uniqueness of the toys you create.

#### Career Growth

The expected growth path for a Toy Designer involves transitioning from a creative role to a more managerial position, where you'll leverage your expertise to lead teams and optimise processes for successful toy development and production.

**Toy Designer:** As a Toy Designer, you'll begin your career by conceptualising and creating toys. This involves understanding market trends, designing sketches or digital models, selecting materials, and collaborating with teams to bring your designs to life. You'll constantly refine your skills in creativity, problem-solving, and understanding child development to ensure your toys are both appealing and educational.

**Senior Toy Designer:** With experience and demonstrated proficiency, you may advance to the role of Senior Toy Designer. In this position, you'll take on more responsibilities such as leading design teams, mentoring junior designers, and overseeing multiple projects simultaneously. Your expertise will be crucial in guiding the creative direction of toy lines, ensuring they align with market demands and brand objectives. Additionally, you may be involved in liaising with clients, negotiating contracts, and presenting proposals.

**Process Supervisor:** As you continue to progress in your career, you may transition into a managerial role as a Process Supervisor. In this capacity, you'll be responsible for overseeing the entire toy production process, from design concept to manufacturing and distribution. Your role will involve optimising production workflows, ensuring quality control standards are met, and implementing cost-effective strategies. You'll work closely with cross-functional teams, including designers, engineers, manufacturers, and marketers, to streamline processes and achieve business objectives. Additionally, you'll be involved in identifying and addressing any challenges or bottlenecks in the production pipeline to maintain efficiency and meet deadlines.

The Quest for Sustainability Champions in Toy ...

### The Indian Toy Industry

The Indian toy market is characterised by a significant level of fragmentation, with Small and Medium Enterprises (SMEs) on one side and numerous unorganised smaller units on the other. Together, these entities form a large industry with substantial employment generation capacity, with projections indicating that it will reach \$3 billion by 2028, growing at a remarkable Compound Annual Growth Rate (CAGR) of 12 percent between 2022-28. Notably, the country has transitioned into a net exporter of toys during 2020-21 and 2021-22, marking a departure from decades of import dominance. Despite these promising indicators, the industry faces challenges stemming from its fragmented and unorganised nature, with local producers dominating and limited resources hindering innovation and technology adoption. Additionally, import dependency for raw materials and machinery, coupled with a lack of technology infrastructure, pose significant hurdles to the industry's development. Nonetheless, with a burgeoning consumer base, low-cost labour advantage, and increasing global support, the Indian toy industry holds immense potential for expansion, especially with emerging trends such as the integration of STEM concepts into educational toys and the growing demand for alternatives to Chinese products.

#### Top Recruiters

Toy designers can be recruited by a variety of organisations and companies involved in the toy industry, as well as related sectors.

- ◆ **Toy Manufacturing Companies:** Large toy manufacturers often have in-house teams of toy designers dedicated to developing new products and expanding their existing toy lines.
- ◆ **Independent Toy Design Studios:** There are specialised design studios and agencies focussed solely on toy design. These studios may work with various clients, including toy companies, game developers, educational institutions, and even advertising agencies requiring toy-related designs for campaigns.
- ◆ **Academics:** Universities and colleges with programmes in industrial design, toy design, or related fields may hire toy designers as faculty members or instructors to teach courses and mentor students.
- ◆ **Research and Development :** Some companies, particularly those specialising in educational toys or innovative tech-based toys, have dedicated R&D departments focussed on exploring new concepts and technologies. These departments often employ toy designers to contribute to research and product development efforts.
- ◆ **Startups:** Emerging toy startups and entrepreneurial ventures may seek out talented toy designers to help bring their product ideas to fruition. These opportunities can offer designers the chance to work in dynamic and innovative environments.
- ◆ **Freelance Platforms:** Many toy designers also work as freelancers, offering their services on online platforms such as Upwork, Freelancer, or specialised design marketplaces. They may take on projects from individual clients or companies seeking design expertise on a contractual basis.
- ◆ **Non-profit Organisations:** Some non-profit organisations focussed on children's welfare or education may hire toy designers to develop toys for specific purposes, such as therapy, education, or recreation for children in need.

Overall, the demand for toy designers exists across a diverse range of industries and organisations, providing opportunities for employment and collaboration in various contexts. ### President Murmu Presents Padma Awards in Civil Investiture Ceremony - II

President Smt Droupadi Murmu presided over the second Civil Investiture Ceremony at Rashtrapati Bhavan in New Delhi on May 9, 2024 bestowing the prestigious Padma Awards to distinguished individuals across various fields. Renowned artist Dr. Vyjayantimala Bali and Telugu film actor Shri Konidela Chiranjeevi were honoured with the Padma Vibhushan while the late Justice M Fathima Beevi, the first woman Supreme Court Judge in Asia received the Padma Bhushan posthumously. Additionally, Dr. Ashwin Balachand Mehta, a distinguished cardiologist and veteran political leader Shri O. Rajagopal were among the recipients of the Padma Bhushan. Shri Togdan Rinpoche was also posthumously conferred with the Padma Bhushan for his remarkable contributions to spiritualism. Padma Shri accolades were bestowed upon sports stalwart Ms. Joshna Chinappa, agriculturist Smt. K Chellammal, Hindustani classical vocalist Shri Som Datt Battu, and sculptor Shri A Velu Ananda Chari, among others.

