RISKS TO INVESTORS:

(For details refer to section titled "Risk Factors" on page 34 of the RHP)

1. Our business is primarily dependent on contracts awarded by governmental authorities. 2. Losses and negative cash flow from operating activities in the past: We have sustained negative cash flows from operating activities in the past and may experience earnings declines or operating losses or negative cash flows from operating activities in the future. Any such instances of non-compliance may have an adverse effect on our reputation and impact our profitability.
7. Risk related to delay in completion of construction: Delays, such as natural disastar, seasonal impact, delay in land acquisition by authority and others, in the completion of construction of ongoing projects could lead to termination of our contracts or cost overruns or claims for damages, which could have an adverse effect on our business and results of operations.
8. Risk related to operations with Joint venture: Projects sub-contracted or undertaken through a joint venture may be delayed on account of non performance of the joint venture partner, principal or sub-contractor, resulting in delayed payments or non enforcement of performance guarantee issued by us, could lead to material adverse effect on our business and results of operations.
9. Risk related to payment towards royalty charges for mining: We are required to pay royalty charges for mining pursuant to terms of our contracts and specific central and state regulations. Mumbai, August 1

THE BULL CHARGE in Indian equities continued on Thursday with the benchmark Nifty crossing the 25,000 mark and the Sensex touching a record high. Investors were enthused by prospects of a rate cut by the US Federal Reserve in September, relatively benign crude oil prices and some good results in what has been a lacklustre earnings season.

The Nifty ended the day 0.2% higher at 25,010.90 points. The Sensex reached a key milestone of 82,000 points during the day, before closing off the high at 81,867.55 points, 0.2% higher than the previous close.

At $5.5 trillion, India's market capitalisation is the fourth largest in the world behind Japan which commands a market capitalisation of $6.7 trillion. In 2024, so far India is the seventh-best performer in dollar terms having posted a return of 14.4%. The Nasdaq and the S&P500 have gained 18% and 16.6%, respectively.

Liquidity has been the big driver of the rally. Andrew Holland, CEO of Avendus Capital Alternate Strategy, noted, "People have been waiting for correction, but it does not seem to be coming." Holland believes the upside will likely be capped going ahead and retains his estimate of a 15% return from the benchmark indices in FY25.

M&M targets product, revenue leadership in all areas: Shah

In talks with VW for lithium-ion battery unit

SWARAJ BAGGONKAR & RISHI RAJ
Mumbai, August 1

IN THE HIGHLY competitive automobile sector, Mahindra & Mahindra's focus will be on achieving leadership in revenue market share and product quality, rather than being a price warrior.

"Be it SUVs, electric vehicles, or two-wheelers, this is our guiding principle," Anish Shah, Group CEO and managing director, Mahindra Group, told *FE* in an interview on Thursday.

M&M is already the market leader in terms of revenue in the sports utility vehicle (SUV) segment and is confident of achieving the position in the EV section in the near future. Maruti Suzuki is the largest volume player in the SUV segment, which is driving the passenger vehicle market today.

"We will continue to focus on product quality and make authentic SUVs. In terms of product quality and revenues, we will continue to be the market leader," Shah said.

The company will pursue a similar strategy in the emerging segment of electric vehicles. "Revenue market share is very important for us because it will translate into the bottom line. We are confident we will take leadership in this (EV) space also," Shah said.

He said India is still in the early stages of a shift towards EVs and the real products will start rolling out now. "There is a big difference between the EVs that are in the market today and the born electric models that will start to come soon. EVs have been successful because there are consumers who are in love with the product," he said.

Nasscom defends IT firms as more GST notices loom

PRIYANSH VERMA & PADMINI DHRUVARAJ
New Delhi/Bengaluru, August 1

THE GOODS AND services tax (GST) authorities may send tax notices to more information technology (IT) companies, citing nonpayment of taxes on services received by them from their overseas branches, sources privy to the matter said.

This follows Infosys receiving a whopping ₹32,400-crore notice from the Directorate General of GST Intelligence (DGGI) for such receipts, thanks to the taxman's interpretation that since the company and the branches are "distinct persons", the transactions between them are taxable.

A source said that tax authorities are likely to send notices to many companies based in Hyderabad, Pune and Chennai as they "have overseas branches, supplying similar services".

However, industry feels it has a strong case against such tax notices, and cites favourable court rulings in similar cases.

On July 30, the DGGI issued a "pre show cause" notice to Infosys stating that the company has not paid GST under "reverse-charge mechanism" (RCM) on import of services, received from its overseas branches, for the period between July 2017 and 2021-22.

Industry body Nasscom said this is an "industry-wide issue, and multiple companies are facing avoidable litigation, uncertainty, concerns from investors and customers". This indicates that a few firms other than Infosys might have received tax notices on similar grounds, but it could not be verified immediately.

Demerger of Adani's food, FMCG biz gets board nod

VIVEAT SUSAN PINTO
Mumbai, August 1

ADANI ENTERPRISES (AEL), THE flagship firm of the energy-to-airports Adani Group, on Thursday said that its board had approved the demerger of its food and fast-moving consumer goods (FMCG) businesses. These verticals will now merge into Adani Wilmar. Govt may not float fresh sovereign gold bonds

PRASANTA SAHU
New Delhi, August 1

WITH THE COST of financing fiscal deficit through sovereign gold bonds (SGBs) reaching unsustainable levels, the Centre will take a call on whether to go for fresh issuance of SGBs in September-end, as outlined in the Budget.

The move follows the sharp customs duty reduction in the Budget, which made the policy of discouraging physical gold holding and imports redundant, sources said.

In the Budget presented on July 23, the government lowered the gross SGB issuances to ₹18,500 crore from ₹29,638 crore in the interim Budget for FY25. "It is one of the most expensive instruments to fund the fiscal deficit," an official said, adding that a call will be taken in September on whether fresh issuances this year would be necessary. This would be done also keeping in mind the fact that the policy should benefit both the investors and the government. "...a holistic decision has to be taken going forward. It is not a social security scheme," the official said.

The Centre's cost of borrowing through dated securities is 7-8% per annum and up to 8.2% through various small savings schemes whereas the cost of borrowing the SGBs is around 13.75% for the Sovereign Gold Bond 2016-17 Series I maturing later this week (going by the current price of gold).

THE RESERVE BANK of India (RBI) has completed its review of potential buyers for a majority stake in IDBI Bank, approving Fairfax Financial Holdings, Emirates NBD and Kotak Mahindra Bank as bidders, three sources aware of the development said on Thursday.

The Indian government, which owns 45.48% in IDBI Bank, and state-owned Life Insurance Corp of India which holds 49.24%, together plan to sell 60.7% of the lender. The sale process was first announced in 2022.

The sources did not wish to be identified as the discussions are not public. The finance ministry, RBI, Fairfax Financial Holdings, Emirates NBD and Kotak Mahindra Bank did not immediately reply to emails seeking comments. The bidders are talking to the Indian government and will get access to IDBI Bank's private data after evaluation, one of the sources said.

Reuters had earlier reported interested buyers include Emirates NBD and Canadian billionaire Prem Watsa. Toronto-based Fairfax India Holdings is backed by Canadian billionaire Prem Watsa and invests in public as well as private equity securities and debt instruments in India.

Emirates NBD Group offers financial services with operations in the United Arab Emirates (UAE), India and Saudi Arabia, among others. The government would likely open bids for the lender before the end of the financial year, Tuhin Kanta Pandey, the country's secretary responsible for the stake sale, had said last week.

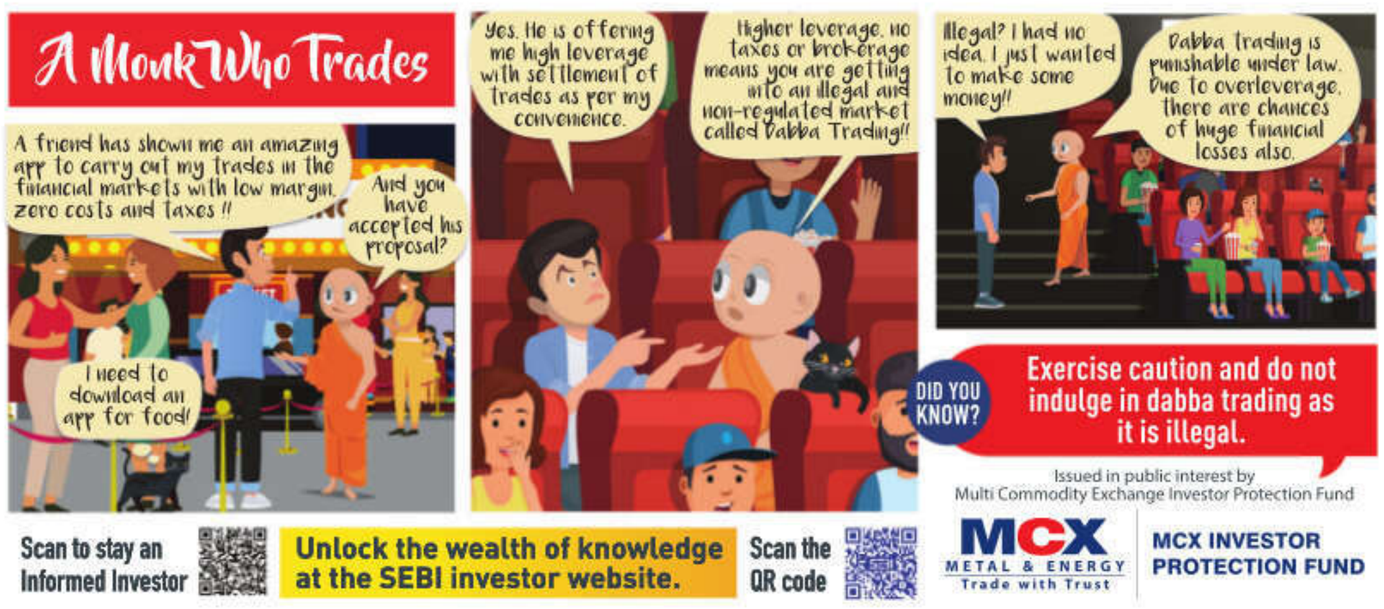

"We are expecting a communication from RBI (on fit and proper assessment of shortlisted bidders). I believe we will get it soon. Then, we move on to the due-diligence stage and the share purchase agreement has to be negotiated," he had said.

At ₹1.82 trn, GST collections jump 10.3% on year in July

PRIYANSH VERMA
New Delhi, August 1

THE GROSS GST collections during July rose 10.3% on year to ₹1.82 trillion, data released by the finance ministry showed on Thursday.

In June, the collections, which stood at ₹1.74 trillion, had grown only 8% on year, at the slowest rate in three years.

Refunds issued during July stood at ₹16,283 crore; and thus the net collections for the month came in at ₹1.66 trillion, up 14.4% from the previous year.

Further, gross collections from domestic transactions in July rose 8.9% on year to ₹1.34 trillion, while from imports, it soared 14.2% to ₹48,039 crore.

For April-July, the gross collections stood at ₹7.39 trillion, up 10.2% on year; and net collections at ₹6.56 trillion, 11% more than the same period of FY24.

Pratik Jain, partner, PwC India, said that since growth in April-July is broadly in line with the Budget estimates, the government and GST Council should start working towards rate rationalisation.

Finance minister Nirmala Sitharaman, in her Budget speech, on July 23, had said that to multiply the benefits of GST, "we (the government) will strive to further simplify and rationalise the tax structure and endeavour to expand it to the remaining sectors."

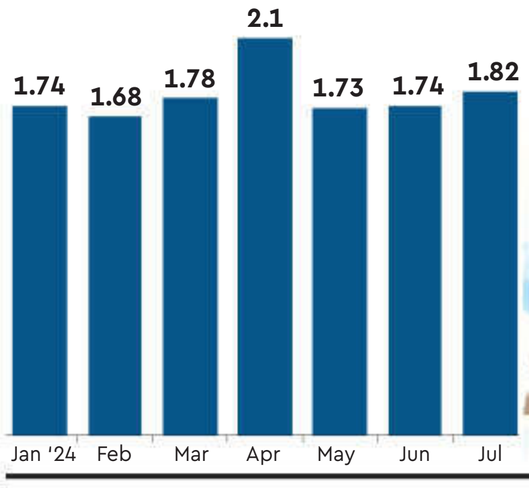

MS Mani, partner, Deloitte India, mentioned that while the gross GST revenues have shown an increase of 10.3%, it is interesting to observe that the growth in GST revenues from imports is more than that from domestic supplies.

"These collections are based on supply transactions during June24, which is typically a slow offtake month before the onset of the festive season,' he said.

Saurabh Agarwal, tax partner, EY, said that looking ahead, a potential slowdown or decline in collections during August, compared to July, is expected due to the monsoon season's influence on economic activity.

July manufacturing growth eases, selling prices see sharp uptick

INDIA'S MANUFACTURING sector growth eased slightly in July, on softer increases in new orders and output, while cost pressures and demand strength led to the steepest increase in selling prices since October 2013, a monthly survey said on Thursday.

The seasonally adjusted HSBC India Manufacturing Purchasing Managers' Index (PMI) moderated slightly from 58.3 in June to 58.1 in July. In PMI parlance, a print above 50 means expansion, while a score below 50 denotes contraction.

"India's headline manufacturing PMI showed a marginal slowdown in the pace of expansion in July, but with most components remaining at robust levels, the small drop is no cause for concern," Pranjul Bhandari, Chief India Economist at HSBC, said. — PTI

Tax revenue mop-up: Experts differ on India's track record, future path

FE BUREAU
New Delhi, August 1

EXPERTS ON THURSDAY differed on whether India is optimally utilising its potential for tax revenue generation, given the need for more widespread and efficient delivery of public services.

India's tax-to-GDP ratio is "definitely" not low, rather "well above" where it should be, when compared to other middle-income economies, said Surjit Bhalla, former member of PM-Economic Advisory Council (PM-EAC).

Speaking at an event organised by the Centre for Social and Economic Progress, he said: "Middle-income countries, and fast growing economies have much lower tax-to-GDP ratio... we tax too much!"

However, noted tax policy expert, and former member of the Central Board of Direct Taxes (CBDT) Arbind Modi stressed that when compared with the potential — of 20-25% — the country's tax-GDP ratio is low.

Majority of the income tax assessees don't pay any tax, even as they file their returns. He also said an effort should be made to tax agriculture income above a threshold.

In a recent interview to FE, Modi had noted that that there has been an increase in the "tax gap" over the years since the country's tax potential has increased faster than the tax effort measured by the tax-GDP ratio.

"With an estimated tax potential of 25% of GDP for 2023-24 and tax-GDP ratio (Centre and states) of 18%, the tax gap is around 7% of GDP as against 5.4% in 2017-18," he had said.

He added that tax-GDP ratio for developed and manufacturing states like Andhra Pradesh, West Bengal, Punjab, Kerala, Telangana, Maharashtra, Tamil Nadu, Karnataka, Haryana and Gujarat, is significantly below the critical minimum of 15% of GDP required to provide necessary public services.

India's per capita GDP in 2023 stood at $2,484, according to the World Bank. According to the agency, tax-to-GDP ratio of above 15% is a "key factor" for economic growth and "poverty reduction".

Revenue secretary Sanjay Malhotra, last week, had said that India's tax-to-GDP ratio, given the level of development, is not low.

"We are slightly above what our per capita income indicates," he had said, while adding that the tax base would increase as more formalisation takes root.

● WORLD BANK STUDY

India needs 75 yrs to reach quarter of US per capita GDP

FE BUREAU
New Delhi, August 1

INDIA FACES SERIOUS obstacles to its efforts to become a high-income country in the next few decades, according to a new World Bank study that found that India could take 75 years to reach a quarter of the United States' per capita GDP at the current rate.

According to the approach paper for 'Viksit Bharat @2047' put out by the Niti Aayog recently, India will strive to be a $30 trillion economy by 2047 with a per capita income of $18,000 per annum from $3.36 trillion and $ 2,392 per annum, respectively.

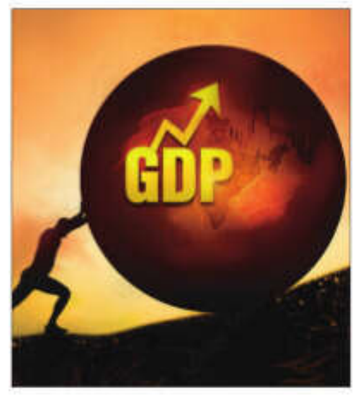

"At current trends, it will take China more than 10 years just to reach one-quarter of US income per capita, Indonesia nearly 70 years, and India 75 years," according to the World Development Report 2024 published by the multilateral agency.

"In India, the prime minister's vision is to transform the nation into a developed economy by 2047 — the hundredth year of independence... but the growth prospects of middle-income countries are not improving.

"Over the last decade, the global economy has gone from healthy to hobbling and from largely integrated to increasingly fragmented. Foreign trade and investment channels are also becoming more constricted — or at least encumbered —by geopolitical tensions," the report noted.

The growth rates of firms in India, Mexico, and Peru are far lower than those of firms in the United States, with firms expanding by less than a factor of 3.

Conversely, when firms with growth potential lack dynamism, they fall short of displacing unproductive small firms from the market. This absence of creative destruction results in a stark contrast: although the share of small firms with at most four workers

declines by 60% by the age of 25 in the United States, the decrease is only about 10% in India.

"Consequently, the Indian economy lacks the mechanism for effective selection among firms, hindering the reallocation of resources to more productive users," it said.

More than 100 countries—including China, India, Brazil, and South Africa — face serious obstacles that could hinder their efforts to become high-income countries in the next few decades, according to a new World Bank study that provides the first comprehensive roadmap to enable developing countries to escape the "middle-income trap."

