IT FIRM COUNTERS EVASION NOTICE

₹32,400-cr GST shocker for Infy

PRIYANSH VERMA
New Delhi, July 31

THE DIRECTORATE GENERAL of GST Intelligence (DGGI) has slapped a tax notice of a staggering ₹32,403 crore on information technology giant Infosys, in what is seen as one of the heftiest GST demands received by any firm.

The tax liability is computed towards non-payment of integrated GST (IGST) on import of services by the company from its overseas branches for the period between July, 2017 and 2021-22. In the notice, the GST probe wing has invoked reverse charge mechanism, where the recipient of goods/services assumes the responsibility for tax payment, instead of the seller. "To implement the on-site project related work, the company has set up branch offices outside India for the purpose of carrying out business. In view of Explanation 1 of Section 8 of the IGST Act, branch offices shall be treated as (establishments) in such foreign countries. Hence, the company and overseas branches would be treated as distinct persons," according to a document, seen by *FE*.

In stock exchange filings late Wednesday, Infosys confirmed receipt of pre-show cause notices from the Karnataka GST authorities and, later, from the DG-GST Intelligence. The tax demand, it said, is toward the expenses incurred by its overseas branch offices.

"The company believes that as per regulations, GST is not applicable on these expenses. Additionally, as per a recent circular (circular number 210/4/2024 dated June 26, 2024) issued by the Central Board of Indirect Taxes and Customs on the recommendations of the GST Council, services provided by the overseas branches to Indian entity are not subject to GST," it added. The company claimed that "GST payments are eligible for credit or refund against export of IT services, and added "Infosys has paid all its GST dues and is fully in compliance with the central and state regulations on this matter."

Toyota enters Maharashtra with ₹20,000-crore EV plant

GEETA NAIR
Pune, July 31

TOYOTA KIRLOSKAR MOTOR (TKM) has signed an agreement with the Maharashtra government to manufacture electric and hybrid cars in the state at an investment of ₹20,000 crore.

This is the largest investment by an automotive company in the state. Hyundai Motor India had signed an MoU with the state government in January this year at an investment of ₹6,000 crore at the erstwhile General Motors plant in Talegaon. Mercedes-Benz had in June indicated plans to invest ₹3,000 crore for its expansion plans in the state. E2W maker Ather Energy is investing ₹2,000 crore to set up its third manufacturing plant in the state to manufacture electric two-wheelers and battery packs.

Toyota has two car manufacturing plants in India, both in Karnataka, having a combine installed capacity of 342,000 units annually. The proposed investment in Maharashtra will be higher than the year-to-date investment done by Toyota in India which is ₹16,000 crore since its debut 25 years ago.

DEVENDRA FADNAVIS, DEPUTY CM, MAHARASHTRA

COMPETITION WAS TOUGH AS THE COMPANY HAD OFFERS FROM SEVERAL STATES. NEGOTIATIONS WENT ON FOR SIX MONTHS. WE MADE THEM AN OFFER THEY COULD NOT REFUSE

Maharashtra deputy chief minister Devendra Fadnavis said on Wednesday that the automaker will invest ₹20,000 crore and set up a plant in Chhatrapati Sambhajinagar in Marathwada. "This investment will create 8,000 direct and 12,000 indirect jobs and a very big vendor system will also be set up here," he said.

It would also build a vibrant vendor ecosystem in the region and boost the economy of the Marathwada region, he said. This will be an ultra mega project spread over 850 acres at the Aurangabad Industrial City, which is a greenfield smart industrial city and is part of the Delhi-Mumbai Industrial Corridor (DMIC).

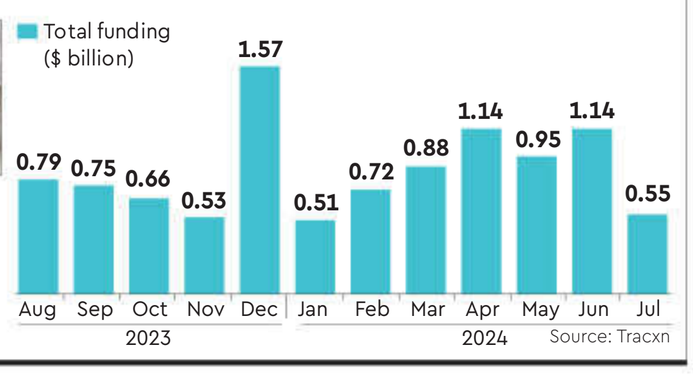

"The competition was tough as the company had several offers from other states. Negotiations were going on for six months. Maharashtra made them an offer which they could not refuse," he said.

Q1 growth may take a hit as public capex plunges

PRASANTA SAHU & PRIYANSH VERMA
New Delhi, July 31

THE CAPITAL EXPENDITURE by the Centre and central public sector enterprises (CPSEs) declined by 35% and 39%, respectively, in the first quarter of the current financial year on an annual basis, indicating challenges ahead to meet their respective targets for FY25. The decline, primarily caused by the general elections, has raised the possibility of the economic growth in Q1 coming in significantly below the Reserve Bank of India's estimate of 7.3%.

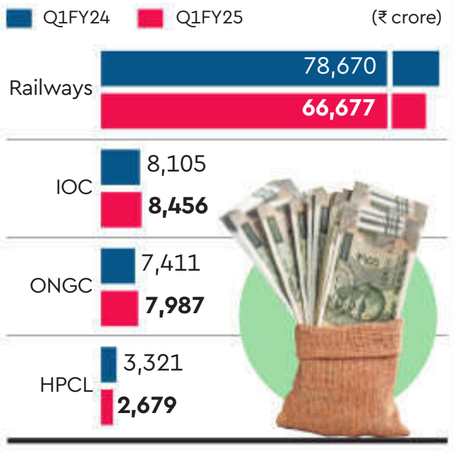

Given that the Centre's policy of public capex-led economic growth revival in recent years, the pace of capex would, however, pick up from the second quarter of FY25 as the general elections, new government formation and full Budget presentation have been completed, analysts said.

In the first quarter of FY25, the Centre's capex declined to ₹1.81 trillion compared with ₹2.78 trillion in the year-ago period.

In the month of June, the Centre's capex fell by a massive 66% on year to ₹37,426 crore compared with ₹1.1 trillion in June 2023. The Centre's capex target is ₹11.11 trillion for FY25 compared with ₹9.49 trillion invested in FY24, up 17% on year.

Q-COMM VERTICAL CONTRIBUTES 50% OF BIGBASKET REVENUE

BBNow starts delivering the goods

S SHANTHI
Bengaluru, July 31

BIGBASKET WAS A latecomer in quick commerce as it entered the race as late as April 2022. But the Tata-backed e-retailer's q-commerce vertical BBNow hasn't taken much time in coming up to speed with other segment players, some of whom launched their services in the first six months of 2021.

Sample this: Till sometime back, BBNow's contribution to the total revenue of BigBasket was just about 30%. That has already gone up to 50%. And, Vipul Parekh, co-founder and chief marketing officer, BigBasket, says he expects it to go up to 65% in a year's time.

Parekh told *FE* he expects BBNow to turn profitable by March 2025, which in turn would see the entire business portfolio of BigBasket turning profitable. The company maintains that all its verticals are profitable barring BBNow.

Currently, the company's slotted delivery business is profitable, while BBNow is contributional margin positive. "BBNow is contributional margin positive. This means, it covers all operating costs but does not cover marketing costs and corporate expenses. We expect it will cover all of that also by March 2025," Parekh said. While he did not share overall numbers, BigBasket's B2C business saw its losses widen to ₹1,535 crore in FY23 from ₹812 crore in the year before that.

At present, BBNow has 400 dark stores in 35 cities. It plans to add 100 more such stores this year. Plans are also to expand to 5-10 cities next year — within the cities where BigBasket is already offering slotted deliveries. "Both slotted business and quick commerce business are growing. But q-commerce is growing faster, as consumers are ready to pay a small price for the convenience that they get, just like in the food delivery space," Parekh added.

He also said that BBNow has an edge over other players in the segment. "We are present in close to 300 cities for slotted delivery. Having this network, we can launch quick commerce whenever we want or continue with slotted delivery, which is also growing. We have a pan-national supply chain network," he said.

Talking about expansion beyond Tier 1, Parekh said, "In the top 30 Tier 2 markets, there is a market for quick commerce. They are adapting to quick commerce very quickly. BBNow will become more important than slotted deliveries. But, beyond that, in Tier 2 and 3 price comes into play. Quick commerce may not work that well there."

EXPANSION EASES IN FIVE OF EIGHT KEY INFRA INDUSTRIES

Core sector growth slows to 20-month low of 4% in June

Impacted by decline in crude oil output and refinery products

PRIYANSH VERMA
New Delhi, July 31

THE EXPANSION IN production of key infrastructure sectors fell to a 20-month low of 4% in June, mainly due to a slowdown in the growth of five of the eight industries during the month, according to data released by the commerce ministry. The core sector output had grown 6.4% in May and 8.4% in June 2023.

On a sequential basis, too, the core sector production declined by 3.2%. Typically, June witnesses a contraction in output compared to May, but the decline in 2024 (between the two months) is much higher compared to a 1.7% fall seen on average in the past 13 years.

In June, the five sectors that showed a decline in growth as against May were: Crude oil, natural gas, refinery products, steel and electricity. In fact, the production of crude oil and natural gas contracted by 2.6% and 1.5%, respectively, during June.

"With the onset of the monsoon, electricity growth reverted back to single digits after two months, while remaining healthy at 7.7%," said Aditi Nayar, chief economist, Icra.

Coal's output growth, however, rose to 14.8% in June from 10.2% in May. The output growth of fertiliser was up 2.4% in June from (-)1.7% in the previous month, and that of cement was up 1.9% against (-)0.6% in May.

The growth in coal production was at a 8-month high in June, and this was because electricity generation through coal was up by 9.4% y-o-y during the month. Coal India is projected to produce around 838 million tonne of coal in FY25, against 774 million tonne it produced in the last financial year, which may push the coal output growth higher in the coming months, said ICICI Bank in a report.

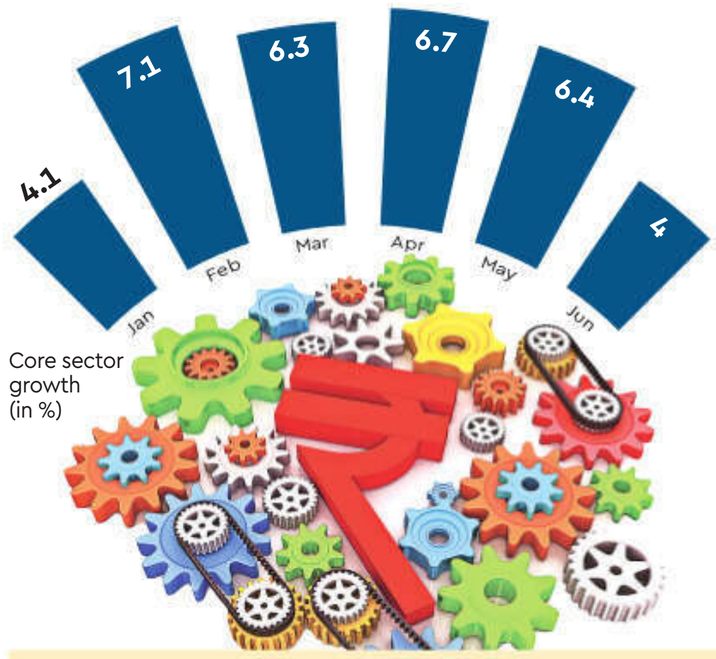

Madan Sabnavis, chief economist, Bank of Baroda, said, The low steel growth of 2.7% and cement of 1.9% was mainly due to the high base of 21.3% and 9.9%, respectively, as well as a muted government spending on capex due to the elections. "This will reverse and pick up in the coming months," he said.

Also, the tepid growth in fertiliser output, a result of existing inventories used for the kharif crop, is expected to pick up from July when sowing peaks, say analysts.

A lacklustre core sector print for June may keep the IIP growth for the month between 4-5%, say economists. In May, IIP had growth 5.9%.

In April-June FY25, the core sector growth averaged 5.7%, 30 basis points lower than the corresponding period of last year.

Fiscal deficit at modest 8.1% of annual target

Dip in capex, buoyancy in revenues in Q1FY25

FE BUREAU
New Delhi, July 31

THE CENTRE'S FISCAL deficit shrunk to 8.1% of the annual target in the first quarter of the current financial year compared with 25.3% in the year-ago period, due to a sharp compression in capital expenditure and buoyant revenue receipts.

Due to a slowdown in government programmes on account of general elections, the Centre's capex halved by two-thirds to ₹37,426 crore in Q1FY25.

While revenue expenditure fell a third on-year to ₹2.33 trillion during the month. In April-June of FY25, the Centre's capex declined by 35% annually to ₹1.81 trillion.

During Q1FY25, revenue expenditure rose by a modest 2% on year to ₹7.89 trillion.

The Centre's net tax revenues rose by a robust 26.8% on the year, while non-tax revenues surged by 80.7% aided by the large dividend from the Reserve Bank of India.

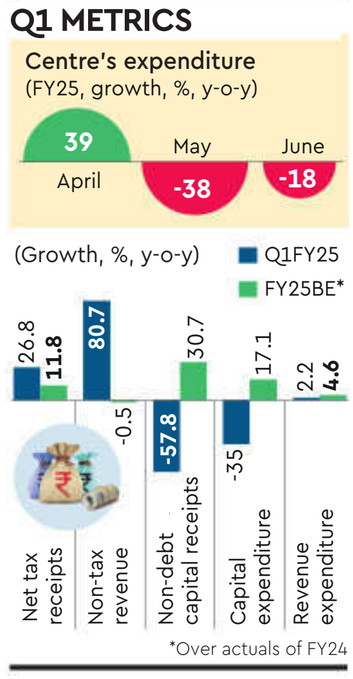

The Centre's total expenditure in June declined by 18% on year to ₹3.46 trillion compared with ₹4.25 trillion in the year ago month.

The dividend of ₹2.11 trillion from the RBI, against the Budget estimate of ₹80,000-90,000 crore, has given an extra fiscal space of 0.4% of GDP to the Centre to calibrate fiscal deficit reduction and provide for additional spending.

"With the elections now over, the government's capital expenditure is expected to pick up. We expect the government to meet its revised fiscal deficit target of 4.9% of GDP in FY25, led by prudent expenditure management and supported by robust tax collections," said Bank of Baroda chief economist Madan Sabnavis.

The Centre further pared the fiscal deficit target to 4.9% of GDP for FY25 in the full budget presented on July 23 from 5.1% projected in the interim Budget on February 1 as it used extra dividends from the RBI to trim borrowings as well as provide additional funds for development and welfare schemes.

Q1 METRICS

Gross tax revenue rises 24% in Q1

PRIYANSH VERMA
New Delhi, July 31

THE CENTRE'S GROSS tax revenue (GTR) stood at ₹8.31 trillion in the first quarter of FY25, which is 23.7% higher from the corresponding period of last year, data released by the Controller General of Accounts showed on Wednesday.

The growth in actual mop-up in Q1FY25 is way higher than 10.8% growth projected for GTR for the full financial year. This is primarily a the result of a sharp rise in direct tax collections.

Corporate tax collections during April-June stood at ₹1.75 trillion, which is 25.9% higher than in the year-ago quarter; and personal income tax collections stood at ₹2.87 trillion, about 50% more than the growth recorded in Q1FY24.

Experts say access to large amounts of data with the authorities coupled with interplay of exchange of information with various regulators and other bodies is one of the key factors where corporates and non-corporates behind the sharp rise in collections.

"Ease of compliances, including payment of taxes at a click of a button, and processing of refund payments quickly by the tax department post income-tax return filing have helped direct tax collections surge in this growing economy," said Dipesh Jain, partner, Economic Laws Practice.

On the indirect tax front, collections were robust in case of GST; but both customs and excise duty mop-up growth contracted in Q1FY25 as against Q1FY24.

Central GST collections were up 10.7% on year at Rs 2.28 trillion during April-June. Customs duty collections, however, were down 4.1% at Rs 47,065 crore. Excise duty mop-up too was down 1.9% at Rs 51,357 crore.

The Budget, presented on July 23, has pegged CGST collections to grow 11% on year in FY25. Customs and excise collections are also projected to grow 2% and 4.5%, respectively.

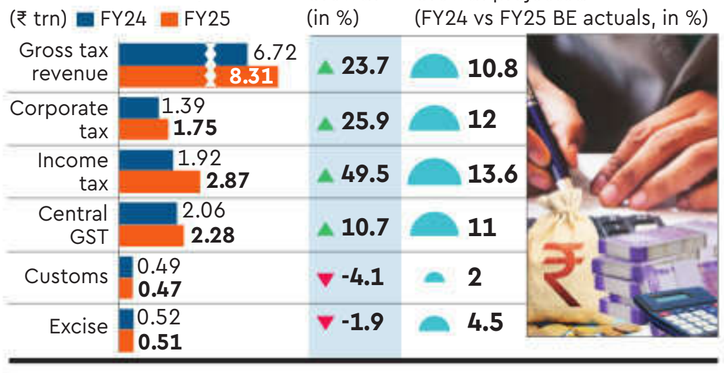

While the Budget has projected overall growth of customs and excise collections over last year, the decline in the mop-up is primarily due to an economic slowdown and sector-specific challenges, say experts.

"The impact of economic measures and recovery plans often takes time to manifest fully. The lag between policy implementation and actual economic activity can result in quarterly discrepancies," said Sandeep Sehgal, partner-tax, AKM Global.

Meanwhile, the net tax revenue of the Centre (excluding transfer to states) stood at Rs 5.5 trillion, up 26.8% on year, during Q1FY25; and non-tax revenue growth during the first quarter stood at Rs 2.8 trillion, up 80.7% on year, which pushed total revenue receipts growth (26.8%) almost double of the Budget projection. The jump in non-tax revenue mop-up was due to massive surplus transfer of Rs 2.11 trillion from the Reserve Bank of India to the Central exchequer, in May.

Revenue receipt growth, however, is likely to slow down going forward due to fall in non-tax revenue growth. "However, the fiscal arithmetic being conservative, FY25 revenue targets are likely to be achieved," said India-Ratings and Research in a note.

MOP-UP FAR EXCEEDS BUDGETED PACE

Goyal's 'small gains' comment

Don't be in a hurry on FTA giveaways, urge industries

MUKESH JAGOTA
New Delhi, July 31

COMMERCE AND INDUSTRY minister Piyush Goyal's remark that Indian businesses are prioritising "small gains" over national interest, comes in the wake of insistence on import protection by sections of the industry. Such demands have often hindered the progress of India's talks with several trading partners for bilateral FTAs, aimed at progressive tariff reduction/elimination. FTAs are being resorted to for the country's faster integration with the global value chains.

Goyal's comments follow a series of such reprimands by him and other government functionaries of Corporate India for not being fast enough to restart the investment cycle. The firms' extreme wariness was despite many investor-friendly policies laid out by the government, including elevated public capex, PLI and a corporate tax cut.

