Jail, ₹10 lakh fine for paper leak in Bihar's new Bill

PIONEER NEWS SERVICE PATNA

The Bihar Assembly on Wednesday passed a Bill aimed at curbing the scourge of question paper leaks and other malpractices in recruitment tests conducted by the State. The Bihar Public Examinations (PE) (Prevention of Unfair Means) Bill, 2024, was moved by state Parliamentary Affairs Minister Vijay Kumar Chaudhary and passed through voice vote amidst a walkout staged by the Opposition. The new legislation targets curbing malpractices in competitive examinations, including the leak of question papers, in the State which, incidentally, has also been at the centre of the NEET 2024 paper leak controversy. The Bill stipulates severe punishment for those involved in such malpractices, including a prison term of three to five years and a fine of ₹10 lakh.

## Jail or jahannum for terrorists, says Nityanand in Parliament

Security personnel stand guard during an encounter with terrorists in Trimukha area of Sopore in North Kashmir, on Wednesday

MOHIT KANDHARI JAMMU/NEW DELHI

The Centre on Wednesday sent a stern message that terrorists active in Jammu and Kashmir region will either land in jail or be sent to 'jahannum' (hell). Days after Prime Minister Narendra Modi, Home Minister Amit Shah, and the entire Defence core team held series of review meeting for constant Jammu terror attacks in recent times, Minister of State for Home Affairs Nityanand Rai asserted in Parliament that the Modi Government has zero tolerance for terrorism. A terrorist was neutralised while one more Indian Army jawan sacrificed his life in the ongoing encounter with terrorists in the North Kashmir district of Kupwara on Wednesday. The braveheart has been identified as Naik (GNR) Dilwar Khan. This is the third incident of terrorist violence in the last three days in Jammu and Kashmir. The house of a Shaurya Chakra awardee was targeted by terrorists in the Khawas tehsil of Rajouri on Monday while an Army jawan sacrificed his life in the line of duty thwarting a major infiltration bid along the line of control in the Krishna Ghati sector of Poonch on Tuesday. "The Modi Government has zero tolerance for terrorism. We will end terrorism. They (terrorists) will be either in jail or jahannum... I want to assure the House. Terrorist activities witnessed recently will soon end. They

(terrorists) will not succeed in their design," Rai said in Parliament.

In the latest Rajouri incident, in the ensuing firefight, one terrorist was eliminated and a soldier received injuries who later succumbed to his injuries. A spokesman of the Chinar Corps said based on specific information the operation was launched by the Indian Army and Jammu and Kashmir police in the general area of Kowat, Kupwara on July 23. On July 24, suspicious movement was observed and challenged by vigilant troops, in response to which terrorists opened indiscriminate fire. The Government informed the Lok Sabha that in the past few days, 28 terrorists have been killed in Jammu and Kashmir and unfortunately some security personnel have also lost their lives. According to the Minister, security forces have killed about 900 terrorists in the region after the abrogation of Article 370 in 2019.

Between 2004-2014 when the UPA was ruling at the Centre, there were 7,217 incidents of terrorism in Jammu and Kashmir. The number came down to 2,259 from 2014, when the BJP was voted to power, and July 21 this year, Rai said. In 2019, the erstwhile state of Jammu and Kashmir was bifurcated into the union territories of Jammu and Kashmir, and Ladakh.

## INDIA Bloc protests over Budget 'bias'

### No State ignored in Budget, Opposition trying to mislead, claims Sitharaman

DEEPAK KUMAR JHA NEW DELHI

Opposition parties resorted to vehement protest in and out of Parliament on Wednesday over the alleged discrimination against Opposition-ruled States in the Union Budget. MPs belonging to the INDIA Bloc staged protest in Parliament premises during the day and also walked out from the Rajya Sabha while heated exchange of words between the ruling benches were noticed when issues like Article 356, Emergency cropped up. Finance Minister Nirmala Sitharaman termed the allegations by Opposition benches "outrageous" and said all the States never found a mention in any of the previous Budgets, including those presented by the Congress. Leader of the Opposition in the Lok Sabha Rahul Gandhi said the Budget is an "assault on the sanctity of India's federal structure". Ruling BJP dismissed the Congress charge of the Union Budget being "discriminatory" towards Opposition-ruled States and asserted that every State and section has been

INDIA Bloc MPs stage a protest in Parliament premises over alleged discrimination in the Union Budget 2024, during the Monsoon Session, in New Delhi, on Wednesday

taken care of by the Modi Government. No State ignored in Budget, Opposition trying to mislead, said Sitharaman. In the protest in Parliament premises besides Rahul, Congress president Mallikarjun Kharge, Congress Parliamentary Party chief Sonia Gandhi, Samajwadi Party chief Akhilesh Yadav, several MPs of the Congress, TMC, Samajwadi Party, DMK and the Left joined the protest held on the steps leading up to the Makar Dwar of Parliament. Sharing a picture of the protest on his WhatsApp channel, Rahul said, "Today, along with INDIA janbandhan MPs, protested against NDA's 'Kursi Bachao Budget' in Parliament House premises." Further, to continue with protest, Congress Chief Ministers and other non-BJP led CM of States like Jharkhand, West Bengal, Delhi, Punjab will be boycotting the NITI Aayog meeting scheduled for July 27. Led by Congress, Opposition staged a walkout from the Rajya Sabha.

## SC proposes panel for talks with farmers at Shambhu border

PTI NEW DELHI

Observing that there is a trust deficit between farmers and the Central Government, the Supreme Court on Wednesday proposed the constitution of an independent committee comprising eminent persons to reach out to the protesters at Shambhu border and address their demands, including a legal guarantee of MSP. The top court directed the Punjab and Haryana Governments to suggest the names of suitable individuals for the committee and submit a proposal for removal of barricades on the National Highway while ordering a status quo on the border for a week. A three-judge bench headed by Justice Surya Kant said there is a need for a "neutral umpire" who can inspire confidence between farmers and the Government. "You have to take some steps to reach out to farmers. Why would they otherwise want to come to Delhi? You are sending Ministers from here and despite their best intentions there is

trust deficit," the bench also comprising Justices Dipankar Datta and Ujjal Bhuyan said. "Let appropriate instructions be taken within a week. Till then let parties maintain status quo at the site to prevent flaring up of the situation at the Shambhu border," the bench said while postponing the matter after a week. The top court was hearing the Haryana Government's plea challenging the High Court order asking it to remove within a week the barricades at the Shambhu border near Ambala where protesting farmers have been camping since February 13. During the hearing, Solicitor General Tushar Mehta submitted that earlier the roads were blocked against the three agricultural laws and now they have new demands. The top court said the Centre has to examine the demands of the farmers as a welfare state. "Some demands may be genuine, others may not be acceptable," the bench said.

Rescue operations are underway at the site of a plane crash at Tribhuvan International Airport in Kathmandu, Nepal, on Wednesday

## Eighteen killed in Nepal plane crash

PTI KATHMANDU

A Nepalese private plane crashed and caught fire shortly after taking off from the Tribhuvan International Airport here on Wednesday, killing 18 people aboard, including a child, and seriously injuring the pilot — the only survivor. The Bombardier CRJ-200 aircraft of Saurya Airlines, carrying 19 people, including two crew members and technical staff of the airline, was bound for Pokhara International Airport for regular maintenance service when the accident occurred at 11.11 am (local time). "Shortly after takeoff from runway 02, the aircraft veered off to the right and crashed on the east side of the runway," said a statement issued by the

Civil Aviation Authority of Nepal. It said rescue operations were initiated immediately and fire was brought under control. "One injured person (Captain Manish Ratna Shakya) was rescued and taken to the hospital, and 18 People were found dead," it added. The aviation authority identified one of the passengers as a child named Adhiraj Sharma, who was the son of Manu Raj Sharma, a technician of Saurya Airlines. Sharma's wife Priza Khatiwada and their four-year old son Adhiraj died in the crash. A statement issued by the airline said that Priza and her son were initially identified as employees of the company, but it was later revealed that they were passengers.

## GNSS toll collection to make NH driving hassle-free

PIONEER NEWS SERVICE NEW DELHI

To provide seamless and barrier-free tolling experience on National Highways and Expressways, the Road and Transport Ministry has decided to initially implement global navigation satellite system (GNSS)-based toll collection system on pilot basis as an added facility along with FASTag. Union Road Transport and Highways Minister Nitin Gadkari said pilot study with regard to GNSS-based user fee collection system has been done on Bengaluru-Mysore section of NH-275 in Karnataka and Panipat-Hisar section of NH-709 in Haryana. Gadkari said a stakeholder consultation workshop was

Representative Image

organised on June 25, 2024 and global expression of interest (EOI) was invited for wider industrial consultation on June 7, 2024 with last date of submission as July 22, 2024. Replying to a separate question, he

said the master plan for National Highways to improve the logistics with provision of expressway/high speed highways has been prepared by the Road Ministry under PM Gatishakti Framework using transportation model with

analysis of data of e-way bills (GST), toll and traffic survey. Responding to another question, the Minister said among all the National Highway projects that started about 10 years ago, 697 projects have gone beyond their original completion schedule. Primary reasons for delay in NH projects are issues relating to land acquisition, statutory clearances, utility shifting, encroachment removal, law & order, financial crunch of contractor, poor performance of contractor and force majeure events like Covid-19 pandemic, heavy rainfall, floods, cyclone, landslides/avalanches etc, he added. According to Gadkari, since 2014, NHAI has availed loan and other borrowings totalling ₹3.77 lakh crore for completion of projects / scheme entrusted with them.

## India's archers aim to strike Gold in Paris

PTI PARIS

A different year and another Olympics, but for Indian archers, the target will be the same — fetching their first ever medal at the Games. More or less regular at the Olympics since debuting back in 1988, the archers will kick off the nation's Paris campaign here on Thursday with the qualification rounds at the Les Invalides gardens here.

For the first time after London 2012, India will have a full six-member squad after both the men's and women's teams qualified on the basis of rankings. This means they will compete in all the five events. Veterans Tarundeep Rai and Deepika Kumari, appearing in their fourth Olympics, will lead their young teammates, hoping to secure at least a top-10 finish in the qualification round to ensure a favourable draw.

Each archer will shoot 72 arrows and the scores in the qualification round of 128 athletes from 53 countries will decide the seeds for the main knockout competition beginning with the women's team finals on Sunday. The qualifying round will be crucial for the Indians, who have often slipped in the seedings and ended up losing to heavyweights Korea, tipped to top the qualifications.

## Yearning for social media fame costs Spiderman dearly

SAUMYA SHUKLA NEW DELHI

In an era where fleeting moments of fame on social media have become the obsession, many youngsters are resorting to dangerous stunts and rule-breaking to impress their followers on platforms like Instagram and Twitter. One such incident involved a 20-year-old "Spiderman" in Delhi, who was caught sitting on the bonnet of a car while making videos, showcasing the perilous lengths some will go for digital notoriety. According to officials on Wednesday, a fine of ₹ 26,000 was imposed for dangerous driving and other violations in the matter.

A 20-year-old man, sitting on a Scorpio car's bonnet and dressed as Spiderman landed in the police net on Wednesday

Spiderman on its bonnet. Police traced the car and located the occupants near Ramphal Chowk in Dwarka. The person in

the Spiderman costume was identified as Aditya, a resident of Najafgarh. The driver of the vehicle was identified as a 19-year

-old Gaurav Singh, a resident of Mahavir Enclave, a senior police officer said. However, this is not the first time

the young boy has used such means for gaining popularity on social media. Previously, he was arrested for performing stunts on a motorcycle, with no number plate or mirrors, in South West Delhi's Dwarka. After the reel went viral, the traffic police took cognisance and arrested him along with one other female who was dressed as Spiderwoman. The police issued a challan under Motor Vehicle Act. While one expected the culprits to be ashamed of flouting the law, the young Spiderman called his arrest a proud moment. Calling himself "Najafgarh Spiderman", he has taken to the streets of Delhi while donning his superhero attire many times. He runs an Instagram account called Indian Spidey Official, where he posts videos of his stunts. The boy's bio reads, "Your Friendly Neighbourhood Indian

Spidey" and the account has over 12,500 followers, with the viral videos getting more than one lakh likes. A quick scroll through his Instagram page shows the "Indian Spidey" playing badminton, riding a tractor and dancing on trending songs. Meanwhile, the owner and driver of the vehicle have been prosecuted for dangerous driving, driving without a pollution certificate, and not wearing a seat belt, with a possible maximum fine of ₹6,000 and/or imprisonment or both, the officer said.

"The Delhi Traffic Police reiterates its commitment to ensuring road safety for all citizens. Such reckless behaviour on the roads will not be tolerated, and strict action will be taken against offenders to uphold the law and protect the lives of road users," an official said.

# Centre reserves 10% vacancies in CAPF, Assam Rifles for ex-Agniveers

**PIONEER NEWS SERVICE ■ NEW DELHI**

The Government has decided to reserve 10 per cent of vacancies in the Central Armed Police Forces and Assam Rifles for ex-Agniveers, the Rajya Sabha was informed Wednesday. A provision has been made for relaxation in the upper age limit and exemption from the Physical Efficiency Test in the recruitment to the post of constable (general duty) and rifleman in the CAPFs and Assam Rifles for ex-Agniveers, Minister of State for Home Affairs Nityanand Rai said in response to a written question. "The number of vacancies as of July 1, 2024, in the Central

Armed Police Forces (CAPFs) and Assam Rifles (AR) is 84,106 against a total sanctioned strength of 10,45,751," he said. Rai said the ministry has been taking and will continue to take earnest steps to fill up the vacancies expeditiously through the Union Public Service Commission, Staff Selection Commission and the forces concerned. "Time taken in the medical examination has been reduced to expedite the recruitment. Cut-off marks for shortlisting candidates for constable/GD has been lowered to get sufficient candidates (especially in categories where shortfalls have been observed)," he said. The minister said 67,345 peo-

ple have been recruited between April 2023 and February 2024. "Further, 64,091 vacancies have been notified and are at different stages of recruitment. It is clear from the above, with insignificant effective vacancies compared to the size of the forces, the question of overtime doesn't arise," he said. The minister said a Memorandum of Understanding has been signed with the SSC for the early recruitment for the post of constable. Besides, a nodal force each for recruitment in the rank of constable, sub-inspector, and assistant commandant (all general duties) has been nominated on a long-term basis for coordi-

nating recruitment to general duty posts. To fill vacancies, the minister said, directions have been issued to all CAPFs and AR to undertake recruitment against vacant posts in non-general duty cadres in a "time-bound manner", and timely conduct of Departmental Promotion Committee meetings for filling up of promotional vacancies. In June 2022, the government rolled out the Agnipath recruitment scheme to bring

down the age profile of the three services. The scheme provides for recruiting youths between the age bracket of 17-and-half years and 21 for four years with a provision to retain 25 per cent of them for 15 more years. The chiefs of the CISF, BSF and CRPF said last Thursday that 10 per cent of the posts of soldiers will be reserved in their respective forces for ex-Agniveers in line with a decision of the Union home ministry. "The Union home ministry has taken an important decision regarding the recruitment of ex-Agniveers. Accordingly, the CISF is also preparing the process of the recruitment of ex-Agniveers," CISF DG Nina Singh had

said. The chief of the Central Industrial Security Force (CISF) said 10 per cent of jobs will be reserved for ex-Agniveers in all future appointments of constables. "In physical tests also, they will be given exemption along with the relaxation on the age. In the first year the age relaxation is for five years and in the subsequent year, the age relaxation will be three years," she had told DD News. "Ex-Agniveers will be able to take advantage of this and the CISF will ensure that. This will be beneficial for the CISF too as the force will get trained and disciplined personnel," Singh had said. CRPF Director General Anish Dayal Singh had said

all arrangements have been made in his force to recruit former Agniveers. "The recruitment rules have been accordingly amended. A reservation of 10 per cent has been made for ex-Agniveers. They will also get relaxation in age. The first batch will get five years of relaxation while it will be three years afterwards," he had said. Director General of Sashastra Seema Bal (SSB) Daljit Singh Chaudhary said a quota has been fixed for ex-Agniveers in his force. "We have amended the recruitment rules accordingly. The first batch will be given an age relaxation of five years. And, there will be no physical efficiency test for them," he had said.

# SC to examine plea on right to be forgotten after acquittal

**PTI ■ NEW DELHI**

Removing judgements from public domain by court orders under the right to be forgotten after the acquittal of an accused in criminal cases will have "very serious ramifications", the Supreme Court observed on Wednesday. The top court, however, agreed to examine the knotty question of law as to whether an accused, after being absolved in a criminal case, can seek removal of the judgement from the public domain, including digital platforms, in exercise of their right to be forgotten. "How can a court order this? To say that the judgement, a public document, be pulled down will have very serious ramifications," said a bench comprising Chief Justice D Y Chandrachud and Justices JB

Pardiwala and Manoj Misra after taking note of the submissions of Ikanoo Software Development Pvt Ltd, a Bengaluru-based legal website. The firm said the Madras High Court asked it to take down a judgment which revealed the identity of a person who was acquitted in a rape and cheating case. "Issue notice, and in the meantime, the directions of Madras High Court shall remain stayed," the bench ordered. The court said it will settle the law on the issue. The website, in its plea filed through lawyer Abiha Zaidi, said the high court decision "adversely impacts the freedom of speech and expression of the petitioner and the public at large, guaranteed by Article 19(1)(a) of the Constitution as well as the

petitioner's freedom of trade, occupation and profession protected by Article 19(1)(g)." The counsel for the website said the high courts of Kerala and Gujarat have held that there was no right to be forgotten in such cases, while the Madras High Court in the present case took a contrary view. "There is a genuine question of law emerging from contradictory judgements from

different high courts," the lawyer said. The bench asked the counsel, appearing for the person who had moved the high court, "Assuming you are being acquitted, how can the high court ask him (the website) to pull down the judgement which is part of the public document...Once the judgement is delivered it is part of the public record." The bench said in some cases, the courts, on their own, redact names or mask the identities of people in sensitive cases. "Ordering the removal of an entire judgment was farfetched," the CJ said. The bench said such a precedent would lead to a situation where the litigants in commercial disputes may say that the judgements be removed as they may reveal financial information about the litigat-

ing parties. "Then people may say look my commercial secrets are involved, there is an arbitration case, pull down the judgement in the arbitration case, that will have very serious ramifications," it said. The bench said even a convicted person may come up with the plea, saying he or she has served the sentence. A nine-judge bench headed by then CJI J S Khehar had on August 24, 2017 declared the right to privacy a fundamental right under Article 21 (right to life and personal liberty) of the Constitution. It had also held that the right to privacy would include the right to be forgotten and the right to be left alone. The website said it had removed several sensitive judgements and cited examples of sexual offence cases

involving children as victim or accused. "It is submitted that the impugned judgement contravenes settled law established by this court in the case R Rajagopal vs. State of Tamil Nadu, wherein it was held that the right to privacy is intrinsic under Article 21 of the Constitution but does not extend to protecting an individual from publication of public records, such as court decisions," the plea said. The high court judgment adversely affected various fundamental rights of the citizens by limiting their "access to court records, curtailing its database and impeding its operations", the website said. The high court had directed the website to remove the judgment of April 30 from its legal database under the "right to be forgotten."

## IN BRIEF

**AUG 15 DEADLINE FOR M TECH APPLICATION IN GRSP**  
**Amritsar:** M.Tech (Transport Planning) and M. Tech. (Urban & Regional Planning) Five Year Integrated Programme, are run in Guru Ramdas School of Planning, Guru Nanak Dev University. (Transport Planning) is Bachelor's Degree in Urban & Regional Planning/Architecture/Civil Engineering with at least 50% marks (45% for SC) in aggregate OR Master's Degree in Geography/Sociology/Economics with at least 50% marks (45% for SC) in aggregate or any other examination recognized equivalent thereto.

**PSPCL'S HRD WING CONDUCTS TREE PLANTATION DRIVE**  
**Patiala:** The Human Resource Development (HRD) wing of Punjab State Power Corporation Limited (PSPCL) conducted a successful tree plantation drive at the AE Hostel of Technical Training Institute (TTI) in Patiala today. The initiative, part of PSPCL's ongoing commitment to environmental sustainability, saw the plantation of 255 trees, including shade, flowering, fruit, and ornamental varieties. Er R.S. Saini, Director Human Resources (HR), led the drive, accompanied by Er Inderjit Singh, CE/HRD, along with other officers and staff members. The event underscores PSPCL's dedication to greening initiatives, championed by Er Baldev S. Sran, CMD, PSPCL.