Drawing on lessons of the past 50 years, the World Bank report finds that as countries grow wealthier, they usually hit a "trap" at about 10% of annual US GDP per person — the equivalent of $8,000 today. That's in the middle of the range of what the World Bank classifies as "middle-income" countries.

Since 1990, only 34 middle-income economies have managed to shift to high-income status — and more than a third of them were either beneficiaries of integration into the European Union, or of previously undiscovered oil.

At the end of 2023, 108 countries were classified as middle-income, each with annual GDP per capita in the range of $1,136 to $13,845.

India, Vietnam plan to double bilateral trade, investments

MUKESH JAGOTA
New Delhi, August 1

INDIA ON THURSDAY extended a $300 million line of credit to Vietnam for maritime security and both countries have agreed to early conclusion of review of ASEAN-India Trade in Goods Agreement (AITGA) to fully realise the trade potential that exists between the two counties.

The agreement on the line of credit was signed between the Export Import Bank of India and the ministry of finance of Vietnam after the talks between Prime Minister Narendra Modi and his Vietnamese counterpart Pham Minh Chinh.

Apart from review of India-Asean trade agreement, as part of the plan of action for implementing Comprehensive Strategic Partnership during 20024 and 2028 both sides also agreed to double the trade and investments between the two countries.

Bilateral trade between the two nations stood at $ 14.81 billion with India's exports at $ 5.4 billion and imports at $ 9.3 billion. Indian companies have invested $ 1.2 billion in Vietnam so far while in India investments from Vietnam are a meagre $ 10 million.

Chinh is on a three-day visit to India. After the delegation level talks with Modi, he said, "(for) more concrete and effective trade and cooperation we agreed to double our bilateral trade and investment over next 3-5 years. We need a mechanism for that."

In his remarks post the meeting, Modi said, "We agree that in order to realise the potential of mutual trade the review of AITGA should be concluded as soon as possible". Vietnam is one of the key members of the 10-nation Asean. "An agreement has been reached between our central banks for digital payment connectivity," Modi added.

India's total trade with Asean was $122.6 billion last financial year with India's exports at $41.2 billion and imports at $ 79.6 billion. The widening trade gap between the two partners since the signing of the trade agreement had led to India asking for its review.

The discussions for review of AITIGA, to make it more trade-facilitative and beneficial for businesses across the region, started in May 2023. The joint committee undertaking the review work has met five times so far.

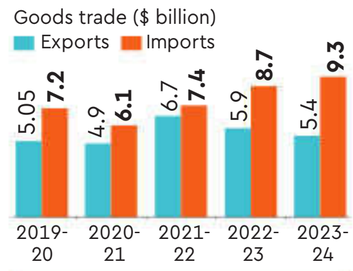

The committee finalised its terms of reference and the negotiating structure for the review negotiations in its first two meetings and initiated the negotiations for review of AITIGA from its third meeting held from 18-19 February 2024 in New Delhi.

● MCKINSEY REPORT LISTS FIVE KEY DIFFERENTIATORS

Family-owned biz to continue domination: Study

ALOKANANDA CHAKRABORTY
New Delhi, August 1

FAMILY-OWNED BUSINESSES IN India contribute 75% to the country's GDP, which is one of the highest percentages in the world. This is likely to rise to 80-85% by 2047, McKinsey says in a new study.

The study titled 'Five differentiators of outperforming family-owned businesses in India' by Senior Partner Avinash Goyal and Partner Chaitali Mukherjee shows that these businesses reported higher revenue growth and 2x returns to shareholders than other companies.

'Family-run' businesses (family involved in day-to-day operations) tend to be more efficient operators while 'family-governed' (family involved only in strategy decisions) and 'family-owned' (family involved only as passive investor) were better operators and asset utilisers, with higher capital efficiency, finds the study.

Goyal and Mukherjee analysed 300 public-listed family-owned businesses (with revenues of more than ₹2,000 crore achieved at least once in the last five years) and interviewed the leaders of a significant number of them to understand how the best-performing family businesses create value.

Their study identified five key differentiators for top-performing family-owned businesses -- operational excellence, diversification, talent retention and culture, robust governance, and effective transition from one generation to the next. Says Mukherjee, "In an increasingly competitive environment, family-owned businesses will need to interpret, strategise and execute on differentiators that can propel them ahead in the context of their own businesses. After all, the value at stake is substantial: the average-size family-owned business could see a potential annual economic profit gain of about ₹100 crore-300 crore over a five year period."

The research also found that diversification across non-adjacent sectors is a key enabler for family-owned businesses to achieve substantial scale. "Through risk mitigation in the portfolio and improved access to market expansion opportunities, diversification also ensures long-term sustainability for them," says the study.

Many successful family-owned businesses tap discontinuities in the industry or economy to bet on new emerging segments with strong tailwinds for the near future. This also helps to de-risk the diversification to a large extent, it says.

Goyal explains, "Our research showed there was a significant increase in diversification of portfolio as family-owned businesses transitioned from 'emerging' (revenues of less than ₹2,500 crore) to 'at scale' (revenues more than ₹6,500 crore) status. Introducing external executives was shown to play a pivotal role in this, helping to provide the bandwidth at scale to diversify."

Speaking of leadership transitions, the report notes that business owners typically have a "growth mindset" and look for similar-minded executives to run their businesses. "The owners believe in continuously improving performance, and not merely sustaining it, and so are very careful to choose external executives who mirror their mindset and passion," says the report.

The research also shows that the proportion of top-performing family-owned businesses across generations remained almost the same (20-25%). However, the proportion of family-owned businesses in the bottom 40% increases with passing generations -- from about 33% of first generation-run family businesses to about 43% of the second generation and 46% of the third generation or beyond.

This can be attributed to priorities shifting after the founding generation, notes the authors. The tendency to focus on high growth even at the expense of liquidity may lead to an emphasis on preserving wealth. Another reason could be that when a business loses the benefit of its founder's entrepreneurial edge, growth slows down and performance drops.

"Given that most businesses in India are family controlled and that the economy has been growing at a high rate, it is natural to expect the engine of growth to be with family businesses. It is also important to note that such businesses have a combination of high quality entrepreneurial strategies, professionalisation and governance," says Kavil Ramachandran, Professor of Entrepreneurship (Practice), & Senior Advisor, Thomas Schmidheiny Centre for Family Enterprise, Indian School of Business.

"If family-owned businesses are to continue to power growth — their own and that of the wider economy — it is imperative for them to make timely decisions that serve the interests of the business and the family, following a capability-led approach with the right incentives to grow the business," says Goyal.

IMD predicts 'above normal' rainfall in 2nd phase of monsoon

SANDIP DAS
New Delhi, August 1

THE COUNTRY IS likely to receive "above normal" rainfall at more than 106% of the benchmark long period average (LPA) during the second half of the monsoon season (August-September) after an uneven distribution of precipitation in the first phase, India Meteorological Department (IMD) said on Thursday.

"While the rainfall in current month is expected to be in the normal range, precipitation in September is likely to be higher as La Nina (which adds monsoon) conditions which is currently at the neutral state is mostly likely to emerge at the later part of the August," Mrutyunjay Mohapatra, director-general, IMD, said in a briefing.

While the meteorological department has predicted "normal to above normal" rainfall in most parts of the country during August-September, "there would be below normal rainfall in many parts of northeast and adjoining areas of east India, Ladakh, Saurashtra, Kutch and few isolated pockets of central and south peninsular".

The meteorological department's prediction comes after the surplus monsoon rainfall of 109% above the LPA in July helped erase June's rainfall deficit of 89% of benchmark.

The country, in June-July, has received 101.8% more rainfall than the benchmark which is in normal range.

However, in terms of regional distribution, north-west and east and north regions received hugely deficient' rainfall at (-)14.3% and (-) 23.3% of LPA, respectively.

Central India and southern peninsula received hugely surplus rainfall of 133% and 136.5% of the benchmark, respectively.

"Monsoon rains are not well distributed spatially and temporally so far," Madhavan Rajeevan, former secretary, ministry of earth sciences, told FE.

He said the distribution of rains would make up in the second half of the current monsoon season.

As on Thursday, 35% of 729 districts have received rainfall in the range of deficient to large deficient range which may impact the yield of kharif crops — paddy, coarse cereals and pulses if sowing is delayed.

Rainfall in the range of 96-104% of LPA is considered "normal" and 105-110% 'above normal'. The LPA is average rainfall received during 1971-2020 at 86 centimetres. In May, the department had reiterated its earlier forecast of "above normal" monsoon rainfall at 106% of benchmark average during June-September this year with 92% chances of the rains being in the "normal-to-excess" range.

Based on data from 1951-2023, according to an official, the country experienced "above-normal" rainfall in the monsoon season on nine occasions when La Nina followed an El Nino event.

Nearly half of the country's farmland depends on monsoon rains for cultivation of kharif crops — paddy, pulses and oilseeds. In addition, adequate monsoon rains also provide sufficient soil moisture for sowing of the rabi or winter crops — wheat, pulses and oilseeds.

Sources said that prospects of higher output of rice and sugar due to surplus monsoon rains may allow the government to relax curbs of exports of these commodities.

Govt to monitor prices of 16 more commodities

SANDIP DAS
New Delhi, August 1

TO EXPAND TRACKING of retail and wholesale prices of a broad range of commodities, the department of consumer affairs will collect and monitor daily movement of wholesale and retail prices of 16 additional commodities, including brinjal, eggs, banana, spices besides the existing 22 commodities, including rice, wheat, pulses, edible oil and onion.

"By adding commodities spices, including cumin seeds and black pepper, banana, brinjal, eggs, butter and bajra into price monitoring, we have included the entire range of commodities consumed in the country," an official said.

Food items which have been added to the list of those being monitored daily are bajra, jowar, ragi, suji (wheat), maida (wheat), besan, ghee, butter (pasteurised), brinjal, egg, black pepper, coriander, cumin seed, red chillies, turmeric powder, and banana.

With the addition of commodities in price monitoring, the consumer affairs ministry from Thursday will track prices of 38 commodities which have 31% weightage in the consumer price index (CPI).

"The increase in coverage of food items under daily price monitoring will play a crucial role in policy interventions to stabilise price volatility in food items and to control the overall inflation," according to an official statement.

The government was earlier monitoring 22 commodities — rice, wheat, atta, gram dal, tur (arhar) dal, urad dal, moong dal, masur dal, sugar, gur, groundnut oil, mustard oil, vanaspati, sunflower oil, soya oil, palm oil, tea, milk, potato, onion, tomato and salt.

Govt to sell subsidised tomatoes at ₹50/kg

THE GOVERNMENT WILL start selling tomatoes at a subsidised rate of ₹50 per kg from Friday in Delhi-NCR and Mumbai retail markets as against ₹60 per kg now to provide relief to the common man.

On July 29, Union food and consumer affairs minister Pralhad Joshi had launched sales of tomatoes at a subsidised rate of ₹60 per kg in Delhi-NCR. Later, the sales started in Mumbai also.

"Prices of tomatoes have come down after our intervention," Joshi told reporters here.

Consumer affairs secretary Nidhi Khare said, "We will start selling tomatoes at ₹50 per kg from tomorrow (August 2) in Delhi-NCR and Mumbai".

The National Cooperative Consumers' Federation of India Ltd (NCCF) is selling tomatoes through mobile vans.

According to the Department of Consumer Affairs data, the all-India average price of tomatoes stood at ₹61.74 per kg on July 31. In Delhi, the average price was ₹70 per kg on Wednesday.

Last month, the rates soared to more than ₹100 per kg as supplies were hit due to heat waves followed by erratic rains in many producing states.

Khare said the ministry will consider roping in Mother Dairy to sell tomatoes through its Safal stores in the Delhi-NCR market. —PTI

Major reservoirs at 51% of capacity

HALFWAY INTO THE monsoon season where rainfall so far has been 103% of the benchmark long period average (LPA) or in the normal range, water levels in the country's 50 major reservoirs improved for the fifth week in a row, reports Sandip Das. Water levels in dams stood at 6% below the previous year's level on Thursday, a vast improvement from a week ago when it was down 18% on year.

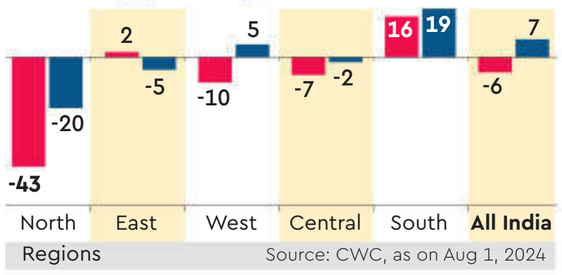

According to the Central Water Commission (CWC)'s weekly bulletin, the reservoir capacity is filled up to 51% currently, while a week ago, water levels were up to 39% of capacity. Earlier reservoir levels had dropped for the 36 weeks in a row till June 26 because of deficient monsoon last season, scanty rainfall in winter months and prolonged heat waves earlier this year.

Surplus monsoon rains of 26.9% more than the LPA till Thursday in the southern peninsula has led to improvement in water reservoirs in southern states. As many as 42 of them in southern states currently have 66% capacity filled, as per CWC, which is an improvement from 50% a week back.

Q1 PERFORMANCE REPORT

Tata Motors profit zooms 74%

SWARAJ BAGGONKAR
Mumbai, August 1

TATA MOTORS ON Thursday posted a 74% year-on year jump in net profit in the June quarter, driven by a superior mix, lower interest flow, and favourable currency and commodity movements.

Consolidated net profit stood at ₹5,566 crore, beating the Bloomberg consensus estimate of ₹5,310 crore. Consolidated revenue grew by 6% y-o-y to ₹1.07 trillion, lower than the Bloomberg estimate of ₹1.09 trillion.

While Ebitda margins remained unchanged at 14.4%, the automotive free cash flow at the end of June stood halved to ₹1,200 crore compared with the same quarter last year.

Chief financial officer PB Balaji said, "The June quarter has carried forward the momentum of last year with all businesses continuing to deliver on their distinctive strategies."

Tata Motors' global wholesales were up nearly 3% to 330,300 units. Jaguar Land Rover wholesales were up 5% to 97,800 units while that of commercial vehicles were up 6% to 93,700. The passenger vehicle segment saw a 1.1% drop to 138,800.

The company is stepping on the pedal to push up electric vehicle volumes whose demand softened due to the discontinuation of the government-sponsored incentive scheme. About one-fifth of its sales emerge from buyers who use the car for commercial purposes.

Net automotive debt went up by 16% to ₹18,600 crore compared with the March quarter. This was due to the dividend outflow, Balaji said.

Tata Motors further said its board has approved the composite scheme of arrangement for the demerger of the CV business from itself and the merger of the PV business with itself. The effectiveness of the scheme would result in creation of two listed companies with mirror shareholding with the company housing the CV business and the amalgamated company housing the PV business.

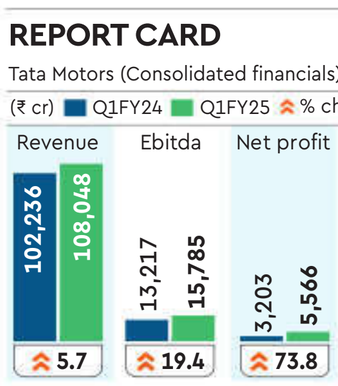

Upon the effectiveness, the amalgamated company carrying out the PV business will be renamed Tata Motors Passenger Vehicles, and the one carrying out the CV business will be renamed Tata Motors.

The company has decided against participating in the Centre's new EV policy which allows for import of cars at a 15% duty in exchange for investment commitment. "As far as JLR India is concerned, it is going very strongly. We have just localised the manufacturing of Range Rover and Range Rover Sport. We would want to keep localising to the extent possible and if the policy environment is such that we are able to leverage upon, we will definitely consider it. At this point, the specific policy is not something that's suitable to us," Balaji said.

"But we will continue to look at opportunities for CKD (completely knocked down) manufacturing to ensure we take the same benefits of 15% customs duty without taking the obligations for localisation and bank guarantees...the CKD operation is more attractive," he added.

FE BUREAU
New Delhi, August 1

PASSENGER VEHICLE (PV) WHOLESALES continued to be weak in July, down 2.5% year-on-year to 344,076 units, with higher inventories with dealers. Analysts said manufacturers are calibrating despatches to dealers ahead of the festival season.

Hyundai Motor India (HMIL) also saw a decline in sales of 3.33% to 49,013 units. "We have posted an overall sales growth of 4.31% year-on-year in the period of January to July 2024. SUVs continue to demonstrate a robust contribution, accounting for 66.6% of total HMIL domestic sales," said Tarun Garg, whole-time director and COO, HMIL. "The new Hyundai Creta achieved key milestones of 100,000 unit sales till July 2024, while also achieving the highest ever monthly domestic sales of 17,350 units in July 2024," he added.

Zomato delivers profit for 5th straight qtr, revenue up 74%

FE BUREAU
Bengaluru, August 1

ZOMATO ON THURSDAY reported a consolidated net profit of ₹253 crore for the quarter ended June, compared with ₹2 crore in the year-ago period and up from ₹175 crore a quarter ago.

Revenue from operations rose 74% year-on-year to ₹4,206 crore, up from ₹2,416 crore a year ago. This is the fifth straight quarter Zomato registered profit. It turned profitable for the first time in Q1FY24.

Consolidated adjusted Ebitda (earnings before interest, tax, depreciation and amortisation) or operating profit rose to ₹299 crore in Q1, driven by margin expansion in all four businesses, including B2B business Hyperpure.

The massive jump comes on the back of higher gross order value (GOV) across its business-to-consumer (B2C) verticals. GOV growth across B2C businesses (food delivery, quick commerce and going-out) rose to 53% y-o-y (and 14% q-o-q) to ₹15,455 crore, the company said.

