EQUITY MARKETS ACROSS Asia and Europe, especially Japan, were roiled on Monday as investors panicked on perception that the US economy was slowing and that the US Federal Reserve had been late in cutting interest rates. The unwinding of the carry trade in the yen as well as heightened geopolitical tensions in West Asia, which had resulted in big selling in US stocks last week, continued to weigh on the sentiment.

EDITORIAL: MONDAY JITTERS ■ PAGE 8

Indian equities too saw a big, broad-based sell-off as the benchmark indices crashed nearly 3%. Investor wealth of about ₹15 trillion was wiped out. The rupee drifted down to a new low of 83.84 a dollar while benchmark yields fell to 6.86%, their lowest levels in more than two years. Foreign portfolio investors (FPIs), which have turned bearish on India in the last few sessions, sold shares worth $1.2 billion (about ₹10,073 crore). In contrast, domestic institutional investors bought shares to the tune of ₹9,155.55 crore, provisional data showed.

The biggest losses were seen in Japan where the Nikkei 225 plunged 12.4% -- the worst decline since the 1987 Black Monday crash -- on fears a strengthening yen could hurt corporate earnings in a weak economy. The US markets looked set to add to their losses of the previous week. The Dow Jones was down over 2%, the S&P 500 had crashed nearly 3% at the time of going to press while the Nasdaq Composite was trading over 3% lower.

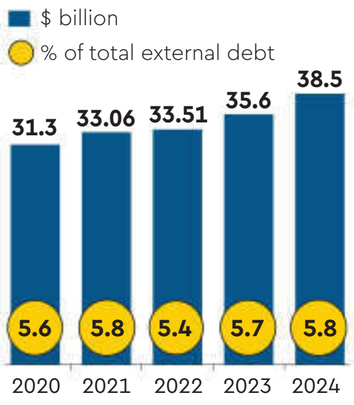
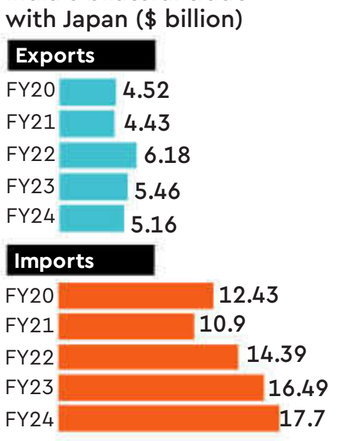
WIN SOME, LOSE SOME

Share of yen-denominated debt in India's external debt



India's bilateral trade with Japan ($ billion)



THE RECENT RISE of the long-depreciated yen and the rush among currency traders to unwind their long positions in the Japanese currency are likely to have mixed implications for the Indian economy. In terms of external trade, the impact would be positive with New Delhi's shipments to the world's third largest economy, with which it runs a significant trade deficit, gaining in competitiveness.

If the rise of yen against the US dollar is sustained — most analysts believe it won't — it could then lead to a marginal rise in the stock of India's external debt denominated in the Japanese currency, which is of the order of $36 billion now. Some of the infrastructure projects in India, especially those in the power sector, which are directly or indirectly funded out of yen-denominated loans, could turn costlier with their debt-servicing costs inching up. However, the economy-wide impact could be marginal again, as the largest Japanese loans to India are under fixed interest rates, with currency risks hedged.

According to an official from the Dedicated Freight Corridor Corporation of India (DFCCIL), the current development will have "no impact" on the entity, as the borrowings from the Japan International Cooperation Agency (JICA) are under the fixed-liability overseas development assistance (ODA) programme.

While public sector lenders PFC and REC have exposure to yen debt, analysts discounted fears of any big impact on them from the currency's rise, that followed the Bank of Japan raising interest rates. "When they (REC/PFC) borrow (in foreign currency), they do have a certain hedge. They have a part of foreign borrowings which are already hedged for up to 5 years, and the debt is thus taken care of. This (yen appreciation) should not drastically change anything for them," according to an analyst who did not wish to be identified.

The person, however, added the debt costs of India's non-banking finance companies (NBFCs) would continue to be elevated, given that the Reserve Bank of India is seen to delay the rate cut cycle. Some analysts are a bit concerned though. According to Ajay Srivastava, founder of Global Trade Research Initiative (GTRI), the appreciating yen does affect the "carry trade" strategy, where investors borrow yen at low-interest rates to invest in higher-yielding assets. "As yen rates rise, this strategy becomes less profitable, which could shift investment flows and impact global markets, including India."

The exchange rate between the US dollar and yen fluctuated over the past week. From around 155 on July 30, the yen surged to seven-month high — 141.675 per dollar at some point — on Monday, amid fears of a serious US economic downturn and bigger rate cuts by the Federal Reserve. As such, the dollar index fell below the psychologically crucial 103 level in Asian trade on Monday.

India's exports to Japan rose 12% on year in April-May this fiscal, reversing the contraction (-5.6%) in the last financial year. Import of goods from Japan saw a marginal 1% decline in the first two months of the current financial year as against a 7% year-on-year rise in FY24. A stronger yen would mean India's export pace to Japan could accelerate. They key products in India's export basket to Japan are organic chemicals, auto and auto components, apparel, steel and pharmaceuticals, whereas the country predominantly imports machinery, electronic goods, plastic, etc.

SFIO looking into issues of Sahara Group investors: FM

FE BUREAU
New Delhi, August 5

THE SERIOUS FRAUD Investigation Office (SFIO) is looking into the reasons behind a sizeable number of investors not coming forward to claim their invested money in the Sahara Group of Companies, finance minister Nirmala Sitharaman said on Monday.

Replying to a question in the Lok Sabha, Sitharaman said the entire affairs of the Sahara Group are being monitored by the Supreme Court and the government is acting according to the court's directives.

According to a 2022 Supreme Court order, a total of 3.07 crore people had invested about ₹27,000 crore in the Sahara Group of Companies whose cases come under the Securities and Exchange Board of India (Sebi). So far, 19,650 people have come forward to claim the refunds. Of them, the claims of 17,256 have been settled and the rest have been asked to provide more papers in support of their demands. So far, ₹138.07 crore could be given to the claimants, she said.

"The SFIO is going into a detailed analysis of this. We hope that at the end of it more legitimate claimants come forward and we can give the money," she said. "I want to dispel this thought that the government of India is not doing anything. We are constantly reporting to the Supreme Court," she said.

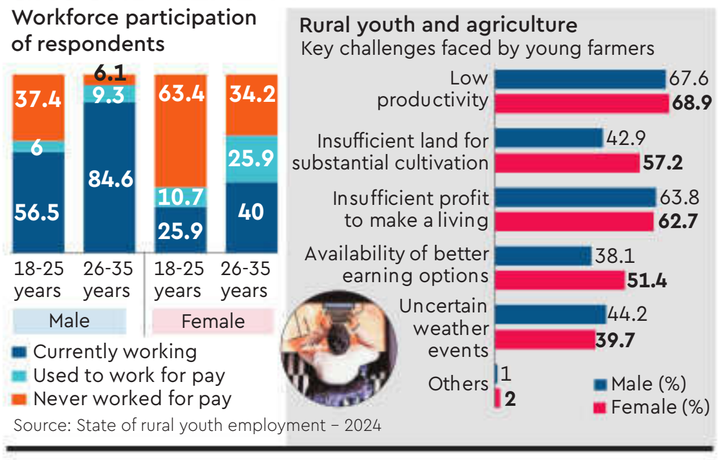
Up to 85% rural youth seeking non-farm jobs

GROUND REALITY



Source: State of rural youth employment – 2024

PRIYANSH VERMA
New Delhi, August 5

NEARLY HALF OF the individuals in rural areas — 48.3% to be precise — have agriculture as their primary source of income, even as most of them are willing to change occupation for better opportunities, according to a report by Global Development Incubator (GDI).

The report, titled 'state of rural youth employment – 2024', said that 70-85% of over 5,000 individuals surveyed pan-rural India wished to be employed in small manufacturing, retail, or business sectors.

However, despite the evident disenchantment with agriculture, a "significant 60% of rural male youth" do not want to migrate outside their village for work, according to the report.

Despite the evident disenchantment with agriculture, 60% of rural male youth do not want to migrate outside their village for work

The report comes in the backdrop of concerns expressed by many over the reverse migration of India's workforce to the rural (agriculture) sector due to reasons of inadequate opportunities in predominantly urban activities such as manufacturing and service delivery. It is being pointed out that while government surveys suggest a marginal improvement in the urban employment situation over the recent quarters, it also takes into account unpaid work and the so-called self-employed at the subsistence level.

After agriculture, earnings through wage labour and retail trade are the distant second (14.1%) and third (10.5%) sources of income, respectively, of the rural working people. The report showed that about 57% of male workforce of age 18-25 years in rural India were currently "employed", more than double of the female workforce employed. In the 26-35 age bracket, 85% of males are employed at present in rural areas, while for females, the rate is 40%.

The report also highlighted that among salaried jobs, younger men expressed clear preference to government sector or private sector jobs, and among women, the preference was for government jobs.

Speaking at the launch of the report, chief economic adviser (CEA) V Anantha Nageswaran said that "pessimism" on India's employment is "not warranted", as the country's economy has become structurally different over the years, and especially in the aftermath of the Covid-19 pandemic.

In the backdrop of slowing global growth and geopolitical tensions, the country does not have the "luxury" of excluding any sector from contributing to growth, "hence, agriculture should be an engine of growth," said Nageswaran. The CEA mentioned that "agriculture has to be brought back into fashion" and not-for-profit institutions, industry and academicians have to collaborate to make the sector a viable option of employment. "Individuals should understand how the world in evolving, and not have pre-conceived notions of which sectors they want to be a part of...They should appreciate where the opportunities lie," he said. Today, for instance, in Brazil, the youth are participating in agriculture and farming activities, much more than they used to. "We have to find out, what is it that we can replicate...if we can," he said.

The Economic Survey for 2023-24 said that of the 565 million workforce in the country, more than 45% are engaged in the agriculture sector. Of the rest, 11.4% are in manufacturing, 28.9% in services, and 13% in construction.

New shipbuilding scheme in the works

THE MINISTRY OF ports, shipping and waterways is working on a new shipbuilding scheme, which will incentivise Indian shipyards till 2035 through various measures, a senior government official has said.

Ports, shipping and waterways secretary T K Ramachandran said that with the new policy, India will endeavour to be among the top 10 shipbuilding nations by 2030 and the top five by 2047, from 22nd in the world at present. "Yes, this ministry is working on a new shipbuilding scheme, which would incentivise Indian shipyards till 2035 by various measures," he said.

Ramachandran also said global cruise major MSC Cruises, based out of Geneva, has expressed willingness to deploy their ships for domestic itinerary. He said the ministry, in coordination with the ministry of petroleum and natural gas, is planning to have a joint venture between Shipping Corporation of India (SCI) and oil marketing companies to own large tankers.

"The model of ownership is still to be decided depending upon demand requirement and market conditions," he added.

Responding to a question on the government's plan for green shipping, Ramachandran said the ministry will provide 30% financial assistance for vessels where main propulsion is achieved by means of green fuels such as methanol/ammonia / hydrogen fuel cells.

The ministry will provide 20% financial assistance for vessels fitted with fully electric or hybrid propulsion system, he added. —PTI

CCI to widen scope of probe against Amazon, Flipkart

MANU KAUSHIK
New Delhi, August 5

THE COMPETITION COMMISSION of India (CCI) is planning to expand the scope of the investigation against Amazon and Flipkart in connection with their alleged contravention of antitrust regulations, an official familiar with the development said.

"A report was submitted by the investigation arm over six months ago. However, since then, the CCI has asked for more information from the investigation arm. Once the scope of the probe is finalised, the report will be shared with Amazon and Flipkart for their replies," said the official.

It has been alleged that the e-commerce majors promoted their own brands and preferred sellers, and gave steep discounts, undermining other sellers on their platforms

Email queries sent to Flipkart and Amazon didn't elicit any response.

The probe against Amazon and Flipkart goes back to 2021 when the CCI started an investigation based on the allegations made against the e-commerce majors that they were promoting their own brands and preferred sellers, and giving steep discounts, undermining other sellers on their platforms.

While denying the allegations, both e-tailers approached the Karnataka High Court, and later the Supreme Court. But the courts refused to interfere in the investigation ordered by CCI.

"There's a clear case of antitrust rules violations by these entities. There are violations of foreign direct investment guidelines also. As far as anti-competitive conduct is concerned, these platforms are not showing platform neutrality and exerting market dominance. They have the market power which is being abused," the official said, requesting anonymity.

According to the FDI (foreign direct investment) policy, the e-commerce platforms, funded through FDI, are prohibited from engaging in the activity of single-brand or multi-brand retail trading. As part of its probe, the CCI raided the offices of some eight companies, including Cloudtail and Appario, that have business links with Amazon in 2022.

A lawyer representing "Amazon-preferred sellers" said that the report submitted by CCI could have been incomplete, and that's why more information has been sought. "In this case, the director general (investigation) will have to submit a supplementary report. The e-tailers are waiting for the report from the CCI," the lawyer said.

OMCs expected to post better refining margins in Q2FY25

ARUNIMA BHARADWAJ
New Delhi, August 5

AFTER REGISTERING A weak beginning to the current financial year, state-run oil marketing companies (OMCs) are expected to report a marginal improvement in their gross refining margins in the second quarter of 2024-25 on the back of higher availability of Russian crude oil that is priced relatively cheaper, analysts say.

In the first quarter of FY25, the three state-run oil marketing companies — Indian Oil, Bharat Petroleum and Hindustan Petroleum (HPCL) — reported weak earnings owing to lower gross refining margins. Furthermore, a reduction in fuel prices slashed these companies' marketing margins. The state-owned oil marketing companies had cut auto fuel prices by ₹2 a litre in March 2024, the first time after April 2022.

"The y-o-y/q-o-q (year-on-year/quarter-on-quarter) earnings dip was due to lower GRM and marketing margin with higher crude prices, but we expect crude oil (prices) to correct in Q2FY25," Elara Capital said in a report.

"HPCL's integrated margin (ebitda per tonne of refining and marketing volume) fell 56%/6%y-o-y/q-o-q on weaker retail gasoline/diesel gross margin, with higher crude oil price. Per sensitivity analysis, every $1 per barrel dip in oil price may improve integrated margin by ₹285 per tonne, implying July 2024 estimated margin of ₹3,900 per tonne," it said.

OMCs made under-recoveries on LPG in the first quarter of FY25. However, LPG being a controlled product, analysts remain hopeful of financial support to OMCs from the government. Brokerage firm Motilal Oswal has cut its FY25 ebitda and net profit estimates by 23% and 35%, respectively, for HPCL owing to LPG under-recovery. "We conservatively account for these losses now, though potentially OMCs could receive financial assistance related to LPG in due course," it said. It expects BPCL's gross refining margins to recover to normal levels by the end of Q2FY25.

OMCs are currently estimated to be generating a marketing margin of ₹6.9 and ₹4.9 per litre on petrol and diesel, respectively, according to Motilal Oswal. For the entire financial year, analysts see crude prices remaining range bound at current levels which may limit the refining margin hit to OMCs. "We remain positive on oil marketing companies. We expect OMCs to earn above-historical integrated margin at below $83 per barrel crude oil, so as to fund the next five years estimated at nearly ₹6 trillion capex of OMCs, where energy transition capex comprises 30%," said Elara Capital. Even as healthy refining margins might be able to support growth of the OMCs in the second quarter, any additional profitability will depend on cheaper crude sourcing and higher share of value-added products, among others.

