Centre sounds out sovereign funds for Vi stake dilution

WITH VODAFONE IDEA infusing ₹20,000 crore via a follow-on public offering and equity contribution by one of the promoter entity, Aditya Birla Group, the government is now exploring whether sovereign wealth funds would be interested in picking up its stake in the company.

Sources said that since the promoter group has shown sufficient interest in raising funds and running the company, and the government is fully backing the efforts, it makes sense for sovereign wealth funds to acquire Centre's current 23.15% stake in the company.

Abu Dhabi Investment Authority, Qatar Investment Authority and Singapore's Temasek are some of the funds which have been sounded out, sources said, adding that the efforts are at a very initial stage.

"Since the government and the company have displayed more than sufficient intent that Vodafone Idea is a long-term telecom player and the country will have three strong players in the sector, investment by such funds will be profitable," sources said.

The funds have been assured that post the current moratorium, which ends in September 2025, the government will extend all possible help – like further deferral of payments such as adjusted gross revenue (AGR) dues – so that the company's business case becomes viable. This assurance is significant because once the moratorium on payment of AGR and spectrum dues ends, the company will need to pay ₹29,100 crore by the end of March 2026 to the government and ₹43,000 crore annually from FY27 onwards till FY31.

FM: LTCG tax on realty revenue-neutral now

FE BUREAU
New Delhi, August 7

THANKS TO THE AMENDMENTS added to the Finance Bill 2024 before it was passed by the Lok Sabha on Wednesday, the new regime for taxation of long-term capital gains (LTCG) from property transactions won't result in any additional burden on the taxpayers, finance minister Nirmala Sitharaman said on Wednesday.

The government eased the LTCG tax regime for sale of properties proposed in the Budget 2024-25 by allowing the taxpayer to select between two options – 12.5% without indexation and 20% with it – to lower the outgo, in regard to transfer of properties acquired before July 23, 2024.

Sitharaman also clarified that the rollover benefit will be available to taxpayers who buy new immovable property utilising the capital gains on the sale of old property. Post the Budget announcement, a number of "hypothetical cases" were cited, which depicted an increase in tax-burden for such transactions, said the minister. "The current amendment ensures that even in such hypothetical cases, there will be no additional tax burden," she said, while adding the government doesn't intend to gain any additional revenue from capital gains tax rate changes for real estate.

No relief for NRIs

LONG-TERM CAPITAL gains from unlisted shares held by non-residents will now be taxed at 12.5% without indexation or any benefit for exchange rate fluctuations, reports **Priyansh Verma**. The Finance Bill 2024 was modified to make this clear. The initial version of the Bill was silent on forex gains. This led to an interpretation that while the tax rate was raised from 10% to 12.5% in the Budget 2024-25, the forex gains could now be deducted while computing the capital appreciation. The finance ministry's move to clarify this would mean that the omission was inadvertent. ■ PAGE 2

Bank liquidity surplus tops ₹2.5 trillion

SACHIN KUMAR
Mumbai, August 7

THE LIQUIDITY IN the banking system has crossed the ₹2.5-trillion mark, driven by an increase in government spending. The liquidity surplus hit ₹2.78 trillion on August 6, prompting the Reserve Bank of India (RBI) to conduct multiple variable rate reverse repo (VRRR) auctions to absorb the excess liquidity.

"Prolonged tightness in the banking system liquidity seems to have eased starting second quarter. This will provide the necessary breathing space to the banking system and money market in the second quarter," said Soumyajit Niyogi, director, core analytical group, India Ratings and Research. "Sustenance of the easy liquidity condition depends upon the government spending pattern and base money creation," he said.

The second quarter will remain in the moderate surplus mode on an average basis and the government spending pattern will be the key to ensure easing of liquidity on a sustainable basis, especially third quarter onwards, he added.

IN SYNC WITH GOVT'S TARGET TO ACHIEVE ENERGY SECURITY

Private firms mull thermal capacity addition to keep pace with demand

RAGHAVENDRA KAMATH
Mumbai, August 7

AS THE GOVERNMENT looks at thermal power actively to mitigate the rising demand, private sector companies such as Adani Power, JSW Energy and Tata Power are looking at adding thermal capacities and launching new projects.

Interestingly, some companies like Tata Power and JSW Energy, who have renewable energy as the main focus of their business, are now looking at the opportunities in thermal energy space. The Adani Group is also looking at adding new thermal capacities.

Power companies refocusing on thermal capacity is not without a reason. The Union government is looking at over 80 gigawatt of new capacity additions in thermal by 2032 to meet the growing electricity demand. In the Union Budget, the FM proposed new thermal plants to be set up in the country to augment power supply.

The All India thermal PLF (plant load factor) has improved to 76.4% in Q1FY25 as compared to 70% in the corresponding quarter last year driven by 6% growth in demand.

THERMAL BOOSTER

- The government is looking at over 80 gigawatt of new thermal capacity addition by 2032
- Adani Power, India's largest private thermal power producer, is looking to double its capacity from 15GW now to 30GW by 2030

- Tata Power, which was not keen on adding new capacities in thermal energy, will look at new projects depending on the opportunities and returns
- JSW Energy is also looking at adding greenfield capacity

The 2023-24 Economic Survey stated India will target a diversified set of sources for energy security with a significant place for thermal power, including coal, to minimise risks associated with systems while pursuing low-emission pathways in line with national commitments.

Adani Power, India's largest private thermal power producer, is looking to double its capacity from 15GW now to 30GW by 2030, chief executive S B Khyalia said in a Q1 earnings call with analysts recently.

The company acquired Lanco Amarkantak Power in Chhattisgarh, which has a total capacity of 1.93 GW. The acquisition of Coastal Energen (1.2 GW capacity) is underway. It is also looking at further acquisitions worth 1.1 GW capacity, it said in a presentation. Adani Power is exploring bids worth 6,400 MW by states, including Uttar Pradesh, Rajasthan, Khyalia said.

FINANCE BILL CLEARS STAND

No forex-related LTCG tax benefit for non-residents

PRIYANSH VERMA
New Delhi, August 7

THE GOVERNMENT HAS clarified that non-resident taxpayers will not get benefit for exchange rate fluctuations while paying the new 12.5% long-term capital gains (LTCG) tax on the sale of unlisted shares. This clarification has been made in the Finance Bill-2024 before it was passed by the Lok Sabha on Wednesday. The Bill was silent on the matter initially, creating a confusion.

Prior to the Budget, the LTCG tax payable by non-residents on unlisted shares were 10%, without indexation or any relief for gains arising out of foreign exchange fluctuations. The clarification effectively means that capital gains due to foreign exchange fluctuation shall also be taxed in the hands of non-resident at 12.5%.

Gouri Puri, partner, Shardul Amarchand Mangaldas & Co, said that neutralisation of foreign exchange fluctuation benefit was in any case not available to non-residents on the sale of unlisted shares, which was taxed at 10% pre-amendment. "It seems that the Finance Bill had inadvertently missed mentioning this, even as the rate was increased to 12.5%," she said. Capital gains for non-residents are calculated by converting the amount of sale consideration into the foreign currency used at the time of purchase.

Thus, it's required to compute capital gains in foreign currency. "With this (clarification), both residents and non-residents have been made at par," said Amit Maheshwari, tax partner, AKM Global.

Additional customs duties: More teeth to recovery mechanism

PRIYANSH VERMA
New Delhi, August 7

THE CENTRE VIA amendments to the Finance Bill has made several provisions of the Customs Act applicable on other duties levied on import of goods such as countervailing duty (CVD), IGST and GST compensation cess. This is being done to ensure traders pay interest and penalty on non-payment of additional import duties in all cases, which wasn't the case earlier, say experts.

These duties — covered under the Customs Tariff Act, 1975 — are levied on many imported goods in addition to the basic customs duty. In certain judicial precedents, the levy of interest and penalty on additional duties had been set aside on the grounds

These duties are levied on many goods in addition to basic customs duty

that there was no enabling provision under the customs law to recover the same for non-payment or delayed payment of duties. This argument will no longer be available to traders, experts say. The amendments to the Finance Bill ensure that all aspects of the Customs Act relating to the determination of the rate of duty, "assessment, non-levy, short-levy, refunds, exemptions, interest, recovery, appeals, offences, and penalties" are applicable to such additional duties.

Similar amendments have been proposed to the Central Excise Tariff Act, 1985 to make sure the provisions of the Central Excise Act, 1944 are applicable to additional duties such as national calamity contingent duty, special additional excise duty, road and infrastructure cess, agriculture infrastructure and development cess. Yogesh Kale, executive director, Nangia Andersen, said the amendments seek to create "sufficient machinery provisions" regarding levy and recovery of additional duties. Jitendra Motwani, partner, Economic Laws Practice, said it is a settled position in law that substantive provisions are to be applied prospectively unless there is an express intention to apply them retrospectively. "It would be interesting to see the view that will be taken by the revenue authorities with regards to this," he added.

BIMSTEC: India seeks preferential trade agreement

FE BUREAU
New Delhi, August 7

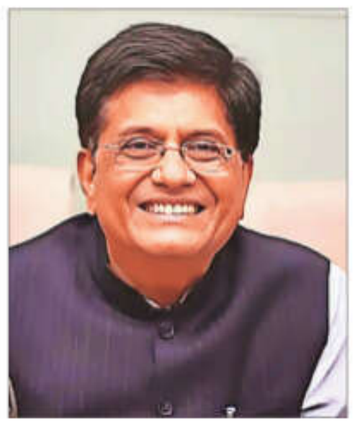

AS TALKS ON a free-trade agreement between members of the Bay of Bengal Initiative for Multi-Sectoral Technical and Economic Cooperation (BIMSTEC) are going on for long, India has proposed a preferential trade agreement (PTA) with them to foster intra-regional trade.

The idea of a PTA was proposed by commerce and industry minister Piyush Goyal at the BIMSTEC Business Summit, organised by industry body CII and the ministry of external affairs, here on Wednesday. "Maybe, we can begin with a PTA (preferential trade agreement) if not a full-blown FTA...But let's examine the realistic possibility and move forward on a fast-track basis," he said.

BIMSTEC is a grouping of countries in South Asia and SouthEast Asia. Its members are Bangladesh, India, Myanmar, Sri Lanka, Thailand, Bhutan and Nepal. The framework agreement on the BIMSTEC FTA was signed way back in 2004 and since then 22 rounds of negotiations have been held without results.

BIMSTEC members should re-examine the priorities of member nations with regards to trade negotiations so that the delayed FTA can be finalised, Goyal said. There is a need to reassess the reasons behind the delay in the FTA and the members need to come up with a set of cogent recommendations that are acceptable to all seven countries, he added.

Goyal called upon the members to introspect on their current trading relations, noting that trade among them is small. He said there should be a focus on reducing trade deficit, strengthening of trade facilitation

Commerce and industry minister Piyush Goyal urged the member-countries to introspect on their current trading relations

measures to strengthen partnership in e-commerce, digital public infrastructure and better integration of custom borders with the aid of technology. The minister noted that there is a need for computerisation of border controls, faster clearances of the import-export online application processes which will help in ease of doing business.

India's total trade with BIMSTEC countries amounted to $ 44.32 billion in 2023-24. Thailand was India's largest trading partner within the bloc, with exports worth $5.04 billion and imports at $9.91 billion. Bangladesh followed, with exports of $11.06 billion and imports of $1.84 billion. Goyal said, "We are all deeply concerned about the evolving situation...and we wish the people of Bangladesh well and we will convey our best wishes for a smooth transition and bright future for the people of Bangladesh."

Joshi to fintech: Work together with banks

FE BUREAU
New Delhi, August 7

FINTECH UNITS SHOULD work in close coordination with banks to provide "scalable and regulatory-compliant solutions," financial services secretary Vivek Joshi said on Wednesday. It is equally important to ensure that innovation does not outpace the necessary safeguards, he said at the FICCI-IBA PICUP Fintech Conference.

Vivek Joshi, financial services secretary

"I would urge fintechs to work hand in hand with banks, rather than creating a solution themselves and then approaching banks...because banks, especially public sector banks, deal with the very large, bigger issues," Joshi said. It would be more appropriate that banks suggest the problem and the fintech ecosystem provides solutions, he said.

"Since you (fintechs) are not working hand in hand with banks, a lot of information about the kind of challenges the banking system is facing may be limited...Many of the banks have started empanelling startups. Therefore, the idea is to give them the problems and then ask for a solution that would be very great," he said.

Onion-laden trucks enter restive Bangladesh after two-day halt

SANDIP DAS
New Delhi, August 7

BANGLADESH-BOUND TRUCKS CARRYING more than 4,500 tonne of onion from Maharashtra and Madhya Pradesh, which were stuck at the Petrapole land port on the Bangladesh border in West Bengal since Monday, are now being allowed to enter the neighbouring country, exporters said.

However, on new consignments to Bangladesh, the traders are cautious and have decided to wait till the situation in the country improves.

"In the last couple of weeks since the protest erupted in Bangladesh, there have been disruptions in the

cross-border trade," a leading exporter of onion told *FE*, adding that for the new export orders there will be a delay in execution. "Till situation stabilises, we will definitely be cautious in executing export orders," another exporter said.

Official sources said till July 31, 0.26 million tonne (MT) of onion has been exported in the current fiscal, out of which a major chunk is shipped to Bangladesh. In FY24, out of the total 1.6 MT of onion exports, Bangladesh had a share of 45%.

Exporters have said that Bangladesh was one of the few countries where onion shipment continued after the government lifted the ban on exports in May. The government had lifted the ban on onion exports imposed in December last year. However, it imposed a minimum export price of $550 per tonne and an additional 40% export duty.

In addition, India exports several commodities including chillies, grapes, oranges, wheat, cotton and pulses to Bangladesh.

Imports from Japan to turn more expensive

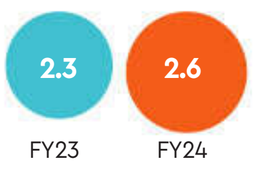

INDIA BEING A NET importer of merchandise from Japan is likely to see its imports from that country turning costlier, thanks to an appreciating yen, say economists. On Wednesday, rupee ended at 83.95 against the US dollar, three paise lower than its previous closing level. "Unwinding of carry trade will reduce the overvaluation in the rupee against its trading partners," says Gaura Sengupta, chief economist, IDFC FIRST Bank.

Domestic steel prices plunge to 45-month low

SURYA SARATHI RAY
New Delhi, August 7

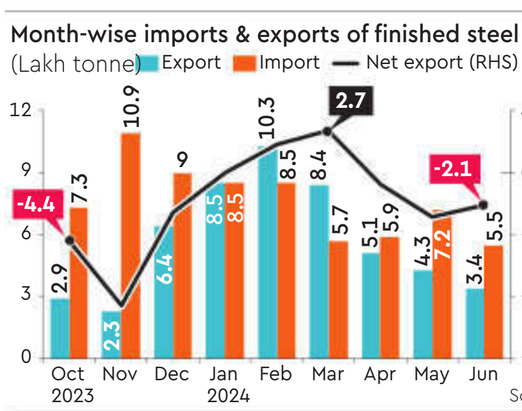

DOMESTIC STEEL PRICES have tumbled to a 45-month low despite strong consumption, as falling exports and rising imports boosted supplies. The subdued prices, if not corrected, might derail India's ambition to have 300 million tonne per annum (mtpa) steel-making capacity by 2030, as the margins of major manufacturers could come under pressure, industry executives say.

Lower steel prices, however, may help combat inflation, as the alloy is a key industrial raw material. Data compiled by rating agency Icra showed that at ₹51,200 a tonne, the August (ex-works) price of the benchmark hot rolled coil (HRC) was at its lowest since November 2020, when it was ₹45,975 a tonne in the Mumbai market. TV Narendran, CEO and MD, Tata Steel, said, "These prices aren't sustainable. We expect the trend to reverse in the next few weeks."

"Indian steel prices have fallen to their lowest levels in over three years, largely due to shifts in the global market. A notable slowdown in China's economy has triggered a correction in global steel prices, with Chinese export prices dropping to a four-year low. This decline has led to a surge in HRC imports from Vietnam and China into India," said Dhruv Goel, CEO, BigMint.

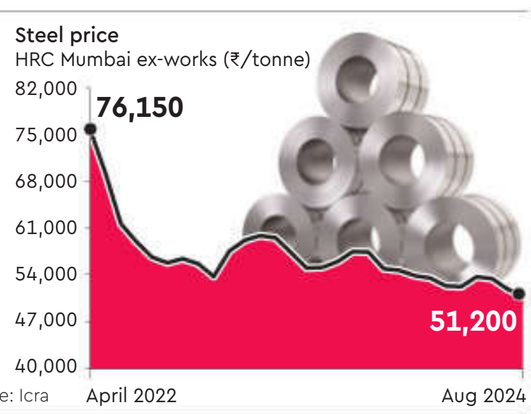

Furthermore, the increased presence of Chinese steel in the international market — Chinese exports

Month-wise imports & exports of finished steel

Steel price

HRC Mumbai ex-works (₹/tonne)

have risen by approximately 20% year-on-year (y-o-y) from January to July 2024 — has rendered Indian steel exports uncompetitive in various regions, resulting in a significant drop in export volumes. The interplay of rising imports and falling exports has affected pricing dynamics within the Indian industry, he added.

Domestically, the situation is compounded by an influx of additional supplies from major producers such as JSPL and NMDC, aggravating the supply-demand imbalance. This surplus, combined with the global factors at play, has exerted substantial downward pressure on steel prices in India, creating a challenging landscape for the industry.

It's worth noting that just three years ago, mills enjoyed better margins, even when coking coal prices were around $100 per tonne, compared to the current price of $250.

In a results call with analysts, JSW Steel joint managing director and CEO Jayant Acharya said, "The Indian steel imports in Q1 were up by 27% y-o-y, while the numbers were lower q-o-q (quarter-on-quarter). But elevated exports from China continue to be a concern. The Chinese production continues to remain higher. Domestic demand is still softer and therefore the excess is flowing out to the world. Many countries have put barriers to such surplus steel coming into their countries. India is a soft target, and we do not have any kind of trade measures in place... Imports from other FTA countries have also gone up by 43%, raising our concerns for trade diversions into India."

Analysts see no stopping of the trend shortly unless India clamps down on "predatory imports", particularly from China. Significant imports from free trade countries — Japan and South Korea — are also limiting domestic companies' capacity to increase prices.