The quick commerce business, Blinkit, saw the highest GOV growth of 130% y-o-y, while the food delivery and going-out verticals grew 27% and 106%, respectively. Blinkit aims to have 1,000 stores by March 2025 and 2,000 stores by the end of 2026 while remaining profitable. Most of these stores will be added in the top 10 cities in India, the company said.

Talking about category expansion, Blinkit founder and CEO Albinder Dhindsa said the company will continue to invest in newer categories. "Over the last six quarters, we have launched and scaled products in electronics, beauty and make-up, pet care, and children's toys and we will continue to invest behind opportunities in newer categories as well," he said.

The company's going-out business is now operating at a run rate of $500 million + annualised GOV and is profitable. "There is an opportunity to further expand our going-out offering, building on top of our dining-out business..." Zomato CEO Deepinder Goyal said in a statement.

The food delivery company also plans to launch an app for the going-out business. "Building a one-stop destination app for going-out could be a game changer...and we intend to do exactly that with our new District (by Zomato) app," he added.

BLINKIT BOOST

- Profit rises to **₹253 cr** in quarter ended June against **₹2 cr** in year-ago period
- Revenue from operations up **74%** y-o-y to **₹4,206 cr** from **₹2,416 cr** a year ago

Sun Pharma profit up 40% on strong local sales

RISHIKA SADAM & KASHISH TANDON
Hyderabad/Bengaluru, August 1

SUN PHARMACEUTICAL, THE country's largest drugmaker by revenue, reported first-quarter profit above analysts' estimates on Thursday, helped by strong domestic sales.

The Mumbai-based company's net profit rose 40% to ₹2,863 crore in the three months ended June 30, beating analysts' average estimate of ₹2,478 crore according to LSEG data.

Revenue, however, missed analysts' estimates as generic drugmakers continue to take the hit of lower pricing of drugs in the competitive US market.

"PAT (profit after tax) beat consensus led by higher gross margin and lower R&D spends. Strong India and steady emerging markets partly compensated for weak US and ROW (rest of the world) markets," Shrikant Akolkar, an analyst at Nuvama Institutional Equities, said.

Total revenue rose 6% to ₹12,653 crore but below the estimate of ₹12,858 crore, as per LSEG data, while sales in the US rose just 0.5% to ₹3,885 crore.

Most of the country's generic drugmakers derive a significant share of revenue from the US, where lower drug prices amid stiff competition have been weighing on companies' margins.

Global Specialty sales, which includes the popular medication Ilumya for treating the chronic skin condition Plaque Psoriasis, rose 14.7% to ₹26,600 crore. The segment contributed to 18% of total sales in fiscal 2024. Sales in India, their largest segment by region, rose 16.4% to ₹4,145 crore.

Rivals Cipla and Reddy's first-quarter profit also beat Street view.

Shares of Sun Pharma turned volatile after results and ended flat.

India largest market for Meta AI use: CFO

FE BUREAU
New Delhi, August 1

META'S CHIEF FINANCIAL officer (CFO) Susan Li on Thursday said India has become the largest market for the usage of Meta AI — the company's artificial intelligence (AI) chatbot.

The company rolled out its AI chatbot in India in June this year. Across its apps such as Facebook, WhatsApp, Instagram, and Threads, Meta has over a billion users. WhatsApp has about 500 million users in the country.

"People have used Meta AI for billions of queries since we first introduced it. We are seeing particularly promising signs on WhatsApp in terms of retention and engagement," Li said in the April-June earnings call. Li did not share any numbers and user statistics during the call.

Last month, Meta also included Hindi and Hindi-romanised script (or Hinglish), in its AI chatbot. The same was done amid strong competition from companies such as OpenAI's ChatGPT, Google's Gemini and Microsoft's Copilot.

Meta first announced its AI chatbot in September 2023 in the US. It upgraded the chatbot in April with the new Llama 3 model and rolled it out in over a dozen countries. It is now available in over 20 countries and 8 languages.

Meta CEO Mark Zuckerberg said: "Last quarter, we started broadly rolling out assistant Meta AI and it is on track to achieve our goal of becoming the most used AI assistant by year end. We've released the first frontier-level open source AI model, we continue to see good traction with our Ray-Ban Meta AI glasses, and we're driving good growth across our apps."

Meta's net profit globally rose 73% y-o-y to $13.46 billion in the June quarter,, while revenue rose 22% to $39.1 billion.

Adani Ent net jumps on new energy boost

GAUTAM ADANI'S FLAGSHIP firm Adani Enterprises on Thursday posted more than doubling of its Q1 net profit as growth in the new energy business outweighed weakness in coal trading. Consolidated net profit at ₹1,458 crore in April-June was 116% higher than ₹675 crore earning in the same period a year ago, according to a company statement and stock exchange filing.

Adani New Industries, the new energy business unit, posted a 3.6x jump in Ebitda to ₹1,642 crore on growth in solar manufacturing and wind turbine businesses. New energy contributes 38% of the total Ebitda, which jumped 48% to ₹4,300 crore in the quarter, from ₹2,897 crore a year ago. The airports business also saw a 33% rise in pre-tax earnings at ₹682 crore, but the company's mainstay coal trading business revenue fell 34% to ₹15,042 crore business of lower coal volumes and prices. —PTI

Adani Ports profit up 47% to ₹3,107 crore

ADANI PORTS AND Special Economic Zone (APSEZ) on Thursday posted a 47% rise in its consolidated net profit to ₹3,107 crore in the June quarter of the current financial year on account of higher income. It had reported a net profit of ₹2,119 crore in the April-June period of FY24, the company said in a filing. Total income surged to ₹8,054.18 crore in the quarter under review from ₹6,631.23 crore. Expenses rose to ₹4,238.94 crore in the period from ₹4,065.24 crore a year ago.

APSEZ whole-time director & CEO Ashwani Gupta said, "FY25 has begun on a strong note for us with a stellar performance on both financial and growth fronts." "On the financial front, we posted all-time high earnings. But for the temporary disruption in Gangavaram Port, which is now fully restored, our Q1 cargo volume would have been at 114.7 MMT, a 13% increase," he added. —PTI

ARUN MAHESHWARI, JOINT MANAGING DIRECTOR & CEO, JSW INFRASTRUCTURE

'We are expecting 10-12% revenue growth this year'

JSW Group has announced plans to transform its infrastructure arm, JSW Infrastructure, into a complete logistics solutions provider. It also plans to increase its cargo handling capacity by 2.4 times. **Arun Maheshwari**, *joint managing director and CEO, JSW Infrastructure, speaks to* **Raghavendra Kamath** *about the company's strategy and outlook for the business. Excerpts:*

Can you share your views on the Budget proposals for the infrastructure sector, including ports?
The Budget remains robust from the infrastructure spending viewpoint. Directionally, it remains on target to increase competitiveness by reducing the overall logistics costs. A stable policy is certainly an encouragement for investment in the sector.

JSW Infrastructure is transforming itself into an integrated logistics provider and getting into last-mile connectivity. What is the idea behind that?
Our journey has been largely a bulk player, port player and all-captive. Then, we shifted gears to get into third-party businesses for the last five-six years, and got into multiple locations, multiple product baskets and others. It is a natural extension for any port player to bring stickiness, and to add value to our customers. And in that process, we said let's get into the last-mile connectivity. This is one area where people have been coming in bits and pieces. Individuals are coming, and the small companies are coming. I believe a nationalistic approach is required. A pan-India approach is required for any large, organised player.

"IF AT ALL, ANY ACQUISITION IS AVAILABLE, WE WOULD DO THAT, OR WE CAN ALSO GO FOR COLLABORATION WITH THE EXISTING PLAYERS IN THE FIELD

After acquiring Navkar Corporation, are you looking at any more acquisitions?
If at all, any acquisition is available, we would do that, or we can also go for collaboration with the existing players in the field. People may not like to sell. We don't mind because they also need some players with a similar mindset.

Analysts said you have enough headroom to increase your capital expenditure, given the cash on the book and the strong balance sheet...
We have a headroom to go for it. Any opportunity which is value-accretive, we don't mind looking at it, and we can further improve the guidance because any opportunity, what we acquire will also add value to our balance sheet.

What kind of growth are you expecting in revenues this year?
For us, every year has been better than the previous one. We continue to grow at 10-12%, which is decent in the sector. The government has strategically done quite a lot of changes in this sector in the last seven-eight years, which is giving results now. So, I believe 10-12% growth is what we expect from our side.

Are you looking to do any agreement with JSW Energy to procure green energy?
Since green energy sourcing rules vary from state to state, our sourcing also differs. We are currently sourcing part of our green energy from suppliers outside the group. We continue to discuss within the group as well. However, considering very low requirements per location, we evaluate with independent local players.

The company plans to curtail its direct greenhouse gas (GHG) emissions and achieve net neutrality by 2050. Can you elaborate on that?
In 2022, we brought out sustainability-linked bond issue. And then we have given a target that by 2025-26, we will reduce our carbon footprint by 15%, and by 2030, we will reduce it by 35%. We have undertaken the journey ahead of others. We have been successfully reducing our carbon footprint by using renewable energy, automation and so on. We will be completely carbon-neutral by 2050.

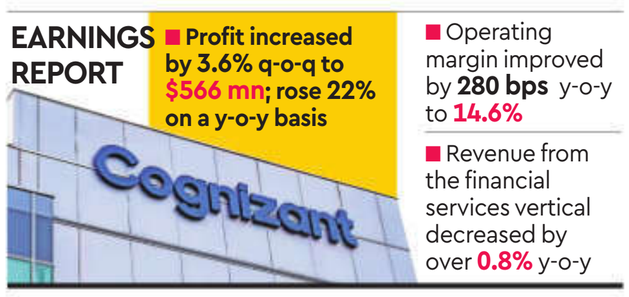

COMPANY BEATS ESTIMATES, REVENUE UP 2% Q-O-Q

Cognizant raises revenue guidance

PADMINI DHRUVARAJ
Bengaluru, August 1

NASDAQ-LISTED COGNIZANT TECHNOLOGIES exceeded Street estimates for its June quarter earnings, reporting a nearly 2% sequential revenue increase to $4.9 billion. This growth was driven by sustained market share gains and recoveries in its key financial services and health sciences segments.

The company also raised its annual revenue guidance, indicating improved visibility of revenue growth on both ends of the spectrum.

Cognizant's net profit increased by 3.6% q-o-q to $566 million, while it rose 22% on a y-o-y basis. Jatin Dalal, chief executive officer, said, "We are clearly winning market share as we execute every quarter. The deals that are ramping up are a reflection of new work that Cognizant is getting."

The company's operating margin improved by 280 basis points (bps) y-o-y to 14.6%, but remained flat sequentially.

For the third quarter, Cognizant anticipates flat to 1.5% revenue growth in constant currency terms.

The company improved its full-year guidance to a range of a 0.5% decline to 1% growth in constant currency, better than the previous forecast of a 2% decline to 2% growth. The company follows the calendar year as its financial year.

The full-year guidance now assumes approximately 70 basis points of inorganic contribution.

Revenue from the financial services vertical decreased by over 0.8% y-o-y to $1.45 billion in constant currency terms. This is the third consecutive quarter when financial services trailed behind the health sciences vertical.

Sales from the health sciences vertical increased 1.7% y-o-y to $1.46 billion in the second quarter in constant currency terms.

Tata Play switches off Sony channels

VIVEAT SUSAN PINTO
Mumbai, August 1

DIRECT-TO-HOME (DTH) operator Tata Play has begun removing TV channels of Sony Pictures Networks India (SPNI) from the subscription plans of about 10 million users in a phased manner as part of a streamlining measure, which the broadcaster has described as "arbitrary".

While streamlining channel packs is not an unusual practice, this is the first time, said experts, that a large network such as Sony is at the receiving end of it. Smaller broadcasters and niche TV channels are often evicted from DTH and cable platforms as part of a churning exercise based on viewership, media experts said, aimed at managing the long tail of channels.

The broadcaster called Tata Play's move an 'arbitrary' decision

On Thursday, Tata Play began with the removal of SPNI's channels from plans of nearly 1 million subscribers and said it will continue to undertake this process over the next 10 days. Harit Nagpal, MD and CEO, Tata Play, said the company was removing "less-watched" channels to "reduce charges".

Sony said Tata Play's decision had taken it by surprise. "This arbitrary decision seems to have been made without any notice to SPNI or apparent consideration for their subscribers' preferences," it said.

ITC's Q1 profit flat, revenue up 7.5% to ₹20K cr

VIVEAT SUSAN PINTO
Mumbai, August 1

CIGARETTES-TO-HOTELS MAJOR ITC on Thursday reported a June quarter net profit of ₹5,092 crore at a consolidated level, which was flat compared to last year. This was below Street estimates, amid muted demand conditions and high commodity prices in leaf tobacco and agri inputs.

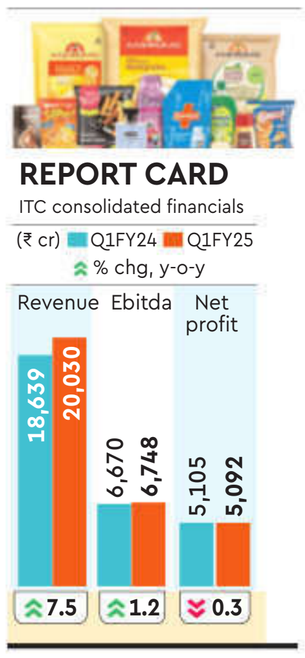

Bloomberg consensus estimates had pegged net profit at ₹5,451 crore for the period.

The company's Q1 consolidated revenue rose 7.5% year-on-year (y-o-y) to ₹20,030 crore, exceeding Bloomberg consensus estimates of ₹17,784 crore for the period.

Earnings before interest, tax, depreciation, and amortisation (Ebitda) rose 1.2% y-o-y to ₹6,748 crore in the June quarter, slightly below Street estimates of ₹6,969 crore for the period. Ebitda margins declined by 210 basis points to 33.7% in Q1, compared to 35.8% reported last year.

"While private consumption expenditure remains relatively subdued, the economy continues to be extremely resilient. Purposeful policy interventions by the government, with sustained public expenditure in creating physical, digital, agri and rural infrastructure, augur well for the company," ITC said on Thursday.

The FMCG business saw revenue grow 6.3% y-o-y to ₹5,491 crore on a high base, led by categories such as staples, snacks, dairy, personal wash, fragrances, homecare and agarbatti. Demand in categories with greater salience to out-of-home consumption was hurt due to the heat wave, the company said.

The FMCG Ebitda margin expanded by 25 basis points y-o-y to 11.3%, with price upticks seen in commodities such as sugar, potato, choco cream, and edible oil. Profit before interest and tax of the FMCG business was up 10.4% y-o-y in Q1.

The cigarettes segment saw net revenue increase by 7% to ₹7,918 crore and PBIT rise by 6.5% y-o-y. "Sharp escalation in costs of leaf tobacco and certain other inputs were largely mitigated through improved mix, strategic cost management, and calibrated pricing," ITC said.

In the hotel business, ITC reported revenue of ₹666 crore, a growth of 10.9% y-o-y; PBIT was up 11.5% y-o-y. ITC Ratnadipa, Colombo, launched in April 2024, is currently operational with 225 rooms and eight F&B outlets.

HIGH VALUATIONS NO DETERRENCE

DIIs outpace FPI fund flows by 5 times in last 10 months

VIVEK KUMAR M
Mumbai, August 1

THE RALLY IN India's stock markets has been fuelled almost entirely by local buying. Domestic institutional investors (DIIs) have invested nearly five times the amount foreign portfolio investors (FPIs) infused in the equity markets over the last 10 months. During the period, the benchmark Nifty moved from 20,000 to 25,000 points, scaling a new peak on Thursday.

Local institutions have bought stocks worth a staggering ₹3.36 trillion since September 12, when the Nifty hit 20,000 points for the first time. Against this, FPIs have pumped in approximately ₹70,550 crore. Also, promoters have pared stakes valued at close to ₹1 trillion.

Interestingly, equity mutual funds were sitting on cash to the tune of ₹1.27 trillion as of June 30, according to the data from Value Research. While some of this may have been deployed over July, the strong inflows into equity-oriented schemes would mean MFs still have a fair bit of dry powder with them.

The high valuations — both for stocks and the indices — do not seem to have deterred small investors. A very large number of stocks now trade at price to multiples of 50x and 60x estimated forward earnings, and are building in unreal expectations.

Going by the continuing strong flows into systematic investment plans (SIPs), now averaging about ₹20,000 crore a month, retail investors are clearly convinced that the equity market is the best place to park their savings.

The attraction for equities as an asset class has pushed up the ratio of equities as a share of net household financial assets, to 14.7% in FY23 from just 4.5% in FY21; it could trend up further in coming years, possibly at the cost of bank deposits.

Economists at Goldman Sachs have observed that there is an ongoing trend of financialisation of household savings, where within financial savings, allocations shift towards non-banks from banks. The overall AUM of retirement savings, insurance, and mutual funds grew at a 15% CAGR, outpacing bank deposit CAGR of 9% over the last 10 years.