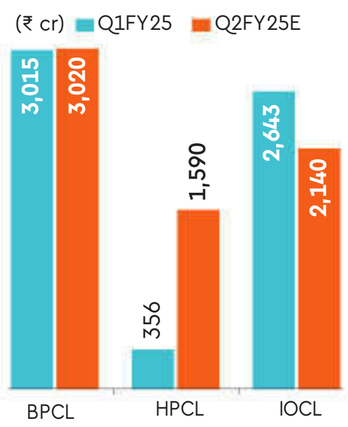
OMCs Q2FY25 standalone net profit estimates



Estimates by Motilal Oswal

- Three state-run oil marketing companies reported weak earnings in Q1FY25 due to lower gross refining margins
- Their gross refining margins are likely to improve in the second quarter on the back of higher availability of relatively cheaper Russian crude oil

Services PMI stays above 60 for seven months in a row

FE BUREAU
New Delhi, August 5

INDIA'S SERVICES ACTIVITY remained robust during July, as the HSBC India Services Business Activity Index, or services PMI, stood at 60.3, data released by S&P Global showed. The monthly services' activity index stood above the 60-mark for the seventh consecutive month in July, as new business gains and "rosy demand" acted as the main drivers of growth, S&P Global said.

The latest reading was marginally lower than 60.5 recorded in June, but was above the neutral 50-mark for the 36th straight month. According to S&P Global, the rise in output reflected a sustained increase in sales volumes in July, with survey participants particularly commenting on buoyant demand, tech investment and a growing online presence.

New export orders during the month increased at the third-strongest pace since the inception of the series in September 2014, amid strengthening demand for Indian services from across the world. Some of the sources of rising export orders mentioned by panellists included Austria, Brazil, China, Japan, Singapore, the Netherlands, and the US, the global ratings agency said.

The composite PMI, a weighted average of both manufacturing and services PMI, stood at 60.7 in July, slightly down from 60.9 in June, signalling a continuation of the strong growth momentum seen recently. Data released on Thursday showed manufacturing PMI eased to 58.1 in July from 58.3 in June. On the inflation front, output prices climbed to a seven-year high in July for services firms, noted S&P Global. This was due to rising labour and material (eggs, meat and vegetables) costs.

BOOST FROM EXCEPTIONAL GAIN OF ₹735 CRORE IN Q1

Airtel beats estimates, profit more than doubles in Apr-Jun

Arpu rises 1% to ₹211 sequentially

FE BUREAU
New Delhi, August 5

ON THE BACK of an exceptional gain of ₹735 crore, Bharti Airtel beat estimates to post a consolidated net profit of ₹4,160 crore, up 100.8% quarter-on-quarter, during the April-June period. Bloomberg consensus estimates had pegged the profit at ₹3,661 crore.

The exceptional gain during the quarter was mainly on account a favourable judgment by the Supreme Court on waiver of interest on tax treatment of adjusted revenue linked variable licence fee, and divestment of Air Lanka. Before the exceptional gain, the net profit stood at ₹2,925 crore.

Consolidated net revenues were up 2.4% sequentially during the period at ₹38,506 crore, but below estimates of ₹39,096 crore, impacted by currency devaluation in Africa.

The company's Ebitda was up 1.8% sequentially at ₹19,944 crore, but again below estimates of ₹20,591 crore. Margin during the quarter was at 51.2% against 51.5% in the preceding quarter.

India revenue was up 1.87% sequentially at ₹29,046 crore, while revenue from India mobile services was up 2.1% q-o-q at ₹22,527 crore.

On the key performance indicators, average revenue per user (Arpu) was up 1% at ₹211 sequentially. The recent tariff hikes will take a couple of quarters to fully reflect on the realisation. Data usage per customer was up 5.1% sequentially at 23.7 GB. The total data consumption on the company's network rose 8% q-o-q to 18.8 billion GB. Minutes of voice usage per customer per month was, however, down 2.6% sequentially to 1,128 minutes.

Monthly subscriber churn was up 2.8% compared to 2.4% in the preceding quarter. Airtel's 4G/5G users are now 75.4% of its overall mobile customer base in the country.

"The industry saw much-needed action on tariff repair, which is a positive for the industry's financial health amid ongoing large network capex. We continue to believe that the industry needs over ₹300 Arpu at the minimum for financial stability," MD Gopal Vittal said in a statement.

"Our postpaid strategy continues to yield results with 0.8 million net adds. During the quarter, we accelerated pace on fixed wireless access (FWA) services expansion across key towns. Our Wi-Fi services (FTTH and FWA) are now available in over 1,300 cities. Our digital portfolio is shaping up well and it is geared for accelerated growth to add strength to our already diversified portfolio," Vittal added.

Adani may cede control to family by early 2030s

REUTERS
August 5

ADANI GROUP CHAIRMAN Gautam Adani, 62, plans to step down at the age of 70 and shift control to his sons and their cousins in the early 2030s, he told Bloomberg News in an interview published on Monday. When Adani retires, his four heirs — sons Karan and Jeet, and their cousins Pranav and Sagar — will become equal beneficiaries of the family trust, according to the scions.

A confidential agreement will dictate the transition of stakes to the heirs, the Bloomberg report said, citing people familiar with the matter. Adani Group didn't immediately respond to a request for comment.

While Adani's elder son Karan is Adani Ports' MD, younger son Jeet is Adani Airports' director. Pranav Adani is the director of Adani Enterprises and Sagar Adani is the executive director of Adani Green Energy.

Pranav and Karan are the most obvious candidates to eventually take over as chairman, the Bloomberg report said. "Succession is very, very important for the business sustainability. I left the choice to the second generation as the transition must be organic, gradual and very systematic," Gautam Adani said.

When Adani does step back, the joint decision-making will continue even in the event of a crisis or a major strategic call, the Adani children said in separate interviews.

Actis, Mahindra Lifespace set up industrial park JV

RAGHAVENDRA KAMATH
Mumbai, August 5

UK-BASED PRIVATE EQUITY investor Actis and Mahindra Lifespace Developers, a part of the Mahindra Group, said on Monday that they are formally launching a joint venture for industrial and logistics properties named Ample Parks. The JV acquired a prime 70-acre industrial land parcel within Mahindra World City, Chennai, to develop an integrated industrial and logistics park with institutional-grade buildings. The land has a development potential of 2 million sq ft and a capital outlay of ₹800 crore.

Talking to *FE*, Akash Rastogi, who has been appointed as the CEO of the platform, said, "The JV company will develop 15-17 million sq ft of industrial parks over the next five to seven years in tier I and II cities with a capital outlay of $600 million."

The JV firm plans to develop and acquire industrial and logistics real estate. Actis holds a majority stake in the JV, while Mahindra Lifespaces holds a significant minority stake. This is the first such major announcement after the Budget announced support for industrial parks.

Ample Parks will benefit from Actis's extensive global network and real estate expertise, as well as Mahindra Lifespaces' access to prime land parcels and relationships with key stakeholders in the Indian market, the JV said in a release.

Typically, the capital for projects will have a 60:40 debt-to-equity ratio, though this may change depending on the project, Rastogi said. He stated that the company would consider both outright acquisition of land and joint developments with landowners.

"The budget has given an impetus for industrial parks and the measures will improve the demand for such properties," said Raghvendra Chandak, director, real estate at Actis.

The overall requirement for the Grade A/B industrial and warehousing space will double so the existing stock for Grade A/B will need to be doubled to meet this demand over the next 7 years, Chandak said.

Brian Chinappi, partner, head of real estate at Actis, said:' "India's industrial and logistics sector represents a tremendous investment opportunity, with the country's market strongly benefitting from a boom in consumer demand domestically and a realignment of supply chains globally in favour of India, with many corporations implementing a China Plus One strategy."

By bringing to bear Actis' track record in sustainable real estate and Mahindra Lifespaces' broader market expertise, Ample Parks is set to become a key player in this space, capitalising on the growth of this new economy real estate for our investors, Chinappi said.

Amit Sinha, managing director and CEO at Mahindra Lifespaces, said: "This initiative fits well into the state-of-the-art facilities within an already established, self-contained ecosystem. We are excited about the potential of Ample Parks for not only building on the success of Mahindra World City, but also contributing significantly to India's broader industrial and logistics landscape."

PV inventory at all-time high

SWARAJ BAGGONKAR
Mumbai, August 5

THE STOCK OF unsold cars and SUVs in the retail market has surged to an alarming ₹73,000 crore after automakers did not moderate supplies despite a demand slowdown warning from their dealer partners.

Passenger vehicles (PVs) have remained unsold for up to 10 weeks (72 days) — more than twice the typical average of 4 weeks (30 days). An estimated 650,000-675,000 units are lying unsold as buyers resisted heavy discount schemes of 10-12%.

CS Vigneshwar, vice president, Federation of Automobile Dealers Association (FADA), said, "The high inventories pose a substantial risk for dealer sustainability, necessitating extreme caution. We urge PV makers to be vigilant about potential dealer failures due to these high inventory levels."

"I would not say that there is an inventory pile-up at dealerships. Yes, inventory levels are high by about 5 days for Mahindra," said Rajesh Jejurikar, ED and CEO (auto and farm equipment sectors), M&M, in a post earnings meeting.

The trend of vehicle dispatches in July mirrored the trend seen in previous months as supplies continued to outstrip demand. While wholesales during July is estimated to have stood at 340,000, the retail total stood at 320,000 units, thereby adding to the inventory pile up. "It is also crucial for the RBI to mandate financial institutions to implement stringent checks before releasing inventory funding, preferably requiring dealer consent or collateral to prevent the escalation of non-performing assets," Vigneshwar added.

Most carmakers reduced supplies during July. Maruti Suzuki had cut dispatches by 10% year-on-year (y-o-y). Tata Motors brought down sales by 6% while Hyundai volumes dropped by 3%. The increase in volumes was only seen at Kia, Toyota and Mahindra & Mahindra.

Hindustan Unilever is looking to revitalise its 175-year-old skin care brand Pond's with the launch of a new line of specialised products with cutting-edge ingredients. The company says the new formulations are tailored to address the needs of today's consumers. **Pratik Ved**, *skincare head, beauty & wellbeing, HUL, talks to* **Geetika Srivastava** *about steps taken to connect with today's youth. Excerpts:*

What does the Pond's brand revamp signify?

Pond's is launching a line-up of new products with skin care ingredient Gluta-Niacinamide being the star ingredient. There will be many more patented ingredients in the upcoming launches, developed through extensive research and development.

How can a legacy brand like Pond's, synonymous with its cold creams, make itself look younger and establish a strong connection with Gen Z?

We are constantly connecting with consumers through various touchpoints and continuously evolving in response to their changing lifestyles. Our customers, especially the younger generation, are hyper-aware and seek specialised solutions for their skin needs. To connect with a modern audience, the brand will focus on storytelling, showcasing how these innovations can be a catalyst for the consumers to live life to the fullest. We also meet today's beauty consumers where they are — by leveraging digital and beauty tech across consumer touchpoints.

Can you elaborate on growth strategy, including market expansion, product diversification and digital transformation initiatives for Pond's?

As a leader in skincare, we are well-poised to bring the future of science-backed skincare to India and democratise it to our consumers. With the launch of Pond's Skin Institute, we are introducing a new era of hybrid skincare. Our proprietary technology of AI Skin Expert is a critical step in this direction and helps navigate skin concerns and provides guided recommendations for today's consumers.

THE BRAND HAS ALSO PREMIUMISED ITS PORTFOLIO. WHAT HAS NOT CHANGED OVER TIME IS OUR LONG-STANDING COMMITMENT TO SKINCARE INNOVATION

What are some trends that are unique to the Indian skincare industry?

Skincare is highly personal and can vary greatly depending on individual needs, skin types and environmental factors. In India, finding the right skincare routine can be quite nuanced. Indians have diverse skin tones, types and textures. Therefore, the Indian skincare industry does not only require efficacious products but highly personalised solutions to suit these variables. Innovative formulations are designed to suit different skin types and for varied skin concerns. Powered with potent ingredients like Gluta-Niacinamide complex, micro hyaluronic acid, SPF infused with actives, we have an array of clinically proven skincare solutions to suit the needs of today's highly evolved consumer. We have invested in consistent R&D to develop patented ingredients and hybrid formulations that make personalised skin miracles possible.

How does Pond's identify consumer needs and preferences?

Pond's Skin Institute is a global community of 700 researchers working to discover and advance scientific breakthroughs that harness the power of the skin's natural abilities to help people achieve their most ultimate form. We consistently work towards studying consumer needs to work in tandem with our researchers to develop groundbreaking formulations.

We invest in technologies that leverage trend-sensing and trendspotting, a strong R&D muscle that brings innovative formulations to life and the might of scale to democratise skincare trends to consumers in India.

What are some challenges that you have encountered in this space?

The beauty and skincare category in India is dynamic and with the digital boom, consumers are spoilt for choice. While they can access a myriad of products at their fingertips, there exists a need for education around personalised regimens, potent ingredients and scientific solutions for the most effective results. We have been working towards addressing this growing need by partnering with dermatologists and skin experts to help bridge the gap. Consumer education is a strong activation pillar for us.

How has the branding strategy of Pond's evolved over time?

Over the decades, Pond's has not only elevated its product range and formulations, but also premiumised its portfolio, emphasising a science-backed approach to skincare. What has not changed over time is our long-standing commitment to skincare innovation.

Marico profit rises 8.7% y-o-y in Q1

VIVEAT SUSAN PINTO
Mumbai, August 5

CONSUMER GOODS MAKER Marico's June quarter profit rose in line with analysts' estimates despite a challenging business environment. The maker of Parachute and Saffola reported an 8.7% year-on-year (y-o-y) increase in consolidated net profit to ₹464 crore in the first quarter, it said on Monday. This compared closely with the ₹461-crore consensus estimate of analysts tracked by Bloomberg.

Consolidated revenue rose 6.7% in Q1 compared to the same period last year, reaching ₹2,643 crore. This slightly missed the Bloomberg consensus estimate of ₹2,659 crore. The company achieved a volume growth of 4%, in line with market expectations.

India sales grew by 7.4%, while international sales increased by 4.8%, reflecting balanced expansion across geographies. These figures underscore Marico's resilient business model and its ability to navigate through varying market conditions, the company said.

Earnings before interest, tax, depreciation, and amortisation (Ebitda) increased by 9.1% y-o-y in the June quarter to ₹626 crore, matching street estimates which forecast Ebitda at ₹625 crore. Ebitda margins stood at 23.7% in Q1, up from 23.2% a year ago. The Bloomberg consensus estimate had pegged Ebitda margins at 23.5% for the period.

Marico's flagship brand, Parachute coconut oil, which contributes 34% of the company's domestic revenue, saw a modest growth of 2% in volume and 6% in value. On the other hand, Saffola edible oils, accounting for 16% of domestic revenue, experienced a mid-single-digit volume growth of 5%, although value growth declined by 1%.

The value-added hair oils segment, which makes up 22% of domestic revenue, saw a 5% decline in volume growth, prompting the company to consider re-evaluating its strategy for this business segment.