**EX-RTI COMMISSIONER VISITS GNDU LAW DEPARTMENT**  
**Amritsar:** Dr. Viney Kapoor Mehra, Former Head, Department of Laws, GNDU; Former RTI Commissioner and Former Vice Chancellor, Dr. B.R. Ambedkar Law University, Haryana visited the Department of Law of Guru Nanak Dev University, Expert in Family Law, Dr Mehra delivered a lecture on 'The Nuances of Live in Relationship, Same Sex Couples and the changing Social Structure in the Society'. She advised the students to cling to their traditional roots and give a mark of caution for future generations. The session was very interactive and informative for the students.

**DSU ENDS LEVEL-3 SPORTS TEST FOR ADMISSION**  
**New Delhi:** Delhi Sports University is pleased to announce the successful completion of Level-3 Testing for sports talent identification for admissions in Delhi Sports School for academic session 2024-25, conducted from July 16th to July 18th, 2024, across various venues in Delhi. The Level-3 Testing aimed to assess and identify promising sports talent across multiple disciplines. Prior to the event, all shortlisted students who were called for the Level-3 testing were promptly notified through circulars posted on the DSU/DSS website, emails, and contact was established on their registered mobile numbers. Admit cards were also sent to them on their registered mail id containing the schedule of the tests. Accommodation arrangements were made free of cost for students traveling from outside Delhi/NCR, ensuring their comfort and convenience during the Level-3 testing.

# Mahayuti Govt wants to put me in jail, kill me, claims Jarange-Patil

**T N RAGHUNATHA ■ MUMBAI**

A day after a Pune court issued a Non-Bailable Warrant (NBW) against him in more a decade-old cheating case, Shivba Sanghatana leader and crusader for Maratha reservation Manoj Jarange-Patil on Wednesday charged that the BJP-led MahaYuti government had hatched a conspiracy to put him behind the bars and eliminate him in the jail. A Pune Magistrate A C Birajdar on Tuesday issued an NBW against Jarange-Patil and two of his associates Datta Bahir and Arjun Jadhav for allegedly flouting an agreement with a drama producer way back in 2013. Tuesday's was the second arrest warrant issued against Jarange-Patil. Jarange-Patil's grouse is that Pune's Kothrud police station was pursuing a 11-year-old case at the behest of the ruling BJP which, he said, was out to throw him behind the bars and bump him off there as it wanted to "silence" him ahead of the State Assembly polls to be held in October this year. In his interaction with the media, Jarange-Patil exhorted his supporters that in the event of him being jailed, they should make all-out efforts to "defeat" both the ruling MahaYuti and Opposition Maha Vikas Aghadi (MVA) candidates across Maharashtra in the forthcoming Assembly polls. Debunking Jarange-Patil's charge, Maharashtra's deputy Chief Minister Devendra Fadnavis of the BJP distanced

state government from the case in which the Maratha reservation crusader has been issued NBW, saying it had role to play in it. Today was the second occasion in the last four days, when Jarange-Patil accused the BJP-led MahaYuti government of conspiring to "eliminate" him ahead of the State Assembly polls. Earlier on Sunday, Jarange-Patil had alleged that deputy chief minister Devendra Fadnavis was hatching a conspiracy to eliminate him by poisoning him through saline or in a police encounter. During his recent four-day-long fast undertaken to press for reservations to the Maratha community, Jarange-Patil had singled out Fadnavis for vicious criticism. "The state government wants me to die while I am on hunger strike. It is Fadnavis who is trying to eliminate me by poisoning me through saline or in a police encounter". Meanwhile, Jarange - Patil's lawyer Harshad Nimbalkar said that he had urged the court not to issue the warrant as he is busy with the Maratha agitation and on a hunger strike from July 20. He, however, gave an undertaking to the court that his client will come for the next hearing on August 2.. The contention of Dhananjay Ghorpade, a drama producer from Pune, who has filed a cheating case against Jarange-Patil, claimed that in 2013, the latter had hired him for organising multiple shows of his stage drama, "Shambhuraje", in Jalna.

# Maha proposes to fund laser show at Kargil Memorial

**T N RAGHUNATHA ■ MUMBAI**

Ahead of Prime Minister Narendra Modi's plan to attend the 25th anniversary of Kargil Vijay Diwas in Ladakh on July 26, the Maharashtra government is seeking an approval of its proposal to fund a 'laser sound-&-light show' at the iconic Kargil War Memorial (KWM) in Drass town in Kargil district. In the run-up to the silver jubilee celebrations of Kargil Vijay Diwas Maharashtra chief minister Eknath Shinde has written a letter to Indian Army Lt. Gen. Hitesh Bhalla, expressing his government's desire to fully fund the new attraction there, estimated to cost around Rs. 3 crore. In his letter dated July 9, 2024, Shinde said that his government was committed to the promise it had made in October 2023 to the then Lt. Gen. Rashim Bali that it would

support the "laser sound-&-light show" the KWM. However, in October 2023, the proposal had run into procedural hassles, resulting in the delay in the completion of the KWM "laser sound-&-light show" project. Having cleared the funding for the project, the Eknath Shinde dispensation is awaiting a go-ahead from the BJP-led NDA government. Once it gets final clearance from the Centre as per the Indian Army recommendation, the MahaYuti government will hand a cheque for Rs 3 crore to the KWM authorities. Pune NGO Sarhad Founder-President Sanjay Nahar, who is pushing the KWM "laser sound-&-light show" project, expressed confidence the Maharashtra government would make the project a reality in the 25th year of the Kargil War". The world-class 'laser sound-&-light' show will be an indoor affair with a capacity of 500 getting glimpses of the valor plus

determination of the Indian soldiers who defended the region against Pakistan's insurgence, between May and July 1999. "The show will cover the examples of bravery and shining moments of our jawans as they re-captured from enemy control the strategic areas like Mushkoh Valley, Kaksar, Chorbat, Turtuk, plus the Tiger Hill, Tololing, Batra Top and other unnamed mountains plus the highways, during the two-month long 'Operation Vijay', as it was code-named," Nahar said. Shinde has said that he would visit the KWM laser sound-&-light show once it becomes operational. On its part, the Maharashtra government had earlier given Rs 3 crore for the Trishul War Memorial in Leh and the proposed laser sound-&-light show will be the second major contribution by the state.

# GNSS toll collection to make NH driving hassle-free

**From Page 1**

The minister also informed that at the beginning of the current financial year, under ongoing/awarded projects, the ministry had about 20,000 km national highways remaining for construction. Moreover, the ministry has a shelf of projects under DPR and tendering process, to further augment the construction progress during the current and next

fiscal years, he said. Gadkari also said that about Rs 1.94 crore has been incurred till date towards clearing of two bills related to the rescue and relief operations at Silkyara Tunnel in Uttarakhand. "A few bills have not been paid. Expenditure made on rescue and relief operations is on account of the engineering company," the minister said.

# Jail, ₹10 lakh fine for paper leak in Bihar's new...

**From Page 1**

Service providers, a term used to describe agencies entrusted with conducting such tests, could be slapped with a fine of Rs one crore besides debarment of services for up to four years and even attachment of properties, Chaudhary told the House. A portion of the total cost of conducting such an examination will also be recovered from the offending service provider, the minister said. He also said the bill, "brought with the future of

lakhs of young men and women in mind", provided that investigating officers in such cases shall "not be below the rank of a Deputy Superintendent of Police". It may be recalled that the state has, of late, been in the news for the Bihar Public Service Commission's (BPSC) Teachers Recruitment Exam (TRE 3.0) paper leak case. The new legislation also comes in the backdrop of stringent anti-paper leak laws enacted by the Centre and states like Uttar Pradesh.

# India's archers aim to strike Gold in Paris

**From Page 1**

At the Tokyo Olympics, all the male archers finished outside the top-30 and got the ninth seeding as a team. Deepika, the sole woman archer there, also got a ninth place in rankings. Both ended up losing to top-seed Koreans in their respective quarters. On form front, India will have high hopes from the men's team, which won a

historic World Cup this year in Shanghai, upsetting Korea for the first time in a final. They will have the experience in Rai and Tokyo Olympian Pravin Jadhav, while debutant Dhiraj Bommadevara will be on a high after beating Tokyo Olympics silver-medallist Mauro Nespoli of Italy en route a bronze at the World Cup Stage-3 in Antalya just a month back. Individually, debutant Dhiraj is seen as a bright prospect as he has tasted success by winning the Asian Games team silver last year, albeit with different teammates. Known to be "ice cool" in tough situations, Dhiraj would look to overcome the bitter memories of Hangzhou Asian Games where he botched up his release twice to exit in the individual quarters. Deepika will fight against herself in a redemption act. All eyes would be on her especially after her stunning comeback to win a World Cup Stage-1 silver in Shanghai in April this year, less than 16 months after becoming a mother. Last time in Tokyo, An San of Korea was her nemesis as she went on to become the gold-medallist. There is no An this time, but they have another Korean in Lim Si-hyeon who has defeated Deepika twice this year including in the Shanghai World Cup final. "If she gets going, Deepika churns out perfect 10s at ease. But at the same time, she suffers from inconsistency and makes silly mistakes at crunch times. If she overcomes her mental blockade, there is no stopping her," India's high performance director Sanjeeva Singh said. Dhiraj and Deepika, if they manage to top their ranking rounds, would be an exciting prospect for the recurve mixed team. Dhiraj's composure and Deepika's skills would complement each other well at the highest level. The women's team, on the other hand, will be low on

# INDIA Bloc protests over...

**From Page 1**

After Chairman Jagdeep Dhankhar rejected notices under Rule 267 that called for the suspension of the listed agenda to take up the issue, Leader of Opposition and Congress president Mallikarjun Kharge said the Union Budget for the 2024-25 (April 2024 to March 2025) fiscal year provided funds and schemes for only two states - Bihar and Andhra Pradesh. As Dhankhar gave Sitharaman the floor to respond, Kharge led the Opposition bloc out of the House, saying they were walking out in protest. The Finance Minister said she did not name many States either in the interim Budget presented in February ahead of the general election or in the full Budget tabled in Parliament on Tuesday, but that does not mean that government schemes are not working for the states. Sitharaman said she can go on to cite several other states that have got major projects.

"This is a deliberate attempt of the Opposition parties, led by the Congress, to give an impression to people that 'oh, nothing has been given to our States, it has only been given to two States'. I would challenge the Congress party for all the Budget speeches they have delivered, that in each of the Budget speeches, have they named every State of the country?" she asked. "This is an outrageous allegation", which is "not acceptable", she added. As the MPs belonging to opposition parties returned to the House, the finance minister said the Trinamool Congress (TMC) had raised questions on Tuesday about nothing being given to West Bengal in the budget, but the fact is that several schemes launched by Prime Minister Narendra Modi in the last 10 years have not been implemented in the state. Her statement was met with vociferous opposition from the TMC members, who said the BJP-led Centre owes Rs 1 lakh crore to West Bengal. represents Tata Academy, is relatively more experienced having won a clutch of World Cup team medals including a gold and silver, both in Paris in 2021 and 2022 respectively. Controversial build-up The archers Olympic build-up was marred by their foreign coach Baek Woong Ki's return to India after not getting accreditation to enter the Games.

# Traffic congestion due to waterlogging after rain lashes city

STAFF REPORTER ■ NEW DELHI

Amid rain lashing parts of the national Capital in the early hours of Wednesday, Delhiites grappled with waterlogging, traffic congestion and trees uprooting while experiencing muggy and sultry weather with humidity level being recorded at 100 per cent at 8:30 am. The Municipal Corporation of Delhi (MCD) received 18 calls regarding waterlogging in different areas including Ashok Park Extension, Pitampura, Patel Nagar, Kirti Nagar, Rohini, Okhla Industrial Estate, Paschim Vihar, Najafgarh, Karam Pura and Sonia Vihar. The civic body also received 10 calls regarding tree felling including Rajouri

Garden, Rohini, Patel Nagar, Rampura, Shahdara, Raja Garden and Ashok Vihar. The Delhi police issued several traffic advisories to commuters due to waterlogging at Chatta Rail Chowk, Zakhira underpass, Nigam Bodh Ghat, IP Flyover and Anand Parvat. Further, traffic snarls were also witnessed on Outer Ring Road in the carriageway from Vikaspuri towards Peeragarhi and on Ring Road near Indira Gandhi Stadium in the carriageway from Rajghat towards Sarai Kale Khan. There was also a traffic alert issued for Ring Road in the carriageway from Punjabi Bagh towards Dhaula Kuan due to waterlogging at the construction site of the flyover. In a post on X, the police stat-

ed, "Traffic is affected on Rohtak Road in the carriageway from Nangloi towards Tikri Border and vice-versa due to sewer overflow and potholes on road between Rajdhani park and Mundka. Kindly plan your journey accordingly." Delhiites also grappled with traffic snarls on Vir Banda Bairagi Marg due to waterlogging at Zakhira underpass and on Syama Prasad Mukherjee Marg. Further, they also cited two instances of uprooting of trees at Haryana Maitri Bhawan in Rani Bagh and near Rajdhani College. The IMD has issued a yellow alert for Delhi till Thursday and stated that the weather in Delhi on Wednesday will be generally cloudy sky with light to moderate rain and accom-

panied with thunderstorms. The maximum temperature was recorded at 33.8 degrees Celsius, a notch below the normal while the minimum temperature settled at 24.8 degrees Celsius, 2.5 degrees below the normal. The Safdarjung station, city's primary weather station, recorded 27 mm rainfall between 5.30 am and 8.30 am. The rainfall logged in other weather stations in 24 hours till 8.30 am was 17.8 mm in Palam, 24.2 mm in Lodhi Road, 26.6 mm in Ridge and 14.2 mm in Ayanagar. During the three-hour period between 2.30 am and 5.30 am, the Pusa, Narela, Najafgarh and Pitampura stations reported rain of 10.5 mm, 12.5 mm, 2.5 mm and 1 mm, respectively.

# Atishi inspects Kanwar camp at Kashmiri Gate

STAFF REPORTER ■ NEW DELHI

Delhi Revenue Minister Atishi on Wednesday inspected the 'Kanwar camp' at Maharaja Agrasen Park in Kashmiri Gate and instructed officials to ensure everything is in place for the pilgrims' comfort and safety. During her visit, the senior AAP leader said, "For the last nine years, the Kejriwal government has been setting up camps for the convenience of Kanwariyas in the holy month of Sawan. This year also 185 Kanwar camps are being set up across Delhi where all the facilities will be available for the Kanwariyas." She added that in the camps, waterproof tents, accommodation, sleeping arrangements, clean water, toilets and other arrangements are made. "Special stands are provided for keeping the Kanwars of the Kanwariyas. Also, every Kanwar camp has medical facilities," Atishi claimed, adding that serving the 'Shiv Bhakts' in the holy month of Sawan is a work of virtue and faith. "In this direction, the Kejriwal government is fulfilling its responsibility by providing all the facilities to the Kanwariyas," she said. The camp located in Kashmiri Gate is one of the largest Kanwar camps in the country where arrangements can be

made for the stay of about 20,000 Kanwariyas at a time. Separate halls have been prepared for the rest of the male and female Kanwariyas and a large dining hall has also been prepared for the Kanwariyas to receive 'prasad'. While instructing the officials, Revenue Minister Atishi said, "All the necessary facilities should be arranged for the convenience of Kanwariyas in the Kanwar camp so that the 'Shiv Bhakts' (devotees of lord Shiva) do not have to face any kind of problem." Further, she added that the district administration should be on alert during the 'Kanwar Yatra' so that the Kanwariyas do not face any kind of problem and the Kanwariyas get all the necessary facilities in the camp. "Every necessary step should be ensured for the safety and facilities of the Kanwariyas," Atishi said. Minister mentioned that this year also 24x7 medical staff will be present in all the camps so that the Kanwariyas can be given immediate treatment if needed and for their convenience, local dispensaries have been linked to the camps. "CATS ambulances have been connected for any emergency. Hospitals have been instructed to make special arrangements for the treatment of Kanwariyas," she stated.

# Several IAS officers shifted on LG's orders

STAFF REPORTER ■ NEW DELHI

Delhi government's Services Department on Wednesday reshuffled several IAS officers on the order of Lieutenant Governor Vinai Kumar Saxena, relieving A Anbarasu of the additional charge of principal commissioner (trade and taxes). The transfer orders issued by the department stated Anbarasu, a 1996 batch AGMUT cadre IAS officer, will now serve as principal secretary (PWD) with the additional charge of the Delhi Jal Board (DJB) chief executive officer. Nikhil Kumar, a 2002 batch IAS officer who was awaiting posting, has been posted as secretary (land and

building) while Chanchal Yadav, a 2008 batch IAS officer, will take charge as secretary (home), the order said. In another order issued by the department, KM Uppu, a 2009 batch IAS officer looking after the additional charge of Excise Commissioner, has been relieved now. He will now only serve as secretary of the New Delhi Municipal Council (NDMC). Arti Lal Sharma and Jitender Yadav, both 2010 batch IAS officers who were awaiting postings, have been sent to the DDA and MCD, respectively. Two other IAS officers awaiting postings, Ravi Jha and Marathe Onkar Gopal, were posted in New Delhi and MCD, said the order.

# Centre spent over ₹5.5 lakh crore on city in past 11 years: BJP

STAFF REPORTER ■ NEW DELHI

Delhi BJP President Virendra Sachdeva claimed that the central government has spent more than Rs. 5.5 lakh crore in the past 11 years on development projects or administrative expenses in the national Capital through budget allocations or special schemes, stating that it might be more than the total budget of the city government during this period. Sachdeva said, "The budget has something for everyone and is a job-creating budget. However, Delhi's ministers have always falsely claimed that the central government has not provided anything for Delhi." He claimed that while the Delhi Minister Atishi stated that the Modi government's budget has zero provisions for Delhi, she did not mention that thousands of crores of rupees have been allocated to Delhi under various heads. "The Delhi government has been granted Rs 1168 crore as assistance. Additionally, Rs 11177.5 crore for Delhi Police, Rs. 4801.35 crore for pensions, and more than Rs.

30,000 crore for various central schemes have been provided," he stated. While criticising the Kejriwal government for making false promises of eliminating the garbage mountains by 2023, he stated, "The central government has allocated Rs. 1145 crore in the budget for the MCD to address this issue. Atishi accused the central government of reducing the health budget, but this year's health budget has been increased by 12.59 per cent, from Rs. 80517 crore to Rs. 90658 crore." He added that the budget for all central government hospitals in Delhi, including AIIMS, has seen a nearly 10 per cent increase.

on infrastructure development, employment, youth, and skilling," he said. He added that the budget also provides several benefits for women, including the establishment of working women's hostels and market access facilities for self-employed women. "This will be a boon for working women in Delhi," Khandelwal stated. The MP stated that to make Delhi traffic-free, the central government has spent Rs. 30,000 crore on the transport department, and an additional Rs. 35000 crore is in the working process. "However, Atishi continues to spread falsehood," he alleged. Sachdeva also pointed out that the central government has made significant investments in housing construction in Delhi NCR. "Still, it is unfortunate that the benefits of the PM Housing Scheme are not reaching the poor of Delhi because the Kejriwal government has not implemented it. Similarly, the Delhi government has not implemented the Ayushman Bharat scheme for the poor, and neither Atishi nor any of her ministers have addressed this," he alleged.