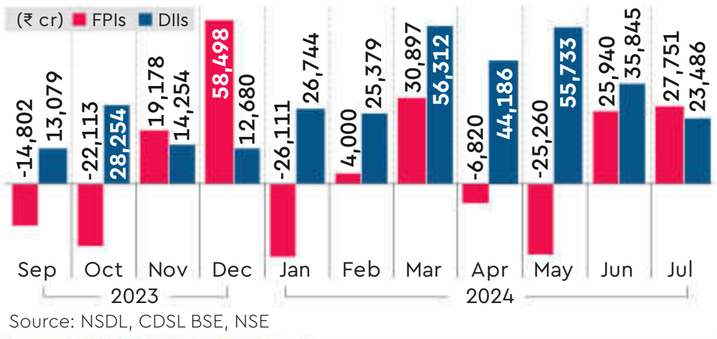

Over 2010-2020, savings in physical assets were on an average 12.8% of the GDP (61% of household savings). Gross financial savings were 11.6% of the GDP, and net financial savings were 8.1%.

Nilesh Shah, MD of Kotak Mahindra AMC, has recommended that investors having a long-term horizon should significantly moderate their return expectations and follow proper asset allocation in the current market environment.

"The Nifty milestones are a journey and not a destination. Do remember that this journey is both forward as well as backward. Nasdaq went so backwards that it took 17 years to come back to the previous peak," Shah said.

LTCG tax scrutiny targets ₹2.15 trn in IPO share sales

SECONDARY SHARE SALES worth ₹2.15 trillion via initial public offerings (IPOs) since February 2018 are under the lens for potential long-term capital gains (LTCG) tax evasions.

The reintroduction of LTCG tax in 2018 left room for confusion among promoters and private equity firms regarding its applicability, leading to varied valuations, and in some cases, non-payment of the tax. With the Budget clarifying these rules retrospectively from February 1, 2018, all subsequent IPOs fall within the tax's ambit.

The ambiguity stemmed from the absence of clear provisions to determine the fair market value (FMV) of equity shares for unlisted companies, although the securities transaction tax (STT) had been paid on them.

While the government is yet to estimate the potential tax recovery, experts anticipate reassessment and interest payments on all IPO sale transactions after February 2018. To put it in perspective, this scrutiny covers 66% of ₹3.26 trillion raised through IPOs during this period, including secondary sales through public sector undertaking (PSU) IPOs.

New RBI guidelines to hasten wilful defaulter identification

SACHIN KUMAR
Mumbai, August 1

THE RESERVE BANK of India (RBI)'s final guidelines on wilful default will expedite the process for the lenders to identify wilful defaulters. The guidelines require banks to declare a borrower as wilful defaulter within six months of the account being classified as a non-performing asset (NPA). Earlier, there was no specific time line for banks which allowed defaulters to approach other lenders to avail of loans, say bankers.

"The identification of a wilful defaulter has now become a time-bound procedure. It will limit the chances for a wilful defaulter to cause similar issues at other banks," said a senior official at a public sector bank. "Banks used to be cautious in declaring a borrower as wilful defaulter to avoid any legal complication, making it a time-consuming process."

The RBI on Tuesday issued a master direction to address the issues of identification and treatment of wilful and large defaulters.

"If wilful default is observed in the internal preliminary screening, the lenders shall complete the process of classification/ declaring the borrower as a wilful defaulter by following the mechanism set out in para 4 (1) above, within six months of the account being classified as non-performing assets," said the RBI guidelines.

According to the new guidelines, a borrower must provide feedback to the identification committee within 21 days, and to the review committee within 15 days.

"The master direction will help lenders address wilful default in a time-bound manner as stipulated therein. Early diagnosis will help initiation of measures in a more effective manner," Hari Hara Mishra, CEO, Association of ARCs in India, told *FE*.

The new guidelines have also granted borrowers the right to a personal hearing before the review panel. Previously, the decision to hold the hearing was at the discretion of the committee, but it is now mandatory to hear the borrower.

"Bodies such as identification committee and review committee existed earlier as well, but now the RBI has introduced specific time line in the process," said the banker.

The revised guidelines have made it mandatory for banks to conduct a comprehensive investigation from the perspective of a wilful default before selling bad loans to asset reconstruction companies (ARCs).

"Examining the wilful default angle before sale of assets to ARCs will remove uncertainties and is market-positive," said Mishra.

Tighter liquidity norms credit positive for banks: Moody's

REUTERS
Mumbai, August 1

THE RESERVE BANK of India's latest draft guidelines aimed at enhancing banks' ability to manage liquidity in the face of increasing digital transactions is credit positive, ratings agency Moody's said on Thursday.

The RBI released a set of preliminary guidelines last month, including suggesting that banks will be required to allocate an additional 5% reduction in the stability of retail deposits that have internet and mobile banking access. The guidelines will however, lead to a fall of around 15 percentage points in banks' liquidity coverage ratios (LCR), Moody's said.

LCR is a liquidity requirement for banks to maintain a certain proportion of high-quality liquid assets including cash, reserves with central banks, and government bonds, which can easily be converted into cash whenever needed.

The proposed tighter liquidity norms are credit positive because they will help improve banks' resilience against unexpected outflows of depositors, and improve liquidity buffers, Moody's said.

"At the system level, retail and small business deposits make up around two thirds of total deposits and we expect more than 50% are IMB (internet and mobile banking)-enabled," the rating agency said.

Ola Electric IPO attracts $2-bn bids from big institutions

ADITYA KALRA
Bengaluru, August 1

OLA ELECTRIC'S IPO drew bids worth over $2 billion from institutions ahead of its opening for retail investors, with shares allocated to Nomura, Norges Bank and some Indian mutual funds, a source with direct knowledge said.

Indian Electric scooter maker Ola, backed by SoftBank, plans to raise $734 million in India's biggest IPO this year. The quota for big institutions was set at $330 million and allocation was completed on Thursday.

SBI and HDFC Mutual Funds were allocated shares worth $30-$36 million each, while Nomura and Norges Bank were allocated around $24 million each, the source added. Ola Electric and the investors named did not immediately respond to requests for comment.

NBFCs' risky bond sales at 5-year high

DIVYA PATIL
August 1

NON-BANKING FINANCIAL COMPANIES (NBFCs) are stepping up their riskier bond borrowings as they boost capital to meet the growing demand for loans.

Issuances of local-currency subordinated debt have increased to a five-year high of ₹9,310 crore ($1.1 billion) so far this year, according to data compiled by Bloomberg. That is already more than last year's total of ₹7,370 crore.

The so-called subordinated bonds are considered risky because they rank below other debt with respect to claims on assets in the event of liquidation of the borrower. Investors are responding well because the yield premium offered is making up for the extra credit risk.

Cholamandalam Investment and Finance Co this week priced India's largest subordinated debt by a private lender, raising ₹2,000 crore, while SBI Cards plans to raise ₹1,500 crore next week.

"NBFCs are selling more of this unsecured debt because they are raising capital to fund credit growth," said Venkatakrishnan Srinivasan, managing partner at Rockfort Fincap. "Issuers are also getting investor demand for these risker notes because the yield pick up is high to compensate for the risk," he said, adding investors are cautious and buying such notes only if they are highly rated.

Slower lending from banks to the sector after tighter RBI rules is also prompting these financiers to come to the bond market for funds, Srinivasan said. **—BLOOMBERG**

Corporate loans of up to ₹25,000 cr are in the pipeline: UCO Bank MD

PIYUSH SHUKLA
Mumbai, August 1

KOLKATA-HEADQUARTERED UCO BANK has ₹20,000-25,000 crore of corporate loans in the pipeline from sectors including steel, renewable energy, textile and non-bank lenders, managing director and CEO Ashwani Kumar told *FE*.

"We have around ₹20,000-25,000 crore of corporate loan proposals, but are focusing more on advances where margins meet our internal benchmark. In PSU (public sector units) entities, the yield is lower," he said.

The Reserve Bank of India's draft guidelines will likely have a 5-10% hit on UCO Bank's liquidity coverage ratio, which stood at 130% as on Q1, Kumar said.

The bank's overall advances stood at ₹1.93 trillion as on June 2024, up 18% year-on-year (YoY), and 3% sequentially.

Retail, agriculture and MSME loans accounted for 61% of overall loans while corporate loans formed the rest. Corporate loans grew 20% YoY to ₹64,611 crore in the first quarter of the current fiscal.

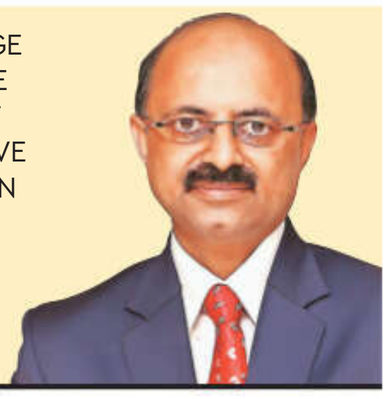

Overall deposits grew 7% to ₹2.68 trillion for the June quarter. Kumar said UCO is expanding tap banking facility in its 3,000 branches, launching 120 new branches in the current fiscal and has started offering a new salary account product and women-centric deposit scheme with slightly higher interest rate to enhance the deposit growth.

"In the current environment, it is a challenge for all banks to accrue CASA. But, the good part for us is that we have been able to maintain the CASA ratio in the 38-39% range. If we are able to keep it near 40%, considering the current environment where customers are turning to be investor than saver, it will be a good achievement," Kumar said.

UCO Bank is targeting to lower its gross and net non-performing asset ratios to 3% and 0.65%, respectively, by FY25 compared with 3.32% and 0.78% as on Q1FY25.

NOW, IT IS A CHALLENGE FOR BANKS TO ACCRUE CASA. THE GOOD PART FOR US IS THAT WE HAVE BEEN ABLE TO MAINTAIN CASA RATIO IN THE 38-39% RANGE

6-1 RULING OVERTURNS 2004 VERDICT BY 5-JUDGE BENCH

Apex court allows new quotas within SC/ST reserved quota

States empowered to decide weakest groups, based on need and data

ANANTHAKRISHNAN G
New Delhi, August 1

IN A LANDMARK 6-1 majority ruling Thursday, a seven-judge Constitution Bench of the Supreme Court held that Scheduled Castes do not constitute a socially homogeneous class and can be sub-classified by States for the purpose of providing reservation to the less privileged among them.

It said there must be a "rational principle" for such differentiation and the principle must have "a nexus with the purpose of sub-classification". One of the majority ruling judges also favoured excluding the creamy layer from Scheduled Castes (SCs) and Scheduled Tribes (STs).

Justice Bela M Trivedi was the lone dissenter who, in her verdict, said Scheduled Castes constituted a homogeneous class and "cannot be tinkered with by the States"

The majority verdict by Chief Justice of India D Y Chandrachud and Justices B R Gavai, Vikram Nath, Pankaj Mithal, Satish Chandra Sharma and Manoj Misra overruled the 2004 judgement in E V Chinnaiah vs State of Andhra Pradesh, wherein it was held that Scheduled Castes constituted a homogeneous group and cannot be sub-categorised.

Justice Bela M Trivedi was the lone dissenter who, in her verdict, said Scheduled Castes constituted a homogeneous class and can be tinkered with by the States for the purpose of identification. She said the majority judgment "failed to consider significant aspects with a bearing on the issue".

The matter reached the 7-judge Bench after a 5-judge Bench, on August 27, 2020, in the State of Punjab vs Davinder Singh, said the judgement in Chinnaiah requires to be revisited by a larger Bench since it had failed to consider significant aspects with a bearing on the issue.

The majority rejected the argument that once enumerated in the Presidential List under Article 341 of the Constitution, the Scheduled Castes constitute a homogeneous class, which is incapable of further subdivision/sub-classification and that any attempt to sub-categorise them would amount to tinkering with the Presidential List, in violation of Article 341 (2) and Article 14 of the Constitution.

Writing for himself and Justice Misra, CJI Chandrachud said Article 341 does not create an integrated homogeneous class. "Empirical evidence indicates that there is inequality even within the Scheduled Castes. The Scheduled Castes are not a homogeneous integrated class," he said.

The ruling said "the power of Parliament to vary the list includes not merely the power to exclude or include 'any caste, race or tribe' but also the power to exclude or include 'parts of or groups within any caste, race or tribe... Article 341(2) bars the State Legislature from removing or adding castes from and to the List respectively. Sub-classification within the Scheduled Castes for the purposes of affirmative action, including reservation, does not include or exclude any caste or group from the List".

Dalit voices air dissent, fear quota fallout

SHUBHANGI KHAPRE & DEEPTIMAN TIWARY
Mumbai/New Delhi, August 1

THE VANCHIT BAHUJAN Aghadi (VBA)'s president Prakash Ambedkar has criticised the Supreme Court Constitution Bench's judgment allowing states to sub-classify the Scheduled Castes (SCs) / Scheduled Tribes (STs) to ensure grant of quota to more backward castes in these groups, saying the ruling "goes against the letter and spirit of reservation enshrined in the Constitution".

Prakash, B R Ambedkar's grandson, said if any sub-classification has to be carried out, then it must be done by Parliament

Prakash Ambedkar, the grandson of B R Ambedkar, said if any sub-classification of these reserved groups has to be carried out, then it must be done by Parliament. Warning about the verdict's "adverse implications", he said it is "a central subject and not a state issue".

"The Supreme Court verdict allowing states to do sub-classification of Scheduled Castes is a victory for those sections seeking it. What is missing in it is the process," Ambedkar said.

"A state is not a competent authority to undertake sub-classification of SCs. If it is necessary, it should be done only by Parliament," he added. "The premises on which this sub-classification is justified is to ensure fair representation (in quota) to sub-castes within SCs, STs, and OBCs (Other Backward Classes)," he said.

In his reaction, the Bhim Army founder and Aazad Samaj Party (Kanshi Ram) chief, Chandrashekhar Aazad, said, "I am yet to read the full SC judgment. One judge has dissented, that too needs to be studied. It remains to be seen if Article 341 (which empowers the President to create a list of SC communities) has been violated. I believe doing this without the socio-economic caste survey will not be right. One must read the Constituent Assembly debates. A Dalit's social status does not change by getting a post."

On the implications of the top court's judgment for the Dalit community, Aazad said, "There has been a policy of divide and rule. After a long time, SCs and STs have come together. I would like to know how many of the judges and the lawyers involved in the case belong to SC/ST communities."

Toll likely to cross 300 in Wayanad landslides

SHAJU PHILIP
Meppadi, August 1

WITH THE KERALA government Thursday confirming that "all those who are alive" at the landslide-hit villages have been rescued, the death toll from Tuesday's tragedy is likely to cross 300.

With the recovery of a few more bodies till Thursday noon, the official toll has reached 177. Besides, around 170 persons are missing, as per official data. Of the 177 confirmed deaths, 81 are men, 70 women and the rest children. So far, only 98 bodies have been identified.

Apart from the confirmed deaths, rescue workers have fished out 92 body parts, mainly from the Chaliyar river in Malappuram's Nilambur region. As many as 252 post-mortems, including of the body parts, have been conducted, officials said.

After a review meeting at Kalpetta in Wayanad, CM Pinarayi Vijayan told the media that "all those who are alive have been saved in the last three days".

M&M targets product, revenue leadership in all areas: Shah

The company is not only focused on manufacturing the product – EVs – but wants to get into the entire value chain as well. As part of the plan, M&M is looking at manufacturing lithium-ion batteries, and is in talks with German major Volkswagen.

"We have a good partnership with them (Volkswagen) on cells and motors, and that's one of the reasons that we are talking with them on whether we should put a plant in India jointly," he said.

On subsidy schemes such as FAME for promoting EVs, Shah said that while any incentive will, and should, have limited shelf life, it's important if a transition is needed from one kind of technology to another to attain the objective of lower emission and cutting down on fuel import bill.

"The kind of switchover which happened in the three-wheeler space with incentives like FAME would not

have happened otherwise. Around 54% of the three-wheeler market is on electric today. It's going to take time to achieve a similar success in passenger EVs, but it's surely going to happen," he said.

He, however, steered clear of the debate on whether goods and services tax (GST) rate and other similar incentives should also be offered for hybrid vehicles, which are manufactured by Maruti and Toyota. "If hybrids help in achieving the purpose, it may be looked at by the government," Shah said.

On whether M&M rules out making hybrid vehicles or it may explore the option in future, he said, "Any powertrain (that the) consumers want will also be explored by us. For us, it depends on consumer demand."

Shah also talked about the company's two-wheeler business, which is generally seen as the weakest link of its business spectrum. Rejecting such a perception, he said, "We are focused on a very specific segment of two-wheelers and that's the only segment we are going to play in. We have got a very strong collection of brands. It takes time to build a business like this, especially when the leader has a market share of 85%. But the business is built well and the products are outstanding. This is something we see actually being successful and it is just a matter of one step at a time." He said the company will operate in a niche segment, and not the mass market.

Talking about new-age technologies and their impact on manufacturing processes and meeting consumer needs, Shah elaborated on the work the company is doing in generative artificial intelligence (GenAI).

"It is important for us to be a tech leader in every industry that we are in and for technology to deliver specific outcomes," he said. Shah said that in cases of maintenance requirement after a breakdown of a production line, the company is today able to save 15% of the time because of GenAI, which can give very specific solutions.

"Another example is that of service shops. Certain parts may not be available at all times, but there are parts from different products which might be identical. This has saved 80,000 hours of wait time for customers," he said.

IT companies face more GST notices

According to Nasscom, the GST enforcement authorities have been issuing notices for remittance by the Indian head office to its foreign branches for cases where there is no service between the head office and the foreign branch for this RCM, ignoring that this is not a case of "import of service" by the head office from the branch. "This is not a new problem and courts have been ruling in favour of the industry in these cases," it said.

Infosys said in a stock exchange filing on Wednesday that as per regulations, GST is not applicable on expenses incurred by its overseas branches. "Additionally, as per a recent circular (circular number 210/4/2024 dated June 26, 2024) issued by the Central Board of Indirect Taxes and Customs (CBIC), services provided by the overseas branches to Indian entity are not subject to GST," it added. The company claimed that "GST payments are eligible for credit or refund against export of IT services, and added "Infosys has paid all its GST dues and is fully in compliance with the central and state regulations on this matter."