Bisk Farm secures injunction against Parle

FE BUREAU
Mumbai, August 5

SAJ FOOD PRODUCTS, which manufactures the 'Bisk Farm' brand of biscuits, announced on Monday that the Calcutta High Court had granted an injunction against Parle Products for selling a new biscuit under the brand name 'Top Gold Star'.

Bisk Farm has been using the 'Top Gold' brand name for a biscuit in its portfolio since its launch in 2005 and has obtained trademark protection, giving it the sole right to use the label, the company said.

Parle Products, however, recently introduced a similar product under the name 'Top Gold Star', which SAJ Food Products claims constitutes passing off. SAJ Food Products sought a court injunction in the matter, it said.

In an order dated July 19, 2024, Justice Krishna Rao of the Calcutta High Court issued a stay order preventing Parle from selling or marketing its product under the 'Top Gold Star' brand name until August 27.

Parle Products was not immediately available for comment.

Vijay Singh, managing director of Bisk Farm, said, "We are determined to protect our intellectual property rights and brand integrity, which has been carefully built over two decades."

THE POLITICAL GRIDLOCK

Waker-Uz-Zaman, Chief of Army Staff, Bangladesh

There is a crisis. I have met Opposition leaders and we have decided to form an interim government to run this country. I take all responsibility and promise to protect your life and property. Your demands will be fulfilled. Please stop the violence.

Hasina resigns, flees Bangladesh

RUMA PAUL & SUDIPTO GANGULY
Dhaka, August 5

BANGLADESH PRIME MINISTER Sheikh Hasina resigned and fled the country on Monday after hundreds of people were killed in a crackdown on demonstrations that began as protests against job quotas and swelled into a movement demanding her downfall.

Jubilant crowds stormed into the opulent grounds of the presidential residence unopposed, carrying out looted furniture and TVs. One man balanced a red velvet, gilt-edged chair on his head. Another held an armful of vases.

Elsewhere in Dhaka, protesters climbed atop a statue of Hasina's father, state founder Sheikh Mujibur Rahman, and began chiselling away at the head with an axe.

The flight into exile ended a 15-year second stint in power for Hasina, who has ruled for 20 of the last 30 years as leader of the political movement inherited from her father, assassinated with most of his family in a 1975 coup.

Hasina had left the country for her own safety at the insistence of her family, her son Sajeeb Wazed Joy told the BBC World Service.

Hasina was "so disappointed that after all her hard work, for a minority to rise up against her", Joy said.

She would not attempt to mount a political comeback, he said.

Earlier, army chief General Waker-Uz-Zaman announced Hasina's resignation in a televised address to the nation and said an interim government would be formed.

He said he had held talks with leaders of major political parties - excluding Hasina's long-ruling Awami League — and would soon meet President Mohammed Shahabuddin to discuss the way ahead.

"The country is going through a revolutionary period," said Zaman, 58, who had taken over as army chief only on June 23. "I promise you all, we will bring justice to all the murders and injustice. We request you to have faith in the army of the country," he said. "Please don't go back to the path of violence and please return to non-violent and peaceful ways."

According to *PTI*, Hasina landed at the Hindon airbase near Delhi on her way to London, diplomatic sources said. She arrived in a C-130J military transport aircraft of the Bangladesh Air Force, they said. It is not immediately clear whether the military transport aircraft will take her beyond India or she will travel to London in a different plane.

Hasina meets NSA Doval

Citing sources, *ANI* reported that India's National Security Adviser Ajit Doval and senior military officers met Hasina at the airfield and she was being moved to a safe location.

Bangladesh has been engulfed by violence since student protests last month against the quotas, which reserve some public sector jobs for veterans of the country's 1971 war of independence from Pakistan. The protests escalated into a campaign demanding the overthrow of Hasina, and were met by a violent crackdown in which about 250 people have been killed and thousands injured.

Ex-PM Khaleda's release ordered

BANGLADESHI PRESIDENT MOHAMMED Shahabuddin on Monday ordered the release of jailed former prime minister and key opposition leader Khaleda Zia, hours after her arch-rival Sheikh Hasina was ousted and the military took power. The president's press team said in a statement that a meeting led by Shahabuddin had "decided unanimously to free Bangladesh Nationalist Party (BNP) chairperson Begum Khaleda Zia immediately".

Army chief General Waker-Uz-Zaman, along with the head of the navy and airforce, and top leaders of several opposition parties including the BNP and Jamaat-e-Islami party, attended the meeting. **AGENCIES**

India concerned over how to connect with new Dhaka

SHUBHAJIT ROY
New Delhi, August 5

BANGLADESH PRIME MINISTER Sheikh Hasina's unceremonious exit and the turmoil on the Dhaka street has got India worried and concerned with concern that popular anger against Hasina might also singe Delhi, seen as a trusted ally and supporter of the Awami League.

A wary South Block watched Monday scenes of protestors ransacking the Prime Minister's office and residence; entering Parliament, attacking the ruling Awami League's party offices, even vandalising the statue of Mujibur Rahman.

New Delhi has stepped up security of Indian diplomatic facilities in Bangladesh but the concerns spread far beyond the immediate.

Since she returned to power in 2008, Sheikh Hasina's presence

next door has been a friendly and assuring one for New Delhi as both countries cooperated on the issue of counter-terrorism and cracked down on anti-India terrorist outfits operating from Bangladesh soil.

This made her an important ally in the fight against extremism — both New Delhi and Dhaka were on the same page when it came to dealing with Jamaat-e-Islami in Bangladesh.

This, in turn, emboldened Hasina to go after the Opposition — starting with Jamaat, then rival BNP, and slowly and surely, cracking down on dissenting voices in civil society and the media.

For more than 16 years now, India backed Hasina — despite being questioned for her undemocratic ways when it came to dealing with the Opposition, civil society and the media. It has also given aid and assistance for infrastructure and humanitarian needs to meet Dhaka's requirements.

This reflected the proximity between the two countries, and the Indian government's backing of the Bangladesh PM even as she faced growing anti-incumbency and scrutiny on the domestic front.

In the last month or so, as she battled with the protestors and students, she went by her political instincts and framed them as being propped by the Opposition, especially the Jamaat.

MAPPING THE RISE AND FALL

- Born in 1947, the 76-year-old was re-elected for a fourth term in January amid a boycott and arrests, making her Bangladesh's longest-serving leader
- With more election wins than Margaret Thatcher or Indira Gandhi, she is the world's longest-serving female leader
- Hasina has been Prime Minister since 2008, when the Awami League won the elections
- Her tenure was interrupted by military rule from 2006 to 2008, along with violent protests similar to recent unrest
- In 2009, Hasina returned to power with a landslide victory
- After her father's murder, Hasina and her sister sought refuge with the Bangladesh ambassador in West Germany and later received political asylum in India. She returned to Bangladesh in 1981
- She survived a grenade attack on her 2004 rally that left multiple people dead
- Many attribute the current unrest to her authoritarian style and relentless pursuit of control

Elon Musk revives lawsuit against Sam Altman, OpenAI

ZAHEER KACHWALA
August 5

BILLIONAIRE ELON MUSK revived a lawsuit against ChatGPT maker OpenAI and its CEO Sam Altman on Monday, saying that the firm put profits and commercial interests ahead of the public good.

The lawsuit marks Musk's latest attempt to oppose the startup he co-founded in 2015 and left three years later. Since his exit, OpenAI has gone on to become the face of generative AI, while Musk started another rival startup, xAI, last year that was valued at $24 billion in May.

The latest lawsuit seeks a judicial determination that OpenAI's license to Microsoft to use its AI models is null and void. Musk also contends that the language models are outside the scope of OpenAI's partnership with Microsoft.

Filed in the court for the Northern District of California, the suit is similar to the one Musk filed in February before withdrawing it in June without any explanation just a day before a judge was set to hear OpenAI's bid to dismiss the lawsuit.

A favorable decision could help

Musk unwind what has been a lucrative partnership between OpenAI and Microsoft, which has invested $13 billion in the startup in exchange for AI technology that it is now deploying across its services.

The tie-up has made Microsoft a frontrunner in the fast-moving race with Google for generative AI dominance, but it is also under the scrutiny of regulators.

The latest lawsuit alleges once OpenAI's technology started to transform genAI, Altman "flipped the narrative and proceeded to cash in."

"OpenAI and Microsoft stand to make a fortune selling this technology to the public, which would not be possible if the non-profit made its research and technology freely available, as Altman had repeatedly promised Musk," the lawsuit said.

While OpenAI's parent is a non-profit, Microsoft has invested the $13 billion in a for-profit subsidiary of the firm that was created in 2019 to help fund AI research and development. **REUTERS**

Magnificent Seven set to shed $1 trn

REUTERS

APPLE AND NVIDIA led a sell-off in technology stocks on Monday as US recession fears and Berkshire Hathaway's decision to cut its stake in the iPhone maker punctured a months-long rally in the sector.

High-performing shares of Alphabet, Amazon, Meta Platforms, Microsoft and Tesla fell as much as 12.2% in premarket trading.

The losses in the Magnificent Seven stocks were set to wipe out nearly $1 trillion from the combined market value of the companies.

High-performing shares of Alphabet, Amazon , Meta Platforms, Microsoft and Tesla fell as much as 12.2% in premarket trading

Chip stocks, the big winners of Wall Street's picks and shovels trade for AI, also tumbled, with Advanced Micro Devices , Intel, Super Micro Computer and Broadcom falling as much as 10.3%.

The share slide followed a weak US payrolls report on Friday that pushed investors to safe assets and spurred bets that the Federal Reserve will have to soon cut interest rates to aid growth.

Over the weekend, Warren Buffett's Berkshire Hathaway said it had halved its stake in Apple - the conglomerate's top holding - in a stock-selling spree that raised worries about the outlook for the tech industry.

Meanwhile, Nvidia shares took a hit from a report that the launch of its upcoming AI chips could be delayed by three months due to design flaws, which could impact customers such as Facebook-parent Meta, Alphabet's Google and Microsoft.

Want to punish Israel, avoid war: Iran

IRAN REITERATED IT wants to avoid all-out war with Israel, even as it threatened to retaliate for last week's assassination of a leading Hamas figure in its capital.

Tehran, which had already vowed revenge for the killing of Ismail Haniyeh, said it aimed to deter Israel from repeating similar moves. Israel has neither confirmed nor denied being responsible for his death. "Reinforcing stability and security in the region will be achieved by punishing the aggressor and creating deterrence against Israel and its adventurism," a spokesperson for Iran's foreign ministry told reporters on Monday.

The Islamic Republic doesn't want to escalate tensions but has the right, within the framework of international law, to punish Israel, he added.

The comments come as Group of Seven and regional officials rush to avert a wider conflict.

G-7 members have reached out to Iran to try to ensure its retaliation isn't serious enough to spark a regional war, according to people familiar with the matter.

Jordan's foreign minister made a rare trip to Tehran over the weekend and Qatar, which has mediated between Iran and the US in the past, has also been in contact with the Islamic Republic, according to a person with knowledge of the matter.

Russian Security Council Secretary Sergei Shoigu, also visited Iran for talks with new President Masoud Pezeshkian and other officials on Monday. It was unclear if Shoigu, regarded as one of Russian President Vladimir Putin's closest allies, urged Tehran to restrain its response to Israel.

Investors eye bargains amid bloodbath

Stay focused on broader horizon: Experts

AKSHATA GORDE
Mumbai, August 5

AMID THE CRASH in stocks on Monday, some investors were seen bargain hunting. With both benchmarks — Sensex and Nifty —losing close to 3% and the small-cap and mid-cap indices yielding even more ground, several local institutions turned buyers.

A Balasubramanian, MD and CEO of Aditya Birla Sun Life AMC, said long-term investors should not be deterred by such global uncertainties. "While the volatility will be high in the near term, the focus should remain on the broader investment horizon of 10-15 years, leveraging the solid fundamentals of the Indian economy and its companies," Balasubramanian said.

The benchmark Nifty 50 and Sensex shed 662.10 points and 2,222.55 points, respectively, during the day, the Sensex and Nifty fell as much as 3.3%, with the Nifty piercing through the crucial 23,900 mark. The selloff came after the Nifty crossed the 25,000 mark and the BSE Sensex surged past 82,000 points only during the last week.

A cat outside the BSE building, in Mumbai on Monday. Stock markets crashed nearly 3% amid the global equity rout, with investors losing a whopping ₹15.32 trillion PTI

A further correction would present an opportunity for buyers, experts noted. Data from Prime database show around 44 mutual fund houses were sitting on cash of about ₹2.67 trillion as of June 30.

Trideep Bhattacharya, president and CIO — equities, Edelweiss MF, anticipates that the equity markets will see near-term volatility. "It is crucial to monitor these developments closely in the coming months," Bhattacharya said. He expects some negative impact in globally-exposed sectors such as metals, commodities and oil & gas. However the outlook for domestically-focused sectors remains broadly stable, he said.

Sandeep Bagla, CEO of Trust MF, said while a US recession would be negative for equities, markets with stronger domestic economies can rebound faster than others. "The Indian economy is likely to be more resilient than other smaller economies, and investors could look to add (buy) during market corrections," Bagla said. At the same time, he cautioned investors about the "unreal" pace of the market seen over the last few years, which is unlikely to sustain going forward. "One must keep return expectations low in the short term... this is likely to be a medium-term correction, which will provide a long-term investment opportunity for the patient investor."

Stocks trading at stretched valuations are expected to see profit booking, said Tanvi Kanchan, head — UAE business & strategy, Anand Rathi. This selloff is more of profit booking and not an indicator of any long-term panic, he said.

"We are witnessing signs of the first meaningful correction in global markets after an extended bull run. Investors and traders should be cautious and avoid rushing in immediately, as better entry levels may emerge," said Santosh Meena, head of research at Swastika Investmart.

FPIs continue to unwind long bets, indicate caution

VIVEK KUMAR M
Mumbai, August 5

FOREIGN PORTFOLIO INVESTORS (FPIs) continued to unwind long positions in index futures on Monday along with sharp selloff in the cash market, in a bid to take the risk off table due to global macroeconomic and geopolitical uncertainties. The net open interest position of FPIs in index futures fell by 34,924 to 1,10,185 contracts, according to NSE data. The decline was steeper compared to Friday when FPIs had reduced their open interest in index futures by 21,170.

FPIs also cut their net long positions of call options sharply by 1,59,074 to 2,09,638. On the other hand, they lowered their net open interest positions in put options by 1,04,119 to 3,69,516. However, this was still higher compared with 1,42,699 open interest positions at the end of Thursday, analysts said.

Experts believe the overall positioning by FPIs indicates caution and the possibility of a further correction in the market in near term.

On Monday, FPIs sold shares worth $1.2 billion in India.

The broad-based selloff saw Sensex and Nifty falling 2.7% each to close at their lowest levels in a month at 78,759.40 points and 24,055.60 points, respectively. The sharp fall sent the premiums on major index put options soaring. The Nifty put option on 24,000 strike saw an over 1,275% surge in its premium to ₹185 while the premium on Nifty Bank's 50,000 points put option jumped by nearly 600% to ₹371.5.