Industry sources, however, cite the fact that India's existing FTAs have not yielded the desired results, and blame it on the hasty manner wherein these were signed without adequate consultations with the industry or safeguarding of domestic interest. They also stress that protectionist tendencies are being shown by many countries in recent years, and a more nuanced policy would help national objectives like promotion of "Make in India".

The government, trade experts note, is also cognizant of this fact, as is evident from the re-negotiations of the trade agreements signed with the Asean, Japan and Korea. In the new FTAs that are being negotiated, extensive consultations are happening with the industry so that these would be balanced ones, they say.

"One reason that the FTAs have not yielded expected results is the imbalance in what India has to concede and what it gets in return. The developed countries where India is negotiating already have lower tariffs and bringing them down to zero will not bring additional gains as they will be wiped off by FTA-related compliance costs," Ajay Srivastava, co-founder of Global Trade Research Initiative, said.

An industry source, however, agreed with Goyal that an elbow has to be allowed to the government to conclude the FTAs. "If industry needs lower tariffs in their export markets they will also have to concede lower tariffs for imports."

He also said a "fear of the unknown", the lure of protection provided by higher import duties and a feeling that domestic products could become uncompetitive in the face of competition could be the reason of the reluctance of the industry.

India's merchandise trade deficit with these partners increased significantly more than its global trade deficit and exports to these FTA partners have increased at a lower rate than its imports.

The Asean India Trade in Goods Agreement (AIGTA) entered into force on January 1, 2010, which created one of the world's largest free trade areas. Since then, the trade deficit with Asean widened from $4.98 billion in 2010-11, the first full year of operation of AITGA to $ 39.4 billion in 2022-23. This outpaces the rate of growth of India's overall exports in the period.

TRADE WINDS

- Industry cites the fact that India's existing FTAs have not yielded the desired results
- India Inc says FTAs signed without adequate industry consultation or safeguarding of domestic interest
- They also stress that protectionist tendencies are being shown by many countries in recent years
- India's trade deficit with these partners increased significantly more than its global trade deficit
- Exports to the FTA partners have increased at a lower rate than its imports

Russia oil imports fall 6.5% on month in July

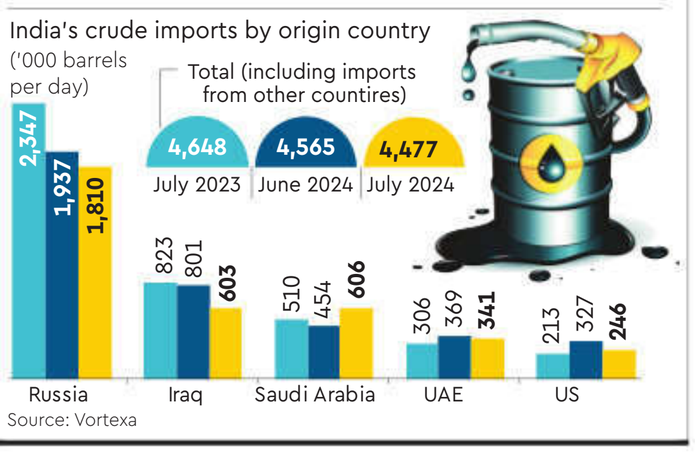

INDIA'S CRUDE OIL imports from Russia fell 6.5% in July to 1.81 million barrels per day from 1.94 million in June as Russian refineries ramped up runs to meet the country's own summer demand, data from Vortexa showed. "Russia remained as the top crude supplier in July, although import volumes were down month-on-month. Higher supplies from Saudi Arabia and Mexico partially offset declines from Russia, Iraq and Nigeria, leading to a marginal decline in total imports," said Serena Huang, head of APAC Analysis at Vortexa.

Saudi Arabia and Iraq remained the other top suppliers. While exports from Saudi Arabia rose 33.4% to 606,000 barrels per day on month, Iraq's supplies registered a fall of 32.8% at 603,000 barrels per day compared to June.

The country imported a cumulative of 4.48 million barrels per day of crude oil in July, marginally down from 4.56 million barrels per day in June, as per the data. Russia's share in India's total imports in the period fell to 40% from 42% in June. Iraq contributed to 13.5% of total crude oil imports against 17.5% the previous month, while Saudi Arabia accounted for 13.5% of imports, up from 9.9% in June.

Budget initiatives to boost growth, employment: FM

FE BUREAU
New Delhi, July 31

THE UNION BUDGET for 2024-25 has introduced various initiatives to revive the country's economy, including reducing the customs duty, developing industrial parks and allocating more resources for capital expenditure, finance minister Nirmala Sitharaman said in the Rajya Sabha on Wednesday.

Replying to the discussion on the Budget, the minister refuted an allegation by the opposition parties that the central government has not been fair to the states in tax devolutions and in giving consent to them to borrow from the market.

"I would like to underline our unflinching commitment to cooperative federalism. The total resources proposed to be transferred to the states in 2024-25 is estimated at ₹22.91 trillion, an increase of ₹2.49 trillion over the previous financial year 2023-24," Sitharaman said.

The finance minister said that cess and surcharges have traditionally been out of the divisible pool of central taxes.

She also said the Centre follows the recommendation of the 15 Finance Commission for issuing borrowing consent to states, financial year-wise uniformly to all states.

Net borrowing ceilings of 3% of GSDP have been fixed for the financial year.

"Borrowing consent issued to all states by adopting uniform parameters as per the guidelines. All of them (states) are treated the same," Sitharaman said.

Additionally, each state is permitted to borrow 0.5% of GSDP subject to meeting power sector reforms conditionalities, she added.

Speaking on the Budget, she said the capital expenditure in the last 10 years of the Narendra Modi government stood at ₹43.82 trillion compared with ₹13.19 trillion during the decade-ago rule of the previous UPA government.

The minister said the allocations made in the Budget have increased for sectors such as agriculture, education and health.

Agricultural reforms, including the implementation of Pradhan Mantri Fasal Bima Yojana and the distribution of soil health cards, have been highlighted as important steps towards economic growth.

The Budget is an exercise to make India an attractive destination for manufacturing companies and the PLI schemes continue to remain attractive for the manufacturing sector, she said.

She also said the government is complying with the fiscal deficit trajectory. It will bring down the deficit to below 4.5% by 2025-26 from the targeted 4.9% for the current fiscal.

THE BUDGET IS FOR ALL STATES. IF A STATE HAS NOT BEEN MENTIONED IN THE BUDGET SPEECH, IT DOES NOT MEAN THERE IS NO ALLOCATION MADE FOR IT.

AUG-SEPT RAINS CRUCIAL FOR OILSEEDS AND PULSES

Skewed rain distribution may hit kharif crop yields

SANDIP DAS
New Delhi, July 31

HALFWAY THROUGH THE monsoon season, 38% of 700-odd districts in the country have received "deficient" to "large deficient" rainfall, raising the spectre of low yield of paddy, coarse cereals and pulses, if kharif sowing gets delayed in the regions as a result.

Experts say that while the rainfall in the current season has been surplus, especially in central (17%) and southern peninsula (25.9%) against the benchmark in the key regions that grow pulses, oilseeds and paddy, large areas of east and north-west India have received deficient rainfall.

Officials said that deficient rainfall in Bihar and Jharkhand has already delayed paddy sowing as large portion of farmland in these states are rainfed. "Deficient rainfall in Punjab and Haryana has not hit crop sowing as these states have assured irrigation," an official said.

Meanwhile, till July 26, at 81.1 million hectare (MH) or 74% of the normal sown area, the combined sown area of key crops — paddy, pulses, oilseeds and sugarcane — was up 2.2% on year. Paddy was sown in 21.5 MH so far, against the normal sown area of 40.15 MH. Area under pulses such as tur, urad and moong rose sharply at 14% to 10.2 MH on year, which is expected to boost pulses production in the 2024-25 season.

More than 3.8% higher sown area in oilseeds – groundnut, soybean and sunflower is reported at 17.16 MH.

Oilseeds sowing is expected to be completed in the next couple of weeks.

According to Soyabean Processors Association of India (SOPA) survey in the key growing states of Madhya Pradesh, Maharashtra and Rajasthan, area under soybean, a key kharif oilseed this year has been estimated at 11.85 MH or same level last year.

"The crop progress will be heavily dependent on the progress of monsoon, rainfall distribution and temperatures in the coming months," SOPA has stated. Cotton area is down 6.9% on year at 10.5 MH so far, which is 82% of the average area for the last five years because farmers have shifted to pulses and oilseeds as realisation from the cotton was low last year.

Apex trade body ISMA has projected sugar output for the 2024-25 season (October-September) at 33.11 million tonne (MT), a tad lower than the previous year's output of 33.99 MT because of lower acreage in cane growing regions of Maharashtra and Karnataka primarily due to last year's deficient rainfall.

Over 100 mm rainfall in 1 hour, 'red' warning issued in Delhi

DELHI RECORDED MORE than a hundred millimetres of rainfall in an hour, leading to waterlogging in several areas and prompting the weather office to issue a 'red' warning. The National Flash Flood Guidance Bulletin also included Delhi in its list of 'areas of concern', the IMD said. The Pragati Maidan observatory recorded 112.5 mm of rainfall in one hour. Multiple areas, including Lutyen's Delhi, Kashmere Gate and Rajinder Nagar, were inundated following the heavy rain. — PTI

Remove GST on medical, life insurance premiums: Gadkari to FM

UNION MINISTER NITIN Gadkari has requested finance minister Nirmala Sitharaman to withdraw the 18% GST on life and medical insurance premiums. In his letter to Sitharaman, Gadkari raised concerns of the Nagpur Division Life Insurance Corporation Employees Union, which had submitted to him a memorandum regarding the issues of the insurance industry.

Referring to the memo, the minister said, "Levying GST on life insurance premiums amounts to levying tax on the uncertainties of life. The Union feels that the person who covers the risk of life's uncertainties to give protection to the family should not be levied tax on the premiums to purchase cover against this risk." —PTI

Maruti beats estimates, posts 47% rise in profit

Says it will launch one electric model every year till 2031

FE BUREAU
New Delhi, July 31

MARUTI SUZUKI INDIA on Wednesday reported a stellar set of numbers for the June quarter, beating consensus estimates.

India's biggest passenger carmaker's standalone net profit soared 46.9% year-on-year at ₹3,649.9 crore, whereas the consensus estimates on Bloomberg had pegged the net profit at ₹3,272 crore. Profits at the company surged on the back of cost reduction efforts, favourable commodity prices and foreign exchange.

The Maruti stock rose 2.82% after the earnings announcement on the BSE to end the session at ₹13,167.95.

The automaker reported revenues from operations of ₹35,531.4 crore, up 9.9% y-o-y. A better product mix and pricing helped the company achieve this level of topline growth.

Volumes rose by just 4.8% y-o- y during the June quarter to 521,868 vehicles.

Profitability was strong as the operating margin for the quarter expanded by nearly 350 basis points to hit 12.5% compared with 9.2% in the same quarter the previous year.

Consequently, the company's earnings before interest, taxes, depreciation and amortisation (Ebitda) was up a strong 50.9% to ₹4,502 crore.

The company said in a post-earnings call that it would launch one electric model every year until 2031. The first one is to be displayed at the Bharat Mobility Global Expo in January 2025 and the second one is "close behind", a spokesperson for the automaker said.

Maruti has lagged other carmakers like Tata Motors in launching non-fossil-fuel driven cars. The carmaker is planning to invest ₹45,000 crore to double its annual production capacity to 4 million vehicles by 2031, chairman RC Bhargava told shareholders in August last year.

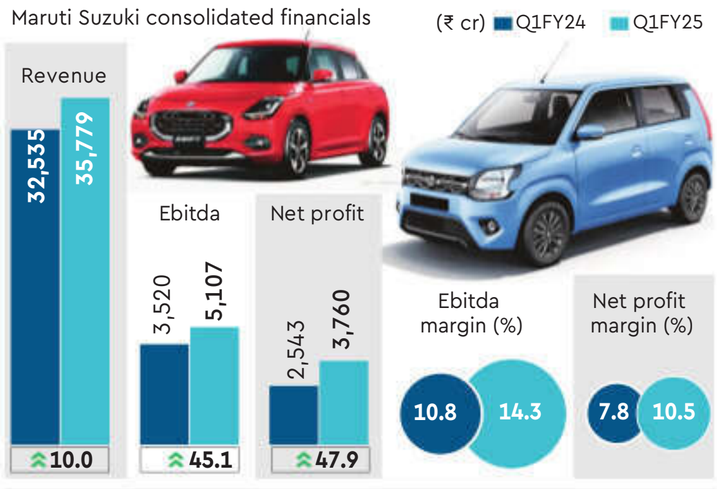

Maruti's market share in the passenger is a shade over 40% and the strong performance in categories like sports utility vehicles (SUVs) and crossovers in the June quarter have helped the company post good results.

Maruti Suzuki saw an inventory gain of ₹895 crore during the quarter, rising from about ₹100 crore a year ago, as per the financial results.

The company's sales in the domestic market in Q1FY25 stood at 451,308 units, up by 3.8% y-o-y, while export volumes were 70,560 units, a growth of 11.6% over Q1FY24.

The Maruti stock is close to its 52-week high of ₹13,390 and currently commands a market capitalisation of ₹4.14 trillion.

Excluding one-time gains of ₹763 crore, made in Q1FY24, the profit is up a good 23% y-o-y. The numbers are lower than the Bloomberg consensus estimate of ₹2,819 crore.

The operating profit came in at ₹4,116 crore, ahead of consensus estimates.

Revenue from operations at ₹27,039 crore, while below estimates, was up 12% y-o-y. The topline was boosted by sustained demand for its sports utility vehicles (SUVs) where volumes surged 24%. Volumes in the farm equipment sector (FES), on the other hand, posted a lower growth of 6%.

In early July, M&M had slashed the prices of a variant of its flagship XUV700, raising concerns about a margin impact. The company clarified the financial impact of this move would be negligible, adding similar action could be expected for other models too.

Managing director and CEO Anish Shah said prices were hiked when the company faced capacity constraints and commodity prices were higher. "As commodity prices came down, as chip supplies became normal and its prices also came down, we decided to pass on the benefit to customers," Shah said.

Compared with its launch price, the XUV700 had become dearer by ₹4 lakh. M&M executives added that after the price cut, there has been a 40% jump in the bookings for the XUV700.

Rajesh Jejurikar, executive director and CEO (auto and FES), M&M, said he expects the higher volumes to help operating leverage. "On a holistic level, this will have negligible financial impact if our volumes grow as per our growth plans," he said.

M&M claimed to have open bookings for 178,000 units for its SUV, including 55,000 for the newly launched XUV3XO.

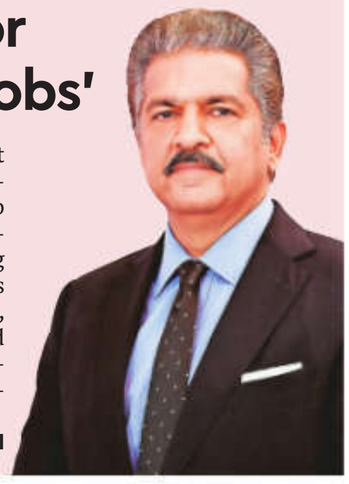

Jejurikar noted that dealers' stocks are presently higher by 4-5 days, but said retails have started to pick up and are expected to gather momentum in the next two months.

A five-door version of the Thar SUV (named Thar Roxx) will debut on August 15 for which an additional capacity of 4,000 units a month is created. While the exit capacity in FY24 was 49,000 units a month, this would be raised to 64,000 units a month by the end of FY25.

The tractor industry is expected to post a volume growth of 5% during FY25. This guidance provided by M&M, the market leader, could be revised during the festive season.

M&M claimed that it was witnessing green shoots in demand in terms of trade and price realisation, positive monsoon, improved spending by states and the Centre.

'Private sector must create jobs'

INDIA'S PRIVATE SECTOR must utilise the Centre's recently announced schemes, such as support to employers in creating roles for first-time employment and increasing new hires, to propel the country's economy over the next decade, Mahindra group chairman Anand Mahindra said, addressing shareholders at the annual general meeting of Mahindra & Mahindra.

Smartphone shipments fall 2% y-o-y

SMARTPHONE SHIPMENTS to dealers and retailers in the April-June quarter fell 2% year-on-year, according to Counterpoint Research. The drop was due to the heatwave conditions that affected footfalls at offline stores, a seasonal slump, and slower demand from Q1 2024. Xiaomi reclaimed the top spot with an 18.9% shipment share, followed by Vivo with 18.8%. Samsung led the market in terms of value with 25% share, followed by Vivo and Apple. The ₹20,000-30,000 & above ₹45,000 price bands saw the fastest growth.

BCCI had filed an insolvency plea against Byju's for the non-payment of ₹158-crore dues

Byju's, BCCI settle dispute; NCLAT hearing to continue

ANEES HUSSAIN
Bengaluru, July 31

THE BOARD OF Control for Cricket in India (BCCI) on Wednesday informed the National Company Law Appellate Tribunal (NCLAT) that it has reached a settlement with Byju's regarding the repayment of over ₹158 crore in dues related to sponsorship rights.

The NCLAT's Chennai bench was notified that Riju Raveendran, the brother of Byju's founder Byju Raveendran, has already paid ₹50 crore. An additional ₹25 crore is slated for payment on Thursday, with the remaining ₹83 crore to be cleared by August 8.

However, the settlement faces opposition from a US-based financial creditor, Glas Trust, represented by senior advocate Mukul Rohatgi. The creditor alleges that the repayment is tainted and funded with misappropriated money, citing findings from a US court that Byju and Riju conspired to siphon over ₹500 crore.

BCCI's counsel and senior advocate Harish Salve assured the tribunal that the cricket body would not accept tainted funds. Solicitor General Tushar Mehta, also appearing for the BCCI, dismissed the creditor's concerns as assumptions.

The NCLAT has adjourned the hearing till Thursday and asked Byju's to file an affidavit, clarifying that the money owed to financial creditors will not be used to pay operational creditors like the BCCI.

The financial creditors have urged the NCLAT to direct Byju's to file an undertaking that the money being paid to the BCCI is not from Byju Raveendran. In response, Raveendran's counsel sought assurances that the insolvency process against Byju's would not interfere with the proposed settlement.

Meanwhile, interim RP Pankaj Srivastava reported non-cooperation from Byju's, citing lack of access to company data.

'Integrating AI is not about cutting jobs but evolving roles'

Technologies like artificial intelligence (AI), 5G, Internet of things (IoT), and cloud computing are changing the entire IT landscape. Larger investments need to be made and newer solutions offered to the clients. **Amit Chadha**, *MD & CEO, L&T Technology Services (LTTS), spoke to* **Padmini Dhruvaraj** *on the challenges the emerging areas bring and how the company is leveraging them and reinventing itself. Excerpts:*

How is LTTS leveraging emerging technologies like AI, 5G, IoT, and cloud computing to develop cutting-edge solutions and services?

In AI, we are accelerating our investments and innovation focus leading to over 61 patents being filed so far. We are starting to win AI-led deals on the back of our solutions in GenAI across asset health, software development and digital assistants. For instance, LTTS has collaborated with AT&T's connected climate initiative to develop connectivity-driven solutions aimed at curbing GHG emissions. We have also collaborated with leading domain experts such as Intel to develop scalable edge-AI solutions for various applications.