According to steel ministry data, China contributed 30.5% of India's total imports during the April-June period, compared with 28.4% a year ago. Japan's share rose to 26.9%, compared to 12.7%, while South Korea's share fell to 27.5% from 35.5% a year ago. India remained a net importer during the April-June period of the current financial year, following the trend that started in August of FY23, barring aberrations in February and March of FY23.

Analysts cited four primary reasons for the worsening steel trade balance — weak global demand due mainly to tightening monetary policies and geopolitical shocks; a slowdown in the Chinese economy, particularly its real estate sector; low-priced imports from steel-surplus countries; and a robust growth in India's domestic market that was supporting elevated domestic prices and reduced exports.

In FY24, India's finished steel consumption grew 13.4% over FY23 to stand at 136 MT. However, finished steel production grew 12.4% to 139 MT. India was a net exporter of steel for an extended period. However, the trend took a U-turn, and India became a net importer of steel last fiscal year when its imports exceeded its exports by 0.83 MT. In FY23, India's exports exceeded imports by 0.7 MT. In FY24, imports grew 38%, while exports rose 11.5% over FY23. Domestic firms also allege that the Indian steel sector is subjected to structural disadvantage due to various embedded taxes, duties and levies. Instead, a financially-strong country like China gives a variety of subsidies to its steel industry. India remains vulnerable due to its inability to counter subsidies due to the prevailing archaic Lesser Duty Rule in its anti-dumping investigations. In the Lesser Duty Rule, duty is imposed to the extent of dumping margin or injury margin, whichever is lower.

Ranjan Dhar, Director and VP (sales & marketing) at AM/NS India, said, "We are proactively reaching out to the government to initiate urgent measures to protect the industry from imports. Unbridled imports will not only derail the government agenda to create employment but also the Atmanirbhar Bharat vision."

The Union Budget presented by the Hon'ble Finance Minister, Smt Nirmala Sitharaman, commendably focusses on unleashing inclusive growth with macro-economic stability.

ITC has, over decades, lived by its abiding vision to create larger value for its stakeholders and serve national priorities. This pledge, enshrined in our credo of Nation First: *Sab Saath Badhein*, is manifest in multidimensional endeavours. ITC's triple bottom line approach, driven by its abiding philosophy of 'Responsible Competitiveness' assumes even more relevance in the current socio-economic context.

A Resurgent India Amidst Global Challenges

We live today in a world that is traversing through a perfect storm of geopolitical tensions, climate emergency, cost of living crisis, food and nutrition security concerns as well as inadequate livelihood opportunities. Amidst these adversities, rapid technological advancements including AI are redefining the future. Although the evolving risks are daunting, challenges also ignite new opportunities to shape a stronger, secure, resilient and a promising tomorrow.

In such a turbulent world, India has emerged as an inspiring lighthouse of growth. The stand-out performance, as the world's fastest growing major economy with a consistent 7%+ GDP growth rate over the last few years, has not only evoked global respect but also points to its future promise.

Undoubtedly, India's economic transformation is testimony to the Government's far-sighted policies and astute economic management. Sustained public expenditure in physical, digital, agri and rural infrastructure, combined with sharp execution, is fuelling a virtuous cycle of consumption, investment and employment.

The rise of Aspirational India will also spur consumption-led growth. Estimates suggest that the country's consumer market will more than double to over US$ 5.2 trillion by 2031. Analysts project that India's per capita GDP is likely to touch the inflexion point of US$ 4,000 by 2030, fuelling larger domestic consumption and driving higher growth.

This is truly India's moment in history. Mega opportunities are today emerging from the diversification in global supply chains, the all-pervasive digital revolution, and the urgent need for a green transition. The synergy of India's large market, favourable demographics, rising disposable incomes, technological prowess and vibrant entrepreneurship will continue to power growth in the foreseeable future. While purposeful policies can accelerate the pursuit of these unbounded opportunities, we deeply believe that enterprises rooted in India, as economic organs of society, can play a vital role in partnering the nation in the promising journey ahead.

Role of Indian Enterprise

To my mind, exemplary enterprises contribute to nation building by not only making uncompromising efforts to be globally competitive but also by embedding larger societal value creation at the core of corporate strategy. Stakeholder value through 'purposeful performance' is indeed the bedrock on which progressive enterprises will be built in the future. A nation's competitiveness gets enhanced when world-class national brands are assiduously built to retain larger value in the country whilst serving domestic and global markets. Further, investments in state-of-the-art assets, cutting-edge R&D and social infrastructure build competitive capacity for nations. Business models that integrate the creation of environmental capital and large-scale sustainable livelihoods enrich a nation's resources and the social fabric, contributing to a more secure and resilient future. Focussed action to shape brands with purpose, promote diversity & inclusion and build capabilities of local communities strengthen society in more ways than one.

Accelerating Livelihood Generation

It is universally acknowledged that India's favourable demographics constitutes one of its greatest strengths. More than a billion people, comprising nearly 70% of the population, will be of working age by 2030. Over the next decade, almost a quarter of the incremental global workforce will be from India. This powerhouse of productive human capital is unquestionably a source of unique competitive advantage as well as a formidable driver of consumption.

The journey of economic transformation with purposeful interventions has set in place a virtuous cycle of investment and employment creating quality jobs. The impressive growth of Global Capability Centres re-affirms India's rising stature as a workplace for the world. The Budget 2024 has also announced multidimensional programmes to boost skilling and employment, strengthen MSMEs as well as provide impetus to labour-intensive sectors. The ONDC platform set up recently can also lend new wings to micro and small enterprises akin to the UPI's remarkable impact on financial transactions.

ITC: Supporting Livelihoods

ITC's deep engagements in agriculture, manufacturing and services, including hospitality and tourism, support millions of livelihoods across several value chains.

It is well acknowledged that the tourism potential is boundless and plays a pivotal role in anchoring large-scale livelihood generation. More so, given the variety of unrivalled destinations the country possesses across nature, wildlife, adventure, heritage, medical or pilgrimage tourism as well as MICE and wedding focussed opportunities. The Government has rightly taken proactive steps to promote this sector.

According to the draft Tourism Policy, employment can grow from 88 million currently to 400 million by 2047, with tourism GDP growing from US$ 143 billion to US$ 1 trillion, highlighting the exponential growth potential. The emerging trends of micro-tourism, immersive experiences and multiple short vacations will also add new dimensions to this industry.

The tourism sector's resurgence points to the immense potential of this industry to generate gainful employment. Supply of rooms in India currently stands at only 0.11 per 1,000 population relative to the world average of about 2.2, highlighting the enormous headroom for growth. World-class convention facilities, such as the Bharat Mandapam and the Yashobhoomi Centre, have hosted prestigious global events and showcase India's competitive edge in prestigious MICE events. While global campaigns to promote India's treasure-house of tourism assets remain imperative, concerted efforts are also required to scale up skilling to meet emerging demand. Your Company has made significant investments in building skilled hospitality talent through 6 focussed programmes, including the ITC Hospitality Management Institute and the Welcomgroup Graduate School of Hotel Administration.

Enriching India's tourism landscape, your Company's Hotels Business, with its repertoire of iconic properties, globally acknowledged cuisines, service excellence and ethos of Responsible Luxury is well poised to leverage the emerging opportunities. The asset-right strategy, envisioned for the next horizon of growth, together with the impending move to give new wings to ITC Hotels as a pure-play entity foretells an exciting future. 32 hotels have been opened in the last 24 months, taking the total to nearly 140 hotels. **The robust pipeline of managed properties will take the overall footprint to over 200 hotels in the coming years, enabling ITC to enlarge its contribution to employment generation.**

Similarly, the manufacturing sector, together with its extensive value chains, drives significant employment. Given your Company's engagement in the Paperboards value chain, I would like to particularly emphasise on the potential in wood-based industries which can spur significant employment across the value chain, and enrich the country's green cover. **The country has nearly 30 million hectares of degraded land, the greening and productive use of which can generate millions of jobs every year, besides adding to the nation's green cover.** I am sure you will take pride that ITC's Afforestation programme has supported millions of livelihoods by greening over 10 lakh acres, empowering farmers and providing a competitive source of fibre for your Company's Paperboards Business.

Contributing to the 'Make in India' vision, ITC continues to invest in building world-class infrastructure and eco-systems linked to its products and services. Today, despite our growing footprint, nearly 90% of all raw materials are locally procured. The extended manufacturing network of over 200 factories supports local entrepreneurship and sustainable livelihoods. In the last 2 years alone, investments in 3 owned luxury hotels, 8 state-of-the-art manufacturing facilities, together with the 2x expansion of your Company's distribution infrastructure have generated significant livelihoods. Investments underway in 2 state-of-the-art manufacturing facilities as well as an IT & Knowledge Centre will also add to this potential. ITC engages with over 6,000 MSMEs, extensively focussing on upgrading their technology, quality and skills given our belief that enterprises are only as strong as their value chains.

Today, ITC's businesses and value chains support over 6 million sustainable livelihoods. Your Company's presence across all three sectors of the economy positions us well to make a growing contribution in this area of national priority.

Building Climate Resilience

The rapid escalation of extreme weather events poses serious risks to growth and livelihoods. India's vulnerability to climate change is significant. Last year, the country experienced extreme weather events on 318 out of 365 days including heatwaves, floods and droughts. According to the World Bank, India could cross the human survivability index from rising temperatures. Aggravating this is the severe water stress impacting nearly 2/3rds of the country's districts.

Undoubtedly, action is required at exponential speed and scale. Proven solutions for decarbonisation need to be ramped up, while newer, economically viable and pragmatic pathways are called for to address hard-to-abate sectors, carbon capture, utilisation and storage as well as to ensure a just systems transition. Estimates suggest that decarbonisation measures in India would require upwards of US$12 trillion by 2050, necessitating substantive public, private and multilateral funding. To unlock the potential of private capital, it will be important to catalyse accessible technologies, green financing together with market incentives and penalties besides eliminating frictions in the system. The Budget announcement to develop a taxonomy for climate finance and other innovative measures will also facilitate availability of funds for mitigation and adaptation.

It is indeed heartening that the Hon'ble Prime Minister has spearheaded several initiatives to build a climate resilient future. The move towards green hydrogen energy, the International Solar Alliance and the Green Credit Initiative under Mission LiFE are indeed notable examples. It is a matter of pride that India is the only G20 nation which is on track to achieve its 2030 NDC targets and long-term Net Zero commitments.

Across the world, decarbonisation efforts have been rightly scaled up. While these efforts will need to continue apace, their fuller impact will be felt only over a longer term. However, **as recent experiences demonstrate, extreme weather events are rising exponentially, aggravating climate risks and bringing adaptation to the centre-stage of climate action.** Such extreme weather events cause economic devastation, severely impact food and nutrition security, impede industrial activity and affect quality of life, particularly for the most vulnerable. Going forward, wide-ranging adaptation measures will be called for to secure agri-value chains, pursue regenerative agriculture and strengthen food security. Physical infrastructure will need to be fortified while upgradations and new constructions will have to adhere to new climate resilient standards that are being codified.

ITC's Large-Scale Climate Initiatives

ITC believes that corporates can make a meaningful difference in combating the climate crisis and has implemented a mosaic of far-reaching interventions. **The ITC Next strategy focusses both on decarbonisation and adaptation to build resilience, enhance competitiveness of its businesses whilst spurring new opportunities.**

Over the years, in line with its decarbonisation strategy, ITC has significantly invested in building green infrastructure, improving energy efficiency and adoption of renewable energy. Today, 50% of your Company's total energy consumption is from renewable sources, with capacity ramped up to over 200 MW. Investments in a High-Pressure Recovery Boiler in the energy-intensive Paperboards Business is slated to reduce coal consumption by over 1,50,000 tonnes annually. Recognising that LEED® Platinum-certified Green Buildings are 25% more energy efficient and emit nearly 35% less GHG, we have built 40 Platinum-certified Green Buildings including iconic hotels. ITC Hotels has also achieved the 2030 carbon emission targets of the Paris Agreement ahead of schedule.

The Company is also working with its value chain partners, both upstream and downstream, for decarbonising their operations.

ITC's widespread physical infrastructure and agri operations are spread across 28 states and 7 Union Territories. **To secure our assets and local communities, ITC has carried out extensive climate risk assessments to identify hotspots and take site-specific adaptation actions. These assessments in over 140 sites and select agri-value chains use advanced AI-enabled climate modelling tools.** Risks emanating from varied climate hazards are evaluated over decadal time frames, extending till 2100, under various shared socio-economic pathways.

Among several interventions, it would be pertinent to call out **the pioneering Climate Smart Agriculture (CSA) programme that today covers 2.8 million acres** close to our planned target for 2030. This intervention aims to build resilience among farmers, de-risk value chains from erratic weather through a package of agronomy practices as well as the introduction of high-yielding climate-resilient varieties and appropriate mechanisation. **It is indeed encouraging to note from a study undertaken in the first phase that 70% of the villages have moved into a High-Resilience, High-Yield category from just 21% earlier.** GHG emissions of select crops reduced by 13% to 66% while farmer incomes increased up to 90% over a five-year period. Given the successful outcomes, we propose to enhance the area covered under CSA to over 4 million acres by 2030.

Addressing the critical issue of water security, your Company has initiated extensive demand and supply-side interventions. **The Integrated Watershed Development Programmes now cover 1.6 million acres with over 32,000 water structures, while demand side interventions reduce agricultural water use by up to 50% across 1.5 million acres.** As I mentioned, 8 of our units have received the AWS Platinum certification. We aim to create water-harvesting potential equal to over 5 times our net water consumption by 2030. **Going beyond these efforts, we are also working on reviving river basins with negative water balance, thereby securing value chains and serving communities.** Success in the Ghod river basin has led ITC to pursue similar projects in Tamil Nadu, Telangana, Karnataka, and MP. Urban water projects are underway in Bengaluru, Chennai and Saharanpur. In addition, your Company has partnered the Government of Karnataka to enable drought-proofing of 3 lakh acres and with the Government of Maharashtra to promote water literacy.

Recent studies point out that the health of natural ecosystems and biodiversity assumes critical importance as 55% of world GDP is dependent on nature. **Your Company's Biodiversity Conservation programmes aimed at reviving ecosystem services and supporting livelihoods cover 4.7 lakh acres.** Recognising that development of sustainable agri-scapes and mangroves conservation helps in creating a carbon sink with higher sequestration, ITC is piloting a programme for mangroves conservation in Andhra Pradesh.

Your Company's climate action builds competitiveness and resilience of its businesses even as it addresses national priorities. While decarbonisation projects aid mitigation, the adaptation programmes have been intensified in vulnerable rural areas, leveraging our deep agricultural and community engagement to enable more impactful outcomes.

Agriculture: The Next Horizon

I now turn to Agriculture, the lifeline of our economy. This sector employs nearly half of the country's workforce and faces the onerous task of ensuring food and nutrition security amidst escalating climate challenges and depleting natural resources. Despite vast arable land, diverse agro-climatic zones and leadership in producing several commodities, the sector is constrained by low productivity, inadequate processing and exports, limited technology adoption and inefficient market access. **A transformational shift is needed to transition from traditional supply-focused production to dynamic, demand-responsive value chains, fostering value addition and significantly increasing farmer incomes.**

A strategic reset is therefore imperative to build global competitiveness and unleash the true potential of Indian agriculture. It is heartening that the Government has taken several measures to support development of this sector. Public investments in strengthening agri-infrastructure, national agricultural research, promoting FPOs to provide the power of scale, launch of the digital Agri Stack and marketplaces like the e-NAM are progressive interventions.

Next generation reforms can not only unlock the potential in agriculture but also address domestic food requirements and enable the country to be a significant player in global markets. **To enhance productivity, increase value addition and reduce logistics costs, it is imperative to encourage the setting up of market-specific crop value chain clusters. Enabling a wider integration with global markets, these clusters can also be envisioned to serve as export corridors with fully integrated food and agricultural parks in India catering to specific markets.** Such clusters can encompass large numbers of digitally empowered FPOs as also an ecosystem of micro-enterprises to provide agri-tech solutions through Farming as a Service, among others, to enhance efficiency and competitiveness of agriculture. Towards this, the initiatives to foster the integrated development of aqua value chains, demand-responsive large-scale vegetable production clusters near consumption centres, as well as microenterprises such as Drone Didi are indeed welcome.

ITC in Agriculture

The ITC Next strategy leverages the Company's century-long relationship with farmers to promote value-added agriculture, accelerate digital adoption and build climate resilience. Your Company's world-class brands anchor demand-responsive agri-value chains that 'produce the buy', providing its businesses with unique competitive advantages. **As one of the largest procurers of agri-commodities, ITC supports 20 agri-value chains, sourcing over 3 million tonnes from 200 districts in 22 States.** Your Company exports agri-commodities to over 85 countries, linking farmers to global value chains.

At the core of your Company's interventions is ITCMAARS – the 'phygital' eco-system that enables wider agri-tech adoption, enhances efficiencies and access to markets as well as financial services. **Leveraging the power of collectives, the ITCMAARS ecosystem now constitutes over 1,650 FPOs covering more than 1.5 million farmers. By 2030, we aspire to connect over 10 million farmers.** The predictive, hyperlocal & dynamic advisories coupled with an input marketplace have enhanced net farmer returns upto 30% in a short span of time. Over 10,000+ soil tests, with personalised crop nutrition recommendations based on sophisticated AI-based algorithms, have been facilitated resulting in 10-15% reduction in fertiliser usage and 15-20% improvement in crop yields. Agri-tech solutions are also being progressed across multiple value chains including drone usage, which focuses on nano nutrients and crop protection. Through remote sensing, ITCMAARS has digitised 6 million acres covering 1,000 FPOs to help deliver contextual and crop stage-specific personalised advisories. Recently, ITCMAARS launched the world's first GenAI-based regional voice chatbot for farmers called 'KrishiMitra' that has been co-developed with Microsoft.

ITCMAARS also harnesses the collective knowledge garnered over decades to provide farmers best-in-class services. This includes the experience gained from your Company's *Baareh Mahine Hariyali* programme, which enabled substantial increase in farmer incomes. The expertise gained has also enabled us to implement such best practices in 45 Aspirational Districts. **Exclusive PPPs with NITI Aayog in 27 such districts have improved yields up to 30%, reduced cultivation costs by nearly 15%, thereby boosting farmer incomes up to 60%.** In addition, over 5 lakh farmers are trained annually in best practices through Farmer Field Schools and demonstration farms organised by ITC.