Resurgent yen brings Japan Inc back to earth

Employees of a forex trading company work in front of monitors displaying the Japanese yen exchange rate against the US dollar, in Tokyo on Monday REUTERS

SAM NUSSEY & DANIEL LEUSSINK
Tokyo, August 5

A RESURGENT YEN helped bring Japanese stocks crashing back to earth on Monday, leaving investors scrambling to gauge the potentially diminished outlook for earnings, and snuffing out a months-long dramatic run by the Tokyo market.

In just three trading sessions, the Nikkei share average has lost a fifth of its value. On Monday it tumbled 12.4%. In part, the selloff has been driven by the recent turnaround in the yen after the Bank of Japan began to raise rates for the first time in decades, most recently last week.

Now investors are forced to size up Japan Inc's prospects without the extra cushion from the currency, which has helped many heavyweight exporters. Up until a few days ago, the Japanese stock market was seen as a global standout, having gained almost 30% last year and touching a lifetime high last month.

"All the benefits, all the tailwinds from forex that have been propping up Nikkei 225 stocks and exporters, multinationals, it's all gone," said Amir Anvarzadeh of Asymmetric Advisors, a Japan-focused equity advisory firm.

Now, companies now will have to do well on their own merits, he said.

A weaker yen drives up cost for small businesses and households, but it is largely positive for big exporters, such as Toyota Motor, because it makes their products cheaper overseas and boosts profits when foreign earnings are brought home. The yen traded around its strongest level in seven months on Monday, at 142 to the dollar. It has gained about 14% over the last month, recovering after months of losses. —REUTERS

Nikkei sees the biggest rout since 1987 Black Monday

ANKUR BANERJEE & JUNKO FUJITA
Tokyo, August 5

JAPANESE STOCKS COLLAPSED on Monday in their biggest single-day rout since the 1987 Black Monday sell-offs, driven by last week's plunge in global stock markets, economic concerns and worries investments funded by a cheap yen were being unwound.

The Nikkei share average shed a staggering 12.4% as Friday's dismal jobs data heightened worries of a possible recession, and as the yen rallied to 7-month high versus the dollar. This was the index's worst showing in percentage terms since the October 1987 crash.

Japan's banking stocks led the rout, which pushed the Nikkei into the bear market territory given its 27% drop from a July 11 peak of 42,426.77.

From July 11 to Monday's close of 31,458.42, Nikkei has wiped out 113 trillion yen ($792 billion) of that peak market value. "The rapid move in the yen is putting downward pressure on Japanese equities, but it's also driving an unwind of a major carry trade – investors had leveraged up by borrowing in yen to buy other assets, chiefly US tech stocks," said Kyle Rodda, a senior financial market analyst at Capital.com in Melbourne. "We are basically seeing a mass deleveraging as investors sell assets to fund their losses."

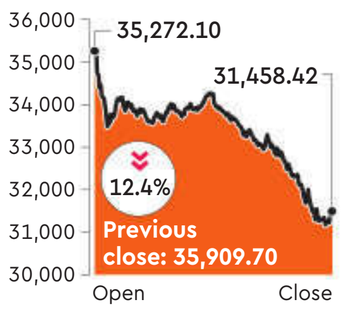
Intra-day, Aug 5



The Nikkei lost 4,451.28 points on Monday, its biggest ever one-day drop in point terms, eclipsing the 3,836.48 points it lost on October 20, 1987, when the Black Monday global stock market crash hit Japanese markets.

Japanese Finance Minister Shunichi Suzuki said the government was monitoring markets with "grave concern". "It's hard to say what is behind the decline in stocks," Suzuki told reporters.

Most analysts said neither interest rate expectations nor economic data could explain the severity of the selloff, although it was possibly driven by the rise in the yen whose near-zero short-term yields and steady depreciation had made it the funding currency for billions of dollars worth of investments for years.

The yen was last up 2.5% at 142.96 per dollar, and has risen 14% in less than a month, driven in part by the Bank of Japan's interest rate rise last week and an unwinding of yen-funded carry trades. "In short, not only the currency but the entire 'value' trade in Japan which had hijacked our market for two years is being unwound," said Richard Kaye, a portfolio manager at Comgest in Tokyo.

"I think the US economic slowdown worries were too much, but the market did turn nervous after the Bank of Japan's rate hike as they thought the domestic economy is not strong enough to justify the rate hike," said Tomochika Kitaoka, chief equity strategist at Nomura Securities.

The banking sector slumped 17% to become the worst sector among the Tokyo Stock Exchange's 33 industry sub-indexes. Chip-equipment maker Tokyo Electron fell 18.48% and was the biggest drag on the Nikkei. Uniqlo brand owner Fast Retailing lost 9.59% and technology investor SoftBank Group sank 18.66%.

The broader Topix fell 12.2% to 2,227.15, its weakest since mid-October and also moved into the bear territory as it clocked a 25% decline from its July 11 peak. —REUTERS

Commodities come under big pressure

Singapore/London, August 5

COMMODITIES INCLUDING OIL, natural gas, metals and agricultural products joined a global selloff in equities on Monday as fears of a US recession stoked worries over demand, though losses varied widely.

Crude oil dropped around 1-1.5% in volatile trade, less than losses on major equity indices as US recession fears and possible implications for oil demand were somewhat mitigated by price support from rising tensions in the West Aisa.

Copper prices tumbled over 3% to four-and-a-half-month lows as a deteriorating demand outlook in China and the US triggered a sell-off of the metal used in power and construction.

Gold was last down 2.7%. "Gold on a relative basis does better than other metals when people are worried about recession. But it will also come under pressure because people sell it to meet their margins in other markets," Liberum analyst Tom Price said.

European gas, power and carbon contracts also fell. European benchmark gas for the month ahead sank more than 5% in early trade to 35.17 euros/megawatt hour. Gas has been under pressure from higher Norwegian supply and seasonally high temperatures, but panic selling in line with the wider selloff was also a factor, according to one trader.

Most agricultural markets suffered too, with wheat down 3-3.5%, corn down 1.5%, soybeans down 1% and sugar at a near two-year low. —REUTERS

Rupee settles at fresh record low of 83.84

THE RUPEE SLUMPED 37 paise to settle at an all-time low of 83.84 against the US dollar on Monday, following a selloff in broader global markets amid rising geopolitical tensions in the West Asia and worries over recession in the US.

Forex traders said the downfall in the domestic unit came on the heels of a sharp downturn in the Indian equity markets and significant foreign fund outflows.

"We expect the rupee to trade with a negative bias on risk aversion in the global markets. Escalation of geopolitical tensions in the Middle East and outflows by foreign investors may further pressurise the domestic unit," said Anuj Choudhary — research analyst at Sharekhan by BNP Paribas.

Bitcoin plunges, Ether has worst drop since 2021

SUVASHREE GHOSH & RYAN WEEKS
August 5

CRYPTOCURRENCIES REELED FROM a bout of risk aversion in global markets on Monday, at one point sending Bitcoin down more than 16% and saddling second-ranked Ether with the steepest fall since 2021.

Top token Bitcoin traded 14% lower at $51,130 as of 7:08 a.m. in New York, adding to a 13.1% drop last week that was the worst since the period when the FTX exchange imploded. Ether shed over a fifth of its value before paring some of the slide to change hands at $2,246. Most major coins nursed losses.

The declines come as a global stock selloff intensifies, reflecting concerns about the economic outlook and questions over whether heavy investment into artificial intelligence will live up to the hype surrounding the technology.

Geopolitical tension is rising in the West Asia, adding to investor skittishness.

US exchange-traded funds for Bitcoin suffered their largest outflows in about three months on August 2. One question is whether the products will attract dip buyers when they resume trading, or witness a deeper efflux.

Carry trade

Digital assets are a victim in part of the unwinding yen carry trade, as speculators adjust to higher interest rates in Japan, according to Hayden Hughes, head of crypto investments at family office Evergreen Growth. "Those investors are also fighting a drastic increase in hedging costs based on the volatility in the US dollar-Japanese yen trading pair," Hughes said.

Bitcoin has been buffeted by a range of factors since hitting a record of $73,798 in March. That includes US political flux as pro-crypto Republican Donald Trump and Democratic opponent Vice President Kamala Harris — who has yet to detail a digital-asset policy stance — lock horns in the presidential race.

Also hanging over the market are possible sales of Bitcoin seized by governments and the risk of a supply overhang from tokens returned to creditors through bankruptcy proceedings.

Fed outlook

Bond traders have amplified bets on US interest-rate cuts beginning in September to support economic expansion. The prospect of less restrictive monetary policy is actually "a good thing for crypto," argued Sean Farrell, head of digital-asset strategy at Fundstrat Global Advisors LLC. —BLOOMBERG

Monday jitters

The sentiment in the overseas markets will weigh; but no reason to panic, Indian economy remains fairly insulated

THE GLOBAL MELTDOWN in stocks on Monday was not wholly unexpected given the latest data showing rising unemployment in the US whose economy is clearly slowing. There is now much anxiety about a hard landing with the possibility of a recession not ruled out. There were two other factors: The stratospheric valuations of US tech stocks had become unanchored with earnings growth and the carry trade in the yen was damaged after the Bank of Japan raised interest rates and the yen appreciated. Japan's Nikkei shed a staggering 13% to hit seven-month lows, a scale of losses not seen since the 2011 global financial crisis. Whether the sell-off across markets is temporary is difficult to guess. For one, the escalating geopolitical tensions in West Asia remain a big concern. While it has resulted in a steep correction in crude oil prices to a seven-month low of sub-$76 per barrel, the consequences of what seem to be prolonged hostilities are unknown. The collapse in prices of metals such as copper — at a four-month low — and also other asset classes such as cryptocurrencies suggest serious risk aversion.

All of this especially the slowdown in the world's biggest economy — which, even a few months back seemed to be chugging along nicely — could continue to keep investors and markets nervous. Economists at Goldman Sachs put the probability of a US recession in 2025 at 25%, up from 15% earlier. Indeed, there are those who believe the US Fed may be behind the curve and predict an emergency meeting to cut rates before the September Federal Open Market Committee meet. The yield on the 10-year US Treasury is hovering around levels of 3.7% as bond traders bet on larger-than-expected cuts. Citigroup and JP Morgan Chase both expect a series of half-percentage-point cuts in September as well as December. Others point out that while an interest rate cut may be needed to help the economy regain some strength, it might send out the wrong signal creating panic in the markets.

The sentiment in the overseas markets will weigh on Indian equities even if the country remains fairly insulated and the macroeconomic fundamentals are fairly strong. However, it is largely local liquidity that has been pushing up stock prices with foreign portfolio investors not participating meaningfully. Of late, they have turned distinctly bearish, which is one reason for the sharp correction in the past two sessions. That said, the fall was probably expected as the rally to 25,000 levels on the Nifty has been fast and furious. Besides, the June quarter earnings season has been lacklustre. Net profits for a sample of 824 companies (excluding banks and financials) have fallen 5% year-on-year on the back of a sales growth of 7% y-o-y. While lower oil prices are a bonanza, the weaker rupee which is nudging 44 to the dollar will make all imports more expensive, adding to inflationary pressures.

Also, the US is a big market for India's exporters — especially software services — and any slowdown would hurt exports. The silver lining is that bond yields are falling. However, the Reserve Bank of India might not be in a rush to cut rates since it wants the 4% target to be achieved on a sustainable basis. For retail investors, there is no reason to panic as Monday's fall is expected to remove a lot of froth from the markets.

A WELL-FUNCTIONING GLOBAL FOOD SYSTEM IS MAINLY IN THE INTEREST OF THE GLOBAL SOUTH

Indo-Africa food for thought

JOACHIM VON BRAUN
ASHOK GULATI
Respectively former president, International Association of Agriculture Economists, currently with ZEF, University of Bonn, and distinguished professor, ICRIER

INDIA IS HOSTING the 32nd International Conference of Agricultural Economists ICAE) from August 2-7 in Delhi. Prime Minister Narendra Modi is the chief guest and agriculture minister Shivraj Singh Chouhan will be the guest of honour.

It is interesting to note that the last time India hosted the ICAE was in 1958 in Mysore, with then PM Jawaharlal Nehru as the chief guest. If one digs a little deeper, one finds that the ICAE has its roots in India. The founding president of the ICAE was Lord Elmhirst. Rabindranath Tagore cabled Elmhirst at Cornell in the spring of 1921, requesting to meet in New York. When they met, Tagore told Elmhirst about his concern for the villages around Santiniketan, north of Calcutta, which seemed to be on the verge of disintegration. He said that he had already acquired a farm at the village of Surul that could be used as a centre for assisting the villages, but he had not yet found an appropriate means of doing this. He invited Elmhirst to join him, which Elmhirst agreed to. He arrived about a year later, bringing with him a promise of financial help from Dorothy Straight, his wife-to-be.

Tagore made clear his attitude to the villages: "If I can free only one or two villages from the bonds of ignorance and weakness, there will be built, on a tiny scale, an ideal for the whole of India... Our aim must be to give these few villages complete freedom — education for all, the winds of joy blowing across the village, music and recitations going on, as in the old days... Our people need more than anything else a real scientific training that could inspire in them the courage of experiment and initiative of mind which we lack as a nation."

From those roots, the ICAE has flourished over time. This is perhaps the biggest congregation of agricultural economists committed to the world's food and nutritional security, which is becoming an increasing challenge in the face of climate change and geopolitical conflicts.

India's success in ushering in the green revolution and the white (milk) revolution is well known, but the African continent is still struggling to overcome food shortages. Nutritional security, especially of children below the age of 5 years, still remains a challenge for India and Africa. Given that the African Union was invited to be a permanent member of the G20 during India's presidency, it opens the gates for India and Africa to learn from the global developments in food and agriculture, and also promote South-South collaboration to overcome their food and nutritional security challenges.

Investment in climate resilience requires adaptation, mitigation, and system transformation, the latter is facilitated by building the bioeconomy that would benefit from investments

In this context, the ICAE has a special session where the experiences of 20 major Indian states are compared with 15 African countries from FY05 to FY20. The two regions have a lot to share. The findings of this unique study show that first, high-debt service ratios result in lower agricultural spending relative to social protection. Second, African countries consistently underfund agriculture compared to Indian states, hampering productivity and efforts to reduce child malnutrition. Third, enhancing public spending on agricultural R&D and extension is crucial, as both regions under-invest in these high-return areas. Lastly, the study suggests reforming subsidies and reallocating resources to infrastructure and R&D to boost agricultural growth and improve child nutrition outcomes. Agricultural investment pays off in poverty reduction and saves on social spending. Food hand-outs have their role in food crises but must not impair growth and job creation in rural areas.

At the global level, in the fight against global hunger, the human and financial costs of complacency are alarming. As a result of recent developments — including growing conflicts, the climate crisis, and economic slowdowns — and the lack of concerted global action, achieving the United Nations' established goal of Zero Hunger by 2030 seems increasingly infeasible. A new study from the University of Bonn, Germany, and Food and Agriculture Organization shows that it would require additional investments of $21 billion annually in agriculture and rural areas to end global hunger by 2040.