The GST evasion notice, however, did not have any major impact on the performance of Infosys shares. The Infosys stock on Thursday closed at ₹1,852.30 on BSE, down 0.84% from its previous close, while on NSE it ended 1% lower at ₹1,847.65.

Nasscom highlighted that the above-mentioned CBIC circular which stated that for the import of services, "the deemed open market value of such transactions will be nil if full input tax credit (ITC) is available".

As per the circular, said the industry body, when full ITC is available to the recipient in India, the value declared in the invoice is deemed to be the open market value, and if no invoice is issued, the value of such services may be considered nil, thus resulting in no GST liability.

Fresh issue of sovereign gold bonds unlikely

The Centre finances its fiscal deficit with several instruments including dated securities, national small savings fund (NSSF), provident funds and other tools including sovereign gold bonds.

The original issue price of the SGB 2016-17 Series I was ₹3,119/gram. Now, the gold price is ruling at ₹7,190/gram. If the price holds, the redemption of the bond on August 5 would give a CAGR return of 11% to investors. Additionally, the investors are getting 2.75% interest per annum on the bond.

After the import duty was cut to 6% from 15% in the latest Budget, domestic gold prices fell from ₹7,350/gram to about ₹6,900, a decline of 6%. The duty cut was aimed at lowering input costs, reducing gold smuggling, stimulating domestic manufacturing and boosting exports.

"SGBs were brought in as an investment (instrument) with a specific objective of curtailing imports of gold and holdings. But now that we have reduced the duty, we'll see how to go about it," the official said, adding that the high gold price was not due to customs duties but due to geopolitical issues. The net borrowing through SGBs for FY25 has been slashed to ₹15,000 crore from ₹26,138 crore estimated earlier.

The Centre's gross and net borrowings via SGBs were ₹26,852 crore and ₹25,352 crore, respectively, in FY24, as per the revised estimate.

On sovereign green bonds, the official said the government will proceed with the plan to issue papers worth around ₹20,000 crore in the current financial year. However, it will keep a watch on greeniums (premiums by way a lower cost of borrowing for the governemnt) as it was disappointed with the premium of 1-2 basis points the previous year.

Nifty hits 25K; Sensex at new high too

Between April and July, the Nifty has risen 12% and the Sensex 11%.

The rally in Indian stocks over the past 10 months or so has been driven largely by local money. The Nifty reached 25,000 points from 24,000 in just 25 days.

Spurred by retail investments into equity mutual schemes, mutual funds and other domestic institutions have pumped in a whopping ₹3.36 trillion since mid-September last year when the Nifty hit the 20,000 mark. Foreign portfolio investors (FPI), for their part, have stayed away and even taken risk off the table for some months — they have invested a net ₹70,550 crore.

Some caution is setting in. A Balasubramanian, MD and CEO of Aditya Birla Sun Life AMC, pointed out that significant market outperformance in recent years could lead to periods of flat returns, which might test investors' patience as future returns could be muted.

"If I was to deploy cash in the market today, I would put more money in large-caps than in small-caps or mid-caps," Holland said.

Balasubramanian attributes the strength in the market to underlying economic growth and strong corporate performance. "Corporate India has benefitted from macro-economic factors such as low inflation, low interest rates and a stable currency market," he added.

The Nifty's journey from 20,000 to 25,000 points has been driven by largely by movements in stocks from sectors such as utilities, power, real estate, oil and gas, and automobile sectors.

The 50-stock index took 25 days to move from 24,000 to 25,000 compared to 23 days for its previous 1,000-point rally. On average, the benchmark has taken around 86 days for every 1,000-point gain in the journey from 15,000 to 25,000 points.

The Sensex took 10 days to reach 82,000 from 81,000, as compared to an average 14 days for every 1,000-point rally between 72,000 and 82,000.

With this, the Sensex has achieved Morgan Stanley's 12-month forward target of 82,000 in just two months. The international brokerage firm had given the target for the 30-stock index on June 5 after the general elections.

Compared to the low-teen returns of benchmark indices so far in FY25, the BSE Smallcap index has surged 27% and the BSE Midcap index has risen nearly 23%.

On Thursday, the broader market saw some correction with the midcap index falling 0.8% and the smallcap index ending 0.7% lower.

Demerger of Adani's food, FMCG biz gets board nod

"This demerger is in line with AEL's incubation strategy which includes demerging the business once it is self-sustained and properly established. In the past, AEL has demerged businesses including Adani Green Energy, Adani Energy Solutions (Adani Transmission earlier), etc., once they became self-sustaining," a group source said.

No cash consideration is payable under the proposed scheme.

Post the transaction, the promoter stake in Adani Wilmar will fall to 76.76% from 87.87% currently, while public shareholding will increase to 23.24% from 12.13%, sector experts said.

Sebi guidelines require that large firms must have at least 25% of shares available to the public within

three years of the date of the listing of a company. Adani Wilmar was listed in February 2022 and the Adani Group had time till February next year to pare its shareholding in the firm, analysts said.

Also, Adani Wilmar, which was formed as a joint venture company between the Adani Group and the Singapore-based Wilmar Group in 1999, will cease to be a JV of the former following the transaction.

The food and FMCG verticals and other businesses of Adani Enterprises are capable of attracting a different set of investors, strategic partners, lenders and other stakeholders, Adani Enterprises said in a statement on Thursday.

"In order to lend greater focus to the operation of the said (food and FMCG) business, it is proposed to reorganise and segregate the food and FMCG business by way of demerger and transfer the same to the resulting company (Adani Wilmar)," the statement added.

Adani Enterprises further said that the proposed demerger would unlock the direct value of the firm to Adani Enterprises' shareholders and also provide scope for independent collaboration and expansion.

The sticky revenue deficit

Tax reforms without economic overhaul won't pay; the case for a quantum jump in fiscal resources is strong

THE POST-PANDEMIC period has seen growing financialisation of wealth in India, despite sluggish income growth across vast sections of population and increased indebtedness of households. In addition to the heightened "tax effort" by the government, this too has contributed to recent years' steep recovery in tax revenues. For the first time in the country's history, revenue from capital gains tax has outpaced the receipts from all other tax heads. Its share in the personal income tax receipts has reached 10%, and is poised to grow further in the coming years. Yet, the Centre has budgeted for a decline in tax buoyancy (to 1 in FY25 from 1.3 in FY24). It envisages a further rise in share of direct taxes in gross tax receipts (to 57.5% in FY25 from 56.6% in FY24, and just 48.6% in FY17). This indicates that the tax incidence among the (small) fraction of economic players, who pay direct taxes, is set to rise.

With the modest increase in the rates of capital gains tax announced in the Budget, a large part of the additional burden may tend to lie on the rich and institutional players. But a tidy sum of the extra revenue would come from the (not-so-well-off) middle class too. The Centre's tax-GDP ratio for FY25 is pegged at 11.8%, the highest level since FY08, when it crossed 12%. What's worrisome is that the tax effort is wearing out, much before the estimated "tax potential" is achieved. To be sure, the country's current tax-GDP ratio of 18% (for the Centre and states combined) is not only far below the estimated potential of 25%, but even trails the FY08 peak of 18.4%. The managers of the country's public finances have willy-nilly pushed themselves into a predicament: for any incremental growth in revenues, they have to resort to "taxing" the economy.

The way out of this vicious circle is a certain mix of radical reforms of both the economic structure and the tax policies. India being a predominantly consumption-led economy, the share of consumption taxes in government revenues can grow faster until it reaches a threshold where it turns regressive. At the same time, the direct tax base must widen substantially and diversify, allowing investments, and even income, to be taxed more benignly. While taxing agriculture income is politically difficult, a beginning can be made by stipulating that those under the highest (39% at present) income tax slab must also pay tax on their farm income at the same rate. The economic restructuring must involve resolving the huge income asymmetries, and making free play of market forces a reality, rather than mere rhetoric. Dispersed income is a proven consumption booster. Increased automation of the industry must be carefully calibrated with the goal of creating millions of additional well-paying jobs.

Moreover, as a fast-growing, high-trade-deficit economy in a world struggling to fight economic stagnancy, India must double down on the fight against profit-shifting practices among large multinational enterprises, including tech giants. The current set of multilaterally coordinated anti-avoidance mechanisms, like the G20-OECD Base Erosion and Profit Shifting project, are unlikely to be helpful to the country. These may eventually unravel, given their internal contradictions. A fully autonomous shift to destination-based cash-flow tax for companies, from the current system of origin-based taxation of business income, is worth considering. The objective must be to shun favouring debt (rent) and implicit taxation of investment.

Gaza ceasefire prospects turns more elusive

THE ASSASSINATION OF Hamas's political leader, Ismail Haniyeh, in Tehran — shortly after Israel's strike on a senior Hezbollah commander, which was in retaliation to a rocket attack in Israeli-occupied Golan Heights, killing a dozen children — threaten to escalate tensions in West Asia. There are heightened risks of the conflict spilling over from Israel to Lebanon and Syria, ultimately involving Iran, for supporting Hamas and other militias like Hezbollah in Lebanon and the Houthis in Yemen. Israel is confronted with a probable response from Hamas and Hezbollah for the attacks on their leaders, besides from Iran itself. Hamas' armed wing has said that the Haniyeh's assassination will "take the battle to new dimensions and have major repercussions".

Haniyeh was the diplomatic face of Hamas and was closely involved in the negotiations for a Gaza ceasefire mediated by the US, Egypt, and Qatar. He was perceived to be a moderate — in contrast to the militant hardliners in the resistance group — who pushed for a deal and compromise. In April, three of his sons and grandchildren were killed in an Israeli air strike in Gaza. His departure leaves the ongoing ceasefire talks in limbo. According to Qatar's Prime Minister, "Political assassinations and continued targeting of civilians while talks continue leads us to ask, how can mediation succeed when one party assassinates the negotiator on the other side?" Clearly, his killing has only made the efforts to end the 10-month war in Gaza more elusive.

N CHANDRA MOHAN

Israel, for its part, has taken a huge gamble in targeting the Hamas and Hezbollah leadership and risks opening up a multi-arena conflict in West Asia. PM Benjamin Netanyahu has said that Israel "will exact a heavy price from any aggression against us on any front". Israel can, of course, count on the ironclad support of the US in this regard but the latter does not want to be drawn into a regional conflict. International shipping through the Red Sea has already been seriously disrupted by the Houthis. Despite the raging war between Hamas forces and Israel's army since October 7 last year, a noteworthy feature is that global oil prices have so far not flared up. But all of this could change with a wider conflagration in West Asia and impact the world economy.

All of this is bad news for the US, that has pushed for a ceasefire deal between Hamas and Israel with a proposal President Joe Biden outlined on May 31, which was endorsed by the UN Security Council on June 10. The prospects remain elusive as the protagonists have neither accepted nor rejected the proposal. Nothing exemplified the complexities of ensuring a ceasefire deal more than Biden's response to a question by Time magazine as to whether Israel's PM was prolonging the war for his own political ends. "There is every reason for people to draw that conclusion," Biden said. He later downplayed that comment but there is undoubtedly frustration over the different voices in Israel regarding his three-stage ceasefire deal.

While presenting the proposal — which the US indicated was Israel's — Biden stated that it's time for this war to end, for the day after to begin. According to him, Hamas has diminished capabilities and is no longer capable of carrying out a major attack on Israel like it did on October 7. But Israel does not see it that way. Netanyahu's political survival crucially depends on the support of ultranationalist and religious extremist groups who want the 10-month-long war to continue until Hamas is totally destroyed. Of Hamas' 24 battalions, each about 1,000 strong, as many as 20 have been reportedly "dismantled" by Israeli forces. After Haniyeh's death, all eyes will be on Yahya Sinwar, military leader of the group in Gaza, on how he takes forward the fragile ceasefire deal to end the war that has killed around 40,000 Palestinians and threatens full-blown famine conditions for Gazans.

UNLISTED EQUITIES ARE BEST POISED TO BENEFIT FROM THE NEW LTCG REGIME

Capital gain minus indexation

INFLATION IS A silent, ecumenical tax which robs the purchasing power of citizens while inflating costs. It has brought down governments and destroyed economies. Protecting citizens from the ravages of inflation is the primary objective of central bankers and governments across the world.

History of CII and capital gains tax in India

To protect against inflation, the Indian government introduced the Cost Inflation Index (CII), which is derived as 75% of the average increase in the urban Consumer Price Index for the previous year. Indexation accounts for inflation by increasing the historic acquisition cost to its current purchasing power, normalising the effect of inflation during long-term capital gains (LTCG) computation. Other sources of income, being yearly, do not enjoy indexation.

Taxation is on revenue, not capital. Capital gains is unique as it's a tax on capital receipts. India's tryst with LTCG taxation began in the 1946-47 financial year to curb the speculative investments in the post-World War II high inflationary environment. It was removed in two years but reintroduced in 1956 based on the recommendation of professor Nicholas Kaldor. Since then, it has been constantly tweaked to balance out incentivising investments while augmenting government revenues. Indexation came out in the 1991-92 Chelliah Committee report, which clearly highlighted the erosion of purchasing power due to inflation. This resulted in the introduction of Section 48 of the Income Tax Act, 1961, which provided for the CII.

Thus the removal of indexation, a shield against the ravages of inflation, has soured Indian taxpayers. This removal comes in the wake of a 37.5% reduction in the LTCG tax rate from 20% to 12.5%. But the balance of this requires greater examination.

Cost Inflation Index removal vs change in LTCG tax rates

A comparison of the old and new LTCG tax regimes shows gains made in excess of 11% compound annual growth rate (CAGR) on average over a 24-year period makes the new regime more beneficial. This will change depending on the holding period. The average inflation as per CPI is 4.99% from April 1, 2014, to April 1, 2024.

Impact on house property investments

An analysis of the Reserve Bank of India's all-India house price index (HPI) from its database on Indian economy shows that for a 10-year period (*see chart*), the average CAGR of housing prices in the country grew at 3.78%. For housing investors to benefit from the new LTCG regime, they should have got a rate of return of over 10%, or a return on investment of at least 2.5. None of the cities mentioned in the HPI boast of such returns.

Impact on gold investors

Gold has been the preferred investment avenue for Indian households, along with fixed deposits and real estate. An analysis of the average gold prices for 10 grams between 2014 and 2024 shows a mere 6.99% CAGR. This is below the over 10% required for the new regime to be beneficial.

Impact on unlisted equity investors

Investors in unlisted equities in India have always suffered prejudiced treatment. Their investments in unlisted entities attracted angel tax and they suffered a tax rate that was 2.48 times that of their listed counterparts. Budget 2024 normalised this by removing angel tax and placing listed and unlisted equity LTCG taxation on a par.

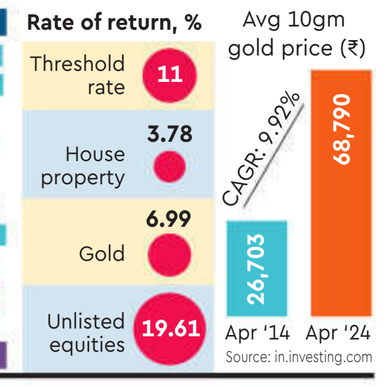

As unlisted security data is not published, a good proxy is the data submitted by the Securities and Exchange Board of India regulated alternative investment funds (AIFs) for their performance benchmarks. The September 30, 2023, benchmark by CRISIL for CAT I AIFs (including venture capital) shows that the nine-year average returns for this is 19.61%. While they may suffer due to the indexation benefits on losses being removed, unlisted equity investors may be the largest beneficiary of the new LTCG regime.

Asset class comparison

Although best poised to benefit from the new LTCG regime, unlisted equity investors are a minority and the revenue lost pales in comparison to the other asset classes. To ensure widespread benefit, the government should look at grandfathering the indexed value of all capital assets liable to indexation up to April 1, 2024. This is similar to the grandfathering in 2018 when listed equity LTCG tax rate was increased to 10%. The government grandfathered the value up to January 31, 2018, as the cost of acquisition. This move will benefit most taxpayers without materially affecting government revenues. This is also in line with the government's previous stance on such a matter.

Macro-models factoring in climate change

AMOL AGRAWAL

The author teaches at Ahmedabad University

The govt should consider setting up water/climate policy committee on lines of the MPC for accurate analysis of various climate trends and risks

THE RESERVE BANK of India, in its June State of the Economy report, cautioned that ongoing heatwaves would lead to a decline in India's labour productivity. Moody's, the leading credit rating agency, added water as a major risk for India's growth prospects. These show how the world of macroeconomics is undergoing a major change. There was a time when macroeconomic models were limited to growth, inflation, unemployment, etc. Now these macro-models will directly or indirectly include climate variables such as heat and water too.

Economists have always tried to build models to understand everything else but an economy. In 1758, Francois Quesnay, leader of France's Physiocrat school of economic thought, developed the first economic model called "Tableau économique". The diagram showed economic relationship between the three main economic classes at the time: landowners, labourers, and merchants. The Physiocrat school had a deep influence on Adam Smith who expanded on the Quesnay highlighted relationships in his classic *The Wealth of Nations*. From Smith's classical school to the Marxist school, class differences formed the bulk of economics models and thinking. In the late 19th century, Alfred Marshall's Marginalist school reoriented economic thinking on the individual and its preferences.

The Great Depression turned all the above developments on their head. There was a strong belief that the markets will eventually enable recovery from the crisis, but that did not happen. The Depression became more severe over time. There was a need to revisit the principles of economics.