Enabling farmers to enhance their range of remunerative crops for both domestic and international markets, the ITC Next strategy has substantially scaled up its Value-Added Agricultural Products portfolio. This includes Spices, Coffee, Frozen Marine Products, Processed Fruits, Medicinal & Aromatic Plant Extracts, among others. The state-of-the-art Spices processing facility in Andhra Pradesh leverages your Company's strong backward integration, identity-preserved sourcing, Organic and Integrated Crop Management programmes, as well as custody of supply chain.

ITC takes pride in being a farmer-centric organisation that contributes significantly to rural empowerment. I am confident that your Company's impactful initiatives will continue to strengthen the competitiveness and resilience of India's agri sector.

ITC: Abiding Commitment to National Priorities

Your Company draws inspiration from its abiding purpose to build an exemplary institution that is competitive, compassionate and a champion of change. This commitment drives Team ITC to relentlessly strive towards shaping an enterprise of pride and value for the nation, and I must commend all of them for their tremendous dedication, passion and commitment to our shared goals. In this unprecedented era of perma-change, it is our belief that such challenges provide a unique opportunity to reimagine the future, reinforce strategies to strengthen competitiveness and reposition the Company as a future-ready enterprise.

It is for this reason that the ITC Next strategy is being vigorously pursued to shape the next horizon of growth and profitability, particularly given the promising opportunities that will unfold in India over time. Strong structural foundations have been laid to give new wings to your Company's multiple drivers of growth, leveraging the mega trends of digital and sustainability, agile innovation, future-ready portfolio, empowered proneurs and strategic cost management. I am confident that the steps taken in recent years will enable your Company to create even more sustained value as we partner the nation in the journey to a *Viksit Bharat*.

EXPAND WHITE CROW STORES TO MORE CITIES

Reliance Brands ups its luxury retail play

Rival Shoppers Stop may enter space by FY25-end

VIVEAT SUSAN PINTO
Mumbai, August 7

RELIANCE BRANDS, PART of Reliance Retail, is looking to expand its chain of luxury retail stores called 'The White Crow' as luxury shopping picks up pace in the country. The five-year-old multi-brand retail chain is looking to expand these luxury stores to more cities.

The move is also timed with the likely entry of rival Shoppers Stop into luxury retailing via standalone large-format stores by the end of this financial year or early next year, retail industry sources said.

Reliance Brands is currently present in 12 cities with stores sized between 8,000 and 10,000 sq ft. These include metros like Mumbai, Pune, Ahmedabad and Hyderabad as well as smaller cities such as Indore, Jaipur and Ranchi. The plan is to extend the chain to cities like Delhi, Bengaluru and Kolkata, sources said, as the model is scalable and can be quickly taken to more markets, including metros and mini-metros.

A mail sent to Reliance Retail and Reliance Brands remained unanswered till the time of going to press. Shoppers Stop has declined to comment on its future plans.

Aditya Birla Fashion & Retail runs the decade-old 'The Collective' chain of luxury stores, with over 30 outlets across cities, measuring around 10,000-11,000 sq ft. Plans include adding some 15-20 more outlets over the next one year, as the need for luxury retail spaces grows in India, industry executives said.

"While luxury malls such as the Jio World Plaza or Phoenix Palladium in Mumbai or DLF Emporio in Delhi do exist in the country, retail destinations for luxury shoppers in general are very limited here. There is need for more formats and retail spaces to address the growing base of luxury shoppers," says Susil Dungarwal, a retail and mall specialist, who heads a Mumbai-based consultancy called Beyond Squarefeet.

The White Crow sells luxury brands such as Armani, Burberry, Salvatore Ferragamo, Kate Spade, Michael Kors, Canali, among other high-end labels, using a combination of curated collections, easy product categorisation and mixed merchandising, experts said.

Sources said large organised retailers like Reliance Retail and Aditya Birla Retail have positioned their luxury store chains as aspirational shopping zones, aiming to draw the well-heeled in the cities they operate.

In its FY24 annual report, released on Wednesday, Reliance Retail said it sees rising demand for premium and luxury products to further fuel the Indian retail market, which will cross $1.4 trillion by calendar year 2027.

A report by Bain and Company says that India's luxury market is forecast to expand to 3.5 times its current size of $25 billion, reaching $90 billion by 2030 due to rapid economic growth. A surge in the base of ultra-high-net-worth individuals (with a net worth of over $30 million), which is projected to increase from 13,263 now to nearly 20,000 by 2028, is also driving growth, prompting large retailers to expand their presence into luxury retailing quickly.

Reliance Brands has been the most aggressive in introducing global brands in India in recent years, with a portfolio of over 60 labels, according to its website.

In his address to shareholders on Wednesday, chairman Mukesh Ambani said, "Reliance Retail's vision of inclusive development for millions of consumers and merchants, coupled with unprecedented growth of the Indian marketplace, has resulted in marquee names investing in RRVL at a $100-billion valuation milestone."

RIL ready for the next level with telecom, green energy

FE BUREAUS
New Delhi/Mumbai, August 7

RELIANCE INDUSTRIES (RIL) is ready for the next level of growth, as its green energy projects are set to deliver. Also, its telecom business Jio's indigenously-developed technologies, which are being deployed at scale in India, takes to the rest of the world.

In RIL's FY24 annual report released on Wednesday, chairman and MD Mukesh Ambani said that in the world of volatility and uncertainty, India is shining as a beacon of stability and prosperity.

He said that the company is targeting net-zero carbon emissions from its operations by 2035.

Ambani said the launch of Jio 4G mobile telephony services in 2016 turned a data-dark India into a data-rich nation, supplying every home with affordable, high-speed 4G data. "And this year, Jio has further enhanced the country's digital infrastructure by rolling out its True5G network across India in world-record time," he said, adding the launch of affordable smartphone JioBharat will go a long way in making India 2G-mukt.

While consumer-facing businesses grow, Reliance continues to invest in traditional fossil fuels. Its gas field in Bay of Bengal meets about 30% of the country's needs while the world's largest single-site refinery at Jamnagar in Gujarat ensures a steady supply of fuel to both India and offshore markets.

All this while it invests in recycling and circular economy. "Reliance has become the first Indian company to chemically recycle plastic waste-based pyrolysis oil into circular polymers," Ambani said.

This is in addition to recycling of polyester and polyolefins, and converting PET bottles and plastic waste into road laying material.

"As we work towards our goal of attaining net carbon zero by the year 2035, the development of the Dhirubhai Ambani Green Energy Giga Complex in Jamnagar is progressing rapidly," he said. "This giga complex will be one of the largest end-to-end integrated renewable energy manufacturing facilities globally."

Besides generating electricity from renewable sources, it will produce solar modules and electrolysers to produce green hydrogen.

Reliance, he said, is also exploring multiple technologies for capture and recycling of carbon. "We are confident that our new energy business will play a pivotal role in the global movement for adoption of cleaner fuels," he said. "Our target is not just to make clean energy available, but also to make it accessible and affordable, thereby ensuring energy self-sufficiency for India."

The media and entertainment business consolidated its market share with record viewership of Indian Premier League T20 cricket on JioCinema. It has also entered into a landmark agreement with The Walt Disney Company for creating a joint venture which combines the businesses of Viacom 18 and Star India. "The resultant JV will be one of the leading television and digital streaming platforms in India, bringing best-in-class entertainment," he said.

Ambani draws no salary for 4th year

FE BUREAU
Mumbai, August 7

MUKESH AMBANI DREW no salary for the fourth straight year in a row while his children earned a sitting fee and a commission for being on the board. Ambani had capped his annual remuneration at ₹15 crore from FY09 to FY20; and since FY21, he opted to forego his salary, due to the pandemic, until the company and all its businesses were fully back to their earnings potential.

In FY24, he got 'nil' as salary, allowances and perquisites as well as retiral benefits, according to the latest annual report of the company.

The remuneration of Ambani's cousins Nikhil and Hital Meswani rose to ₹25.31 crore and ₹25.42 crore, respectively, in FY24 from ₹25 crore each in FY23. This included ₹17.28 crore commission (unchanged from the previous two fiscal years).

Executive director PMS Prasad saw his remuneration rise to ₹17.93 crore. He drew ₹13.50 crore in FY23 including performance-linked incentives for FY22. In FY22, he drew ₹11.89 crore.

Ambani's wife Nita, who was a non-executive director on the company's board till August 28, 2023, earned ₹2 lakh as a sitting fee and ₹97 lakh commission for FY24.

His three children — Isha, Akash and Anant — who were appointed to the board in October last year at nil salary, got ₹4 lakh each as sitting fee and ₹97 lakh as commission.

First EV to offer 500-km range on a full charge under ₹20 lakh

Tata Motors drives in Curvv SUV

SWARAJ BAGGONKAR
Mumbai, August 7

UPPING THE ANTE in the electric vehicle (EV) space, Tata Motors on Wednesday launched the Curvv.ev SUV, offering a drive range of more than 500 km on a full charge, at a starting price of ₹17.49 lakh. This is the fifth EV model by the company and the second on the pure EV architecture after the Punch.ev.

Tata Motors controls 65-70% of the domestic passenger EV market, with monthly volumes of around 5,000 units.

The base variant, Curvv.ev 45, is certified for a range of 502 km on a single charge and the more premium Curvv.ev 55 priced at ₹19.25 lakh with a bigger battery is certified for a range of 585 km. The top-end variant is priced at ₹21.99 lakh.

While Tata Motors clarified that these are introductory prices, the new model is cheaper than the 461-km range provider MG ZS EV (₹18.98 lakh). It is also cheaper than the strong hybrid variant of the Maruti Suzuki Grand Vitara (₹18.43 lakh).

There has been a marked slowdown in the demand for EVs since June. This is primarily due to the withdrawal of incentives by the Centre coupled with postponement by buyers awaiting the implementation of the new incentive scheme FAME 3.

Shailesh Chandra, managing director, Tata Motors Passenger Vehicle and Tata Passenger Electric Mobility, said, "The market is awaiting the implementation of FAME 3, which is leading to lower sales."

Chandra declined to provide volume guidance for the Curvv.ev, but said that overall, there will be positive growth due to the launch, though there could be some cannibalisation with the Nexon.ev. "The Curvv.ev offers an estimated real-world range of 400-425 km with its largest battery pack of 55 kWh. Further, its specially designed fast-charging capability ensures a top-up of 150 km range in just 15 minutes," Chandra added.

While the EV version of the Curvv debuts this month with deliveries to commence on August 23, the internal combustion engine (petrol and diesel) versions of the crossover SUV will debut in September.

The ICE variant of the Curvv will compete against the Hyundai Creta, Kia Seltos, Maruti Grand Vitara, Toyota Hyryder, Honda Elevate, Skoda Kushaq, Volkswagen Taigun, MG Astor, and the Citroen C3 Aircross.

The Curvv will be introduced in two petrol (the new hyperion gasoline direct injection engine and the 1.2 L Revotron turbocharged engine) and one diesel option (1.5 L Kryojet engine) — all paired with both a 6-speed manual and a 7-speed dual-clutch automatic transmission.

Price and delivery details of the ICE variant of the car will be disclosed closer to its launch date.

ADANI ENTERPRISES (AEL) is considering raising around ₹10,000-12,000 crore through a share sale, according to people familiar with the matter, a move that would follow a separate recent fundraising deal at his power transmission unit.

AEL may seek to raise funds through a so-called qualified institutional placement, or QIP, the people said, asking not to be identified because the matter is private. The conglomerate is working with banks on a share sale that could take place as early as September, the people said.

Adani Group is seeking institutional investors, including from the US, as part of its efforts to expand its shareholder base and draw more research analysts to cover the firm, one of the people said. IFR had earlier reported on the fundraising plan.

Deliberations are ongoing and details of the fundraising, including size and timing, may change, the people said. An Adani Group representative couldn't immediately comment when reached by phone.

Adani Enterprises in May approved raising as much as ₹16,600 crore through methods, including a share sale to institutions in one or more tranches. AEL's transaction would follow Adani Energy Solutions' ₹8,370 crore share sale to institutional investors last week. —BLOOMBERG

SHAILESH CHANDRA, MD, TATA MOTORS PV AND TATA PASSENGER ELECTRIC MOBILITY

'Goal is over 30% EV penetration by 2030'

Shailesh Chandra, managing director, Tata Motors Passenger Vehicles and Tata Passenger Electric Mobility, spoke to ***Sumana Sarkar*** *on the sidelines of the Curvv SUV launch. Excerpts:*

What's the outlook for EV sales for the second half of the fiscal and share of EVs as percentage of overall sales?

We have a long-term target of attaining 30% plus EV penetration by 2030, and directionally, we are moving closer to that. There is no specific H2 target. The PV industry is growing at a slow pace, so EVs in that space will also grow accordingly. We have a series of new launches in the pipeline and we are optimistic that our growth rate will be much better than the industry.

The Curvv gets the 1.5 diesel engine. You have not ruled out the possibility of offering diesel engine in other products also. Is there a rethink in terms of the diesel strategy?

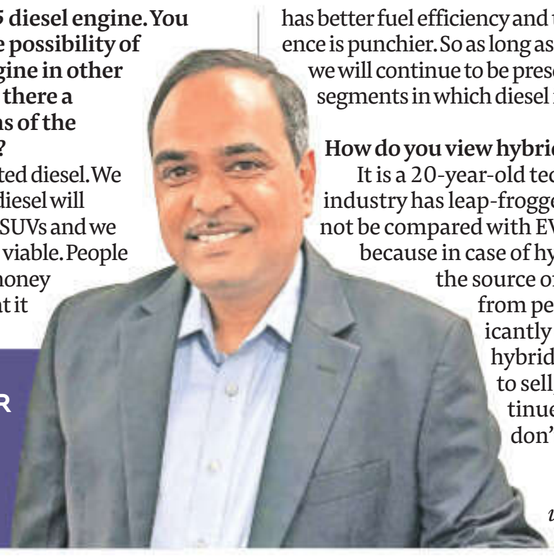

We never exited diesel. We always said that diesel will remain popular in SUVs and we will offer it till diesel is viable. People still love paying more money for a diesel car given that it has better fuel efficiency and the drive experience is punchier. So as long as there is demand, we will continue to be present in each of the segments in which diesel is relevant.

How do you view hybrids?

It is a 20-year-old technology while the industry has leap-frogged to EVs. It should not be compared with EVs especially because in case of hybrids, 100% of the source of energy is coming from petrol. CNG is significantly cleaner than hybrids. Those who want to sell, they might continue selling, but we don't want to sell.

Gautam Adani has not set a date for retirement: AEL

GAUTAM ADANI HAS not set any specific date or point in time for retiring and handing over the reins to his sons and nephews, AEL said in a filing. It said the group chairman has been "misquoted" in a media report "about heirs and equal beneficial interest in the family trust".

"In a recent interview, Adani shared his thoughts on succession planning to ensure business sustainability. He said that succession is not just one event, but a journey, and that it must be organic, gradual and systematic," the firm said. He, however, did not set 70 years as the date of his retirement.

"He did not specify any date or point in time," AEL said. "Further, he has been misquoted about heirs and equal beneficial interest in the family trust. He had mentioned the involvement of his two sons and two nephews in various businesses of the group." — PTI

EQUITIES SNAP THREE-DAY LOSING STREAK

Markets stage smart recovery

KISHOR KADAM
Mumbai, August 7

EQUITIES STAGED A smart recovery on Wednesday, with both the benchmark indices gaining more than 1% each, snapping a three-day losing streak. Taking a cue from other Asian markets, the Sensex jumped 874.94 points, or 1.11%, to 79468.01 while the Nifty 50 rose 304.95 points, or 1.27%, to 24297.50.

The broader markets outperformed, with the BSE Midcap gaining 2.63% and the BSE Smallcap rising 2.39%. Investors wealth surged by nearly ₹9 trillion to ₹448.6 trillion. The market breadth was in favour of advances, as there were three gainers for every loser.

The sentiment was also lifted by the government's relief on capital gains tax for property sales. Taxpayers can choose between a 12.5% tax rate without indexation and a tax rate of 20% with indexation when paying capital gains tax for properties acquired before July 23, 2024.

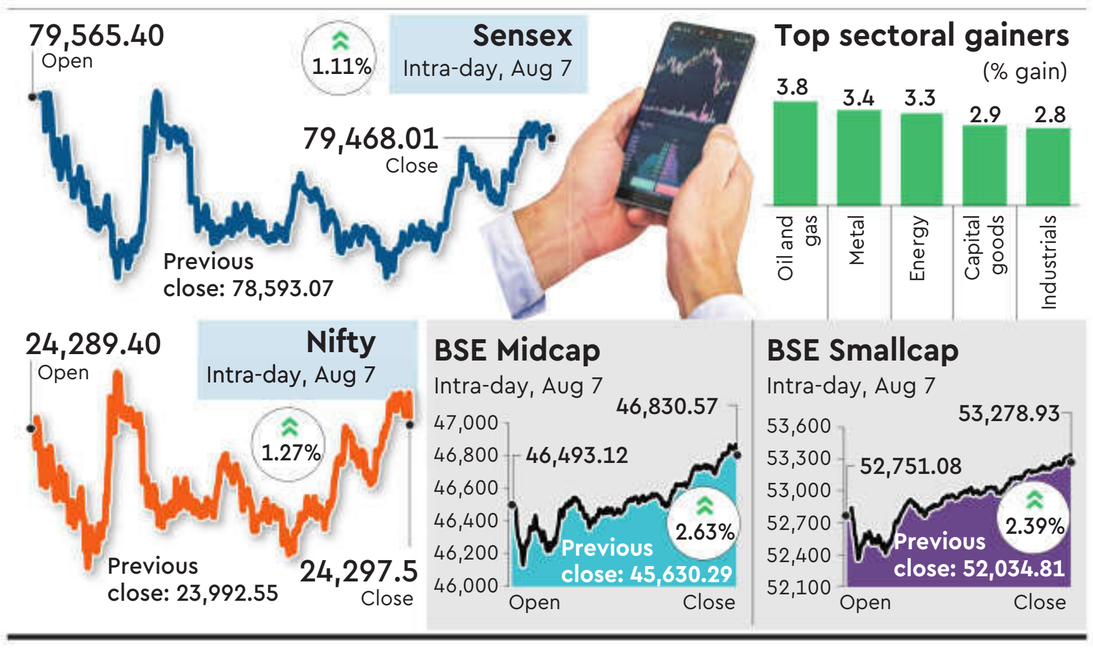

Following Monday's global sell-off, Goldman Sachs Asset Management expressed optimism about India and South Korea. The firm is bullish on South Korean shares and AI-related stocks in the region, as well as Indian companies in sectors like auto ancillaries, chemicals and power equipment, a Bloomberg report said.