Please describe some of the key use cases LTTS has used in various sectors such as aerospace and transportation

In aerospace, LTTS validated a SCADE model of a flight control system for a Russian regional jet company and delivered a compliant, certified software system and collaborated with OEMs and startups to develop electric propulsion systems for urban air mobility vehicles, including eVTOL aircraft. In transportation, LTTS partnered with a leading auto firm to develop and test autonomous vehicle tech. LTTS' smart traffic management system for Telangana, Patna and Baroda optimises traffic flow using IoT sensors, data analytics, and AI, enhancing urban mobility and reducing congestion. LTTS also developed a comprehensive EV charging infrastructure solution for a leading auto firm.

How's LTTS preparing a future-ready workforce and do you see it impacting human jobs?

Our executive team actively participates in programmes designed to identify and cultivate potential successors to key positions. These, including the 'Tech League' launched by our in-house Global Engineering Academy, identify and celebrate top tech talent. Integrating AI is not about cutting jobs but evolving roles to meet new challenges and opportunities. AI can handle repetitive tasks, allowing employees to focus on higher-value activities requiring creativity and strategic thinking. This synergy between human intelligence and AI leads to enhanced organisational efficiency, better decision-making, and sustained growth.

DIGITAL ENGINEERING NOW ACCOUNTS FOR OVER 60% OF OUR ANNUAL REVENUE. THIS IS EXPECTED TO RISE FURTHER IN NEXT 2-3 YEARS

How is LTTS using AI or GenAI to reduce cost and improve business efficiency?

In healthcare, we are harnessing AI, especially in medical imaging. AI augments our capabilities and prevents errors by learning from each medical image and diagnosis. One of our key solutions is a computer-aided diagnostics tool to help radiologists interpret chest X-rays and detect conditions like pneumonia and tuberculosis. Beyond healthcare, we are building industry-specific GenAI use cases in flexible production digital twins, AI-powered inspection, predictive maintenance, demand forecasting, supply chain, and more. We currently have 9 use cases in production.

How is LTTS supporting government initiatives like Make in India, Digital India, and Atmanirbhar Bharat?

LTTS, with its smart world & communication business, leads smart city solutions for state governments. We've implemented major public safety projects in cities like Mumbai, Hyderabad, and Nagpur, deploying thousands of devices, including cameras and network equipment. The AI-based crowd management project at Prayagraj Smart City successfully managed over 250 million people. We've deployed over 6 million smart meters in Uttar Pradesh, Haryana, and Delhi, aligning with Atmanirbhar Bharat's sustainability goals.

How do you think these newer technologies will have an effect on your balance sheet in the next 2-5 years?

Our core strengths are in traditional engineering services, but digital engineering now accounts for over 60% of our annual revenue. This is expected to rise further in the next 2-3 years. While we can't provide an exact number, digital engineering will certainly account for over 65% of our revenues in the next 2-5 years, transitioning us into a company with digital engineering as the core offering. Digital engineering will constitute the majority of our revenues over this timeframe. As an ER&D company with a strong legacy in engineering services, these newer digital technologies are set to significantly enhance our financial performance and balance sheet strength in the coming years.

Uttarakhand has undertaken a historic step to introduce the Gross Environmental Product (GEP) Index, becoming the first Indian state to introduce such a pioneering endeavour that connects ecology with the economy

U'khand aces in the introduction of gross environmental product index

The Gross Environmental Product (GEP) Index, was recently launched by Chief Minister Pushkar Singh Dhami and it evaluates the environmental health of the state based on the quality of four essential elements, viz. air, water, forest, and soil. The GEP shows relative data from 2020 to 2022, indicating a 0.9% growth, signalling favourable environmental trends amid expansion.

CM Dhami highlighted the importance of this endeavour in facilitating a balance between financial growth and ecological conservation. The GEP Index will act as a vital instrument in forming prospective environmental conservation objectives and raising public understanding about the significance of protecting natural resources. The Chief Minister, while emphasising the rich natural legacy of Uttarakhand, highlighted the necessity for effective utilisation of forest wealth and the revitalisation of water sources via comprehensive plantation of trees and water conservation measures.

The concept of GEP was envisioned by environmentalist Dr Anil Prakash Joshi. It allocates an economic worth to environmental services, providing a tangible standard of ecological influence. Uttarakhand strives to lead by example with the introduction of the GEP Index in balancing growth with environmental sustainability. This assures a brighter tomorrow for its residents and establishing a standard for other states to pursue.

Under the leadership of PM Narendra Modi, the '**One District Two Products**' scheme launched by CM Pushkar Singh Dhami aims to promote local products and create self-employment opportunities across all 13 districts of the state

ODTP Scheme: A step towards local economic empowerment

Uttarakhand's 'One District Two Products' (ODTP) Scheme is an innovative initiative launched by Chief Minister Pushkar Singh Dhami in October 2021. The scheme aims to promote local products and create self-employment opportunities across all 13 districts of the state.

EMPLOYMENT IMPACT

One of the key aspects of the ODTP scheme is its potential to generate employment opportunities at the local level. By developing products based on market demand and utilising modern technology, the scheme creates jobs in various sectors, including packaging, testing, and logistics. The increase in business and export opportunities is expected to further bolster employment, benefiting local farmers, artisans, and craftsmen.

Notable products from various regions include Almora's tweed and Bal Mithai, Bageshwar's copper craft and Manduwa biscuits, Champawat's iron crafts and handwoven products, Chamoli's handlooms, handicrafts, and aromatic herbals, Dehradun's bakery and mushroom products, Haridwar's jaggery and honey, Nainital's Aipan art and candle craft, Pauri's herbal products and wooden furniture, Pithoragarh's woolen carpet and Munsiyari rajma, Rudraprayag's handicrafts temple shapes and prasad products, Tehri's natural fiber and Tehri Nath, Udham Singh Nagar's mentha oil and Moonj grass products, and Uttarkashi's woolen handicrafts and apple-based products.

IMPLEMENTATION STRATEGY

Skill development and design enhancement are also crucial components of the implementation strategy. By equipping local artisans and craftsmen with modern skills and design techniques, the scheme ensures that the products meet contemporary market demands.

MARKET & EXPORT POTENTIAL

The ODTP scheme aims to position Uttarakhand's local products in both domestic and international markets. By promoting these products on a larger scale, the scheme seeks to enhance their visibility and demand. The government's efforts to improve packaging, branding, and marketing are expected to play a significant role in this endeavour. Tourism also plays a crucial role in the ODTP scheme's market strategy. Prime Minister Narendra Modi has encouraged tourists to spend at least 5% of their total expenditure on local products. This initiative not only boosts the local economy, but also promotes state's cultural heritage.

FUTURE PROSPECTS

The ODTP scheme is a promising step towards the sustainable economic development of Uttarakhand. By focusing on local products and creating self-employment opportunities, the scheme aims to foster economic resilience in the state's rural areas. The successful implementation of this scheme could serve as a model for other states to follow, highlighting the potential of local industries to drive economic growth.

The 'One District One Product' (ODOP) scheme is an endeavour under the Atmanirbhar Bharat Abhiyan, striving to boost regional products and promote financial evolution in districts across India. By recognising and sustaining outstanding products from each district, the scheme seeks to facilitate manufacturing, help regional craftspeople, and furnish a forum for these products in nationwide and global markets. Recently, Uttarakhand and its border district, Uttarkashi, obtained nationwide acclaim under this scheme, marking a notable accomplishment for the state.

The state's commendation came during the Atmanirbhar Bharat Utsav 2024 awards, where Uttarkashi district won the second award for its production of Red Rice in the agriculture category.

Different districts in Uttarakhand have been recognised with special products under the ODOP scheme, including Almora's apricot-based products, Bageshwar's kiwi-based products, Chamoli's fish-based products, Champawat's *tejpatta* and spices, Dehradun's bakery products, Haridwar's mushrooms, Nainital's fruit juice and squash (peach, etc), Pauri's citrus-based products (Malta), Pithoragarh's turmeric-based products, Rudraprayag's *amaranthas*-based products, Tehri's ginger-based products, Udham Singh Nagar's mango-based products, and Uttarkashi's apple-based products.

This is supported by the Common Facility Centre (CFC) Scheme, which furnishes up to 90 percent of the project expenditure in economic aid. This allows local producers to improve their production establishments and enhance their product quality. The Marketing Development Assistance Scheme presents economic support to participants of nationwide and multinational exhibits and fairs, letting them demonstrate and market their ODOP-selected products. Further, the Finance Assistance Scheme (Margin Money Scheme) offers assistance to set up projects, assuring that financial limitations do not restrict the development of local enterprises.

PIC: DIPR, UTTARAKHAND GOVERNMENT

CM's visit to Adi Kailash further promoted the area as a notable pilgrimage destination

PM Narendra Modi's fondness for yoga and meditation has immensely increased the popularity of these age-old practices, especially in Uttarakhand

The AYUSH Policy of Uttarakhand summarises enterprising strategies to incorporate conventional healthcare procedures with contemporary methods, striving for holistic wellness and financial development.

The policy strives to capitalise on this legacy by enabling the cultivation of over 1,000 rare medicinal plants native to the area. Endeavours such as the Chief Minister Medicinal Plant Development Programme are set to involve 50,000 farmers in growing these plants, promoting sustainable farming approaches, and augmenting regional revenues.

In the domain of AYUSH production, Uttarakhand already has a strong drive, backed by ample raw materials and promising business necessities. The state hosts multiple GMP-certified manufacturing departments making a vast array of AYUSH medicines and consumer items. Under the new policy, more incentives and assistance will be offered to enable more units to attain WHO GMP certification and adhere to global quality norms. This action is anticipated to greatly improve the sector's contribution to the state's GDP, presently evaluated at Rs 4,000-5,000 crore.

The policy encapsulates strategies to accredit all specified government AYUSH healthcare centers under the NABH (National Accreditation Board for Hospitals & Healthcare Providers) within five years.

Sebi clampdown could slash F&O market volumes: Experts

AKSHATA GORDE
Mumbai, July 31

THE MARKET REGULATOR'S clampdown on speculative trading in the futures and options (F&O) market could result in volumes plunging by 30-40% and push traders to dabble in other products, experts said. This, they believe, would hurt the businesses of discount brokers and market makers.

On Tuesday, the Securities and Exchange Board of India (Sebi) laid out a series of steps such as potentially tripling contract values and increasing margin obligations, which could shrink liquidity in the $4-trillion F&O market and cut into traders' margins. The proposed measures could hurt market depth, with many small investors deciding to move out. Moreover, it will not be easy to make returns, experts believe.

Nithin Kamath, founder and CEO of Zerodha, said in a post on X that the new rules may increase the appeal of options over futures. "Whether it is an STT increase in the Budget or the contract size going up to ₹20 lakh, these changes will incentivise futures traders to move to options," Kamath tweeted.

"Futures traders have higher odds of making money than option buyers. This is because options come with almost unlimited leverage, whereas leverage on futures is capped at six times (15% for index)," he said.

Analysts at IIFL Securities said discount brokers are likely to be more impacted than traditional full-service brokers as the former depends on retail investors. "Based on our initial estimates, we expect a 30-40% impact on market volumes." The bigger hit is expected to be in terms of a fall in investor headcount, they said.

The biggest deterrent for retail traders could be the increase in the minimum contract size for index derivatives at ₹20 lakh from the prevailing ₹5 lakh. Feroze Azeez, deputy CEO of Anand Rathi Wealth, said small traders may seek alternatives such as shifting to less-regulated financial instruments like commodities, forex or cryptocurrencies. They might also dabble in dabba trading, said experts.

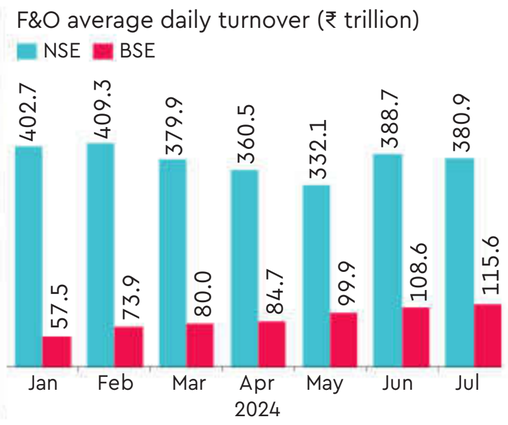

Limiting weekly options contracts to only one benchmark index per stock exchange is expected to hit the National Stock Exchange's options volumes, as it can only retain one of its four weekly expiries. The BSE, on the other hand, has just two index option contracts – Sensex and Bankex.

"With just two expiries now, the BSE may see higher volume traction and faster market share gains, thereby further limiting volume impact," said Devesh Agarwal of IIFL Securities.

Analysts at Jefferies estimate that the removal of the Bankex weekly contract will impact BSE's EPS by 7-9% over FY25-27, which can be offset from spillover from NSE's discontinued products. The brokerage expects derivatives to become about 50% of BSE's revenues by FY27 from about 13% in the previous fiscal.

BoB net profit rises 10%, asset quality stable

Lender sees 12-15% hit on its LCR due to RBI draft guidelines

PIYUSH SHUKLA
Mumbai, July 31

BANK OF BARODA (BoB) on Wednesday reported a 10% year-on-year (YoY) rise in its net profit to ₹4,458 crore for the quarter ended June, led by a stable asset quality. The profit after tax (PAT) was largely in line with the Bloomberg consensus estimate of ₹4,547 crore.

The gross and net non-performing asset ratios improved by 63 bps and 9 bps YoY to 2.88% and 0.69%, respectively. Credit cost stood at 0.47% in Q1FY25, against 0.70% a year ago, and the bank has guided for credit cost of below 0.5% for the full fiscal.

Net interest income grew 6% YoY to ₹11,600 crore while the net interest margin was lower by 9 bps at 3.18%. Non-interest income moderated 25% to ₹2,487 crore in the reporting quarter, largely due to lower treasury income.

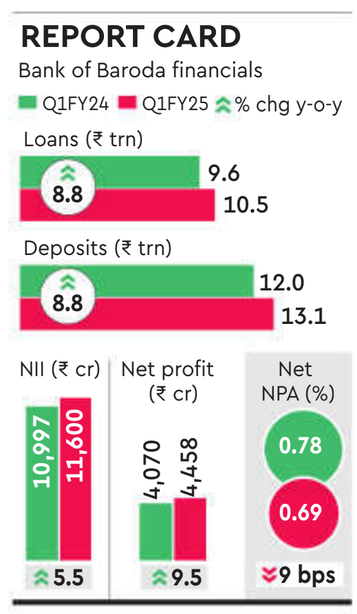

The liquidity coverage ratio (LCR) stood at 138% in Q1 and will likely moderate by 12%-15% due to the Reserve Bank of India's new draft guidelines on the same, managing director and CEO Debadatta Chand said.

The board has approved raising ₹7,500 crore via debt, Chand said, adding that the lender may raise the full amount depending on right market conditions.

The capital adequacy ratio was at 16.82%, of which common equity tier-I capital ratio formed 13.08%. The bank aims to list its subsidiary IndiaFirst Life Insurance in the next 12-18 months, and is also in the process of stake sale in subsidiary Nainital Bank, Chand said.

BoB's overall advances grew 8% YoY to ₹10.71 trillion in Q1 while overall deposits rose 9% YoY to ₹13.06 trillion. The lender is targeting a 10%-12% growth in overall deposits in the current fiscal and a 12%-14% increase in advances.

Premium of Indian stocks over Asian peers hits record

ASHUTOSH JOSHI & CHIRANJIVI CHAKRABORTY
July 31

INDIAN STOCKS STRETCHED their premium over Asian peers to a record as investors bolstered their holdings of local shares while cutting exposure to regional equities.

The MSCI India index extended its valuation gap over the Asian measure to more than 10 percentage points. The 146-member gauge is trading at 24 times its one-year forward earnings, according to data compiled by Bloomberg.

The difference widened as regional equities came under pressure following global rotation out of artificial intelligence, while Indian stocks continued to scale new heights on robust economic growth.

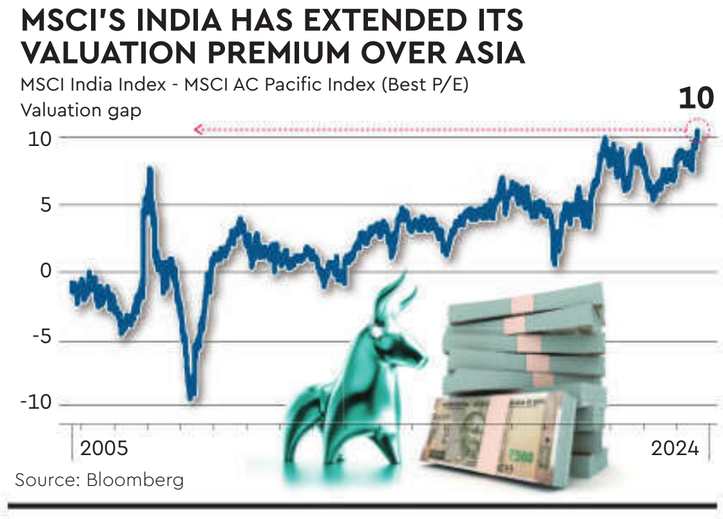

Foreigners have plowed over $4 billion into Indian stocks this month, their biggest monthly purchase since December, while local funds added $2.4 billion, helping benchmark Nifty 50 take its yearly gains to almost 15%.

"India is the perfect emerging market because of its population and economic growth," said Kevin T Carter, founder and chief investment officer at EMQQ Global, a San Francisco-based investment management and research firm. Investors fretting over valuations need to know that "India is better than it looks," he said.

India's benchmark equity indices have added close to 4% this month, outperforming most major peers in Asia.

The rally picked up pace following the general elections in June and largely held its course despite a surprise increase in equity taxes in the previous week. **—BLOOMBERG**

RBI proposes additional authentication for digital transactions

SACHIN KUMAR
Mumbai, July 31

AIMING AT FURTHER strengthening the security of digital transactions, the Reserve Bank of India (RBI) on Wednesday proposed to introduce additional factors of authentication for digital transactions.

In the draft guidelines on 'Alternative Authentication Mechanisms for Digital Payment', the central bank asked banks and payment system providers to use an additional factor of authentication which is dynamically created for a specific transaction. A dynamic factor of authentication means that the password or pin number will be time sensitive, initiated during the transaction and can not be reused. Currently, digital transactions are authenticated by SMS-based OTP.

"All digital payment transactions shall be authenticated with an additional factor(s) of authentication (AFA), unless exempted otherwise in this framework," said the RBI. "All digital payment transactions, other than card present transactions, shall ensure that one of the factors of authentication is dynamically created, i.e. the factor is generated after initiation of payment, is specific to the transaction and cannot be reused," it added.

All payment system providers and payment system participants shall ensure compliance with this framework within three months from the date of issue of these directions, said the banking regulator.