### Indian Coast Guard Signs MoU with Private Sector for Manufacturing of Indigenous Marine-Grade Aluminium

The Indian Coast Guard (ICG) has signed an MoU with the private sector for manufacturing & supply of indigenous marine-grade aluminium for the construction of ships. The MoU will also provide benefits such as quarterly pricing, priority in supplies and turnover discount. The ICG fleet is presently operating 67 ships with aluminium hull with capability of operating in shallow waters. To further boost coastal security, it has planned to induct more such vessels where the indigenously manufactured marine-grade aluminium will be utilised. The MoU was signed by Deputy Director General (Materiel & Maintenance), ICG IG HK Sharma and CEO, Downstream Aluminum Business, Hindalco Shri Nilesh Koul in the presence of senior officials of the ICG.

### Construction of India's First Indigenous Next Generation Offshore Patrol Vessel Kicks Off

The keel laying ceremony for the first Next Generation Offshore Patrol Vessel (ex-GSL) took place in Goa on May 3, 2024. Contracts for the indigenous design and construction of 11 Next Generation Offshore Patrol Vessels (NGOPV) were finalised on 30th March 2023. These NGOPVs will serve various missions including Anti-Piracy, Coastal Defence & Surveillance, Search & Rescue, and

Protection of Offshore Assets. They will bolster the Indian Navy's combat capabilities to safeguard the nation's economic and geopolitical interests in the Indian Ocean Region. This milestone underscores the Indian Navy's commitment to indigenous shipbuilding.

### Mr Vladimir Putin Sworn in again for another Six-Year Term as Russia's President

Mr. Vladimir Putin has been sworn in for another six-year term as Russia's President, solidifying his position as one of the longest-serving leaders in Kremlin history. Having already held office for nearly a quarter-century, Mr. Putin's new term extends until 2030.

### UN Report: 23 Million Afghans Desperately Need Aid Amidst Crisis

A recent report from the United Nations Assistance Mission in Afghanistan (UNAMA) has revealed alarming statistics, indicating that over 23.7 million people in Afghanistan are in dire need of humanitarian assistance. Despite a decrease in violence, the humanitarian situation in the country remains dire. Decades of conflict, poverty, repeated disasters, and economic downturn have left millions of Afghans vulnerable to hardships. Since the Taliban regained control of Afghanistan in August 2021, political transitions, economic contractions, and reduced donor funding have exacerbated the crisis. Forced deportations and declining international aid have added to the challenges faced by the Afghan population. Returnees from neighbouring countries encounter numerous obstacles, including shortages of food, clean water, shelter, and job opportunities. Recent migrant expulsions from neighbouring nations, combined with natural disasters like floods and earthquakes, have further exacerbated the need for humanitarian assistance.

### China Launches Mission to Moon's Far Side for Sample Retrieval

China has embarked on a space mission to retrieve rocks and soil from the far side of the moon, marking the first time any country has attempted such a feat. On May 3, the Long March-5 rocket, China's largest, lifted off at 5:27 p.m. Beijing time from Wenchang Space Launch Center on Hainan Island, carrying the Chang'e-6 probe. The launch was attended by scientists and officials from several countries, including France, Italy, Pakistan and the European Space Agency, all of whom have payloads aboard the probe. The mission's scientific objectives include uncovering the geological age of the South Pole-Aitken Basin, estimated to be around 4 billion years, significantly older than previous lunar samples. Once on the moon, Chang'e-6 will spend two days collecting samples before returning to Earth, where it is expected to land in Inner Mongolia. The data and samples gathered from this mission are anticipated to provide valuable insights into the moon's geological history and composition.

## ECONOMY

### India Surpasses Japan as Third Largest Solar Power Producer

India has leapfrogged Japan to claim the title of the world's third-largest solar power generator, as per a report released by the global energy think tank, Ember. The Global Electricity Review 2024, unveiled on May 8, delves into power generation systems globally for the year 2023. Accompanying this comprehensive analysis is the world's first open dataset on electricity generation for 2023, spanning 80 nations, representing 92% of the global electricity demand. According to the report, solar power's contribution to global electricity production soared to an all-time high of 5.5 percent in 2023.

### IREDA Establishes 'IREDA Global Green Energy Finance IFSC Limited' in GIFT City

Indian Renewable Energy Development Agency Ltd. (IREDA) has inaugurated a fully-owned subsidiary in the International Financial Services Centre (IFSC) situated in GIFT City, Gujarat. Named "IREDA Global Green Energy Finance IFSC Limited," the subsidiary not only empowers IREDA to extend its global outreach but also serves as an offshore platform to secure competitive funding, driving the growth of the renewable energy sector. This strategic move aligns with IREDA's vision of improved access to innovative financing options and increased collaboration with international investors, fostering the advancement of renewable energy projects in the nation and beyond.