Although a tad cautious at the moment, renowned market strategist Chris Wood of Jefferies said on a television channel on Wednesday that India remains by far the best equity story in the region and globally on a 10-year frame. Wood said despite the "extraordinary resilience" of the Indian markets, he was tactically cautious on India. "If I was investing and if I had a mandate to invest $100 in India right now, I would put only one-third of the amount, because the overwhelming likelihood is that we need to see a bit more of a correction," Wood told CNBC Asia in an interaction. "The remaining two-thirds ($100 allocation to India) – I am keeping that in cash," Wood added.

Except China, other Asian markets gained more than 1%, with Taiex of Taiwan leading the pack, surging 3.87%. South Korea's Kospi gained 1.83%, Singapore's STI and Philippine's PSEi climbed 1.6% each and Japan's Nikkei was up 1.19%.

Markets round the globe have seen a rebound following a reassurance from the Bank of Japan that it would not raise interest rates during a period of financial instability. The unravelling of the yen carry trade, while not entirely behind the markets, is believed to be largely in control, experts noted.

Back home, Wednesday's trade saw broad-based buying across sectors, especially real estate. All the BSE sectoral indices closed in the green, with oil and gas, metal and energy leading the charge by recording gains of over 3% each.

July demat account additions at 6-mth high

RETAIL INVESTOR INTEREST in the stock markets continued to grow in July, with a record 4.55 million new demat accounts being opened. This marks the highest monthly addition in the past six months, bringing the total number of demat accounts to nearly 167 million, a staggering rise of 43.34 million over the year-ago period.

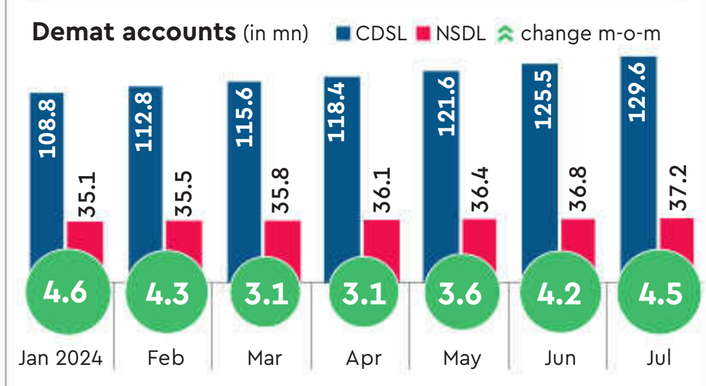

This is the fourth time in 2024 that demat account openings have exceeded 4 million. Experts attribute this growth to a strong market performance, simplified digital onboarding processes,

and a robust IPO pipeline.

CDSL and NSDL, the two main depositories, reported additions of 4.14 million and 0.41 million new demat accounts, respectively, in the month under review. CDSL's total account count now stands at 129.63 million, while NSDL's is at 37.2 million.

Private banks outpace PSBs in June qtr deposit growth

SACHIN KUMAR
Mumbai, August 7

PRIVATE BANKS HAVE outperformed public sector banks in deposit growth during the first quarter. Private banks have increased their deposits by 12-35% year-on-year whereas public sector banks have only managed a growth range of 5-13%. With the deposit growth lagging the credit growth, both private and public lenders have raised deposit rates to attract more depositors.

"Savings continue to be a challenge, and I think the saver-to-investor momentum continues and especially after elections, this has accentuated," Shanti Ekambaram, deputy managing director, Kotak Mahindra Bank, said in an earnings call. "We have taken certain steps and initiatives that will help us enhance our deposits franchise. We have simplified the savings product booking, bundled propositions for certain very key segments and focused on value and propositions as we go into the quarter for acquisition of customers," she said.

Among private banks, IDFC First Bank recorded a 36% Y-o-Y growth in deposits in the first quarter, followed by Bandhan Bank (23%) and Yes Bank (21%). Among public sector banks, Indian Overseas Bank's deposit grew by 13%, followed by Canara Bank (12%) and Bank of India (10%), according to Capitaline data.

With deposits growing slower, the competition among banks to mobilise deposits is still continuing. Several lenders, including SBI, ICICI Bank, Axis Bank, Bank of Baroda, Bank of India, IndusInd Bank and Yes Bank, have increased fixed deposit rates over the past couple of months to lure customers.

Banks' credit grew 17.3% to reach ₹168.8 trillion for the fortnight ended June 28, 2024, while deposits increased by 11.1% to ₹212.9 trillion, Reserve Bank of India data show.

"We are taking various initiatives for increasing our deposits. There will be a special focus on CASA. We have taken a project where we are reaching out to our existing customers and also new-to-bank clients for balancing CASA accounts. We have also opened some premium branches which cater to these clients. Premium branches will only be catering to CASA clients so that there is a steady growth of CASA in coming days," said Ramasubramanian S, executive director, Union Bank of India, in an earnings call.

Private banks have also been aggressive in acquiring term deposits. These lenders increased the share of total term deposits to 33% as of March 2024 from 30% last year while the share of public sector banks fell to 58.5% from 61% over the same period, according to RBI data.

Term deposits of private banks grew 30% to reach ₹38 trillion as of March 2024, while public sector banks' term deposits rose 12.7% to ₹67.7 trillion.

BSE reports three-fold jump in consolidated revenue, profit

VIVEK KUMAR M
Mumbai, August 7

THE BSE ON Wednesday reported a nearly three-fold jump in consolidated revenue for the quarter ended June at ₹607.8 crore owing to a sharp increase in transaction charges. The exchange hiked transaction charges for Sensex and Bankex options contracts from May 13, which aided its revenue growth in the latest quarter.

The net profit also surged three-fold to ₹265.1 crore, if one were to exclude an exceptional income of ₹367.5 crore seen in the corresponding quarter of last year.

Both revenue and net profit figures topped analysts estimate as the top line for the quarter was seen at ₹578 crore and net profit at ₹232 crore.

Over the past one year, the BSE has seen a sharp increase in its market share in the derivatives segment. Compared with ₹301.7 crore average daily premium turnover in June 2023, it rose to ₹8,453.4 crore in June 2024.

The exchange's operating margin jumped from 33% a year ago to 47% in the latest quarter.

"We have finished the first quarter strongly, with every business line contributing to revenue and profitability. This reflects the strength of our proposition, the improvements we have made to our products and the depth of our relationships with customers," BSE managing director and CEO Sundararaman Ramamurthy said.

Sebi advises NSE to shore up SGF for F&O to ₹10,500 cr

VIVEK KUMAR M
Mumbai, August 7

THE SECURITIES AND Exchange Board of India (Sebi) has advised the National Stock Exchange (NSE) to increase the core settlement guarantee fund (SGF) of National Clearing Ltd to ₹10,500 crore for the equity derivatives segment within six months.

The NSE and its subsidiary NSE Clearing received a letter dated May 3 from the market regulator regarding the issue, according to the notes to NSE's financial statements.

SGF is maintained by clearing houses to guarantee the settlement of trades executed on the stock exchange. In case a clearing member fails to honour settlement commitments, the SGF is used to fund the obligations of that member without affecting the normal settlement process.

As of June 30, NCL had ₹9,726 crore in the core SGF with additional contribution of ₹587 crore from the NSE.

An analyst tracking the exchange said the latest Sebi advisory would lead to a further increase in SGF contribution from the NSE as the earlier directive was to increase the total core SGF corpus to ₹10,000 crore. As per regulations, the NSE has to contribute at least 25% of the minimum required corpus to the core SGF while NSE Clearing has to contribute a minimum of 50% and the rest has to come from clearing members.

NSE consolidated profit up 39% to ₹2,566.88 cr for April-June

Meanwhile, the exchange's consolidated net profit rose 39.2% on a year-on-year basis to ₹2,566.88 crore in Q1FY25. The growth in the bottom line was slower compared to a 51% jump in its revenue to ₹4,509.70 crore for the April-June period.

Indian firms push ahead with listings

INDIA'S BUSTLING INITIAL public offering (IPO) market is barrelling ahead with bigger debuts, shrugging off this week's global equity selloff.

The nation saw 189 companies going for fresh share sales to raise $5.6 billion this year, making it one of the busiest markets in this space. At least 30 IPOs are in the offing as demand powered by domestic money pushes companies to explore listing.

Turbulence in global equity markets fails to deter investors

The pipeline underscores investor exuberance in India despite turbulence in global equity markets. Local investors armed with funds and a desire to participate in the world's fastest-growing major economy are ignoring pessimism over global risks.

"Absorption of supply is not a challenge for India," said Vaibhav Porwal, co-founder of Dezerv Investments. Equity mutual funds have about $13 billion of cash in their portfolios, while recurring investment plans are bringing over $2 billion of monthly inflows, which is "big liquidity to support any sort of supply."

While the bulk of companies raised below $100 million this year, bigger offerings are also coming to the market. On tap are Ola Electric Mobility's listing of more than $730 million on Friday and baby-products company Brainbees Solutions' debut of about $500 million on August 13. Hyundai Motor Co. will likely raise a record amount of as much as $3.5 billion from the listing of its Indian unit in the coming months.

Sebi is also processing applications of Hero Fincorp's some $440-million offer and Niva Bupa Health Insurance Co.'s roughly $360-million share sale. —BLOOMBERG

Supporting currency: Top banks told to avoid large trading bets against rupee

JASPREET KALRA & NIMESH VORA
Mumbai, August 7

THE RESERVE BANK of India (RBI) has asked some large banks to not add to their existing positions against the rupee in a bid to support the currency which has fallen to all-time lows for three straight days, four bankers said.

Officials from the RBI's financial markets regulation and operations department rang big banks on Tuesday, when the currency was at risk of breaching the 84/$ level in the spot market, the bankers, who declined to be identified since they are not authorised to speak to the media, said.

The rupee turned into the worst-performing Asian currency over the last month, pressured by the unwinding of trades that used the Chinese yuan to fund long bets on the local currency.

To slow the depreciation, the RBI has intervened across the spot, futures and non-deliverable forwards segments.

On Tuesday, RBI officials asked us to "consider the existing position size the risk limit," a senior treasury official at a large foreign bank said. This meant that the RBI did not want them to add to their existing trading positions on the rupee, he said.

The central bank often uses such informal calls to prod banks to manage excessive volatility. Lenders typically comply.

The rupee on Tuesday dropped to a lifetime low of 83.96 to the US dollar, and would have likely depreciated more if not for RBI's instructions and direct intervention.

The central bank likely sold about $1.5 billion in the non-deliverable forward market before the spot market opened, a currency trader at a bank said. This intervention prevented the rupee from falling past the psychological 84 level.

The RBI has asked banks "to not aggressively bid (on USD/INR) for speculative positions," another senior banker at a foreign bank said.

The bankers said the central bank had not asked them to trim their existing positions, nor they had issued specific instructions regarding positions in the non-deliverable forwards market. —REUTERS

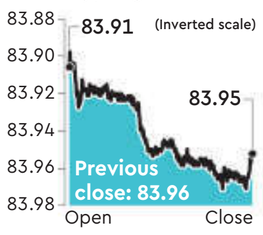

Rupee closes 3 paise lower at 83.95 as dollar recovers

THE RUPEE CONSOLIDATED in a narrow range and settled for the day lower by 3 paise at 83.95 against US dollar on Wednesday, weighed down by a recovery in the US dollar and geopolitical tensions in the Middle East.

Forex traders said the Indian rupee depreciated on Wednesday on a strong US dollar and positive crude oil prices. However, strength in the domestic markets cushioned the downside.

At the interbank foreign exchange market, the local unit opened at 83.86 and touched an intraday low of 83.97 against the dollar during the session.

It finally settled at 83.95 against the American currency, down 3 paise from its previous close. —PTI

Users faced difficulties in placing orders and accessing their demat balances, compounded by further issues with Groww's customer service team.

In response to the complaints, Groww posted on X, "We're experiencing a technical issue and we are working to resolve it quickly. We truly apologize for the inconvenience."

The company did not respond to a query from *FE*. However, Groww addressed multiple complaints on social media, providing affected users with a link to report their issues and requesting that they message Groww on X with their problems.

Interim govt to take oath today in Bangladesh

RUMA PAUL & SUDIPTO GANGULY
Dhaka, August 7

THE NOBEL PEACE laureate tapped to lead an interim government in Bangladesh called for calm and boarded a flight on Wednesday to return home, a day before his new government is expected to be sworn in to replace ousted Prime Minister Sheikh Hasina.

Muhammad Yunus, 84, was picked by President Mohammed Shahabuddin to lead the new interim government, a key demand of student demonstrators whose uprising drove Hasina to flee to India on Monday.

"Let us make the best use of our new victory," he said in a statement to Reuters before departing Paris, where he had been receiving medical treatment while out on bail from criminal cases brought under Hasina. "I fervently appeal to everybody to stay calm. Please refrain from all kinds of violence."

Outside the airport, he told reporters: "I'm looking forward to going back home and see what's happening there and how we can organise ourselves to get out of the trouble that we're in."

"I'll go and talk to them. I'm just fresh in this whole area," said Yunus, an economist who was awarded the 2006 Nobel Peace Prize for founding a bank that pioneered fighting poverty with small loans to ordinary people.

President Shahabuddin said the rest of the interim government needed to be finalised soon to overcome the crisis and pave the way for elections. Nahid Islam, a key student leader, said he expected the members to be chosen by late Wednesday.

Army chief General Waker-Uz-Zaman said that he was hopeful the interim government would be sworn in by late Thursday and that the situation in the country was improving and was expected to become normal in the next 3-4 days.

He also said that military leaders had held discussions with student leaders, political parties, and the president and that he was confident that Yunus would be able to take the country towards a democratic process.

Ahead of the arrival of Yunus, a court overturned his conviction in a labour case in which he was handed a six-month jail sentence in January. Yunus had called his prosecution political, part of a campaign by Hasina to quash dissent.

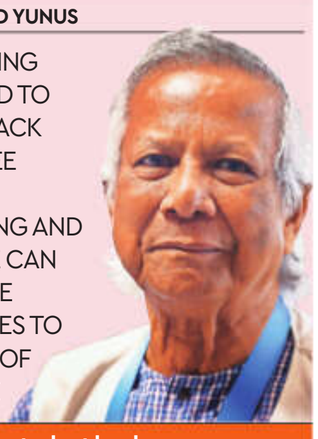

Meanwhile, Bangladesh's ousted prime minister Sheikh Hasina, who fled to India following mass protests against her government, is going to stay in Delhi "for a little while," her son Sajeeb Wazed Joy said on Wednesday. —REUTERS

Former PM gets renewed passport

PRESS TRUST OF INDIA
Dhaka, August 7

BANGLADESH'S FORMER PRIME minister Khaleda Zia, who was released from jail after the ouster of her arch-rival Sheikh Hasina, has received a renewed passport, her party said on Wednesday.

Zia, 79, was sentenced to 17 years in prison for graft in 2018 under the rule of Hasina, 76, who resigned as prime minister on Monday and fled to India in the face of massive protests against her government.

She has received a renewed passport, BNP media cell member Shairul Kabir Khan was quoted as saying by Dhaka Tribune newspaper.

The renewal process for her passport was completed on Tuesday. Subsequently, Zia's personal secretary ABM Abdus Sattar received her renewed machine-readable passport on her behalf later that night, it said.

The Bangladesh National Party (BNP) chairperson, currently undergoing treatment for various ailments, was released on executive order from President Mohammed Shahabuddin on Tuesday following the collapse of the Hasina-led Awami League government.

Zia had been imprisoned for more than two years. On March 25, 2020, the Hasina government suspended her sentence and granted her conditional release through an executive order.

India flies home its non-essential mission staff, their families

SHUBHAJIT ROY
New Delhi, August 7

WITH THE SECURITY situation in Bangladesh deteriorating following the ouster of Prime Minister Sheikh Hasina, India is scaling back its diplomatic presence in the country.

While the Indian High Commission in Dhaka remains functional, non-essential staff and families returned to India Wednesday, sources said.

Besides the High Commission in Dhaka, India has Assistant High Commissions in Chittagong, Rajshahi, Khulna and Sylhet.

This is the first sign of concern in the Indian government over the poor security situation in Bangladesh.

Law and order has been disrupted across the country and there have been attacks on Awami League leaders, their homes, security personnel and their offices. Statues of Bangabandhu Sheikh Mujibur Rahman have been vandalised, and mobs have invaded the Prime Minister's residence and parliament.

Sources said the return of non-essential staff and families from the Indian High Commission in Dhaka was facilitated on a voluntary basis through a commercial flight. All diplomats remain in the High Commission which continues to be functional, sources said.

All helplines of the Indian High Commission in Dhaka are working, and sources shared the phone numbers: +8801958383679, +8801958383680, +8801937400591.

In Parliament on Tuesday, External Affairs Minister S Jaishankar said it is India's expectation that the host government will provide the required security protection to the Indian missions in Bangladesh.

The Indian government has flagged the issue of safety and security of Indian interests – its diplomatic facilities, personnel and its citizens in Bangladesh and put the onus of keeping them safe on the new establishment in Dhaka.

Protesters force 4 Bangladesh cenbank deputies to resign

RUMA PAUL
Dhaka, August 7

FOUR DEPUTY GOVERNORS of Bangladesh's central bank were forced to resign on Wednesday after about 300-400 officials protested against what they said was corruption by top officials, two sources at the bank told Reuters.

Protesters also demanded the resignation of Bangladesh Bank governor Abdur Rouf Talukder, who was not present during the demonstrations at the bank's headquarters in capital Dhaka, said the sources, who did not want to be named.

Talukder and the bank's spokesperson did not answer calls made to seek comment.

The protests at the central bank came two days after Sheikh Hasina resigned as Bangladesh's prime minister and fled the country following weeks of deadly protests that began as demonstrations by students against government job quotas but escalated into a movement demanding her resignation.

