Why the Western Freight Corridor is delayed

MANU KAUSHIK
New Delhi, July 4

THE EXECUTION PROBLEMS faced by the Tata Projects and challenges in the construction work have led to inordinate delays in the implementation of Western Dedicated Freight Corridor (WDFC). Even though the DFCCIL (Dedicated Freight Corridor Corporation of India) has set an official target to commission WDFC by March 2025, the government-run entity is not expecting the work to finish before July 2025.

“The last stretch of 104-km between Saphale and JNPT (Jawaharlal Nehru Port) was challenging from the day one because there were a lot of land acquisition issues. Then, the problems with Tata Projects emerged, and they got slow in executing the project. We are not expecting WDFC to be fully operational before one year from now,” said a senior DFCCIL official.

In 2017, Tata Projects was awarded the contract for this stretch. Due to the slow progress, the DFCCIL decided to terminate the contract in 2022 but it was later revoked after Tata promised to speed up work.

“It would not have been the right decision to end the Tata contract because it would have delayed the

Producer Price Index in the works, to replace WPI

Industry ministry to get the draft vetted by statistical commission

MUKESH JAGOTA
New Delhi, July 4

THE COUNTRY WILL have a Producer Price Index (PPI) to gauge the price pressures in the next few months, in addition to the extant consumer price index. The whole-sale price index (WPI) may be on its way out.

The model for the proposed PPI is being worked upon and thereafter it would be examined by the National Statistical Commission (NSC), following which it will be placed before higher authorities for approval, a senior official said on Thursday.

“Consultations with the Ministry of Statistics and Programme Implementation (MoSPI) have been done. It has to go through a process.. we are on the job,” secretary in the department for promotion of industry and internal trade (DPIIT) Rajesh Kumar Singh said.

“The model from our side is final and we have taken expert advice from International Monetary Fund (IMF) on the methodology. The procedural clearances required will be worked on. That process is on but

IN A TRANSITIONAL PHASE

■ The Producer Price Index has been discussed for the past 20 years when the idea was first mooted

■ In 2019, the government had constituted a working group for revision of the current series of WPI that has 2011-12 as its base year

cannot give the timeline,” he added.

The PPI has been discussed for the past 20 years when the idea was first mooted. While the need to move to PPI from WPI was expressed in 2003 it was only in 2014 that a working group was set up to determine the methodology and data requirements to move ahead. The report of the group came in 2017 but no decision was taken on it.

In 2019, the government had constituted a working group for revision of the current series of WPI with 2011-12 as its base year. The task before the group was to suggest a new base year for WPI and suggest additions and deletions of com-

modities in the basket of goods whose prices are tracked to draw the index. The working group was also empowered to recommend a roadmap for moving to the Producer Price Index (PPI) from WPI.

“That (revision of WPI base year) is also one of the issues that the government is considering. I suppose you can expect some sort of an update of the base year eventually, but whether there will be one particular base year or different.. because our studies show that other countries have multiple base years for different types of indices,” Singh said.

On whether the WPI will be discontinued after the PPI is rolled out,

Water levels in dams still low, southern states see improvement

EVEN AS THE monsoon covered the entire country six days ahead of schedule, water levels in the country's 50 major reservoirs continue to be low, reports Sandip Das. Aggregate water levels in Indian dams stood 21% below the previous year's level on Thursday, up marginally from (22%) a week ago. However, surplus monsoon rains –13% higher the benchmark long period average (LPA) – in the southern peninsula have led to an improvement in water storage in southern states, where the situation is the grimmest. Niti Council meet in Aug to discuss Viksit Bharat 2047

PRASANTA SAHU
New Delhi, July 4

THE NINTH MEETING of the Niti Aayog governing council is likely to be held next month to discuss the 'Viksit Bharat @2047' vision document to make India a developed country by the centenary of its independence.

The council is chaired by Prime Minister Narendra Modi and has chief ministers as members.

Ahead of the council meeting, Finance Minister Nirmala Sitharaman is likely to lay out an action plan on the Viksit Bharat vision in the Budget later this month, sources said.

India would likely aim for at least a \$30 trillion economy by 2047 to become a developed nation in the centenary of its independence, propelled by radical policy changes and reforms in governance by 2030.

The vision document would talk about where India would be in 2047 in various socio-economic indicators, what sectors and technologies India should be leading in, what areas India would have global champions, and other institutional capabilities.

India's growth is closely inter-linked with the growth of states. This would be the guiding spirit of India's inclusive and sustainable vision for the next quarter century.

The vision document has been prepared in about 30 months after Modi envisaged it in December 2021. Ten sectoral groups of secretaries were tasked with preparing sectoral visions. Niti Aayog was tasked with merging these reports into a consolidated vision document after consultation with these groups, experts and industry captains.

The 10 groups of secretaries were on rural & agriculture, infrastructure,

India's per capita income was estimated at around \$2,500 in FY23. Countries with a per capita income beyond \$17,000 are considered developed nations.

Review sought for petrol pumps' near habitation

FE BUREAU
New Delhi, July 4

COMMERCE MINISTER PIYUSH Goyal has asked Petroleum and Explosives Safety Organisation (PESO) to formulate guidelines, in consultation with the ministry of petroleum and natural gas, for creating a template of safety measures, allowing retail outlets of petrol pumps to function in cases where there is habitation within 30-50 metres.

The existing rules do not allow fuel stations to come up within 50 metres of a habitation, including schools, hospitals and residential areas. The direction from the minister came at the stakeholder consulta-

tion on Wednesday to solicit insights and feedback from petroleum, explosives, fireworks and other related industry leaders, aimed at enhancing efficiency in the functioning of PESO.

Stock market has risen 4x during Modi's tenure: Goyal

Agri trade on e-NAM rises 12% in Q1 at ₹18,990 cr

SANDIP DAS
New Delhi, July 4

WITH MORE STATES opening up or facilitating trade of agricultural commodities on the government's electronic portal National Agriculture Market (e-NAM), trade on the wholesale platform in the first quarter of the current fiscal crossed ₹18,990 crore, up 12% on year.

Sources told FE that there has also been a significant spurt in inter-mandi and inter-state trading of agri-commodities on the digital platform, even though on a very low base. e-NAM integrates 1,389 mandis across 27 states.

In the last five years, trade on the digital wholesale market, run by the Small Farmers' Agri Business Consortium, a body under the agriculture ministry has increased 124% to ₹78,424 crore in FY24 from ₹34,940 crore in 2019-20.

Officials said that while the volume of farm gate, inter-state and inter-mandi trade is still a small portion of total turnover of e-NAM, it indicates a gradual shift to the digital platform, being used for better price discovery by the farmers.

In the first quarter of 2024-25, the value of inter-mandi trade was ₹434 crore, up 29% on year. In FY24, there has been a 130% spike in inter-mandi trade on e-NAM to ₹1,660 crore on year. In terms of inter-state trade, which was not happening a year ago, there has been an increase since last fiscal.