# DIMTS directs operators to conduct surprise alcohol checks on bus drivers

STAFF REPORTER ■ NEW DELHI

In the aftermath of a woman being killed and 34 people being injured when a DTC bus rammied into a pillar near Shivaji Park metro station, the Delhi Integrated Multi-Modal Transit System (DIMTS) directed its operators to conduct surprise alcohol checks on bus drivers. On Monday morning, a woman was killed, and 34 people were injured when a DTC bus they were travelling in rammied into a pillar near Shivaji Park metro station in west Delhi. The DIMTS, which manages cluster bus services in Delhi, conducted a session on Tuesday for its 17 bus operators and issued directions regarding driver sensitisation and conducting checks on drivers. "There have been incidents of cluster bus accidents in the

recent past. There was a need to sensitise the bus operators. Apart from making them aware of the measures that need to be taken to avoid cluster bus accidents, they were also issued directions related to conducting checks on drivers," said an official. There are 9,000 drivers under DIMTS. According to the official, some measures that

will be implemented in the next few days to control accidents include strict implementation of a single duty system for drivers. "It will be ensured that no under-rest driver will be deployed on duty. The drivers will be counselled before their duty hours. Bus operators have been directed to increase the number of random alco-

hol tests for the crew. These tests can be conducted before duty hours or after duty hours," he added. In January this year, a three-year-old child was mowed down allegedly by a cluster bus in the southwest Delhi Najafgarh area. Meanwhile, in March last year, a man was killed after being crushed by the rear wheel of a cluster bus. According to the Delhi Crash Report of Delhi Traffic Police, 107 accidents were those where cluster buses were involved in 2022, including 22 major ones. The city government, in response to a question on bus accidents, had informed the Delhi Assembly that there had been 207 accidents involving cluster buses between 2019 and December 4, 2023. Cluster buses were introduced in Delhi to replace Blue Line buses that were phased out in 2012.

# Cops investigating sequence of events leading to UPSC aspirant's electrocution

STAFF REPORTER ■ NEW DELHI

After a 26-year-old UPSC aspirant, who had already cleared his prelims, died due to electrocution in Delhi's Patel Nagar, police are scanning CCTV footage and communicating with power discoms to understand the sequence of events that led to the unfortunate event. Two days after Ghaziabad resident Nilesh Rai died, a Tata Power Discom official termed the incident "unfortunate" and said it was caused by electric current leakage from a customer's damaged motor wiring that had come in contact with an iron gate. Based on the CCTV footage, police said Rai was on his way back to his PG accommodation from a nearby library when he slipped in the waterlogged street, grabbed the iron gate to regain balance and was electrocuted.

"We are communicating with power discoms and reviewing CCTV footage to understand the sequence of events. So far, we have learned that an electricity wire from a water motor was touching the iron gate," a senior police officer said, adding that they will also be questioning Tata Power Discom. In a statement, the Tata Power Discom official

said, "We extend our deepest sympathies to the family of the deceased. At Tata Power, we are committed to ensuring a safe monsoon season for our consumers and preventing such tragic incidents. We have intensified our efforts to educate consumers about electrical safety, recognising it as a crucial step in prioritising public safety."

The company urged the public to be cautious during the monsoon season, follow safety guidelines such as avoiding waterlogged areas and staying clear of fallen wires, and promptly report any electrical hazards. Commenting on the incident, DCP Central Harsha Vardhan said, "We received a call about the electrocution at 2.43pm. A person was found stuck to an iron gate near the Patel Nagar Metro station due to an electric current in the gate. There was waterlogging on the road. The victim was taken to RML hospital, where he was declared dead." Rai's body was handed over to his family members after an autopsy and an FIR was registered on Monday under sections 106(1) (causing death by rash and negligent act) and 285 (danger or obstruction in public way or line of navigation) of the BNS, he added.

# Minister visits Aanganwadi field area in Najafgarh constituency

STAFF REPORTER ■ NEW DELHI

Delhi Women and Child Development Minister Kailash Gahlot on Wednesday visited the Aanganwadi field area in Gopal Nagar in Najafgarh constituency and interacted with beneficiaries of various services under the Saksham Aanganwadi and Poshan scheme. In a statement, Gahlot said, "Our aim is to ensure that every mother and child receives the essential services they need for a healthy and productive life. The feedback from beneficiaries is invaluable in improving the delivery and impact of these schemes." These schemes were formerly known as the Integrated Child Development Services (ICDS) scheme and are implemented through Aanganwadis. During his visit, the AAP leader also visited the homes of beneficiaries to understand the benefits they receive

through Aanganwadi Centres. He interacted with lactating mothers, pregnant women, and other beneficiaries of various schemes run by the Department of Women and Child Development (DWCD). Following the door-to-door interactions, a meeting was held at the Najafgarh Camp office where Gahlot discussed ways to improve the schemes and listened to suggestions from the beneficiaries. DWCD officials were also present during this interaction. In Delhi, there are 95 ICDS Projects comprising 10,897 sanctioned Aanganwadi Centres, currently catering to approximately 7 lakh beneficiaries. The services provided by the Integrated Child Development Services (ICDS) include the Supplementary Nutrition Programme, Early Childhood Care and Education, Nutrition and Health Education, Immunization, health check-ups, and referral services.

# Nothing for youth, farmers in Union Budget: AAP general secretary

STAFF REPORTER ■ NEW DELHI

AAP's General Secretary (Organisation) and Rajya Sabha MP Sandeep Pathak on Wednesday claimed that the central government presented the Union Budget 2024 with a petty mindset and said that it has been very disappointing as it has neither paid attention to employment, nor does it provide anything for the youth and farmers. "The central government has also given step-motherly treatment to Delhi and Punjab in this budget," Pathak said. He also gave information on the issues raised in the INDIA alliance meeting held in Delhi on Tuesday in which the issue of the meeting of NITI Aayog and the health of Delhi Chief Minister Arvind Kejriwal also came up. "In the INDIA alliance meeting, concern was also expressed about the health of Delhi Chief Minister Arvind Kejriwal. The

health of Delhi Chief Minister Arvind Kejriwal, who is in jail, is continuously deteriorating," the MP stated. Slamming the budget, Pathak said that this budget of the government has no target. "If you have been running the government for 10 years, then you should have a roadmap. You should know which sector to promote. Today the unemployment rate has increased from 7.2 to 9 per cent. Your corporate profits have increased but employment has not increased," he said, adding that while the government has

forgot about the guarantee of MSP to farmers, they have reduced the fertilizer subsidy by 36 per cent. He claimed that the Delhi government spends 25 per cent of its budget on education, while the central government gives less than 2 per cent of its budget to the education sector. "You (BJP) want to keep the youth of the country illiterate. Delhi government gives 15 per cent of its budget to the health sector, while the central government gives less than 1 per cent of its budget to health," he said.

# NCRTC launching live weekly musical event at Ghaziabad RRTS station

STAFF REPORTER ■ NEW DELHI

Delhiites are set to experience an exciting journey as the National Capital Region Transport Corporation (NCRTC) will launch a weekly live music event, "Namo Bharat Unplugged-Live Music Fridays," at Ghaziabad Regional Rapid Transit System (RRTS) station every Friday. A statement stated that the event will transform the Ghaziabad RRTS station into a vibrant live music hub every Friday evening for an hour, featuring local artists. It will take place in the unpaid concourse area near gate number 4, with free entry for all. "This initiative will feature live performances by local artists and music bands from NCR, to be held every Friday from 6 pm to 7 pm at the concourse level of the Ghaziabad RRTS station. The first performance kicks off on July 26, setting the stage for a series of vibrant musical evenings," the statement said.

"This initiative aims to achieve several goals, including providing a platform for up-and-coming bands to share their music with the community, creating a livelier and more engaging atmosphere for travellers, and fostering a sense of belonging and connection within the station premises," it stated. The format of this musical initiative will create a pleasant auditory environment that enhances the travel experience for commuters and will be held in a designated area, featuring diverse genres like rock,

pop, and fusion music, catering to a wide range of musical tastes, the statement said. Talented performers and music bands from NCR will take centre stage, showcasing their musical skills and entertaining commuters. "Namo Bharat offers reliable, comfortable, and safe transit, making daily life easier for its commuters. Similarly, music has an incredible power to soothe the soul and alleviate stress. These live music Fridays are initiated to achieve this very purpose," it added.

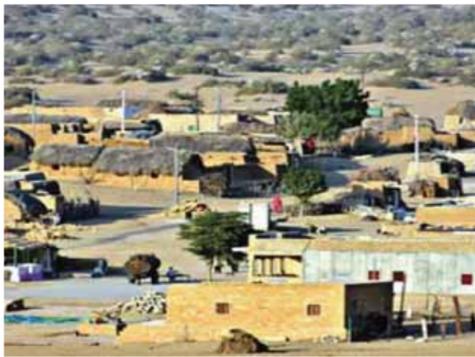

# Border villages get ₹1,050 cr to curb migration

PNS ■ NEW DELHI

As the Government continues its thrust on comprehensive development of villages located remote areas along the border with China, the Union Budget has allocated Rs 1,050 crore for the Vibrant Villages Programme (VVP) that will benefit select villages in 19 districts in Arunachal Pradesh, Sikkim, Uttarakhand, Himachal Pradesh and Ladakh. The Government approved the VVP as a centrally-sponsored scheme on February 15, 2023, with an outlay of Rs 4,800 crore for 2022-23 to 2025-26 for development of these villages in 46 blocks abutting the northern border.

The Budget, presented by Union Finance Minister Nirmala Sitharaman on Tuesday, has earmarked Rs 1,050 crore for the VVP for 2024-25.

The objective of the programme is comprehensive development of these villages to improve the quality of life

of people and thereby reversing out-migration, officials said. The VVP, which is being implemented by the Union Home Ministry, envisages focused areas of interventions for creation of opportunities for livelihood generation through promotion of agriculture, horticulture, tourism and cultural heritage, skill development and entrepreneurship,

development of co-operative societies for managing livelihood opportunities including agriculture, horticulture, cultivation of medicinal plants and herbs, road connectivity, housing and village infrastructure, energy including renewable energy, television and telecom connectivity and financial inclusion. One of the sectors identified for development is promotion

of tourism and culture by augmenting various tourism-related infrastructure, promoting community managed home stays, organising local fairs and festivals, promoting ecotourism, agro-tourism, wellness, wildlife, spiritual and adventure tourism and local cuisines. The VVP was conceived as an outcome-oriented programme with outcome indicators at three levels-village, household and individual beneficiary. Under the VVP, so far 136 border villages are being provided connectivity through 113 all-weather road projects at a cost of Rs 2,420 crore. Mobile 4G connectivity is being worked on rapidly in these areas and by December, all villages under the VVP will be covered by the 4G network, officials said. Showing its focussed attention, Union Home Minister Amit Shah, after assuming charge in the Modi

3.0 Government, had reviewed the implementation of the VVP at a high-level meeting here on July 13. He had stressed the need to provide employment opportunities to the residents of border villages and increase connectivity to prevent migration from such remote areas. Shah had directed authorities to continue the efforts being made by Senior Ministers and officials to better understand the issues of border villages under the special initiative taken by the Central Government. He said the Central Armed Police Forces (CAPFs) and Army deployed around the border villages should encourage purchase of local agricultural and handicraft products through cooperatives. The Home Minister said the healthcare facilities of the Army and CAPFs should be regularly made available to benefit the residents of nearby villages.

# BJP asks Rahul to apologise after SC's verdict on NEET

PNS ■ NEW DELHI

The BJP on Wednesday accused Rahul Gandhi of fuelling lack of trust in India's examination system following the NEET-UG paper leak at a few places, and asked if he will apologise after the Supreme Court's verdict on the issue. The court on Tuesday dismissed the pleas seeking cancellation and re-test of the examination, holding that there was no evidence on record to conclude that it was "vitiated" on account of "systemic breach" of its sanctity. The court said the leak occurred in a couple of cities. BJP leader and former union minister Ravi Shankar Prasad hit out at the opposition, especially Congress leader Rahul Gandhi, following the verdict, accusing him of defaming India's examination globally with his strong words. His choice of words was

violative of Parliament's dignity and the dignity of the office of the Leader of Opposition, a position Gandhi holds, Prasad said. He also dismissed Rahul Gandhi's criticism of the budget as a "kursi bachao budget", saying it was not the BJP's fault if people have repeatedly rejected him and his party in the elections. Defending the government's action on the NEET row, the BJP leader said the probe in the matter was handed over to the CBI and the candidature of 155 examinees was

cancelled. He highlighted the enormity of the examination, noting that over 23.5 lakh students took it at 4,750 centres across 571 cities. Rahul Gandhi was using words like "fraud" to attack the entire examination and now the court has made it clear that there was no systemic breach in the sanctity of the test, he said. "Will Rahul Gandhi apologise..." he asked, claiming that paper leaks were rife during the governments led by the Congress.

# First Advanced Frigate launched

PNS ■ NEW DELHI

The first of two Advanced Frigates under construction by Goa Shipyard Limited (GSL) for the Indian Navy, was launched on Tuesday, defence ministry said here on Wednesday. In keeping with maritime tradition, the ship was launched by Rita Sreedharan to the invocation from Atharva Veda, in the presence of Goa Governor P S Sreedharan Pillai.

The ship has been named Tripud, after the mighty arrow, representing the indomitable spirit of Indian Navy and its ability to strike far and deep.

The contract for building two Tripud class Advance Frigates was signed between Ministry of Defence and Goa Shipyard Limited in January, 2019. The ship is designed for combat operations against enemy surface ships, submarines and air

crafts. The Tripud class ships are 124.8 m long and 15.2 m wide, with a draught of 4.5 m. Their displacement is approximately 3,600 tons and speed a maximum of 28 knots. The ships are equipped with stealth features, advanced weapon and sensors and platform management systems. Being constructed at GSL, the Tripud class of ships are follow on ships of the Teg and Talwar class ships acquired from Russia. These frigates are being constructed for the first time indigenously by an Indian shipyard. In line with the 'Aatmanirbhar Bharat' initiative, a large percentage of the equipment fit, including weapons and sensors is of indigenous origin, thereby ensuring that large scale defence production is executed by Indian manufacturing units, generating employment and capability enhancement within the country.

# UK Foreign Secretary visits India for talks on FTA

PNS ■ NEW DELHI

British Foreign Secretary David Lammy on Wednesday began a two-day visit to India to galvanise negotiations for an ambitious Free Trade Agreement and reset the overall bilateral partnership in crucial areas such as clean energy, new technologies and security. As he embarked on the high-profile trip, Lammy described the negotiations for the trade deal as the floor and not the ceiling of the ambitions to unlock shared potential and deliver growth. The British Foreign Secretary's visit to New Delhi is the first high-level engagement

between India and the UK after Prime Minister Keir Starmer's Labour Government came to power on July 5." India is the emerging superpower of the 21st century, the largest country in the world with 1.4 billion people and one of the fastest growing economies in the world," Lammy said. "Our Free Trade Agreement

negotiations is the floor not the ceiling of our ambitions to unlock our shared potential and deliver growth, from Bengaluru to Birmingham," he said. A British Government readout said, Lammy will push for a "reset" of the UK-India partnership, including through reinforcing London's commitment to securing a free trade agreement that will benefit both economies. It said the Foreign Secretary will also galvanise support for accelerated action on the climate crisis with India as an "indispensable partner", driving forward the clean energy transition and creating

opportunities for British and Indian businesses. He will discuss partnering on Indian-led global initiatives to build clean power access, climate resilience in the global south and small island states, it said. "We have shared interests on the green transition, new technologies, economic security and global security," Lammy was quoted as saying in the readout. "I am travelling to India in my first month as Foreign Secretary because resetting our relationship with the Global South is a key part of how this Government will reconnect Britain for our security and prosperity at home," he said.

Ruckus in Bihar House over reservation laws

PTI ■ PATNA

The Bihar assembly was adjourned till 2 PM as opposition members stood in the well of the House, demanding that the state's amended reservation laws be put in the ninth schedule of the Constitution.

Nand Kishor Yadav, Bihar Minister, speaking in the Bihar Assembly.

judicial review. The opposition members, however, continued to relentlessly shout slogans, causing the septuagenarian chief minister to blow a fuse. Waving his fingers at one of the legislators, he screamed, "You are a lady. Do you realise that it was only after I assumed power that women started getting their due in Bihar?"

MUDA scam discussion generates heat in K'taka House

PTI ■ BENGALURU

A discussion on the alleged fraudulent allotment of sites to land losers by Mysuru Urban Development Authority, which involves plots given to Chief Minister Siddaramaiah's wife Parvathi, generated heat in the Karnataka Legislative Assembly on Wednesday as the Speaker U T Khader rejected the opposition's adjournment motion notice on the matter.

an urgent matter and as a inquiry commission has been constituted under a retired judge to probe the charges, also as the matter is also not of immediate occurrence, it has been rejected," the Speaker ruled. It is alleged that compensatory sites were allotted to Siddaramaiah's wife in an upmarket area in Mysuru, which had higher property value as compared to the location of her land which had been "acquired" by the MUDA. The MUDA had allotted plots to Parvathi under a 50:50 ratio scheme in lieu of 3.16 acres of her land, where MUDA developed a residential layout.

Members of the Karnataka Legislative Assembly in session.

Senior BJP MLA Suresh Kumar said the Speaker can allow discussion without hampering the process of investigation. The "other curious point" is the date of appointment of the inquiry commission - just a day before the commencement of the Legislature Session. "The inquiry commission was constituted to stop the discussion on the issue in the House; it is a Caveat, it is like a anticipatory bail. Aware that the issue will be raised, the government has constituted the commission on July 14, a day ahead of the Assembly session. It is the responsibility of the House to discuss this vital issue, which has become talk of the state and the country. Discussion on the issue should be allowed," he said.

Hundreds relocated as heavy rain batters South, Central Gujarat districts

PTI ■ AHMEDABAD

Hundreds of people were evacuated after swollen rivers and overflowing dams cut off several villages and inundated low-lying areas in many parts of Gujarat amid torrential downpours on Wednesday, officials said. Normal life was thrown out of gear as heavy rains pounded the south and central Gujarat districts like Surat, Bharuch and Anand since morning, prompting the authorities to declare a holiday for schools and colleges in some places, they said. Train services were also affected in some areas.

team was pressed into service and the administration was working to rescue stranded people. Heavy rains that hit Surat on Tuesday flooded the city and cut off several villages, necessitating relocation of around 200 persons, officials said. The administration in Bharuch and Navsari announced a holiday for educational institutes due to heavy rains. A team of NDRF personnel rushed to Limbada in Mangrol taluka of Surat district to rescue stranded people, an official said. As many as 132 roads in the district were blocked as a precautionary measure. Umapada (276 mm), Palsana (250), Kamrej (208) and Bardoli (202) in the Surat district were worst affected in

24 hours ending at 6 am on Wednesday, SEOC data showed. "Since 4 am, Bharuch district received very heavy rainfall, especially in talukas of Hansot, Jhagadia, Valia and Netrang, and Ankleshwar. After 8 am also, Jambusar in the district received very heavy rainfall," Bharuch Collector Tushar Sumera said. Due to heavy rains, he said, the district administration has declared a holiday for all educational institutions. "Our teams are keeping a close eye on waterlogging in Bharuch city... By and large, the situation is under control," he said. The administration in the

Navsari district relocated around 150 persons in Navsari and Bilimora cities after flooding due to rising waters in the Purna river. Rivers like Kaveri and Ambika were also flowing close to their danger marks, flooding connecting rivers that cut off traffic movement at many places, said officials. As many as 11 long-distance express trains were "regulated" due to the rise in water level under a railway bridge in the Vadodara division, while four local passenger trains were cancelled, Western Railway officials said. The train movement was later restored in the down line, they said.

PAPER WITH PASSION

## Balancing growth with populism

Though the budget 2024 is growth-centric, it has populist overtones and addresses concerns of NDA allies

Finance Minister Nirmala Sitharaman presented the first Union Budget for Modi 3.0 government on July 23, 2024, aiming to bolster India's economic growth while addressing social equity and the interests of the NDA allies. This budget is an exercise in balancing economic growth with political dividends. This budget outlines allocations for infrastructure, green energy initiatives, and the digital economy, reflecting a comprehensive approach to development. The Union Budget 2024-25 focuses on macro-economic growth and fiscal stability but offers limited welfare for the poor, relying on effective policy implementation for success. While the fiscal deficit has improved to 4.9% of GDP, significant disparities persist, with increased capital expenditure intended to boost private investment but widening rural-urban and income divides. The budget maintains a similar outlay as the interim budget, prioritising agriculture, rural development, housing, and MSMEs to create jobs. New measures include direct payments for first-time employees and incentives for employers to increase hiring. The budget does not adequately address rising inflation, which stands at 5.08%. To support manufacturing, the government has introduced initiatives like the Credit Guarantee Scheme for MSMEs and increased Mudra Loan limits, along with developing industrial parks enhancing agricultural practices through Digital Public Infrastructure (DPI) and increasing support for natural farming. Despite these efforts, the success of the budget depends on effective implementation and addressing broader economic challenges.