Deputy Governor Nurun Nahar will continue handling operational work at the bank for now but will have to leave when new deputy governors are appointed, said one of the sources. "Although many officials, including myself, continue to work, we support the protests," said another central bank official who did not join the protests and did not want to be named. REUTERS

China's July exports grow slowest in 3 months, miss target

LIZ LEE & ELLEN ZHANG
Beijing, August 7

CHINA'S EXPORTS GREW at their slowest pace in three months in July, missing expectations and adding to concerns about the outlook for the vast manufacturing sector, while a rush to boost chip supplies before expected US tech curbs bumped up imports.

Analysts say China's factories will likely face stiff pressure in the months ahead, hobbled by Western tariffs and demand woes while volatility in financial markets and US recession fears raise fresh challenges for policymakers trying to bolster a fragile economic recovery.

Outbound shipments climbed 7.0% in July from the year earlier, customs data on Wednesday showed, a slower pace of growth than June's 8.6% rise and missing forecasts of a 9.7% increase.

"Due to base effect, China's exports may keep a single-digit growth in the near future, but considering the slowing external demand and tariffs, the outbound shipments in the second half of 2024 will face bigger pressure," said Lynn Song, chief economist for Greater China at ING.

Imports rose at a robust 7.2% rate, reversing a 2.3% decline in June and marking the strongest performance in three months. It also beat analysts' expectations of a 3.5% rise.

The brighter imports figures were underpinned by Chinese firms' rush to purchase chips ahead of expectations of further United States curbs on chips exports to the Asian giant, said Xing Zhaopeng, senior China strategist at ANZ.

"Looking ahead, the upward trade cycle may have ended. Both imports and exports are expected to slow down in the third quarter." REUTERS

Meta begins blue-chip bond sale as market volatility eases

CALEB MUTUA
August 7

META PLATFORMS IS selling bonds in the US investment-grade primary market on Wednesday as borrowers rush to raise cash after volatility earlier this week halted debt sales.

The Facebook and Instagram parent company is selling bonds in as many as five parts for general corporate purposes, according to a person with knowledge of the matter. The longest portion of the offering, a 40-year security, may yield 1.55 percentage points above Treasuries, said the person, who asked not to be identified as the details are private.

"Meta's sale is a sign that their investment in AI is not slowing down and is likely to increase over the next couple of years," Robert Schiffman, a Bloomberg Intelligence analyst, said in a phone interview. "Meta has an ample amount of cash, but it's a more efficient use of capital to borrow money in the bond market."

There are 17 companies that intend to sell bonds on Wednesday as blue-chip firms ease back into primary markets after Monday's volatility halted deals. Risk premiums tightened five basis points on Tuesday, making funding more attractive. BLOOMBERG

Musk's X sues Unilever and Mars for boycotting platform

MIKE SCARCELLA
August 7

ELON MUSK'S SOCIAL media platform X on Tuesday sued a global advertising alliance and several major companies, including Mars and CVS Health, accusing them of unlawfully conspiring to boycott the site and causing it to lose revenue.

X filed the lawsuit in federal court in Texas against the World Federation of Advertisers, Unilever and Danish renewable energy company Orsted, in addition to Mars and CVS Health.

The lawsuit said advertisers, acting through a World Federation of Advertisers initiative called Global Alliance for Responsible Media, collectively withheld "billions of dollars in advertising revenue" from X, previously known as Twitter.

It said they acted against their own economic self-interests in a conspiracy against the platform that violated US antitrust law.

The World Federation of Advertisers, Unilever, Mars and CVS Health did not immediately respond to requests for comment. Orsted declined to comment on Wednesday.

In a statement on Tuesday about the lawsuit, X's chief executive Linda Yaccarino said "people are hurt when the marketplace of ideas is constricted. No small group of people should monopolise what gets monetised."

Ad revenue at X slumped for months after Musk bought the company in 2022. Some advertisers had been wary of ad spending under Musk amid questions and fears that their brands would appear next to harmful content that under prior owners might have been removed. —REUTERS

Empower the mayors

Political appointees and corrupt civic bodies have failed citizens for far too long

THE URBAN NIGHTMARE that Indian cities are fast turning out to be is best manifested by flooding, which is becoming increasingly frequent. Last week, torrential rainfall brought New Delhi to a standstill and exposed, not for the first time, the sheer lack of preparedness of the civic administration to tackle a downpour. A day later, the Centre introduced a Bill in Parliament that seeks to set up urban disaster management authorities for state capitals and big cities with municipal bodies. It aims to improve the functioning of the National Disaster Management Authority (NDMA) and create a database at the national and state levels. The NDMA itself treated urban flooding as a separate disaster and laid down guidelines in 2010, having focused on riverine floods until the devastating deluge in Mumbai in 2005 forced a rethink.

Reports of urban flooding are now routine across the country. Indian cities are already behind schedule to combat a problem that is set to intensify. The Intergovernmental Panel on Climate Change has warned of more intense monsoon precipitation in South Asia, including India, as a result of rising temperatures. As global warming triggers extreme weather events worldwide, disasters will bear an enormous cost to livelihoods and infrastructure, apart from being potentially fatal. With above normal monsoon rain predicted this year, cities must brace for sporadic bursts of heavy rainfall until next month. In such a scenario, there is a need for sharper real-time alerts to prepare citizens for adverse weather even as the India Meteorological Department has claimed much progress in this regard as a result of improvements in early warning systems and dissemination of information.

City planning is also a factor that cannot be ignored if disasters have to be minimised. Among the gaps in planning is the neglect of migrant workers, who contribute to building cities but seek refuge in slums and encroached settlements that leave little room for draining out rainwater. A metropolis like Mumbai, which is battered by monsoon rain annually, stares at the prospect of accommodating a populace in 2050 that is twice as much as the current 20 million. Rather than spending heavily on infrastructure, which has also faced question marks over quality of late, the focus should be on more equitable land use and better public transport.

Most critically, however, one thing in common among cities — as evidenced in Delhi where the Supreme Court has questioned the governments and municipality about safety norms after the deaths of civil services aspirants at the flooded basement of a coaching centre — is the tendency to shift the blame and avoid accountability. Forming newer, domain-specific entities may be good on paper. However, cities suffer from fractured governance when multiple authorities tasked with managing different areas such as water, transport, and housing get away with passing the buck. Even if there is a case for increased allocations for municipal bodies, the fact is that they are flush with funds. For the record, Mumbai has the richest municipal corporation in the country. It also gave a good account of itself in a crisis when, under IAS officer Iqbal Singh Chahal, a participative model kept the lid on Covid-19 while politicians took the backseat. Political appointees and corrupt civic bodies have failed citizens for far too long. It is time the people's representatives appoint a mayor, à la a company CEO, who is accountable and empowered to address all challenges under one roof.

EMPLOYING INDIA

WE HAVE TO RETHINK THE 'INSTRUMENTALITY' FOR EXECUTING TODAY'S MULTI-SECTORAL POLICIES

Reimagining job creation

ARINDAM BHATTACHARYA

Senior advisor and emeritus partner, Boston Consulting Group

THE NATIONAL DEMOCRATIC Alliance got its third successive mandate in an election with many political narratives. But one economic narrative took centre stage—lack of jobs.

In recent years, there has been much confusion over job data. One view says we have had jobless growth (Centre for Monitoring Indian Economy, International Labour Organization data). The government says 49 million jobs were created in 2019-23 (Reserve Bank of India, Periodic Labour Force Survey), but these were mainly in agriculture and informal sectors, rife with underemployment and low wages. India is not creating enough well-paying jobs.

In its first post-election Budget, the government implicitly acknowledged this by putting employment as its top theme (others are skilling, MSMEs, middle class), and proposed several initiatives to promote it. But this is not the first Budget to emphasise jobs. Soon, it becomes business as usual. It has taken the electorate to remind us that policies haven't delivered, and we face a crisis.

I am not an economist, and will not attempt to add value to the debate on the right economic paradigm(s) (labour- vs capital-intensive, manufacturing vs services) for job creation. However, as a management consultant, I am trained to look beyond the obvious, take a systemic view, and explore if there is a meta-theme that can coalesce the "symptoms" into a focused actionable objective, avoiding costly band-aid solutions with uncertain outcomes.

In business, often, the best way to start is by talking to the "customer". Over the past few years I have had many conversations with leaders on this topic. Let me relate three.

The first was with an Indian business leader enjoying significant exports. I asked him how to increase investment for exports; he responded with a rhetorical question: "Why has private investment in India slowed down despite good growth and a huge potential? In such an (poor) investment climate, expecting big investments for exports is a big ask."

The second was with the India CEO of a global industrial firm. I asked him two related questions. Why has India not been able to replicate the China model despite all the talk? Specifically, what would it take for his firm to make a bigger investment bet in India? His answer: "When our global board evaluates investment proposals, they always have several options. The board asks us how long will it take to set up the plant. My answer is usually in years. Thailand says they will do it in months. The risk-adjusted attractiveness of India is often less than others."

A top-notch investment climate involving central ministries and departments, states, and expertise domains working in 'silos', are complex 'systemic' policy outcomes

To get a fuller sense of the "system", as consultants, we also understand the "internal" customer's views, which in this case are senior government officials. A conversation with a former secretary of a ministry was quite interesting. "Talking about ease of doing business, how many regulations have been simplified, etc. is not helpful. We can thump our chests, but the key question to ask is that does an entrepreneur, big or small, find it easy to make investments (new or brownfield)?" His answer was no. He added, "We announce lots of policies covering jobs in every Budget. But the 'instrumentality' to convert the policies into outcome is weak at best."

I drew several insights from the customer discussions.

■ While there are many economic levers, at a fundamental level, jobs are created by investments. We have to make our investment climate far more attractive and the process easy, transparent, and quick. Investors should "want" to invest in India ahead of other nations and not only when they have limited choices (such as the China+1 pitch).

■ Investors, especially foreign, evaluate proposals and use comprehensive financial metrics like the cost of goods sold (CoGS), which combines factor, regulatory, and social costs with those of risk and "speed to market". Policy-driven improvement in one could easily be offset by weaknesses in others. And today, unlike three decades ago when the big shift of manufacturing capacity from west to east started, CoGS comparison is not with the west but among competing developing countries. We have to at least achieve parity on overall "system" competitiveness.

■ Such metrics measure "system performance". But historically, India's industrial policies have individually targeted different parts of the "complex industrial system" with often indifferent outcomes. The performance-linked incentive scheme implicitly recognises this disadvantage.

This leads me to my most important conclusion. A top-notch investment climate or competitive CoGS, which involve central ministries and departments, states, and expertise domains working in "silos", are complex "systemic" policy outcomes. Our governance structure was designed primarily to deliver sectoral outcomes. We have to rethink the "instrumentality" for executing today's complex multi-sectoral and multi-domain policies.

Here again, the market can give some pointers. As every large company knows, large-scale transformation cutting across business units, countries, and functions is tough. Success has several key ingredients. First, leaders acknowledge the "root cause(s)" and do not react to symptoms. They build consensus among key stakeholders with different positions. They take risks, often adopting a de-novo approach to break out of legacy thinking. They create structural ownership, even if it means setting up teams outside the "core", with clear targets, accountability, and seniority-cum-decision rights over resources. The implementation plan breaks the "system" objective into smaller time-bound projects, with close coordination among different multi-functional project teams with cross-linked incentives. Finally, they are metric- and real-time data-driven. We have to customise and adopt such a playbook.

One of my former colleagues in BCG used to say that you can't fly over a tall mountain in the flight path by becoming a more efficient turboprop. You have to transform into a jet. India faces a looming artificial intelligence and job-creation mountain. No doubt, we have become a more competitive turboprop, but we need to transform into the jet to deliver well-paying jobs.

Views are personal

Federal Reserve markets' wild ride has just begun

HAS THE US Federal Reserve gone too far in its fight against inflation, tipping the world's largest economy into a damaging recession?

This troubling question has shaken global markets out of a long period of calm. Expect more turbulence before an answer emerges.

Two weeks ago, I switched allegiance from hawk to dove, dropping my support for higher interest rates and arguing for immediate cuts to avert a recession. Not a moment too soon, it turns out. Since then, evidence of a weakening labour market and moderating inflation has accumulated rapidly, strongly suggesting that the Fed is behind the curve.

Most notably, the three-month average unemployment rate reached 4.13%, up 53 basis points from its lowest level of the prior 12 months. This breaches the 50-basis-point threshold that, as recognised by the Sahm rule, has always indicated a US recession and much higher joblessness to come.

Beyond that, payroll growth has slowed along with hiring and quit rates, while initial and continuing jobless claims have risen. On the inflation front, the Fed's preferred measure — the core deflator for personal consumption expenditures — registered its third consecutive benign monthly reading in June, up just 0.2% from May. Average hourly earnings were up 3.6% in July from a year earlier, compared with 3.8% in June, consistent with the slowing trend in the second-quarter Employment Cost Index.

BILL DUDLEY

Bloomberg

Many economists — including Claudia Sahm herself — argue that the Sahm rule doesn't necessarily apply this time: Strong labour force growth, rather than firing, has driven the rise in the unemployment rate. "A statistical regularity is what I'd call it," said Fed Chair Jerome Powell, when asked about the rule. "It's not like an economic rule where it's telling you something might happen."

They might be right, but I wouldn't base monetary policy on that assumption. The Sahm rule worked just fine in the late 1960s and 1970s, when the labour force was also growing quickly. It reflects a fundamental economic process: A deteriorating labour market tends to be self-reinforcing. Unemployed people and those worried about their job security spend less, which leads businesses to cut back further on hiring. When the Sahm threshold has been breached, unemployment has always gone much higher. The smallest trough-to-peak rise was nearly 2 percentage points.

What, then, should the Fed do? The longer it waits, the greater the potential for damage: Monetary policy is tight and becoming tighter as price and wage inflation moderate. It needs to get to neutral. Federal Open Market Committee members' estimates of the neutral interest rate range between 2.4% and 3.8% (I'd put myself in the top half of that range). This means there's a long way to go from the current effective fed funds rate of 5.3%. And if a recession materialises, the Fed will need to go into accommodative territory — to 3% or less.

An immediate rate cut is in order, but that's very unlikely. It wouldn't be consistent with Chair Powell's deliberative manner, and the Fed rarely makes such moves outside of its regular policy-making meetings — only when a severe shock changes the economic outlook dramatically or threatens financial stability.

That brings us to the next policy-making meeting on September 17 and 18. The Fed could cut by either 25 or 50 basis points, depending on what the economic data show between now and then. After that, the path is unclear. It could be a gradual series of 25-basis-point cuts ending below 4%, or a steeper descent into stimulus if the Sahm rule holds.

Uncertainty about the trajectory of monetary policy will probably remain high for many months. So prepare for more volatility in stock and bond markets.

A witchcraft to end biases

BIBEK DEBROY

For a start, should NCRB reporting be refined, with a separate category of crime for both witchcraft and witch-hunting?

I ASKED A young man if he had heard of witches. Thanks to *Harry Potter*, he had. There were the Salem witch trials in 1692 and 1693 and witches routinely feature in films and fiction. There are the good and wicked witches of *The Wizard of Oz* and we read about witches on broomsticks and their covens. Our films and fiction often feature "*dayans*".

I asked our young man if he had heard of Birubala Rabha (she fought against witch-hunting all her life, was conferred a Padma Shri in 2021, and died this year). He hadn't. That's understandable. Indian society has many slices. In July 2021, the UN Human Rights Council adopted a resolution on elimination of harmful practices related to accusations of witchcraft and ritual attacks (HPAWR). Through UN, we have some data on documented HPAWR (between 2009 and 2019) in 60 countries. Understandably, many cases go unreported and undocumented. Nevertheless, the total figure is 20,000. We might think this is an African problem. As the UN compilation shows, that perception isn't true. The intensity might be more in Africa. But HPAWR exists in the US and Europe, and even in India. The National Crime Records Bureau (NCRB) has been a standard source of data on crime in India. It has a category on "motives for murder" and mentions witchcraft. In 2022, there were 85 such murders, concentrated in Chhattisgarh, Madhya Pradesh, Jharkhand, and Odisha. In addition, there are instances from Assam, Bihar, and Telangana. The numbers may have declined a bit. But we are still at about 100 a year, and these are just murders with witchcraft as a motive.

The word "witch" is gender-neutral, etymologically, although there is a popular perception that the male of the species is wizard (wicca), while the female is a witch. Ipsita Roy Chakraverti is a familiar name in some Kolkata circles. She declared herself a witch, a good one (she is also an author). In principle, witchcraft can be benevolent. But in perception and in practice, it is dubbed malevolent. The roots are old. However, the dubbing as malevolent is used for crimes against women, not always leading to murder. As a less diabolical motive, there is lack of education and ignorance, with mental health patients dubbed as witches, especially when there is disease in the neighbourhood. As a more diabolical motive, there are widowed and single women, with their property being a target (there are also examples of childless women and young and educated women who become a threat to vested local interests). Do you remember the film *Kala Sach*, based on a true story? What do we do about witch-hunting practices? Depend on the spread of education and awareness, or on NGOs and panchayats? Jharkhand has Project Garima, to restore the dignity of women branded as witches. Assam has Project Prahari, a community-policing initiative. Should a country aspiring to be a developed country do more, or should one hope that the problem will simply wither away with time?

Odisha penalises witch-hunting, but penalises the practice of witchcraft too. Assam and Rajasthan also punish alleged witches

One can invoke the Constitution, the Indian Penal Code (IPC), and Protection of Human Rights legislation. But some states have specific legislations — Prevention of Witch (Daain) Practices Act (1993) in Bihar; Prevention of Witch (Daain) Practices Act (2001) in Jharkhand; Tonahi Pratadna Nivaran Act (2005) in Chhattisgarh; Prevention and Eradication of Human Sacrifice and other Inhuman, Evil and Aghori Practices and Black Magic Act (2013) in Maharashtra; Prevention and Eradication of Inhuman Evil Practices and Black Magic Act (2017) in Karnataka; Prevention of Witch Hunting Act (2015) in Rajasthan; and Witch Hunting (Prohibition, Prevention and Protection) Act (2015) in Assam. Notice the vintage of legislation. These are all relatively recent, reflecting the belief that a modern country should have specific legislation to address the issue. There is no Union legislation, though a private Bill was introduced in 2016. There are the usual problems with criminal laws — low rates of prosecution, low rates of conviction when prosecuted, and penalties that are hardly punitive.