The total traded value of commodities on the digital platform using the farmgate model last fiscal has been ₹94 crore compared to a very small amount traded in FY23. In the first quarter of 2024-25, the farmgate sales by the farmers were ₹12.8 crore, up 219% on year.

The ministry has urged states to relax norms, including allowing traders from outside to buy and sell commodities without bank guarantee, provisioning of unified licence for seamless statewide trade access

and procurement from farm gate.

The e-NAM platform currently allows online trading in 219 agricultural, horticultural and other commodities notified by respective state governments. Sources said there around 7,000 mandis in the country and after the recommendation from mandi boards of respective states, the marketplace for agricultural produce comes on board of e-NAM.

At present, 1,389 mandis in 27 states and Union Territories are integrated with the e-NAM platform while 17.74 million farmers, 3803 FPOs, 0.25 million traders and around 0.12 million commission agents are registered with e-NAM.

The mandis integrated into the digital platform since its launch in April 2016 includes Tamil Nadu (157), Rajasthan (145), Gujarat (144), Maharashtra (133), Uttar Pradesh (125) and Haryana (108).

Finance minister Nirmala Sitharaman in her interim-Budget speech in February, 2024 had stated “e-NAM is providing services to 18 million farmers with a trading volume of ₹3 trillion.”

While stating that the e-NAM is the only digital platform with no user charges are being levied on the transaction, the agriculture ministry has urged the central agencies such as Food Corporation of India, farmers' cooperative NAFED and others engaged in procurement and selling of grain, pulses and other agricultural produce to use the platform for better price discovery.

India today stands tall as an oasis of opportunity amidst global turmoil and supply chain disruptions. The Government's continuous efforts to strengthen the domestic economy through increased capital spending, policy shifts towards improving the ease of doing business, and the creation of a world-class digital infrastructure and payments platform have all contributed to an annual GDP growth rate of at least 7% for the last three years, and over 8% in the year under review. The pursuit of 'Aatmanirbharta' (self-reliance) through innovative schemes like the Production Linked Incentive (PLI) scheme, the Start-Up India scheme, and the National Infrastructure Pipeline, has set a strong foundation to realise a *Viksit Bharat*.

During the year under review, the Company has benefitted from these positive policy interventions, as evidenced from its stellar financial performance.

THE NATIONAL COMPANY Law Tribunal (NCLT) on Thursday directed Byju's to pay salaries irrespective of the firm's access to funds raised through its rights issue. It warned the edtech firm of an audit if employees were not paid.

pay the staff. It directed Byju's to file a response to the employees' application and listed the plea for hearing in the coming week.

While Byju's paid April and May salaries, it has yet to make full payments for February and March.

The company has blamed

not having access to the funds it raised through the rights issue in February for salary delays. These funds are tied up in an escrow account on the orders of NCLT until the disposal of the case. Additionally, at least seven vendors have sued Byju's at NCLT to recover their dues.

During the hearing, Byju's investors, who are locked in a legal battle over alleged non-payment of dues by the firm, told the tribunal they had challenged the Karnataka High Court's July 2 order. This order set aside the NCLT's restraint on the startup from launching a second rights issue. The plea will be heard by a division bench of the high court on July 5.

Number of freighters to rise, says govt

TO TAP THE potential of the country's air cargo sector, the focus should be on further improving processes and ensuring faster turnaround times, Piyush Srivastava, senior economic advisor at the ministry of civil aviation, said on Thursday.

Speaking at a conference organised by the Air Cargo Forum India (ACFI) in the national capital, Srivastava said that the air cargo sector has a bright future, with the number of freighters in the country expected to rise. While passenger traffic has recovered after being hit by the Covid-19 pandemic, air cargo is yet to fully recover to the pre-Covid levels. —FE BUREAU

Zomato shuts hyperlocal goods platform

FE BUREAU
Bengaluru, July 4

FOOD TECH FIRM Zomato has discontinued its hyperlocal goods delivery service, Xtreme, due to poor demand, sources said. The company launched this service in October last year, which was available in nearly 800 cities where Zomato operates. It has also removed the Xtreme app from the Google Play Store.

When contacted, Zomato

declined to comment.

Meanwhile, Zomato has relaunched its inter-city food delivery offering, Legends, in its third iteration. This suggests a refocus on the company's core food delivery business. Legends, initially launched in 2022, has now increased the minimum order value to ₹75,000 to make each delivery more profitable. The service is currently available to select customers in Delhi-NCR, Bengaluru, Mumbai and a few other cities.

Previously, there was no fixed minimum order value for Legends and the final amount varied from user to user. The service was paused in April after undergoing several iterations. During this hiatus, the company stated it would relaunch the offering after finding the right product-market fit (PMF).

Regarding Xtreme, it leveraged Zomato's existing fleet as it was available in the 800 cities where its food delivery services operate.

SACHIN KUMAR
Mumbai, July 4

WITH THE AIM to promote affordable housing, the government is likely to set up a new fund for housing finance companies (HFCs) under the National Housing Bank (NHB) in the Budget. Chief Justice of India DY Chandrachud with Sebi chairperson Madhabi Puri Buch during the inauguration of new office premises of the Securities Appellate Tribunal, in Mumbai on Thursday. The CJI pitched for more tribunal benches to ensure that the 'backbone is stable'

Surging mkts: CJI advises Sebi, SAT to stay cautious

PRESS TRUST OF INDIA
Mumbai, July 4

CHIEF JUSTICE OF India DY Chandrachud on Thursday advised Sebi and the Securities Appellate Tribunal (SAT) to exercise caution amid a significant surge in equity markets and pitched for more tribunal benches to ensure that the "backbone is stable".

Referring to newspaper articles calling the crossing of 80,000-point milestone by the BSE as an ecstatic moment, where India is entering a "stratospheric domain", the CJI pointed out that such events emphasise the need for regulatory authorities to ensure that everyone holds their "balance and nerves" amid the wins. "The more you see the surge in the stock market, the greater the role, I believe, for Sebi and SAT, as institutions which will exercise caution, celebrate the successes, but at the same time, ensure that the backbone is stable," the CJI said.

He added that Sebi and appellate fora like SAT assume "immense national importance" in fostering a stable and predictable investment environment, and explained how

this can benefit in economic growth for the country. "When investors feel assured that their investments are protected by law and that there are effective mechanisms for dispute resolution, they are more likely to invest in the country's markets. This influx of investment can lead to better economic outcomes such as increased capital formation, job creation and overall economic growth," the CJI said.

The role of SAT in the "dog-eat-dog" world of finance is that of a referee in ensuring that everybody plays by the rules, he said, stressing the need to be updated by keeping pace with new developments.

With the rapid growth in the number of market participants and transaction volumes, there is a likelihood of an increase in disputes and may be even instances of regulatory non-compliance, he said.

In addition, issues like market conduct and corporate governance have increased appeals filed with SAT "manifold", the CJI said, pitching for an early filling up of the vacancies at SAT to ensure that the tribunal functions effectively and at full capacity.