Shares gain for 4th straight day

THE SENSEX ROSE by nearly 286 points to close at a record high while Nifty settled above 24,950 level on Wednesday, extending their winning run to the fourth day on gains in metal, power and select auto shares.

The Sensex settled at 81,741.34 — its all-time closing high. The index jumped 372.64 points to hit an intra-day high of 81,828.04. The Nifty rose 93.85 points to close at an all-time high of 24,951.15. During the day, it surged 127.3 points or 0.51% to hit a high of 24,969.35.

"The domestic market is attempting to cross above the psychological threshold of 25,000, as subdued Q1FY25 earnings and stretched valuations are curbing the challenge, while positive global trends and sector rotation are supporting the traction," Vinod Nair, head of research, Geojit Financial Services, said. **—PTI**

Amended insider trading rules for MFs to be effective from November

FE BUREAU
Mumbai, July 31

THE SEBI HAS notified that amended insider trading rules for mutual funds will come into effect from November 1.

"Lists of all employees and other persons with whom unpublished price sensitive information is shared shall be maintained and confidentiality agreements shall be signed or notice shall be served to all such employees and persons," according to the amended rules.

Experts said the amended rules will help bring in transparency within the AMCs and add an additional layer of security.

Number of firms with one million retail investors rises 13% in Q1

KISHOR KADAM
Mumbai, July 31

WITH THE MARKETS continuing their upward momentum, India's top 10 companies in respect of the number of retail shareholders added 3.4 million investors between April and June 2024. The retail investor count rose from 42.7 million in March to 46.1 million in June, up 8% QoQ and 55% YoY.

This comes at a time when the number of firms with more than one million retail shareholders rose by 13% — from 53 to 60 in the June quarter.

During the Q1, Adani Ports, BPCL, Canara Bank, Exide Industries, HAL, IRB Infrastructure Developers, Ircon International and REC saw their retail shareholder base going above the 1-million mark. In the case of SBI Cards, the count slipped marginally from 1 million to 986,000.

IRB Infra's retail investor base almost doubled from 0.86 million in March to 1.68 million in June, while its retail shareholding rose from 7.53% to 13.92%. Canara Bank and HAL showed a rise of 57% each in retail shareholder numbers QoQ, while BPCL was up by 43.9%.

REC's retail investor number saw a 34.9% rise while Adani Ports was up by 28.7%.

Retail shareholding in Canara Bank increased by 1.63% to 7.63%, HAL by 1.31% to 6.47%, BPCL by 1.49% to 6.74%, REC by 0.55% to 8.17% and Adani Ports by 0.71% to 4.11% in the quarter under review.

Yes Bank topped the chart for the seventh straight quarter with 6.21 million retail investors in June, up from 6.07 million in March, according to data sourced from Capitaline. However, retail shareholding in the private lender fell from 24.38% in March to 22.94% in June.

Tata Steel ranked number two, with 5.2 million retail shareholders (up 11.8% QoQ), followed by IRFC (5.06 million, up 12.9%), Tata Motors (5.01 million, up 10.5%) and Vodafone Idea (4.64 million, up 28.3%).

'We may cut deposit rates in Q2 or Q3'

● **DEBADATTA CHAND,** MD & CEO, BoB

Bank of Baroda (BoB) could cut interest rates on deposits in the second or third quarter of the current financial year, even as lenders face a stiff competition in deposit mobilisation, managing director and CEO **Debadatta Chand** *tells* **Piyush Shukla** *in an interaction. Excerpts:*

BECAUSE OF RECLASSIFICATION OF INVESTMENT NORMS, WE HAVE REPORTED LOWER TREASURY INCOME IN Q1

While deposit market remains heated, you mentioned cutting interest rate going ahead.
Our cost of deposit remained flat in the June quarter as compared to the previous one. In the March quarter, it had risen almost 11 bps sequentially. The interest rate structure depends on the broader regulatory rate stance and availability of liquidity. Availability of liquidity has of late improved. I think that may prompt more liquidity being parked in bank deposits, in which case we may be able to reset deposits at a lower rate. That may happen in Q2 or Q3.

How much will deposit rate fall?
It depends on the outcome of the US Fed meeting. Markets expect the Fed to cut rates between October and December. If rate cuts happen, things will improve.

There was an uptick in retail fresh slippages in Q1. Which retail products have they emerged from?
It is more of a seasonal thing. On the housing side, there is a group account which is subsidy dependent, we expected to receive that subsidy to update the loan, but that did not happen. Otherwise, I don't think retail slippages are rising, collection efficiencies are also stable at the moment.

Non-interest income was lower by 25% in Q1FY25. How do you plan to improve it?
Because of the reclassification of investment norms, we have reported lower treasury income in the current quarter, against the year-ago period. But, we need to look at long-term benefits of the norms on our reserves. A large portion from AFS (available for sale) securities is going to the reserves. This has led to an almost 30-bps rise in common equity tier-I ratio (CET-1). So, on the overall capital front, it is a zero-sum game.
Now, more focus would be on commissions from exchange transactions and the brokerage business, which has slightly degrown. We have revised our card rates, and the moment we scale up corporate business, processing fees will rise. We had a very strong non-interest income position earlier, and with sanctions in the pipeline, the growth will pick up going forward. While we saw a dip in investment business' commission income, Q2 is fairly balanced and this will reflect in improved numbers.

You mentioned having 12-15% moderation in LCR due to RBI draft norms. Will you shore up reserves to compensate, or focus on more granular, branch-led sticky deposits?
Even if there is a 15% hit, the liquidity coverage ratio (LCR) will be in the range of 123-124%. The ideal scenario for us is to maintain the LCR at 120%, if the draft norms are implemented in their entirety. To maintain the LCR at 120%, deposits should continue to grow at the current level.

Launches of passive funds in sectoral space triple in 2024

Funds based on tourism, defence and EV sectors on the rise

VIVEK KUMAR M
Mumbai, July 31

FOLLOWING THE LAUNCH of a slew of new indices and passive funds in the sectoral or thematic categories, Asset Management Companies (AMCs) have launched 30 passive funds so far in 2024.

That's three times the number of 11 funds rolled out in 2023, according to data from Value Research.

NSE Indices, the subsidiary of National Stock Exchange of India, has launched 5 sectoral or thematic indices so far in 2024 — Nifty500 Multicap India Manufacturing 50:30:20 index, Nifty500 Multicap Infrastructure 50:30:20 index, Nifty EV & New Age Automotive index, Nifty India Tourism Index, and Nifty Rural Index.

Comparatively, just one such index was launched in 2023.

Expansion of market, growth opportunities in specific sectors, and lack of innovative opportunities on the active fund side have been the key factors fuelling the growth in ETFs and index funds, experts said.

Umeshkumar Daila, Head - ETF sales, Mirae Asset Investment Managers (India), pointed out that if you invest in an active sectoral or thematic fund, it may allocate minimum 80% to that specific sector or theme in line with regulations.

"But when it comes to passive funds, 100% is allocated to the specific sector or a theme as it is based on an index," he said.

Kumar highlighted that India has historically seen a one-sided growth in active funds, while passive funds did not take off initially.

Nine of the 30 passive funds launched this year are based on the five new indices from the NSE. Apart from these five indices, funds have also been launched based on defence, tourism, PSUs, banking, and information technology.

As per the Securities and Exchange Board of India (Sebi) guidelines, a fund house can only launch one fund in a certain category. These categories include large cap fund, large & mid cap fund, mid cap fund, small cap fund, multi cap fund, etc.

But when it comes to index funds and ETFs, there are no such restrictions, and this has been driving innovative product offerings in this space, an industry expert said. The share of passive funds in total AUM of fund houses has risen from 7.4% in FY20 to 17.5% at the end of FY24, as per the data from Association of Mutual Funds in India (AMFI).

Highlighting the significant rise in investor interest in passive funds over the last few years, NSE on Tuesday launched a website dedicated to passive funds. "The increasing contribution of folios in the MF industry is incrementally being contributed by index funds.

"Nearly 11% of new folios last financial year came from index funds. It is only the beginning of a growing trend," noted Vishal Jain, CEO of Zerodha Fund House.

The sectoral/thematic funds will likely gain further traction as the market expansion provides depth for investors in specific subthemes and sectors, according to industry experts.

"When we launched India EV ETF, we got over 22000 applications. That itself is a validation that if a product is unique, and in line with (trends) in the global market, investors will definitely like that," Daila said.

- Nearly 11% of new folios last financial year came from index funds. It is only the beginning of a growing trend, say experts

Tax sops may transform GIFT City into premier financial hub: Experts

AKSHATA GORDE
Mumbai, July 31

RECENT TAX EXEMPTIONS for retail schemes and exchange-traded funds (ETFs) at the International Financial Services Centre (IFSC) in GIFT City are expected to attract significant domestic and foreign investments, positioning it as a global financial hub, said experts.

These changes, proposed in the Budget, will grant such schemes tax benefits similar to category III alternative investment funds (AIFs) at the IFSC.

Category III funds, known for their complex trading strategies and investments in derivatives, include hedge funds and private investments in public equity deals.

"This move positions GIFT City as an attractive destination for fund managers to raise monies from retail investors for investment in India.

"The new tax regime aligns with that of similar offshore funds investing into India as foreign portfolio investors (FPIs), and is expected to catalyse the growth of retail schemes within the IFSC," said Tushar Sachade, partner at Price Waterhouse & Co.

Effective from the assessment year 2025-26, this development will provide a concessional tax rate of 10% on interest and dividend income for the scheme or fund, along with capital gains tax exemption on various securities, experts said.

"The announcement to provide a tax-efficient regime for retail funds and ETFs would create new business opportunities for asset management companies in GIFT City.

"It would encourage investments from NRIs and foreign retail investors in India," said Tapan Ray, MD and group CEO of GIFT City.

Setting up of finance companies and treasury units in IFSC has also been made more attractive with exemptions from Section 94B of the Income Tax Act, known as thin capitalisation rules.

This section deals with the deduction of interest expenditure incurred by an Indian company or a permanent establishment of a foreign firm.

Currently, interest payments made to non-resident associated enterprises are limited to 30% of Ebitda, with exemptions for non-banking financial companies, banks and insurance companies.

Extending similar benefits to finance companies in the IFSC enhances its appeal as a destination for financial activities.

"By simplifying regulatory frameworks and offering tax benefits, the Budget aims to position GIFT City as a competitive hub for international financial services, encouraging foreign investments and promoting the growth of diverse financial products," said Vivek Singhania, co-founder of Dovetail India.

Despite these developments, some anticipated reforms, such as the tax framework for overseas direct investments (ODIs) by non-banking units, remain pending.

"The absence of a clear tax structure for ODIs could deter potential investors from fully engaging with the Indian market, as uncertainty surrounding taxation often leads to hesitation in making long-term commitments," Singhania said.

Additionally, tax-related exemptions for specified income of core settlement guarantee funds of clearing corporations have been extended to those setups in the IFSC.

The government has also provided relief for venture capital funds housed in the IFSC.

These funds will no longer need to explain the source of funds when they extend loans or other amounts to an assessee.

These measures are collectively aimed at enhancing GIFT City's potential as a key global financial hub, drawing in more investment and economic activity, believe experts.

Five-Star Business Finance Q1 net up 37%

FE BUREAU
Chennai, July 31

FIVE-STAR BUSINESS FINANCE has reported a 37% year-on-year increase in net profit for the first quarter at ₹252 crore compared to ₹184 crore in the same quarter last year.

The Chennai-based non-banking finance company's total revenue from operations rose by 38% year-on-year to ₹6,614 crore.

"This is a milestone quarter for Five Star as we achieved a first-time AUM crossing ₹10,000 crore," the company's chairman & managing director Lakshmipathy Deenadayalan said in an earnings release.

As of June 2024, the total assets of Five-Star Business Finance stood at ₹10,344 crore, marking a 36% year-on-year growth.

The company, backed by investors like Peak XV Partners (formerly Sequoia Capital) and Matrix Partners India, provides small loans for business purposes, asset creation, and other economic needs to small business customers and self-employed individuals, all secured by collateral.

Loan disbursements grew by 16% year-on-year to ₹1,318 crore during the April-June quarter.

"Despite a minor impact from heat and elections, the quarter saw strong momentum. We disbursed ₹1,318 crore in loans, which is nearly consistent with the previous quarter and reflects a 16% year-on-year increase," Deenadayalan said.

The company expanded its branch network by 27, bringing the total to 547 branches across nine states and one union territory, including Tamil Nadu, Andhra Pradesh, Telangana, Karnataka, Madhya Pradesh, and Maharashtra.

The ratio of gross stage 3 assets, or loans overdue for more than 90 days, remained steady at 1.41% at the end of the June 2024 quarter.

Star Health ropes in BCG to advise on composite licence opportunities

NARAYANAN V
Chennai, July 31

STANDALONE HEALTH INSURER Star Health has engaged Boston Consulting Group (BCG) to identify potential business opportunities in the life and general insurance sectors, anticipating the government's approval of the composite licence framework.

"As far as composite business opportunities are concerned, we are very seriously evaluating our adjacencies. We have engaged BCG to develop a strategy for us," Anand Roy, MD & CEO, Star Health, told analysts during the earnings call.

"We are looking at an overall strategy and various profit pools available within the life insurance and general insurance businesses."

In February, a parliamentary panel headed by BJP leader Jayant Sinha suggested that the government introduce a provision for 'composite licensing' for insurance companies and make necessary amendments to the Insurance Act, 1938.

A composite licence will allow insurance companies to offer both life and general insurance products, including health, under one entity.

Roy said while the regulation has been under discussion for almost two years now, it is expected to be tabled in Parliament soon. While the company is not aware of the timeline of implementation, it wants to be prepared when the regulation becomes a reality.

Star Health is India's largest retail health insurance company with a 42% market share in the standalone health insurance sector and a 4.8% market share in the general insurance industry.

Its gross written premium (GWP) in the previous fiscal stood at ₹15,254 crore.

In Q1FY25, its GWP grew 18% year-on-year to ₹3,476 crore.

Aditya Biyani, chief strategy and investor relations officer, said the company is exploring new protection plans in both the life and non-life segments and will leverage its proprietary distribution for cross-selling and upselling these products to existing customers.

BBNow sprints after a late start

The company has around 78 dark stores in Tier 2 cities and 2 stores in Tier 3 and 4 cities.

Parekh said that BBNow's fresh network is a huge advantage. "We can buy from 40,000 farmers, we have our collection centres which are about 70. Our entire fresh category comes directly from farms, which is mostly not the case with other players. This gives us more control over quality and on gross margin," he added.

Fresh (fruits and vegetables) is also the highest gross margin category in q-commerce. And, almost 25% of BBNow's revenue comes from fresh. "But one needs to manage it well, else you will have a lot of returns," he said. BBNow claims to have the lowest returns overall in the category in the q-commerce industry. It sees about an overall 1.2% returns and 0.5 write-offs (damaged, expired products) as against industry standards of around 2-3%.

According to Parekh, competition has always existed in the online grocery segment, however, going ahead it will get more challenging for every player. "Slotted delivery is fought on price and q-commerce is fought on coverage and assortment. This will become hygiene very soon. We have to see how the industry shapes up after that. But, with competition, it's going to be challenging for all, in terms of unit economics and scale," he said.

Around 35-37% of BBNow's total revenue comes from its private-label products. Parekh said that there is higher customer attention and higher gross margin in private labels. "Therefore profitability is much easier in what is a tough and competitive space," he added.

BigBasket is also piloting its offline model in Bengaluru and Hyderabad, which will be used for front-end and delivery. While Parekh didn't reveal further details on that, he said that the response has been good so far. "If we decide to expand it, it will be done next year," he said.

Talking about category expansion, he said, "The problem that quick commerce participants will have is that one needs to have an optimum size of dark stores. You can't carry 100,000 SKUs (stock-keeping units) in 6,000 square feet dark stores". The company carries around 30,000 SKUs in grocery under its slotted delivery and 8,000-10,000 SKUs in quick commerce.

In addition to general merchandise products such as kitchenware, small appliances, the company has expanded beauty and smaller appliances to its quick commerce arm. "We are introducing more and more smaller electronics products such as chargers, keyboards, speakers etc," he said.

Parekh added that smaller electronics was a category that BigBasket had started introducing in slotted deliveries, but now has become more popular under the quick commerce category.

He said that quick commerce will scale till it reaches all of food delivery audience. "The food delivery players scaled quite rapidly for two or four years and now they are growing at about 10-12%. We will also run out of affluent, Tier 1 customers. Until that happens, we will continue to grow at the same pace," he said.

Toyota enters Maharashtra with ₹20,000-cr EV plant

Maharashtra chief minister Eknath Shinde and Masakazu Yoshimura San, managing director and CEO, TKM, and Manasi Tata, VC, TKM, were present at the MoU signing at the Magnetic Maharashtra event in Mumbai.

Swapnesh Maru, deputy managing director, TKM, said the proposal for the greenfield manufacturing facility continues the company's commitment to advancing sustainable mobility in India.

"With key infrastructure developments like the Nagpur-Mumbai Samruddhi Expressway and the DMIC Industrial Park, Maharashtra is strategically positioned to attract investments," Fadnavis said. The future of Maharashtra is in this region and with its strategic location, it will attract further investments, he said.

The development of the Wadhavan Port and its connectivity to Chhatrapati Sambhajinagar alongside the dry port in Jalna would make it an ideal location for both domestic and export business, he added.

Infosys gets ₹32,400-cr GST evasion notice

Former Infosys CFO Mohandas Pai said the finance ministry should immediately intervene and that such tax terrorism impacts investment into India in a big way. "This so-called notice, if true, is a classic case of tax terrorism. It is outrageous," said Pai, the chairman of Aarin Capital.

The DGGI report said that Infosys' overseas branches are in place to ensure efficient running of the company's businesses in the countries where they are located with a view to ensuring better delivery of the company's services and by ensuring that there is better coordination between the customers, vis-à-vis their requirements, and the company's head office in India.

Branches located abroad are engaged in the implementation of the projects and have been supplying various services to the company. Thus, the same shall be treated as import of services by the company as per section 2(11) of IGST Act, 2017, as per the report.

Q1 growth may take a hit as public capex plunges

"To meet the FY25 Budget Estimate, ₹9.3 trillion of capex needs to be incurred in the last three quarters of the year, a growth of 39% relative to the same period of FY24 (₹6.7 trillion), which appears quite challenging," Icra chief economist Aditi Nayar said.

The decline in the Centre's capex is also reflected in the overall CPSE capex as railways and the National Highways Authority of India (NHAI) investments are largely funded through the Budget. Both entities accounted for 55% of the CPSEs' capex target of ₹7.8 trillion for FY25.

As a result, investments by CPSEs fell to ₹1.46 trillion in Q1FY25 compared with ₹2.38 trillion in the year-ago period, reflecting the impact of the slowdown in spending during the general elections (April-May).

The CPSEs having annual capex target of ₹100 crore and above have set a combined target of investing ₹7.8 trillion in FY25.

After railways and NHAI, petroleum sector undertakings in aggregate are the third biggest public sector investors in the CPSEs. Petroleum CPSEs have invested ₹26,523 crore in Q1FY25 as against their annual target, marginally higher than ₹25,644 crore invested in Q1FY24 (annual target ₹1.06 trillion).