Perhaps more importantly, the intent of the legislation is not always clear. Take Odisha as an example. It penalises witch-hunting, but penalises the practice of witchcraft too. Assam and Rajasthan also punish alleged witches. Rajasthan also penalises communities/groups. Maharashtra's focus is on the practice of black magic. A column is not the place to compare and contrast state-specific laws, except to point out that they are often like holdalls, with everything dumped in. For a start, should one carefully distinguish practice of witchcraft from witch-hunting? And certainly, for a start, should NCRB reporting be refined, with a separate category for both crimes, not simply murders with witchcraft as a motive? Should the IPC (and now its replacement) have specific sections on both crimes? More generally, legislation doesn't work if it gets stuck in a tardy criminal justice system without police reforms. Our young man, with dreams of a developed nation and hailing from metropolitan India, may not be aware of a problem that has plagued parts of our rural society for ages. However, it isn't quite a matter of pride that in UN documentation, India figures in the South Asian list, along with Nepal. And, to repeat a point made earlier, this is incomplete compilation and reporting. The numbers are probably higher.

LETTERS TO THE EDITOR

Lessons from Bangladesh

Apropos of "Tightrope walk" (*FE*, August 7), it is indeed a tightrope walk for India. The developments in Bangladesh cannot be brushed aside, and they could impact India in various aspects. Politically, India is already seen as an island of democracy in the ocean of hostile autocracies. Smooth sailing in economic development is not to be taken lightly. The events in Sri Lanka, Nepal, Pakistan, Afghanistan, Myanmar, and now in Bangladesh bear a common factor. The economic woes faced by the public are taken advantage of by those forces always waiting to stifle the hopes of humanity. Bangladesh, in spite of registering economic growth, could not ensure inclusive growth and kept a vast majority away from accessing the benefits. Such vulnerable victims can play into the hands of any force. Therefore, instead of seeing the unfortunate developments in Bangladesh in isolation, the right lesson should be taken for a positive move ahead in the interest of all.

It is regrettable that Sheikh Hasina quit her post of Bangladesh Prime Minister facing public fury. She was elected to the chair and the going was good until the job quota protests spiralled. She maintained a good relationship with India and other neighbouring countries. She crafted draconian laws to suppress dissent and maintain firm control. The absence of opposition in the parliament, the control of media, and a tendency to surround herself with cheerleaders insulated her from public criticism. She failed to realise that political achievements were no substitute for civil liberties.

PLATFORM POWER

Thomas Dohmke, CEO, GitHub

Every developer in India on GitHub can become an AI engineer, generating a new wave of AI applications that stand to accelerate India's competitive advantage in the age of AI

ARTIFICIAL INTELLIGENCE IN CHILDCARE

Speech-impaired mothers just got their voice back

Short voice samples are used to create personalised lullabies

TOSHIRO AGARWAL

IN AN ERA when technology is reshaping our lives, LullabAI stands out for its blend of innovation and empathy. Developed by Alembic CSR and Havas Life Mumbai, this web-based platform powered with AI empowers speech-impaired mothers to create personalised lullabies in their own voices.

At the core of LullabAI is a sophisticated AI system that transforms short voice samples from speech-impaired mothers into personalised lullabies. The platform utilises advanced data cleaning, augmentation, and model training techniques to capture the essence of a mother's voice. This voice is then applied to a library of pre-recorded lullabies, creating a deeply personal experience. The result is a lullaby that a mother can play for her child anytime, ensuring that her unique voice and emotions are conveyed.

BRIDGING THE GAP

- LullabAI empowers speech-impaired mothers to create personalised lullabies in their own voices
- Initially, LullabAI will launch with a single language and intends to eventually accommodate over 100 languages, both Indian and foreign
- Although the platform is intended to recreate lullabies, it has the potential to get into storytelling as well

Lullabies are crucial for a child's development, fostering emotional bonding and growth especially in India. For speech-impaired mothers, participating in this tradition has been challenging. LullabAI bridges this gap, allowing these mothers to share their voices and emotions with their children.

In India, the AI market was valued at an impressive $4.1 billion in 2023. Among the various sub-segments of IT, machine learning boasts the largest share, estimated at $2.7 billion. The industry is projected to grow to $23.4 billion by 2032.

Sangeeta Barde, CEO at Havas Life Mumbai, India, says, "LullabAI is about touching lives and creating meaningful connections. We are proud to be part of a project that brings such joy and empowerment to mothers."

The Indian Constitution recognises 22 languages as the official languages spoken across the country; in reality, there are over 120 languages and 270 mother tongues. Initially, LullabAI will launch with a single language and intends to eventually accommodate over 100 languages, both Indian and foreign.

Sachin Talwalkar, chief creative officer at Havas Life Mumbai, says that although LullabAI is currently intended to recreate lullabies, it also has the potential to get into storytelling. He says, "LullabAI can also be a valuable tool for working, busy mothers who want to sing to their babies but are unable to do so. They can even use it to narrate bedtime stories."

To ensure that this innovative platform reaches as many mothers as possible, Alembic CSR plans to engage its extensive field force of over 3,000. Atul Suri, senior VP & SBU Head at Alembic, says, "They will take the platform to gynaecologists and paediatricians across India, ensuring that no mother misses out on this unique experience."

Democratise data for better decision-making

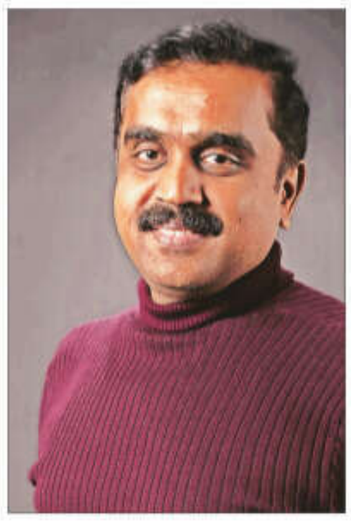

High-quality data is the linchpin of successful AI systems: Brillio CTO

SUDHIR CHOWDHARY

ARTIFICIAL INTELLIGENCE can transform industries and promote innovation but successful deployments can be quite challenging, leaving many organisations to wonder why their AI projects fail, according to Chander Damodaran, MD & global CTO, Brillio, a Santa Clara, California headquartered digital technology company with development centres in Bengaluru, Pune, Hyderabad, and Chennai.

Citing a Gartner study, Damodaran said that 85% of AI projects fail to deliver the expected business value. While businesses are adopting AI faster than before, the complexity of enterprise-level AI adoption continues to be a challenge. Organisations who adopted AI before ensuring they had the right data are struggling to prove value and trust with the use-cases built over bad data.

In his opinion, one of the key reason for this is missing good quality and quantity of data. "Many organisations still lack the foundational practices to create value from AI at scale without the right AI strategy at an organisational level. There is a need for a revived AI strategy in this new era of GenAI and co-pilots, where the ecosystem is continuously evolving," he pointed out.

Chander Damodaran, MD & global CTO, Brillio

AI is the tip of the spear. However, two factors that drive the success of AI are data and applications. Its true potential lies in its ability to empower humans, covering the entire lifecycle - from data-preparation to deployment. Today, the focus is shifting from "build with AI," which merely integrated AI tools into existing processes, to "humanise AI," which transitions from data and model-centric paradigms to a more application and human-centric ethos rooted in real user needs and experiences, Damodaran said.

"We recommend three key strategies to our customers to evaluate the total business impact that AI can drive. One, rewire technology and people to deliver higher productivity, save costs, and build AI and AI-enabled capabilities. Two, ingrain AI into business processes and operations to infuse AI into the core fabric of the organisation's methodology. Three, reimagine business models that will fundamentally reshape and disrupt every aspect of businesses," he added.

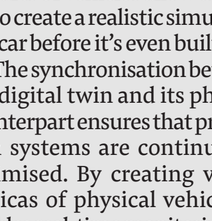

According to Damodaran, businesses need to create a "data culture," which requires shifting data ownership from the hands of specialists in order to democratise data. "This will enable enterprise-wide data access to everyone, helping it to become truly data-driven."

Brillio's growing global workforce of 6,000 professionals spans 12 locations across US, UK, Romania, Canada, Mexico and India, with 70% based in India," he added.

Growing reach of the digital twin

Virtual replicas of physical objects offer great opportunity

HITESH GARG

THE AUTOMOTIVE INDUSTRY is steering into the future with a revolutionary concept. Recently emerged as a powerful tool in the automotive sector, digital twin is a virtual, data-driven replica of a physical vehicle or component, created using a combination of sensor data, computer-aided design (CAD) models, and other sources. It serves as a virtual replica of physical objects and has paved the way for unprecedented opportunities in enabling enhanced efficiency, safety, and connectivity. In the automotive industry, it is being used to monitor product performance, identify maintenance issues, and optimise manufacturing processes.

Digital twin offers a vast potential for automotive companies at different stages of the vehicle's lifecycle, from design and development to manufacturing and sales. Vehicle design and prototyping have been lengthy processes, requiring extensive physical testing and validation. However, digital twins are changing the game. These virtual counterparts of vehicles allow designers to create a realistic simulation of a car before it's even built.

The synchronisation between the digital twin and its physical counterpart ensures that production systems are continuously optimised. By creating virtual replicas of physical vehicles, it enables real-time monitoring and analysis of driving conditions. This allows for proactive identification of potential hazards of driving strategies.

In the automotive industry, the global market size for digital twins reached $2.2 billion in 2022, with a projected growth to $34.6 billion by 2032. In India, the digital twin market was estimated at $2.59 billion in 2022 and is now anticipated to achieve a CAGR of 62.3%, reaching $76.67 billion by 2029. In another survey, the automotive sector ranks as the second-highest adopter of digital twin technology, with 76% of respondents from the automotive sector confirming the adoption of digital twins in their firms. This growth is propelled by the advancements in cloud computing, IoT, and AI across niche industries.

While digital twin is an essential tech to ensure road safety of a vehicle, there are certain challenges in its adoption in India. One of the main provocations is data management and integration. As digital twin generates vast amounts of data, it becomes crucial to develop efficient systems that can process, analyse, and integrate this data seamlessly.

Another challenge lies in ensuring the privacy of sensitive information. With digital twin acting as virtual replicas of physical assets, protecting data from cyber threats becomes paramount. Implementing cybersecurity measures can help safeguard these digital ecosystems.

The promotion of the digital twin market in India has been bolstered by government initiatives such as the Digital India campaign and emphasis on self-reliance. Attention to this technology is growing with calls for an integrated National BIM and Digital Twin policy for India to harness digital transformation especially for construction and infrastructure sector.

Rationalisation of capital gains tax regime

THE FINANCE MINISTER in her Budget speech had proposed to reduce the tax rate on gains from the sale of immovable assets from an earlier rate of 20% (with indexation) to 12.5% (without indexation) for sale of immovable assets on or after July 23, 2024. On the face of it, the proposal was perceived as detrimental to the taxpayers, particularly ordinary people who hold immovable property and associated taxation close to their hearts. The proposal led to much consternation among taxpayers.

Old rules for long-term capital gains tax

BEFORE THE BUDGET 2024 proposal, long term capital gains (LTCG) arising from the transfer of an immovable property were subject to tax at 20%, with the benefit of indexation. Further, for any properties acquired before April 1, 2001, while computing capital gains, taxpayers could deduct the actual cost of acquisition of the property or the fair market value of such property as on April 1, 2001, whichever is higher. Obviously, the higher of the two amounts would be deducted after indexation. For the said purpose, the fair market value of a property as on April 1, 2001 as per the provisions of the Income-Tax Act, 1961, would be the actual market value of the property or its stamp duty value, whichever is lower, as on the said date.

LTCG TAX AMENDMENT

Will real estate sector get its mojo back?

The amendment to the Budget 2024 proposal on removal of indexation benefit on property sales has given relief to those who could be impacted by the retrospective taxation element. ***Yogesh Kale*** explains how allowing property owners to choose between the old and the new capital gains tax regimes can give a fillip to the real estate sector

12.5%

LTCG TAX WITHOUT INDEXATION ON SALE OF PROPERTIES BOUGHT ON OR AFTER JULY 23, 2024

FOR PURCHASES BEFORE THIS DATE, ONE CAN OPT FOR LTCG TAX AT 12.5% WITHOUT INDEXATION OR AT 20% WITH INDEXATION

> 24

MONTHS HOLDING PERIOD FOR LTCG TO APPLY ON SALE OF IMMOVABLE PROPERTY

What Budget 2024 originally proposed

IN BUDGET 2024, the government had originally proposed to tax long-term capital gains (including the gains accruing from sale of immovable property which was held by taxpayers for more than 24 months) at the rate of 12.5% with abolishment of indexation benefit, for all the transfers taking place on or after July 23, 2024.

Amendments to LTCG on property sale

UPON RECEIVING VARIOUS representations, the government has addressed the concerns of taxpayers. The fine print of the Finance (No. 2) Bill, 2024 passed by the Lok Sabha on Wednesday contains several amendments to the Bill, including a grandfathering clause in relation to the long-term capital gains from transfer of immovable properties.

The grandfathering clause would provide an option to taxpayers (individuals / Hindu Undivided Family) to calculate the tax on the long-term capital gains from transfer of an immovable property acquired before July 23, 2024, either at 12.5% without indexation or at 20% with indexation, whichever is beneficial to the taxpayer.

Impact on real estate transactions

THE INTRODUCTION OF grandfathering provisions has definitely set to rest the anxiety amongst the taxpayers who already hold immovable property. The provisions ensure that the taxpayers are not at a loss because of removal of the indexation benefits. Moreover, the presentation after the Budget showed that extensive analysis was done by the government behind the scenes, and it was demonstrated that reduction of tax rate to 12.5% along with removal of indexation benefit would benefit taxpayers in many cases. So, while the concerns of the taxpayers who already hold properties and plan to sell them in the future are addressed by the proposed amendments to the Finance (No. 2) Bill, 2024, according to the analysis published by the Centre, many of the future buyers may also not be at a loss due to the new tax rate of 12.5% without indexation proposed in Budget 2024.

REDUCING DEMAND FOR TRADITIONAL ENGINEERS

IT firms shifting focus to AI-skilled new-age roles

PADMINI DHRUVARAJ
Bengaluru, August 7

AS AI ADOPTION and advancement increase, IT companies are shifting focus from traditional roles like system and DevOps engineers to new-age roles that combine skills in AI, machine learning (ML), data analytics and robotic process automation (RPA).

Krishna Vij, business head at TeamLease Digital, said, "The rise of AI and automation is reducing the demand for traditional system and DevOps engineers, but also creating new opportunities in AI-related fields."

There has been a noticeable decline in the demand for system engineers, with a 29% drop from fiscal 2022 to fiscal 2023 and a further 64% drop from FY23 to FY24, according to Kapil Joshi, deputy CEO of Quess IT Staffing.

"This decrease primarily reflects a period of adjustment after significant hiring sprees in previous years and a temporary slowdown in certain sectors. However, demand for system engineers has been picking up in other areas as industries increasingly adopt digital transformation strategies."

Infosys, which recorded an unprecedented hiring spree in 2022, is now grappling with delays in onboarding over 500 freshers, many of whom have been waiting for more than two years. However, the IT company said that it is "honouring all the offers that it has made... As onboarding is always aligned with client requirements, we spread the joining dates of various batches to align with changes in project schedules and to ensure employees have access to the right training," an Infosys spokesperson had told *FE*.

The traditional roles of system engineers are being transformed rather than entirely replaced by AI, experts said. "AI is not expected to fully replace system engineers; rather, it will transform their roles and create new opportunities. AI complements system engineers by automating routine tasks, allowing them to focus on strategic and innovative activities," Vij said.

However, roles like data entry, customer service, technical support, traditional software developers, and network and system administrators are under greater threat from AI advancements.

Krish Ramineni, CEO and co-founder of Fireflies.ai, observes a significant shift in the hiring landscape.

"From 2022 to 2024, there has been a more than 50% increase in job openings related to AI and machine learning. On the flip side, traditional engineering roles like frontend, mobile, and backend development have seen a decline of about 20%. Tools like GitHub Copilot, which are now writing 40% of code for engineers, are a testament to this shift," he said.

The demand is currently strong for roles that combine traditional engineering skills with expertise in AI, ML, data analytics, and robotic process automation (RPA).

Milind Shah, managing director of Randstad Digital in India, said, "Companies are prioritising individuals with expertise in AI integration, knowledge of ML frameworks, understanding of data structures and algorithms, and other skills rather than those who are merely acquainted with conventional skill sets."

Despite the decline in traditional roles, the need for skilled professionals who can leverage these technologies effectively continues to grow. Further, the role of software engineers, while evolving, remains secure for the foreseeable future.

In India, the demand for skilled software engineers remains strong, with 5.2 million professionals already active and this demand is projected to rise from 17% in 2023 to 22% in 2025, requiring nearly 1.1 million engineers by then, Vij said.

Further with IT firms like Infosys, Wipro, and LTI-Mindtree, along with mid-tier ones, reporting multi-year high utilisation rates during the April-June period, hiring of freshers is expected to gain pace in this fiscal year.

Most retail ops resume in Bangladesh: Marico

REUTERS
Bengaluru, August 7

INDIAN CONSUMER GOODS maker Marico said on Wednesday that a majority of its retail sales force and distributors have resumed operations in Bangladesh following a brief interruption, and that it expects manufacturing operations to resume soon.

Bangladesh saw violent student-led protests that culminated in the resignation of Prime Minister Sheikh Hasina on Monday.

Following this, its army announced the formation of an interim government, with Bangladesh's president appointing Nobel laureate Muhammad Yunus to head it.

The 'Parachute' hair oil maker gets 44% of its international revenues from the country, where it has a distribution network of more than 770,000 outlets, as per Marico's website.

"We would like to inform you that operating conditions in the market are gradually improving," Marico said in a statement.

"We firmly believe that the medium-term prospects of Marico's business in Bangladesh remain intact." International revenues account for about 26% of Marico's total revenues.

Analysts have estimated Marico's revenue exposure to Bangladesh at 11%.

Cloudera sees India business doubling this fiscal

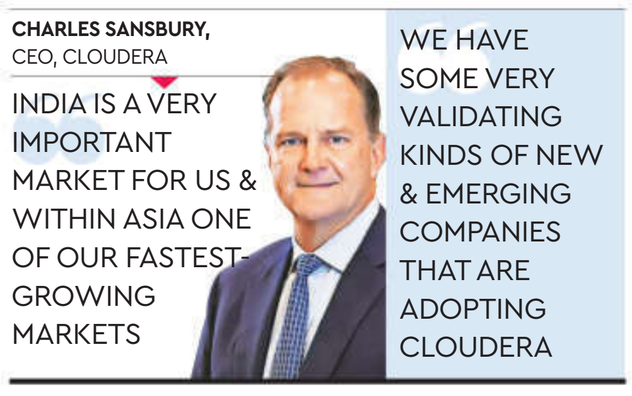

JATIN GROVER
Singapore, August 7

CALIFORNIA-BASED ENTERPRISE AI company Cloudera expects its business from India to double in FY25, in line with its performance in the last financial year, company executives told *FE*. The company follows the February-January financial year. Cloudera helps enterprises process data on any public or private cloud into valuable and trusted insights.