SENSEX @80,000 RIL biggest wealth creator

WITH THE SENSEX closing above the 80,000-mark on Thursday for the first time ever, a number of records have been broken. For example, it is the quickest 10,000 point rise ever at just 139 trading sessions. RIL has been the biggest wealth creator, followed by Bharti Airtel, State Bank of India, HAL and M&M.

However, India continues to be one of the more expensive markets globally, with its 12-month trailing price-earnings ratio at 25. Only five indices are more expensive. These include two indices in the US – S&P and Nasdaq, New Zealand's NZ50, Japan's Nikkei and Taiwan Taiex index. Among stocks, Bharti Airtel's P/E ratio is at a whopping 108.8. However, four more stocks — Titan, Nestle, HUL and Tech Mahindra — are trading at over 50. State Bank of India is the cheapest stock at 11.2, closely followed by Tata Motors and IndusInd Bank.

FPI buying in financials at six-month high in June

REUTERS
Bengaluru, July 4

FOREIGNER INVESTORS (FPI) snapped a two-month selling streak in India's financials and turned net buyers in June, hitting a six-month high.

The heaviest-weighted sector, financials, garnered FPI inflows worth ₹9,170 crore (about \$1.1 billion) during the month, the highest since December 2023, according to data from the National Securities Depository (NSDL).

The FPI buying in the sector came after two months of outflows worth ₹18,200 crore, boosting the financials index, private banks and banking stocks 6.9%-8% higher during the month under review.

"Once the concerns over the national elections-related uncertainty were over, the government was formed and ministries were allocated, FPIs were assured of policy continuity," said Ajit Banerjee, chief investment officer at Shriram Life Insurance.

FPI outflows from domestic equities hit a record high on June 4,

BSE FIRMS' M-CAP AT ₹447 TRN

the election results day that showed a surprise weaker mandate for the ruling National Democratic Alliance.

"It appears the FPIs have realised that selling in the most-performing market would be a wrong strategy," Banerjee said.

Helped by the return of foreign inflows and sustained domestic buying, India's blue-chips Nifty 50

and S&P BSE Sensex rose about 7% each in June, the best monthly performance in 2024.

"Once the interest rate cut starts in the US, which is expected by the end of the year, it could trigger bigger FPI inflows into emerging markets like India as the arbitrage will open up between the two countries," said Viraj Gandhi, chief executive of SAMCO Mutual Fund.

Information technology companies led Indian shares higher on Thursday, in line with Asian peers, after softer US labour data boosted hopes for a rate cut in September.

Telecommunication, consumer services, capital goods and healthcare sectors saw FPI inflows worth between ₹2,700 crore and ₹8,000 crore in June.

SAMCO's Gandhi said investor interest will likely continue in capex-linked themes like manufacturing, infrastructure, defence as well as consumption-linked themes, including telecommunication and real estate sectors.

Banks post strong growth in June quarter advances

SACHIN KUMAR
Mumbai, July 4

STARTING THE NEW financial year on a positive note, banks have reported a strong growth in advances in the first quarter.

HDFC Bank's gross advances have jumped 52.6% while UCO Bank' and Bank of Maharashtra's gross advances have risen by 18% and 19%, respectively, according to first quarter business updates.

HDFC Bank gross advances increased to ₹24.87 trillion for the quarter ended June 2024, compared with ₹16.3 trillion in the year-ago period, the lender said in a stock exchange filing.

Excluding the impact of the merger, which came into effect from July 1 last year, the bank's gross advances grew by 14.9% over June 2023 quarter. The bank's deposits stood at ₹23.8 trillion in the June quarter, registering a growth of around 24% over ₹19.13 trillion reported in the year-ago period, and were at similar levels compared to ₹23.8 trillion in the March quarter of FY24.

Excluding the July 2023 merger impact, the bank's deposits grew by 16.5% over June 30, 2023. Current account and savings account deposits of HDFC Bank jumped 6.2% to ₹8.63 trillion in the reported quarter, compared with ₹8.13 trillion in the year-ago period. It stood at ₹9.08 trillion in the March quarter, which had a seasonal impact, said the lender.

Bank of Maharashtra's gross advances increased to ₹2.09 trillion in the first quarter, from ₹1.75 trillion in the same quarter of the previous year. Deposits grew 9.44% year-on-year to ₹2.67 trillion. The share of low-cost current account, savings account deposits declined to 49.86% of total deposits as of June-end 2024, against 50.96% in the same period last year.

UCO Bank's gross advances rose to ₹1.94 trillion in the April-June quarter while its domestic advances were up 19.33% to ₹1.67 trillion as on June-end 2024, against ₹1.40 trillion as on June-end 2023.

The public sector lender reported a growth of 7.4% in total deposits to ₹2.68 trillion in the first quarter, compared with ₹2.5 trillion in the same period last year. The share of CASA deposits increased marginally to 38.62% of total deposits as of end of June, against 38.10% as of June-end 2023.

Equitas Small Finance Bank's gross advances rose 17.8% on a yearly basis to ₹34,872 crore in the first quarter of the current fiscal while its total deposits grew 35.4% to ₹37,524 crore, compared with ₹27,709 crore in the same period last year.

Bandhan Bank's advances jumped by 22% year-on-year to ₹1.25 trillion for the quarter ended June 2024 while its deposits increased by 22.8% to ₹1.33 trillion. The lender's CASA ratio declined to 33.4% from 36% in the year-ago period.

Bank credit growth in FY25 expected at 14-14.5%, says CareEdge

FE BUREAU
Mumbai, July 4

CAREEDGE RATINGS ESTIMATES the growth in bank credit to be in the range of 14-14.5% in the current fiscal owing to a broad-based growth across segments, with personal loans outperforming the industry and services sectors.

"Medium-term prospects seem promising with reduced corporate stress and sufficient provision buffer. Further, ebbing inflation could also reduce the working capital demand," the rating agency said, adding that elevated interest rates and global uncertainties could affect the credit growth.

The growth in credit offtake will also be aided by economic expansion, increased capital expenditure and rise in retail credit.

Excluding the impact of the merger HDFC with HDFC Bank, the gross bank credit offtake rose 16.1% year-on-year to ₹167.8 trillion as of May 2024.

The services sector witnessed a credit growth of 20.7% in May 2024, marginally lower than 21.3% growth in the year-ago period. This growth was bolstered by increased credit in segments such as commercial real estate, transport operators and professional services.

● JAISHANKAR MEETS CHINESE COUNTERPART

India & China agree: LAC situation not in interest of either side

Decide to step up efforts to resolve border issues

SHUBHAJIT ROY
New Delhi, July 4

IN THEIR FIRST meeting after the return of the BJP-led NDA to power, external affairs minister S Jaishankar and Chinese foreign minister Wang Yi agreed on Thursday that the "prolongation of the current situation in the border areas is not in the interest of either side".

The military standoff along the Line of Actual Control in eastern Ladakh, which began in May 2020, is now in its fifth year and has soured relations between the two countries.