"Q1FY25 shouldn't be looked as the right benchmark for what can happen for rest of the year as it was a quarter that saw general elections. The capex spending trend of Government of India also shows lower run rate than last financial year. Additionally, due to extreme heat wave, consumption indicators were also uneven," said Garima Kapoor, economist, Elara Securities.

Thanks to a 9% growth in gross fixed capital formation led by public capex including states, India's GDP grew by 8.2% in FY24, exceeding the expectations of both domestic and multilateral institutions.

"There is a possibility that Q1FY25 (GDP) growth may come below RBI's estimates by 20 to 30 bps," Kapoor added. The RBI has projected the first quarter's GDP growth rate at 7.3%, and the entire year's at 7.2%.

Private lenders see farm loan defaults rising amid weak rural economy

SIDDHI NAYAK
Mumbai, July 31

TOP PRIVATE LENDERS are seeing more farmers and rural borrowers delay loan repayments as unpredictable weather impacts output and rising agricultural costs stretch their incomes further, according to quarterly earnings reports and a dozen bankers.

The largest five private banks have reported greater bad loan additions in the June quarter, mostly driven by rising dues in agriculture and microfinance loans, which are popular in rural areas.

Microfinance loan disbursal slowed in April-June due to general elections and heatwaves, Sumant Kathpalia, chief executive officer of IndusInd Bank said last week, adding that rural areas were still recovering from impact of the pandemic.

More than 40% of the country's 1.4 billion people are dependent on agriculture, which has been hit in recent years by rising temperatures, patchy monsoon rains and policy interventions.

The government subsidies loans to farmers, and banks are mandated to give out farm loans, which have doubled during the last four years to more than ₹21 trillion ($250 billion).

As of March-end, banks' non-performing farm loans had eased from a year earlier, but remained elevated at 6.5% of total bad loans, as per latest central bank data.

The country's biggest private lender HDFC Bank's farm loan slippage doubled in the three months to June from the previous quarter.

Kotak Mahindra Bank said dues on small-ticket microfinance loans were rising.

Delinquencies are rising in certain states of north and south India, Devang Gheewala, chief financial officer of Kotak Mahindra Bank said earlier this month.

State-run banks are the biggest lenders to farmers, but private banks are increasingly tapping rural areas to meet the rising demand for credit.

As of March-end, banks' non-performing farm loans eased from a year earlier, but remained elevated at 6.5% of total bad loans, as per the latest central bank data

Most state-run banks have yet to report quarterly earnings.

At least a dozen bankers told Reuters that defaults have risen in key agricultural states like Punjab and Haryana.

They spoke on condition of anonymity as they are not authorised to speak to the media.

Most attributed the defaults to income stress in the farm sector, driven by heat waves, unseasonal rains and higher input costs.

Some political parties promising waiver of farm loans during the national elections that ended in early June also hurt, the bankers said.

"A major reason for non-repayment has been political tactics," a senior official at a microfinance lender said.

Bankers say they often go slow on recoveries.

"We cannot go aggressive on recovery like we do for credit cards, personal loans because suicide cases of farmers, if any, due to such practices, can blow up into a socio-political issue," one banker said.

The deadly landslide in Wayanad is a wake-up call for heeding environmental warnings

THE TORRENTIAL DOWNPOUR in Wayanad district in Kerala has triggered deadly landslides, resulting in habitations being washed away and a mounting death toll. This tragedy doubtless is a wake-up call for India's policymakers to cope with extreme weather events by promoting sustainable development, especially in ecologically fragile zones like the Western Ghats — which is the second-most landslide-prone region in the country after the Himalayas. Madhav Gadgil, who was chairman of the Western Ghats Ecology Expert Panel, has termed this disaster as a "man-made tragedy" attributing it to the state government for not following the panel's recommendations to prevent such incidents at a time of climate change. Four years ago, the state disaster management authority had, in fact, advised relocating families from landslide-prone areas in Wayanad.

This disaster was a chronicle foretold as there has been massive deforestation, mining activities, and construction of tourist resorts and artificial lakes in the hilly district. In an ecologically sensitive zone, these developments loosen the topsoil and impact hillside stability triggering frequent rain-induced landslides. The proximate cause of the Wayanad disaster no doubt is the extremely heavy rainfall. The India Meteorological Department has predicted above-normal rainfall of 106% of the long period average this year, with the second half being better than the first half. While the number of rainy days is declining, the incidence of very heavy and extremely heavy rainfall events — 115.6 to 204.4 mm and above 204.4 mm respectively — has been rising.

Due to climate change, the warming of the Arabian Sea is allowing the formation of deep cloud systems that has resulted in copious rainfall not just in Wayanad, but also in Kozhikode, Malappuram, and Kannur according to S Abhilash, director of the Advanced Centre for Atmospheric Radar Research at the Cochin University of Science and Technology. The state government has identified a waterlogged hillock not far from the affected villages in Wayanad as the origin of the landslides. These deep cloud systems are similar to those seen in 2019, which resulted in heavy floods. Rising sea surface temperatures also result in a higher frequency of cyclone formation in the Arabian Sea and Bay of Bengal causing high-intensity rainfall.

The policy imperative must be to check the degradation of the natural ecosystem in the Western Ghats on a war footing. This applies not just to Kerala but also to other states like Karnataka, Tamil Nadu, Maharashtra, Goa, and Gujarat. Kerala's experience stands out as there has been a rising frequency of landslides as its wetlands, forests, and tree cover have been degraded. This ecologically fragile zone is unable to withstand heavy downpour resulting in considerable loss of lives. The state must therefore work on a priority basis to ensure that development in Wayanad is sustainable. Looking beyond Kerala, it is high time that the Western Ghats is tagged as an eco-sensitive zone to protect it from environmentally hazardous economic development. Despite five draft notifications from the Centre since 2014, the states in the Western Ghats, especially Karnataka, are not on board for the final notification. A couple of years ago, Karnataka even urged the Centre to withdraw the draft as it would impact livelihoods in the state. Maharashtra and Goa, for their part, sought a reduction in the eco-sensitive area to allow development activities. The Wayanad tragedy must trigger a swift response from these states to notify Western Ghats as an eco-sensitive area.

Olympians are lab rats for the Seine cleanup stunt

DAVID FICKLING
Bloomberg

WHAT'S NOTTO like about a sparkling bathing spot in the middle of a global city?

Paris Mayor Anne Hidalgo's €1.4 billion ($1.5 billion) bet to clean up the Seine in time for the Olympic triathlon this week hasn't paid out. The men's event was postponed on Tuesday due to excessive pollution. If it goes ahead as planned on Wednesday alongside the women's contest, however, the French capital will have demonstrated that after a century in which swimming in the city was banned, it's finally safe for freestyle.

Well, up to a point. It's admirable to improve a great city's water quality, but pinning this entire campaign on a single Olympic event has been an entirely foreseeable act of hubris. Urban rivers are some of the most unruly features of our environment, and don't meekly submit to calendar schedules or political will. By promising a race in the Seine on a specified date at the mercy of rain and river conditions, Hidalgo and the Games' organisers have turned elite athletes into guinea pigs for the sake of a photo opportunity.

It's a lovely idea that the rivers flowing through our mighty cities might one day return to their once-pristine conditions. But it's a fantasy. From the first bridges built before the Romans, joining the Parisii's island capital to land, through the limestone quais that confined the stream between steep banks in the 19th century, right up to the artificial Paris-Plages beaches built in recent decades by dumping sand along the waterfront, the Seine has long been a thoroughly engineered place.

That means every decision made about it is a bargain between nature and the construction industry. Perhaps the upgraded sewage treatment plants and 50,000 cubic-metre overflow basin to stop storm water pumping effluent into the river system could have been built to yet higher standards. Then, maybe, Tuesday's triathlon might have gone to schedule. But I doubt it.

That's because overflowing sewers are only part of the problem for urban swimmers. Plenty of runoff goes direct from roads and pavements into the water. In a metropolitan area with 2.1 million cats and dogs, plus an estimated 3.8 million rats in the city centre alone, you don't need a single drop to overflow from the sewer system to provide more than enough fecal matter to lift pollution beyond acceptable levels.

France, furthermore, already has one of the world's most iconic locations for this event. A couple of hour's drive along the coast from the Olympics sailing centre in Marseille, Nice held Europe's first major international triathlon contest in 1982. Alongside Kona in Hawaii, it's one of two locations hosting world championships for Ironman, the prestigious contest owned by New York's billionaire Newhouse media dynasty. Athletes there would have swum in the pristine waters of the Mediterranean and cycled up the vertiginous roads of the Alpes-Maritimes, made famous by the Tour de France.

Hidalgo is right to spend money cleaning up the Seine, even if most of the city's 12 million people have better places to go for open-water swimming. London, whose mismanaged utility Thames Water dumps tens of billions of litres of raw sewage into the river even as it buckles under a £16.5 billion ($21 billion) debt load, could learn from that vision. If Parisians in future can swim there any time it hasn't rained in two days (the target of the current plan), she will have revitalised a precious and beloved public asset.

Her mistake was to tie all this to an event dependent on the vagaries of the weather, with all the world's media watching. Far from cementing an idea in the public mind that Paris is an ideal bathing spot, Hidalgo has only reminded people that with each dip we roll the dice on an E. coli or norovirus infection.

It's touching that we should want our urban rivers to return to a state of nature. It's a futile dream, though. The paradises we build in our cities will always be fallen ones. Politicians and event organisers would do well to remember that.

THEN AND NOW

1924 HAD A LASTING CONTRIBUTION TO THE OLYMPIC MOVEMENT, NOW LOOKING FOR A REVIVAL

Paris, a hundred years on

ATANU BISWAS
Professor of statistics, Indian Statistical Institute, Kolkata

ERNEST HEMINGWAY, WHOSE 125th anniversary was commemorated on July 21, remarked that Paris is a "moveable feast". Hemingway spent most of his time in the city of light for the majority of 1920-1924, when he wrote a series of lively articles for the *Toronto Star* by focusing his gaze on Paris.

The timing is of the essence. The second-ever Olympic Games of Paris were held in 1924. The Seine River has since seen a significant amount of water flow. In every sense. The Notre Dame Cathedral is undergoing a resuscitation to restore its original appearance, and the Eiffel Tower remains motionless. However, the changes have not just been the result of passing time; the city, the country, and the continent have all altered significantly.

French President Emmanuel Macron unexpectedly announced a snap parliamentary election just before the 2024 Olympics, following his party's humiliation at the hands of the ultra-left and ultra-right parties in the recent European Union (EU) elections. Though it's evident that they are more in control of French society than ever, the far right hasn't been able to capitalise on their growing momentum for the time being. A strong anti-immigration and anti-EU sentiment is blowing in French society due to the inflow of African and Asian immigrants. The situation is so grave that the French soccer captain Kylian Mbappe issued the following warning during a UEFA Euro 2024 pre-match press conference: "I don't want to represent a country that doesn't correspond to my values or our values."

Immigration was not really such a major problem in France a century ago. The left-wing Cartel des Gauches, an alliance of socialists and radicals, won the May 1924 legislative elections in France. In fact, after the victory of des Gauches in 1924, then President Alexandre Millerand, an "independent socialist" who was increasingly drawn to the right, resigned.

Macron, on the other hand, might be able to hang onto his position for the time being, but he will face constant challenges due to the growing support of the right wing in both the country and throughout Europe. Although the left-wing parties gained momentum, it may be due to the resistance to the ultra-rights. Thus, a century later, the nation's sociopolitical landscape is entirely different.

Europe is experiencing a severe social crisis, which may also have Paris as its epicentre. Thus, along with the Games, a "titanic" socio-political conflict persists, of which the French legislative election was one facet

Additionally, the Olympics have advanced significantly. A total of 3,089 athletes from 44 nations competed in 126 events across 17 sports in 1924. In contrast, 329 medal events in 32 sports will see close to 10,500 athletes from roughly 206 countries in 2024. From 6.25 lakh to an estimated 1.5 crore spectators, the number of attendees increased dramatically. In addition, about 50% of athletes in 2024 will be female, compared to only 135 in 1924.

Baron Pierre de Coubertin is regarded as the founder of the modern Olympic Games. He was a co-founder of the International Olympic Committee and served as its second president. The final Olympic Games under Coubertin took place in Paris in 1924. Numerous aspects were adopted during the 1924 Games, including the Olympic village and Olympic radio broadcasts.

New stars and fairytales are created at every Olympic Games. Indeed, Paris 1924 was a really exceptional year. Recall the magnificent 1981 film *Chariots of Fire*, which took home four Academy Awards. It's based on the real-life experiences of Eric Liddell and Harold Abrahams, two British Olympians from 1924. The "Flying Finn," Paavo Nurmi, a middle- and long-distance runner from Finland, was unquestionably the highlight of the 1924 Games. Because of their incredible skills, the Uruguayan football team also won over the hearts of football fans all over the world. And then there was Johnny Weismuller, one of the greatest swimmers of all time, who made his way to Hollywood's silver screen, where he would play Tarzan in 12 films.

But American tennis player Richard Norris Williams, who shared the mixed doubles gold medal, wrote the real fairytale of the 1924 Games. Williams barely escaped having both legs amputated on April 15, 1912, when he leaped from a height of more than 12 metres into freezing water at -2°C amid the Titanic's sinking. He made his way to the RMS Carpathia, which had come to rescue survivors, by swimming to a lifeboat. Twelve years later, he would take home an Olympic gold! And what is it if not a fairytale?

Numerous new athletes rose to prominence in a variety of sports; the Women's Olympiad started in 1921, and the Workers' Olympiad was set to start in 1925. On the other hand, viewers' excitement for the amateur efforts of gentleman players during the 1920 Antwerp Games was lacking. Through athletic displays at the 1924 Games, the Olympic Movement was able to respond, and it was preserved for at least a century. And that's the true contribution of the 1924 Games.

The Olympic Movement is facing a more serious dilemma now. The youth are becoming less interested in the Olympics, as seen by its declining TV ratings. The cost of organising the Games has risen too much. After hosting a game, many cities and nations — not only Montreal in 1976 or Athens in 2004 — faced severe financial crises. Large-scale infrastructure constructed for an Olympics tournament is frequently abandoned afterwards and becomes too costly to maintain. Thus, the most important question around the Paris 2024 Games is whether the Games can be revived in the city.

At the same time, Europe is experiencing a severe social crisis, which may also have Paris as its epicentre. Thus, along with the Games, a "titanic" socio-political conflict persists, of which the French legislative election was only one facet. Let's wait to see whether Paris can write a fairytale within that as well.

Why are stocks, gold, and dollar surging?

JEFFREY FRANKEL
Professor of capital formation and growth, Harvard University and research associate, US National Bureau of Economic Research

One explanation for the simultaneous increase in stock prices, gold, and the dollar lies in a robust US economy fuelling strong demand for these assets

THE US STOCK market has been on a tear over the past two years. The S&P 500 has increased by roughly 40% since President Joe Biden assumed office in January 2021 and, along with the Dow Jones and NASDAQ, is repeatedly setting new records. Moreover, the dollar has strengthened sharply against every major currency, while the price of gold surged to an all-time record of $2,470 an ounce earlier this month.

Economists and commentators have struggled to explain these trends. While the increase in gold prices could be attributed to elevated risk perceptions stemming from political and geopolitical uncertainties, this explanation does not account for the booming stock market. Conversely, the decline in the VIX volatility index since 2022 might explain the US stock-market rally but not the spike in gold prices.

One possible explanation for the boom in equities is the rapid emergence of artificial intelligence since late 2022, which has caused shares of companies like chip maker Nvidia to skyrocket. But while the tech sector has experienced the biggest gains and attracted the most attention, the market has been rising steadily across the board, even excluding tech stocks.

Some believe that the explanation for the rising prices of stocks and gold lies with US monetary policy. US interest rates have risen over the past two and a half years, including long-term rates. This should have reduced stock and commodity prices. Typically, stock markets fall when interest rates rise, assuming other factors remain unchanged. The reason is that interest-rate hikes reduce the present discounted value of future corporate earnings, prompting investors to shift from equities to bonds. Moreover, the price of gold also tends to fall when real (inflation-adjusted) interest rates rise and vice versa.

How, then, could anyone argue that US monetary policy can explain the booms in equities and gold? The argument is that market investors, quite naturally, expect the Federal Reserve to begin to ease monetary policy later this year, which in theory could explain both the high stock-market and gold prices.

So, what explains recent financial markets? Is it the tightening of US monetary policy over the past two years or current expectations of looser monetary policy in the future?

For an answer, we can turn to the foreign-exchange market. The strongest evidence against the monetary explanation for the high prices of equities and gold is that the US dollar is also higher now by roughly 14% than it was three years ago. If real interest rates were low or expected to fall, the greenback would have weakened over this period.

Another possible explanation for the spike in gold prices is that many countries have begun to diversify away from the dollar, particularly potential US adversaries such as China. But if this were the right explanation, the dollar would be weakening instead of hitting a 20-year high. Moreover, there is little evidence that heightened geopolitical tensions between the United States and China are driving a global shift away from the greenback, at least so far.

To be sure, US economic growth slowed to 2.5% in 2023. Nevertheless, it still exceeded the average growth rate for this century — around 2% since 2001. Consumer demand has remained strong

Another explanation for the simultaneous increase in stock prices, gold, and the dollar lies in a robust US economy fuelling strong demand for these assets.

To be sure, US economic growth slowed to 2.5% in 2023. Nevertheless, it still exceeded the average growth rate for this century — around 2% since 2001. Consumer demand has remained strong, bolstered by the Biden administration's signature economic bills — particularly the CHIPS and Science Act, the Infrastructure Investment and Jobs Act, and the Inflation Reduction Act — which helped boost growth in 2021 and 2022.

More importantly, economic activity has consistently exceeded expectations over the past three years. Two years ago, the prevailing belief among analysts and the general public was that the US was on the brink of, or already in, a recession. But contrary to these expectations, real GDP has continued to grow.

GDP growth was exceptionally high in 2021, and economic activity continued to surprise on the upside in 2022 and 2023, despite the grim predictions of a prolonged downturn. Growth has continued, so far, in 2024. And while neither Democrats nor Republicans are inclined to reverse fiscal expansion in order to stem the rise in national debt, demand for US assets as a safe haven has remained robust, suggesting that global investors have confidence in the stability and resilience of the American economy.

Each time growth exceeds expectations, demand for American stocks, gold, and the dollar increases. But it remains to be seen whether these trends will persist after November's presidential election.

LETTERS TO THE EDITOR

Optimising FDIs

Apropos of "Chinese conundrum" (*FE*, July 31), India is not in a position to dictate now in terms of allowing capital from countries abroad. The stunning growth in GDP that everyone is celebrating is a mere bubble. If the country has to benefit from foreign direct investment (FDI), conditions such as application of the latest technology, at least 80% Indian employees, export-oriented production, etc are required. These should be common to all and not selective. Trying to keep China away is a myth. Even the US could not do that. India still depends on China for 70% of its active pharmaceutical Ingredients. Ensuring proper monitoring and control is necessary on the capital from abroad, and not only from China. But it all needs a lot of political will and moral courage. India's growing debt that has exceeded 50% of GDP and the adverse balance of trade are also to be kept in mind before deciding a policy on FDIs.