The growth in India, it said, can be attributed to the growing demand of managing critical applications with regard to getting data and analytics, increase in generative AI (GenAI) use cases with data feeding and large language models (LLMs) fine-tuning, need for hybrid cloud services as well as sovereign data infrastructure.

Globally, the company surpassed the $1-billion revenue mark in FY24. The company did not share specific numbers, but sees North America topping the revenue share, followed by Europe and Asia. From India, Cloudera expects a volume-led growth because of smaller ticket sizes and reluctance of companies to pay higher prices for software solutions than markets like North America.

"India is a very important market for us and within Asia one of our fastest-growing markets," Charles Sansbury, CEO, Cloudera, said on the sidelines of the Evolve 2024 event. "My experience is that you get to a point where North America is 40-50% (of revenue) and then the remainder is split between Europe, Middle East (West Asia) and Asia, with Asia probably being around a quarter of our revenue," he added.

In India, the company counts the National Stock Exchange (NSE), PhonePe, Bharti Airtel, Reliance Jio, IDFC First Bank, and Axis Bank, among others, as its customers.

"We have a very good mix of the core mature businesses in the region plus some very validating kinds of new and emerging companies that are adopting Cloudera," Sansbury said, adding that the opportunity in India is one of the two-three best of any geographies in the world because of the uniqueness of the product fit.

For example, stock exchanges such as the NSE process about 20 billion messages and manage about 300 million orders a day. The exchanges are using Cloudera for managing critical data seamlessly. "These (Cloudera solutions) are not side use cases but critical use cases that are linked with the topline of clients and affect how they serve customers," said chief strategy officer Abhas Ricky. There is no other product in the market today that can provide companies the scale that Cloudera provides at the price points, he added.

Seeing the demand in the Indian market, Cloudera is looking to increase its sales and the go-to-market team in a bid to tap more customers and grow its revenue. "We are talking about adding headcount in India. From a company perspective, that's a very large office for us in Bengaluru in terms of developers and support. Even the sales organisation, we're talking about increasing capacity by about 10-20% next year. We have a strong sales leader there and it has led to our growth," chief revenue officer Frank O'Dowd said.

The company has 600 people in its product development team in India and about 40-50 in the go-to-market team. Cloudera currently has its team in Chennai and Bengaluru for product development. The company manages its commercial operations from Delhi, Bengaluru, and Mumbai.

Turkish Airlines seeks new India destinations

FE BUREAU
New Delhi, August 7

THERE IS A plan to expand the scope of the India-Turkiye Air service agreement with the addition of new destinations, Turkish Airlines said on Wednesday.

The airline has a codeshare agreement with IndiGo covering six domestic destinations

Speaking to *FE*, Erkan Erdogan, general manager, northern and eastern India, said that as an airline, "we wish" to have revisions in current bilateral agreements with the civil aviation ministry for an expansion of the air service agreement.

"There is huge potential in India that is not being realised because of the limited capacity. If the agreement allows, with our fleet availability, we would like to operate direct flights between Istanbul and major metro cities, which will also give an opportunity for Indians to explore our wide network operating in 130 countries," Erdogan said.

According to him, the airline currently operates 14 weekly flights from New Delhi and Mumbai to Istanbul with a B777 (400 capacity). "Our current bilaterals are mostly utilised, and the demand for transit travel from India to Europe, the continental United States, and South America warrants the addition of more destinations in the bilateral air service agreement," he said.

"If given a new point of call (destination) in India, then we will deploy wide-body aircraft, subject to our fleet availability. We are looking at destinations like Kolkata, Hyderabad, Bangalore, and Chennai," Erdogan added.

The airline also has a codeshare agreement with IndiGo covering six domestic destinations from Delhi and Mumbai.

Preamble still in NCERT textbooks, says Pradhan

UNION EDUCATION MINISTER Dharmendra Pradhan on Wednesday said the Preamble to the Constitution is very well there in NCERT textbooks of Class VI as he refuted charges made in this regard by Congress president Mallikarjun Kharge.

Earlier, Opposition Congress party raised in the Rajya Sabha the issue of dropping Preamble from certain NCERT textbooks, saying that this was an attempt to impose communal ideology on the country — a claim which Union minister JP Nadda countered, saying that the government was committed to protecting the Constitution.

During Zero Hour, Leader of the Opposition and Congress president Kharge said Preamble, which is the soul and foundation of the Indian Constitution, used to be published in NCERT textbooks.

Soon after Zero Hour, Pradhan said Kharge has made certain remarks on NCERT books of the education department. "I want to humbly put the facts in the House," he said.

AMENDMENTS TO BE INTRODUCED IN LOK SABHA TODAY

Non-Muslims on state boards among big Waqf Bill changes

ASAD REHMAN & APURVA VISHWANATH
New Delhi, August 7

FROM GIVING THE government a big say in regulating waqf properties, redefining how a property is deemed to be in the possession of waqf to changing the composition of waqf boards in states, the Centre is set to bring in key amendments to overhaul the regulatory framework of Muslim charitable endowments.

The Waqf (Amendment) Bill, 2024, which seeks to amend the Waqf Act, 1995, proposes to allow even a non-Muslim chief executive officer and at least two non-Muslim members to be appointed by the state government to the waqf boards at the state level.

Among the key changes proposed is to bring the district collector as the arbiter of whether a property is waqf property or government land.

The Bill states "any government property identified or declared as waqf property, before or after the commencement of this Act, shall not be deemed to be a waqf property." However, the amendment states that the collector will make this determination in case of a dispute and not the Waqf Tribunal.

Currently, under the 1995 Act, this decision is made exclusively by the Waqf Tribunal and as per Section 6 of the Act, "the decision of the Tribunal in respect of such matter shall be final." "In case the collector determines the property to be a Government property, he shall make necessary corrections in revenue records and submit a report in this regard to the state government," says the proposed Bill. Then, a crucial sub-clause adds that "provided that such property shall not be treated as waqf property till the Collector submits his report."

This means that until the government decides the issue, waqf cannot be in control of the disputed land. The proposed Bill, if enacted, will give the Central government the power to "direct the audit of any waqf at any time by an auditor appointed by the Comptroller and Auditor-General of India, or by any officer designated by the Central Government for that purpose".

The amendments also seek to completely remove the concept of "waqf by use" which means that a property can be deemed to be a waqf through use even if the original declaration is suspect.

In Islamic law, the dedication of a property as waqf was done largely orally until documentation became the standard norm. For example, even in the absence of a waqfnama, a masjid can be deemed to be waqf property if it is continuously used as such.

The Bill, by omitting the provisions relating to the "waqf by user," makes a waqf property suspect in the absence of a valid waqfnama.

Another key change in the Bill is introducing the concept of "adverse possession" with respect to waqfs. Under Section 170, the 1995 Act explicitly barred the Limitation Act from being applicable to waqfs. However, the Bill proposes to remove that exception, allowing the statute of limitations to apply. This would mean that squatters on a waqf property would have the right to seek adverse possession of that land and bars claims by the waqf board after 12 years.

For the establishment and Constitution of Central Waqf Council (which works for advising Centre, state governments and the waqf boards), the proposed Bill intends to give the power to the Centre to include three MPs (two from Lok Sabha and one from Rajya Sabha) without specifying that they have to be Muslim. In the original Act, the three MPs to be included in the council had to be from the Muslim community.

K Rahman Khan, former minority affairs minister at the Centre under the UPA-II government, said: "All of a sudden, the government has floated this Bill without consultations with the stakeholders, including the Muslim community. This Bill in total has undone whatever reforms the government had brought in 2013 through an amendment to the Waqf Act... They are abolishing the Tribunals and survey of waqf properties. No waqf will be registered without a deed. They have made the Collector the authority on issues related to waqf properties who is a government servant and not an individual authority."

Uttar Pradesh BJP MLC and former vice-chancellor of Aligarh Muslim University Tariq Mansoor said the proposal for reform of waqf "requires dispassionate analysis".

AMONG THE AMENDMENTS

- The Waqf (Amendment) Bill, 2024, proposes to allow even a non-Muslim CEO and at least 2 non-Muslim members to be appointed by state govt to waqf boards
- A key change proposed is to bring the district collector as the arbiter of whether a property is waqf property or govt land
- **By omitting provisions relating to 'waqf by user', Bill makes a waqf property suspect in absence of a valid waqfnama**
- Another key change is introducing concept of 'adverse possession' with respect to waqfs

Temples targeted in neighbourhood, threat to Sanatan Dharma, says Yogi

MAULSHREE SETH
Lucknow, August 7

REFERRING TO THE turmoil in Bangladesh and the "targeting" of Hindus there in the wake of ousted Prime Minister Sheikh Hasina's exit, Uttar Pradesh chief minister Yogi Adityanath on Wednesday stressed the need to learn from the mistakes of history and unite against the "impending crisis threatening Sanatan Dharma".

"*Aaj Bharat ke tamam padosi jal rahe hain. Mandir tore ja rahe hain. Chun chun ke Hinduaon ko nishana banaya ja raha hai* (Today, India's neighbouring countries are burning. Temples are being demolished. Hindus are being selectively targeted," he said, adding, "Still, we're not trying to find out the historical facts as to why such an unfortunate situation has arisen."

The CM was speaking at the inauguration of a statue of Paramhans Ramchandra Das in Ayodhya, who had played a significant role in the Ramjanmabhoomi movement.

Maintaining that the unity pledge taken by the seers paved the way for the construction of the Ram Temple in Ayodhya, Adityanath said this is not the "final destination" but a "milestone". The continuity of this campaign should be maintained to secure the Sanatan Dharma, he said.

UP CM Yogi Adityanath offers prayers at the Ram temple in Ayodhya on Tuesday PTI

He warned that if a society does not learn lessons from the mistakes of history, its bright future also gets eclipsed. "*Sanatan Dharma par aane wale sankat ke liye phir se ek jut ke karya karne ki larne ki awashyakta hai* (The need is to get united to work and fight for the impending crises facing Sanatan Dharma)," he said.

Calling for a campaign for the cause of the Sanatan Dharma, Adityanath said, "*Jatiwad se mukt, chhua chhut se mukt, ek aise samaj ki sthapna karna hai jiske liye Prabhu Shri Ram ne apna pura jeevan samarpit kiya tha.* (We have to build a society, which is free from casteism, untouchability – a society for which Lord Ram dedicated his entire life)."

He said efforts have been made by the government to ensure that Ayodhya gets its identity back, which has enhanced, he added, the "glory" of its seers and people.

Govt in talks with sovereign funds for Vi stake

VODAFONE IDEA HAS started showing signs of revival after the recent fundraise exercise. For instance, it has paid dues worth ₹1,500 crore, comprising revenue share licence fee and spectrum usage charges, to the department of telecommunications (DoT).

This includes, around ₹720 crore which were pending for the January-March quarter, while the balance is the full payment for the April-June period. These are concurrent dues, which are not covered by the four-year moratorium. This is for the first time in recent years, that the company has paid the statutory quarterly bills raised by DoT in full and on time.

The company has also paid the first instalment of ₹346 crore for the spectrum acquired in June auctions. Besides, it has also started clearing past dues of vendors such as Indus Towers.

At the end of the March quarter, Vodafone Idea's gross debt (excluding lease liabilities and including interest accrued but not due) stood at ₹2.16 trillion. The gross debt comprises deferred spectrum payment obligations of ₹1.3 trillion, AGR liabilities of ₹70,320 crore that are due to the government, debt from banks and financial institutions of ₹4,212 crore and optionally convertible debentures amounting to ₹160 crore.

At the end of March quarter, Vodafone Idea's gross debt stood at ₹2.16 trillion

The company is also engaged with a consortium of banks for debt funding of about ₹25,000 crore and additional non-fund-based facilities of up to ₹10,000 crore.

Further, the company's liability may get reduced by up to 50% in case of a positive verdict on the AGR dues case.

Last month, the Supreme Court agreed to hear a curative petition by Vodafone Idea seeking correction of alleged errors in AGR.

Vodafone Idea has also recently reached out to DoT seeking waiver on financial bank guarantee worth ₹25,000 crore that is required to be submitted for spectrum payment due in September 2025. The payment is for spectrum purchased before 2022 auctions.

The company's net loss for the January-March quarter expanded to ₹7,674 crore from ₹6,986 crore in the preceding quarter. The losses expanded owing to fall in revenues and base effect of the preceding quarter where it recorded a one-time gain of ₹755.5 crore.

Revenue from operations during the period fell 0.6% q-o-q to ₹10,607 crore. On a year-on-year basis, the revenue rose 0.7%. The company lost 2.6 million mobile subscribers, reducing its user base to 212.6 million at the end of March.

Liquidity surplus tops ₹2.5 trillion

THE CURRENT MONTH started with a surplus of ₹1.96 trillion on August 1, which increased to ₹2.5 trillion on August 2, ₹2.77 trillion on August 3 and ₹2.78 trillion on August 6, according to RBI data. The central bank has conducted five VRRR auctions in the first week of the current month. The RBI conducted VRRR auction of ₹1.5 trillion on August 2, for which it received bids worth ₹60,000 crore from banks, while the ₹1-trillion VRRR auction on August 5 received bids for ₹79,000 crore.

"Usually, liquidity remains comfortable in the first week of a month. Government spending has increased over the past month which has helped in increasing surplus in the banking system," the head of treasury of a public sector bank told *FE*.

RBI has resumed conducting VRRR auctions after liquidity in the banking system returned to surplus in July. The domestic banking system liquidity conditions have started easing from the prolonged tightness seen in Q4 of previous fiscal. The average daily net liquidity adjustment facility balance has been hovering around ₹1 trillion surplus during the month of July.

The lenders faced cash squeeze in May due to lower government spending resulting from the polls. The deficit stayed above the ₹1-trillion mark in May. The situation improved slightly in June but overall, liquidity remained in deficit mode.

Rising demand: Private firms mull adding thermal capacity

"ADDITIONS WILL DEPEND on future demand for power," he said.

Tata Power, which was not keen to add new capacities in thermal energy, will look at new projects depending on the opportunities and returns they offer, its managing director and chief executive officer Praveer Sinha said in a call on Tuesday.

Tata Power has so far maintained it will not do new thermal projects as it is focusing on renewable energy. The company is targeting two-thirds of its capacity as renewable energy by 2030.

"Situation is evolving. We will examine it as and when opportunity comes (for new thermal projects)," Sinha said, adding that the company will examine the thermal opportunities from energy security point of view.

Tata Power, which was not keen to add new capacities in thermal energy, will look at new projects depending on the opportunities and returns they offer

JSW Energy is also looking at adding greenfield capacity. "We will definitely look at this opportunity for adding further capacities in thermal space," said Sharad Mahendra, deputy managing director at JSW Energy during an earnings call with analysts last month.

It takes time to set up a new thermal power plant but whether they will go for any significant investment in thermal projects depends on power purchase agreements (PPAs) in hand, Mahendra said.

In Q1, JSW Energy's total thermal generation increased 4% to 4.6 billion units.

LTCG tax on realty revenue-neutral: FM

IN THE BUDGET for FY25, Sitharaman reduced the LTCG tax rate to 12.5% from 20%, for property. But, the benefit of indexation was scrapped for properties that were purchased on or after April 1, 2001. This led to a widespread perception that the post-tax gains from property sales could come down, causing lower demand for realty units, and fewer transactions.

Countering the Opposition's allegation that the Budget provisions are anti-poor and anti-middle class, the minister said, on the contrary, in the last two-years, "substantial relief" has been brought in for the middle class, with tweaks in the personal income tax slabs, increase in standard deduction, amnesty schemes (Vivad Se Vishwas), interrogation of technology in ITR filing process etc.

On the demand for reduction of central levies on petrol & diesel, the FM while mentioned BJP-ruled states cut VAT after the Centre announced excise duty cuts in March, the same has not been done by many Opposition-ruled states, such as Maharashtra, Tamil Nadu, and Punjab. However, states point out the fact that reduction of central levies automatically result in lower tax revenues for states, as their tax base reduces.

Meanwhile, on the issue of Goods and Services Tax (GST) levy on health insurance premiums, the FM said that the Centre has "not pocketed ₹24,529 crore" from those levies, as alleged by some quarters. As much as 73-74% of the revenues from the levy are appropriated by the states (by way of 50% direct share in GST proceeds and transfers from the divisible pool of taxes).

Sitharaman's response came days after Union minister Nitin Gadkari and West Bengal chief minister Mamata Banerjee wrote letters to her to remove the levy, and Opposition MPs protested in Parliament raising a similar demand.

Earlier this week, minister of state in finance ministry Pankaj Chaudhary informed the Parliament that GST collection from health insurance premium from FY22 to FY24 was over ₹21,000 crore, while that from health reinsurance premium was around ₹1,500 crore.

The FM said this issue has been discussed thrice in the GST Council, but the GST has still stayed. She also mentioned that even in the pre-GST regime, the health insurance premiums were taxed.

The finance minister mentioned that "small, old, petty, and unverified" (income) tax demands of 9 million taxpayers were removed from the records, from measures announced in the interim Bugdet. In February, the government had announced that outstanding tax demands up to ₹25,000 for the period till 2009-10 and ₹10,000 for the period FY11-15 will be withdrawn.

On the new tax regime (NTR), the FM said that as of July 31, in assessment year 2025, over 72% taxpayers chose the NTR, which is a drastic increase over the mere 3.8% adoption seen during assessment year 2024.

She also said that adoption of NTR doesn't mean that taxpayers are not investing, or saving. In fact, since 2019, 17.88 new folios in mutual funds have been added every month on an average.

Major cut in food weighting in CPI basket on the cards

SHRUTI SRIVASTAVA
August 7

A GOVERNMENT PANEL tasked with revising the nation's consumer price index is considering a substantial cut in the weighting of food, according to a person familiar with the matter, a move that could curb inflation spikes in the South Asian nation.