The Indian statement, following the meeting of Jaishankar and Wang on the sidelines of the summit of the Shanghai Cooperation Organisation (SCO) in Kazakhstan capital Astana, said the "Line of Actual Control must be respected and peace and tranquillity in the border areas always enforced." The new element in the statement reflects the realisation that the border situation is not in each other's interest and that tranquillity must be "always enforced".

They also agreed to redouble efforts through diplomatic and military channels to resolve the remaining border issues in eastern Ladakh.

In a post on X, Jaishankar said, "Met with CPC Politburo member and FM Wang Yi in Astana this morning. Discussed early resolution of remaining issues in border areas. Agreed to redouble efforts through diplomatic and military channels to that end." "Respecting the LAC and ensuring peace and tranquillity in the border areas is essential. The three mutuals — mutual respect, mutual sensitivity and mutual interest — will guide our bilateral ties," he said.

The ministry of external affairs (MEA) said the two ministers had an in-depth exchange of views on finding an early resolution of the remaining issues along the LAC in eastern Ladakh to stabilise and rebuild bilateral relations. The ministry of external affairs said the two ministers had an in-depth exchange of views on finding an early resolution of the remaining issues along the LAC in eastern Ladakh to stabilise and rebuild bilateral relations

is not in the interest of either side. EAM highlighted the need to redouble efforts to achieve complete disengagement from the remaining areas in Eastern Ladakh and restore border peace and tranquillity in order to remove obstacles towards return of normalcy in bilateral relations," it said. "He reaffirmed the importance of fully abiding by relevant bilateral agreements, protocols, and understandings reached between the two Governments in the past. The Line of Actual Control must be respected and peace and tranquillity in the border areas always enforced," the MEA said.

It said the ministers "agreed that the Working Mechanism on Consultation and Coordination on India-China Border Affairs (WMCC) should hold an early meeting. EAM reiterated that India-China relationship is best served by observing the three mutuals — mutual respect, mutual sensitivity and mutual interests," it said. They also exchanged views on

the global situation. Jaishankar, the MEA said, extended to Wang India's support for China's Presidency of the SCO next year.

Reading the Prime Minister's statement at the SCO meeting, Jaishankar said the SCO is a principle-based organisation, whose consensus drives the approach of its member states.

"At this time, it is particularly noteworthy that we are reiterating mutual respect for sovereignty, independence, territorial integrity, equality, mutual benefit, non-interference in internal affairs, non-use of force or threat of use of force as a basis for our foreign policies. We have also agreed not to take any measures contrary to the principles of state sovereignty and territorial integrity," he said, in an oblique reference to China's aggression in the border areas.

Targeting Pakistan and its promotion of cross-border terrorism, he said, "While doing so, priority must naturally be given to combating terrorism, one of the original goals of the SCO. Many of us have had our experiences, often originating beyond our borders. Let us be clear that if left unchecked, it can become a major threat to regional and global peace."

Modi did not attend the SCO summit. Chinese President Xi Jinping and Pakistan Prime Minister Shehbaz Sharif were among those present.

Andhra Pradesh CM meets PM, seeks financial assistance

ANDHRA PRADESH CHIEF minister and Telugu Desam Party (TDP) chief N Chandrababu Naidu on Thursday met Prime Minister Narendra Modi in the national capital, and sought the central government's support on significant matters pertaining to the state's development.

The chief minister highlighted the fact that Andhra Pradesh continues to grapple with the repercussions of the unscientific, unfair, and unjust bifurcation in 2014. Additionally, the miserable governance of the previous administration, marked by malice, corruption and misgovernance, has dealt a more deleterious blow to the state than bifurcation itself.

He apprised the PM that the fiscal situation in Andhra Pradesh has significantly deteriorated due to the previous government's misadventures and the absence of a strategic long-term development plan. The aspirations of the people of Andhra Pradesh were paid no heed by the previous government. Its misgovernance is marked by huge unpaid liabilities, no

Naidu and Modi discussed the steps that could be taken to meet the aspirations of the people of Andhra Pradesh. The CM indicated that Andhra Pradesh continues to be severely constrained by a lack of

financial resources. There is no other way to face such a challenge except by way of financial handholding by the central government, he said.

He sought the Centre's cooperation in the handholding of state finances in the short term, government's support in the commissioning of the marquee Polavaram National Irrigation Project.

Naidu also sought comprehensive financial support for the completion of the government complex and trunk infrastructure of the capital city of Amaravati and incentives for industrial development.

He demanded consideration for an additional allocation under the Scheme for Special Assistance to States for Capital Investment, targeting essential sectors such as roads, bridges, irrigation and drinking water projects. "Support to the backward regions of Andhra Pradesh on lines of the Bundelkhand package and support to the state for the development of Duggirajapatnam port," he said.

Hemant Soren back as Jharkhand CM

ABHISHEK ANGAD
Ranchi, July 4

OVER FIVE MONTHS after he resigned as chief minister, Jharkhand Mukti Morcha (JMM) executive president Hemant Soren returned to the post on Thursday evening, after governor C P Radhakrishnan administered the oath of office.

About half an hour before being sworn in, Soren released a five-minute video clip on social media platforms addressing the people of Jharkhand. "...I have tried to be the voice of the voiceless — the poor, Adivasis, moolvasis, backwards, labourers, farmers — who have always struggled... When you gave me a chance to serve you, I tried to reach your doorstep. However, they (BJP) stopped me for some time. I am coming to you now and will do everything to give you your rights and entitlements," he said. "They kept me in jail for a long time, but the people gave me full support and I got justice," he said.

While he claimed that the court had released him after giving him a "clean chit", the trial in the case is still ongoing. Soren was arrested by the Enforcement Directorate (ED) on Jan-

He was released on bail on June 28, with the Jharkhand High Court saying there "exists reasonable grounds to believe he was not guilty". He said the state's people had given him the mandate. Rahul to visit Hathras today

LEADER OF OPPOSITION in the Lok Sabha Rahul Gandhi will visit Hathras on Friday following a stampede in which 121 people were killed, Congress leaders said on Thursday.

Uttar Pradesh Congress Committee president Ajay Rai said Gandhi will meet the family members of the victims. Rai blamed the state government for the incident. The stampede occurred at a 'sat-sang' of self-styled godman Narayan Sakar Hari, also known as Bhole Baba, on Tuesday.

Meanwhile, the Uttar Pradesh Police on Thursday said six persons, including two women, have been arrested in connection with the stampede. All those arrested have been identified as "sevadars" (volunteers) of Narayan Sakar Hari. The self-styled godman, however, has not been named in the FIR.

Asked if the self-styled godman would face action, Aligarh division inspector general of police Shalabh Mathur said, "I am not saying if he is guilty or not. I am saying the investigation is underway and if we get evidence, we will proceed accordingly." Asked why Bhole Baba was not named as the main accused, he said, "Permission was not sought on his name."