Stop lecturing India Inc

India Inc. is not likely to be impressed by the admonishments of both Prime Minister Narendra Modi and Union commerce and industry minister Piyush Goyal for their failure to act in national interests. India Inc. will not do anything that could jeopardise their profitability. As is their tendency, business honchos are going to first see to their own interests and profits; everything else comes afterwards. This headmaster-like approach is uncalled for as it serves no purpose. India Inc. will not say anything publicly for fear of offending the government, but at private gatherings, they are sure to vent their anger.

BEYOND THE HYPE
Philipp Herzig, chief AI officer, SAP

AI that understands business context is a game changer. The significance of business context is a cornerstone in our approach to integrating AI into business applications, ensuring they are relevant, reliable and responsible

BEYOND MOBILES & LAPTOPS

Moving past AI's honeymoon phase

Tech will simplify tasks & streamline processes across industries

SANDEEP BUDKI

ARTIFICIAL INTELLIGENCE HAS already started transforming the realms of mobile devices and laptops, making these gadgets smarter, more intuitive, and more efficient. As the technology advances, its potential applications extend far beyond these familiar devices. AI is being applied in finance and insurance to increase fraud detection and financial forecasting accuracy. The healthcare industry is also starting to rely on machine learning and Big Data in order to improve medical diagnosis and clinical decision making.

"AI has the potential to completely revolutionise sectors like consumer electronics, healthcare, agriculture and financial services," said Vinay Sinha, corporate VP, India Sales, AMD. For instance, the technology is turning around how we understand the educational learning process, putting the focus on personalisation based on the individual characteristics and needs of learners. McKinsey and Morgan Stanley estimate the potential added value of GenAI for the global economy will be between $2.5 trillion and $4 trillion over the next three years.

ANKU JAIN, MANAGING DIRECTOR, MEDIATEK INDIA

BUSINESSES MUST COLLABORATE WITH DEVELOPERS TO DEMOCRATISE AI. THEY SHOULD ALSO BE EDUCATED ABOUT DATA PRIVACY AND MONITORING

AKSHAY KAMATH, DIRECTOR, INTEL INDIA

AS THE ADOPTION OF AI INCREASES, AN OPEN ECOSYSTEM IS CRUCIAL TO NURTURE AND ADVANCE INNOVATION IN THIS SPACE

VINAY SINHA, CORPORATE VP, INDIA SALES, AMD

AI HAS THE POTENTIAL TO REVOLUTIONISE CONSUMER ELECTRONICS, HEALTHCARE, AGRICULTURE AND FINANCIAL SERVICES

According to Akshay Kamath, director of PC Client Category at Intel India, AI has the potential to impact practically any and every segment that exists out there. Being able to run AI on devices is already unlocking new paradigms of creativity and improving efficiencies in so many workloads. But if we look beyond electronics, every industry has the potential to be revolutionised by AI, whether its fashion, weather patterns, you name it," he added.

Industry captains envision the automotive sector as the next major area to utilise AI. According to Anku Jain, MD of MediaTek India, GenAI will transform the automotive industry, much like it has transformed the mobile segment, by providing personalised applications. For instance, AI integration in vehicles can enable them to predict user preferences, offering a highly personalised driving experience, such as selecting routes based on previous traffic patterns or creating playlists based on the driver's mood.

Rohith Gopalakrishna, country sales manager of the Adaptive and Embedded Computing Group at AMD India, felt that while significant AI solutions are already available, the development and implementation of this technology in various sectors will continue to grow and evolve.

The potential of AI extends far beyond smartphones and laptops, with the capability to transform various industries and aspects of everyday life. The developer community will be essential in driving this progression. Sahil Arora, business lead, ISV & Ecosystem Engagement, Qualcomm India, emphasised that Indian developers are fostering innovation, leveraging their expertise in software development, AI, and cutting-edge technologies to create solutions that address local and global challenges.

As the adoption of AI technology increases, new ideas emerge to drive further adoption. Kamath feels that an open ecosystem is crucial for nurturing and advancing innovation in the field of AI. MediaTek's Jain emphasised that industries must collaborate with developers to democratise these technologies. "Developers should also be educated about the importance of robust data management, data privacy, and data monitoring," he added.

CROWDSTRIKE AFTERMATH

Lessons learned for IT resilience

Timely action to thwart attacks is now a priority

VINAYAK GODSE

THE CYBERSECURITY ECOSYSTEM has reached a critical point where any exposed vulnerability, is likely to be exploited. On the one hand, security threats are more persistent and advanced, employing sophisticated tactics, on the other, our digital footprint is expanding exponentially. The volume at which applications are deployed are increasing significantly. Architectures are intricate and interdependent now, interfacing with more third-party vendors. Cloud first now dominates new developments whereas complex supply chains drive enterprise systems.

Getting hold of the issue which could lead to security ramifications is now a critical priority. An incident happening in one part of the world is likely to affect you. You need global threat intelligence and take necessary enforcement actions. You leverage from the experiences of millions, and they leverage from yours – this is platformised security. Security is more scalable, manageable, seamless, and accelerated; hence, many enterprises are opting for it. One might be surprised why there was a global outage due to a single update! If you understand platformised security, you will also understand the reason.

The update pushed by CrowdStrike on July 19 was a sensor configuration update, a routine element of their endpoint detection and response (EDR) platform. However, this seemingly minor update triggered a logic error, causing system crashes and blue screens. Unified endpoint management, centralised updates, and deep integration with core Windows processes led to this outage. Organisations struggled to rollback. Pre-deployment testing failed to catch the issue. Further details are awaited to understand how such a critical issue bypassed pre-deployment testing.

The July outage has irrevocably altered the conversation around security resiliency. Polylithic design and architecture will be a major focus, though it will add a burden of cost. Endpoints would demand local failsafe measures. Multi-layered arrangements and micro-segmentation for critical infrastructure will dominate the discussion. Multitiered, hierarchical deployments will likely become a standard practice, going away from monolithic deployments. You may resort to crowd-

sourcing for testing updates. You may look towards predictive modelling for high-impact failure modes. Isolation and containment would be a priority. You may look at dependency-aware and granular rollbacks across multiple environments.

However, managing and navigating this increased complexity will be a significant challenge. Augmented reality and virtual replicas may come to aid. It is a harsh reality that we need to find ways to operate even in degraded states. This necessitates process re-engineering to continue providing core functionalities even during significant disruptions. We must accept the possibility of outages with this outage presenting a valuable learning opportunity: how to ensure graceful degradation that prioritises core security functions even during an outage.

New phishing scam targets iPhone users

A NEW PHISHING campaign is targeting iPhone users in India with India Post lures. Discovered by FortiGuard Labs Threat team, the threat actors send a message via iMessage directly to the recipients' registered Apple ID emails, falsely claiming that a package is waiting at an India Post warehouse. Once the user clicks the link in the message, they are directed to a fraudulent website

that mimics the official India Post site where they are asked for personal and financial information, leading to theft and data exploitation. The site then requests debit or credit card details, eventually leading to financial theft. A PPP model for next-gen sat systems

SPACE TECHNOLOGY IS expensive. The private sector can bring in fresh investment and help India remain cost competitive in the global space market. To this end, the Indian National Space Promotion and Authorisation Centre (IN-SPACe) has invited proposals from Indian entities to build and manage an earth observation satellite system under a PPP model. The initiative encompasses non-governmental entities to establish constellation of satellites in low earth orbit having a combination of sensors including panchromatic, multi-spectral and microwave. "This is an initiative by IN-SPACe and ISRO in creating a self-reliant, sustainable earth observation system catering to the growing demand for earth observation data," said IN-SPACe chairman Pawan Goenka.

Manage diabetes with connected tech

A COMMON CHALLENGE in diabetes management is the irregular intervals at which glucose levels are monitored. A new partnership between Fitterfly and Ascensia Diabetes Care – is intended to enhance the way people manage their diabetes. The collaboration introduces Ascensia's Bluetooth-enabled Contour Plus Elite glucometer into Fitterfly's diabetes program kits and Fitterfly app; it establishes a system where regular glucose monitoring is encouraged. With Fitterfly's coaches guiding them, programme members are prompted to use their glucometers regularly, ensuring that consistent monitoring becomes part of their routine.

HUNT FOR CRITICAL MINERALS

Why there's no rush at the auctions

A muted response to the government's attempts to auction critical mineral blocks is worrisome. ***Banasree Purkayastha*** looks at what is keeping away the big mining companies and the policy tweaks needed to drum up enthusiasm

24
CRITICAL MINERALS FOR WHICH CENTRE AUCTIONS MINING LEASE AND COMPOSITE LICENCE

A TYPICAL GREENFIELD MINE REQUIRES 4-5 YEARS TO COMMERCIALISE WITH SIGNIFICANT INVESTMENTS

$7.2 bn
INDIA'S IMPORT BILL FOR CRITICAL BATTERY MINERALS LIKE LITHIUM, COBALT & NICKEL IN FY2023

How have the auctions fared?

JUST RECENTLY, THE mines ministry cancelled the auction of three critical mineral blocks including the lithium mine in Jammu and Kashmir with 5.9 million tonnes of lithium ore under the third tranche of auction due to insufficient number of bids. In June, in the second tranche, it had to cancel the auction of 14 critical minerals blocks due to weak response. Under the first tranche, the government had cancelled the auction of 13 blocks of the 20 put on sale. Meanwhile, in the fourth tranche held in June, the government has put 21 critical mineral blocks under the hammer.

For the blocks that have been successfully auctioned, it is lesser known names such as Agrasen Sponge, Kundan Gold Mines, Sagar Stone Industries, Maiki South Mining and others that have won the bids. The mining giants of the country have kept away from these auctions, raising doubts about the attractiveness and feasibility of the blocks auctioned. Questions have even been raised about whether the successful bidders have the capability to mine these critical minerals.

What are the problems faced by the bidders?

A TYPICAL GREENFIELD mine requires at least 4-5+ years to commercialise with significant investments," says Rakesh Surana, partner, Deloitte India. Lack of clarity on the potential data of the reserves adds to the ambiguity. For instance, the industry has raised queries on the bid document with limited information on the size of the lithium block in J&K. Given the preliminary stage of exploration for most of the domestic blocks being currently auctioned, their commercialisation and associated benefits are unlikely to fully accrue in the current decade ending 2030, a recent ICRA report had said. The lithium block in Jammu & Kashmir has clay deposits. While the technology for extracting lithium from hard-rock and brine deposits has matured, the same for extracting lithium from clay deposits remains untested globally, it said. Given the inferior grade of explored domestic ores, advancement in mineral beneficiation/ processing technology remains critical for commercialisation of domestic critical mineral resources, ICRA had cautioned.

Why are these minerals important?

THE CRITICALITY IS based on two parameters — economic importance and supply risk. While 30 minerals are on the critical list, India has identified 24 for domestic exploration and mining. These are essential for sectors such as high-tech electronics, telecom, transport, defence, etc., and vital for the renewable technologies required to meet the 'Net Zero' commitment of India by 2070.

However, apart from copper, India meets 100% of its requirement of lithium, cobalt, and nickel through imports. India's import bill for these critical battery minerals was $ 7.2 billion in FY2023 (being 15% of coal imports).

What is the government policy regarding critical minerals?

THE NATIONAL MINERAL Policy 2019 set a seven-year roadmap to increase the value of non-fuel minerals produced in India by 200%, and halve the foreign trade deficit. The Mines and Minerals (Development and Regulation) Act was amended last year to attract private sector investment in the deep-seated and critical minerals segment. This allowed the Centre to auction mining lease and composite licence for 24 critical minerals. Following this, it has auctioned 14 blocks of critical minerals. The government also introduced the auction of exploration licence (ELs) for 29 deep-seated minerals. In March 2024, Karnataka (for gold, copper & lithium) and Rajasthan (for rare earths & potash) became the first states to launch ELs.

India is also scouting for acquiring critical mineral assets in Chile, Australia, and several African nations including Zambia, Namibia, Congo, Ghana, and Mozambique. Khanij Bidesh India, a joint venture of Nalco, Hindustan Copper, and Mineral Exploration Company, recently became the first domestic player to acquire overseas lithium brine assets in Argentina. The 2024 Budget also has proposed targeted customs duty exemptions for critical minerals, including lithium.

What more does it need to do?

ANALYSTS SAY THE government needs to provide some kind of assistance in terms of viability gap funding and thrust to technology development to attract more bidders at this auction stage for critical minerals. While the government has outlined Production Linked Incentives for green energy technologies like solar PV, battery, and green hydrogen, such incentives are missing for exploration, mining, and processing of critical minerals used as inputs in these sectors. With India's domestic capabilities at a nascent stage, incentivising domestic capability in critical mineral processing technologies like beneficiation and leaching is essential, said ICRA. In contrast to India's mineral exploration ecosystem, Canada, USA, and Australia follow the first-come first-serve allotment process for mineral concessions. This has helped them nurture 'junior' mining companies who possess the technological knowhow to explore a particular mineral and can access risk capital from diverse sources.

UPSC cancels Puja Khedkar's candidature

THE UNION PUBLIC Service Commission (UPSC) on Wednesday cancelled trainee Indian Administrative Service (IAS) officer Puja Manorama Dilip Khedkar's candidature in the 2022 Civil Services Examination (CSE) and barred her from appearing for any future examinations of the commission, after finding she had violated rules by appearing for the exam more times than what was allowed.

The UPSC had issued Khedkar a show-cause notice on July 18 for "fraudulently availing attempts beyond the permissible limit provided for in the Examination Rules by faking her identity". She was asked to submit her response to the notice by July 25, but she asked for further time till August 4. The UPSC allowed her till 3.30 pm on July 30 to make her submissions.

"Despite extension in time allowed to her, she failed to submit her explanation within the prescribed time. The UPSC has examined the available records carefully and found her guilty of acting in contravention of the provisions of the CSE-2022 Rules. Her provisional candidature for the CSE-2022 has been cancelled and she has also been debarred permanently from all the future Examinations/ Selections of the UPSC," a UPSC statement said.

Tthe UPSC had examined the data of the over 15,000 recommended candidates from 2009 to 2023, and found that apart from her, no other candidate had availed of more attempts than what is permitted under the CSE Rules. **ENS**

ISRAEL SILENT ON THE INCIDENT

Hamas chief killing in Iran fuels revenge fears

REUTERS
Cairo/Dubai, July 31

HAMAS LEADER ISMAIL Haniyeh was assassinated in the Iranian capital Tehran early on Wednesday morning, an attack that drew threats of revenge on Israel and fuelled further concern that the conflict in Gaza was turning into a wider Middle East war.

The Palestinian militant group and Iran's Revolutionary Guards confirmed Haniyeh's death. The Guards said it took place hours after he attended a swearing-in ceremony for Iran's new president.

Although the attack was widely assumed to have been carried out by Israel, Prime Minister Benjamin Netanyahu's government made no claim of responsibility and said it would not make any comment on the killing.

Buildings are damaged after an Israeli airstrike on Tuesday evening in the southern suburbs of Beirut, Lebanon AP

Ismail Haniyeh had been the face of Hamas' international diplomacy AP

Haniyeh had been the face of Hamas' international diplomacy as the war set off by the Hamas-led attack on Israel on October 7 has raged in Gaza. He had been taking part in internationally-brokered indirect talks on reaching a ceasefire in the Palestinian enclave.

The assassination took place less than 24 hours after Israel claimed to have killed a Hezbollah commander in the Lebanese capital Beirut in retaliation for a deadly strike in the Israeli-occupied Golan Heights.

The latest events appear to set back chances of any imminent ceasefire agreement in the nearly 10-month-old war in Gaza between Israel and Palestinian Hamas.

Hamas' armed wing said in a statement Haniyeh's killing would "take the battle to new dimensions and have major repercussions". Vowing to retaliate, Iran declared three days of national mourning and said the US bears responsibility because of its support for Israel.

US not part of Hamas leader's killing: Blinken

US SECRETARY of State Antony Blinken said on Wednesday the United States was not involved in the assassination of Hamas leader Ismail Haniyeh, and reiterated the importance of a ceasefire in Gaza. "This is something we were not aware of or involved in. It's very hard to speculate," Blinken said in an interview.

Uber, BYD partner to put drivers into EVs

REUTERS
July 31

UBER AND CHINESE automaker BYD announced a multi-year partnership on Wednesday aimed at bringing 100,000 new electric vehicles to the ride-hailing platform globally. The partnership, starting in Europe and Latin America, will offer drivers accessible pricing and financing for BYD's EVs on the Uber platform and will expand to markets in the Middle East, Canada, Australia and New Zealand, the companies said.

Uber's shares rose about 2.5% in premarket trading.

High sticker prices for electric vehicles and increased borrowing costs have acted as barriers to EV adoption over the past two years, causing demand for such vehicles to grow at a slower-than-expected pace.

Escalating climate change concerns and the pressing need to cut greenhouse gas emissions have given a boost to the global push for electrification in the transportation sector.

Uber and BYD will offer drivers discounts on vehicle maintenance, charging, financing and leasing, depending on the market, to support the transition to electric vehicles.

"When an Uber driver makes the switch to an EV, they can deliver up to four times the emissions benefits compared to a regular motorist, simply because they are on the road more," Uber CEO Dara Khosrowshahi said.

The companies added they will work together to integrate BYD's vehicles with self-driving technologies onto the ride-hailing platform.

BYD's US rival Tesla is set to unveil its robotaxi product in October as it to looks to pivot after EV sales fell in the first two quarters of the year.

BYD surpassed Tesla last year as the world's largest electric vehicle maker, though the Elon Musk-led EV maker has since regained the top spot.

RATE HIKE LARGEST SINCE 2007

BoJ lifts rates, signals slow end to historic bond buying binge

LEIKA KIHARA & TAKAYA YAMAGUCHI
Tokyo, July 31

THE BANK OF Japan raised interest rates to levels unseen in 15 years and unveiled a detailed plan to slow its massive bond buying, taking another step towards phasing out a decade of huge stimulus.

The rate hike, which dashed dominant market expectations for no change, was the largest since 2007 and came just months after the BOJ ended eight years of negative interest rates as the bank's chief seeks to dismantle his predecessor's unorthodox policies.

BOJ governor Kazuo Ueda did not rule out another hike this year and stressed the bank's readiness to keep raising borrowing costs to levels deemed neutral to the economy.

The hawkish comments pushed the dollar below 151 yen for the first time since March, as markets awoke to the reality that Japan was finally eyeing a full-fledged rate hike cycle.

Microsoft sinks, chipmakers rise as AI rally faces divide

NOEL RANDEWICH & ANNA TONG
July 31

MICROSOFT SHARES FELL 2.4% on Wednesday as growth in the tech giant's cloud business slowed, while Nvidia and other chipmakers rallied following a bright quarterly report from Advanced Micro Devices.

The gains in chipmakers and losses in their biggest customers underscored a divide in the AI landscape, with investors questioning if Wall Street's AI rally may have become overextended.