India's leadership in the G20 last year and the follow-up by Brazil's G20 presidency this year has had a good impact in setting the global agenda focusing on food security and ending hunger and presenting, for the first time, a strategy paper on bioeconomy for G20. This is now followed up by Brazil, and even more concretely with G20 nations. China too recently launched its bioeconomy strategy. It is commendable that India facilitated on-boarding the African Union in G20 during its presidency. It is now all the more important to get to the South-South collaboration. The developed countries of G20 can help to solve problems of food and nutritional security in the global South, by addressing climate change with support for resilience and by sharing science and innovation for food systems transformation. This is what Africa and South Asia, which together account for almost 3 billion people on this planet, can call for. The investment in climate resilience requires adaptation, mitigationm, and system transformation, the latter is facilitated by building the bioeconomy that would benefit from investments, including the Global Climate Fund. The sequence of G20 presidencies over 2022-25 shows indications of food system governance change — for Indonesia, India, Brazil, and next year, South Africa. A well-functioning global food system is mainly in the interest of the global South. It shows when they are in the driver's seat.

We hope the Indian Prime Minister will take this agenda of the South in G20, and also provide dynamism in agri-food relations between Africa and India for the common good of almost one third of humanity.

AI is getting cheaper. That won't fix everything

FOR A TECHNOLOGY that promises to help businesses cut costs, artificial intelligence has had a big problem with being so costly.

AI's scaling laws, which say that you need more computing power to make more powerful models, have put tech companies on a race to spend billions of dollars building vast data centres and buying powerful chips — costs they can't help passing on to their customers. Google's AI tool for generating documents or emails for office workers is not cheap. It adds $20 to their employer's monthly $6 bill for the company's Workspace suite, per staff member. Microsoft Corp.'s Copilot AI assistant costs $30 a month per worker.

Meanwhile, the cost of deploying AI directly into a company's systems can cost between $5 million and $20 million, according to research firm Gartner, which estimates that 30% of generative AI projects will be abandoned by the end of 2025 in part because of all that expense.

The good news for those customers is that AI costs appear to be coming down, helping to close the gap between benefit and investment. The bad news: That still doesn't address the bigger issue of utility, which will take a few years yet to solve.

The prevailing wisdom in Silicon Valley is to keep spending to get a foothold on the future. On Tuesday, Microsoft announced that its capital expenditures hit a record $19 billion in the last quarter, more than 80% higher than last year. Chief executive officer Satya Nadella said all that investment would continue to "capture the opportunity of AI". Alphabet Inc. CEO Sundar Pichai said much the same in a recent earnings call about Google's results: "The risk of underinvesting is dramatically greater than the risk of overinvesting for us." Investors aren't entirely buying it: Microsoft's shares are down about 2% since its latest earnings announcement, Google's by 5%.

PARMY OLSON
Bloomberg

But even as the cost of training AI has risen over the years, both tech giants' AI services seem to be heading in a cheaper direction. A spokesman for Google says the company's latest Gemini model — which companies can use to automate their customer service operations or summarise internal documents — is more powerful than the last, but close to half the price.

OpenAI's latest model, known as GPT-4o, is faster but also 50% cheaper than its predecessor, GPT-4 Turbo. A spokeswoman told me the cost of accessing its models, which is measured by the processing of tokens (essentially words by its language model), has dropped by 99% since 2022.

Among AI scientists, cutting costs with techniques like "sparsity" and "quantisation" has been a major focus at recent conferences. Neerav Kingsland, an executive at OpenAI rival Anthropic, told me it was plausible that its models could fall to 25% of their current price over the next one to two years, and that the company — which has raised $8.8 billion from investors including Google and Amazon.com Inc. — had already halved the cost of building a recent model through novel research methods.

And cost efficiencies are coming from business users too. Many are realising they don't need the most powerful AI to give their staff a productivity edge, so they're experimenting with open-weight models from companies like Meta Platforms Inc. or smaller models that are cheaper or slower. A customer service chatbot might need a state-of-the-art AI tool that can do real-time inference, but analysing customer calls to improve them? That can be done with less-advanced technology.

Silicon Valley has a history of subsidising prices, with streaming platforms, ride-sharing apps and cloud services all taking a margin hit to grow market share. The goal is to ride out the competition and eventually raise prices, becoming profitable. But here's the sticking point for generative AI: There's still a broad question of how useful it can be to a business's bottom line, which Gartner says is the main reason for its prediction that 30% of projects will be abandoned by the end of next year.

If the technology remains stuck in just dispensing chatbots and summarising text, it might not be worth even the lower price tags. That is the issue tech companies should perhaps grapple with over others, even cost.

A piecemeal approach is anti-investment

ARBIND MODI

The proposals for reforming the capital gains tax regime for financial instruments should be part of the comprehensive review of the Income Tax Act

BUDGET 2024-25 MARKS the first of the new political cycle and a good opportunity to pursue tax reforms — a necessary, but a highly unpopular, exercise.

Finance minister Nirmala Sitharaman has announced her intention to undertake a comprehensive review of the Income Tax Act, 1961, within the next six months. The government, in its earlier avatar, had also undertaken this exercise and draft tax codes written by expert committees were available in the very first year of the last political cycle too, allowing abundant time for its implementation. Unfortunately, it adopted a piecemeal approach by making frequent and large-scale amendments to the existing law, thereby adding to its complexity. Despite the announcement of a comprehensive review, it continues to propose substantial changes in this Budget, again in a piecemeal manner. One hopes it will walk the talk this time around.

Taxation of capital gains has been the subject matter of comprehensive review in the Budget. While several changes have been proposed on the subject, I will restrict myself to a few significant changes.

The proposal to eliminate the benefit of inflation indexation for the cost of acquiring a capital asset was long overdue. In principle, capital gains should be taxed on "accrual" basis, but, in practice, it is imposed on "realisation" basis to overcome the problem of valuation, liquidity, and complexity. Consequently, in a world of inflation, there is a "cost" on the taxpayer arising from the erosion in the real value of the historical cost of the asset and an unintended "benefit" arising from tax deferral to the extent there is an erosion in the real value of the accrued tax liability. Therefore, in practice, most countries do not provide for any inflation indexing of the "cost" or the "benefit" since they would cancel out each other. Under the extant capital gains tax regime in India, while the "cost" is adjusted for inflation, there is no corresponding inflation adjustment for the "benefit", thereby conferring double benefit and undertaxation of gains. Accordingly, a correction was necessary. The proposal is a pro-reform measure consistent with the international best practices so the government should not succumb to the unwarranted cacophony.

The proposal to reduce the LTCG rate for bonds is equally flawed. Interest on debt is deductible, unlike dividends, which creates a bias

The proposal to increase the tax rate on long-term capital gains (LTCG) from listed securities from 10% to 12.5% is fundamentally flawed. Taxing LTCG from equity is complex and must consider the cumulative tax burden on profits earned through corporations, dividends, and capital gains. Generally, the tax burden on corporate profits is inter alia guided by two principles: (i) the combined tax on corporate profits, dividends, and capital gains should not exceed the top personal income tax rate; and (ii) dividends and capital gains should be treated symmetrically to avoid tax-induced distortions in corporate behaviour.

In India, the combined tax on corporate profits is estimated at 43.2% for FY24, significantly higher than the top personal income tax rate of 30% (39% including surcharge). This high tax cost of equity investment increases the hurdle rate, making marginal projects financially unviable. The proposed increase in the LTCG rate for listed equities raises the combined rate to 44.5% for FY25. Additionally, the tax on dividends remains high relative to capital gains, disproportionately affecting senior citizens.

With corporate investment already sluggish, raising the LTCG rate will exacerbate the problem. One solution is to impute corporate income tax to the shareholders by allowing a standard deduction of 50% of gross dividends and capital gains from equity, and taxing the remainder at the applicable marginal personal income tax rate. However, the standard deduction should be limited to equities held for more than one year. Besides, eliminating the surcharge on personal income tax (PIT) could further moderate the tax burden, with progressivity addressed through alternative tax instruments like a net wealth tax and an inheritance tax (both with a sufficiently high threshold). These measures could reduce the tax cost of equity investment to around 30%.

The government must revisit this issue and conduct a comprehensive review. In the meantime, the proposal to increase the LTCG rate on listed equities should be withdrawn.

Similarly, the proposal to reduce the LTCG rate for bonds is equally flawed. Interest on debt is deductible, unlike dividends, which creates a bias against equity. Therefore, all gains to bondholders or lenders, regardless of whether they are characterised as "interest" or "capital gains", should be fully taxed and treated symmetrically. Reducing the LTCG rate on gains from bonds will exacerbate this bias against equity and increase the risk of bankruptcy. By maintaining a consistent tax treatment for all forms of gains from bonds, the government can create a more equitable financial environment and reduce the risk of financial instability. Therefore, the proposal should be reviewed to ensure that "capital gains" on bonds are treated in the same manner as "interest" and taxed under the progressive PIT rate schedule.

The proposals for reforming the capital gains tax regime for financial instruments are anti-investment and should be part of the comprehensive review of the Income Tax Act.

LETTERS TO THE EDITOR

Boiling Bangladesh

The popular uprising against the government in Bangladesh has forced Sheikh Hasina to resign and flee the country. The trigger for the protests was quota for families of those who fought for independence in 1971. The harsh crackdown on the agitators intensified the protests and hastened her downfall. No doubt she has done a lot to lift millions out of poverty and accelerate GDP growth, but one big mistake she made was making democracy and human rights peripheral to economic growth. She misused state institutions to cling to power. The turn of events in Bangladesh illustrates that "a winner takes all" mentality does not work in a parliamentary democracy. One hopes that the formation of an interim government overseen by the army takes steps for the restoration of genuine democracy.

Tax terrorism?

Apropos of "Tax misadventures" (*FE*, August 5), it is not just Infosys that has significant overseas operations and presence. Top information technology firms and those in other sectors have presence too. Will the Directorate General of Goods and Services Tax Intelligence send notices to them? There are rumours that the reason of this notice is the unfavourable comments of Narayana Murthy. The market itself did not regard the notice, as the Infosys shares barely reacted to it. Had it been a private firm, the director would have been questioned for repeatedly sending tax notices that were not tenable, resulting in extra expenses for the government. Infosys is a reputable company. Such notices, even if they come to nothing, damage the reputation of a company.

Restructured book declined to ₹16,000 crore, while SMA 1/2 portfolio stood at ₹4,600 crore. The bank guides FY25 credit cost at 0.5%.

SBICARD clocked a PAT of ₹590 crore. SBILIFE's PAT grew 36.5% y-o-y to ₹520 crore. PAT of the AMC business increased by 45.6% y-o-y to ₹680 crore, while SBI General reported a profit of ₹1,83crore.

Valuation and view

SBI reported an in-line quarter, with PPoP growth driven by controlled opex amid modest revenue growth. Margins moderated by 8bps q-o-q; however, the bank expects margins to remain broadly stable going forward with variation of ±10bps, aided by levers such as the credit-deposit (CD) ratio and marginal cost of funds-based lending rate (MCLR) repricing. Deposit growth was modest with a slight moderation in CASA mix; however, domestic CD ratio remained well in control at 69%. Fresh slippages and credit cost increased sequentially in a seasonally weak quarter; however, healthy recoveries and upgrades drove improvement in GNPA ratio. Restructured book was well-managed at 0.4% of advances, while the special mention account (SMA) pool was controlled at 12bps of loans. We broadly maintain our earnings estimates and expect FY26 RoA/RoE of 1.1%/18.2%.

Titan to boost ad spending

Targets Ebitda margin of 11.5%-12.5% in the jewellery segment

TITAN'S DOMESTIC JEWELLERY business had an abnormally weak quarter, with like-for-like (LFL) growth at 3% and revenue growth at 8% y-o-y. This was due to external headwinds of steep gold price inflation, lower number of wedding days, election-led restrictions in its core markets while it had a significantly better performance in south achieving a 16% y-o-y growth. The customs duty cut is likely to have long-term benefits of accelerating formalisation of the industry. That said, the current phase appears to have hit an airpocket [formalisation gains accruing more to competition, necessity to choose between revenue or margins, and the expansion driven by adding new cities in India is largely complete for now). Companies portfolio play in jewellery including Mia which contributes less than 5% to domestic jewellery and Caratlane shall accelerate. Positively, it maintains Ebitda margin guidance of 11.5-12.5%. Maintain Hold. Consolidated sales grew 13% y-o-y to ₹12,200 crore. Jewellery revenue stood at ₹10,800. In Jewellery, domestic business grew 8% y-o-y to ₹9,600 crore driven by 3% LFL growth in secondary.

Ebit margin remained stable y-o-y at 10.7%. It has expanded marginally by 15bps y-o-y to 11.2% in Jewellery segment led by stable margin and overall cost optimisation. Management maintains its previous guidance of 11.5-12.5% Ebitda margin in Jewellery business despite rise in the competitive intensity. It indicated it is likely to increase ad-spends in a few markets given the higher competitive intensity. It further highlighted one-time impact of ₹500-550 crore due to cut in customs duty.

Supply chain segment growth stayed robust due to seasonally strong quarter for consumer durable customers. Adjusted Ebitda was ₹37 crore while margins expanded to 1.7%, due to improvement in service Ebitda across segments. Consolidated PAT was ₹54.4crore. Delhivery's presence across both B2B and B2C segments led to healthy capitalisation on growth across industries. It is currently operating mother warehouses for quick e-com firms and intends to launch dark store warehousing/fulfilment services given the boom in quick-commerce. It stays confident of clocking improvement in yields and volume growth across segments. Due to continuous addition in customers, fleets, facility centres, the growth trajectory stays buoyant. The company plans to invest ₹500 crore in FY25 for automation, fleet expansion, and other fixed assets. With a return to profitability and improved operational metrics, Delhivery is on a positive trajectory. We are updating our estimates to reflect Q1FY25 performance and outlook.

JOLT FROM JAPAN

Why yen carry trades roiled global markets

Investors have been deleveraging their yen-funded carry trades following the hike in interest rates by the Bank of Japan. We look at what carry trade is, and how an appreciating yen could affect the Indian economy

● What triggered the global market sell-off?

MARKETS AROUND THE world tumbled on Monday following a global unwinding of carry trade in the Japanese yen coupled with concerns over the possibility of a US recession early next year. The wave of selling hit a fever pitch in Japan as traders rushed to unwind popular carry trades, powering a 3% surge in the yen and causing Japan's Topix stock index to shed 12% and close the day with the biggest three-day drop in data stretching back to 1959.

The Bank of Japan (BoJ) had hiked its benchmark interest rate to 0.25% from its 0.0–0.1% last week, leading to the Japanese yen rising against the greenback as much as 2.94% intraday to 142.22 against the US dollar on Monday. The currency has appreciated by 10% against the dollar in just over three weeks. This was the second time the central bank hiked its interest rate after ending its ultra-loose policy for the first time in 17 years in March.

● What is carry trade and why were yen-funded trades popular?

IN A FOREIGN currency carry trade, investors take advantage of a difference in interest rates between two countries to borrow where the rate is low and invest where the rate is high. When central banks in different countries follow divergent monetary policies as in one country tries to tame inflation while another pursues growth, it creates a fertile ground for carry trades. Given that currency exchange rates are prone to unpredictable corrections, there is always a risk of losing huge sums of money in carry trade, which is what happened on Monday.

Yen-funded carry trades have been among the most popular in emerging markets in recent times as volatility remained low and investors bet Japanese interest rates would remain at rock bottom.

"The rise of Japan interest rates is changing the game rules," Pierre-Yves Gauthier, head of research at Paris-based brokerage AlphaValue, told *Bloomberg*. "In essence it's the end of a free resource."