Ministry backs pitch for angel tax removal

EARLIER, IT WAS imposed only on investments made by a resident investor. However Finance Act 2023 proposed to extend the tax even to non-resident investors from April 1, 2024. With the latest amendment, the government had proposed to also include foreign investors in the ambit, meaning that when a startup raises funding from a foreign investor, that too will be counted as income and be taxable. The industry has argued that the government is wrong in citing the difference between valuations and actual performance as a sign of money laundering, adding that investors usually fund startups based on their future potential, rather than current market value. Taxes levied on the difference between issue price of unlisted securities and its fair market value (FMV) have hurt such funding, they argued.

Even months after the tax department "relaxed" the valuation methods for non-resident capital infusion in startups to address their concerns, the tax heat on them has only risen. According to industry sources and tax experts, many startups have already moved court, and more are planning to, challenging the tax demands, and way the taxman seeks to "alter" or differ with the valuation methods followed by the firms.

The startups are also armed with

several tribunal and court rulings of the past where it was held that the tax department has no right to change the valuation arrived at by the taxpayer or by the third party valuer on his behalf, so far as these follow the options notified. Another issue for the Budget that DPIIT has taken up with the finance ministry is addressing the inverted duty structure. Inverted duty structure refers to a condition where the import duty on inputs is higher than finished products which incentivises imports rather than local manufacturing.

Singh said various industry associations in electronics have raised this point. "I tend to agree with them that taxes on inputs should be reduced over time. That's ultimately for the ministry of electronics and information technology and the finance ministry to take a view." DPIIT's view is that inverted duty and high tariff on inputs will need to be phased out not only in electronics, but perhaps in other sectors, he added. The NDA government is likely to present the first Budget of its third term on July 24. The government is also set to introduce a national deep tech startup policy, aimed at giving a boost to early-stage technologies and their commercialisation. The final draft of the policy is ready with the DPIIT and may be taken to the Cabinet soon.

Sensex up 11% post LS verdict

SO FAR, IN just a little over three months of this financial year, the index has already risen nearly 9%.

Nilesh Shah, MD of Kotak Mahindra AMC, recommended that investors have a long-term horizon and significantly moderate their return expectations. Holland, however, added that if there's anything in the Budget that accelerates the current momentum, the returns for FY25 could be even higher than 15%.

According to A Balasubramanian, MD and CEO of Aditya Birla Sun Life AMC, the upcoming Budget is likely to balance fiscal consolidation with measures to increase consumption. "The coalition government's strategic focus on infrastructure, fiscal prudence, and diversified asset allocation is poised to drive India's economic growth, ensuring market stability and expansion," Balasubramanian said.

Apart from hopes from the Budget, expectations of a rate cut from the US Federal Reserve has also been a driver in sectors like information technology, fund managers said.

Holland said he prefers IT stocks over FMCG, given the prospects of interest rate cuts.

Over the last one month, the

market rally has been driven by the sectors which have highest weight in the market: IT and banking. While prospects of a rate cut have driven optimism in the shares of IT companies, bank stocks have been on the rise given better risk-reward opportunities.

After the Budget, earnings will be a key factor driving the market momentum amid lack of other major triggers. This could lead to some sectoral rotation, which could mean limited incremental upside in the market on a broader level, according to fund managers.

Govt looks at easing FDI policy

TWO PROMINENT AREAS where further FDI liberalisation is called for are multi-brand retail and e-commerce. Another area that could be considered is civil aviation, where FDI is capped at 49% and government approval is required for holdings in airlines operating scheduled and non-scheduled air transport services. In print media, broadcast services and even areas of agriculture like cultivation of vegetables, FDI norms have been due for liberalisation for long, according to analysts.

Besides, the government is planning further visa liberalisation for Chinese technicians and experts.

Visa norms for skilled Chinese workers have already been made less restrictive for the firms that have signed up for production linked incentives (PLI) in 14-odd sectors. Other companies present in these PLI sectors may also be given a similar dispensation soon.

"We are in the process of drawing up a similar streamlined (visa) process for non-PLI beneficiaries in the PLI sectors as well," Singh said.

The government has been progressively easing the FDI policy, and has recently offered incentives of lower import tariffs for

electric vehicle (EV) manufacturers subject to conditions, including indigenisation. In February, it relaxed the policy with regard to the space sector by allowing 100% FDI in the manufacture of components for satellites.

However, it has been unresponsive to the demand for further easing of FDI in the high-potential area of multi-brand retailing (MBR). Even though FDI up to 51% was allowed in MBR as early as in 2012, stringent riders have kept investor interest lukewarm. Under the FDI policy, foreign investors in MBR are required to bring in at least \$100 million, and at least half of the monies have to be invested in back-end infrastructure within three years. Additionally, it is mandatory for investors to procure 30% from MSMEs, and there continues to be bar on e-commerce retail trading.

"The government can cautiously look at liberalising FDI rules in multi-brand retail and e-commerce. Multi-brand retail liberalisation can bring a lot of benefits to the wider economy and changes in FDI in e-commerce can be brought about in a way that also boosts exports through this route," Anindya Ghosh, partner at IndusLaw, said.

The last two financial years

have seen a decline in FDI inflows, even as outbound flows remained strong.

Inflows into greenfield ventures have been particularly unimpressive, even as repatriation and disinvestment tended to rise. Investors in infrastructure and other key industries like pharmaceuticals increasingly flag the rising risk perception of investing in India. Net FDI flows were \$2 billion in Q4FY24 as compared with \$6.4 billion a year ago.

Meanwhile, on the industry response to the EV policy announced before the elections, Singh said the ministry of heavy industries is learnt to be finalising the guidelines. "It was meant to be a generic policy. We will see how many show interest when the window opens for accepting applications," he added.

On whether Tesla has approached the government with its plans after the announcement of the policy and completion of the elections, Singh said "the tweet after the election is the last we have heard from Tesla".

In that tweet the founder of the company Elon Musk had congratulated Prime Minister Narendra Modi and said he is looking forward to "my companies doing exciting work in India".

household surveys on various socio-economic subjects, such as Annual Survey of Industries (ASI), Periodic Labour Force Survey (PLFS) and Household Consumption Expenditure Survey (HCES).

mation surveys for state agencies and maintains a frame of urban-area units for use in sample surveys. Its survey arm has four divisions: Survey Design and Research Division (SDRD), Field Operations Division (FOD), Data Processing Division (DPD), and Survey Coordination Division (SCD).

● CELEBRITY-OWNED BRANDS

Waiting in the wings

How long will it take for 82°E or Hyphen to mark their presence?

PALLABI DEY PURKAYASTHA

IT'S ONLY BEEN a year since national award winner Kriti Sanon launched her skincare brand Hyphen, but she appears confident — her products have what it takes to be “the first ₹100-crore D2C brand in India”, she says. Sanon isn’t the only one hoping for fans to make a beeline for her brand.

To say that there’s been a celebrity-beauty brand boom over the past five years in India would be an understatement. There are over a dozen such brands sold in the country, led by haircare products, skincare lines and colour cosmetics. Not all seem to be created equal though, if sales trends and top-of-mind recall are anything to go by. While some brands have seen good early momentum, others have done little to enhance the celebrity’s personal brand.