The Union Budget 2024 outlines a comprehensive plan to deal with the rising unemployment by increasing the skill set of the youth. It plans to provide skills to 20 lakh youth over five years. As part of this initiative, 1,000 Industrial Training Institutes will be upgraded into hub and spoke arrangements with a focus on outcome orientation. The course content and design will be aligned with the skill needs of the industry. The budget's positives include the significant investment in infrastructure, expected to create jobs and stimulate economic growth. However, the budget also presents challenges. The ambitious spending plans may widen the fiscal deficit, posing challenges to macroeconomic stability and inflation control. Effective implementation of the proposed schemes and projects remains a critical concern, given historical delays and inefficiencies. The 2024 budget reflects a populist approach, aimed at addressing the concerns of its allies — Nitish Kumar and Chandrababu Naidu and has generously allocated funds for their states. The BJP has learned from its performance in the recent Lok Sabha elections, where it faced criticism for not adequately addressing issues like rural distress, job creation, and social equity. By focusing on infrastructure development, rural welfare, and social sector spending, the budget seeks to win back the support of these crucial demographics.

## Indian education system: Building a vibrant nation

By integrating knowledge and skill development with modern practices, we can nurture youth who are proficient and emotionally and physically resilient

Bharat's educational policies are geared towards fostering a balanced approach that integrates learning with modern skills, reduces unnecessary burdens, and nurtures the unique potential of every child. These efforts are crucial for building a future-ready youth capable of seizing new opportunities in a rapidly evolving world. Prime Minister Narendra Modi has been a vocal advocate for educational reforms and skill development. One of the landmark steps taken by the government is the introduction of the New National Education Policy (NEP) 2020, established after almost four decades. The introduction of the New Education Policy (NEP) 2020 has started giving positive dividends. Being a transformative policy, it formalises skill training by integrating it into the education system from Class VI onwards. This policy underpins the importance of combining schooling with skilling, and teaching-learning materials for classes III rd onwards are also being made available now. The government's plan to incorporate emerging and

acted with students, teachers, and parents, emphasizing the need to create an educational ecosystem where each child's unique individuality is encouraged and fully expressed. The government has been making concerted efforts to achieve this goal, recognizing that cultural and societal expectations often add undue pressure on students. Modi advocates for healthy competition, reminding us that "Teachers are not in a job role but they shoulder the responsibility of grooming the lives of students." With the rapid pace of technological advancements, its adoption in the process of learning is very crucial and technology should be harnessed as a tool for learning, reminding us that "one cannot run away from technology," as the Prime Minister remarked. Reforms are necessary as they can lead Bharat to a higher stage of advancement. The holistic approach involves aligning educational practices with principles that promote mindfulness and resilience. Education should encompass a broad spectrum of human

development, not just intellectual growth. Proper methodologies should be used to assess and nurture various aspects of a child's development. The new education system is all set to enhance individual potential and it also contributes to the nation's economic growth. It is widely admitted that a well-educated population is better equipped to drive economic progress and social mobility, reducing disparities and fostering a more equitable society. Moreover, education contributes to better health, increased civic engagement, and enhanced personal satisfaction. Bharat's examination system needs further reforms. Hence, going forward, the nation is bound to have a more fair, transparent, stress-free, flexible and robust examination system. The holes are being plugged on an urgent basis at all levels. Bharat is on the right path to building a stronger, more vibrant nation where talent, knowledge, and skills thrive. (The author is the BJP Councillor from Narayana, New Delhi; views are personal)

# The unfulfilled promise of Ram Rajya

The BJP's electoral setback in Ayodhya and UP, despite the grand Ram Temple inauguration, necessitates introspection on the foundations of cultural nationalism

SIDHARTH MISHRA

Covenanted for deity, indifferent to the movement Sidharth Mishra In Hindu tradition, Lord Shiva is the symbol of faith, always speaks the truth, and is Trikaladarshi (knows the past, present and future). In Goswami Tulsi's Ramcharitmanas, there is a reference to Shiva telling his wife Sati, "Hohi Soi Jo Ram Rachi Rakha," meaning what happens has been designed by Ram himself. Shiva explains to his wife that Ram is Param Brahma (ultimate creator), and writes the fate of a person based on his or her deeds. To the followers of Ram, this couplet forms the essence of Ram's divinity and majesty. The starting lines of the couplet are followed by Tulsi's saying, "Ko Kari Tark Badhave Sakha" that is why disputes his decision with inane discussions and then completes the couplet saying "As Kahi Lage Japan Harinama; Gai Sati Jahan Prabhu Sukhdhama," the essence of this being that in seeking refuge in Ram one attains solace as did Sati, Shiva's wife.

Though Tulsi's demands faith in Ram nowhere he mentions that a human being's own 'karma' (deeds) would not have a bearing on Ram's 'rachna' (creation). To those for whom Ram is the symbol of the revival of cultural nationalism, it's time to retrospect on their 'karma' which led to Ram's 'rachna' of the setback that they received in the just concluded Lok Sabha polls. Defeat in Ayodhya is indeed the symbol of the setback, which is spread across Ram's territory of Awadh and beyond it. Ramjanambhoomi movement played an important role in the revival and strengthening of the concept of cultural nationalism. The consecration of the statue of Lord Ram at the much-awaited temple should have proved to be the culmination of people's faith in Ram and its natural expression in the electoral gains for the Bharatiya Janata Party (BJP). It did not happen. Celebrated English poet TS Eliot writes in his epochal poem, Hollow Men, "This is the way the world

ends/Not with a bang but with a whimper." Earlier in the same poem, Eliot writes, "Between the conception/ And the creation/ Between the emotion/ And the response/ Falls the Shadow." The question is why the Ramjanambhoomi movement culminated electorally the way it did, not with a bang but with a whimper. The inauguration of the Ram temple in January this year was the event of the century. The fluttering flags bearing Ram symbols across the states, and the cultural build-up through popular Bollywood renditions had even the sceptics once believed in the movement bearing the soul of our culture and nature. It was complete with immaculate camera coverage, with itinerary being unveiled with clockwise precision, weather at its shining best in generally a gloomy climate and a massive build-up of expectation of dawning of Ram Rajya (the rule of Ram, the ideal form of governance). The event, however, surprisingly did not bring good electoral tidings for the BJP. The party strategists were left befuddled at the morally demoralising electoral setback. For the pontiffs of cultural nationalism, the reason for 'shadows between the con-

TO THOSE FOR WHOM RAM IS THE SYMBOL OF THE REVIVAL OF CULTURAL NATIONALISM, IT'S TIME TO RETROSPECT ON THEIR 'KARMA' WHICH LED TO RAM'S 'RACHNA' OF THE SETBACK THAT THEY RECEIVED IN THE JUST CONCLUDED LOK SABHA POLLS

ception and creation, between the emotion and the response' will not be known until they decide to come out of the echo chamber of the 'VIP route' and have a 'darshan' of Ram Lalla by joining the milieu of the masses. Rama Rajya has been defined as the ideal state of society as intended by Lord Ram, comprising perfect harmony, justice, dharma and prosperity, where people live in peace and happiness. Gandhi took the interpretation forward, saying that true Ram Rajya would be to ensure equal rights to both prince and pauper. Ask the Ram Bhakts standing in the line of the paupers, for the darshan of Ram Lalla, if an ideal state had dawned. The management of the whole 'darshan' process at the Ramjanambhoomi temple today is a prototype of how it's a case study of not being the Ram Rajya model. The uncarpeted red sandstone floor of the pathway from the temple entry to the sanctum sanctorum in the heat of the summer leaves the Bhakts with blisters, cursing the temple management for their scorn. Providing carpets to cover the hot stone floor, functional air coolers on the pathway to beat the sultry weather or water coolers to quench the

thirst from standing in a queue is something that should not be beyond the command of 'caring' temple management. But then that care is lacking. The whole environment at the temple grapples with the attitude of Suraksha (security) rather than sewa (service). The teeming throng of untrained private security guards stands out as a sore thumb. The curt replies by these guards to the simple queries of the devout worshipper are all adding to the dwindling goodwill about the temple movement, though not for the temple deity. Ram lives in all humans, as notable lyricist Sahir Ludhianvi penned (*mere rom rom mein basne wale ram*) for Bollywood super hit Neel Kamal. This song over the years has become the anthem for all the Ram worshippers. If the attitude of disdain at the Ram temple is not replaced with that of service, Ram Bhakts would continue to vow for their deity albeit without much goodwill for those associated with the temple movement. (Sidharth Mishra is the author and President of, Centre for Reforms, Development & Justice; views expressed are personal)

### LETTERS TO THE EDITOR

#### BUDGET REACTIONS

Madam — It is not unusual for mixed opinions to arise on budgets presented by Central or State Governments. While ruling parties typically praise the budget, opposition parties are quick to criticize it. Congress leader Pawan Khera claims that the job-related schemes are merely copied from the Nyay Patra. If this is true, Congress might feel validated for having their scheme adopted. However, this could simply be Khera's personal view. What the opposition says often has little impact on the central government. Opposition parties have labeled the budget as specific to Bihar and Andhra Pradesh. It is natural for the opposition to be disappointed with the budget, especially since it does not upset the Chief Ministers of Bihar and Andhra Pradesh. They had hoped that by denying special status to these states, discontent would grow, possibly leading to a withdrawal of support from Nitish Kumar and Chandrababu Naidu. The budget allocates Rs. 15,000 crore for the development of Andhra Pradesh's capital and grants for its backward regions. Bihar receives Rs. 26,000 crore for various road projects and Rs. 21,000 crore for power. An industrial center is planned for Gaya, and there is a welcome initiative to revive Nalanda University. On the fiscal front, the current budget lacks encouragement for savings. The government seems to believe people have no choice but to deposit their money in nationalized banks, thus avoiding tax deductions for savings. It would have been fair if the Finance Minister had emphasized savings as well. KV Seetharamaiah|Bengaluru

#### AN HORRIFIC INCIDENT

Madam — A horrifying incident in Rewa (Madhya Pradesh). I am deeply concerned about the recent incident in Rewa district, Madhya Pradesh, where Mamta Pandey and Asha Pandey were partially buried while protesting against

## Kamala is the right choice

This would seem to have come about a little late, a mere four months before the decisive election. For Democrats there are two options. One, go for Kamala by nomination, thereby making her a very probable scape goat in lieu of Biden, given Trump's stamped and vivid image of a clenched fist, post the shooting, or stage a grand show where their candi-

dates at the upcoming convention mount the podium and vigorously debate as to how they intend to run the nation rather than run for office. The party convention must set exemplary tenor and substance by navigating through issues on hand than throwing mud on a Teflon coated Trump, on whom nothing will stick. Under extreme pressure and for want of time on its hands, the party could find great sense in gathering both its wits and resolve to have Kamala as their candidate. Kamala is one person who is most suited to take on Trump. Remember Trump carries a heavy baggage of his own and the recent episode can but blur some of his glaring negatives, not all. R.Narayanan| Mumbai

road construction on private land. This inhumane action raises serious questions about women's safety under the current government. On one hand, we hear slogans like "Nari Shakti" and "Beti Bachao, Beti Padhao," but on the other hand, women are being harassed and buried alive. Is this what we call women's safety, freedom, and security? How long will such incidents continue to occur? The nation cannot tolerate such atrocities. Authorities must address this matter urgently and find a solution to prevent such incidents from happening again. I urge the government to prioritize women's safety and take immediate action to address this issue. Masood Ahmad |Barabanki

#### A BOOST TO THE GDP

Madam — This refers to the front page article, "India's GDP to surge 6.5 - 7% in 2024-25: Economic Survey", (July 23) this is my response. The economic survey of the year 2024 revealed the positive growth figures of India's GDP

surge of 6.5 to 7 % in the year 2024-25. The evangelist numbers are welcoming for speeding up the growth trajectory of India, to make it a 5 trillion dollar economy as soon as possible. Although the inflation figures are stressing, as it burdened the pockets of the locals. But the growth figures are surely welcoming for each one of us. This will also help India to target 'Vikshit Bharat' vision, and help ensure balanced regional development for all together. Sectoral growth with equality from agriculture to export will power boost India to practically visualize these figures in real life. There are provisions in the budget which will definitely lead to the spurt in economic activity, especially the push for employment and skill development is likely to create more jobs and give boost to manufacturing sector. However, it will all depend upon the execution of these schemes. Kirti Wadhawan | Kanpur

## UNION BUDGET 2024: POINT COUNTER POINT

PRIYANKA CHATURVEDI

### Transformative changes for the middle class

The middle class in India has long been the backbone of the nation, driving consumption, innovation, and overall economic growth. Under Prime Minister Narendra Modi's leadership, India has witnessed transformative changes that have significantly impacted this demographic. In the last decade, we have moved from a Low Growth, High Inflation Nation to a High Growth, Low Inflation Nation. Currently, we are the only large economy in the world to have High Growth and Low Inflation. The GDP growth rate consistently outpaced other major economies, with 8.2% growth in FY 2023-24 compared to 7.0% in FY 2022-23. These economic improvements have directly benefited the middle class. Primarily, what the middle class expects from a Budget is more disposable income in hand, Quality jobs for the next generation, and an improved quality of life.

**More Disposable Income in Hand** Generally, the government tries to increase the middle class's disposable income by controlling inflation or by giving tax relief to the personal income tax category. This budget and government fiscal policies provide relief by both instruments. Inflation management has been crucial, with the Modi government adopting an inflation-targeting regime in 2016.

This approach stabilized and lowered inflation, which has averaged 5% since 2014, never breaching the 8% mark. In June 2024, retail inflation was 5.08%, with core inflation at its lowest in over 12 years, providing further relief to the middle class and enhancing their purchasing power.

In addition, the budget brings significant tax relief for the middle class. FM has rationalized slab rates under the new tax regime and allowed an additional standard deduction of Rs 25,000, effectively making the total standard deductions Rs 75,000 effective from AY 25-26. The new tax regime continues to be the default tax regime of taxation.

These changes increase disposable income in the hands of the middle class to the extent of Rs 17,500 per

annum. In other words, after these changes, there will be no tax till income from the Salary of Rs 7.75 Lakh under the new tax regime.

**Empowering the Backbone of India**

The Union Budget 2024-25, presented by Finance Minister Nirmala Sitharaman, introduces a series of measures aimed at empowering the middle class and ensuring inclusive growth. This budget focuses on employment, skilling, MSMEs, and infrastructure, which are all pivotal for middle-class prosperity. The budget allocates Rs2 Lakh Crore for education, employment, and skilling, directly benefiting the middle class by facilitating job opportunities for 4.1 crore youth over five years. Schemes like the Employment Linked Incentive provide direct benefits to first-time employees, boosting job creation in the manufacturing sector.

Additionally, a new centrally sponsored skilling scheme will train 20 lakh youth, aligning their skills with industry needs and ensuring the middle class remains competitive in the job market. Under the PM Awas Yojana Urban 2.0, the housing needs of 1 crore urban poor and middle-class families will be addressed with an investment of Rs 10 lakh crore. This will include the central assistance of Rs2.2 lakh crore in the next 5 years.

A provision of interest subsidy to facilitate loans at affordable rates is also envisaged. For small business owners within the middle class, the budget introduces a comprehensive package for MSMEs, including a credit guarantee scheme for machinery and equipment purchases and support during stress periods.

**A Brighter Future**

The measures outlined in the budget are set to have profound implications for the middle class. Increased employment opportunities, enhanced skilling programs, and support for MSMEs ensure stable incomes and improved living standards.

Affordable housing initiatives make homeownership more accessible to the middle class, and the focus on infrastructure development creates a con-

ducive environment for businesses, fostering economic growth and stability. Let us understand this with the help of an example - The story of a middle-class family. Sachin is a middle-class professional living in Delhi. With the recent changes introduced in the budget, his yearly take-home salary has seen an increase of Rs17,500 due to the new tax benefits.

This increment has allowed Sachin to invest more in his children's education and save for the future. The constant control of inflation also eased his household expenses, making it more affordable for his family to maintain their standard of living. Sachin's son, Amit, recently graduated and was worried about finding a job.

However, with the government's focus on creating employment opportunities, Amit secured a position in a manufacturing firm that benefits from the Employment Linked Incentive scheme. This job provides Amit with a stable income and gives him the confidence to contribute to the family's finances. The government's commitment to skilling programs has also allowed Amit to enrol in a training course that enhances his skills, making him more competitive in the job market.

In addition, Sachin's wife, Priya, who runs a small business, has benefited from the support extended to MSMEs. The credit guarantee scheme has enabled her to purchase new machinery, increasing her business's productivity and profitability. The Union Budget 2024-25 is a testament to the government's commitment to fostering inclusive growth and empowering the middle class.

By addressing key areas such as employment, skilling, MSMEs, housing, and infrastructure, the budget paves the way for sustained economic growth and prosperity. As the middle class continues to thrive, it will undoubtedly propel India towards becoming a global economic powerhouse, realizing the vision of a 'Viksit Bharat' in 2047.

(The writer is Professor of Finance, XLRI Xavier School of Management and BJP Leader; views are personal)

### The budget skips pressing issues

The Union Budget of the newly elected alliance government presented its first budget. Smt Nirmala Sitharaman as the Finance Minister of India presented her 7th budget, and a new record was made too. Considering a lot of promises were made to the people of India and lots of challenges they face - unemployment, price rise, stagnant income one would have hoped that BJP would, after its underperformance in the general election have learnt some lessons and course correct. However it was disappointing to see the same mistake of ignoring the Jann ki Baat, Madam Minister also like the Prime Minister delivered her Mann ki Baat speech.

This was to be the Union Budget but now can easily be titled PradhanMantri Sarkar Bachao Yojana announcement where huge financial packages have been earmarked for states that are run by their alliance partners and whose crucial support they need for their government to run uninterrupted- JDU in Bihar and TDP in Andhra Pradesh. While a package worth 59000 crores was announced for Bihar, it was 15000 crores for Andhra Pradesh.

However, their demand for special status has so far not been addressed. Making specific politically motivated state budget allocations over other states' interests sets a wrong precedent for future governments to follow. These funds aren't addressing the requirements but rather addressing their political commitments. Alliance-run Maharashtra, a state that pays the highest taxes to the centre got no specific allocation from the PMSBY (PradhanMantri Sarkar Bachao Yojana) besides many opposition-run states.

It is a shame that the centre has blatantly disregarded the principle of equality but chosen to discriminate between states. Maharashtra seeks new airports, a GIFT city like dedicated business/smart city, highways and roads but all of this was ignored. The real BJP hate for Maharashtra stands exposed yet again. The opposition-led state has now made their displeasure over this discrimination obvious by choosing to boycott an upcoming

NITI Ayog meeting to be chaired by the Prime Minister. In the budget, the Finance Minister introduced an apprenticeship program for youth between 20-30 years of age and committed 1 crore internship programmes for youth in the top 500 companies of India. That would mean every company will have to absorb 20000 interns at Rs 5000/pm stipend earmarked from their CSR. This also means that graduates/postgraduates who are part of the record 9.2% unemployment rate and looking for meaningful employment will have to be content with this program, what it doesn't address is creating jobs or entrepreneurial opportunities for the highly skilled youth.

This is the corporate Agniveer programme not meant to address the elephant in the room which is unemployment but rather mock the plight of the youth. Similarly, FinMin spoke of women-led development but fell short of offering anything that would help address the gender pay gap, bring them more jobs, incentivise savings through tax breaks or ease their burden of inflation in running family budgets. SAMBAL is an umbrella scheme that includes Beti Bachao Beti Padhao, One Stop Centre, Nari Adalat, Mahila Police Volunteer, Women's Helpline etc. In 2020-21, when these schemes were separate, the BE for just four of those included under SAMBAL was ₹640 crores, which is more than what has been allocated in the BE for 24-25 (₹629 crores).