10%

APPRECIATION IN THE YEN AGAINST THE US DOLLAR IN JUST OVER THREE WEEKS

NEAR-ZERO INTEREST LOANS FROM JAPAN HAVE BANKROLLED INDIA'S INFRASTRUCTURE PUSH

5.8%

OF INDIA'S $663.8 BN EXTERNAL DEBT AS ON MARCH-END, 2024, WERE YEN-DENOMINATED LOANS

● How did the Indian markets react?

THE MONETARY POLICY shift by Bank of Japan and subsequent tightening has led the yen to appreciate by 10% against the Indian currency. The rupee ended at its all-time low of 83.8450. The BSE Sensex and the Nifty 50, closed lower by about 2.7% each, their worst single day decline in over two months. National Depository Ltd data show that the total assets under custody (AUC) —inclusive of equity, debt and hybrid —of Japanese foreign portfolio investors (FPIs) was ₹2.17 trillion in June, of which ₹2.06 trillion was in equities. In terms of total AUC held, Japanese FPIs are the ninth largest set of foreign investors. In terms of equity exposure, they are the eighth largest set of foreign investors in the Indian stock market.

● Will there be a lasting effect on India?

THE MARKETS EXPECT the BoJ to hike interest rates further. If this apprehension turns true, it could affect India's external debt. At the end of March 2024, India's external debt was $663.8 billion, according to RBI data, of which yen-denominated loans stood at 5.8%. India has been the largest recipient of Japanese Official Development Assistance loans at highly concessional interest rates. This cheap capital has bankrolled India's infrastructure push in the last decade. Not only can infrastructure spending slow down as a long-standing source of cheap capital dries up, the debt servicing cost of Indian companies who have raised long-term yen loans backed by near-zero interest rates will also increase. Imports from Japan would also get costlier as the yen rises against the dollar.

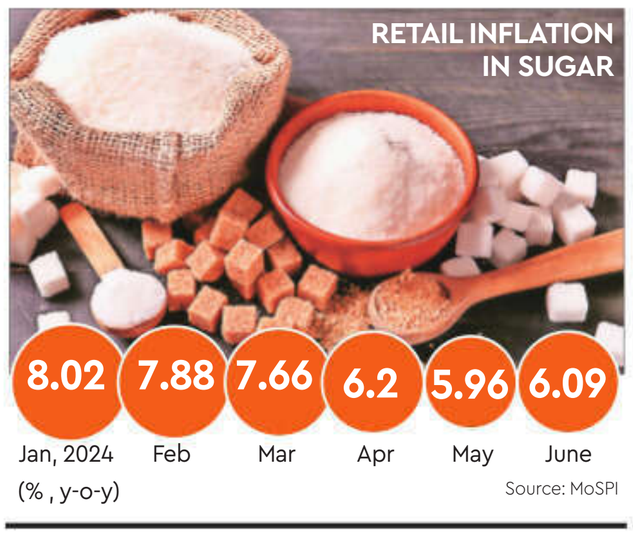
If Japanese FPIs liquidate their positions, it will certainly impact the markets in the short term, though the returns offered by the Indian markets along with the strong economic outlook will help counter the impact to some extent and FPI flows could stabilise soon.

● What can the world expect now?

EVERY COUNTRY AND every company which has built its investment strategy on cheap borrowing on the yen will have to go back to the drawing board. It's a bitter outcome for the BoJ, which had taken painstaking care to gradually nurture inflation and then recalibrate borrowing costs without jolting markets, said a *Bloomberg* report. It quoted Charu Chanana, head of currency strategy, Saxo Markets, saying: "What a complex situation to be in for Japanese policy-makers — a loose monetary policy kills your currency and a slightest hint of tightening breaks your stock market," said. The yen may get 140 to the dollar sooner rather than later if concern over the risk of a US recession continues to rise, which will further weigh on Japanese stocks, she said. Market participants are hoping the US Fed will take a more aggressive stance to loosen the monetary conditions at a time when Japan is expected to hike rates further. Analysts at Goldman Sachs noted the Fed's ability to re-instil market optimism, estimating a 25% chance of a US recession whereas JPMorgan assigned a 50% probability to a recession.

Isma urges govt to lift curbs on sugar exports

SANDIP DAS
New Delhi, August 5



CITING SUFFICIENT SUPPLIES of sugar for domestic consumption and ethanol production, the Indian Sugar Mills and Bio-Energy Manufacturers Association (Isma) has urged the government to lift the restrictions on exports of the sweetener.

Isma had projected a marginal 2% drop in sugar production in the next 2024-25 season (October-September) at 33.11 million tonne (MT) compared to the current year. While estimating an opening stock of 9.05 MT on October 1, the industry body has projected net sugar availability of 42.35 MT in 2024-25 sugar season.

Isma has projected domestic consumption of sweetener at 29 MT in the next marketing year, which would lead to a closing stock of 13.35 MT on September 30, 2025.

"We anticipate sufficiently higher sugar production in the next 2025-26 season because of adequate rainfall in this monsoon season and the production in the next sugar year would be sufficient to meet ethanol blending programme and exports while ensuring adequate domestic supplies," Deepak Ballani, director general, Isma, told *FE*.

Ballani said that allowing around 2 MT of sugar in the current season would help companies save carrying cost of sweetener and reduce interest burden. In the current 2023-24 season, the government has not allowed sugar exports to boost domestic supply and control retail prices.

According to the agriculture ministry, sugarcane sowing this season has been completed with a total sown area of 5.76 million hectare (MH), which is marginally higher than normal sown area compared to the previous year. According to Isma, area under sugarcane this season is 5.6 MH, a 6% decline from previous season.

Flipkart Minutes goes live in Bengaluru

FE BUREAU
Bengaluru, August 5

FLIPKART MINUTES, THE quick commerce arm of the Walmart-owned e-commerce major, has gone live in HSR, Bellandur, and a few other areas of Bengaluru.

The launch comes at a time when quick commerce has become an integral part of all e-commerce firms. Zomato-owned Blinkit, Swiggy Instamart, Zepto, and others are racing to acquire a dominant share in this fast-growing space.

Flipkart began firming up its plans in March, likely observing the success of new entrants in quick commerce. Given its e-commerce prowess, it was a natural progression for the company to explore rapid delivery. Notably, the company has piloted such offerings several times in the past, even before 15-20 minute deliveries became popular in 2021, with Flipkart Quick and other initiatives.

Currently, users are receiving products in 8-16 minutes, which is largely in line with what most incumbents offer. Flipkart is offering free deliveries for all orders above ₹99 and is collecting ₹5 as a platform fee, a revenue stream that companies are tapping into for additional income.

Flipkart Minutes also promises that if an order doesn't meet expectations, a customer can cancel or refuse to collect items at the doorstep, a feature no other company currently offers. However, these services are aimed at attracting and growing the transacting base of customers. They are usually curbed once adoption picks up.

Rural demand on revival path: Britannia's Berry

VIVEAT SUSAN PINTO
Mumbai, August 5

INDIA'S VILLAGES ARE emerging from a sustained slowdown experienced in FY24, with share gains in rural areas being 1.25 times more than in urban areas in the June quarter, Britannia's executive vice-chairman and MD Varun Berry said in an earnings' call on Monday. These share gains have led to an 8% volume growth in Q1 for the company, despite implementing price cuts of around 2% to stay competitive.

"Rural demand is picking up after a lull that was visible over the last two years. The previous year has been challenging from a rural perspective, but rural markets are now on the revival path and we are seeing green shoots," Berry, 62, stated. The company, however, will monitor the progress of rural areas and the monsoon season over the next two months, he added.

"If there is anything that is required in a certain region in terms of brand, pricing, variant or recipe, we are ready to do all of it," Berry said of the firm's rural and regional strategy.

VARUN BERRY, EXECUTIVE VICE-CHAIRMAN & MD, BRITANNIA

IF THERE IS ANYTHING THAT IS REQUIRED IN A CERTAIN REGION IN TERMS OF BRAND, PRICING, VARIANT OR RECIPE, WE ARE READY TO DO ALL OF IT

The coming months may see the biscuit major implement a price increase of around 4-5% due to commodity inflation, Berry said. Milk, wheat flour and cocoa prices have surged compared to the previous year. Wheat flour prices have increased by around 7%, while cocoa prices have jumped by 34% year-on-year. Skimmed milk prices are also expected to rise, Berry added.

"We will, however, look to strike a balance between commodity inflation and pricing action, given the competitive intensity from small and regional players. Our focus remains on topline growth, and we are willing to sacrifice margins slightly to build a future-ready business," he said. Berry stated that Britannia had expanded direct distribution of its products to 2.82 million outlets out of a total reach of 7 million outlets in the June quarter. This represents an increase of around 30,000-35,000 outlets, according to the analysts, all of which were added in rural areas, where Britannia has been aggressive in expanding direct reach over the last few quarters.

The company has also increased investments in brands and innovation to ensure brand visibility and saliency amid growing competition from smaller players. For instance, the company introduced new variants such as Pure Magic Stars and 50:50 Golmaal in biscuits to drive consumer excitement and strengthen its brand franchise, Berry said.

The company expects the second quarter to be slow in terms of sales growth due to a high base in the previous year. However, this should rapidly gain pace by the second half of the current financial year, led by double-digit volume growth.

Target set for sixfold rise in palm oil output by 2032

SANDIP DAS
New Delhi, August 5

THE COUNTRY IS aiming to increase domestic palm oil production from the current level of 0.4 million tonne (MT) to 2.5 MT by 2032 under the national oil palm mission through adding at least 0.1 million hectare (MH) of new plantation annually in the five to six years, according to leading industry officials.

Sougata Niyogi, head, Godrej Agrovet, palm oil division, which owns a third of total palm plantation in the country, told *FE* that domestic production of palm oil is likely to meet around 25% of the current annual imports of palm oil estimated at around 9.6 MT by 2032.

Industry has projected the plantation to increase to 1 MH by 2029 from the current level of 0. 5 MH. After four years of plantation, fruits can be extracted for oil.

Out of these, Godrej Agrovet is aiming to increase its palm plantation from the current level of 65,000 hectare, to 0.1 MH by 2027. The company has plantations mainly in Andhra Pradesh, Telangana, Assam, Tripura, Odisha and Tamil Nadu.

"Our palm oil production will increase from the current level of 0.12 MT to 0.2 MT by 2027-28," Niyogi said.

From the current level of 75,000 hectare of palm plantation across 10 states, Patanjali Foods (PF) is aiming to add 0.4 MH by 2028.

"As a rough estimate, in the fullness of time when the entire plantation will be bearing fruits, the oil production will be somewhere around 1 MT." Sanjeev Asthana, CEO, PF, said

Godrej Agrovet, Patanjali food and 3F oil palm agrotech industries account for a major chunk of the country's oil palm plantations while there are 22 odd regional players in plantation.

Andhra Pradesh, Telangana and Kerala are the major oil palm growing states, which accounts for 98% of the total production.

India is the world's second-largest consumer and number one vegetable oil import and meets about 58% of its consumption of around 24 MT annually through imports. Trade sources said that the domestic consumption is likely to increase to around 30 MT in the next 3 to 4 years.

Currently, India produces about 44% of its domestic edible oil consumption requirement. Mustard (40%), soybean (24%) and groundnut (7%) are other oils who have a share in domestic production.

India's annual imports are around 13-14 MT. Around 9 MT of palm oil is imported from Indonesia and Malaysia, while other oils, such as soya and sunflower, come from Argentina, Brazil, Ukraine and Russia.

- It aims to produce **2.5 MT by 2032**

AMCs TO HAVE WHISTLEBLOWER MECHANISM

Sebi amends MF norms to check front-running

PRESS TRUST OF INDIA
New Delhi, August 5

THE SECURITIES AND Exchange Board of India (Sebi) has amended mutual fund (MF) norms requiring asset management companies (AMCs) to put in place an institutional mechanism to identify and deter front-running and insider trading in securities.

This mechanism will consist of enhanced surveillance systems, internal control procedures, and escalation processes such that the overall mechanism is able to identify, monitor and address specific types of misconduct, including front-running, insider trading, misuse of sensitive information etc, the markets regulator said in a circular on Monday.

Additionally, the management of AMCs will be responsible for ensuring the effectiveness of the institutional mechanism. Also, the regulator has directed AMCs to have a whistleblower mechanism.

This came in the wake of Sebi passing two orders regarding front-running cases involving Axis AMC and Life Insurance Corporation of India.

In a separate gazette notification dated August 1, Sebi said, "Asset management companies shall put in place an institutional mechanism, as may be specified by the board, for the identification and deterrence of potential market abuse including front-running and fraudulent transactions in securities".

As per the circular, AMCs will develop and implement systems and procedures to generate and process alerts in a timely manner. During the processing of alerts, AMCs will consider and review all recorded communications including chats, emails, access logs of the dealing room and CCTV footage (if available). Also, they will maintain and monitor entry logs to the AMCs' premises.

Further, the chief executive officer or managing director (MD)or such other person of equivalent or analogous rank and chief compliance officer of the AMC will be responsible and accountable for the implementation of the institutional mechanism to deter potential market abuse.

AMCs will formulate written policies and procedures for conducting examination and taking action in case of potential market abuse including front-running and fraudulent transactions in securities by its employees and connected entities. Such policies will be approved by AMCs' board of directors.

Further, AMCs will have an escalation process to promptly inform its board of directors and trustees, regarding instances of potential market abuse, if any, and results of the examination conducted by them.

To this effect, Sebi has amended mutual fund rules, which will come into force from November 1.

For effective functioning of the institutional mechanism, stock exchanges and depositories will develop systems, in consultation with Association of Mutual Funds in India (Amfi), to enable data sharing with AMCs, Sebi said.

CURBING INSIDER TRADING

- Institutional mechanism to comprise enhanced surveillance systems, internal control procedures, and escalation processes
- Management of AMCs to be responsible for ensuring effectiveness of the mechanism
- Aimed at identifying, monitor and address specific types of misconduct, including front-running, insider trading, misuse of sensitive information

AT-1 bond valuation by MFs to be based on yield-to-call

Sebi on Monday said MFs will value additional tier 1 or AT-1 bonds based on a yield-to-call basis. Yield-to-call is the expected return an investor gets if they buy a bond and hold it until the issuer repurchases it on the call date, before maturity.

This came after the National Financial Reporting Authority (NFRA) recommended that AT-1 bonds be valued based on yield to call to align with market practices and Ind AS 113 principles. This recommendation applies only to the valuation of AT-1 bonds under Ind AS 113.

SBI's savings deposit share up 4% in 10 yrs

SACHIN KUMAR
Mumbai, August 5

PUBLIC SECTOR LENDER State Bank of India (SBI) has increased its share of savings deposits by 4% over the past 10 years. SBI's share in deposits has risen from 22% in 2014 to 26% as of June this year.

"Our savings account balance used to be about ₹12 trillion in March 2020. It has moved to about ₹17 trillion now. Our savings bank deposit as outstanding balances in savings bank accounts are three times of the next largest bank," SBI chairman Dinesh Khara said in an analyst call.

Deposits are growing slower than credit, posing a challenge for banks. Bank credit grew by 17.3% to reach ₹168.8 trillion for the fortnight ended June 28, while deposits rose by 11.1% to ₹212.9 trillion, RBI data showed.