John Maynard Keynes gave a new paradigm during the Depression, arguing the need for government intervention to stabilise the economy. His approach divided economics into two separate fields of microeconomics and macroeconomics. The Second World War led to a demand for measuring the impact of war on the economy. This demand created the most important metric for measuring economies — gross domestic product or GDP, which was an old idea first thought by another Physiocrat William Petty. Gradually, economists started thinking and making other macroeconomic estimates: unemployment, inflation, deficits (budget and current account), etc.

> The early macro-models were mainly Keynesian, which emphasised the role of the government in stabilising business cycles

Once macroeconomic theories met the macroeconomic data, it was natural that it led to macroeconomic/macroeconometric models. Jan Tinbergen and Lawrence Klein developed the early econometric models for which both were awarded the Nobel Prize in economics. The early macro-models were mainly Keynesian, which emphasised the role of the government in stabilising business cycles. The advent of the Phillips Curve in 1958 that showed the trade-off between inflation and unemployment further cemented the role of government policy.

In the 1970s, the trade-off went missing and economies faced both high inflation and high unemployment, also termed as stagflation. The limitations of Keynesian models led to building of rational expectation models that made forecasts of outcomes based on current information. These new macro-models ignore the role of the financial sector, a weakness which was exposed gravely during the 2008 global financial crisis. The macro-models post-2008 started including the financial sector.

The above historiography shows how macro-models have changed with a new macroeconomic crisis. The ongoing climate crisis in a similar vein poses wide risks, including to macroeconomics.

Climate crisis is not a new phenomenon. The concerns of planet earth not producing enough for the growing population was the core of Robert Malthus' doomsday thesis of 1798. However, due to technological advances in agriculture we were able to overcome the looming disaster. In 1972, the Club of Rome in its Limits to Growth report showed that if we continued on our growth path, the resource capacity of the Earth would get exhausted in the next 100 years. In 2005, the the UK government announced a high-profile review of the economics of climate change chaired by Lord Nicholas Stern. The Stern review echoed the views of the Club of Rome that climate change would have serious economic consequences. As the action on climate change was picking pace, the 2008 crisis shifted attention to the world economy and financial markets.

As the crisis eased, then-governor of Bank of England Mark Carney brought climate back on the agenda for macroeconomic policymakers. In his 2015 speech, he highlighted that climate change was a tragedy on the horizon and it would have profound implications for financial stability. In 2018, the economics Nobel Prize was co-awarded to William Nordhaus "for integrating climate change into long-run macroeconomic analysis".

Climate change has now became one of the major concerns for the economics community. Concerns like heat, water, and pollution are entering macroeconomic models. Macro-models are showing more interest in questions such as impact of carbon tax on growth, water scarcity on productivity, heat on agriculture yields, etc. Central banks are not just assessing the impact of climate shocks on macroeconomic and financial stability but also preparing their regulated entities to develop climate plans. One should not be surprised to read the Monetary Policy Committees (MPC) highlighting risks not just from inflation but also climate. In fact, the government should consider establishing water/climate policy committee on lines of the MPC for accurate analysis of various climate trends and risks.

LETTERS TO THE EDITOR

Wayanad tragedy

Apropos of "Eco-insensitive" (*FE*, August 1), one can do very little when mountain ranges receive unexpected and torrential rain. Wayanad received 372 mm rain on that fateful night, while the forecast was for 64-204 mm. But such events can be prevented from turning into human tragedies. What is extremely tragic is the fact that neither a warning by the state disaster management authority four years ago, where 4,000 families were asked to leave landslide-prone areas including Mundakkai, nor the Centre's recent warning on July 23, were heeded. In the recent past, severe flooding caused serious damage to nearly every district of Kerala, which witnessed devastating floods in 2018 and 2019. Nothing seems to have been done to prevent disasters in hilly areas. Nature has warned us time and again to keep our house in order and maintain an ecological balance, but sadly we are hell bent on playing havoc.

Modernise agriculture

The finance minister's Budget speech highlighted nine priority areas for the Vikas Bharat Abhiyan, with agriculture's productivity and adaptability being top concerns. For these initiatives to succeed, they require robust and urgent research. Yet the Budget allocation for agricultural research remains minimal. In 2024, agricultural growth has dropped to 1.4% from 4.7% the previous year. Increased investment in research is crucial. In India, where 62% of the population is dependent on agriculture, substantial efforts are needed to develop new seeds and improve irrigation and sowing technologies.

CELEBRITY BRANDING DILEMMA

Moment marketing pitfalls

When does it work, and when does it end in a disaster

TOSHIRO AGARWAL

WITH BACK-TO-BACK BRONZE medals in two shooting events, Manu Bhaker emerged the door opener for the 29 Indian athletes competing for medals at the ongoing Paris 2024 Olympics. To celebrate her wins at the Women's 10m Air Pistol and Mixed 10m Air Pistol (in partnership with Sarabjot Singh) events, a host of brands jostled on social media to share congratulatory posts, while brandishing the athlete's image prominently. That move did not go down well with Bhaker's manager IOS Sports & Entertainment, which promptly sent off legal notices to nearly two dozen brands.

While moment marketing is a common technique used by brands to piggyback on relevant events, fads and cultural moments to connect with consumers, marketers have often stumbled on the issue of keeping within the permissible limits of celebrity advertising. Indian advertising's Bhaker moment might have drawn many eyeballs but failed that permissibility test.

First of all, legally speaking, these brands are on thin ice. Ranjan Negi, managing partner, Mettle Legal, says the Supreme Court of India has recognised the concept of 'inviolate personality' as part of the right to privacy under Article 21 of the Constitution, allowing individuals to control the commercial use of their identity. "Recent High Court cases have protected the names, likenesses, and personal attributes of Anil Kapoor, Jacky Shroff, and Amitabh Bachchan," he pointed out.

- Average reel views: 156,300

- Engagement rate: 2.12%

That apart, unauthorised usage of a celebrity's imagery can mislead consumers and violate the personal rights of celebrities, say branding experts. According to the Advertising Standards Council of India (ASCI), brands capitalising on Bhaker's win represent a potential violation of Clause 1.3 of the ASCI Code on misleading advertisements. Manisha Kapoor, CEO & secretary general of ASCI, says, while there are no specific guidelines for moment marketing, the ASCI Code for Misleading Ads is applicable in this case.

"Respecting the rights of celebrities and having explicit permission or endorsement agreements should be the starting point for any effective marketing strategy," she says.

So did brands end up jumping the gun in their enthusiasm? What is the best way to spin a moment marketing campaign without undermining the rights of the celebrity concerned?

Back to basics

Brands that jumped onto the bandwagon perhaps saw this as too good an opportunity to give it a miss. Olympics is one of the most widely watched sporting events in the world. A report by the Broadcast Audience Research Council showed that with 69 million viewers, India clocked 5.8 billion viewing minutes in the opening week of the Tokyo 2020 Olympics alone. The Paris Olympics is expected to bring in 3X viewership numbers, estimate media analysts.

For her part, Divya Dixit, business strategist and growth advisor, says stopping brands from celebrating this win might not be such a great idea. Think of it this way: A win like this goes a long way in creating awareness for both the brand and the sport, which is important in a country like India where non-cricketing sports are almost always sidelined, she adds.

And when done well, moment marketing can help brands reap rich dividends. Pinaki Dasgupta, professor of marketing, IMI New Delhi, admits that the lack of clear regulation and legal support can lead to opportunistic exploitation of personality brands in India, but done well, moment marketing can be lucrative.

Take Oreo's exploits during Super Bowl XLVII. When there was a power outage for nearly 34 minutes at the stadium, Oreo grabbed the opportunity and tweeted, "Power Out! No Problem! You can still dunk in the dark". The campaign gained immediate traction with more than 15,000 retweets and 20,000 Facebook likes.

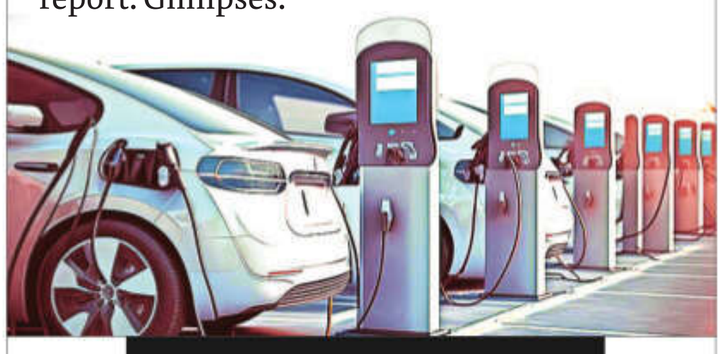

"The lesson from this is, moment marketing has to be metaphorical and not overt; a win or a loss or a victory or an event or a moment must reciprocate the brand sentiment rather than echo the sentiment of the moment," says Dasgupta.

In the end, good advertising demands honesty and fairness, and as ASCI's Kapoor points out, using a celebrity's image without consent fails to meet these basic requirements.

How Sebi plans to rein in speculators

The markets regulator has proposed steps to address retail traders' speculative trading activities, particularly in the context of increased retail participation and the proliferation of short-duration index options contracts. ***Venkatachalam Shunmugam*** and ***Rachana Baid*** explain how these measures will help stabilise the derivatives market

₹52,000 cr

NEW SECURITIES TRANSACTION TAX RATE ANNOUNCED IN BUDGET 2024 AGAINST 0.01% EARLIER

Rationalisation of strike prices

THE RATIONALISATION OF strike prices will limit the number of options strikes introduced at any given time, limiting them close to the prevailing index level. This is intended to prevent liquidity scattering and reduce the possibility of artificial trades in illiquid strikes that have the possibility of attracting gullible retail traders. It will make the market more stable and less prone to sudden price movements.

Collecting options premium upfront

BROKERS WILL BE mandated to collect options premiums upfront from the buyers when they place their orders. This aims to avoid undue intraday leverage and ensure that all positions are adequately collateralised to the last mile, helping maintain market integrity. It will also reduce default risk.

Change in minimum contract size

THE MINIMUM CONTRACT size for index derivatives will be increased in phases. Initially, it will be ₹15 lakh-₹20 lakh, and after six months, it will be raised to ₹20 lakh- ₹30 lakh. This change aims to align with the growth in benchmark indices, reduce implicit leverage, and enhance market stability by ensuring that participants are better capitalised and can manage the risks associated with trading in derivatives.

Removing calendar spread benefit on expiry

THE CALENDAR SPREAD benefit on expiry day is being removed to address the significant basis and liquidity risks that have been observed on the expiry days. This measure aims to reduce the speculative trading activity that typically occurs around contract expiry, thereby enhancing market stability and reducing risk for all market participants.

Rationalising weekly index products

SEBI PROPOSES TO limit weekly options contracts to a single benchmark index per exchange to reduce speculative trading. The existing practice of having weekly expiries on multiple indices across multiple trading days has led to increased speculative activities, particularly around contract expiries.

Intraday monitoring of position limits

POSITION LIMITS ARE risk management tools that prevent market concentration and the associated volatility. Intraday monitoring will ensure traders do not exceed their permissible position limits. This will help prevent market manipulation and excessive speculative activities, ensuring an orderly market.

Increase in margins near contract expiry

MARGINS HAVE ONLY been proposed to be increased on the day before expiry and on the expiry day itself. The Extreme Loss Margin (ELM) will be raised by 3% at the start of the day before expiry and by an additional 5% on the expiry day. This measure aims to address the high implicit leverage and increased risk near contract expiry, ensuring that traders maintain adequate collateral.

Impact on volatility during last half-hour of trading on expiry days

THE PROPOSED MEASURES, such as the rationalisation of strike prices and the increase in margins near contract expiry, are designed to reduce the speculative hyperactivity that causes increased volatility during the last half-hour of trading on expiry days. By limiting the number of available strikes and ensuring that all positions are adequately collateralised, proposed measures aim to create a more stable trading environment, thereby mitigating the extreme price movements typically observed during this period.

How will these help curb instances of retail investors incurring huge losses?

THE MEASURES ARE aimed at enhancing investor protection. The upfront collection of options premiums, hike in the ELM and removal of calendar spread benefits on the expiry day aim to curb excessive speculative trading. Rationalising the weekly index products will help mitigate the risks that lead to significant losses for individual investors. These measures are intended to create a fairer market, reducing the likelihood of heavy losses for gullible retail participants.

Banking to lead in BFSI jobs generation in H2: Report

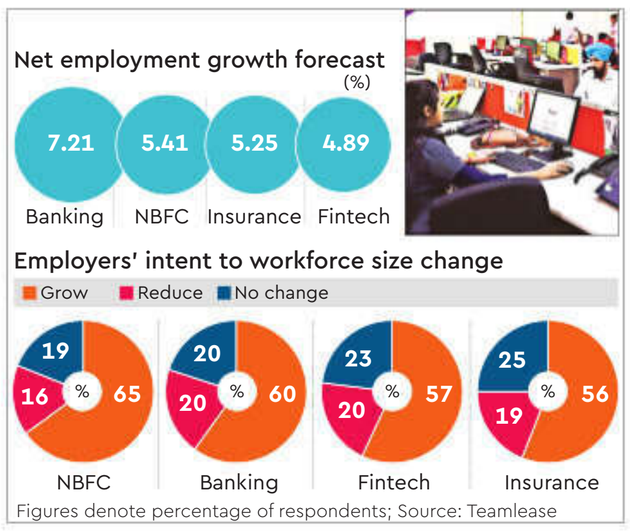

MANU KAUSHIK
New Delhi, August 1

THE BANKING, FINANCIAL services and insurance (BFSI) sector is poised to witness a substantial increase in the net employment in the first half of FY25, as per a report by staffing firm Teamlease Services.

In the April to September 2024 period, Teamlease expects the banking sector to register the highest growth in net employment at 7.21% which will be followed by the 5.41% growth in the non-banking financial companies (NBFCs), signifying their ambitious workforce expansion plans.

The other components of the BFSI space – insurance and fintech sectors – too are likely to see growth in H1FY25. For instance, the insurance sector, with a net employment increase of 5.25%, is going to hire more people on account of meeting requirements in regulatory compliance, cybersecurity, and heightened customer engagement, as per the report. The fintech sector, on the other hand, is expected to witness net employment growth of 4.89% which has been attributed to the rise of UPI and the expansion of the open banking ecosystem.

The report highlights that NBFC companies have the highest propensity to expand their workforce. For instance, 65% of respondents plan to increase their workforce while 16% intend to reduce it, and 19% anticipate no change. In the banking sector, however, 60% of respondents have expressed plans to enlarge the workforce while 20% intend to downsize it, and an additional 20% foresee no changes.

"The banking industry is positioned for growth evidenced by the credit growth for scheduled commercial banks which reached an 11-year high of 15.4% in FY23 compared to 10% in FY22 as well as achieving a three-year high credit-deposit ratio of 75.8%. These indicators reflect robust economic activity and borrower confidence," the report added.

Krishnendu Chatterjee, VP and business head at TeamLease Services said that the BFSI sector's growth trajectory underscores the critical role of continuous upskilling and technological adoption. "A tech-savvy, adaptable workforce is key to sustaining this momentum. Embracing innovation and fostering skill development will be crucial in meeting the employment demand in the financial services landscape," he said.

Ujjwala LPG use rises in 2023-24

ARUNIMA BHARADWAJ
New Delhi, August 1

AFTER A DECLINING trend seen after 2020-21, the pandemic year, the number of subsidised LPG refills and new bottles availed by the beneficiaries of the Pradhan Mantri Ujjwala Yojana has started increasing again. Asccording to official data, the per capita consumption of LPG by Ujjwala beneficiaries has improved to 3.95 refills per year in 2023-24 against 3.71 refills in 2022-23. However, this is still lower than 4.4 refills recorded in FY2020-21 when the government provided up to three refills free of cost in Covid-19 pandemic.

As of July 1, 103.3 million PMUY connections have been released across the country, minister of state of petroleum and natural gas Suresh Gopi informed the Lok Sabha. LPG coverage in the country has improved from 62% in April 2016 to near saturation now, according to the government.

"Further, OMCs are continuously commissioning new LPG distributorships, especially in rural areas. Since the launch of the PMUY scheme, OMCs have commissioned 7,905 distributorships across the country, out of which 7,325 are catering to rural areas," Gopi said. The government had launched the scheme in 2016 with an aim to provide cooking fuel to poor households while discouraging the use of traditional kitchen fuels. The target to release 80 mn connections was achieved in 2019. The government now expects to extend the benefit to 103.5 million households under the scheme by 2025-26.

Last year in August, the government had announced a price cut of ₹200 per cylinder in LPG and decided to expand the scheme with additional 7.5 million connections. In October 2023, it again hiked the subsidy for PMUY consumers by ₹100 taking it to ₹300 per cylinder. In March this year, PM Modi announced a cut of ₹100 per LPG cylinder while encouraging the use of LPG cylinders.

VOLUME GROWTH IN RURAL MARKETS

Dabur Q1 profit rises 8%; revenue up 7%

VIVEAT SUSAN PINTO
Mumbai, August 1

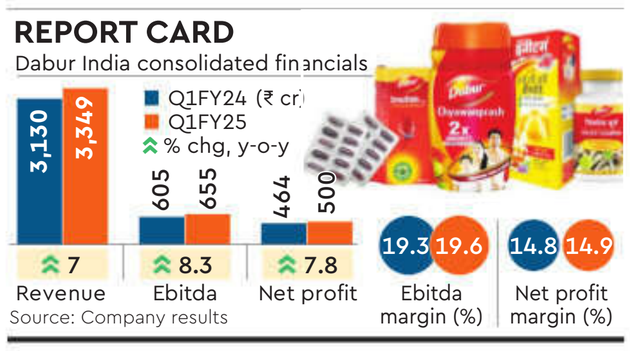

CONSUMER GOODS MAJOR Dabur on Thursday reported better-than-expected June quarter profit, driven by volume growth in rural markets. The company reported an 8% jump in its consolidated net profit for Q1FY25 to ₹500 crore, against a Bloomberg consensus estimate of ₹496 crore.