The Finance Minister and the entire government have been patting themselves on the back for maintaining fiscal prudence and keeping fiscal deficit under check but it is a classic case of operation successful but patient dead with Aam Janta not having enough savings, enough money to invest and consumption growth amongst its weakest ever.

The fact that private final consumption growth was just 4% in 2023-24 against the overall GDP growth rate of more than 8% shows this clearly. The Government has once again managed to turn a deaf ear to the plight of farm-

ers. If shutting down internet services and using tear gas shells to stop the farmers from protesting was not enough, the Union Budget has no mention of a legal guarantee on minimum support price (MSP) for farmers or any support for farm loans through waivers or lower interest rates. With billionaires continuing to have thousands of crore weddings and stamped-like situations occurring over jobs by unemployed youth, the Union Budget has missed out on addressing wealth inequality at large. While packages for youth employment have been introduced, the Budget does not address reducing the gap between the poorest and the richest sections of the population. Despite the economic survey pointing out the disparity in income with the top 10% accounting for one-third of the income, measures to uplift farmers, and labourers or increase wealth taxes are absent. The Finance Minister's announcement of the reduction of tax on long-term capital gains (LTCG) is a bane in disguise. While seemingly, the tax on LTCG has reduced from 20% to 12.5%, the indexation benefits have been eliminated. This means that profits on sales of property, gold and other unlisted assets will not be adjusted to inflation and a higher amount would be taxable, thus effectively increasing the tax burden on investors, and making investments in property, gold and shares unprofitable. The PradhanMantri Sarkar Bachao Yojana caters to the BJP's essential allies.

The needs of the public, the opposition, and most states have been ignored. While ignoring the concerns of 90% of the nation is not new for this Government, it is disappointing to see it continue after the BJP's performance in the General Elections. One can, however, be hopeful that the increased representation and enthusiasm of the opposition members in Parliament can lead to fruitful deliberations and additions to the Union Budget this session. ## ESG: The key to sustainable business in a post-pandemic world

Environmental, social, and governance considerations are crucial for sustainability in an era marked by environmental degradation

The interest in Environmental, Social, and Governance (ESG) considerations isn't merely a trend—it's a critical pivot towards sustainability in an era marked by environmental degradation and widening social gaps. At its core, ESG represents a comprehensive framework guiding businesses towards practices that not only ensure profitability but also address pressing global challenges.

As we advance in the post-pandemic landscape, collaboration and cooperation are more crucial than ever. For India, these priorities align with ambitious climate targets, a rapidly growing digital economy, and global trade aspirations. Amid climate change and environ-

PIYUSH NIRANJANA

mental degradation, there is growing recognition that businesses play a vital role in promoting sustainable development. Last year, Business 20(B20) was one of the most prominent Engagement Groups in India's presidency of G20. It has become an increasingly important forum for private sector leaders to deliberate on subjects such as the adoption of ESG standards. One of the

B20 Action Councils has focused on encouraging the rapid and broad implementation of ESG principles among businesses of all sizes and economic contexts.

Their primary suggestions include creating universally applicable ESG standards and ensuring transparent, comprehensive, inclusive, and equitable disclosures across all regions. ESG goals are typically a set of operational standards that require companies to adhere to better governance, ethical practices, environmentally friendly measures, and social responsibility. It emphasizes non-financial factors as a metric for guiding investment decisions in a world where only financial returns are no longer the sole goal for investors or

employees. ESG enables businesses to have a long-term vision instead of a myopic vision. The horizon of ESG has evolved significantly over the years. It is more than simply checking a box on the compliance checklist. Accelerating a shift to cleaner energy carriers and other efficient technologies can improve global standards of life while also contributing to long-term decarbonization goals. For instance, ESG can align with traditional medicine to forge an environmental path by promoting the use of natural, organic, and sustainable resources in Ayurveda, Yoga and Naturopathy, Unani, Siddha, and Homoeopathy (AYUSH) practices, thus reducing the environmental footprint. To

promote greater adherence to ESG standards, businesses must be transparent about their practices and their impact on the environment and society. This can include initiatives such as reporting on greenhouse gas emissions, disclosing supply chain practices and engaging with stakeholders to address concerns about labour standards and human rights. The path to a universally embraced ESG

framework is fraught with challenges.

Diverse and sometimes conflicting definitions and standards set by various entities have led to inefficiencies in reporting and general sluggishness in adopting responsible practices on a global scale. The solution lies in harmonizing ESG frameworks for disclosure, reporting, and rating. Such a unified approach would streamline efforts, making it easier for companies of all sizes to participate in the global movement towards sustainability. Companies that address ESG risks tend to experience fewer disruptions, gain more trust, and achieve consistent financial results, adhering to a triple-bottom-line strategy that combines financial

returns with environmental and social norms.

Progressive ESG reporting standards, multi-stakeholder partnerships, and dialogue between businesses and civil society can address these challenges. Indian corporations are increasingly incorporating ESG considerations into their business decisions, with several asset management firms launching ESG funds. These ESG-indexed companies have outperformed non-ESG-indexed companies, as per data from the National Stock Exchange (NSE). [1] Investors in India are using novel tools to fund social and environmental initiatives. The Ghaziabad Municipal Corporation, which is also listed on the Bombay Stock Exchange, issued India's first

green bond (BSE). The Corporation raised ₹150 crores in capital to help fund the water treatment plant and tertiary sewage. According to a survey conducted by Singapore-based bank DBS and Bloomberg Media Studios, 92% of Indian SMEs said ESG measures are a high priority for their business, compared to 83% of SMEs across Asia.

The corporate world is aligning with climate science, with thousands of businesses adopting initiatives like the Science-Based Targets. (The writer is member Invest India, the National Investment Promotion and Facilitation Agency under DPIIT, Ministry of Commerce and Industry; views are personal)

# Man linked with Leicester unrest charged with terror offences in UK

**PTI ■ LONDON**  
A 36-year-old man who was accused of spreading "misinformation" during Hindu-Muslim unrest in Leicester two years ago on Wednesday appeared at Westminster Magistrates Court in London charged with unrelated terror offences. Majid Novraska a.k.a. Freeman appeared in the dock as the Crown Prosecution Service (CPS) read out the charges of encouragement of terrorism and supporting Hamas, a proscribed or banned organisation. The Leicester-based community activist, whose supporters gathered outside the court waving Palestinian

flags, was released on conditional bail which prohibits him from transmitting or posting messages on social media. District Judge Louisa Ciciora agreed that the case was not suitable for summary, or speedy, trial and transferred the case to be heard on the Terrorism List at the Central Criminal Court at the Old Bailey in London on August 16. "Many of Freeman's allegations of violence against Muslims perpetrated by Hindus in Leicester have later been found to have no evidence," think tank Henry Jackson Society's report entitled 'Hindu-Muslim civil unrest in Leicester' from November 2022 states, with reference to clashes

which were triggered in the city in the wake of an India-Pakistan cricket match. "Many of Freeman's allegations of violence against Muslims perpetrated by Hindus in Leicester have later been found to have no evidence," the report added, naming him as one of the social media "influencers spreading misinformation" in the lead up to clashes in September 2022. During his hearing on Wednesday, the court heard that on various dates between December 26 last year and June 20 this year Freeman expressed an opinion or belief supportive of a proscribed organisation, namely Hamas, and in doing so was "reck-

less" as to whether a person to whom the expression was directed would be encouraged to support Hamas. The second charge under the UK's Terrorism Act 2006 reads that in March he used his social media accounts to post messages in relation to the 2015 Charlie Hebdo terrorist attack in France, intending "members of the public to be directly or indirectly encouraged or otherwise induced by the statement to commit, prepare or instigate acts of terrorism". The investigation was carried out by the Counter Terrorism Police in the East Midlands, which arrested, interviewed and charged Majid Novraska

– whose social media accounts refer to him as Majid Freeman – on July 9. His defence team asked that his strict bail conditions related to accessing social media be amended to allow him to review his past posts for the purpose of the court hearings, which Judge Ciciora agreed to. The context of the allegations in relation to social media posts in the case date from October 7 last year, the Hamas terrorist attack on Israel, and subsequent conflict. The accused spoke only to confirm his name, age and address and did not enter a guilty or not-guilty plea at this stage.

# Netanyahu looks to boost US support, faces boycotts

**PTI ■ WASHINGTON**  
Israeli Prime Minister Benjamin Netanyahu speaks before Congress on Wednesday in hopes of bolstering US support for continuing Israel's offensives against Hamas and other adversaries. But boycotts of his appearance by some Democratic lawmakers and expected protests outside are highlighting how his hard-line government's conduct of the devastating war in Gaza is opening fissures in longstanding American support for his country.

Trump's running mate, JD Vance, said campaigning would also make him a no-show for the Israeli leader's speech. And outside the Capitol, demonstrators angry over the deaths of nearly 40,000 Palestinians, or over Netanyahu's inability to free Israeli and American hostages taken by Hamas and other militants in the first hours of the Israel-Hamas war, are promising massive protests. In anticipation, House Speaker Mike Johnson warned of a "zero-tolerance policy" for any signs of disturbances in the Capitol building. "It is our tradition to acknowledge every guest speaker's right to free expression even if we disagree with their viewpoint," the Louisiana Republican wrote to members Tuesday. Johnson arranged the address, an honour that marks both the two countries' historically warm bonds and the political weight that support for Israel has long carried in US politics. But the attention for the visit has been diminished some by American political turmoil of recent weeks, including the assassination attempt against Trump and President Joe Biden's decision not to seek another term. Netanyahu hopes to project the image of a tough, respected statesman for an increasingly critical domestic audience back home in Israel. That may be difficult given the wide division among Americans over Netanyahu's conduct of the war.

# Indian-origin Canadian MP receives threat from Khalistani extremists

**PTI ■ OTTAWA**  
A prominent Canadian MP of Indian origin on Wednesday said the country was being "polluted" by Khalistani extremists who were "abusing" the freedoms guaranteed under the Charter of Rights, days after a Hindu temple was vandalised in Edmonton. Amidst rising Hinduphobia in Canada, the BAPS Swaminarayan Mandir was vandalised with alleged hateful and anti-India graffiti on Monday morning in Edmonton in Alberta state, about 3,400 km west-northwest of here. Chandra Arya, a Member of Parliament from Nepean in the House of Commons, said in a post on his X account that separatist Gurpatwant Singh Pannun of Sikhs for Justice

released a video demanding that Arya and his Hindu-Canadian friends go back to India after he (Arya) condemned the vandalism of the Hindu temple and other acts of hate and violence by Khalistani supporters in Canada. "We Hindus have come to our wonderful country Canada from all parts of the world. From every country in South Asia, many countries in Africa and Caribbean, and many other parts of the world, we have come here and Canada is our land," Arya, a member of Canadian Prime Minister Justin Trudeau's Liberal Party, wrote. "We have made and continue to make immense positive and productive contributions to the socio-economic development of Canada. With our long history of Hindu culture and heritage, we have enriched the

multicultural fabric of Canada," he said. "Our land is being polluted by Khalistani extremists abusing our freedoms guaranteed by our Canadian Charter of Rights," Arya added. Arya's statement comes against the backdrop of severe strain in India-Canada ties over the killing of Khalistan extremist Hardeep Singh Nijjar, who was gunned down in Surrey, British Columbia, in June last year. The relations between the two countries came under severe strain following Trudeau's allegations in September last year of a "potential" involvement of Indian agents in Nijjar's killing. India has been maintaining that the main issue between the two countries is that of Canada giving space to pro-Khalistan elements operating from Canadian soil with impunity.

India has repeatedly conveyed its "deep concerns" to Canada and New Delhi expects Ottawa to take strong action against those elements. Meanwhile, the vandalism at the BAPS temple was criticised by other local elected representatives too. The Consulate General of India in Vancouver had said in a post on X on Tuesday: "We condemn the defacing of BAPS Shri Swaminarayan Mandir in #Edmonton with anti-India graffiti. We have requested the Canadian authorities to investigate the incident and take prompt action against the perpetrators." However, there has been no reaction as yet from the BAPS – the Bochasanwasi Akshar Purushottam Swaminarayan Sanstha, the organisation that runs the temple.

# Man who attacked author Salman Rushdie charged with supporting terrorist group

**PTI ■ BUFFALO (US)**  
A man who severely injured author Salman Rushdie in a frenzied knife attack in western New York faces a new charge that he supported a terrorist group. An indictment unsealed in US District Court in Buffalo on Wednesday charges Hadi Matar with providing material support to Hezbollah, a militant group based in Lebanon and backed by Iran. The indictment didn't detail what evidence linked Matar to the group. The federal charge comes after Matar earlier this month rejected an offer by state prosecutors to recommend a shorter prison sentence if he agreed to plead guilty in Chautauqua County Court, where he is charged with attempted murder and assault. The agreement also would have required him to plead guilty to a federal terrorism-related charge, which hadn't been filed yet at the time. Instead, both cases will now proceed to trial separately. Jury selection in the state case is set for Oct. 15. Matar, 26, has been held without bail since the 2022 attack, during which he stabbed Rushdie more than a dozen times as the acclaimed writer was on stage about to give a lecture at the Chautauqua Institution. Knife wounds blinded Rushdie in one eye. The event moderator, Henry Reese, was also wounded. Rushdie detailed the attack and his long and painful recovery in a memoir published in April. The author spent years in hiding after the Ayatollah Khomeini of Iran issued a fatwa, or edict, in 1989 calling for Rushdie's death over his novel "The Satanic Verses."

# Mudslides in Ethiopia have killed at least 229 people

**PTI ■ ADDIS ABABA**  
Mudslides triggered by heavy rain in a remote part of Ethiopia have killed at least 229 people, including many who tried to rescue survivors, local authorities said Tuesday, in what the prime minister called a "terrible loss." Young children and pregnant women were among the victims in Kencho Shacha Gozdi district of southern Ethiopia, said Dagmawi Ayele, a local administrator, adding that at least five people have been pulled out alive. The death toll rose sharply from the initial one of 55 late Monday. Search operations continued in the area, said Kassahun Abayneh, head of the communications office in

Gofa Zone, the administrative area where the mudslides occurred. Ethiopia's ruling party in a statement said it felt sorrow over the disaster. Prime Minister Abiy Ahmed said in a statement on Facebook that he was "deeply saddened by this terrible loss." The federal disaster prevention task force has been deployed to assist in search and rescue efforts, said Abiy's statement. It was not immediately clear how many people were still unaccounted for. Many victims were buried on Monday as rescue workers searched the steep terrain for survivors of another mudslide the previous day. Markos Melese, director of the disaster response agency in Gofa

Zone, said many rescuers remained missing. "There are children who are hugging corpses, having lost their entire family, including mother, father, brother and sister," he said. Some women wailed as rescuers attempted to dig through the thick mud with shovels. Landslides are common during Ethiopia's rainy season, which started in July and is expected to last until mid-September. Deadly mudslides often occur in the wider East African region, from Uganda's mountainous east to central Kenya's highlands. In April, at least 45 people were killed in Kenya's Rift Valley region when flash floods and a landslide swept through houses and cut off a major road.

# FBI chief questioned over attack on Trump

**Washington, (AP):** FBI Director Christopher Wray is set to testify Wednesday about the bureau's investigation into the attempted assassination of former President Donald Trump, with lawmakers at a congressional hearing likely to press him for fresh details about the gunman's motive and background. The hearing before the House Judiciary Committee will represent Wray's most detailed comments to date about a shooting that has again thrust the FBI into the political maelstrom as agents continue to investigate the 20-year-old gunman, Thomas Matthew Crooks, and the most serious attempt to assassinate a president or presidential candidate since Ronald Reagan was shot in 1981. The hearing had been scheduled well before the June 13 shooting as part of the committee's routine oversight of the FBI and Justice Department, and though lawmakers may touch on a broad array of topics, questions about the shooting are expected to dominate the session. Despite being appointed by Trump, Wray typically faces antagonistic questions from the Republican-led panel, a reflection of lingering discontent over the FBI's investigation into potential ties between Russia and the 2016 campaign. Though the FBI has avoided the same level of scrutiny directed at the Secret Service over security lapses that preceded the shooting, culminating Tuesday in the resignation of Director Kimberly Cheatle, Wray is likely to be questioned by lawmakers sceptical of the bureau's assessment that Crooks left behind no obvious ideological motive that could explain his actions.

# Trump tells Palestinian Pres everything will be good

**PTI ■ WASHINGTON/CHARLOTTE**  
Ahead of his meeting with Israeli Prime Minister Benjamin Netanyahu on Friday, former US president and Republican presidential candidate Donald Trump on Tuesday told Palestinian President Mahmoud Abbas that everything will be good. "Looking forward to seeing Bibi Netanyahu on Friday, and even more forward to achieving Peace in the Middle East!" Trump said on "Truth Social" his social media platform as he attached a letter written to him by Abbas, a day after a failed assassination bid in Philadelphia on July 13. "It is with grave concern that I have received news and later on watched footage of your attempted assassination," Abbas wrote in his letter dated July 14. Trump posted a screenshot of the letter which also had his response in a typical Trump handwritten note. "Mahmoud, so nice. Thank You. Everything will be Good," Trump said. Earlier in the day, Trump said that he would be meeting Netanyahu at Mar-a-Lago in Palm Beach, Florida, on Friday. "During my first term, we had Peace and Stability in the Region, even signing the historic Abraham Accords - And we will have it again. Just as I have said in discussions with President Zelensky and other World Leaders in recent weeks, my PEACE THROUGH STRENGTH Agenda will demonstrate to the World that these horrible, deadly Wars, and violent Conflicts must end. Millions are dying, and Kamala Harris is in no way capable of stopping it," he said. Abbas wrote in his letter that acts of violence

must not have a place in a world of law and order. "Respect for the other with tolerance and valuing of human life is what must prevail," he wrote. "Despicable acts of attempted or successful assassinations are acts of weakness with failed understanding of peaceful measures to resolve conflicts. Differences must be resolved through communications with freedom of expression," Abbas wrote. **TRUMP TO TURN HIS FULL FOCUS ON HARRIS** Donald Trump is holding his first public campaign rally since President Joe Biden dropped out of a 2024 matchup that both major parties had spent months preparing for, leaving the former president to direct his ire toward his likely new opponent, Vice President Kamala Harris. Trump is expected to turn his full focus on Harris as he stops Wednesday in North Carolina, a swing state that Trump has carried in the past, but Democrats have seen as pivotal. The former president's trip to the state shows he's still concerned about keeping it in his column this November, even as his team reaches for wins in traditionally Democratic-leaning states like Minnesota, where Trump is set to visit Saturday. With Biden's abrupt departure from the presidential race and Harris edging closer and closer to officially being the Democrats' general election pick, Trump has ramped up his criticism of the vice president, whom he's characterised as "the same as Biden but much more radical." He has blamed her for what he portrays as the Biden administration's failures, particularly on security along the US-Mexico border. Trump has also hedged on plans for an expected debate

with Harris, first saying that he wanted Fox News, not ABC, to host the matchup he had originally scheduled for September with Biden. On Tuesday, Trump appeared to tweak that message again, saying on a call with reporters that he'd like to debate Harris "more than once" but not committing to appearing at the debate currently on the books and saying he'd only agreed to debate Biden twice, not Harris. Quietly, Republicans have spoken about how snubbing Harris in for Biden nullifies a portion of their party's argument in favour of Trump's vitality and vigour. At 81, Biden had been the oldest nominee heading into a general election. Now, the 78-year-old Trump occupies that slot. Harris, 59, has launched a campaign that at least in some corners appears to be stoking interest among the younger voters who could be key in deciding an anticipated close general election. North Carolina is a state Trump carried in both his previous campaigns but by less than 1.5 percentage points over Biden in 2020, the closest margin of any state Trump won. Trump stumped heavily in North Carolina even as the COVID-19 pandemic wore on, while Biden largely kept off the physical campaign trail and did not personally visit the state in the last 16 days of the election. Mecklenburg County, home to Charlotte — the state's biggest city — was also the scene of Trump's narrowest margin of victory in North Carolina's GOP primary, edging out Nikki Haley by fewer than 8 percentage points. This year, Trump had planned to hold his first rally since the start of his hush money trial in Fayetteville, but that event was called off due to inclement weather.