The panel, under the statistics ministry, is discussing a proposal to reduce the weight of food in the consumer price basket by as much as 8 percentage points, according to the person, who asked not to be identified as the discussions are private. The food and beverage category makes up 45.86% of the current CPI basket.

The CPI is currently based on consumer spending patterns surveyed in 2011-2012, which economists say are outdated and may be distorting the official inflation data the central bank uses to set interest rates. More recent surveys show consumers are spending less of their budget on food than they did a decade ago. Bloomberg Economics estimates inflation in June was 70 basis points higher than it would have been using new weights. A spokesman for the ministry of statistics and programme implementation didn't immediately respond to an emailed request for further information.

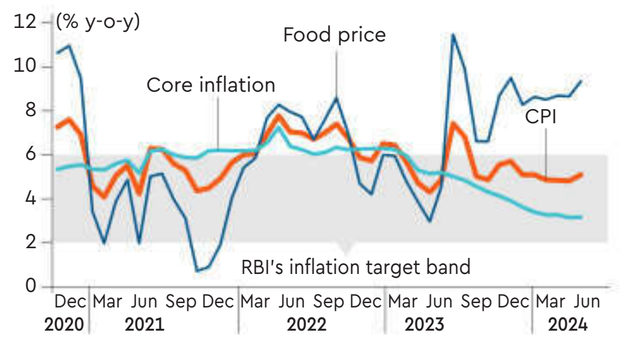

The RBI has kept interest rates unchanged for more than a year, and stuck to a relatively hawkish stance given inflation is above its 4% target. Economists surveyed by Bloomberg predict the RBI will likely hold again on Thursday.

Food is a big driver of inflation in India given its high weighting in the CPI basket. In June, food prices rose 9.36% from a year earlier, pushing up the headline inflation rate to 5.08%. Excluding food and energy costs, inflation was 3.15%. A revision of the CPI, which currently has some 299 items, would see redundant items such as horse cart fares, prices for video cassette recorders, and costs of audio and video cassettes likely weeded out of the calculation. The government panel is also discussing including consumer electronic products, such as smartphones in the updated index, the person said.

The changes to the CPI weights and the base year, which are under consideration now, will likely only be implemented by January 2026. The revisions are based on results of new consumer spending surveys, which the statistics ministry is still finalising. The entire process is expected to be completed sometime during 2025.

India's chief economic adviser V Anantha Nageswaran, a top official in the Ministry of Finance, last month argued the central bank's inflation target should exclude food. Several economists, however, said removing food from the CPI target wasn't appropriate for a country like India. Pronab Sen, India's former chief statistician, said Tuesday the central bank's interest rates can't directly affect food prices and the government should use fiscal policy interventions to target food inflation instead. **BLOOMBERG**

Power sector NBFCs see 'no impact' of rising yen

ARUNIMA BHARADWAJ
New Delhi, August 7

POWER SECTOR LENDERS such as REC and PFC are unlikely to have an impact on their debt servicing cost after the Bank of Japan raised its policy rate to 0.25% as these public sector lenders, while evaluating any foreign borrowing proposal, consider the cost on a hedged basis.

Of the total foreign currency borrowings of REC, nearly $2.9 billion equivalent of total foreign currency borrowings are with Japanese yen underlying. "A sizeable portion of the same is through fixed rate bonds or with coupon only swap wherein no impact will be seen in case of any change in policy rates," REC said.

The industry had been concerned that some of the infrastructure projects in India, especially those in the power sector, which are directly or indirectly funded out of yen-denominated loans, could turn costlier with their debt-servicing costs inching up. However, the economy-wide impact could be marginal again, as the largest Japanese loans to India are under fixed swapped rates, with currency risks hedged. "For the JPY floating benchmarks also, REC had considered the cost on the basis of the fixed swapped rates. Considering that JPY benchmark has been near-zero for a long duration of time, REC has been able to save a significant cost, and also even after recent increase in rates, the landed cost to REC is much lower than that estimated at the time of evaluation," according to the company.

The company has been fixing its Japanese yen floating rate borrowings through various hedging structures. "We don't see any impact on the REC's servicing cost or funding of projects," it said. The exchange rate between the US dollar and yen fluctuated over the past week. From around 155 on July 30, the yen surged to seven-month high — 141.675 per dollar at some point — on Monday, amid fears of a serious US economic downturn and bigger rate cuts by the Federal Reserve. As such, the dollar index fell below the psychologically crucial 103 level in Asian trade on Monday.

Out of REC's portfolio of ~ $16.6 billion equivalent of foreign currency borrowings, nearly $2.9 billion equivalent (18%) is on JPY underlying. "These debts as being hedged completely for principal there is no impact on REC's cost in relation to JPY debt," said the company.

State-owned NBFC in the renewable energy sector Indian Renewable Energy Development Agency (IREDA) also sees no impact of the increased rates by the Bank of Japan on its foreign currency borrowing going ahead. However, the NBFC will consider foreign borrowing only if the landed cost of the fund is cheaper than the domestic market, according to the company's chairman and managing director Pradip Kumar Das.

Microsoft among attractive employers in India: Randstad

40% of employees expect major AI impact on their jobs

MANU KAUSHIK
New Delhi, August 7

THREE OF THE top five most attractive companies to work for in India are part of the Tata Group. While Microsoft has emerged as the most favoured company in 2024, rising from the 5th spot last year, Tata Consultancy Services, Tata Power, and Tata Motors are also featured in the top 5 list, according to the latest Randstad Employer Brand Research 2024 report.

The report revealed that 40% of employees expect a significant impact of artificial intelligence (AI) on their jobs, while 26% anticipate a minor impact. Only about 6% expect to lose their jobs as a result of AI.

"Around one in two workers already use AI regularly. This is highest among Gen Z (60%). The majority of workers expect AI to have at least some impact on their jobs. Gen Z are slightly more negative about the impact it may have (12%)," the report said.

After increasing for the past two years, job-switching behaviour among employees in India appears to be stabilising. This is evident from the fact that both the rate of recent job changers and those inclined to switch have remained unchanged over the past year. "Millennials demonstrate the highest inclination for job switching (33%) and plans to change (47%)," the report added.

Job seekers in India heavily rely on LinkedIn and Google, which have the highest reach and boast a high success rate for job searches

The report further said that improving work-life balance (51%) remains the strongest motivator for leaving jobs, followed by a lack of career growth opportunities (38%) and low compensation (34%). However, only 29% of employees received compensation that fully covered the rising cost of living, while 40% received compensation that partially covered these costs.

In terms of finding new opportunities, job seekers in India heavily rely on LinkedIn and Google, which have the highest reach and boast a high success rate for job searches. "This trend holds true across all demographics. Additionally, there is a diverse array of other channels utilised by more than one-third of job seekers, suggesting that individuals typically utilise multiple sources in their job search. Notably, channel usage tends to be higher among those with higher education levels," the report said.

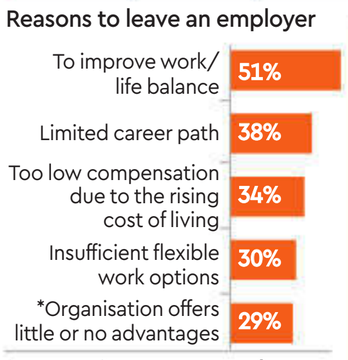

A vast majority of employees (61%) continue to work remotely in some capacity. Despite many companies implementing return-to-office policies over the past two years, this trend highlights the enduring nature of remote work in the modern work environment. "This is something employers should continue to offer given that a third of workers cite inflexible working as a reason to seek new employment," the report said.

This growth is likely fueled by high-growth sectors such as technology, digital marketing, and e-commerce."

VINESH PHOGAT DISQUALIFIED OVER WEIGHT

100 grams weigh down over a billion hearts

MIHIR VASAVDA
Paris, August 7

IN A HEARTBREAKING twist of fate, wrestler Vinesh Phogat was disqualified from the 50-kg gold medal bout at the Paris Olympics after failing the weigh-in because she was 100 grams overweight.

In a statement in Lok Sabha, Sports Minister Mansukh Mandaviya said the Indian Olympic Association (IOA) has lodged a strong protest with the United World Wrestling (UWW), the sport's governing body.

Phogat was to face USA's Sarah Hilderbrandt in the final on Wednesday, but will now return empty-handed despite becoming the first Indian woman wrestler to have reached an Olympic final on Tuesday night.

Dr Dinshaw Pardiwala, Chief Medical Officer of the Indian contingent in Paris, confirmed that Phogat was 100 grams above the permissible weight, and said she and the accompanying medical team raced against time, all night, to help her make the cut.

Vinesh Phogat during her cool-down exercises after the 50-kg category wrestling semifinal in Paris on Tuesday

The Indian Express has learnt that the wrestler was about 2 kg overweight on Tuesday night, after she won three bouts to reach the final, defying all odds. She didn't sleep the entire night and did everything in her capacity to meet the criteria — from jogging to skipping to cycling. Pardiwala said the team even tried drastic measures like "cutting her hair" and "shortening her clothes".

But, "despite all efforts", she was still 100 grams overweight at the time of weigh-in, he said. "Vinesh was found to be 100 grams over her 50-kg weight category, and hence, she was disqualified. All possible drastic measures, including cutting off her hair, were used. However, she was not below her allowed weight of 50kg," Dr Pardiwala said in a statement.

Sources said the Indian delegation pleaded for some more time to give her a chance to shed the last 100 grams, but to no avail. Pardiwala said there are several factors involved in losing weight before any competition and the process has its after-effects as well. Saying that "small amounts of water had to be given to prevent dehydration", Pardiwala said Phogat's post-participation weight was found to have increased. "The coach initiated the normal process of weight cut that he has always employed with Vinesh and felt confident that it would be achieved," he said.

"Wrestlers usually participate in a weight category less than their natural weight. It gives them an advantage since they are fighting with less stronger opponents... The process of weight cut involves a calculated restriction of food and water along with sweating from exercises and sauna till the morning weigh-in," he explained.

"This weight cut causes weakness and energy depletion, which is counter-productive to participation, and hence, for energy restoration, limited water and high energy foods are given after weigh-in," he said. He said that Phogat's nutritionist had calculated this intake to add about 1.5 kg. "Sometimes, there is also a rebound weight gain following competition," he said.

After her disqualification, Phogat was taken to the Games Village polyclinic due to dehydration, and she is currently stable and her parameters are normal, he said.

IOA president PT Usha said she was "shocked and disappointed" and the IOA was following the matter "in the strongest possible manner".

PM asks PT Usha to lodge protest with IOC

PRESS TRUST OF INDIA
New Delhi, August 7

WRESTLER VINESH PHOGAT will always be a champion, said politicians across party lines as they came out in support of the grappler after her disqualification from the Paris Olympics, with the government asking the Indian Olympic Association to take "appropriate action" in the matter.

In a shocking reversal of fortunes, Phogat was disqualified from the Olympics after being found overweight by 100 gram ahead of her women's 50 kg final, leaving her medal-less within hours of coming close to an unparalleled gold.

Vinesh, you are a champion among champions! You are India's pride and an inspiration for each and every Indian

PRIME MINISTER NARENDRA MODI

Prime Minister Narendra Modi and President Droupadi Murmu described the setback as painful but said Phogat is a champion among champions for the more than 1.4 billion people of India and the nation's pride.

In a statement in the Lok Sabha, Union Sports Minister Mansukh Mandaviya said the Indian Olympic Association lodged a strong protest with the United World Wrestling (UWW) over Phogat's disqualification and Prime Minister Modi has asked IOA chief P T Usha to take "appropriate action".

Leaders of several parties, including the Congress, demanded accountability be fixed and the decision leading to her disqualification be reviewed.

On X, Modi said, "Vinesh, you are a champion among champions! You are India's pride and an inspiration for each and every Indian."

"Today's setback hurts. I wish words could express the sense of despair that I am experiencing. At the same time, I know that you epitomise resilience. It has always been your nature to take challenges head on," he said.

(iii) The Buyback may help in improving its return on equity, by reduction in the equity base, thereby leading to long term increase in shareholders' value; and

(iv) The Buyback gives an option to the Eligible Shareholders to either (a) participate in the Buyback and receive cash in lieu of their Equity Shares which are accepted under the Buyback, or (b) not to participate in the Buyback and get a resultant increase in their percentage shareholding in the Company post the Buyback, without any additional investment.

Even if the Eligible Shareholder does not receive the Letter of Offer along with a tender form, the Eligible Shareholder may participate and tender shares in the Buyback. As required under the Buyback Regulations, the dispatch of the Letter of Offer will be through electronic mode only, within 2 (two) working days from the Record Date and if any Eligible Shareholder requires a physical copy of the Letter of Offer, a request to be sent to the Company or the Registrar to the Buyback and the same shall be provided.

13.3. The Equity Shares proposed to be bought back by the Company shall be divided into two categories; (i) reserved category for Small Shareholders (*defined below*) and (ii) the general category for all other Eligible Shareholders.

13.4. As defined in Regulation 2(i)(n) of the Buyback Regulations, a "Small Shareholder" is a shareholder who holds Equity Shares having market value, on the basis of closing price of shares on the Stock Exchanges, on which the highest trading volume in respect of the Equity Shares on the Record Date was recorded, of not more than INR 2,00,000/- (Indian Rupees two lakh only) ("**Small Shareholder**"). For the purpose of classification of a shareholder, as a "Small Shareholder", multiple demat accounts having the same permanent account number ("**PAN**"), in case of securities held in the demat form are to be clubbed together.

13.5. In accordance with Regulation 6 of the Buyback Regulations, 15% of the number of Equity Shares which the Company proposes to buy back or the number of Equity Shares entitled as per the shareholding of Small Shareholders as on the Record Date, whichever is higher, shall be reserved for the Small Shareholders as part of this Buyback.

13.6. Based on the shareholding as on the Record Date, the Company will determine the entitlement of each Eligible Shareholder, including Small Shareholders, to tender their Equity Shares in the Buyback. This entitlement for each Eligible Shareholder will be calculated based on the number of Equity Shares held by the respective Eligible Shareholder as on the Record Date and the ratio of Buyback applicable in the category to which such Eligible Shareholder belongs. The final number of Equity Shares the Company will purchase from each Eligible Shareholder will be based on the total number of Equity Shares tendered by such Equity Shareholder. Accordingly, the Company may not purchase all of the Equity Shares tendered by the Eligible Shareholders in the Buyback.

13.7. In accordance with Regulation 9(ix) of the Buyback Regulations, in order to ensure that the same shareholders with multiple demat accounts/folios do not receive a higher entitlement under the Small Shareholder Category, the Company will club together the equity shares held by such shareholders with a common PAN for determining the category (i.e., Small Shareholder or general) and entitlement under the Buyback. In case of joint shareholding, the Company will club together the equity shares held in cases where the sequence of the PANs of the joint shareholders is identical. In case of physical shareholders, where the sequence of PANs is identical, the Company will club together the equity shares held in such cases. Similarly, in case of physical shareholders where PAN is not available, the Company will check the sequence of names of the joint holders and club together the equity shares held in such cases where the sequence of name of joint shareholders is identical. The shareholding of institutional investors like mutual funds, pension funds/ trusts, insurance companies etc., with common PAN will not be clubbed together for determining the category and will be considered separately, where these Equity Shares are held for different schemes and have a different demat account nomenclature based on information prepared by the registrar and transfer agent ("**RTA**") as per the shareholder records received from the depositories. Further, the Equity Shares held under the category of "clearing members" or "corporate body margin account" or "corporate body - broker" as per the beneficial position data as on Record Date with common PAN are not proposed to be clubbed together for determining their entitlement and will be considered separately, where these Equity Shares are assumed to be held on behalf of clients.

13.8. After accepting the Equity Shares tendered on the basis of entitlement, the Equity Shares left to be bought back, if any, in one category shall first be accepted, in proportion to the Equity Shares tendered over and above their entitlement in the offer by Eligible Shareholders in that category, and thereafter from Eligible Shareholders who have tendered over and above their entitlement in the other category.

13.9. The participation of the Eligible Shareholders in the Buyback is voluntary. Eligible Shareholders may opt to participate, in part or in full, and receive cash in lieu of the

Contd.

Equity Shares accepted under the Buyback or they may choose not to participate. Eligible Shareholders holding Equity Shares also have the option of tendering additional shares (over and above their entitlement) and participate in the shortfall created due to non-participation of some other Eligible Shareholders, if any.

13.10. The maximum number of Equity Shares that can be tendered under the Buyback by any Eligible Shareholder should not exceed the number of Equity Shares held by the Eligible Shareholder as on the Record Date. In case the Eligible Shareholder holds Equity Shares through multiple demat accounts, the tender through a demat account cannot exceed the number of equity shares held in that demat account.

13.11. The Equity Shares tendered as per the entitlement by Eligible Shareholders as well as additional Equity Shares tendered, if any, will be accepted as per the procedure laid down in Buyback Regulations. If the Buyback entitlement for any shareholder is not a round number, then the fractional entitlement shall be ignored for computation of Buyback entitlement to tender Equity Shares in the Buyback. The settlement of the tenders under the Buyback will be done using the mechanism notified by the SEBI Circulars.

13.12. Income arising to the shareholders under the Buyback is exempt from income tax in India. However, the participation in the Buyback by non-resident shareholders may be taxable in their country of residence according to tax laws of their respective countries. The Buyback transaction would also be chargeable to securities transaction tax in India. The shareholders are advised to consult their own legal, financial and tax advisors prior to participating in the Buyback.

13.13. Detailed instructions for participation in the Buyback (tender of Equity Shares in the Buyback) as well as the relevant timetable will be included in the Letter of Offer which will be sent to the Eligible Shareholders.

14. PROCESS AND METHODOLOGY TO BE ADOPTED FOR BUYBACK

14.1. The Buyback is open to all Eligible Shareholders/beneficial owners of the Company holding Equity Shares either in physical or dematerialized form, as on the Record Date.

14.2. The Buyback shall be implemented using the "*Mechanism for acquisition of shares through Stock Exchange*" pursuant to the SEBI Circulars ("**Stock Exchange Mechanism**"), and following the procedure prescribed in the Act and the Buyback Regulations and as may be determined by the Board (including the committee authorized to complete the formalities of the Buyback) and on such terms and conditions as may be permitted by law from time to time.

14.8. The cumulative quantity of Equity Shares tendered shall be made available on the website of the BSE (i.e., www.bseindia.com) throughout the trading session and will be updated at specific intervals during the tendering period.