Consolidated revenue for the quarter stood at ₹3,349 crore, up 7% year-on-year (y-o-y), slightly above the Bloomberg consensus estimate of ₹3,343 crore. The India FMCG business, which accounts for over 70% of Dabur's revenue, posted a volume growth of 5.2% for the quarter, led by rural markets showing signs of recovery. Rural growth outpaced urban growth by 350 basis points y-o-y in Q1. This marks the second consecutive quarter where rural demand has surpassed urban demand for Dabur. The company derives over 40% of its revenue from rural markets, above the industry average of 33-35%.

Earnings before interest, tax, depreciation, and amortisation (Ebitda) rose 8.3% y-o-y in Q1 to ₹655 crore, despite high food inflation. Ebitda margins for the June quarter stood at 19.6%, compared to 19.3% last year.

Dabur CEO Mohit Malhotra stated that the company would continue to invest heavily in its brands to drive market expansion. "It has been a good start to the financial year. We propose to sustain this momentum, especially in rural areas," he said.

Dabur's international business reported an 18.4% growth in constant currency terms in Q1. The Egypt business reported nearly 64% growth, Nigeria grew by 181%, Sub-Saharan Africa by 21.4%, and MENA by 13%, the company said.

Spices controversy impacted exports

The issue concerning contamination of spices in foreign markets has led to delays in exports for Dabur, it said in an earnings call on Thursday. The company exports Badshah Masala to markets like the USA, UK and Western Asia. "We have faced a pushback from international regulators, especially in the UK. There has been very tight screening and scrutiny of all the dispatches (of Badshah Masala) from India. Due to this, there's a long queue, which is leading to delays in the supply chain," Malhotra said.

₹159 cr for BCCI dues from share sale: Byju's

PRESS TRUST OF INDIA
New Delhi, August 1

BYJU'S PROMOTERS ON Thursday told insolvency appellate tribunal NCLAT that the company has raised ₹159 crore through sale of shares to settle cricket board BCCI's dues, denying allegations of round-tripping. The NCLAT said it will continue hearing the plea challenging the insolvency proceeding against Byju's again on Friday and also directed the interim resolution professional (IRP) of Think and Learn, which owns Byju's, not to constitute a Committee of Creditors (CoC) till August 2. On Wednesday, the Chennai bench of the NCLAT deferred its decision on the settlement between Byju's and BCCI after the company's US-based creditor alleged 'round-tripping' of the money by the edtech firm's founder.

Meanwhile, lawyers appearing for Raveendran Byjus and other suspended promoters of the company on Thursday submitted an undertaking to the NCLAT informing the source of ₹158.9 crore to be paid to the BCCI.

MSME lenders favour embedded finance to grow disbursements

AJAY RAMANATHAN
Mumbai, August 1

MICRO, SMALL AND medium-sized enterprise (MSME) lenders are increasingly taking the embedded finance approach to enhance their customer base and increase disbursements.

Embedded finance refers to the integration of banking and other financial services into non-financial applications and services. For instance, a technology platform embeds with a payment platform to assess the transaction flow and give a short-term credit.

Recently, U GRO Capital acquired digital lending application MyShubhLife to gain a footing in the embedded finance segment. U GRO Capital is planning to build assets under management of ₹1,500 crore in embedded financing in the next three years.

"A majority of small businesses like merchants and retailers need short-term credit, which cannot be given on the basis of a balance sheet approach. It needs to be done on the basis of a cash flow analysis approach," Shachindra Nath, founder and managing director, U GRO Capital, said.

Similarly, Bengaluru-based Kinara Capital intends to disburse ₹400-500 crore through the embedded finance segment in 2024-25 (April-March), around fivefold compared with ₹100-crore disbursements in 2023-24.

Flexiloans.com disbursed ₹1,000 crore in embedded finance in 2023-24 (April-March) and is targeting a 60-70% growth in disbursements in the current financial year.

In a recent report, Boston Consulting Group (BCG) and QED Investors said the global embedded finance market will touch $320 billion in 2030. The small and medium-size business (SMB) segment will account for around half the market. While official numbers are not available, experts estimate the short-term credit market in India at over ₹1 trillion.

As far as business loans are concerned, embedded finance can take various forms, including supply chain finance, wherein suppliers can avail of early payment on their invoices. Businesses can also avail of credit on marketplaces like Amazon or information platforms like Zoho or Tally. The average ticket size for these loans is around ₹5 lakh. Loans in this segment are typically priced at 17-18% per annum.

"Embedded finance provides an opportunity to bridge the credit gap for MSMEs because you can provide credit in the normal flow of transactions. This also helps in financial inclusion as a large number of MSMEs are unable to attain formal credit," Neetu Chitkara, managing director and partner, BCG, said.

Arka Finance retail and SME chief business officer Navin Saini contends that with the integration of financial services into non-financial platforms, lenders are able to reduce customer acquisition cost.

While more lenders are expected to tap into embedded finance to cater to MSMEs, industry experts feel that providing credit in relation to transaction flow will remain challenging.

"You need a merchant or a retailer to be on a platform for a while. You need to assess their turnover data, their banking flow and the daily cash flow. Then, the machine has to automate credit and provide a short-term loan," Nath said.

AT A GLANCE

- Instead of a balance sheet approach, the lenders are looking at cash flow analysis
- Lenders target short-term credit market
- Embedded finance refers to the integration of banking and other financial services into non-financial applications

iPhone shipments fall 14% in Jun qtr

JATIN GROVER
New Delhi, August 1

APPLE'S IPHONE SHIPMENTS to distributors fell 14% year-on-year (y-o-y) in the April-June quarter, according to data from CyberMedia Research (CMR). This decline can be attributed to increased competition in the premium segment and seasonal factors. Sequentially, shipments fell 19% during the quarter.

"In Q2 2024, Apple faced significant headwinds in the Indian market, a trend that has historically impacted the brand during this quarter, with the iPhone experiencing both sequential and annual declines," said Prabhu Ram, vice president, industry research group at CMR. "Looking ahead, Apple has ample opportunity for growth in India, with potential boosts from the new iPhone series and the upcoming festive season," Ram added.

India's smartphone shipments fell 2% y-o-y in April-June due to factors such as seasonal slump, and weak demand, Counterpoint said. Even as the iPhone 15 series maintained its popularity, the overall market competitiveness impacted Apple's performance. The same can be assessed from the fact that Apple slipped to third spot with a 16.3% share in value terms after Vivo and Samsung with 16.8% and 24.5% shares, respectively, Counterpoint said.

Be cautious of fake trading platforms: HDFC Bank

PRESS TRUST OF INDIA
New Delhi, August 1

FACED WITH A growing number of cases of investment fraud, HDFC Bank on Thursday advised its customers to be cautious against fraudulent trading platforms that offer investment opportunities.

Most of the lucrative offers come through social media platforms and the aim of this advisory is to increase awareness about potential investment frauds to safeguard customers, HDFC Bank said in a statement.

In cases of investment fraud, fraudsters are seen to typically promise unusually high returns on investments in stocks, IPOs, cryptocurrency, Bitcoin, etc, it said.

This involves the creation of fake automated investment platforms or apps where victims get to view fake dashboards indicating high returns in investments, it said.

Cautioning on this fraud, HDFC Bank, executive vice-president (Credit Intelligence and Control) Manish Agrawal, said, "We are seeing an increase in the number of cases of investment frauds and want to help create a wider awareness and knowledge about the issue, so that the consumers can avoid falling prey to these deceptive schemes."

AKSHAY HIRANANDANI, CEO, SERENTICA RENEWABLES

'We plan to add 2 GW capacity in FY25'

Serentica Renewables, part of Vedanta Group, plans to add close to 2 gigawatt capacity in FY25 with its capex target set at ₹15,000 crore for the fiscal. The company currently has 4 GW capacity under construction and aims to sign power purchase agreements for another 4 GW capacity in the next two quarters, CEO **Akshay Hiranandani** *told* **Arunima Bharadwaj**. *Serentica is seeking a tie-up for an energy storage project and intends to enter the green hydrogen segment in some time. With ₹5,000 crore to be arranged from a private equity investor and around ₹18,000-20,000 crore by way of bank debt, it is confident of financing the ₹25,000-crore capex for the 4 GW capacity under execution. On the plan to raise an additional $300 million via sale of minority stake, Hiranandani said this would be done at the right time. Excerpts:*

WE ARE CONTINUOUSLY SEEKING TECHNOLOGY PARTNERSHIPS AND LOOKING FOR THE BEST SYSTEMS IN ENERGY STORAGE

How do you plan to diversify the business and what are the upcoming projects?
Serentica aims to achieve 17-20 GW in the next 5-6 years i.e., by 2030, either operational or at different stages of execution. We are currently operating close to 500 MW; with an additional 3.5 GW under various stages of construction, totalling around 4 GW under execution. By the end of the financial year, we expect to have anywhere between 1.7 to 1.8 GW being fully operational. The C&I segment itself has a massive opportunity of close to 150-200 GW. Some of our assets will go into servicing the government contracts.

What would be the company's investment strategy going forward?
We received a significant equity investment from KKR, a large private equity fund, with a commitment of ₹5,000 crore. A substantial portion of our investment is funded through non-recourse bank debt, covering 75-80% of our Capex. This combination, along with operating cash from commissioned projects and refinancing, keeps our engine running for the foreseeable future.

Our shareholders are open to raising more capital. We are in ongoing deliberations, and given the attraction of marquee names, we believe we can secure additional capital when needed. So far, we have ₹5,000 crore from the private equity investor and around ₹18,000 to ₹20,000 crore from bank debt. This is how we plan to finance the ₹25,000-crore capex for the 4 GW we currently have in hand. For this financial year, we will be consuming close to ₹15,000 crore.

The company was planning to sell a minority stake to raise $300 million. What is the update?
We keep deliberating on how to raise additional capital but we haven't made any concrete decisions on that. We continuously explore whether we should raise our next round of funding and at what stage. The more operating capacity we get, the less we need to dilute to raise the same amount of money. So, we are trying to determine the right time to raise an additional $300 million.

What is the current status of power delivery agreements in terms of capacity, and how much additional capacity is planned to be added?
Everything we are constructing is tied to a specific power purchase agreement (PPA) /power delivery agreement (PDA) that we sign. The entire 4 GW are contracted under various PPA's /PDA's. In the next quarter or two, we expect to sign PPA/PDA for an additional 4 GW. This aligns with our plan for 17 GW scaling up. Our current visibility includes 4 GW already contracted and another 4 GW in PPA /PDAs that we should sign soon.

These PPAs will involve various industrial and commercial customers. Approximately 25% of them will be with government entities such as SECI, NHPC, SJVN and NTPC. So, we are looking at about 1 GW of these PPAs being with such entities – participating through the tender route.

Does the company plan to foray into the green hydrogen business?
The company plans to have a long-term vision for anything related to sustainability, including green molecules like green hydrogen and green ammonia. It's not something we are immediately exploring, but it is something we plan to get into.

Are there any new ventures or associations with other companies that Serentica is looking for?
We are continuously seeking technology partnerships and we are looking for the best systems in energy storage. Currently, we are engaged in ongoing discussions with various industry players. Specifically, Serentica is definitely seeking an association in the energy storage aspect.

Do you plan to list the company anytime soon?
In the last three years, the pandemic and thereafter the significant monetary tightening have ended up dampening demand. The time has come now for the RBI to decouple its rate changes from the global economy because the common threat of the pandemic has receded.

The government is asking when the private sector will start investing...
As a principle, we don't rule out any form of capital raise, or there is a compulsion to remain either a private company or to become a publicly listed company. If the timing is right and we are in the favourable cycle of equity markets, we could consider going public. However, we have no apprehension about continuing as a private company and raising capital from private sources if that remains the best option.

Are you in any discussions with financial institutions to raise capital?
We are well-capitalised on the equity side and have good access to the debt providers, including both banks and financial institutions, both international and domestic. A significant portion of our debt comes from international sources as well.

In terms of debt, we have a mix of both domestic and foreign institutions. We have foreign lenders such as Rabobank, MUFG, SocGen etc, and domestically with PFC, REC, Yes Bank and Axis Bank, for working capital. We have a solid suite of both domestic and international institutions and banks.

On the equity side, we have KKR, and as and when we decide to raise additional capital, we are receiving enough inbound interest coming to us. We are not pushing it. We will wait for the right time to proceed.

BoE cuts interest rate from 16-yr high

DAVID MILLIKEN, ANDY BRUCE & SUBAN ABDULLA
London, August 1

THE BANK OF England cut interest rates from a 16-year high on Thursday after a narrow vote in favour from policymakers divided over whether inflation pressures had eased sufficiently.

Governor Andrew Bailey — who led the 5-4 decision to lower rates by a quarter-point to 5% — said the BoE's Monetary Policy Committee would move cautiously going forward.

"We need to make sure inflation stays low, and be careful not to cut interest rates too quickly or by too much," he said. The rate reduction was in line with the forecast in a Reuters poll of economists but financial markets had only seen just over a 60% chance of a cut.

Sterling was little changed and bond yields were slightly lower after the decision.

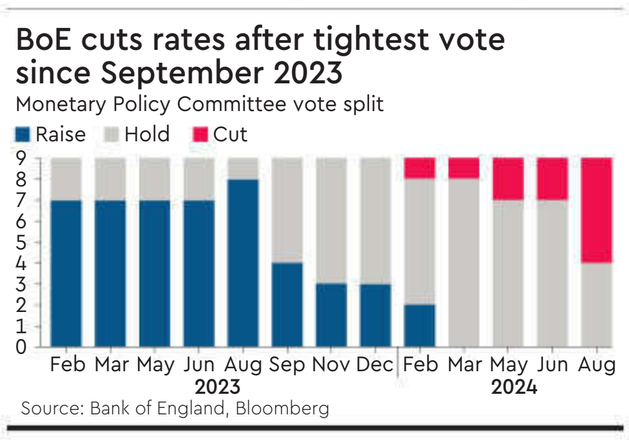

"Falling UK interest rates have arrived at last," Neil Birrell, chief investment officer at Premier Miton Investors said. "The Bank of England has moved from worrying about inflation ... although they are bound to be cautious about further cuts," he said.

Rates have been on hold for almost a full year — the longest period rates have been left unchanged at the peak of a BoE tightening cycle since 2001 — and this is the first cut in rates since March 2020.

In June, the BoE voted 7-2 to keep rates on hold, and minutes of Thursday's meeting showed the decision to cut rates had been "finely balanced" for some members — echoing the language used previously when rates were kept unchanged.

None of the policymakers whose votes changed the balance at this meeting — Bailey and deputy governors Sarah Breeden and Clare Lombardelli — had spoken publicly about monetary policy since the previous meeting in June.

Speaking opportunities had been limited by an election campaign which ended on July 4, which brought the Labour Party to power with a large majority. **REUTERS**

Nvidia adds $329 billion in value as volatility soars

NVIDIA'S WILD RIDE this week is headed for the record books.

The world's third-most-valuable company has added a record $329 billion in value — obliterating the single-day record that it has repeatedly set in the past few months.

The 13% rally comes a day after a 7% rout wiped out more than $193 billion from the now $2.9 trillion company, continuing a run of volatility that makes even notoriously turbulent assets like Bitcoin look stolid.

In July alone, the shares have endured routs that account for four of the eight biggest market cap wipe-outs, according to data compiled by Bloomberg.

The volatility comes as investors grapple with a violent rotation out of high-flying technology shares into left-behind companies that would benefit from Federal Reserve rate cuts.

The chipmaker rallied 150% in the first six months of the year before better-than-expected inflation stoked bets that the central bank would cut as soon as September. **BLOOMBERG**

Hamas leader killed in Gaza air strike: Israel

REUTERS
Cairo/Jerusalem, August 1

THE HEAD OF Hamas' military wing, Mohammed Deif, was killed in an Israeli airstrike in Gaza last month, the Israeli military said on Thursday, a day after the group's political leader was assassinated in Tehran.

Deif is believed to have been one of the masterminds of Hamas' October 7 attack on southern Israel which triggered the Gaza war.

"The IDF (Israel Defence Forces) announces that on July 13th, 2024, IDF fighter jets struck in the area of Khan Younis, and following an intelligence assessment, it can be confirmed that Mohammed Deif was eliminated in the strike," the military said.

Hamas neither confirmed nor denied the killing of Deif, but one official, Ezzat Rashaq, said any word on deaths of its leaders was its responsibility alone. "Unless either of them (Hamas political and military leadership) announces it, no news published in the media or by any other parties can be confirmed," Rashaq said.

The Kremlin is also releasing dissident Vladimir Kara-Murza as part of the agreement, a European official said on condition of anonymity. **BLOOMBERG**

'Is she Indian or Black?': Trump on Harris' identity

US REPUBLICAN PRESIDENTIAL candidate Donald Trump falsely suggested to the country's largest annual gathering of Black journalists on Wednesday that his Democratic rival Kamala Harris had previously downplayed her Black heritage.

"She was always of Indian heritage, and she was only promoting Indian heritage. I didn't know she was Black, until a number of years ago, when she happened to turn Black, and now she wants to be known as Black," Trump said, drawing a smattering of jeers from an audience of about 1,000 people.

"So I don't know, is she Indian or is she Black?," Trump continued. "But you know what, I respect either one, but she obviously doesn't, because she was Indian all the way, and then all of a sudden she made a turn, and she went — she became a Black person."