# Starmers faces first House of Commons grilling from lawmakers

**AP ■ LONDON**  
Newly elected British leader Keir Starmer faces a House of Commons milestone on Wednesday, fielding lawmakers' queries at the boisterous weekly Prime Minister's Questions session. It's the first such session since Starmer's Labour Party won a landslide election victory on July 4, returning to power after 14 years. The centre-left party won 412 of the 650 seats in the House of Commons. Starmer is more accustomed to asking the questions after spending four years as leader of the opposition to a Conservative government. Former Prime Minister Rishi Sunak now fills

that role as leader of the defeated Conservative Party.

Labour won a landslide election victory on July 4 on a promise to get the UK's sluggish economy growing, unleash a wave of housebuilding and green energy projects and patch the country's frayed public services. Labour's large majority means Starmer should easily be able to pass legislation. But he has already had to quell a rebellion, suspending seven Labour lawmakers for voting against the party over social welfare. The government is under pressure from anti-poverty groups and many Labour lawmakers to scrap a policy introduced by the Conservatives that limits a widely paid welfare benefit and tax credit to a family's first two children. The new government says it can't afford to

immediately abolish the two-child cap. On Tuesday night, seven Labour lawmakers on the left of the party sided with an opposition call to scrap the limit. The party said the seven, who include former deputy leader John McDonnell, had been suspended from Labour's parliamentary caucus for at least six months. They will remain lawmakers, but will sit as independents. Zarah Sultana, one of the suspended legislators, said she had "slept well knowing that I took a stand against child poverty that is affecting 4.3 million people in this country." "It is the right thing to do and I am glad I did it," she told broadcaster ITV.

# British soldier stabbed near barracks

**PTI ■ LONDON**  
A masked attacker on a motorcycle stabbed and seriously injured a British army officer in daylight near a barracks in southeast England, witnesses and police said Wednesday. A 24-year-old man was arrested soon after on suspicion of attempted murder, Kent police said. Police said the assailant acted alone and the stabbing was not believed to be an act of terror. They are investigating if it was related to the suspect's mental health. The officer, who is in his 40s, suffered serious injuries and was airlifted to a hospital for treatment, the British army said. He was in serious

but stable condition, police said. Prime Minister Keir Starmer said he was "shocked and appalled," writing on social network X. "All our thoughts are with the soldier, his family and our Armed Forces community, who serve to keep all of us safe. I wish him a swift recovery," Defense Secretary John Healey also called the attack "shocking." The Kent Police force said officers were called Tuesday evening to reports of an assault in the town of Gillingham, 30 miles (about 50 kilometers) southeast of London. Witnesses said an attacker wearing a ski mask, rode up on a motorbike, attacked

the soldier, and then fled. Alex Reynolds, who lives nearby, said he came out of his house and saw a man in military uniform lying in a street "not moving." "It was a minute and a half after the incident, there were already 10 people around the body," he said. He said others at the scene said they saw the attacker "speed away" on the bike. A suspect was arrested within half an hour and several knives were seized, police said. British police do not name suspects until they have been charged. The road where police said the attack happened is close to Brompton Barracks, the headquarters of the British Army's 1 Royal School of Military

Engineering Regiment. On Wednesday morning, police cars and crime scene tape cordoned off both ends of the treelined road. "Our thoughts are with the soldier and their family and we request that their privacy is respected at this difficult time," the army said in a statement. "We will continue to work closely with Kent Police to understand what happened and support the investigation." Attacks on soldiers in Britain are rare. In 2013, two men inspired by al-Qaida killed 25-year-old soldier Lee Rigby in a London street, running him down with a car before stabbing him to death. The men were sentenced to life in prison.

# Crowdstrike blames bug for letting bad data slip through, leading to global tech outage

**AP ■ WA**  
Crowdstrike is blaming a bug in an update that allowed its cybersecurity systems to push bad data out to millions of customer computers, setting off last week's global tech outage that grounded flights, took TV broadcasts off air and disrupted banks, hospitals and retailers. Crowdstrike also outlined measures it would take to prevent the problem from recurring, including staggering the rollout of updates, giving customers more control over when and where they occur, and providing more details about the updates that it plans.

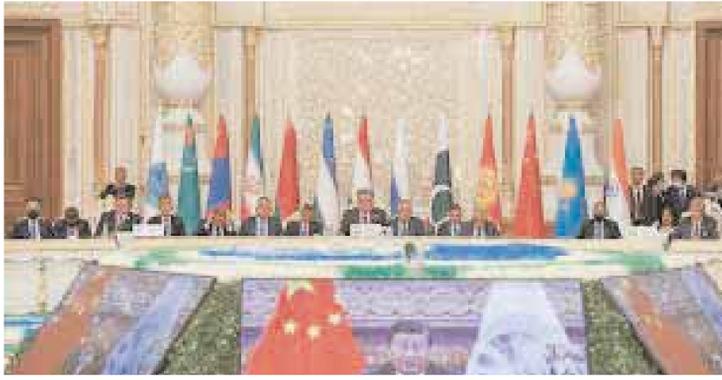

content configuration update for its Falcon platform affecting Windows machines, the Texas company said. A bug in the content validation system allowed "problematic content data" to be deployed to Crowdstrike's customers. That triggered an "unexpected exception" that caused a Windows operating system crash, the company said. As part of the new prevention measures, Crowdstrike said it's also beefing up internal testing as well as putting in place "a new check" to stop "this type of problematic content" from being deployed again. Crowdstrike has said a "significant number" of the approximately 8.5 million computers that crashed on Friday, causing global disruptions, are back in operation as customers and regulators await a more detailed explanation of what went wrong. Once its investigation is complete, Crowdstrike said that it will publicly release its full analysis of the meltdown. The outage caused days of widespread technological havoc, highlighted how much of the world depends on a few key providers of computing services and drawn the attention of regulators who want more details on what went wrong.

# SCO conducts anti-terror drills with member states in China

PTI ■ BEIJING

Security officials from the member states of the Shanghai Cooperation Organization (SCO) held a joint anti-terrorism drill in China focussing on live drills and specialised operations such as the "eradication of terrorist groups," China's Ministry of Public Security has said. The "Interaction-2024" joint counter-terrorism exercises were held recently in northwest China's Xinjiang Uygur Autonomous Region, the Ministry said. "The exercise marks the first time the relevant agencies from all SCO member states have participated in a joint counter-terrorism live drill," state-run Xinhua news agency reported on Tuesday. A small Indian delegation took part in the drill. Since terrorist threats often spill over to other countries and flow around the globe, the latest large-scale SCO exercise was held to enhance the member states' capabilities and interoperability in joint anti-terrorism operations, Global Times report said. The latest exercise has established a new model for joint live drills by relevant agencies and enhanced the joint operational

capabilities of the SCO member states' authorities, the Ministry of Public Security said, adding, in response to significant terrorist threats, the exercise included specialized operations such as "the eradication of terrorist groups." Photos released by the state-run media showed that soldiers and police officers fully armed with assault rifles, pistols, and riot shields launching an assault in some via armoured and all-terrain vehicles and some via helicopter with aerial drones and robot dogs - also deployed in the exercise. Representatives from SCO member states, the

SCO Secretariat, and the Executive Committee of the SCO Regional Anti-Terrorist Structure observed the exercise. The Beijing-based SCO has emerged as one of the largest trans-regional international organisations focussing on deepening security-related cooperation with its Regional Anti-Terrorist Structure (RATS), which specifically deals with issues relating to security and defence. Earlier this month, Belarus became the 10th official member state of the SCO that already has China, India, Iran, Kazakhstan, Kyrgyzstan,

Pakistan, Russia, Tajikistan and Uzbekistan. The SCO member states have a long history of effective cooperation in counter-terrorism. All the previously held anti-terrorism exercises were bilateral or multilateral but did not feature all member states, Li Wei, a research fellow and security expert from the China Institutes of Contemporary International Relations, told the Global Times. The latest drill reflected that all SCO member states share a common understanding toward the threats posed by terrorism, Li said.

# B'desh crawls back to normalcy

PTI ■ DHAKA

Bangladesh crawled back to normalcy on Wednesday after a five-day nationwide violent student protest over quotas in government jobs with rush hour traffic returning to streets in the capital, and limited reopening of banks, garment factories and internet services. A nationwide internet blackout since last Thursday has restricted the flow of information in the country. Limited connectivity was restored on Tuesday night, with priority given to companies such as banks, technology firms and media outlets. Mobile phones have started working, but users say the internet is slow, while mobile internet and sites such as Facebook remain suspended. The curfew was relaxed for seven hours in the capital and in other districts too but the authorities said a strict vigil by army troops and paramilitary Border Guard Bangladesh (BGB) would continue alongside riot police and elite anti-crime Rapid Action Battalion (RAB). The city and inter-district bus and ferry services were restored coinciding with the relaxed curfew hours. However, schools and other educational institutions remained shut. The violence claimed dozens of lives, including that of students, with some media tally suggest-

ing the toll to be as high as 184. Earlier this week, the government set up a judicial investigation into the violence with a High Court judge in the chair. The government attributed the unrest to fundamentalist Jamaat-e-Islami and their student front Chhatra Shibir, backed by former prime minister Khaleda Zia's Bangladesh Nationalist Party (BNP) and allegedly taking advantage of the students' movement. The main opposition BNP rejected the charges and instead, blamed the government. A manhunt for culprits who damaged major government installations and property like the state-run Bangladesh Television (BTV) is underway, law enforcement agencies said. "The anti-liberation Jamaat-BNP and militants carried out the unprecedented mayhem one after another joining their hands. Never did we see attacks on police stations and jails... this is new to us," Home Minister Asaduzzaman Khan Kamal told a press briefing at his office. "Mobilising all our strength, we will track down every one of them and expose them to justice. We will not deviate even an inch from this mission," he said. Local media reports suggested that police have so far arrested over 2,500 suspected anarchists. The apex Appellate Division of Bangladesh's

Supreme Court earlier on Sunday ordered a massive quota reform, keeping only seven per cent reserve posts instead of the existing 56 per cent. The 1971 war veterans' quota will be cut down to 5 per cent and 2 per cent will be reserved for ethnic minorities as well as transgender and disabled people leaving 93 per cent jobs to be merit-based. The government has issued a Gazette notification in line with the order. The student group leading the demonstrations suspended the protests with one of their leaders saying they had not wanted the reform "at the expense of so much blood." Meanwhile, junior minister for information and broadcasting Mohammad Ali Arafat, told another media briefing for foreign media: "We never wanted the casualties, it was very, very unfortunate and unwanted... every incident, and casualty will be independently investigated." He added the judicial committee will investigate "thoroughly every single thing regardless of who is involved." Students were furious because quotas left fewer than half of government jobs open on merit amid an unemployment crisis, particularly in the private sector, making government sector jobs with their regular wage hikes and perks especially prized.

Bangladesh's major export-earning garment and textiles industries, which supply to major Western brands reopened after days of closure due to the unrest and curfew. "All our factories are open today. Everything is going smoothly," Bangladesh Garment Manufacturers and Exporters Association president SM Mannan said in a statement. Officials said the southeastern Chattagram port that was forced to suspend handling of cargoes has resumed operations as the highways were reopened to carry the containers.

## BROADBAND INTERNET PARTIALLY RESTORED

Broadband internet services were partially restored in Bangladesh after five days of countrywide blackout amid clashes between security personnel and protesters demanding reforms to government job quotas that reportedly killed more than 100 people, media reports said on Wednesday. The broadband connections were being restored on a limited scale late on Tuesday, the reports said. The state minister for post, telecommunication and information technology, Zunaid Ahmed Palak, described the phased internet restoration as a "trial run". The Dhaka Tribune newspaper reported.

# Philippines, S'pore broaden defense ties with a new pact

AP ■ MANILA (PHILIPPINES)

The Philippines and Singapore signed a defense pact Wednesday that will allow their militaries to broaden their engagement, but few details were given about how the agreement could help address their security concerns in a region rife with conflicts. Defense Secretary Gilberto Teodoro Jr signed the memorandum of understanding with his counterpart in Singapore, Ng Eng Hen, in a ceremony that coincided with the anniversary of the establishment of diplomatic ties between the two countries. The agreement, which was not immediately made public, "serves as a framework to guide existing interactions and promote cooperation in areas of mutual interest such as military education and anti-terrorism," Singapore's Defense Ministry said in a brief statement. It aims to "foster closer people-to-people links" and builds on an existing agreement on education, training aid and support activities for humanitarian assistance and disaster relief, the ministry added, without elaborating. A Singaporean and two Philippine officials said the agreement is not a so-called status-of-forces agreement that the Philippines has signed with three countries, including the United States, which allows

largescale joint combat exercises. It could allow joint but limited drills such as "tabletop exercises" simulating responses to humanitarian crises and natural disasters with agreed terms of engagement, according to the officials, who spoke on condition of anonymity because they were not authorized to discuss the matter publicly. Philippine President Ferdinand Marcos Jr's administration has taken steps to forge new security alliances with a number of Asian and Western countries and allowed a US military presence at more Philippine bases under a 2014 defense pact since territorial hostilities between China and the Philippines surged last year at two hotly disputed shoals in the South China Sea. China has said such alliance-building and actions by the US and its allies, including the Philippines, are provocative, aimed to contain Beijing and endanger regional security. Teodoro has bristled at such Chinese criticism. He said in a speech in May that "termining these cooperative activities with like-minded nations as a containment or a provocation is disinformation and evidence of paranoia of a closed political system." In his state of the nation address before the Philippine Congress on Monday, Marcos stressed that his country would not back down in the territo-

rial disputes but stressed his administration would only use peaceful means to resolve any dispute and would continue building security alliances with friendly countries. "In the face of challenges to our territorial sovereignty, we will assert our rights and interests in the same fair and pacific way that we have always done," Marcos said, adding that efforts were continuing "to strengthen our defense posture, both through developing self-reliance and through partnerships with like-minded states." Earlier this month, the Philippines and Japan signed a defense pact named the Reciprocal Access Agreement allowing the deployment of their forces in each other's territory for joint military exercises as both countries face an increasingly assertive China. Japan and the Philippines have separate maritime territorial disputes with China. The agreement will take effect after it is ratified by the Philippine and Japanese legislatures. The Philippines is holding separate talks with Canada, New Zealand and France on similar defense agreements, the two Philippine officials said. Japan and the Philippines are treaty allies of the United States and their leaders held three-way talks in April at the White House, where President Joe Biden renewed Washington's "ironclad" commitment to defend them.

# 'Pak Army officers visited London to convince Nawaz Sharif to return'

Lahore (PTI): Pakistan's powerful army sent its officers to London in 2022 to convince former prime minister Nawaz Sharif to return to the country to "save" it from destruction under Imran Khan's regime, the ruling PML-N supremo's son-in-law claimed on Wednesday. Nawaz, 74, had returned from London in October last year after spending four years in self-imposed exile on medical grounds. Upon his arrival, he was acquitted in all the cases he was facing including the Al-Azizia Mills corruption case in which he was serving a seven-year imprisonment before leaving for the UK. "The Army had gone to London (in 2022) and touched the knees of Nawaz Sharif and requested him to come to Pakistan and save it from the destruction of (former prime minister) Imran Khan," Capt (ret.) Muhammad Saifur while addressing party workers of the ruling Pakistan Muslim League-Nawaz (PML-N) He said when Nawaz returned to become prime minister for the fourth time then the powerful circles (a reference to the powerful military) decided against it. "To stop him from becoming the premier they ensured that Nawaz lost the election from NA-15 Mansehra," he said and chided the Election Commission of Pakistan for manipulating the result of

Nawaz, a three-time former prime minister. Interestingly, Nawaz had won Lahore's seat in the February 8 general election which Khan's party Pakistan Tehreek-e-Insaf (PTI) alleged that he had also lost this seat but the ECP declared him successful in the country's worst-ever rigged polls. Nawaz himself had admitted that he was a candidate to become premier but his party failed to get a simple majority therefore it was decided that his younger brother Shehbaz Sharif should be made the prime minister. The PTI has alleged that the PML-N had won only six per cent seats of the National Assembly and the military establishment gifted dozens of its winning (PTI) seats after getting the results changed through ECP to the PML-N so that its puppet setup led by Shehbaz Sharif could come to power and serve its interests. PML-N sources said that Nawaz had agreed not to contest for the Prime Minister's slot after the military establishment offered him to make his daughter Maryam Nawaz Punjab Chief Minister. The powerful Army, which has ruled the coup-prone country for more than half of its 75-plus years of existence, has hitherto wielded considerable power in the matters of security and foreign policy.

# N Korean balloon drops litter on South's presidential compound

AP ■ SEOUL

Trash from at least one North Korean balloon fell on the South Korean presidential compound Wednesday, raising worries about the security of key South Korean facilities from North Korean provocations. The rubbish that fell on the ground at the compound in central Seoul contained no dangerous material and no one was hurt, South Korea's presidential security service said in a statement. But experts say South Korea needs to shoot incoming North Korean balloons at border areas next time, as it's not clear whether North Korea would put in hazardous items in future campaigns. North Korea's latest balloon launches came days after South Korea boosted its frontline broadcasts of K-pop songs and propaganda messages across the rivals' heavily armed border. Their tit-for-tat Cold War-style campaigns are inflaming tensions, with the rivals threatening stronger steps and warning of grave consequences. Seoul officials earlier said North Korea had used the direction of winds to fly balloons toward South Korea, but some of the past balloons had timers that were likely meant to pop the bags of trash midair. The security service gave no

further details about the rubbish found at the presidential compound, like whether balloons were discovered along with the trash. If North Korea is found to have used timers or any other device to deliberately dump trash on key South Korean facilities like the presidential office, it would certainly invite strong response by South Korea. But experts say dropping balloons at ground targets is extremely sophisticated technology and that North Korea would certainly lack such an ability. The security service refused to disclose whether President Yoon Suk Yeol was in the office at the time. Yoon's office earlier said he has no official schedule on Wednesday. South Korea's Joint Chiefs of Staff said earlier Wednesday that North Korean balloons were flying north of Seoul after crossing the border and had urged people to be alert for falling objects. It was North Korea's 10th such launch since late May. The more than 2,000 huge balloons so far have dropped wastepaper, scraps of cloth, cigarette butts and even manure on South Korea. North Korea has said it was responding to South Korean activists scattering political leaflets across the border via their own balloons. Experts say North Korea con-

siders South Korean civilian leafletting activities a major threat to its efforts to stop the inflow of foreign news and maintain its authoritarian rule. In furious responses to past South Korean leafletting, North Korea destroyed an empty South Korean-built liaison office in its territory in 2020 and fired at incoming balloons in 2014. The North's balloons haven't caused major damage but have raised security jitters among people worried North Korea could use such balloons to drop more hazardous materials like chemical and biological agents. South Korea said Sunday it was ramping up its anti-Pyongyang propaganda broadcasts from its loudspeakers at all major sites along the land border because North Korea was continuing launches of trash-carrying balloons. South Korea last Thursday restarted its loudspeaker broadcasts for the first time in about 40 days in retaliation for North Korea's previous balloon activities. Observers say South Korean propaganda broadcasts can demoralize frontline North Korean troops and residents. In 2015, North Korea fired artillery rounds across the border in anger over South Korea's restart of propaganda broadcasts, prompting the South to return fire.