"On the savings bank, our market share is 26.27%. In 2004, it used to be 20.2%. In 2014, it used to be 22.3%. So, we have always gained market share while others have lost," SBI MD, corporate banking and subsidiaries, Ashwani Kumar Tewari said.

Along with using its huge network, SBI is also leveraging digital channels such as the YONO app. "We are opening almost about 60,000 odd savings bank account daily, and of this about 40,000 are getting opened via YONO," Khara said.

The bank is not facing any challenge on the liquidity front, as it has excess statutory liquidity ratio (SLR) of about ₹3.7 trillion. "We don't have any liquidity challenge for the simple reason that we have got excess liquidity - excess SLR to that in about ₹3.7 trillion," he said.

On the net interest margin (NIM), the chairman said the bank is targeting to maintain margins at the current level. The NIM of SBI declined to 3.35% in the first quarter of the current fiscal from 3.47% in the same quarter of the previous financial year.

"As far as the guidance on the NIMs is concerned, our target is to maintain NIM at the current level. There may be a variation to the extent of not more than 10 basis point plus or minus," he said.

Of around 60,000 savings bank accounts being opened by the bank daily, around 40,000 are through the YONO app

RBI proposes new guidelines for managing model risks in credit

PRESS TRUST OF INDIA
Mumbai, August 5

THE RESERVE BANK on Monday proposed to lay down principles for management of model risks in credit for banks and other regulated entities with a view to ensuring prudence and robustness.

Regulated entities (REs) generally use various models as part of their credit management, including for credit appraisal, borrower scoring, pricing, and risk management, among others.

Inherently, model outputs are exposed to uncertainties as they are based on assumptions which may not manifest in the envisaged ways and may take different forms in a real-world scenario, the RBI said in a draft circular on 'Regulatory Principles for Management of Model Risks in Credit'.

This potentially exposes REs to model risk, which has implications on prudential aspects of credit risk management, compliance and reputational risk.

With a view to ensuring prudence and robustness in the use of such models, RBI proposed to lay down certain broad regulatory principles which should be adopted by REs.

"REs shall put in place a detailed Board approved policy with regard to model risk management framework for all models deployed, covering the entire model life cycle," the draft said.

The policy should cover details of governance and oversight aspects commensurate with model materiality; processes around model development or selection; and documentation for models deployed.

It should also cover independent vetting/ongoing validation or review processes; change control; and the monitoring and reporting framework including role of internal audit function.

'Credit risk model' refers to any quantitative method that applies statistical, economic, financial, or mathematical principles and assumptions to process data into an output to be used for credit decisions.

The models used by REs may either be developed internally or sourced from external third-party suppliers, including under collaborative lending arrangements, or can be a mix of both as per the provisions of the policy, the draft said.

"The objectives of the model, problem statements and solution sought from the model should be clearly defined and shall be essential pillars of model development," said the draft.

Further, the model should have the necessary scalability and flexibility to meet the needs of dynamic business conditions.

Each model should be validated before deployment as well as after any subsequent amendments owing to material events or as part of periodic reviews, which shall be at least on a yearly basis, the draft added.

The draft circular by RBI is aimed at ensuring prudence and robustness in use of such models

Coal India arm hosts summit in Singrauli

NORTHERN COALFIELDS, A flagship arm of Coal India, has organised the Singrauli industrial summit 2024. The event was aimed at fostering sustainable development of the Singrauli region.

Madhya Pradesh minister of state, panchayat and rural development Radha Singh was the chief guest at the event.

Other speakers emphasised the role of industries in the inclusive socio-economic and environmental development of the Singrauli region and provided suggestions for the overall development of the area.

Several representatives from the public and private sector, across coal, power and cement industries, were present on the occasion. NCL has paid ₹15,000 crore to Central and state exchequers.

Uniform timeline for bonus shares proposed

SEBI ON MONDAY proposed a uniform timeline to ensure timely credit and trading of bonus shares in a bid to streamline the process to enable T+2 trading of such shares after the record date. In its consultation paper, Sebi proposed that bonus issue of shares will be available for trading within two days (T+2) from the record date. Here, T stands for the record date.

The current ICDR (Issue of Capital and Disclosure Requirements) rules prescribe overall timelines regarding the implementation of the bonus issue. However, there is no specific timeline for credit of bonus shares and trading of such shares from the record date of the issue. "Thus, the absence of any specific guidelines on this aspect leads to non-uniformity with respect to timelines in which shares are credited and made available for trading in bonus issues," it said.

Currently, after a bonus issue, existing shares continue to trade under the same ISIN, and the new bonus shares are credited and available for trading within 2-7 working days post-record date. Therefore, to have uniformity in timelines for credit and trading of bonus shares, it is imperative that timelines are prescribed for credit and trading of bonus shares from the record date, ensuring bonus issue is implemented in a timely manner, Sebi said.

"Accordingly, to facilitate fast credit and trading of shares allotted pursuant to bonus issue and to reduce investors' risk of market volatility due to any delay in credit of bonus shares, it is proposed to streamline and reduce timelines of bonus issue enabling T+2 trading of shares post record date (T day)," it said. —PTI

World unites for a crash course

THE PAN-EUROPEAN Stoxx index fell more than 2% in early trades with every major market on the continent reporting a fall.

The rising US unemployment numbers prompted Goldman Sachs to say it expected the Federal Reserve to cut interest rates at its next three meetings — faster action than previously anticipated.

The US jobs report released on Friday showed unemployment at its highest in three years a sign that employers were hiring cautiously.

Back home, the Sensex and Nifty ended the day 2.7% lower at 78,759.40 points and 24,055.60 points, respectively. The 30-stock index, which closed 2,222.55 points lower, fell 2,686.09 points intraday to record its sixth-biggest decline in absolute terms. However, the damage in India was smaller than in other Asian markets such as Singapore, Malaysia, Taiwan, South Korea and Japan which lost anywhere between 4 and13%.

The damage in India was smaller than in other Asian markets such as Singapore, Malaysia, Taiwan, South Korea and Japan

Andrew Holland, CEO of Avendus Capital Alternate Strategy pointed out that in Asia, most of the damage is in Tokyo, Taiwan and South Korea. These are all linked to technology.

"This raises a question if it is just a tech sell-off rather than a broader economic issue?"

Holland said his concern on the carry trade was whether it could lead to any untoward event.

"The last time it happened back in 1998, we had a problem in Thailand. We don't know what is hidden under the carpet. We need to watch out for that because that would spook the market," Holland cautioned.

The broader markets fared poorly on Monday. The BSE Small Cap index suffered a sharp 4.2% fall while the BSE Midcap index plunged 3.6%. The volatility indicator India VIX skyrocketed 42% to register its biggest jump in 9 years.

All the sectoral indices ended lower on Monday, with the commodity, real estate, technology, and financial services being hit the hardest. However, shares of some fast-moving consumer goods companies stood out amid defensive buying.

UR Bhat, co-founder of Alphaniti Fintech observed that most domestic retail investors have entered the market during Covid. "So, they have not seen a bear market. This kind of correction can unsettle them," Bhat said.

"Whatever said and done, the markets were expensive, and they were going up because of the liquidity... In case we see another day or 2 like this, the confidence which was there with retail investors who would buy every dip, that would disappear," said Ambareesh Baliga, an independent market analyst.

Notes:

1. These standalone financial results have been prepared in accordance with Indian Accounting Standards ("Ind AS") prescribed under Section 133 of the Companies Act, 2013 read with the relevant rules thereunder and in terms of Regulation 33 of the SEBI ("Listing Obligations and Disclosure requirements") Regulations, 2015, as amended.
2. The Company is engaged in the manufacture and sale of products which form part of a single product group which represents one operating segment. As the Chief Operating Decision Maker ("CODM") reviews business performance at an overall group level, disclosure requirement under Ind AS 108 on "Operating Segment" is not applicable.
3. Performance of the plant in Reva Division, Bharuch of the Group is reported as a cost centre for products used captively for manufacture of Gelatin and profit centre for products sold to external customers (including Group Company). To comply with pollution control board guidelines, the Group needs to incur additional expense for manufacture of one of the products exported from the division. The management was not utilising the installed capacity in full due to the higher manufacturing cost as mentioned above and a provision for impairment amounting to ₹ 531.95 Lakhs was created during previous years based on impairment testing carried out then in the manner prescribed in Ind AS 36. Due to increase in manufacturing activity, the Group has started generating sustainable positive cash flows from these identifiable group of assets and accordingly, based on impairment testing carried out in the current quarter, an amount of ₹ 50.00 Lakhs has been reversed out of the above provision. The balance of impairment provision is ₹ 481.95 Lakhs as at 30 June 2024, which is carried in books is considered to be adequate.
4. The Company is carrying a provision of ₹ 16.36 Lakhs as on 30 June 2024 (₹ 72.53 Lakhs as on 31 March 2024) towards slow moving inventory of fish protein and peptide.
5. The financial performance of the company is dependent on quality / availability of crushed bone, its price and market demand of finished goods.
6. The Maharashtra State Pollution Control Board ("MPCB") vide their closure order dated 13 March 2024 had directed the subsidiary company, Bamni Proteins Limited ("the subsidiary") to stop the manufacturing activities at its factory in Bamni village, Chandrapur district, Maharashtra citing failure to comply with certain pollution control norms and conditions for the discharge of treated effluent by the unit as stipulated in the 'consent to operate' letter issued by them. The subsidiary had stopped its manufacturing activities upon receipt of closure order. The management of the subsidiary believes that it has complied with all applicable norms stipulated in the consent to operate letter and the same was communicated to MPCB. The management of subsidiary also requested MPCB for an in-principle approval to lay a pipeline for the discharge of treated effluent water to a nearby river which has been declined by the MPCB vide its letter dated 30 April 2024. In the absence of technically and economically viable solution for resuming operations of the subsidiary's manufacturing activities on a sustainable basis, the Board of Directors of the subsidiary in their meeting held on 9 May 2024 decided to permanently close the manufacturing unit/factory of the subsidiary by 25 July 2024. Accordingly, the Board of Directors of the subsidiary based on their assessment, had concluded that the subsidiary has ceased to be a going concern and the financial statements of the subsidiary were prepared on other than going concern basis, whereby, the assets are carried at lower of cost or estimated net realizable values and the liabilities are carried at their estimated settlement values. During the quarter ended 31 March 2024, current/non-current assets amounting to ₹ 98.24 Lakhs, capital work-in-progress amounting to ₹ 22.12 Lakhs and deferred tax assets (net) amounting to ₹ 32.29 Lakhs were written down in the financial statements of the subsidiary as the estimated net realisable values of these assets were lower than their respective carrying values as on 31 March 2024.
   The Company had recognised ₹ 337.58 Lakhs towards provision for employee benefits which includes notice period salary to administrative staff as per terms of employment and notice pay wages and retrenchment compensation to workers during the quarter ended 31 March 2024. The company is in the process of performing an evaluation of compliance with applicable laws and regulations, valuation of fixed assets and settlement of liabilities associated with the aforementioned matter.
7. Figures for the quarter ended 31 March 2024 are the balancing figures between audited figures for the full financial year and the reviewed year to date figures upto the third quarter of the financial year then ended.
8. The above standalone financial results have been reviewed by the Audit Committee and approved by the Board of Directors at their respective meetings held on 2 August 2024 and 4 August 2024.

2. NECESSITY FOR THE BUY-BACK

The Board at its meeting held on Saturday, August 3, 2024 considered the accumulated free reserves as well as the cash liquidity reflected in the latest available audited standalone and consolidated financial statements as on March 31, 2024, the Board proposed to Buy-back of up to 5,40,000 (Five Lakh Forty Thousand) fully paid-up Equity Shares of face value of ₹ 2/- each from the eligible shareholders of the Company and allocate up to ₹ 36,45,00,000/- (Rupees Thirty Six Crores Forty Five Lakhs Only) excluding the Transaction Costs, for distributing to the Eligible Shareholders through the Buyback which will help the Company to achieve the following objectives:

(i) The Buy-back will help the Company to return surplus cash to its shareholders holding Equity Shares, thereby, enhancing the overall return to shareholders;

(ii) The Buy-back, which is being implemented through the tender offer route as prescribed under the SEBI Buyback Regulations, would involve allocation of number of Equity Shares as per their entitlement or 15% of the number of Equity Shares to be bought back whichever is higher, reserved for the small shareholders. The Company believes that this reservation for small shareholders would benefit a large number of public shareholders, who would get classified as "small shareholder" as per Regulation 2(i)(n) of the SEBI Buyback Regulations;

(iii) The Buy-back may help in improving its return on equity, by reduction in the equity base, thereby leading to long term increase in shareholders' value; and

(iv) The Buy-back gives an option to the shareholders holding Equity Shares of the Company, who can choose to participate and get cash in lieu of Equity Shares to be accepted under the Buy-back offer or they may choose not to participate and enjoy a resultant increase in their percentage shareholding, post the Buyback offer, without additional investment.

Accordingly, the above proposed objectives could be achieved by returning part of the surplus cash back to shareholders through the Buy-back process and lead to reduction of outstanding Shares. Further, the Buy-back will not in any manner impair the ability of the Company to pursue growth opportunities or meet its cash requirements for business operations.

13. RECORD DATE AND SHAREHOLDER ENTITLEMENT

13.1. As required under the SEBI Buy-back Regulations, the Company has fixed Friday, August 16, 2024 as the Record Date (**"Record Date"**) for the purpose of determining the entitlement and the names of the Eligible Shareholders, who will be eligible to participate in the Buy-back.

13.2. As per the SEBI Buy-back Regulations and such other circulars or notifications, as may be applicable, the Eligible Shareholders as on the Record Date will receive a Letter of Offer along with a Tender Form including Form SH-4, as applicable, (**"Letter of Offer"**) indicating the entitlement of the Eligible Shareholder for participating in the Buy-back. Even if the Eligible Shareholder does not receive the Letter of Offer, the Eligible Shareholder may participate and tender Equity Shares in the Buy-back.

13.3. As required under the SEBI Buy-back Regulations, the dispatch of the Letter of Offer shall be through electronic mode only, within 2 (two) working days from the Record Date and that if any shareholder requires a physical copy of the Letter of Offer, a request must be sent to the Company or Registrar to the Buy-back i.e. Link Intime India Private Limited and the same shall be provided.

13.4. After dispatch of the Letter of Offer, the Company will publish an advertisement in all editions of an English national daily and all editions of a Hindi national daily, and Mumbai edition of a regional language Marathi daily to inform the Eligible Shareholders about the completion of dispatch of Letter of Offer. The dispatch advertisement will also include the link for shareholders to check their entitlement under the Buy-back.

13.5. The Equity Shares to be bought back as a part of the Buy-back is divided in two categories:

(a) reserved category for small shareholders (defined below); and

(b) general category for all other Eligible Shareholders.

13.6. As defined in Regulation 2(i)(n) of the SEBI Buy-back Regulations, a "Small Shareholder" is a shareholder of the Company who holds Equity Shares having market value, on the basis of closing price of such Equity Shares on Stock Exchanges as on Record Date, is not more than ₹ 2,00,000 (Rupees Two Lakh only).