"It was the same old show of divisiveness and disrespect," Harris said. **REUTERS**

Swapnil wins bronze; third medal for India in shooting

MIHIR VASAVDA
Chateauroux, August 1

ON A RAINY match-day morning, Indian rifle shooter Swapnil Kusale fixed himself a cup of hot tea but couldn't soak in the delightful weather. "I woke up with butterflies in my stomach," he said. "I love tea, and hoped it would calm me down."

He wasn't alone in grappling with anxiety. Far away from the Olympics shooting venue at Chateauroux, in New Delhi's CR Park, Kusale's coach Deepali Deshpande was consoling another ward of hers, Arjun Babuta, who had returned from Paris after experiencing one of Olympics' cruellest fates: missing a medal by a margin finer than a pinhead.

In his 10m final earlier in the week, Babuta dropped from the silver medal position to fourth place in the final few shots. When the same happened to Kusale on Thursday, dropping from second place to fourth, Deshpande was bracing for another consolation speech.

But it won't be needed. Instead, when Kusale called Deshpande, his "second mother", a few happy tears flowed in between the joyous screams.

Kusale, a railway ticket collector, was now an Olympic medallist. The 28-year-old, who idolises MS Dhoni because of a "relatable life story", held his breath and controlled his pounding heart to avoid heartbreak and win a bronze medal in the 50m rifle 3-position — an event dubbed as the "Test match of shooting" because of the wide range of skills it tests.

On a day of mixed fortunes, where serious medal contenders — Satwiksairaj Rankireddy-Chirag Shetty in badminton doubles and Nikhat Zareen in boxing fell by the wayside — it was a shooter who took India's medal tally to three bronze.

The journey to the podium hadn't been easy for Swapnil Kusale. His father, a school teacher, had taken a bank loan to support his sporting dream. He was never a favourite, just doing enough to stay in contention and riding on the wave of unpredictability PTI

For Kusale, the journey to the podium hadn't been easy. His father, a school teacher from Kolhapur, had taken a bank loan to support Kusale's sporting dream.

The talented shooter with modest means would ration the bullets he used for training, since they cost ₹120 each and it was "a huge sum" for the family. Now, these are details in the fairytale that Kusale would be asked to repeat by the media once he returns home.

MEDALS TALLY*

1. China	11	7	3	21
2. France	8	10	8	26
3. Japan	8	3	4	15
4. Australia	7	6	4	17
5. USA	6	13	12	31
42. India	**0**	**0**	**3**	**3**

*TILL 10 PM IST

Showing his mastery in shooting from kneeling, prone and standing positions, Kusale tallied a total of 451.4. He finished behind Chinese gold medallist Liu Yukun and Serhiy Kulish, the Ukrainian shooter whose medal hopes in Tokyo three years ago were dashed most bizarrely when he, by mistake, shot someone else's target.

On Thursday, Kulish shot to redemption and Kusale made sure India enjoyed another historic day at the shooting ranges of Chateauroux.

Last Sunday, Manu Bhaker became the first Indian woman shooter to win a medal at the Olympics. A couple of days later, the 22-year-old became the first Indian since Independence to win two medals at the same Olympics.

Kusale's bronze will also go down as one for the history books — for the first time, India has won three medals in one sport at the same Olympics.

It's fitting that it was shooting that achieved this record — India's medal rush in this century was started by shooters, who have also now redeemed themselves at the Paris Games, returning with three medals after back-to-back ducks in Rio and Tokyo. That Kusale would be among those to stand on the podium was a pleasant surprise.

His wildly oscillating fortunes during Thursday's hour-long final was, in a way, a synopsis of Kusale's entire career: Never a favourite, just doing enough to stay in contention and riding on the wave of unpredictability.

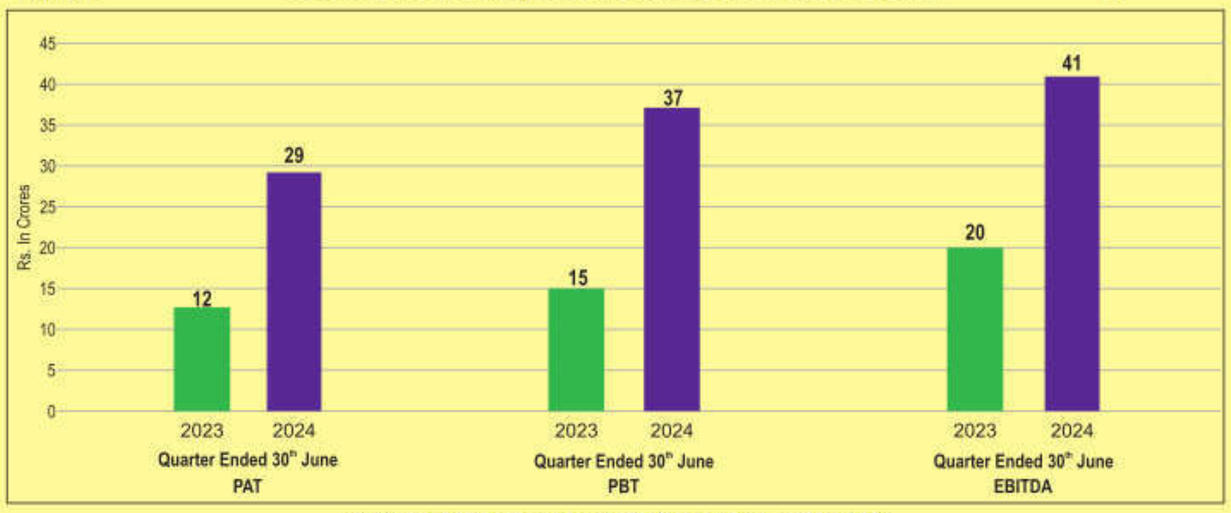

A man of very few words, Kusale has spent his entire career playing second fiddle to others and been the "nearly man" of Indian shooting.

The above is an extract of the detailed format of quarterly financial results filed with the stock exchanges under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The full format of the quarterly financial results are available on the stock exchange websites viz. www.bseindia.com and www.nseindia.com. The same is also available on the Company's website viz. www.bombaydyeing.com

Notes:

1 The above results which are published in accordance with Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 as modified by Circular No. CIR/CFD/FAC/62/2016 dated July 5, 2016 have been reviewed and recommended by the Audit Committee and approved by the Board of Directors of the Company at their respective meetings held on August 1, 2024. The financial results of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) as prescribed under Section 133 of the Companies Act, 2013 read with relevant rules issued thereunder and the other accounting principles generally accepted in India. The figures for the quarter ended March 31, 2024 as reported in these financial results are balancing figures between the audited figures for the full financial year ended March 31, 2024 and published year to date figures upto the end of the third quarter of the financial year ended March 31, 2024, which were subjected to limited review. The unaudited financial results for the quarter ended June 30, 2024 have been subjected to limited review by the Statutory Auditors.

2 a In terms of Ind AS 115 on "Revenue from Contract with Customers", Revenue from present real estate project of ICC Towers is recognised 'at a point in time', that is, upon receipt of Occupancy Certificate. Occupancy Certificates for the first phase, second phase, third phase, fourth phase and fifth phase were received during the year ended March 31, 2019, March 31, 2020, March 31, 2022, March 31, 2023 and March 31, 2024, respectively. Revenue includes net income arising on cancellation of contracts on non- fulfilment of payment terms by customers, if any.

2 b Since the nature of real estate activities being carried out by the Company is such that profits/losses from transactions of such activities, do not necessarily accrue evenly over the year, results of a quarter may not be representative of profits/ losses for the year.

3 Income tax expenses (Current Tax and/or Deferred Tax) for the interim period is recognised on the pre-tax income (or loss) using the separate tax rate that would be applicable on expected total annual income for each category of income ("effective annual tax rate"). For the purpose of recognising income tax expenses, the tax or reversal thereof on any income of non-recurring nature ("one-off items") is considered when they occur and the tax effect of such 'one-off' items is not included in the effective annual tax rate. Section 115BAA in the Income-tax Act, 1961 provides an option to the Company for paying income tax at reduced rates as per the provisions/conditions defined in the said section (New Tax regime). Since the Company has decided to opt for the New Tax regime from the financial year ended March 31, 2024, the Company has provided the current tax and deferred tax assets and liabilities at the rates given under the New Tax regime. Amounts accrued for income tax expense, including any reversal of deferred tax asset which would not be recoverable, in one interim period may have to be adjusted in subsequent interim period of that financial year, if the estimate of the annual effective income tax rate changes. In absence of any binding agreement or convincing evidence that future taxable profits will be available, deferred tax assets on unused tax losses as available as at the quarter ended June 30, 2024 have not been recognised.

4 Foreign Subsidiary, PT Five Star Textile Indonesia (PTFS) is included in consolidated results and consolidated segment assets and consolidated segment liabilities, which is classified as a discontinued operation in accordance with Ind AS 105 in 'Non-Current Assets Held for Sale and Discontinued Operations'.

5 The Company on July 18, 2024, has executed the Share Purchase, Subscription and Shareholder`s Agreement ("SPPSA") along with the Power Purchase Agreement and Option Agreement ("Transaction Documents") to acquire up to 26% equity stake in one or more tranches in AMP Energy C&I Twenty Seven Private Limited (a wholly owned subsidiary of AMP Energy C & I Private Limited), for setting up captive solar power project in Maharashtra.

6 The Securities and Exchange Board of India (SEBI) passed an order dated October 21, 2022 pursuant to a show cause notice dated June 11, 2021 (" SEBI Order"). The SEBI order makes certain observations inter alia on alleged inflation of revenue and profits by the Company in Financial Statements for the period from FY 2011-12 to 2017-18 and non-disclosure of material transactions, on the basis of SEBI's interpretation of MoUs executed by the Company with Scal Services Limited. The SEBI order, inter alia, imposes penalty of ₹ 2.25 Crore on the Company, restrains the Company from accessing securities market for a period of 2 years, imposes penalties and restrictions on two of its present directors from accessing / being associated with securities market, including being a Director and Key Managerial Personnel of any listed entity, for a period of one year.

The SEBI Order also categorically and positively finds that there was no diversion or misutilization or siphoning of assets of the Company, and no unfair gain was made or loss inflicted by reason of the violation alleged. The Company states that the Financial Statements from FY 2011-12 to FY 2017-18 were validly prepared, reviewed by the Audit Committee, approved by the Board, reported without any qualification by the Statutory Auditors and adopted by the Shareholders in each of the relevant years. The Company is firm in its view that all transactions were entirely legitimate and in compliance with law and applicable Accounting Standards.

The Company had filed an appeal with Securities Appellate Tribunal (SAT) against the aforesaid SEBI Order and obtained a stay on operation of the said Order on November 10, 2022. Though the hearings on the subject matter were concluded, in the wake of retirement of Hon'ble Presiding Officer, the matter is being freshly heard before a newly constituted bench and now it is adjourned to September 2, 2024.

SASTRA DIVISION, HEAD OFFICE, PLOT NO. 04, SECTOR -10, DWARKA, NEW DELHI-110075

Dated : 10.07.2024

ORDER OF THE COMMITTEE FOR IDENTIFICATION OF WILLFUL DEFAULTERS PASSED IN PROCEEDINGS CONDUCTED AT SYNDICATE ROOM, HEAD OFFICE ON 06.06.2024.

M/s Rehan Wine (Rs. 10.70 Crore)
CS: Fazilka/ZS: Ludhiana
Date of NPA: 29.03.2022

In terms of RBI Master Circular no. DBR. No. CID.BC.22/20.16.003/15-16 dated July 01.2015, a meeting of the Committee for Identification of Willful Defaulters of the Bank was held on 09.02.2024. The Identification Committee concluded that events of willful default in the Borrower's account(s) had occurred and gave its approval for issuance of Show Cause Notice for identifying the following persons as willful defaulters:-

1. M/s Rehan Wine (Borrower).
2. Sh. Sumit Doda (Proprietor).
3. Sh. Amit Doda (Guarantor).
4. Smt. Sunita Doda (Guarantor).

Accordingly, Show Cause Notice of 15 days was issued on 04.03.2024 to the Borrower M/s Rehan Wine and its Proprietor and Guarantors, responsible for managing the affairs of the borrower and involved in events of default. They were informed, if they so desire, they can make a representation to the Bank within 15 days from receipt of notice, as to why they be not classified as willful defaulters. Inspite of service of the said Show Cause Notice, Bank has not received any reply/representation from the borrower/Proprietor/ guarantor(s).

The matter was placed before the Identification Committee and the Identification Committee in its meeting held on 06.06.2024, after due consideration of the facts on record observed that the borrower/proprietor /guarantors defaulted in payment/repayment obligations to the Bank and the said persons named above, involved in events of default, are fit to be identified as willful defaulters on the following ground(s) specified in above mentioned Master Circular of RBI:-

Capacity to Pay:-

The Borrower/Proprietor/Guarantors have defaulted in payment/ repayment obligation to the Bank even though they have Capacity to pay. As per CR, Net Means of the Borrower/Proprietor/ Guarantors are as under: -

Amt. (in Crore)

Name	NM	IP	CR dated
Sh. Sumit Doda	Rs. 5.33	Rs. 3.53	04.10.2017
Sh. Amit Doda	Rs. 17.49	Rs. 20.28	30.09.2017
Smt. Sunita Doda	Rs. 7.47	Rs. 24.12	30.09.2017

Diversion of Funds:-

As per Forensic Audit Report dated 15.09.2022 of M/s S.S. Periwal and Co. (GA), the borrower maintained current account with HDFC Bank and AU Small Finance Bank without permission of lender Bank and transfer made to the creditor from these accounts but the borrower had not closed the same which signifies that the borrower is willfully not repaying the debt repayable to the lender Bank.

The borrower consistently repaid unsecured loan from the financial year 2018-19 till NPA date whereas the business of the borrower was under stress and unable to repay the interest and loan extended by Bank, implying diversion of funds.

The borrower has invested Rs. 1.71 crore in Immovable Properties (which do not directly relate to the nature of business of the borrower) which exceeds 35% of total Net Worth of the firm as on 31.03.2020.

Siphoning of Funds:-

As per Stock Statement dated 31.10.2021-submitted by the borrower to the Bank, total stocks of Rs. 10.94 crore and debtors of Rs:6.42 crore were available whereas as per Stock Audit Report dated 30.11.2022, the auditor visited two sites of the borrower i.e. Smalsar, Kotakpura Road, Moga and Talwandi Bhai, Ferozpur on 23.11.2022 but at both the sites the auditor did not find the wine shop/godown in the name of borrower and the borrower has not deposited either the sale proceeds of stocks or realization proceeds of debtors in loan account. It indicates that the borrower has disposed off the stocks and siphoned off Bank's funds.

ORDER OF THE COMMITTEE FOR IDENTIFICATION OF WILLFUL DEFAULTERS:-

The Identification Committee, headed by the Executive Director and consisting of other members i.e. Chief General Managers of the Bank found that the charges against the borrower and its proprietor/ guarantors stand proved for the reasons and facts stated above and no representation/reply whatsoever was received from the said borrower/proprietor/ guarantor(s) rebutting the charges.

Therefore, the said Committee recorded the fact of willful default committed by the above-named persons mentioned at serial nos. 1 to 4 and identified M/s Rehan Wine (Borrower), Sh. Sumit Doda (Proprietor) as willful defaulters on the grounds of "Capacity to pay", "Diversion of funds" and"Siphoning of funds" and Sh. Amit Doda (Guarantor) and Smt. Sunita Doda (Guarantor) on the ground of "Capacity to pay". However, the Committee members directed that the above-named borrower and its related persons are free to make a written representation against the Order of Identification Committee, within a period of 15 days from the date of receipt of this Order to the Review Committee headed by the MD & CEO of the Bank at the following address : Punjab National Bank, SASTRA Division, Corporate Office, 3rd Floor, Plot No.4, Sector 10, Dwarka, New Delhi, PIN: 110075.

The undersigned is the member of the Identification Committee constituted in consonance with the RBI directives and the Identification Committee has authorized the undersigned to send this ORDER OF COMMITTEE FOR IDENTIFICATION OF WILLFUL DEFAULTERS under his signature.

(c) The Auditors in their Auditor's Review Report on Consolidated Unaudited Quarterly Financial Results have brought out as below:

Sinnar Thermal Power Limited (STPL) had ceased to be a subsidiary of the Group with effect from 19 January 2024 pursuant to the re-initiation of Corporate Insolvency Resolution Process ('CIRP') under the Insolvency and Bankruptcy Code, 2016 (IBC). Consequently, the assets and liabilities of STPL had been de-recognised at their respective carrying values as at 18 January 2024 in accordance with the requirements of Ind AS 110 - Consolidated Financial Statements and the resultant gain on loss of control was recorded, which had been presented as an 'exceptional item' in the Consolidated Statement of Profit and Loss for the quarter and year ended 31 March 2024.

As further described in the said note, STPL's other current financial liabilities as at 18 January 2024 de-recognised as above, included balances amounting to Rs. 6,652.38 crores, in respect of which confirmations from the respective lenders were not received for balances as at 31 December 2023 while in case of certain lenders, the balance of borrowings and accrued interest confirmed by the lenders as compared to balance as per books as at 31 December 2023 was higher by Rs. 379.99 crores and Rs. 396.22 crores, respectively.

Our review report dated 25 July 2023 on the consolidated financial results for the quarter ended 30 June 2023 and our audit report dated 22 May 2024 on the consolidated financial results for the quarter and year ended 31 March 2024 were qualified in respect of above matter.

Our conclusion, therefore, on the accompanying Statement for the quarter ended 30 June 2024 is qualified on account of possible effects of the aforesaid matter on the comparability of the corresponding figures of 'Gain on loss of control of the subsidiary' recorded as exceptional item in the quarter and year ended 31 March 2024, included as comparative financial information in the accompanying Statement.