# Taiwan prepares for typhoon amid worsened Philippines monsoon, 13 people die

AP ■ TAIPEI

Taiwan shuttered offices, schools and tourist sites across the island on Wednesday ahead of a powerful typhoon that already worsened seasonal rains in the Philippines, killed at least 13 people and displaced 6,000,000. Typhoon Gaemi's outer skirt was bringing heavy rain to much of Taiwan, where a direct landfall was expected later on Wednesday in the northern county of Ylan. Fishing boats were recalled to port amid turbulent seas, while air travelers were rushing to board overseas flights before the storm arrives, amid numerous cancellations. One person was reported killed and dozens injured by trees that were toppled by the storm, while shelters were opened in vulnerable areas, particularly in Taiwan's mountainous center and east where heavy rainfall is prone to cause landslides and flooding. Streets were inundated in numerous towns and cities and high winds knocked down pedestrians and riders of the island's ubiquitous motor scooters. On Wednesday morning, the typhoon was east of Taiwan moving at 18 kilometers (11 miles) per hour with maximum sustained wind speeds of 183 kilometers (113 miles) per

hour, the Central Weather Administration said. In the capital Taipei, heavy rain had not yet arrived. Gaemi, which was called Carina in the Philippines, did not make landfall in the archipelago but enhanced its seasonal monsoon rains. The rains set off at least a dozen landslides and floods over five days, killing at least eight and displacing 6,00,000 people, including 35,000 who went to emergency shelters, the Philippines' disaster risk mitigation agency said. A landslide buried a rural shanty Tuesday in the mountainside town of Agoncillo in

Batangas province, and the bodies of a pregnant woman and three children, aged 9 to 15, were dug out Wednesday morning. A rice porridge vendor was hit by a falling tree in another Batangas town Tuesday night, raising the toll in the country to 13 dead. In the densely populated region around the Philippine capital, government work and school classes were suspended after nonstop rains flooded many areas overnight, trapping cars in rising floodwater and stranding people in their homes. Residents who ventured out of their homes waded into knee- and chest-high floodwaters with some using

improvised dinghies and paddling their way alongside cars, trucks and SUVs. In Marikina city in the eastern fringes of the Manila region, the continuing downpour swelled a major river, prompting many residents to flee to safety. The strong currents swept away a steel cargo container, refrigerators, pieces of home furniture and tree trunks, according to Associated Press journalists at the scene. Some residents called radio stations and asked to be rescued by authorities from rooftops or upper floors of their low-slung houses amid rising floodwaters. Mayor Jeannie Sandoval of Malabon, a flood-prone city in the northern section of the capital region, assured one alarmed mother that rescue boats and trucks have been scrambling all day to help trapped residents like her. "Stay calm. We're doing everything we can. The local government won't leave you behind," Sandoval told the DZRH radio network. Rear Admiral Armando Balilo said the Philippine coast guard, where he serves as a spokesperson, has been overwhelmed with pleas from floodwater-trapped residents in the capital to be rescued, including those who were waiting for help from rooftops.

# Sudan paramilitary leader to attend ceasefire talks

Geneva (AP): Sudan's paramilitary leader has announced plans to attend cease-fire talks in Switzerland next month arranged by the United States and Saudi Arabia. Gen. Mohammed Hamdan Dagalo, head of the Rapid Support Forces fighting Sudan's army, expressed hope on social media late Tuesday that the talks would become "a major step" toward peace and stability in Sudan and create a new state based on "justice, equality and federal rule." "We share with the international community the goal of achieving a full cease-fire across the country and facilitating humanitarian access to everyone in need," he said on X, formerly called Twitter. The talks are expected to begin August 14 at an as-yet unspecified location in

Switzerland. There was no immediate public indication whether Gen. Abdel-Fattah Burhan, the head of the Sudanese armed forces, or another top envoy from the military would also attend. The US State Department said the talks will aim to build on discussions between the two sides that broke down late last year in Jeddah, Saudi Arabia. It said the African Union, Sudan's neighbour Egypt, the United Arab Emirates — which has supported Dagalo's forces — and the United Nations would act as observers. "The talks in Switzerland aim to reach a nationwide cessation of violence, enabling humanitarian access to all those in need, and develop a robust monitoring and verification mechanism to ensure implemen-

tation of any agreement," US Secretary of State Antony Blinken said in a statement Tuesday announcing the talks. "These talks do not aim to address broader political issues," he added. Sudan plunged into conflict in mid-April 2023 when long-simmering tensions between its military and paramilitary leaders broke out in the capital, Khartoum, and spread to other regions including Darfur. The UN says over 14,000 people have been killed and 33,000 injured. Rights activists say the toll could be much higher. The war has also created the world's largest displacement crisis with over 11 million people forced to flee their homes, as well as allegations of rampant sexual violence and possible crimes against humanity.

# Chinese scientists find traces of water in lunar soil

Beijing (PTI): Chinese scientists studying the soil samples of the moon brought by Change-5 mission found water molecules in lunar soil, according to the Chinese Academy of Sciences (CAS). The research - carried out jointly by researchers from the Beijing National Laboratory for Condensed Matter Physics and the Institute of Physics of CAS and other domestic research institutions - was published in the peer-reviewed journal Nature Astronomy on July 16, the Hong Kong-based South China Morning Post reported. Based on lunar soil samples returned by Change-5 mission in 2020, Chinese scientists have found a hydrated miner-

al "enriched" with molecular water, CAS said on Tuesday. In 2009, India's Chandrayaan-1 spacecraft detected signs of hydrated minerals in the form of oxygen and hydrogen molecules in sunlit areas of the moon. Among its suite of instruments, it carried NASA's Moon Mineralogy Mapper (M3), an imaging spectrometer that helped confirm the discovery of water locked in minerals on the Moon. In 2020, Nasa announced the discovery of water on the sunlit surface of the moon based on data from the airborne Stratospheric Observatory for Infrared Astronomy, which detected water molecules in the

Clavius crater, one of the largest craters visible from Earth, in the moon's southern hemisphere. But the lack of returned lunar samples from high latitude and polar regions means that "neither the origin nor the actual chemical form of lunar hydrogen has been determined," according to the Nature article. The Chinese scientists studying the lunar soil isolated more than 1,000 mineral "clasts". The researchers said that among them was a plate-like transparent crystal, dubbed "unknown lunar mineral" (ULM-1), that contained water molecules, the Post reported. The researchers ruled out the possibility that the water-bearing mineral was contaminated

by terrestrial sources or rocket exhaust. But one geochemist said he expected the team to find more evidence in their further study. "If this water-bearing mineral is present in the lunar samples, more than one piece should be found," said the scientist who asked not to be named and was not associated with the study. The lack of returned lunar samples from high latitude and polar regions means that "neither the origin nor the actual chemical form of lunar hydrogen has been determined," according to the Nature article. The Change-5 China's first lunar sample-return mission sent back the first on-site evidence of water on the surface of the moon in 2020.

# Stock markets fall for 4th day on selling in banking shares, STT hike

PTI ■ MUMBAI

Benchmark BSE Sensex declined for the fourth day in a row on Wednesday due to selling in financial and banking shares and the government's move to hike securities transaction tax and short term capital gains tax. The 30-share BSE Sensex declined 280.16 points or 0.35 per cent to settle at 80,148.88 with 19 of its components closing lower and 11 with gains. During the day, it tumbled 678.53 points or 0.84 per cent to 79,750.51. The NSE Nifty dropped 65.55 points or 0.27 per cent to 24,413.50. From the Sensex pack, Bajaj Finserv declined by 2 per cent after its first-quarter earnings failed to cheer investors. Bajaj Finance, Hindustan Unilever, Kotak Mahindra Bank, Adani Ports, Axis Bank and State Bank of India were the other big laggards. However, Tech Mahindra, ITC, NTPC, Tata Motors and Sun Pharma were among the gainers.

Conglomerate ITC surged to 52-week highs before closing higher by 0.42 per cent in its second straight day of gains after the budget proposed no new tax on tobacco products. "The budget event has gone by leaving a mixed bias while reshuffling of capital gain tax is only a short-term negative surprise. The broad market seems to be losing momentum due to lack of further traction," Vinod Nair, Head of Research, Geojit Financial Services said. Key benchmark indices ended marginally lower in volatile trade on Tuesday as

# Abolition of Angel tax will boost startup ecosystem, says CBDT chairman

PTI ■ NEW DELHI

The abolition of Angel tax for all classes of investors will act to "prompt" innovators and venture capitalists to better invest in startups and any instances of money laundering here will be taken care of by the existing legal mechanism, CBDT Chairman Ravi Agrawal said on Wednesday. He said the removal of this tax will act to boost the startup ecosystem in India. He would urge the community to "please come forward, please invest as the country is waiting for your investment, initiatives and innovations", Agrawal told PTI in a post-Budget interview. Asked how would a possible case of money laundering through investor funds be tackled after the removal of the Angel tax, he said if such a violation is found or it is detected that the fund has come through "undisclosed" sources, there are provisions

in the respective statute and that will be taken care of. The head of the direct taxes administration of the country responded in the affirmative when asked if the taxman would make a reference to its sister agencies like the Enforcement Directorate (ED) if a violation of the anti-money laundering law is noticed. "This (money laundering) issue is one. The intention, always, was never to dissuade the startups. It was never to put any stop on the investments... We in coordination with the DPIIT (Department for Promotion of Industry and Internal Trade) had actually provided relaxations insofar as the investments are concerned..." Agrawal said. This (removal of Angel tax) step of the government would actually prompt the startups and also the angel investors to invest in these initiatives and that will help the country, he said.

# Rupee falls 1 paisa to revisit all-time low of 83.70 against US dollar

PTI ■ MUMBAI

The rupee depreciated 1 paisa to revisit its all-time closing low of 83.70 (provisional) against the US dollar on Wednesday, weighed down by a strong dollar against major crosses overseas amid investors' weak appetite for riskier assets. Forex traders said the increase in capital gains tax and removal of indexation benefits announced in the FY25 Budget on Tuesday was the main reason for dollar buying as foreign investors sold stocks. At the interbank foreign exchange market, the local unit opened at 83.69 and touched an intra-day high of 83.68 and a low of 83.72 against the dollar during the session. It finally settled at an all-time low level of 83.70 (provisional) against the American currency, registering a fall of 1 paisa from its previous close. On Tuesday, the rupee declined 3 paisa to 83.69 against the US dollar after the government raised tax rates on capital gains in the FY25

Budget.Forex traders said US dollar buying continued to be the theme after the increase in long-term capital gains tax (LTCG) and short-term capital gains tax (STCG) and then the removal of indexation benefits. The government on Tuesday proposed reducing the long-term capital gains tax on immovable properties to 12.5 per cent from 20 per cent but removed the indexation benefits to adjust for inflation, a move experts termed as "negative" for sellers. As per the memorandum to the Union Budget, with rationalisation of rate to 12.5 per cent, indexation available under section 48 of the Income Tax Act is proposed to be removed for calculation of any long-term capital gains, which is presently available for property, gold and other unlisted assets. Meanwhile, the dollar index, which gauges the greenback's strength against a basket of six currencies, was trading higher by 0.05 per cent at 104.50. Brent crude futures, the global oil benchmark, were trading higher by 0.79 per cent at USD 81.65 per barrel. In the domestic equity market, the 30-share BSE Sensex fell 280.16 points or 0.35 per cent to settle at 80,148.88 points, and Nifty dropped 65.55 points or 0.27 per cent to 24,413.50 points. Foreign Institutional Investors (FIIs) were net sellers in the capital markets on Tuesday as they offloaded shares worth Rs 2,975.31 crore, according to exchange data.

# Budget proposals lay ground for long-term reforms: NITI Aayog VC

PTI ■ NEW DELHI

NITI Aayog vice chairman Suman Bery on Wednesday said the review of the direct tax and the custom's duty rates as announced by the Finance Minister in her Budget speech will prepare the ground for long term reforms. Bery further said that the Budget for 2024-25 was a structural budget, which will help in improving labour productivity by building a relationship between the workforce and the private sector. "The Budget (2024-25) proposals provide a roadmap for review of direct taxes, customs duty rates meant to be done in the six months...Will prepare the ground for longer term reforms," he told PTI in an interview. The government on Tuesday announced that it will undertake a comprehensive review of the Income Tax Act to make it easy to read. Presenting the Union Budget for 2024-25, Finance Minister Nirmala Sitharaman has said

the government will come out with SoP (Standard Operating Procedure) for TDS defaults and simplify and rationalise the compounding of such offences. "I am now announcing a comprehensive review of the Income-tax Act, 1961. The purpose is to make the Act concise, lucid, easy to read and understand. This will reduce disputes and litigation, thereby providing tax certainty to the tax payers. It will also bring down the demand embroiled in litigation. It is proposed to be completed in six months," Sitharaman has said. She has also said that in Budget 2022-23, the government reduced the number of customs duty

rates. "I propose to undertake a comprehensive review of the rate structure over the next six months to rationalise and simplify it for ease of trade, removal of duty inversion and reduction of disputes," Sitharaman has added. Bery noted that fiscal consolidation is being maintained and improved in this year's budget which is important. According to him, the Budget proposals provide long term vision and it is the first step towards Vikshit Bharat. Responding to a question on economic growth, Bery said it is easiest for India to increase its growth rate by increasing labour productivity and increasing the number of people who work. "India has been doing well, but it can do better, should do better, and needs to do better," he said. According to Bery, a big push is given in this year's Budget for the MSMEs who survived COVID pandemic shocks, Bery said. Asked whether the Budget proposals will promote

private consumption and private investments, he said private consumption has been primarily affected in the rural areas. "So I think a lot depends on this year's monsoon," Bery opined. He pointed out that the whole point about adjusting the tax slab and raising the deduction on income tax is to provide a bit more money for consumption. "If the government's efforts in fiscal consolidation and inflation control succeed then the interest rate will come down, and if interest rates come down, then that will help in increasing consumption of consumer durables, many of which are financed on EMI," Bery explained. Pointing out that private investment depends pretty much on the business environment, he said that the finance minister has come out with proposals in the Budget document to improve the ease of doing business, which is of course affected by the state government's action as well as federal government action.

# Cut in customs duty, credit guarantee scheme for MSMEs to help boost exports: Experts

PTI ■ NEW DELHI

The Budget announcements such as cut in customs duties on range of goods, credit guarantee scheme for MSMEs and setting up of e-commerce hubs will help boost domestic manufacturing and exports, experts said. They said reducing customs duty on goods like spandex, leather and marine goods will help industry to be self-reliant. Apparel Export Promotion Council (AEPCC) Chairman Sudhir Sekhri said the garment industry hails expanding the list of trims and embellishment under IGCER (import of goods at concessional rates), which will help increase shipments of ready-made garments. "The enhancement of limit under credit guarantee scheme for MSMEs in the manufacturing sector, grant of one month wage to new entrants in all formal sectors up to Rs 15,000, EPFO contributions for new manufacturing employees for four years, and upgrading the industrial training institutes will help the garment industry scale up

and be future ready," Sekhri said. Council for Leather Exports (CLE) Chairman Rajendra Kumar Jalan said rationalisation of export duties and inclusion of more inputs, including wet blue chrome tanned leather, wet white leather, crust leather and finished leather under a duty-free scheme will help create more jobs and increase shipments. "On the export duty front, the export duty on wet blue and crust leather has been brought down from 40 per cent to 20 per cent. This will facilitate export of value-added processed leathers from the country, as there is a huge demand for these leathers in the global market," Jalan said.

He hoped that the government will remove this export duty for crust leathers so as to achieve the objective of enhancing the export of value added leathers by USD 1 billion in the next 2-3 years. Hi-Tech Gears Ltd Chairman Deep Kapuria said the Budget has not made any major changes in the existing import duty rates barring very few sectors. "This is a message to the large global companies who always prefer a low and predictable import tariff regime for their seamless operation of cross-border production network," Kapuria said, adding that elimination and cut in the import duty on 25 critical minerals, along with capital goods for manufacturing of solar cells and panels will give a big boost to not only renewable energy sector but many high-tech strategic sectors such as defense, electronics, space. Chemical & Petrochemical Manufacturers' Association President Kamal Nanavaty said the Critical Mineral Mission will facilitate domestic production, recycling of critical minerals, and overseas acquisition of critical mineral assets. "While thrust would be on developing domestic production capacity of critical minerals, but parallelly the Budget proposes to fully exempt customs duties on 25 critical minerals and reduce basic customs duty on two of them," Nanavaty said. Startup firm WOCE (World of Circular Economy) Director Anup Garg said the abolition of the angel tax for all classes of investors is a welcome move that will certainly spur investments in startups, especially those with a vision for environmental sustainability. "Most investors now wisely invest in forward-thinking companies, particularly those that consider the environment and human well-being," Garg said. Saroj Kumar Mahapatra, Executive Director, PRADAN, said the Budget marks a significant step forward in agricultural development. "By prioritising agricultural research focused on climate-resilient crop varieties, it aims to bolster future food security and mitigate inflation risks," Mahapatra said.

# Investors base of REITs likely to rise with changes in LTCG rules: Experts

PTI ■ NEW DELHI

The government's decision to reduce the holding period for determining long-term capital gains for REITs to 12 months would help in broadening the investor base of this financial instrument, according to industry experts. According to the Union Budget document, the government has reduced the holding period for determining long-term capital gains for business trusts -- Real Estate Investment Trusts (REITs) and Infrastructure Investment Trusts (InvITs) -- from 36 months to 12 months. "Thus units of listed business trust will now be at par with listed equity shares at 12 months instead of earlier 36 months," the document noted. A REIT is made up of a portfolio of commercial real estate assets, the majority of which are already leased out. Commenting on the move, Ramesh Nair, CEO of Mindspace REIT, said this would enhance liquidity, boost transaction volume, and increase investments, making REITs a more attractive asset class compared to other long-term investments. "It will appeal to investors seeking quicker returns and attracts short-term investors who may have previously been deterred. This is expected to attract a broader investor base eventually leading to more diversified

and robust investment portfolios, ultimately driving growth in the commercial real estate market," Nair said. Aravind Maiya, CEO of Embassy REIT, welcomed the move that the LTCG (long term capital gain) regime for REITs matches that of listed equities. "Embassy REIT's unitholder register has over 1 lakh holders, a 25x increase since our IPO. The reduction of the LTCG period from three years to one illustrates the commitment of our regulators to growing this critical asset class," Maiya said. Indian REITs Association, which has been formed by four listed REITs, hailed the decision to reduce the holding period for determining long-term capital gains for business units. "This change addresses a long-standing industry request and enhances liquidity in Indian REITs,

making them more effective investment instruments. Previously, investors were required to hold units of business trusts for 36 months to qualify for the long-term capital gains tax rate. "This extended holding period often acted as a barrier to investment flexibility and liquidity, particularly in the real estate sector," the association said. "By shortening the holding period to just 12 months, the Union Budget fosters a more agile investment environment," it added. The Indian REITs Association, a non-profit group formed under the guidance of the Securities and Exchange Board of India (Sebi) and the Ministry of Finance, has four founding members -- Brookfield India Real Estate Trust, Embassy Office Parks REIT, Mindspace Business Parks REIT, and Nexus Select Trust.

# Indo-Bangla trade resumes after two days of shutdown

PTI ■ KOLKATA

Trade between India and Bangladesh, which was stalled for the last two days due to the violence in the neighbouring country, resumed on Wednesday. Trade to all major land ports in West Bengal, including Petrapole, Gojadanga, Fulbari, and Mahadipur, resumed after Bangladeshi Customs resumed work and the restoration of the internet link, an export body official said. "Trade has resumed from the Petrapole border since this morning after the Benapole side reopened to receive cargo," Kamlesh Saini, manager of the Land Port Authority of India (Petrapole), told PTI. Petrapole, located in Bongaon in the North 24 Parganas district, serves as South Asia's largest land port and plays a crucial role in facilitating trade between India and Bangladesh. "Benapole border has resumed functioning. Altogether 220 trucks entered Bangladesh from Petrapole while 27 trucks reached Bangladesh today," said Sajedur Rahman, general secretary of the Benapole C&F Staff Association. "Trade has resumed after the

Bangladesh customs department began functioning and internet services were restored. Though the flow is slow due to congestion, it will get normalised over the next few days as there is a huge backlog," West Bengal Exporters' Coordination Committee Secretary Ujjal Saha said. Bilateral trade had stalled after Bangladeshi customs went on a two-day nationwide holiday due to student protests over the job quota issue and general unrest in the neighbouring country. On average, 400-450 trucks with goods cross the Petrapole land port from India, while 150-200 trucks come to India from Bangladesh every day, officials said. Till Monday, 800 trucks were stranded. Officials said it would take some more time for cargo flow to return to normal. They said priority was given to perishable cargo as the shutdown in Bangladesh has resulted in a spike in the price of essential commodities. Saini said passenger flow continues from the Bangladesh side, with a significant number being students.