Microsoft is on track to shed more than $76 billion in its market capitalisation, if losses hold.

"Microsoft reported some deceleration in its core cloud business, but a huge increase in capex. That represents a transfer of wealth from Microsoft shareholders to Nvidia shareholders," said Gil Luria, senior software analyst at DA Davidson.

In its report after the bell, Microsoft said revenue from its Intelligent Cloud unit — home to the Azure cloud-computing platform — jumped 19% to $28.5 billion, but missed analysts' estimates of $28.7 billion.

"Since Microsoft makes up approximately 20% of demand for Nvidia's highest quality AI chips, increasing capex spend at Microsoft is good news for Nvidia's bottom line," said Kathleen Brooks, research director at XTB.

Big Tech companies — Meta, Amazon, Apple, Alphabet were up between 1% and 2%, while Tesla rose 4%, after having fallen on Tuesday following Microsoft's results. REUTERS

Toyota reports more certification cheating

YURI KAGEYAMAAP
Tokyo, July 31

TOYOTA REPORTED ON Wednesday more cases of cheating on certification tests for new models required by the Japanese government, on top of those acknowledged earlier.

In the latest report, Toyota Motor said it failed to carry out proper certification on seven models, including the Camry sedan and RAV 4 sport utility vehicle. The false tests included pedestrian protection, side collisions and steering impact. No safety problems were associated with the misconduct and people who own Toyota vehicles don't need to take any action, according to Toyota.

Toyota's overseas production was not affected.

Toyota's chairman, Akio Toyoda apologised in June while announcing massive testing irregularities involving six models, including the Crown and the Lexus RX luxury models. Production of some models in Japan was halted.

"It is with deep regret that we were not able to properly conduct our certification operations, and we apologise to our stakeholders for any concern or inconvenience this may have caused them," Toyota said in a statement.

Toyota said workers did not clearly understand the rules for preparing documents required for certification applications or the basic importance of such work. Managers also lacked that understanding and were not adequately involved. AP

Boeing names Kelly Ortberg as CEO

Embattled company posts bigger loss of $1.4 billion in Q2

ABHIJITH GANAPAVARAM & ALLISON LAMPERT
July 31

BOEING ON WEDNESDAY named aerospace industry veteran Kelly Ortberg as its President and CEO after a months-long search, tasking the former Rockwell Collins executive with the monumental job of turning around the struggling planemaker.

Ortberg, 64, faces a multitude of issues, including reviving jet production and rebuilding trust with regulators, the industry and the public. He will start on August 8.

The appointment lifted the shares of the planemaker 1.4% in early trading even as it posted a bigger loss of $1.4 billion in the second quarter due to struggles at its defense and space business.

One of the two global planemakers, Boeing has been mired in a reputational and safety crisis after a January 5 mid-air cabin panel blowout on an Alaska Airlines-operated MAX 9 jet carrying 171 passengers.

That led to an executive reshuffle in which CEO Dave Calhoun decided to step down by the end of the year and board chair Larry Kellner said he would not stand for re-election.

Calhoun will be a special advisor to the board until March 2025, Boeing chair Steve Mollenkopf said.

Shortly after the January accident, the US Federal Aviation Administration (FAA) barred Boeing from raising the production of its cash-cow 737 MAX family of jets above 38 a month, without estimating how long the limitation will last.

However, Boeing has been making aircraft below that level during some weeks to plug quality gaps, Reuters has reported.

During the second quarter, Boeing delivered a total of 92 aircraft, down 32% from last year. It posted a loss of $2.33 a share, as its troubled defense and space business exacerbated the financial strain on the company.

Kelly Ortberg, President and CEO, Boeing

The Defense, Space and Security unit, one of Boeing's three main businesses, has lost billions of dollars in 2023 and 2022, which executives attributed to cost overruns on fixed-price contracts.

Such contracts have high margins but leave defense contractors vulnerable to inflationary pressures that have dented US corporate earnings in the last few years.

A mechanical engineer, Ortberg has put more than 30 years in aerospace and defense, including numerous executive roles.

After five years leading Rockwell Collins, he steered the company's integration with United Technologies and RTX until his retirement from RTX in 2021. REUTERS

Tim Walz emerges as Harris VP contender

MARK NIQUETTE
July 31

TIM WALZ WAS retired from the Army National Guard and a high school social studies teacher and football coach in southern Minnesota when he made his first run for public office.

Now, after serving six terms in the US House and as Minnesota governor for more than five years, Walz, 60, is being seriously considered as Kamala Harris's running mate.

Minnesota Democrats say Walz would help Harris win the critical Blue Wall battleground states of Michigan, Pennsylvania and Wisconsin and appeal to rural and swing voters with his plain-spoken, down-to-Earth style. That was on full display when his characterisation of Donald Trump and Republicans as "weird" went viral.

Tim Walz is the highest-ranking enlisted soldier ever to serve in Congress

"It's not just his folksy way of talking about these issues but the fact that he's authentic, he's genuine, people can relate to him," said Ken Martin, a friend and chairman of the Minnesota Democratic-Farmer-Labor Party.

Martin said he met Walz in 2004 when Walz volunteered for Democratic presidential candidate John Kerry's campaign. Walz, he said, was motivated to volunteer after taking students to a rally for President George W Bush and getting kicked out because one had a Kerry sticker.

Walz challenged a six-term Republican congressman in 2006 in a mostly Republican and rural district and won in one of the state's biggest election upsets that year.

Walz was born in the small town of West Point, Nebraska, and says there were "24 kids in my class, 12 cousins." He enlisted in the Army National Guard at 17 and retired 24 years later as command sergeant major. He's the highest-ranking enlisted soldier ever to serve in Congress.

Walz taught in China and Nebraska, where he met his future wife, Gwen Whipple. They moved to her native southern Minnesota in 1996, where they both taught at Mankato West High School. In Congress, Walz emphasised veterans' and transportation issues. BLOOMBERG

Q1 EARNINGS REPORT

Tata Steel profit increases 51%

MANVI PANT
Bengaluru, July 31

TATA STEEL ON Wednesday reported a 51% rise in first-quarter profit as lower costs helped offset stagnant domestic demand.

The country's second biggest steelmaker by market capitalisation said its consolidated net profit rose to ₹960 crore (about $115 million) in the three months ended June 30, up from the ₹611 it earned last year.

Input costs fell over 7% to ₹20,642 crore, leading to a 11% decline in total expenses.

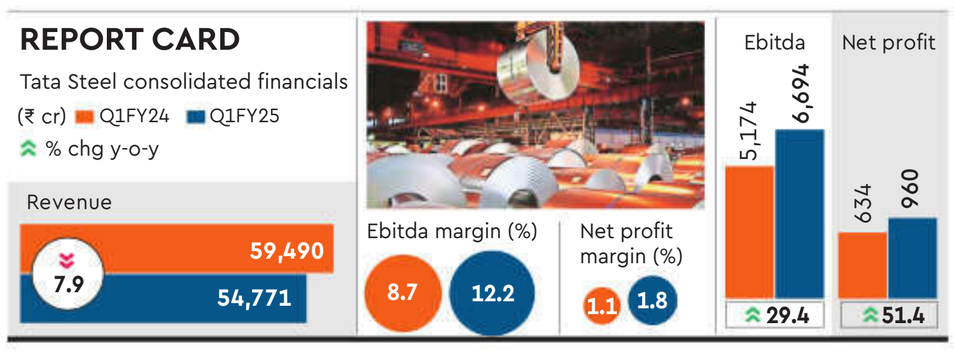

Tata Steel's cost initiatives drove strong growth in profit, said Sneha Poddar, vice-president at Motilal Oswal Financial Services.

However, the company's India operations, which is its largest, reported a 7% fall in June-quarter revenue, hit by dip in sales volumes as the Tata Group company made lesser deliveries in the country.

The decline in revenue was due to weak volume growth, Poddar added.

The fall in the India business revenue lead to a 8% drop in overall revenue from operations to 547.71 billion rupees.

The government's spending in infrastructure and manufacturing had boosted sales volumes in the previous few quarters on strong demand but remained stagnant in the April-June period. —REUTERS

Godrej Properties profit jumps fourfold

RAGHAVENDRA KAMATH
Mumbai, July 31

BEATING THE STREET estimates, Godrej Properties posted over fourfold jump in net profit at ₹520 crore in Q1FY25 as compared to ₹125 crore in corresponding quarter of previous financial year. The jump in profit was aided by lower taxes and expenses.

As per a Bloomberg poll, analysts estimated profit of ₹377 crore. The company said it was highest-ever net profit for it. However, the company's revenue from operations fell 21% to ₹739 crore in Q1FY25 as compared to ₹936 crore in Q1FY24. Analysts expected revenues of ₹1,338 crore.

Tax expenses more than halved to ₹30 crore in Q1FY25 and total expenses fell 18%.

Focusing on both online & offline presence: DMart

VIVEAT SUSAN PINTO
Mumbai, July 31

AVENUE SUPERMARTS, WHICH runs the DMart chain of stores in India, is taking a contrasting view on its future retail operations in the country. While new store additions will be increased by 20-30 outlets annually over the next 2-3 years mainly in smaller cities, e-commerce will largely be centred in bigger cities, MD & CEO Neville Noronha said in an analysts' meet this week.

"We are clear that we want to do both brick and mortar retail and e-commerce. The two complement each other. While customers enjoy going to our physical stores in smaller cities, we find that consumers in larger cities such as Mumbai and Ahmedabad prefer having a share of their grocery basket coming from e-commerce. We see a convergence of our (online) model with the expectations of the market," Noronha said.

DMart Ready, the online platform of the company, contributed around 6% to the retailer's consolidated topline of ₹50,789 crore in FY24, with e-commerce operations in 23 cities. The retailer sees the contribution of its online operations growing in the next few years.

However, Avenue Supermarts will not enter the q-commerce segment since the focus of q-commerce players remains on "convenience" rather than "value", it said.

"We want to chart our own path on the e-commerce side of the business. We want to be relevant to consumers from a value standpoint, even if it is a bit inconvenient. We are clear that we want to be distinctly relevant, where we stand apart from the rest," Noronha said.

The value retailer is looking to add around 60-70 physical outlets annually in the next 2-3 years from 40-41 stores added annually now, Noronha said, as the company seeks to capitalise on the organised retail opportunity in smaller towns and cities.

"Brick and mortar retail is aspirational and fun in smaller cities. We are projecting store additions of around 40-45 in FY25. But over the longer term, we have to increase our store additions to maintain our revenue run rate," he said.

While DMart has in the last three years doubled its new store openings from 22 outlets in FY21 to 41 outlets in FY24 (FY22 was an exception with 50 store launches), the grocery retailer, which is the country's second-largest player after Reliance Retail, lags its peer by a wide margin in terms of total number of stores.

At the end of the June 2024 quarter, DMart had a total of 371 stores versus Reliance Retail's 18,918 stores, adding 7 stores during the period versus the latter's store additions of 331 for the June quarter.

But DMart's unit economics have been better than Reliance Retail's with the former deriving revenue of nearly ₹33,000 per sq.ft. versus the latter's ₹10,000-11,000 revenue per sq.ft, according to sector analysts.

WE WANT TO CHART OUR OWN PATH ON E-COMMERCE. WE WANT TO BE RELEVANT TO CONSUMERS FROM A VALUE STANDPOINT...
NEVILLE NORONHA, MD & CEO, AVENUE SUPERMARTS

Adani Power posts 55% fall in profit

RAGHAVENDRA KAMATH
Mumbai, July 31

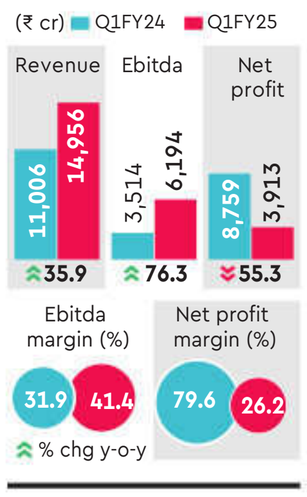

ADANI POWER POSTED a 55% decline in its net profit at ₹3,913 crore for Q1FY25 compared to ₹8,759 crore in the corresponding quarter of previous financial year. The net profit declined due to higher expenses.

The company's revenues went up 36% at ₹14,956 crore in Q1FY25 as compared to ₹11,006 crore in Q1FY24. Total expenses went up 14% on a year-on-year (y-o-y) basis in Q1FY25. The firm's earnings before interest, tax, depreciation, and amortisation (Ebitda) rose 76.3% to ₹6,194 crore.

During Q1FY24-25, higher volumes were contributed by almost all plants led by Mundra and Mahan in addition to Godda, the second 800 MW unit of which was commissioned in June last year. Domestic power sales volumes continued to be driven by growing power demand, and offtake under power purchase agreements was further supported by falling prices of imported coal, the firm said.

Depreciation charge for Q1 FY 2025 increased to ₹996 crore as compared to ₹935 crore for Q1 FY 2024 due to the addition of unit II of the Godda ultra supercritical Thermal Power Plant. Finance cost for Q1FY25 reduced to ₹811 crore as compared to ₹883 crore for Q1FY24, the firm said.

SB Khyalia, CEO, Adani Power said, "As we grow from strength to strength, we have undertaken advance developments to secure execution of pipelines for 3 ultra-supercritical projects of 1,600 MW each to prepare ourselves for the resurgence in thermal power sector."

Zee back in black in June quarter, beats estimates

VIVEAT SUSAN PINTO
Mumbai, July 31

MEDIA FIRM ZEE Entertainment reported better-than-expected earnings for the June quarter amid a pick-up in subscription revenue. The company reported a consolidated net profit of ₹118 crore in the June quarter on Wednesday versus a loss of ₹53.4 crore reported in Q1FY24.

Bloomberg consensus estimates had pegged net profit for the quarter at ₹97 crore. Revenue in Q1 rose 7.4% year-on-year (y-o-y) to ₹2,131 crore, which compares favourably with a Bloomberg consensus estimate of ₹2,119 crore for the period. While Zee's domestic ad revenue for the quarter declined by 3.6% due to the IPL and general elections, subscription revenue saw an uptick, touching ₹102 crore for the June quarter.

Earnings before interest, tax, depreciation, and amortisation (Ebitda) was up 70% y-o-y to ₹271 crore amid cost rationalisation measures that the firm undertook in June quarter. In an investor presentation on Wednesday, Zee said that it saw "meaningfully better" margins for FY25 versus FY24. Zee has said that it is aiming to deliver Ebitda margins between 18% to 20% in FY26 as part of its turnaround plans.

"The results of several strategic steps including frugality, optimisation and quality control is being witnessed gradually," Punit Goenka, MD & CEO, Zee Entertainment said during its Q1 earnings call on Wednesday.

Shares of Zee Entertainment gained as much as 6% post the results announcement on the BSE on Wednesday. It finally closed up 2.58% on the BSE at ₹148.85 apiece.

Margin growth healthy: Goenka

ZEE ENTERTAINMENT IS on track with healthy growth momentum seen in margins, MD & CEO Punit Goenka said in an earnings' call on Wednesday after announcing its June quarter results (Q1FY25). Zee saw Ebitda margins expand 500 bps to 12.8% in Q1 versus 7.8% reported last year, thanks to operational efficiencies and a reduction in workforce by 15%.

"Our efforts will be focused towards enhancing our revenue profile, while staying committed towards our targeted aspirations for the future," Goenka said during the investor call. As part of the turnaround plan laid out in February after the merger collapse with Sony, Zee had said it was aiming for a revenue growth of 8-10% and Ebitda margins of 18-20% by FY26.

Goenka noted that while there were positive signs in ad market, recovery remains slow, particularly in rural areas. Additionally, advertising for general entertainment was impacted by the general elections and sports events, though the second half of the ongoing fiscal would be better. On subscription front, Goenka expects gradual growth in linear television in coming quarters, while digital revenue from Zee5 will remain stable. —FE BUREAU

Tax regime change, cash flow key reasons for share buyback: Indus Towers

JATIN GROVER
New Delhi, July 31

INDUS TOWERS ON Wednesday said the confidence in free cashflow improvement as well as changes to the current tax regime for buyback effective October 1 are among the key reasons for the tower company to consider a ₹2,640 crore share buyback via tender offer.

The company was not able to pay dividends to the shareholders for the past two years, and sees buyback as a tax efficient way of distributing cash in the current tax regime.

"Overall objective of this buyback is to basically distribute the cash. There is more confidence in free cash flows going forward," Vikas Poddar, chief financial officer of Indus Towers, said in the post April-June quarter earnings call. The company's confidence on improvement in cashflows comes from the fact that its one of the largest clients Vodafone Idea has started clearing past dues besides paying monthly bills.

With regard to changes in the buyback taxation, from October 1 the entire amount received by shareholders from tendering shares in the buyback, will be taxed like dividends as per their tax slabs. Earlier, the tax burden of buybacks was on companies.

After a gap of eight years, Indus Towers on Tuesday approved to buyback up to ₹56.7 million equity shares of the company. The buyback price is at ₹465 per share, which is a premium of 4% from the stock's closing price of ₹447.95 on Tuesday. The record date for the share buyback has been fixed at August 9, 2024.

"From a company perspective, it (buyback) certainly improves the financial ratios for us and it also helps in preserving our distributable reserves to some extent for any future dividend," Poddar said. With regard to past dues from Vodafone Idea, Indus Towers said it is discussing a final payment plan with the company to clear the balance. Besides, the company is also talking to the telecom operator on its network expansion plans after the recent fundraise.

During Q1, Indus Towers had a write back of ₹760 crore in provision for doubtful receivables, aided by collections against past overdue from Vodafone Idea. The firm now carries an allowance for doubtful receivables of ₹4,624 crore as at June 30 towards Vodafone Idea compared to ₹5,385 crore as on March 31.

AT A GLANCE

- With regard to changes in the buyback taxation, the amount received by shareholders, will be taxed like dividends as per their tax slabs
- After a gap of eight years, Indus Towers approved to buyback up to ₹56.7 million equity shares

Phones below ₹8,000 to help migrate 156 mn users to 5G by 2030: Study

FE BUREAU
New Delhi, July 31

FOLLOWING THE LAUNCH of a new chip by Qualcomm to bring down the cost of 5G smartphones below ₹8,000, an analysis by Techarc suggests that the same will lead to migration of 156 million feature phone users to 5G by 2030.

"Between 2024-2030 period, we estimate the 5G widening into sub $99 segment to add $13 billion cumulatively in revenues for the smartphone industry," the research firm said in a note on Wednesday.

On Tuesday, Qualcomm launched Snapdragon 4s Gen 2 India-specific chipset, which will for the first time enable mobile phone companies to launch 5G smartphones in the below ₹8,000 segment. Even as Qualcomm is in touch with all the smartphone makers to integrate the chipset for affordable 5G devices, Xiaomi will be the first brand to adopt the chipset and announce the device by 2024 end.

"Beginning 2025, we expect to see 2-3% contribution of the smartphone revenues in India coming from 5G smartphones sold in sub $99 segment. During the period analysis suggests there could be addition of 17-32 million users annually to 5G smartphone base," said Faisal Kawoosa, chief analyst, Techarc.