13.7. In accordance with the proviso to Regulation 6 of the SEBI Buy-back Regulations, 15% (fifteen percent) of the number of Equity Shares which the Company proposes to Buy-back or number of Equity Shares entitled as per the shareholding of Small Shareholders as on the Record Date, whichever is higher, shall be reserved for the small shareholders as part of this Buy-back. The Company believes that this reservation for small shareholders would benefit a large number of public shareholders, who would get classified as "Small Shareholder".

13.8. Based on the shareholding on the Record Date, the Company will determine the entitlement of each eligible shareholder, including small shareholders, to tender their Equity Shares in the Buy-back. This entitlement for each eligible shareholder will be calculated based on the number of Equity Shares held by the respective shareholder as on the Record Date and the ratio of Buy-back applicable in the category to which such shareholder belongs. The final number of Equity Shares the Company will purchase from each Eligible Shareholder will be based on the total number of Equity Shares tendered. The Company shall accept all the Equity Shares validly tendered in the Buy-back by Eligible Shareholders, on the basis of their Buy-back Entitlement as on the Record Date. Accordingly, the Company may not purchase all of the Equity Shares tendered by the Eligible Shareholders in the Buy-back.

13.9. In accordance with Regulation 9(ix) of the SEBI Buy-back Regulations, in order to ensure that the same Eligible Shareholder with multiple demat accounts/ folios do not receive a higher entitlement under the Small Shareholder category, the Equity Shares held by such Eligible Shareholder with a common PAN shall be clubbed together for determining the category (Small Shareholder or General Category) and their entitlement under the Buy-back. In case of joint shareholding, the Equity Shares held in cases where the sequence of the PANs of the joint shareholders is identical shall be clubbed together. In case of Eligible Shareholders holding physical Equity Shares, where the sequence of PANs is identical and where the PANs of all joint shareholders are not available, the Registrar to the Buy-back will check the sequence of the names of the joint holders and club together the Equity Shares held in such cases where the sequence of the PANs and name of joint shareholders are identical. The shareholding of institutional investors like mutual funds, insurance companies, foreign institutional investors/ foreign portfolio investors etc. with common PAN are not proposed to be clubbed together for determining their entitlement and will be considered separately, where these Equity Shares are held for different schemes/ sub-accounts and have a different demat account nomenclature based on information prepared by the Registrar and Transfer Agent as per the shareholder records received from the Depositories. Further, the Equity Shares held under the category of "clearing members" or "corporate body margin account" or "corporate body-broker" as per the beneficial position data as on Record Date with common PAN are not proposed to be clubbed together for determining their entitlement and will be considered separately, where these Equity Shares are assumed to be held on behalf of clients.

13.10. After accepting the Equity Shares tendered on the basis of entitlement, the Equity Shares left to be bought back, if any, in one category shall first be accepted, in proportion to the Equity Shares tendered over and above their entitlement in the offer by Eligible Shareholders in that category, and thereafter from Eligible Shareholders who have tendered over and above their entitlement in the other category.

13.11. Shareholders' participation in Buy-back will be voluntary. Shareholders holding Equity Shares of the Company can choose to participate and receive cash in lieu of Equity Shares accepted under the Buy-back, or they may choose not to participate and enjoy a resultant increase in their percentage shareholding, after the completion of the Buy-back, without any additional investment. Shareholders holding Equity Shares of the Company may also accept a part of their entitlement. Shareholders holding Equity Shares of the Company also have the option of tendering additional shares (over and above their entitlement) and participate in the shortfall created due to non-participation of some other shareholders, if any.

13.12. If the Buy-back entitlement for any shareholder is not a round number, then the fractional entitlement shall be ignored for computation of entitlement to tender Equity Shares in the Buy-back.

13.13. The maximum tender under the Buy-back by any shareholder cannot exceed the number of Equity Shares held by the shareholder as on the Record Date. In case the Eligible Shareholder holds Equity Shares through multiple demat accounts, the tender through a demat account cannot exceed the number of Equity Shares held in that demat account.

13.14. The Equity Shares tendered as per the entitlement by Eligible Shareholders as well as additional Equity Shares tendered, if any, will be accepted as per the procedure laid down in SEBI Buy-back Regulations. The settlement of the tenders under the Buy-back will be done using the Stock Exchange Mechanism notified by SEBI vide the SEBI Circulars.

13.15. The Buy-back from shareholders who are persons resident outside India, including the foreign portfolio investors, erstwhile overseas corporate bodies and non-resident Indian, etc., shall be subject to such approvals, if any and to the extent required from the concerned authorities including approvals from the Reserve Bank of India under Foreign Exchange Management Act, 1999, as amended, and the rules and regulations framed there under, and such approvals shall be required to be taken by such non-resident shareholders themselves.

13.16. Detailed instructions for participation in the Buy-back (tender of Equity Shares in the Buy-back) as well as the relevant timetable will be included in the Letter of Offer which will be sent through email along with the tender form in due course to the shareholders holding Equity Shares of the Company as on the Record Date, who have their email IDs registered with the Company/Registrar and Transfer Agent to the Company/ Depository. However, on receipt of a request by the Company/ Manager to the Buy-back or Registrar to the Buy-back to receive a copy of Letter of Offer in physical format from such Shareholder (to whom Letter of Offer and tender form were emailed), the same will be sent physically.

Premium play: IndiGo to introduce business class

To be offered on 12 domestic routes, starting Nov 14

FE BUREAU
New Delhi, August 5

AFTER SUCCESSFULLY RUNNING low-cost services for 18 years, IndiGo on Monday said it will introduce business class seats in select flights on 12 domestic routes, starting from November 14.

The airline also launched a customer loyalty programme, and is preparing to have wide-body A350 planes in 2027. These are part of the airline's measures to expand its business and strengthen its global presence. IndiGo CEO Pieter Elbers said the business class seats will be open for booking from August 6 and the business class passengers will be offered special, curated meals, which will be catered by Oberoi Hotels.

There will be a total of 12 seats in the configuration of 4 seats in 3 rows in the A321neo planes. These aircraft will have a total of 220 seats — 12 business and 208 economy class ones.

The introductory one-way fare for a business class seat will be starting at ₹18,018. Elbers said the business class seats will be available on the busiest and business routes, and will be started with Delhi-Mumbai flights. Currently, Tata Group-owned Air India, Air India Express and Vistara offer business class seats. The business class fare by these carriers on a Delhi-Mumbai route is around ₹25,000.

IndiGo has a domestic market share of nearly 61% and around 975 planes on order. At the end of June, the airline had 382 planes and operates over 2,000 flights daily, connecting more than 120 destinations.

The airline's customer loyalty programme, IndiGo BluChip, will go live in September. IndiGo is describing its business product as IndiGoStretch. "A total of 45 shipsets have been ordered to meet this upgrade, with each A321neo aircraft featuring 12 business class seats and 208 economy class seats. Aircraft deliveries are scheduled to begin in Q4 of the current fiscal, and all business class installations are expected to be completed by the end of 2025," the airline said in a statement.

About IndiGo BluChip, the airline said as part of the next phase of growth towards becoming a global aviation player, it is time to recognise and reward most frequent flyers through the new loyalty programme.

Pre-registrations started on Monday and the programme will go live in September. Elbers said the airline will launch flights to seven more international destinations in the current fiscal.

Currently, IndiGo operates more than 2,000 flights daily and flies to around 120 destinations, including 33 overseas cities. The 34th foreign destination will be Jaffna in Sri Lanka. The carrier will be getting A321 XLR planes in 2025 and wide-body A350 aircraft in 2027.

STRENGTHENING GLOBAL PRESENCE

- Customer loyalty programme launched; airline also preparing to have wide-body A350 planes in 2027
- Business class seats to be open for booking from today; passengers to be offered special meals catered by Oberoi Hotels
- Introductory one-way fare for a business class seat to start at ₹18,018
- IndiGo BluChip, the customer loyalty programme, to go live in September

INDIA OF TODAY IS DIFFERENT FROM INDIA 18 YEARS AGO... THE ASPIRATIONS OF PASSENGERS HAVE EVOLVED

IndiGo and I are here to stay: Bhatia

INDIGO CO-FOUNDER AND managing director Rahul Bhatia on Monday said he and InterGlobe Enterprises are here to stay, saying that the recent stake sale was to raise funds for business and general corporate purposes.

Bhatia's remarks come against the backdrop of concerns in certain quarters about a promoter entity selling stake amid ambitious expansion plans of the airline.

In June, InterGlobe Enterprises sold 7.72 million shares, representing around 2% of the total share capital of InterGlobe Aviation, the parent of IndiGo.

Speaking at an event to mark 18 years of flying of IndiGo, an emotional Bhatia told the gathering the stake was sold to raise funds for business and general corporate purposes.

"It (the stake sale) is no more complex than that... InterGlobe and I are here to stay," Bhatia said.

Away from war, Team Ukraine wins battle on field, and more

MIHIR VASAVDA
Paris, August 5

Ukranian athlete Yaroslava Mahuchikh (front) celebrates after winning the gold medal, with bronze medallist and compatriot Iryna Gerashchenko REUTERS

YAROSLAVA MAHUCHIKH'S TRADEMARK yellow-and-blue eyeliner, the colours of the Ukrainian flag she has draped herself in, sparkle under the bright lights of the Stade de France. The high jump gold medallist, who broke a 37-year-old world record last month, hugs compatriot Iryna Gerashchenko, the bronze winner.

At the other end of the field, Mykhaylo Kohkan, part of Ukraine's National Guard (its military force), watches his compatriots run a lap of honour. The hammer-thrower hopes he too can join them, his event isn't over yet. "(I) had prayed to God, 'Can I please stay in the medals?'," he would say later.

"I thought it would be very nice if I get the medal also, and we could celebrate together on this magical Olympic evening."

Kohkan's effort of 79.39 metres gets him the bronze. Gerashchenko, who, like Kohkan, had finished fourth at the Tokyo Olympics grins. "We did it! We are happy today!"

Inside this Parisian coliseum, the trio is painting a picture of resilience. It's Ukraine's finest hour at the Paris Olympics, winning three medals including a gold. On X, the war-ravaged country's president Volodymyr Zelenskyy showers praise on the trio: "We are very proud! Thank you for this result... Ukrainians know how to be strong and how to win."

At the stadium, the Ukrainians exit the ground to let the 100m sprinters take centre stage and walk into a dull, cramped room where reporters from close to two dozen countries surround them. Kohkan has an easy smile and oozes natural charm. But a crease appears on his forehead when asked if he'll have to join the battlefront now that the Olympics are over. "I don't know," he mutters.

Next to him, Geraschchenko breaks down, fearing for her friends and family. "I have many friends who are fighting now, and who died. It is very hard. They are very strong... This medal is for them. I can be here because they are at the front-line," she says.

In a quavering voice, Mahuchikh calls the moment "incredible", given the circumstances. "In my country, the Russians killed people and almost 500 sportsmen died in this war... they will never compete and celebrate and feel this atmosphere."

On the "biggest night" of her life, Mahuchikh's mind constantly goes back to the well-being of her family in Dnipro, her hometown. Home to military hospitals and rocket factories, Ukraine's industrial hub has been a regular target since the beginning of Russia's invasion in February 2022.

"Unfortunately, even at an Olympic Games, the war goes on," Mahuchikh says. "We've had a lot of alarms and explosions in my region. It's really tough for us, but we're fighting on every field. We do our best."

To put it mildly, doing their best hasn't been easy. Among the countries that were once a part of the Soviet bloc, Ukraine has been the best performer at the Olympics after Russia. When they left their homes, paused their lives and started afresh at new bases in new countries, these athletes wondered if Ukraine's sporting fortunes would dip.

It hasn't, at least given the situation. As of Monday afternoon, Ukraine, represented here by 142 athletes, has six medals, including two gold, the second won in fencing. Every medal and every medallist, though, has a story to tell.

Since the war began, hundreds of sports facilities across Ukraine have been destroyed. In Mariupol, the port city that's now occupied by Russia, an aquatic centre was bombed, forcing diver Stanislav Oliferchyk to alter his training plans.

Global firms lease 53 mn sq ft office space: Report

PRESS TRUST OF INDIA
New Delhi, August 5

LEADING GLOBAL FIRMS have taken on lease nearly 53 million square feet of office space since 2022 across six major cities to set up Global Capability Centres (GCCs) with maximum demand in Bengaluru, according to CBRE and Zyoin.

In their joint report, property consultant CBRE and hiring solutions firm Zyoin highlighted that GCCs have significantly amplified their Indian operations over recent decades, propelled by a skilled workforce, cost efficiency, and a conducive business climate.

This GCC growth trajectory is anticipated to be concentrated in India's top six metropolitan areas, driven by their exceptional talent pools, enabling expansion and future development.

"Global corporations are affirming their long-term commitment to India by securing larger office spaces for their GCCs," the consultant said.

Nearly 53 million square feet of office space was leased by GCCs between 2022 and the first half of 2024 across Bengaluru, Hyderabad, Chennai, Pune, Delhi-NCR and Mumbai.

Out of these six cities, the share of Bengaluru in the total leasing for GCCs stood at 40%, followed by Hyderabad at 21% and Chennai at 14%.

2. NECESSITY FOR THE BUYBACK

Buyback is the purchase of its own Equity Shares by the Company. The objective is to maximize returns to investors, to reduce total number of shares and enhance overall shareholders' value by returning cash to shareholders in an efficient and investor-friendly manner. The Board of Directors of the Company at its meeting held on August 02, 2024 considered the accumulated Free Reserves as well as cash liquidity reflected in the audited financial statements as at and for the period ended March 31, 2024 and benefits to the members holding Equity Shares of the Company and decided to allocate a sum of Rs. 100 crores (Rupees One Hundred Crore Only) (representing 8.04% and 8.04% of the aggregate of the Company's paid up equity share capital and free reserves (including securities premium) as per the latest Audited Standalone and Consolidated Financial Statement of the Company, respectively, as at and for the period ended March 31, 2024), excluding expenses incurred or to be incurred for the Buyback like filing fees payable to the SEBI, merchant banker fees, stock exchange fee for usage of their platform for Buyback, transaction costs viz. brokerage, applicable taxes inter- alia including tax on distributed income to shareholders, Securities Transaction Tax, Goods and Services Tax, Stamp duty, etc., public announcement publication expenses, printing and dispatch expenses and other incidental and related expenses, which is within the maximum amount as aforesaid, for returning to the members holding Equity shares through Buyback.

The Company's management strives to increase Shareholder's value and the Buyback would result in, amongst other things:

1. The Buyback will help the Company to return surplus cash to its shareholders holding Equity Shares broadly in proportion to their shareholding, thereby enhancing the overall return to shareholders;
2. The Buyback, which is being implemented through the tender offer route as prescribed under the SEBI Buyback Regulations, would involve allocation of number of shares as per their entitlement or 15% of the number of shares to be bought back whichever is higher, reserved for the small shareholders. The Company believes that this reservation for small shareholders would benefit a large number of public shareholders, who would get classified as "Small Shareholder" as per Regulation 2(i)(n) of the SEBI Buyback Regulations;
3. The Buyback may help in improving return on equity, by reduction in the equity base, thereby leading to long term increase in shareholders' value;
4. The Buyback gives an option to the Shareholders holding Equity Shares of the Company, who can choose to participate and get cash in lieu of Equity Shares to be accepted under the Buyback offer or they may choose not to participate and enjoy a resultant increase in their percentage shareholding, post the Buyback offer, without additional investment.
5. Optimizes the capital structure.