Take Priyanka Chopra Jonas’s hair care brand Anomaly, which, according to Statista, posted \$542.7 million in revenue in the US last year. The product comprises a range of shampoos, conditioning masks, dry shampoos and conditioners, with the most-searched product from her collection being her hair oil. In India, these products are available on Myntra and Nykaa and retail in the ₹700 to ₹1,600 bracket but the brand has been slammed for selling ‘over-priced’ products. And there is very little sales data forthcoming from the

Celebrity	Brand	Category	Price point (in ₹)
Kriti Sanon	Hyphen	Skincare	450 to 600
Sunny Leone	StarStruck By Sunny Leone	Makeup	500 to 2,000
Shraddha Kapoor	Palmonas	Demi-luxe jewelry	500 to 5,000
Priyanka Chopra Jonas	Anomaly	Haircare	700 to 1,600
Deepika Padukone	82°E	Skincare	1,200 to 2,700

brand in India to figure out which direction it is headed.

When Deepika Padukone’s self-care brand 82°E was launched a year-and-a-half ago, the stated target was to reach an ARR or annual recurring revenue (a term used in subscription-based businesses to indicate the revenue that is committed) in 6-8 months. At the end of its first year, the company again said it was aiming to reach the ₹100-crore ARR mark. While the brand has added more products and expanded its online and offline presence, it is the US, Singapore, and Australia — not India — that are its top 3 markets.

Or take Shraddha Kapoor’s Palmonas, which sells primarily through Instagram, its official website, and has a single store in all of India, in Koregaon Park (Pune).

No one is saying the market size is insignificant or that the potential is not worth the effort. As per Statista, the beauty and personal care market in India is projected to generate a revenue of \$31.51 billion in 2024.

So, while the industry is growing, what will it take for these celebrity-driven brands to gobble up a larger share of the market? Given the current trends, will these brands be able to stand the test of time?

Noise + substance = success

For one, Sunny Leone insists she knows the game all too well. “I am the only celebrity who owns her brand 100%,” she says, indicating the other ventures are co-founded or involve several stakeholders. The biggest challenge she faces is to make people understand that she is not just a brand ambassador but the owner who is also ‘100% involved’ in the product formulation. With a 22-member team, Leone’s affordable luxury makeup brand has 250 stock keeping units.

Brand experts also feel not all celebrity brands are doomed just

because the owner is a performer and not known to be a hardcore business person. “Celebrities can build a fan base that’s fiercely loyal and trusts their recommendations. This built-in audience gives them a leg up,” says Ishan Agarwal, director of brand and creatives, CashKaro.com. The key to success is — unsurprisingly — quality over hype. “If they can combine their star power with truly innovative and high-quality products, they can create a strong niche,” he adds.

The biggest hurdle in the way of these brands remains price. Yash Kulshrestha, chief creative officer of Atom Network, points out, “Most of these brands come at a cost that only a fraction of Bharat can afford on a regular basis.” “Success lies in offering a unique value proposition and maintaining high standards to justify the price,” adds Vipul Gupta, founder of

D2C skincare brand Re’equil.

Celebrity cosmetic dermatologist Dr Rashmi Shetty has a word of caution: “Small” players might not have the wherewithal to carry out extensive R&D to back the products they are trying to sell to their fans-turned-customers. “It’s not about big players having bigger budgets and wider distribution networks. It’s about big players having research-based, science-based products,” she explains. “The process of manufacturing is crucial — the precision, hygiene, and science involved in preserving and packaging products are extensive. It is almost impossible for smaller players to achieve that level of professionalism due to lack of funds.”

So what will it take? “We understand celebrity influence can be a powerful motivator, but one has to bridge the gap between inspiration and results,” sums up Niharika Jhunjhunwala, founder of ClayCo, a brand that promises clear, glassy skin within a week of use.

● Current price & production trends

ONION PRICES AT Lasalgaon in Nashik district of Maharashtra, the hub of the wholesale onion trade in the country, rose to ₹3000/quintal on Thursday from ₹2000/quintal prevailing a month back, mainly because of a reduced rabi (winter) harvest. The average retail prices of the key vegetable on Thursday was ₹40/kg, a sharp increase from ₹20/kg reported a year ago. The agriculture ministry has projected onion production for the 2023-24 crop year (July-June) at 25.47 million tonne (MT), a 16% drop from the output of 30.2 MT in 2022-23 due to patchy rainfall in the winter months. Retail inflation in onion was 38% year-on-year in May 2024 while prices rose by 86% in November 2023 year-on-year.

Traders say farmers are releasing the stocks in a calibrated manner in anticipation of higher prices as for the first time in the last three years they are realising better prices. While kharif (summer) sowing has been robust so far, onion prices are expected to remain elevated till the kharif harvest enters the market in October.

IN AUGUST 2023, onion prices had started to rise due to sluggish kharif sowing as delayed and scanty monsoon rains hit the key growing areas of Maharashtra and Karnataka. A spurt in prices were reported after nearly two years of stable prices because of bumper output. There had been no export restriction since January 2021 but in August 2023, the government imposed a 40% duty on exports and subsequently in October last year, a minimum export price (MEP) of \$800/tonne was imposed to curb

shipments. Onion exports were banned from December 2023; however it allowed shipment of around 0.1 million tonne of shipment to various countries including Bhutan, Bahrain, Mauritius, Bangladesh and United Arab Emirates. In May 2024, the government lifted the ban on onion shipment and imposed an MEP of \$550/tonne and an additional 40% export duty on it. Last year, the government had also sold onion at ₹25/kg through various retail outlets from its buffer stocks.

● Options for the government now

CONSUMER AFFAIRS SECRETARY Nidhi Khare said availability of the key vegetable is not the issue as farmers are holding on to their stock in anticipation of a further spike in prices. The government is watching the supply situation closely and keeping all options open. Imposition of stock holding limit is not being considered as most stocks from the rabi harvest are held with the farmers and not traders, and the vegetable harvested in April cannot be stored beyond October. The central agencies – farmers’ cooperative Nafed and National Cooperative Consumers’ Federation of India (NCCF) – have procured nearly 0.3 million tonne (MT) of onions so far this fiscal for a buffer against the target of 0.5 MT and expect prices to moderate in the coming months with the progress of monsoon. The target for purchase for buffer stocks is likely to be met soon, officials said. This year, officials say, buffer stocks of onion will be offloaded in a calibrated manner.

● Onion prices a political hot potato

INDIA GROWS MORE than 30 MT of onions, making it the second-largest producer in the world after China. Overall production remains adequate to meet domestic demand. However, production and supply mismatch due to storage issues lead to spikes in prices intermittently which become a politically sensitive issue.

A ban on onion exports last year to control retail prices led to protests by farmers, especially in the Nashik belt where the National Democratic Alliance suffered losses in the recent elections. Although the government lifted the ban in the midst of the general elections in May, after levying MEP and export duty, it was a case of too little too late, thus angering farmers. Traders and farmers say they started to realise higher prices despite lower output, yet the government decision to lift the ban and allow exports with conditions did not lift the prices.