According to Kawoosa, this is the third attempt where the ecosystem is trying to do something for the below Rs 10,000 segment and is fundamentally technology driven than business and finance. Among challenges pointed by Techarc for adoption of sub-₹8,000 5G smartphones is the competition from the second hand smartphone market.

INDIANS ASKED TO USE SAFETY VAULT INSIDE ROOMS

Athletes feel the Paris heat; food, travel issues raised too

Indian official says matter was flagged, normal services are slowly resuming

MIHIR VASAVDA
Paris, July 31

Athletes have complained about living in the tiny Games Village rooms without air-conditioners. To reduce the carbon footprint, Paris Olympics organisers decided to do away with air-conditioning inside athletes' rooms REUTERS

A BUS RIDE from the Olympic Village to the Table Tennis Arena takes 45 minutes. And for an Indian boxer, travelling on one of the hottest days of the Games in a non-air-conditioned coach, it felt like a "journey to hell".

"There was a small vent for ventilation but you couldn't open the windows and hence, it was very suffocating. I was sweating even before I entered the arena," the athlete, requesting anonymity, said. "It was cooler outside than inside the bus."

She isn't the only one complaining and heat is just one of the woes expressed by the elite athletes who have converged here for the Games costing close to $9 billion. Besides the transport headache, Olympians in Paris are losing sleep due to empty stomachs or concerns about their belongings.

A Japanese rugby player has lost his wedding ring. An Australian coach complained of a stolen credit card. The Americans have mocked the cramped bedrooms. South Korean swimmers checked out after just one day, citing transportation issues. And the Indians feel the food is inadequate and rationed -- Team Great Britain flew in their own chef.

For thousands of athletes, the sprawling Olympic Village is a "home". But they are not feeling at home. "From sleeping to bus to food... I don't think there's any athlete I have spoken with (who) is satisfied," India's top-ranked singles tennis player Sumit Nagal said.

Badminton doubles star Chirag Shetty admitted that he "wouldn't say it was the best". Boxer Amit Panghal has been ordering *dal* and *roti* for dinner from a nearby Indian restaurant. Two-time Olympic medallist P V Sindhu, after securing her spot in the knockout rounds on Wednesday, said the fan worked for her the night before, the hottest of the Olympics so far, but wasn't sure if others could sleep well.

To reduce the carbon footprint, Paris Olympics organisers decided to do away with air conditioning inside athletes' rooms. Maybe, the noble green thought didn't factor in the heat wave that hit Paris, resulting in sweaty Olympians cramped in pokey quarters.

Earlier this week, USA's tennis sensation Coco Gauff gave her followers on TikTok a glimpse into the rooms where she and her teammates are staying. The video had screaming sound effects with a caption that read: "10 girls, two bathrooms".

An Indian table tennis player said the "cardboard" beds are so uncomfortable that they faced trouble "sleeping peacefully" for the first couple of nights. "But that is something we still got used to. The real problem is at the dining hall, where either there isn't enough food or, if it is available, the queue is very, very long," the paddler added.

Supply issues have marred the football-field-sized dining area -- the 3,500-seater hall feeds around 15,000 people and has been serving up to 40,000 meals per day -- since the first day.

Shuttler Tanisha Crasto said the day there was rajma on the menu, "it got over even before we could reach". And the containers were not refilled. Vegetarian items aren't the only ones that are being rationed -- eggs and grilled meats, too, have been in short supply, according to leading French sports newspaper *L'Equipe*.

An official with the Indian contingent said the issue was flagged with the organisers and normal service was slowly resuming. "We have advised our athletes to be careful in ordering from outside since we can't be sure of the quality. Inside the Village, at least quality won't be compromised," said the official.

The Indian contingent, meanwhile, is bracing itself for other issues which "can be under its control". On top of that list is transport.

Team India has kept one station wagon, a mini SUV, two minivans and four other vehicles on standby to ferry athletes from the Village to the Games venues, which are spread all over Paris. "Every night, we look at the schedule for the next day and assign these vehicles to each athlete who is set to compete. This is a back-up, just in case the bus is running late," said the official, adding that this advanced planning came in handy for the badminton players and equestrian team members.

Indian athletes have also been asked to use safety vaults inside their rooms to store their valuables after incidents of robbery were reported inside the Village. According to the *Japan Times*, a Rugby Sevens player from the country filed a police complaint for the theft of a wedding ring, a necklace and cash from his room inside the Village. The estimated value was €3,000. *Le Parisien* reported that an Australian hockey team coach filed a police complaint regarding the theft of a bank card. The report added that the individual was contacted by his bank for a "suspicious transaction" of Australian $1,500.

Nagal, meanwhile, said he wasn't impressed with the Village as a whole. "This is the biggest tournament in the world for every sport. I think they could have done a better job," he said.

RISK TO INVESTORS - *(For details refer to section titled "Risk Factors" on page 29 of the RHP)*

1. *Technology related risks:* We provide a comprehensive suite of products. If we fail to develop and innovate our technology-based expertise in a timely and effective manner, our brand, competitive edge and market share may lose or may face resistance from our existing or potential clients. We may experience disruptions, outages, and other performance problems with our technology infrastructure due to a variety of factors, including introductions of new functionality, human or software errors, capacity constraints and denial-of-service attacks, which may reduce the quality of our products or interfere with our clients' use of our products, leading to reduction in demand, decrease in revenues, and increase in our costs.
2. *Risk associated with maintaining existing clients or attracting new clients:* Our business is subscription based, and clients are not obligated to renew and may not renew their subscriptions. If we fail to attract new clients and maintain and expand new and existing client relationships, our revenue from subscriptions may grow slower than expected, may not grow at all, or may decline. Further, a portion of our business is attributable to certain large clients. The contribution by our top 10 clients to our revenue from contract with customers has decreased from Fiscal 2023 to Fiscal 2024.

Particulars	For Fiscal 2024	For Fiscal 2023	For Fiscal 2022
Contribution by our top 10 clients to our revenue from contract with customers (amount in ₹ million)	283.56	289.04	189.44
Contribution by our top 10 clients to our revenue from contract with customers (in %)	27.38%	32.10%	32.09%

While we have witnessed an increase in number of clients in the last three fiscals, we cannot assure a similar account growth rate or at all.

3. *Ecommerce industry related risk:* Our revenues are based on transaction volumes on e-commerce platforms and are typically a function of the growth of online sales of our clients. Our business, results of operations, financial condition, cash flows and prospects will suffer to the extent the ecommerce industry in India, in particular our ecommerce enterprises and clients, do not use of the internet as a medium of commerce in India do not continue to grow.
4. *Competition risk:* Some of our competitors have made or could make acquisitions of businesses that allow them to offer more competitive and comprehensive solutions, accelerate the adoption of new technologies that better address client needs, or develop and expand their product offerings more quickly than we do. Our inability to anticipate or effectively react to competitive challenges, could materially and adversely affect our business, financial performance, cash flows and prospects.
5. *Absence of listed industry peers in India or abroad:* There are no direct listed companies in India or internationally with whom our business model can be compared that matches the size and scale of our business operations. Our competitive position and any valuation exercise undertaken for the purposes of the Offer may not be based on a benchmark with our industry peers in India or abroad.
6. *Dependency on dropship volumes of our clients:* A portion of our e-commerce business is dependent on the dropship volumes of our clients. If our clients are able to develop their own system to manage their dropship operations, increase utilisation of their in-house services, or reduce their allocation of dropship volumes to us, our business, financial performance, cash flows and growth prospects would be materially and adversely affected.
7. *High employee benefits expense related risk:* Employee benefits expense constitute the largest portion of our total expense. Our employee benefits expense as a percentage of our revenue from contract with customers and as a percentage of total expenses were as follows:

Particulars	For Fiscal 2024	For Fiscal 2023	For Fiscal 2022
Employee benefits expense as % of revenue from contract with customers	62.71%	68.87%	71.79%

RISK TO INVESTORS - *(For details refer to section titled "Risk Factors" on page 29 of the RHP)*

1. *Technology related risks:* We provide a comprehensive suite of products. If we fail to develop and innovate our technology-based expertise in a timely and effective manner, our brand, competitive edge and market share may lose or may face resistance from our existing or potential clients. We may experience disruptions, outages, and other performance problems with our technology infrastructure due to a variety of factors, including introductions of new functionality, human or software errors, capacity constraints and denial-of-service attacks, which may reduce the quality of our products or interfere with our clients' use of our products, leading to reduction in demand, decrease in revenues, and increase in our costs.
2. *Risk associated with maintaining existing clients or attracting new clients:* Our business is subscription based, and clients are not obligated to renew and may not renew their subscriptions. If we fail to attract new clients and maintain and expand new and existing client relationships, our revenue from subscriptions may grow slower than expected, may not grow at all, or may decline. Further, a portion of our business is attributable to certain large clients. The contribution by our top 10 clients to our revenue from contract with customers has decreased from Fiscal 2023 to Fiscal 2024.

Particulars	For Fiscal 2024	For Fiscal 2023	For Fiscal 2022
Contribution by our top 10 clients to our revenue from contract with customers (amount in ₹ million)	283.56	289.04	189.44
Contribution by our top 10 clients to our revenue from contract with customers (in %)	27.38%	32.10%	32.09%

While we have witnessed an increase in number of clients in the last three fiscals, we cannot assure a similar account growth rate or at all.

3. *Ecommerce industry related risk:* Our revenues are based on transaction volumes on e-commerce platforms and are typically a function of the growth of online sales of our clients. Our business, results of operations, financial condition, cash flows and prospects will suffer to the extent the ecommerce industry in India, in particular our ecommerce enterprises and clients, do not use of the internet as a medium of commerce in India do not continue to grow.
4. *Competition risk:* Some of our competitors have made or could make acquisitions of businesses that allow them to offer more competitive and comprehensive solutions, accelerate the adoption of new technologies that better address client needs, or develop and expand their product offerings more quickly than we do. Our inability to anticipate or effectively react to competitive challenges, could materially and adversely affect our business, financial performance, cash flows and prospects.
5. *Absence of listed industry peers in India or abroad:* There are no direct listed companies in India or internationally with whom our business model can be compared that matches the size and scale of our business operations. Our competitive position and any valuation exercise undertaken for the purposes of the Offer may not be based on a benchmark with our industry peers in India or abroad.
6. *Dependency on dropship volumes of our clients:* A portion of our e-commerce business is dependent on the dropship volumes of our clients. If our clients are able to develop their own system to manage their dropship operations, increase utilisation of their in-house services, or reduce their allocation of dropship volumes to us, our business, financial performance, cash flows and growth prospects would be materially and adversely affected.
7. *High employee benefits expense related risk:* Employee benefits expense constitute the largest portion of our total expense. Our employee benefits expense as a percentage of our revenue from contract with customers and as a percentage of total expenses were as follows:

Particulars	For Fiscal 2024	For Fiscal 2023	For Fiscal 2022

II. Quantitative Factors :

Certain information presented below relating to our Company is based on the Financial Statements. For details, see ***"Financial Statements"*** on page 370 of the RHP.

Some of the quantitative factors which may form the basis for calculating the Offer Price are as follows:

1. Basic and diluted earnings per Equity Share ("EPS"):

March 31, 2023	(9.97)	(9.97)	2
March 31, 2022	(1.74)	(1.74)	1
Weighted Average	**(6.71)**	**(6.71)**	-

Notes:

- *Basic and diluted earnings per equity share: Basic and diluted earnings per equity share are computed in accordance with Indian Accounting Standard 33 notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended. Basic EPS amounts are calculated by dividing the profit/(loss) for the year attributable to equity holders of the Holding Company by the weighted average number of equity shares outstanding during the year. Diluted EPS amounts are calculated by dividing the profit/(loss) attributable to equity holders of the Holding Company by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares. Potential equity shares have not been considered in the calculation of diluted loss per share for the year ended March 31, 2024, March 31, 2023, March 31, 2022, since these would decrease the loss per share, hence considered "anti-dilutive".*

Based on basic EPS for Fiscal 2024	N.A	N.A
Based on diluted EPS for Fiscal 2024	N.A	N.A

3. Industry Peer Group P/E ratio

There are no listed companies that engage in a business similar to that of our Company or are of a comparable size to that of our Company. Accordingly, it is not possible to provide an industry comparison in relation to our Company.

4. Return on Net Worth ("RoNW")

As derived from the Restated Consolidated Financial Statements:

For the year ended	RoNW (%)	Weight
March 31, 2024	(8.65)	3
March 31, 2023	(12.76)	2
March 31, 2022	(2.04)	1
Weighted Average	**(8.92)**	-

Notes:

- *Return on Net Worth = Profit/(loss) for the period attributable to equity holders of our Company divided by total equity attributable to equity holders of the parent.*
- *Net Worth = Equity share capital + Equity component of compulsorily convertible preference shares + other equity.*
- *The weighted average return on net worth is a product of return on net worth and respective assigned weight, dividing the resultant by total aggregate weight.*

^ GMV Y-o-Y Growth: Gross Merchandise Value year-on-year Growth. GMV of the group has been growing consistently over the last three Financial Years. GMV of the group has increased from ₹57,994.63 million in Financial Year 2022 to ₹72,576.34 million in Financial Year 2023 and ₹91,211.28 million in Financial Year 2024 at a CAGR of 25.41% comparing Financial Year 2022 to Financial Year 2024.

[1] Up to financial year ended March 31, 2022, the group did not recognise any operating segment since the group operated primarily in trading and manufacturing of baby and kids products, which was the only single reportable segment. During the year ended, March 31, 2023 and subsequent to the acquisition of 100% stake in Digital Age and expansion of Globalbees Brands and international operations, for management purposes, the group is reorganised into business units, which provides relevant information for better understanding of the group's financial performance and resource allocation decisions.

Solely to comply with reporting requirements under Ind AS 108, the management has restated the corresponding previous year figures. However, in view of significant difference in the nature of operations of the group in the previous year which was primarily trading and manufacturing of baby and kids products, such figures are not comparable. For management purposes, the group is organised into business units based on its products and services and has following reportable operating segments: India multi-channel, International, Globalbees Brands and Others.

[1] India multi-channel - This segment includes business of manufacturing, buying, selling, advertising, promoting baby and kids products in India.

[2] International segment - This includes business of buying, selling, advertising, promoting baby and kids products outside India, which primarily includes United Arab Emirates and KSA.

[3] Globalbees Brands segment - This is a direct-to-consumer (D2C) venture that aggregates and invests in e-commerce brands and helps the brands scale and transform their digital impression.

[4] Others - This includes other businesses which are not material to the group.

[5] Total - Sum total of India multi-channel segment, International segment, Globalbees Brands segment, Others, Inter-Company adjustment / conso adjustment.

2. **Recommendation of the committee of Independent Directors of Target Company:**

2.1 The committee of Independent Directors of the Target Company ("IDC") published its written reasoned recommendations on the Open Offer to the Shareholders of the Target Company, on March 16, 2024 in the same newspapers in which the DPS was published ("IDC Recommendations"). A summary of the relevant extracts of the IDC Recommendations is given below:

Members of the IDC	Shri Udit Pat Singhania (Chairman), Shri Tanmay Sharma (Member) and Shri Ravi Malhotra (Member).
Recommendation of the IDC on the Offer, as to whether or not the Offer is fair and reasonable	The IDC sought external professional advice in order to provide appropriate recommendation on the Open Offer and invited bids from the merchant bankers for the same. Sundae Capital Advisors Private Limited, SEBI registered Category 1 Merchant Banker, was appointed to assist the IDC. The report provided by Sundae Capital Private Limited suggested two different values for the Equity Shares of the Target Company using two separate criteria. As per Asset Approach the price per Equity Share is set as ₹ 1221.70 (Indian Rupees One Thousand Two Hundred Twenty-One and Seventy Paise only) and as per Market Approach the price per Equity Share is set as ₹ 541.13 (Indian Rupees Five Hundred Forty One and Thirteen Paise only). In terms of Regulation 8(1), IDC may take into consideration highest of the two values and based their recommendation accordingly. Two out of three members of IDC are of the opinion that the price of ₹ 1221.70 (Indian Rupees One Thousand Two Hundred Twenty-One and Seventy Paise only) is the fair price for the Equity Shares of the Company.
Summary of reasons for the recommendation	The IDC has reviewed the PA, the DPS, and the DLOF issued by the Manager on behalf of the Acquirer. Based on such review, the IDC noted that the Offer Price offered by the Acquirer appears not to be fair and reasonable. The Open Offer is for acquisition of publicly held equity shares of the Target Company. The shareholders have the option to tender the shares or remain invested in the Target Company. The IDC sought independent professional advice on the ongoing open offer from Sundae Capital Advisors Private Limited, a SEBI registered Category I Merchant Banker, who has given his valuation report dated March 16, 2024 determining the value of Equity Shares of the Company as per Asset Approach ₹ 1221.70 (Indian Rupees One Thousand Two Hundred Twenty-One and Seventy Paise only) per Equity Shares. The IDC, however, suggests that shareholders of the Target Company should independently evaluate the Open Offer, market performance of the Target Company's shares and take informed decisions in respect of the Open Offer. Further, IDC would like to draw attention of the shareholders that post the Public Announcement dated January 30, 2024, the share price of the Company has increased, and the current share price is higher than the Offer Price. The shareholders are advised to independently evaluate the open offer and take an informed decision, whether or not to tender their equity shares in the open offer.
Disclosure of voting pattern of IDC	The price of Rs. 1221.70 as suggested by Sundae Capital Advisors Private Limited was recommended by 2 members of IDC. One member of IDC recommended to follow market trend.
Details of independent advisors, if any	Sundae Capital Advisors Private Limited, SEBI registered, Category 1 Merchant Banker, was appointed by the IDC to provide its independent opinion with respect to the Offer Price.
Any other matter to be highlighted	None

2.2 The IDC issued its recommendation on the Open Offer by relying on the valuation report dated March 15, 2024 ("**Valuation Report**") furnished by Sundae Capital Advisors Private Limited, a SEBI registered Category-I Merchant Banker ("**Sundae Capital**"). The Target Company disseminated a copy of the IDC Recommendation and on March 16, 2024 which is available on BSE website at https://www.bseindia.com/xml-data/corpfiling/AttachHis/c7596cbe-23f1-4eab-80eacb0a80f0f5de.pdf and the Valuation Report on March 27, 2024 which is available on BSE website at https://www.bseindia.com/xml-data/corpfiling/AttachHis/04b89bbd-141e-45b3-82d7-5f9d21e462e3.pdf.. Thereafter, due to various queries and complaints from the shareholders of the Target Company, the Acquirer sought expert advice from Finvox Analytics, a registered valuer entity for Securities & Financial Asset Class ("Finvox"), to provide an expert opinion on the Valuation Report furnished by Sundae Capital. Finvox has provided its opinion on the Valuation Report vide its report dated May 3, 2024 ("Expert Opinion"). The Target Company disseminated a copy of the Expert Opinion on July 02, 2024 which is available on BSE website at https://www.bseindia.com/xmldata/corpfiling/AttachHis/2adcfbee-9d5d-410b-bb70-f3c641ddea92.pdf.