# Budget employment-centric, pro-agriculture, says SJM

PTI ■ NEW DELHI

Swadeshi Jagaran Manch on Wednesday termed the Union Budget as employment-centric, pro-agriculture and pro-business, especially MSMEs, and urged the government to adopt more measures to promote entrepreneurship. Finance Minister Nirmala Sitharaman presented the Union Budget for fiscal 2024-25 in the Lok Sabha on Wednesday, outlining nine priorities of the government which included productivity, jobs, social justice, urban development, energy security, infrastructure, innovation and reforms. "The Swadeshi Jagaran Manch appreciates the budget proposals as they are employment-centric, pro-agriculture, pro-business, especially MSME (micro, small and medium enterprises)," the organisation's co-convenor Ashwani Mahajan said in a statement. However, Swadeshi Jagaran Manch (SJM) expects from the government that "more measures be adopted for the promotion of entrepreneurship in the country", he added. SJM is an affiliate of the Rashtriya Swayamsevak Sangh (RSS), the ruling Bharatiya Janata Party's (BJP) ideological fountainhead. Noting that the budget offers an "innovative comprehensive internship opportunity" in 500 top

companies to develop skill sets for educated youth and make them employable, SJM said if the scheme is implemented properly, this can prove to be a watershed moment for our younger generation. "This can help 1 crore youth to skill themselves for future job opportunities in the next five years," it added. Apart from this, SJM said, a good number of schemes have been announced in the budget to incentivise the creation of jobs in the private sector, including support to businesses for EPFO contribution and also providing first salary to first-time employed from the government's kitty. "The Swadeshi Jagaran Manch congratulates the central government, especially the finance minister, for innovative schemes announced in the budget for promoting job creation and also self-employment," Mahajan said. SJM also appreciated the

increase in the capital expenditure and "encouragement" given in the budget to increase private investment. Increasing the cap for Mudra loans from Rs 10 lakh to 20 lakh is also a step in the right direction, it said. "Introduction of a credit guarantee scheme for MSME, credit support to MSME during the stress period, e-commerce export hubs for MSME, development of investment-ready plug and play industrial parks, rental housing for industrial workers etc. Are some of the good measures adopted for development of MSMEs," the SJM said. Scheme for street vendors is yet another step towards inclusive growth, it added. The SJM said that the budget's push to infrastructure both by way of public capital expenditure and also private investment can go a long way towards much-desired infrastructure development. Encouragement in renewable, especially solar energy, is also an "appreciable programme", it added. The RSS affiliate said budgetary proposals made to encourage natural farming and provide support to the farmers in crop diversification can help improve the farmer's welfare. "Reforms and strengthening debt recovery tribunals, steps towards speeding up insolvency resolution are also welcome steps," it added.

# Neeraj's advice boosting high jumper Kushare's confidence in Paris

**PTI ■ NEW DELHI**

Just focus on training and don't get scared by the fame of the opponents' is the mantra Paris Games-bound high jumper Sarvesh Kushare learnt from none other than Olympic and world champion javelin thrower Neeraj Chopra. Kushare said Chopra's advice has boosted his confidence as at one point in time this year, he was not even sure of making the Paris Games cut. He made it to the Olympics through world ranking quota. The Paris Games automatic qualification mark was 2.33m. From doing practice on fodder-made makeshift mat to becoming the first Indian high jumper to qualify for the Olympics, Kushare has come a long way.

"I have not met Neeraj bhai for a long time, but when we met last time, he told me to focus on training and not be afraid of the fame of the opponents. He always keeps giving important tips," Kushare told PTI Bhasha in an interview from Poland where he is training along with other Paris-bound Indian athletes.

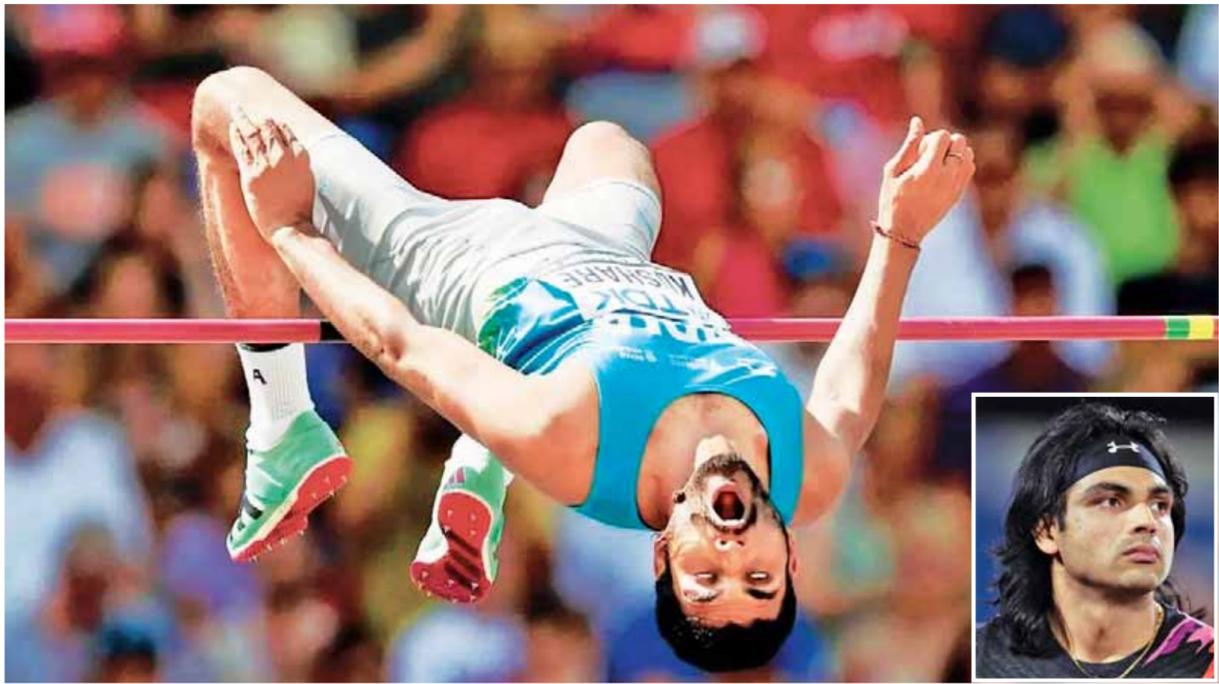

"He (Chopra) is my idol and he gave us confidence by winning the first ever Olympic medal in athletics. We also want to be like him and bring pride to the country," said the high jumper, who hails from

Deogaon village, a few kilometres from Nashik in Maharashtra. With a personal best of 2.27m and season's best of 2.25m, making it to the final round in the Paris Games can be a realistic target. The 29-year-old, who is making his Olympic debut, though, claimed that he has been jumping over 2.30m mark frequently during practice. "It is only my height that is small but I am also very strong from within. There is no fear of seeing my opponent's personality. It is important to be in top form at the right time and have faith in your preparation," Kushare, who stands at 5 feet 9 inches, said.

"Right now the focus is on the qualification round which will be held on August 7 at 10 am. The first goal is to make it to the finals. I will plan for the rest later."

Kushare, who is currently training at Spala, Poland, along with other Olympic-bound Indian athletes, started the sport on a makeshift mat made of waste from corn which was used as fodder for cows.

"There was no high jump mat in our village, so the corn fodder collected for the cow was used as a mat with a foam cover on it. It was used as a landing area and we used to do practice on it," he recollected.

"I started playing under the guidance of my school's PT teacher R W Jadhav sir. Then I went to the Army Sports Institute and also got support from Olympic Gold Quest (OGQ) which sent me to

America for training." He became a father nine months ago but he will be able to see his newborn daughter only after the Olympics. "I have a nine-month-old daughter but I have not met

her since November. Initially, I stayed with her for just five days and now I will meet her only after the Olympics," he said. It will, however, be a tough task for Kushare to be in the

medal bracket in Paris. At least nine athletes have jumped 2.33m or above in the last one year. Qatar's Mutaz Barshim and Gianmarco Tamperi of Italy shared the gold medal in

Tokyo with an identical jump of 2.37m. Tamperi is the leading the chart this season with 2.37m while Barshim has been struggling a bit with a season best of 2.31m. At one point in time, Kushare,

who won gold with a jump of 2.25m in the National Inter-State Championship in Panchkula in June, was uncertain whether he would qualify for the Paris Olympics or not. "Before June, my ranking had gone down to 36 because I could not play in May when competitions were going on all over the world. I was afraid whether I would be able to play in the Olympics or not. I was under a lot of pressure but then I qualified by performing consistently well in Malaysia, Kazakhstan and Panchkula," he said.

"I had a lot of problems due to an ankle injury but now my confidence has increased by practising well consistently. Talking about his daily training routine at Spala, he said, "Practice includes gym, speed work, strength training. The recovery sessions here are very good. We just rest in our free time because it is very important to give rest to the body." He said when asked about his routine.

"I talk to a sports psychologist regularly for mental preparation. He tells me how to deal with pressure and how to keep myself mentally fresh. I do yoga and meditation every morning."

The Indian athletics team has been training at Spala from July 8 and will leave for Paris on July 29.

## Women's boxing fights its way to parity with men's game

### Just 12 years after its Olympic debut

**AP ■ COLORADO (USA)**

Charley Davison's husband and their three young children were already in bed back home on the east coast of England before she pulled on her headgear and stepped into the World Boxing ring in southern Colorado earlier this year. The 30-year-old Davison was able to pursue her Olympic dreams half a world away from her family only because of the spectacular growth of women's boxing. In just over a decade, the sport has proliferated from its Olympic debut with only 36 fighters in three weight classes in London to become an equal part of the tournament in Paris, where half of the 248-fighter field will be women competing in a record six weight classes. The addition of a 54-kilogram bantamweight division at the Paris Olympics changed the game for fighters like Davison.

"After the Tokyo Olympics, if there wasn't going to be a 54 (division), I would have hung my gloves up," said Davison, a former youth champion who left boxing for seven years before returning to get in shape after having kids.

"Because 51 (kilos) was getting too hard, and 57, I'm not quite big enough for that one, I feel," she added. "So 54 was a blessing. As soon as I heard that weight, I knew it was for me. Every kilo makes a difference. I know I'm not the only one who's grateful. I think it's ideal for a lot of women to have this many weight classes. It makes such a difference for the sport."

Davison fought for Britain in Tokyo, but lost early. Three years later, she has the opportunity to try again only because of the IOC's commitment to the sport's growth. Boxing essentially has reached gender parity along with the rest of the Olympic

program, and dozens more women are getting a shot. "Since I've started, especially on the international level, the level (of women's boxing) has raised incredibly," said Canada's Tammara Thibault, the middleweight world champion and an Olympic quarterfinalist in Tokyo headed to her second Games. "That makes us all better, because we elevate each other. That's how a sport grows, and we're really growing right now." Women's boxing entranced athletes like Australia's Tiana Echegaray, who had never boxed just five years ago. She was 25 and working at a boring office job in the music business in Sydney when she threw herself into training - and now she's an Olympian.

"I think maybe the creative side of me saw boxing as an art," said Echegaray, who studied music. "It's really pretty, you know? When you see really skilled boxers compete, it's the prettiest thing I've ever seen. It's so cool to watch. It's not just the sport itself, but the community around the sport," she added. "It's the people. Boxing teaches you so much about life. I'm so grateful that I found it now. I think I would have loved to have found it younger, but I don't think I would have had the emotional maturity to get

punched in the face and be all right with it." Britain's Chantelle Reid was a teenage pugilism prodigy who returned this year after a lengthy break. She was bowled over by the sport's growth in her absence. "The level in women's boxing has increased massively in the six years" since her return, Reid said. "There's so much talent out there now. It just makes me push a little bit harder to be on top. It's exciting. ... Sport science has come into the sport a lot, and everyone is just much more strong. They've all got that grit, whereas before it was more point-fighting boxing. No one really had that grit, but I'm seeing that a lot now."

Reid is among the many fighters in the Paris field who got hooked when they watched the inaugural women's boxing competition in London as girls. "(Gold medalist) Nicola Adams and Katie Taylor, they've set a high standard now," Reid said. "They've set an amazing example for women's boxing. We're just trying to reach that level now, and hopefully the next generation is that much better."

Indeed, women's boxing has changed dramatically in the 12 years since its Olympic debut in London - and not just on the amateur level.

## It's a now-or-never situation for me: Tarundeep

**PTI ■ PARIS**

It's a "now-or-never situation for me," says veteran Indian archer Tarundeep Rai as he seeks to win a maiden Olympic medal in his fourth appearance at the Games while also serving as the team's unofficial mentor in Paris. The 40-year-old Rai has won medals in every championships at the global and continental level but not the Olympics. He has two silver at the World Championships (2005, 2019), nine World Cup medals, including three gold, a silver and a bronze in Asian Games, two silver and a bronze in Asian Championships. "It's emotional every day. It's the fourth time. It's a now-or-

never situation for me, and that's what I tell my teammates too. Maybe someone playing his first or second Olympics should think like it's now or never. You have to put in an effort as if it's going to be your last," Rai told PTI in an interview. The veteran archer from Sikkim was part of the Indian teams at the 2004

Athens, 2012 London and 2021 Tokyo Olympics. He exited in the first round in the individual event in Athens, and in the second round in both 2012 and 2021 editions. In Tokyo, the men's team, which had Tarundeep Rai in it its ranks, reached the quarterfinals. "Olympics is a dream for

everyone, and I'm no different. You need an extreme level of preparation for this, and you have to put in a lot of hard work to qualify and win a medal. The colour of your sweat sometimes turns red," Rai said ahead of the Paris Games. "This Olympics, I'm playing with a three-year gap. Positive sign. Many changes. Tokyo, whatever I lacked, the objective is to rectify. Will do my best," said Rai who hails from Namchi in Sikkim. More or less regular at the Olympics since debuting back in 1988, the Indian archers will be aiming to fetch their maiden medal as they began the country's campaign here on Thursday with the

qualification rounds. "There are always expectations. We had the potential to win, but for small margins, we have returned empty-handed," Rai rued. "We have kept that in control (this time). Coaches, management, players' mentality, we have kept that in check. Everyone is in their best form." For the first time since London 2012, India will have a full six-member squad after both the men's and women's teams qualified on the basis of rankings. This means they will compete in all the five events. Rai failed to make it to the Hangzhou Asian Games last year and said it was a wake-up call for him.

## Noah looks to be star of Olympics, and bring all of track along for ride

**AP ■ PARIS**

Winner. Entertainer. History maker. By the time the Paris Olympics are over, Noah Lyles hopes to be all of that and maybe more. The confident 26-year-old sprinter thinks he can win medals, break records and bring the entire sport of track and field onto America's screens for more than 10 days every four years. These are audacious goals. Winning the 100 and 200 meters and maybe a relay or two would put him in a category with Usain Bolt, Carl Lewis and Michael Johnson, to name a few. Making track popular again - that's a whole different, and more complex, mission, and one Lyles has not shown any fear of tackling. "I want to see everybody be able to see the stories we create, the moments that are shared, and the big events that we have," Lyles said. "And, we need personalities to be able to show that. Because just going out there and winning doesn't mean everybody's watching."

**BEHIND-THE-SCENES DOCUMENTARIES TO DRAW NEW FANS:** Lyles has a two-pronged strategy. The first part is dominating the sprints.

That second part is becoming a must-see personality who transcends both track and sports, the way Bolt did. Lyles has spent the last year or more laying the groundwork for that second part. He has opened up his life for two behind-the-scenes documentaries. The first, "Untitled: The Noah Lyles Project," came out last year. The second, a Netflix production called "SPRINT" that debuted this summer, features Lyles as a main character among some Olympians including Sha'Carri Richardson and the stable of Jamaica's fastest women sprinters. When he's not on TV, Lyles has curated a look outside - or make that coming into - the track.

He is making his "walk-in" to meet an event, arriving in everything from a green sweater with church-window-shaped cut-outs to black leather pants to the tailored navy suit with the signature Adidas stripes down the side of the slacks he wore to the US Olympic trials. There, he was greeted by Snoop Dogg, who carried a briefcase they opened for a big reveal of Lyles' track kit for the 100-meter final. "It's to keep hype," Lyles explained. "If you're generating excitement and hype, it's like, 'What's in the briefcase?' You want to know what's in the briefcase."

**LYLES TOOK A NOTABLE DIG AT THE NBA:** Getting others to follow his lead in a sport filled with solo artists is only part of the mountain Lyles is trying to climb. Another part might have been best illustrated last year when, while articulating his vision for track after completing the 100-200 double at world championships, he made an off-hand comparison between track and the NBA. "The thing that hurts me the most is I have to watch the NBA finals and they have World Champion on their head," Lyles said. "World champion of what? The United States?"

Both the matches went into deciders. **RESULTS: Men:** India lost to England 1-2 (Shaurya Bawa bt Yusuf Sheikh 3-11, 11-6, 11-8, 11-7; Yuvraj Wadhvani lost to Bailey Malik 11-5, 9-11, 8-11, 14-16; Ayaan Vazilalli lost to Dylan Roberts 11-6, 9-11, 9-11, 7-11). **Women:** India beat New Zealand 2-1 (Shameena Riaz lost to Ella Lash 7-11, 12-10, 13-11, 4-11, 4-11; Nirupama Dubey bt Anabel Gemmill 9-11, 11-6, 11-4, 8-11, 11-9; Unnati Tripathi bt Ella Hill 11-4, 11-3, 11-6).

## Indian men finish 6th, women 7th in World Junior Squash Championships

**PTI ■ NEW DELHI**

India finished sixth and seventh in the men's and women's sections respectively in the World Junior Squash Championships held in Houston, USA. The Indian men lost to England 1-2 in the match for fifth position while their women counterparts beat New Zealand 2-1 in the clash for the seventh on Tuesday. Both the matches went into deciders.

## Salt Lake City celebrates announcement that it will host 2034 Winter Olympics

**AP ■ SALT LAKE CITY**

Salt Lake City was formally awarded the 2034 Winter Olympics following a Wednesday vote by the International Olympic Committee in Paris, which gives Utah its second Games after hosting in 2002. A watch party was planned at 3 a.m. Local time - 11 a.m. in Paris - to celebrate the announcement. Large crowds were expected at the event that coincides with a state holiday marking the date Mormon pioneers discovered the Salt Lake Valley in northern Utah. Olympic fanatics were already starting to gather downtown and pitch tents before sunset Tuesday.

Salt Lake City was the lone contender the Olympic committee was considering for 2034. Climate change and high operational costs have reduced the number of cities willing and able to welcome the Winter Games. Utah has capitalized on low interest elsewhere, pitching itself to Olympic officials as an enthusiastic repeat host if the committee goes forward with a proposed permanent rotation of Winter Olympic cities. Olympic Games Executive Director Christophe Dubi had said Salt Lake City would be a prime candidate for such a plan. Local leaders had their sights set on hosting multiple times even before Salt Lake City

welcomed its first Games, bid team spokesperson Tom Kelly said. Remnants of the 2002 Games are nestled throughout the city and have kept the Olympic fever alive for more than two decades. Organizers of the 2034 Games touted that enduring enthusiasm throughout the selection process and showed visiting Olympic officials how they have preserved the venues used in 2002. In their final presentation to the Olympic committee Wednesday morning, the bid team was expected to outline its plan for one of the most compact layouts in Olympic history, with all venues within a one-hour drive of the athletes village on the

University of Utah campus. The plan requires no new permanent construction, with all 13 venues already in place and each having played a role when the city first hosted. For Utah Gov. Spencer Cox, securing the bid was central to his goal of cementing the state as North America's winter sports capital. He and other local leaders were in Paris for the bid presentation, while many winter Olympians stayed in town to train and join in the festivities. American freestyle skier Christopher Lillis, a gold medalist at the 2022 Winter Olympics in Beijing, said the 2034 games would be a dream come true for young people with Olympic aspirations. Salt

Lake City has gotten a lot since 2010, when Lillis said his family started visiting, and it's become more expensive. Lillis has been training at nearby Utah Olympic Park and said the sports facilities in the area are "top notch." Matthew Lindon, a 45-year resident of the ski resort community of Park City, Utah, where many events would be held, said the city has expanded considerably since he arrived. "With the 2002 Olympics, the motto was, 'The world is welcome here.' And really what happened was we brought Utah to the world, and now we're a world-class destination skiing resort," he said.

Govt. of Haryana