Britons vote in poll expected to propel Labour to power

KATE HOLTON
London, July 4

BRITONS WERE VOTING on Thursday in a parliamentary election that is expected to bring Keir Starmer's Labour Party to power, sweeping away Prime Minister Rishi Sunak's Conservatives after 14 often turbulent years.

Opinion polls put Starmer's centre-left party on course for a landslide victory but also suggest many voters simply want change after a period of infighting and turmoil under the Conservatives that led to five prime ministers in eight years.

This means Starmer, a 61-year-old former human rights lawyer, could take office with one of the biggest to-do lists in British history but without a groundswell of support or the financial resources to tackle it.

"Today, Britain can begin a new chapter," Starmer told voters in a statement on Thursday. "We cannot afford five more years under the Conservatives. But change will only happen if you vote Labour."

The country's 40,000 polling stations opened at 0600 GMT.

Sunak, 44, voted early with his wife, Akshata Murty, in the electoral district of Richmond in northern England that he represents in parliament. Starmer cast his ballot around 0830 GMT with his wife in his north London constituency.

Having called the election months earlier than expected, Sunak has in recent weeks abandoned his call for a fifth consecutive Conservative victory, switching instead to warning of the dangers of an unchallenged Labour Party in parliament.

Sunak issued a fresh rallying cry to voters for election day, saying a Labour government would hike taxes, hamper economic recovery and leave Britain more vulnerable at a time of geopolitical tension, charges Labour deny.

(Left) British Prime Minister Rishi Sunak and his wife Akshata Murty leave a polling station near Richmond, North Yorkshire, on Thursday

(Below) A message from the Reform UK party is seen outside a polling station in Clacton-on-Sea in the county of Essex

(Left) Britain's opposition Labour Party leader Keir Starmer and his wife Victoria Starmer walk outside a polling station in London

"They will do lasting damage to our country and our economy - just like they did the last time they were in power," Sunak said on Thursday. "Don't let that happen."

Voting ends at 10 pm (2100 GMT) when an exit poll will give the first indication of the outcome. Detailed official results are expected in the

early hours of Friday.

Punishing government

If the opinion polls are correct, Britain will follow other European countries in punishing their governments after a cost of living crisis that stemmed from the Covid-19 pandemic and Russia's invasion of Ukraine. Unlike France

it looks set to move to the centre left and not further right.

Labour has held a poll lead of between 15 and 20 points since shortly after Sunak was chosen by his lawmakers in October 2022 to replace Liz Truss who resigned after 44 days, having sparked a bond market meltdown and a collapse in sterling.

Modelling by pollsters predicts Labour is on course for one of the biggest election victories in British history, with a likely majority in parliament that would exceed those achieved by Tony Blair or Margaret Thatcher, although a high number of voters are undecided and turnout could be low.

China-based EV makers hit with new EU tariffs

REUTERS
Brussels, July 4

THE EUROPEAN UNION will impose tariffs of up to 37.6% from Friday on imports of electric vehicles made in China, EU officials said, ratcheting up tensions with Beijing in Brussels' largest trade case yet.

There is however a four-month window during which the tariffs are provisional and intensive talks are expected to continue between the two sides as Beijing threatens wide-ranging retaliation.

The European Commission's provisional duties of between 17.4% and 37.6% without backdating are designed to prevent what its president Ursula von der Leyen has said is a threatened flood of cheap EVs built with state subsidies.

The rates are almost the same as those announced by the Commission on June 12.

Tesla cars on China govt's purchase list

TESLA'S BEST-SELLING Model Y was included in a list of electric and plug-in hybrid models that a local government in China can purchase as a service car, according to the official Chinese media outlet the Paper on Thursday. It was the first time Tesla's cars have been made eligible for government purchases in China.

Beijing said then it would take "all necessary measures" to safeguard China's interests.

I'm in this race to the end, says Biden

JUSTIN SINK
July 4

THE DRUMBEAT OF pressure on Joe Biden to drop out of the US presidential race intensified with a bombshell report in the New York Times that he had conceded the possibility to a key ally, as well as movement within his own party to demand his withdrawal.

The White House and Biden's campaign quickly denied the Times report suggesting the president had vocalised to a supporter that he could ill-afford another misstep that would irrevocably damage his campaign. Biden himself insisted to campaign staff he intended to remain in the race.

"I'm in this race to the end

and we're going to win because when Democrats unite, we will always win," Biden said in a call alongside Vice-President Kamala Harris.

In another blow, dozens of Democratic lawmakers are considering signing a letter demanding Biden withdraw from the race, a senior party official said.

Bandhan to take call on interim CEO soon

PIYUSH SHUKLA
Mumbai, July 4

THE BOARD of directors of private sector lender Bandhan Bank will likely meet later this week and could finalise the name of the candidates that will be recommended to the Reserve Bank of India (RBI) for the post of the interim CEO, sources say.

"The directors have scheduled a meeting over the weekend and could take the final call over the interim CEO post," a source said. The bank did not respond to queries sent by *FE* till press time.

Incumbent MD and CEO Chandra Shekhar Ghosh is set to retire on July 9. According to sources, two internal executive directors (ED)—Ratan Kumar Kesh and Rajinder Kumar Babbar—are the frontrunners for the position. Kesh, being the senior-most ED at the bank, could be the first choice for the board. Kesh joined Bandhan Bank as ED in March 2023 and

CHANDRA SHEKHAR GHOSH,
INCUMBENT MD & CEO, BANDHAN BANK

AFTER LEADING THE BANK FOR ALMOST A DECADE, I FEEL THAT THE TIME HAS NOW COME FOR ME TO ASSUME A LARGER STRATEGIC ROLE AT BANDHAN GROUP LEVEL

is also currently serving as the chief operating officer. He has worked with ICICI Bank, HDFC Bank, Yes Bank and Axis Bank in his earlier stints. Babbar was appointed Bandhan Bank ED and the chief business officer in March this year. He has worked with HDFC Bank for more than two decades. Further, the bank has appointed consulting and leadership advisory firm Egon Zehnder to scout for a permanent CEO, a source said.

In April, Bandhan Bank founder Ghosh announced he

will retire at the end of his third tenure on July 9, 2024. He would, however, continue to have a "larger strategic" role at the group level after retirement.

"After leading the bank for almost a decade, including three consecutive tenures as MD & CEO, I feel that the time has now come for me to assume a larger strategic role at Bandhan group level. Hence, I have decided to retire from the services of Bandhan Bank at the end of my current tenure as MD & CEO, i.e. on July 9," he said.

Devolution conundrum for Finance Commission

KJ JOSEPH & KIRAN KUMAR KAKARLAPUDI

IT IS WELL known that in India, there is a congenital inequality in the distribution of revenue and expenditure between the Union and states. The latter are responsible for over 62% of the total expenditure with an entitlement of only 37% of the total revenue. The constitutional mandate of the Finance Commission is to address the inequality by recommending how much of the Union's tax revenue is to be devolved (divisible pool) and its distribution across states. The finance panels have accomplished this mandate highly commendably. Yet, a fundamental flaw concerning the core criterion adopted in the devolution remains.

Delving into devolution

Devolution of the divisible pool has been based on three criteria: need, equity, and efficiency. The indicators and weights assigned for each changed over time. The 15th Finance Commission considered tax and fiscal efforts (2.5%), forest and ecology (10%), demographic performance (12.5%), area (15%), population (15%) and income distance (45%). The most important one is the income distance, capturing the difference in the per capita income of a state concerned from that of the state with the highest per capita income. Accordingly, the states with lower per-capita income received a higher share of the divisible pool, and their share declined when the per-capita income increased. The presumption is that the states with higher per capita income will have higher tax capacity to mobilise the needed revenue to provide

basic minimum public goods.

The paradox

However, studies by Gultati Institute of Finance and Taxation and National Institute of Public Finance and Policy (NIPFP) have shown a paradox of declining tax-to-GSDP ratio with rising per capita income across states. From the first half of the 1990s to the five years ending in 2020, high-income states' own tax-to-GSDP ratio declined from 8.8% to 6.1%, while low-income states increased from 5.9% to 6.2%. At the same time, given the devolution criteria, the share of the high-income states in the total divisible pool during the above period declined from 21.14% to 15.4%. Thus, the higher-income states face a double-whammy—higher per capita income does not guarantee higher own tax-to-GSDP ratio, and it also causes a reduction of their share in the divisible pool.

The paradox has been attributed to the nature of structural change in the state's economy and the division of taxing powers between the Union and states. The growth of the economy after the economic reforms has been mainly contributed to by the services sector.

While the services sector emerged as the growth engine of certain states, the right to levy service tax since 1994 has been vested with the Centre, depriving the state governments of their potential tax revenue from the growing sector. Further, pre-dominance of the informal sector in services also stood in the way of their contribution to tax

revenue. The introduction of GST couldn't resolve the issue as services like health and education are exempted from it. In Kerala, the services sector contributes 64% of GSDP but accounts for only 17% of GST collection. The output orientation of the state also does matter. Experts have argued that since exports are not subjected to taxation, states deriving higher per capita GSDP from exports are losers of tax revenue. Hence, the states that derive higher per capita income from services and exports face a double whammy—they are confronted with a declining tax base and a reduced share in the divisible pool.

Income distance criteria: Call for a revisit

The presumption that the higher income states have higher tax potential stands on a weak edifice. Hence, the persistence of the primacy of income distance as an equity criterion for devolution could have the effect of excessively penalising high-income states. The 16th Finance Commission may consider reducing the weight of income distance criteria with a corresponding increase in the weight of the need-based criteria. Alternatively, an adjusted per-capita GSDP weighed by the sectors of GSDP for which taxes are levied and the states' contribution to the country's exports may be considered.

Govt working on climate resilient farming plan

HARIKISHAN SHARMA
New Delhi, July 4

THE UNION GOVERNMENT plans to unveil a framework to promote climate resilient agriculture in 50,000 villages located in climatically vulnerable districts, officials have said.

The initiative is part of a national programme on climate resilient agriculture, which the Ministry of Agriculture and Farmers' Welfare plans to launch as part of a 100-day agenda. A proposal to this effect will likely to be approved by the Union Cabinet soon, said a source. The ministry plans to promote climate resilient crop varieties in these 50,000 villages, the source said, adding that the Indian Council of Agricultural Research (ICAR) has developed over 2,000 such varieties for improving food production. These include both abiotic stress tolerant varieties and biotic stress tolerant varieties.

While the fingerprint is still being hammered out, it is learnt that the framework may include measures such as promoting crops that are less water intensive, conserving water sources in the respective areas and monitoring fertiliser inputs.

The source said that officials will select 50,000 villages from 310 districts that have already

been identified as climatically vulnerable.

These 310 districts are spread across 27 states, with Uttar Pradesh accounting for the most districts (48), followed by Rajasthan (27). Among other states, Bihar accounts for 23 districts, Odisha 19, Madhya Pradesh 16, Karnataka 15, West Bengal 14, Kerala and Maharashtra 13 each, Haryana 11, Jammu & Kashmir (undivided) 10, Punjab and Uttarakhand nine each; Gujarat and Himachal Pradesh eight each; Arunachal Pradesh, Assam, Meghalaya, and Mizoram seven each; Chhattisgarh, Jharkhand, Manipur, and Nagaland six each; Tamil Nadu five; Andhra Pradesh and Sikkim four each; and Telangana two.

"The focus will be on these districts," the source said.

As per the source, the initiative will run for five years and most of its funding will come through convergence with existing schemes.

Development of Class 6 textbooks in final phase: Ministry

PRESS TRUST OF INDIA
New Delhi, July 4

UNION EDUCATION MINISTER Dharmendra Pradhan reviewed the development of school textbooks in accordance with the New Curriculum Framework (NCF) at a meeting here on Thursday.

The meeting came in the backdrop of a delay in coming up with Class-6 textbooks that were supposed to be taught from April and are yet to hit the market.

The National Council for Educational Research and Training (NCERT) had earlier announced that new textbooks for Classes 3 and 6 will be intro-

duced from the 2024-25 academic session.

"For the academic year 2024-25, new and engaging textbooks will be introduced in Classes 3 and 6. The textbook development work is in the final phase and nine textbooks for Grades 3 and 6 are already available. The remaining eight will be available very soon," a senior ministry of education (MoE) official said.

The NCERT had an initial aim of releasing the new textbooks based on the NCF 2023 only for Classes 3 and 6 this year. While the textbooks for Class 3 are available in the market, those for Class 6 have been delayed. It was only this

PRIME MINISTER NARENDRA Modi's annual 'Pariksha pe Charcha' initiative might soon be recreated for a virtual platform, with the NCERT working on a proposal to develop a portal to host his speeches and allow students

week that the NCERT released new English and Hindi textbooks for Class 6 in the middle of the academic session. The

textbooks for the remaining subjects, such as social science, science and mathematics, are not ready yet and schools have

been asked to teach the Class-6 students from a bridge programme until then.

"The NEP 2020 aims at providing economically-priced, high-quality textbooks to make learning joyful and stress-free for better learning outcomes. The NCERT is constructing new textbooks for Classes 1 to 12 to fully realise the provisions of the National Education Policy," the official said. The official informed that the minister did a detailed review of the progress of the NCERT textbook development with the school education secretary, NCERT director and Central Board of Secondary Education (CBSE) chairman.

Meanwhile, the new English

language textbook for Class 6, titled "Poorvi", has a revamped content with most chapters rooted in an Indian context and with references to Indian culture, traditions and ancient knowledge.

While the old book had stories by non-Indian authors featuring non-Indian characters, the new textbook has most of its content based on Indian settings with Indian characters.

"Bharat" has also been used in the chapter titled "Culture and Tradition" and is used interchangeably with "India". According to NCERT officials, textbooks for all classes in accordance with the new curriculum will be ready by 2026.
